Dear Sir;

I am sure you are aware of the 40.76% increase in rates Ky. American is proposing to be put on former Tri Village customers. I can not understand such a outlandishly high amount; my son and I run a dairy and milked 50 cows last year I lost money all year. We are expecting to get more for our milk this year, but it looks like the profit will go to pay the water bill if you allow this ridiculous increase.

Sincerely;

Billy Davis
