RE: Case No. 2004-00442 - Supplement Info to Application and December 30, 2004 Response

Dear Ms. O'Donnell,

Clark Energy wishes to clarify information contained within our November 16, 2004 Application to adjust CATV pole attachment rates and our December 30, 2004 response in Case No. 2004-00442. Depreciation rates reflected within the current Application are the same as those within our last CATV case (2000-529) and general rate case (92-219).

Please contact me (smesser@clarkenergy.com) if you have any questions or need additional information.

Respectfully,

Shannon D. Messer
System Engineer
