RE: Joint Application of the Illinois Municipal Electric Agency and the Indiana Municipal Power Agency for Approval to be a 25% Partner in the Construction of a 750 Megawatt Addition to the Existing Trimble County Generating Facility in Trimble County, Kentucky
Siting Board Case No. 2005-00152

Dear Ms. O'Donnell:

Enclosed please find and accept for filing the original and ten (10) copies of Louisville Gas and Electric Company's and Kentucky Utilities Company's revised response to Question No. 10 (A) of the IBEW and Trades Council Data Request dated August 26, 2005 and filed on September 6, 2005. An electronic copy of this filing has been posted to the Commission's Electronic Filing Center.

The attached electronically filed documents are a true representation of the original documents that have been filed with the Commission.

Very truly yours,

John Wolfram
Manager, Regulatory Affairs

KENTUCKY UTILITIES COMPANY**

CASE NO. 2005-00152

**Response to the IBEW/Trades Council
Data Request to Intervenors
Dated: August 26, 2005**

Question No. 10

Responding Witness: John N. Voyles

Q-10. The BEC Report states, under Supplemental Investigations and Interviews (p. 30, 31):

LG&E indicated that construction workers during past construction projects at the site commuted from Louisville, LaGrange, Carrollton and Madison, Indiana. The study team learned more about the historical construction workers experience at the Trimble County site during its interview with LG&E officials on March 28. The most similar construction experience occurred during the 2000 to 2002 period when the SCR was built at the same time that a number of the combustion turbines were also under construction. A total of 900 construction workers were on-site at peak during that time. Workers performed 10 hour shifts, 6 days a week; approximately 30% of the workers were existing residents of the Louisville-Cincinnati region. An estimated 70% moved into the region for the duration of their activity at the project.

With regard to the cited portion of the report above, please respond to the following:

- A. Identify the LG&E officials participating in the interviews and supplying information.
- B. Produce any notes, transcriptions, summaries or other documents which memorialize or otherwise document the factual basis that supported the conclusion: "An estimated 70% moved into the region for the duration of their activity at the project."

- A-10. A. Roger Hickman, Noel Lively, John Wolfram, Mike Winkler, Diana Doyle, Tom Crutcher, Phil Rabe, Scott Straight.
- B. As referenced, the Companies engaged in a verbal interview process and no such documents were provided as part of that process.
