Case 2005-00152

Dear Ms. O'Donnell:

The Illinois Municipal Electric Agency (IMEA) and the Indiana Municipal Power Agency (IMPA) give notice that they intend to file a joint application for approval of their collective 25% ownership of the proposed Trimble County electric generating plant, which is being constructed by Louisville Gas & Electric Company and Kentucky Utilities Company. IMEA and IMPA collectively own 25% of the existing Trimble County Unit 1. Pursuant to their respective Trimble County Unit 1 Participation Agreements, they also have rights to participate in the development and ownership of the new project. While their portion of this project qualifies as a "merchant electricity generating facility" under KRS 278.700 ff, IMEA and IMPA are joint action agencies and will use their portion of this project to provide wholesale power to their respective member communities pursuant to long-term contracts.
