Data Request No. 11

**DATA REQUEST NO. 11**: Do you agree that the alleged issue of whether "BellSouth fails to provide line sharing at just and reasonable rates in accordance with its Section 271 obligations" currently is being addressed by the Commission in Docket No. 2004-00427.

**RESPONSE:** While an issue in that docket addresses line sharing, only the parties or the FCC can address line sharing on any permanent basis. AT&T offers line sharing via a commercial agreement. To date, BellSouth does not. Why consumers in Texas should have a competitive choice for broadband that consumers in Kentucky do not, and whether encouraging BellSouth's anti-competitive behavior is in the public interest, are not being addressed in Docket No. 2004-00427.

**DATA REQUEST NO. 12**: Do you agree that the alleged issue of whether "BellSouth fails to commingle Section 251 line splitting with all of its wholesale products" currently is being addressed by the Commission in Docket No. 2004-00427.

**RESPONSE:** While the issues of commingling and line splitting are being addressed in that docket, related important issues for this merger review are not. AT&T offers line splitting in connection with its DS0 commercial agreement. To date, BellSouth only offers to commingle those services in a limited number of states (but not in Kentucky). Why consumers in Texas, Georgia and North Carolina should have a competitive choice for broadband that consumers in Kentucky do not, and whether encouraging BellSouth's anti-competitive behavior is in the public interest, are not being addressed in Docket No. 2004-00427.

Submitted to and filed with the Kentucky Public Service Commission this 23rd day of May, 2006.

Respectfully submitted,

/s/ Henry S. Alford
