Re: Fleming-Mason Energy's Application for Certificate of Public Convenience and  
Necessity ("CPCN") **Case No. 2008-00043**

Dear Ms. O'Donnell:

Fleming-Mason Energy ("FME") is submitting an Application for a CPCN to construct distribution facilities according to its new two-year Construction Work Plan ("CWP") program. The Application and all supporting documentation are being filed using the procedures and guidelines of the Commission's electronic filing initiative. Commission staff has already assigned the Application to Case No. 2008-00043 and assigned FME a user ID and password.

The Application and all materials filed electronically in support of Case No. 2008-00043 are a true, accurate and complete representation of the original documents.

One (1) complete original Application in paper form will be filed with the Commission pursuant to the guidelines for electronic filing.

Please contact myself or Brandon Hunt, System Engineering at FME should you have any questions or need additional information in regard to this filing.

Respectfully,

Gary E Grubbs, P.E.  
Principal Engineer  
Patterson & Dewar Engineers, Inc.
