**Subject:** Proposed rate increase for Kentucky American Water  
**Auto forwarded by a Rule**

Dear Commissioners:

I find it hard to believe and understand how in today's economic climate that you would even consider a potential increase of any kind. 31.27%...are you kidding me? Is the intent of this over-inflated proposal will make the PSC look good when you only grant a 10-15% increase. Do they believe that the public is that stupid! While I understand that the cost of business has increased, it is time that KY American work with less profits, reduce executive compensation, operate more efficiently and STOP passing their costs along to the consumer.
