

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Michael A. Miller/Sheila Miller

1. Please provide the total number of water service meters assigned to Lexington as a customer in the base period and in the forecasted test period, and the total revenue requirement assigned to Lexington as a customer in the base period and the forecasted test period.

Response:

As of April 13, 2010, KAW shows the LFUCG with 521 metered water service accounts. No adjustments were made to the LFUCG accounts in arriving at the forecasted test year billing determinants.

Revenue requirement is assigned to total customer class using billing determinants and usage as a class, not on an individual customer basis.

For the electronic version, refer to KAW_R_LFUCGDR1#1_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Michael A. Miller/Sheila Miller

2. Under how many different types of customer rate classes does Lexington currently make payments to KAWC? For each type of class, please provide the following information:
- (a) The type of customer rate class;
 - (b) The number of accounts in each such class;
 - (c) Whether such accounts are metered;
 - (d) The account numbers for each separate account;
 - (e) The physical location, by street address, GPS marker (or other easily understood designation) of each separate account;
 - (f) The basis and explanation for treating the account as a separate account, whether it is because it is separately metered or otherwise;
 - (g) The total amount paid by Lexington to KAWC for the provision of water for each of its separate accounts for each year, going back the inception of KAWC's last approved rate increase; and
 - (h) The total net projected impact for each such class under the proposed rate increase.

Response:

- (a-e) See the attached file.
- (b) 280 Residential; 10 Commercial; 227 OPA; 39 Private Fire; 8 Public Fire.
- (c) All accounts except fire service accounts are metered.
- (d) See attachment referenced above.
- (e) See attachment referenced above.
- (f) A separate account is determined by the existence of a service line and meter to serve a specific location.
- (g) See attachment referenced above.
- (h) Please see workpaper KAW_APP_EX37M_022610.pdf page 3 of 19 for percentage increase by customer class.

For electronic version of this response, refer to KAW_R_LFUCGDR1#2_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Michael A. Miller

3. Does KAWC believe that the filing and/or proposed rate increases will in any way change the types of services for which it pays franchise fees to Lexington? If so, please explain.

Response:

No.

For the electronic version, refer to KAW_R_LFUCGDR1#3_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Linda C. Bridwell

4. Please describe in detail any ongoing efforts of KAWC to expand its sale or provision of water to the Bluegrass Water Supply Commission or any of its members.

Response:

The Bluegrass Water Supply Commission did not timely exercise any of the many options in its agreement with KAW that would have allowed expansion of the new facilities to accommodate BWSC's needs. However, KAW has indicated to the BWSC chairman and its legal counsel that KAW continues to be interested in a regional partnership through numerous conversations.

In May 2008, KAW sent a written letter to the City of Winchester in response to a request for a proposal for additional water sales. In a joint meeting of the Winchester City Commission and the Winchester Municipal Utilities Commission, the two entities voted to pursue a new water treatment plant. KAW has continued to indicate an interest in a partnership with Winchester, meeting with Mayor of Winchester in January 2010.

KAW offered a tour of the new facilities to the Bluegrass Area Development District, and a few regional water utilities were represented on the tour (it occurred on September 25, 2009).

KAW has indicated through continued conversations with other members of the BWSC that it would be willing to discuss regional partnerships with either the BWSC or individual members, and recently sent a letter to all BWSC members offering both a tour of the facilities and additional discussions with any interested parties.

For the electronic version, refer for KAW_R_LFUCGDR1#4_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Linda C. Bridwell

5. Please provide all information relating to prospective sales of water to communities or facilities outside Fayette County, and more specifically, whether such efforts are being increased due to the additional water that will be available upon completion of the new treatment plant and pipeline. If not, please explain. Please also explain any marketing or other efforts in detail.

Response:

KAW has maintained relationships with other water utilities in Central Kentucky for decades, and frequently discusses the opportunities for additional water sales to other utilities during the course of conversation. No specific prospective sales of water to communities or facilities outside Fayette County exist other than discussed with Bluegrass Water Supply Commission as detailed in Item 4 of this same data request. Efforts are not being increased because there will not be additional water available upon completion of the new treatment plant and pipeline. The size of the facilities that was designed and constructed was solely for KAW's current customers and projected population growth through 2030 for the area that KAW currently serves. There is no excess capacity that is available for marketing to other utilities. The partnership with the Bluegrass Water Supply Commission required the BWSC make a financial commitment that would expand the plant capacity to make additional water available to the members of the BWSC. When the BWSC did not pursue the expansion, additional facilities were not constructed.

For the electronic version, refer to KAW_R_LFUCGDR1#5_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Linda C. Bridwell

6. What is the status of the KAWC business and marketing plan for the sale of water generated by the new treatment plant to Central Kentucky cities and municipalities beyond Lexington- Fayette Counties?

Response:

There is none as the capacity of the new water treatment plant is designed and constructed solely for the customers of KAW and projected population growth in the areas that KAW currently serves through 2030.

For the electronic version, refer to KAW_R_LFUCGDR1#6_043010.pdf.

LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Keith Cartier

8. How many KAWC employees are located in Lexington, Kentucky? Please provide a description of the number and types of position for each. If KAWC anticipates any change within the next five (5) years, please provide the specific details.

Response:

There are 129 employees in Lexington.

Administrative and Engineering	24
Field Operations	75
Production	30
Total	<u>129</u>

While KAW is continually exploring ways to operate more efficiently and cost effectively, the Company does not expect any material change in this number over the next five years.

For the electronic version, refer to KAW_R_LFUCG1#8_043010.pdf.

LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Lance Williams/Sheila Miller

9. How many public fire hydrants are currently in use? How many of these hydrants are billed to Lexington?

Response:

There is a total of 7,388 public fire hydrants currently in use and 6,811 are billed to Lexington.

For the electronic version, refer to KAW_R_LFUCGDR1#9_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Sheila Miller

10. How many public fire hydrants are projected to be in use during the forecasted test period? How many of these hydrants are projected to be billed to Lexington?

Response:

The number of public fire hydrants projected to be in use during the forecasted test period is 7,387. The filing does not break out the number that is projected to be billed to Lexington.

For the electronic version, refer to KAW_R_LFUCGDR1#10_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Sheila Miller

11. Is the Public Fire Service Revenue component of the cost of service study comprised of anything other than the total number of public fire hydrants and the tariff (KAWC Exhibit 36, Schedule A)?
- (a) What is the total number of public fire hydrants in the base period?
 - (b) What is the total number of public fire hydrants in the forecasted test year?

Response:

- (a) The total number of public fire hydrants in the base period is 7,327.
- (b) The total number of public fire hydrants in the forecasted test year is 7,387 based on a thirteen month average from September 2010 through September 2011.

The Public Fire Service Revenue component of the cost of service study is only comprised of the total number of public fire hydrants multiplied by the tariff.

For the electronic version, refer to KAW_R_LFUCGDR1#11_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Lance Williams

12. Please provided a breakdown of the total number of the following fire hydrants in Fayette County: (a) public fire hydrants, (b) fire hydrants that are owned and maintained by KAWC, but located on private property, and (c) hydrants for which KAWC is not the owner. If possible, please provide the location of each hydrant. If this information is not available, please explain what action, if any, KAWC is taking to track this information going forward in time.

Response:

- (a) KAW has record of 6,920 public hydrants in Fayette County on its maps. Please see the attached file labeled Public Hydrants Fayette County, KY.
- (b) KAW has listed 744 private hydrants, some of which are billed to LFUCG. These are generally located on private property, but are connected to a KAW owned and maintained water line. Please see the attached files labeled Private Hydrants in Fayette County, KY and Private Hydts billed to LFUCG.
- (c) KAW has 545 hydrants listed as privately-owned in Fayette County. Please see the attached files for their locations and categorized as (a) Privately Owned Fire Hydrants in Fayette County, KY and (b) Privately Owned Hydrants LFUCG.

For each hydrant KAW owns, it is included electronically on KAW's CAD maps within a few months of being placed in service and a notice is sent to the billing department by the inspector to begin billing the appropriate party as soon as it is placed in service. For privately-owned hydrants, KAW initiates billing once the connection is installed and if a hydrant is later added, KAW may not receive notification and have it marked on the maps.

For the electronic version, refer to KAW_R_LFUCGDR1#12_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Lance Williams

13. Please describe the process that is undertaken before a privately owned fire hydrant is added to KAWC's system. Please provide a copy of any contracts or other documents that are required to be followed or executed by the owner of the hydrant.

Response:

The determination as to whether a privately owned hydrant is to be installed is based on a KAW required review of the developer's plans by the attendant fire department. A delivered copy of those plans with a sign-off or letter from the fire department is required before KAW will initiate action. Privately owned fire hydrants are those which are installed in an existing private piping system downstream of a "special connection valve" which separates the KAW system from the unmeasured private piping system.

The hydrant plans must be reviewed by KAW in advance to determine that it will meet and be installed per our specifications. We will assign a KAW inspector to review and to inspect the installation, prepare a work order estimate and require a deposit for the estimated amount. The developer also is required to sign a "Special Connection Agreement" (see attached) for the hydrant and submit a Tap Application and Service Contract (see attached) to establish a pre-billing account. (This process generates a tap set meter form in ORCOM, which is returned to the inspector.) Upon completion of the inspection of the installation, the tap set meter form is returned to billing for activation.

For the electronic version, refer to KAW_R_LFUCGDR1#13_043010.pdf.

APPLICATION FOR SPECIAL CONNECTION

For KAW Office Use Only	
Account No.	
Contract No.	1299
Asset Work Order No.	448830

This Application, made in duplicate this _____ day of _____, 20_____, by DEVELOPER NAME, hereinafter called the "APPLICANT", to KENTUCKY AMERICAN WATER, a Kentucky corporation located at 2300 Richmond Road, Lexington, Kentucky, 40502, hereinafter called the "WATER COMPANY."

The APPLICANT, upon the terms and conditions hereinafter set forth, hereby applies to the WATER COMPANY for a special connection, consisting of the right to connect a six 6-inch service pipe to a water main in Fayette County and attach to said service pipe the following fixtures and openings:

- **A privately owned hydrant (PO XXX)**

all of which fixtures and openings to be located within or upon the premises of the APPLICANT abutting the street on which the said main of the WATER COMPANY is located.

In consideration for which privilege the APPLICANT agrees to be bound by all the terms and conditions of this Application and pay the WATER COMPANY for private fire protection service at the schedule of rates in effect from time to time during the rendition of such service.

The further terms and conditions upon which this Application may be accepted by the WATER COMPANY are as follows:

FIRST: That this Application and the acceptance thereof by the WATER COMPANY may be subject to the prior approval of the fire department having jurisdiction of the premises to be served.

SECOND: That the entire service system on APPLICANT's premises shall be subject to the inspection, test and approval of the WATER COMPANY, and the WATER COMPANY by its representatives, shall have the right to enter the premises of the APPLICANT at any reasonable time for the purpose of making such reasonable inspections as it may deem necessary, and to insure compliance with the terms and conditions of this Application.

THIRD: That all pipes and appurtenances shall be constructed and maintained in good condition by and at the expense of the APPLICANT.

FOURTH: That a fire line meter or detector device, approved by both the WATER COMPANY and the fire underwriters, will be required on the service at a location approved by the WATER COMPANY. Such meter or device shall be installed and maintained by and at the cost and expense of the APPLICANT, but subject to the inspection and approval of the WATER COMPANY. The bypass meter only, used with the detector device, shall be furnished, installed and maintained by the WATER COMPANY at its cost and expense.

FIFTH: That a gate valve with the post indicator controlling the entire supply shall be placed at the curb or property line of the street in which the main is located or at such other point as may be approved by the WATER COMPANY, and shall be furnished, installed and maintained by and at the expense of the APPLICANT, and unless otherwise approved by the WATER COMPANY, said valve shall be installed in a valve pit or vault which shall also be furnished, installed and maintained by and at the expense of the APPLICANT.

SIXTH: That all hydrants and other fixtures connected to any private fire protection service system shall be kept closed and sealed, and not opened or used except during times of fire or testing. Upon extinguishment of each fire or following each test, the APPLICANT shall immediately close such fixtures and notify the WATER COMPANY so that they may be sealed. Whenever a private fire protection service system is to be tested, the APPLICANT shall notify the WATER COMPANY at least two business days in advance of such proposed test, requesting approval of the method, day and hour on which it is to be made.

SEVENTH: That no antifreeze or any other substance not specifically approved by the Environmental Protection Agency as non-detrimental to the public water supply, shall be introduced into sprinkling systems or into any pipe, fixture, appurtenance or other portion of the APPLICANT's private fire protection service system.

EIGHTH: That the APPLICANT understands and agrees that the extent of the rights of the APPLICANT under this Application is to receive, at times of fire on said premises, such supply of water as shall then be available and no other or greater quantity. The APPLICANT further acknowledges and agrees the WATER COMPANY shall not be considered in any way or manner an insurer of property or persons, or to have undertaken to extinguish fire or to protect any persons or property against loss or damage by fire, or otherwise, and the WATER COMPANY shall be free and exempt from any and all claims for damages on account of any injury to property or persons by reason of fire, water, failure to supply water or pressure, or for any other cause whatsoever.

NINTH: That this Application does not contemplate uses of fixtures other than those shown on Exhibit A. Any waste of water or use of water through this connection for purposes other than testing or the extinguishment of fire, shall be deemed a violation of the terms and conditions of this Application and of the rules, regulations and conditions of service of the WATER COMPANY.

TENTH: That if private fire hydrants are included as part of this Application, they shall not be painted any color other than that adopted by the WATER COMPANY for public fire hydrants.

ELEVENTH: That the APPLICANT shall furnish, attach and make a part hereof marked Exhibit A, three (3) complete sets of drawings showing the pipes, pumps, valves, hydrants, sprinkler systems, hose outlets and connections, standpipes, tanks and other openings and appurtenances contemplated in this Application. Such drawings, which shall be stamped "Approved" by the Insurance Services Office or other comparable agency approved by the WATER COMPANY, must also show all other water supply systems and pipelines and appurtenances which are proposed or which may exist on the premises to be served.

TWELFTH: That no pipe, fixture or appurtenance connected with the private fire protection service served by this Application shall be connected with any pipe, fixture or appurtenance supplied with water from any other source, unless specifically approved in writing by the WATER COMPANY.

THIRTEENTH: That the APPLICANT agrees to obtain in writing in advance the approval of the WATER COMPANY for any change, alteration, addition or deletion contemplated in the pipes, fixtures, openings and appurtenances and uses herein specified. Notwithstanding the approval of the WATER COMPANY, APPLICANT agrees that, except for those facilities which the WATER COMPANY had specifically agreed to provide and maintain, APPLICANT is and will be solely responsible for the design, adequacy, function and maintenance of its private fire protection service system referred to in this Application.

FOURTEENTH: That the WATER COMPANY has the right to discontinue or disconnect the service pipe herein applied for, and to terminate service under this Application, after due written notice to the APPLICANT, for failure to pay any bill when due, for failure to supply information to WATER COMPANY about the service system when so requested in writing, for leakage within APPLICANT's system, for violation of any of the terms and conditions of this Application, or for any violation of its rules, regulations and conditions of service; and the WATER COMPANY also has the right to shut off all or any part of its facilities by the WATER COMPANY(1) if a condition dangerous or hazardous to life, physical safety or property exists, (2) upon order by any court, the Public Service Commission or other duly authorized public authority, (3) if fraudulent or unauthorized use of water by APPLICANT is detected, or if the WATER COMPANY's regulating or measuring equipment has been tampered with by the APPLICANT.

FIFTEENTH: That upon acceptance of this Application by the WATER COMPANY and the completion of the installation of the service applied for, this Application shall be in full force and effect as a contract and shall continue as such until cancelled by written notice given thirty (30) days in advance by the APPLICANT to the WATER COMPANY, except as otherwise provided in numbered paragraph (14) above.

SIXTEENTH: The acceptance of this Application by the WATER COMPANY must be executed by its Project Manager–New Development/Construction before same becomes effective.

SEVENTEENTH: If ownership of the property served by the service applied for herein changes, notice thereof shall be given to the WATER COMPANY within thirty (30) days and the new owner shall be identified by name, address and proper person to contact.

EIGHTEENTH: That the APPLICANT or his agent is responsible for payment of the deposit for the estimated cost of construction to WATER COMPANY. To the extent there is any refund to be made at the end of the project after all costs are accrued, such refund will be paid to the APPLICANT by check made payable to the APPLICANT. To the extent that any amount is owed to WATER COMPANY at the end of the project after all costs are accrued, payment of such amounts is the responsibility of the APPLICANT. To the extent the APPLICANT owes any of the refunded amount to the contractors, APPLICANT agrees it is responsible for these amounts owed and that WATER COMPANY has no responsibility in that regard.

IN WITNESS WHEREOF, the APPLICANT has hereunto signed the day and year:

Chilesworth Development Co., LLC

Allow 20-25 days for service to be installed after all paperwork is received. **(PLEASE NOTE- Services larger than 2" are applied for and coordinated through the New Development/Construction Department. Installation time will vary, but will be a minimum of 90 days after application is made.)**

PLEASE ENSURE ADDRESS IS MARKED AND VISIBLE FROM THE STREET

The undersigned makes application for water service at Address _____
County _____ Subdivision _____ City _____ Zip _____

and hereby requests Kentucky American Water to make a connection to its main. **Kentucky American Water will specify the location, size, kind and quality of all material entering into the service connection and will set and turn on the meter.** The undersigned has completed the following requirements for the installation of a water meter at the above address:

1. Service line has been installed to the point where the meter is to be permanently connected **and** visibly marked by the customer to identify the connection point;
2. The service line which connects the customer supply, and for non-residential service lines the testable, approved backflow prevention device, at the meter setting is _____ inch (minimum 3/4") and will require a _____-inch meter to be set (**1 1/2" and larger meters require a completed Customer Data Sheet**). The service line is at 30 inches below ground level. **Service lines up to 2"** will have Type "L" or "K" copper line installed at the connection point or affixed with a male adapter at the connection point if the customer's line is other than Type "L" or "K" copper. **Service lines larger than 2"** will have Ductile Iron pipe or C-900 plastic pipe installed to the connection point. If another type of pipe is used at the connection point, the customer is required to make the connection; and
3. This service line is equipped with an easily accessible stop and waste valve inside and near the foundation of the building being supplied.

THE UNDERSIGNED AGREES TO THE FOLLOWING:

- Comply with all rules and regulations of Kentucky American Water, as approved by the Kentucky Public Service Commission.
- Comply with local codes and ordinances in the construction, use and alteration of the plumbing system.
- If non-residential, shall install an approved backflow prevention device to avert a cross connection or backflow condition.
- Shall not create an electric shock hazard by improper electric grounding to the plumbing system. Kentucky American Water assumes no responsibility for continuity of electrical grounding systems by the installation or removal of its meter.
- Must, at all times, take necessary measures to protect the meter box, meter setting and service line and is responsible for damages to Kentucky American Water property caused by them, their contractor and/or subcontractors.

THIS METER SERVES THE FOLLOWING PREMISE TYPE (CHECK ONE):

- Residential (single premise residence, duplex or multiple premise residence where each unit is served by its own meter).
- Commercial (multiple premise residence [apartment building] served by a single meter, private educational institutions, all businesses where water is not used principally in manufacturing or processing of a product. Commercial includes laundries, hotels, motels, restaurants, bars, non-government office buildings, non-government hospitals and other medical facilities, retail shops, etc.)
- Industrial (manufacturing or processing establishments where the water is used principally in the manufacturing or processing of a product. Industrial includes factories, refineries, bottling plants, etc.)
- Other Public Authority (OPA) (municipal, county, state or federal agencies). OPA includes municipal buildings, public schools, public libraries, government hospitals, fire stations, public housing developments, etc.
- Sales for Resale (sales to private or public water utilities where the water is to be resold to the customers of the utility).

SEWER SERVICE PROVIDED BY (CHECK ONE):

CONTRACT FOR NEW SERVICE

FOR KAW OFFICE USE ONLY:

Premise No.: _____ Acct. No.: _____ Customer No.: _____
Application for Special Connection No.: 2133 WO No.: 454384
Fire Hydrant No(s): _____ Fire Service No.: _____ Size: 8"
Operations Specialist (KAW Inspector): Wayne Southworth

I hereby make application and authorize Kentucky American Water to place a meter and turn on the water at the following address, and I agree to pay all bills by the due date specified on the bill for water furnished to any address where I either have an interest in the ownership of the property, directly or indirectly, or have requested service, and I hereby agree to continue to be responsible for the same until I notify Kentucky American Water in writing to the contrary.

I agree to take the necessary measures to protect the meter box, meter setting and the service during the installation of new services. I will be responsible for damages to Kentucky American Water property caused by me, my contractor and/or sub-contractor during on-site construction.

I agree to abide by the local codes and ordinances in the construction, use, and alteration of my plumbing system. I shall not create an electric shock hazard by improper electric grounding to the plumbing system. I agree to install an approved, testable backflow prevention device on all nonresidential incoming lines and irrigation systems to prevent the creation of a cross connection or backflow condition.

Kentucky American Water assumes no responsibility for continuity of electrical grounding systems by the installation or removal of its meter.

I agree to abide by and comply with all rules, regulations and rates of Kentucky American Water, as approved by the Public Service Commission of the Commonwealth of Kentucky and as changed from time to time.

If, at any time, any bill owed by me to Kentucky American Water, whether collectible under this Agreement or otherwise, is not paid when due and payable, then Kentucky American Water shall have the right to discontinue the supply of water to the location.

PLEASE COMPLETE THE FOLLOWING INFORMATION (return with deposit and signed agreements)

Service Address _____

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Lance Williams/Sheila Miller

14. Please provide the following information with respect to public fire hydrant charges:

- (a) The total number of hydrants charged to Lexington during the base period;
- (b) The total number of hydrants charged to Lexington during the forecasted test period;
- (c) The basis for the projection of the number of hydrants charged to Lexington during the forecasted test period;
- (d) Any adjustment to hydrant charges to reflect system uses of hydrants, including but not limited to flushing the KAWC system; and
- (e) Please provide the number (quantity), type, and location (by street address or other easy to identify locator) of each fire hydrant for which Lexington currently pays a monthly tariff.

Response:

- (a) See the response to LFUCG question 11a. See the response to LFUCG question 2 for the number of public hydrants billed to the LFUCG.
- (b) See the response to LFUCG question 11b. However, the filing does not break out the hydrants in detail to provide the number applicable to LFUCG.
- (c) The growth in the number of hydrants is based on historical growth.
- (d) None.
- (e) See the attachment for LFUCG question 2a-e for the listing of accounts and the attachments for Question 12 for the location listing.

For the electronic version of this response, refer to KAW_R_LFUCGDR1#14_043010.pdf.

LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Paul Herbert

15. Please detail the administrative cost component attributable to public fire protection, and provide any applicable work papers showing how the cost component is calculated.

Response:

The detail of administrative costs allocated to public fire protection is shown on Schedule B, page 12 of the cost of service study, column 10. The costs are derived by applying the allocation factor referenced in column 2 to the cost of service shown in column 3. The calculation of the allocation factors is provided in Schedule C of the study.

For the electronic version, refer to KAW_R_LFUCGDR1#15_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Lance Williams

16. What is the cost to KAWC (per unit) to acquire each type of fire hydrant?

Response:

All hydrants for 2009 are purchased from Mueller Company.

Type A-423 hydrants are purchased with either a pentagon or square operating nut and have two 2 ½" openings and one 4 ½" opening. These are purchased for \$622.40 each (including tax).

Type A-425 hydrants are purchased all with a square nut and two 4 ½" openings. These are purchased for \$711.27 each (including tax).

KAW installed 72 new public fire hydrants at an average total installed cost of \$3,308.86.

For the electronic version, refer to KAW_R_LFUCGDR1#16_043016.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Lance Williams

17. How many additional new fire hydrants does KAWC anticipate being installed in Fayette County over the next 5 years for which Lexington would be billed? Please net out any hydrants that would be removed from the system as part of this calculation.

Response:

Kentucky American Water does not project the number of hydrants to be installed by county or type over the five-year period. All new hydrant installations are currently projected in the Central Division.

2009 – 72 public hydrants (Central Division actual)

2010 – 72 public hydrants

2011 – 75 public hydrants

2012 – 75 public hydrants

2013 – 80 public hydrants

For the electronic version, refer to KAW_R_LFUCGDR1#17_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Keith Cartier

18. Please explain in detail KAWC's current policies, procedures, practices, and/or guidelines for testing, maintaining and/or replacing fire hydrants in Fayette County and provide copies of the same.

Response:

Kentucky American Water has an annual program to inspect every hydrant in the system and record flow data except during periods of extreme drought or other weather conditions that would impede the flow testing process. During inspection, the caps are opened and the hydrant is flowed at a low amount. The hydrant is then shut, caps replaced, and the hydrant is opened to full pressure to show any leaks. The hydrant is then shut and visually inspected. During a hydrant flow test, each hydrant is opened and flowed at full flow for at least two minutes. The static pressure, flow rate, and residual pressures are noted. The hydrant is then inspected and all outlets are inspected. If further maintenance is required based on either inspection, the hydrant is removed from service and repaired. Some minor repairs can be done by field service personnel at the time of the inspection with the hydrant in place. Other repairs require physical removal of the hydrant which are scheduled and performed in the field. Generally, a hydrant is replaced if it requires more extensive repairs than those which can be done in the field.

The fire hydrant maintenance procedures are at pages 209-222 of the confidential response to AG1#154.

For the electronic version, refer to KAW_R_LFUCGDR1#18_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Keith Cartier

19. Please describe in detail all inspections, maintenance, or testing that must be performed by KAWC on each type of fire hydrant to ensure that it operates properly, and provide a list breaking down each of the components of the above and its cost, as well as how frequently each of the above must be performed, or actually is performed. Also describe in detail all maintenance that must be performed by KAWC on the public fire system to ensure that it operates properly. Please explain how KAWC maintains any such records.

Response:

See the response to LFUCG1#18. KAWC maintains hydrant information in a database, and is in the process of migrating hydrant inspection work orders to a maintenance management system. At present, KAWC does not break down the costs to perform each activity required to inspect, maintain and test hydrants. Maintenance work is generally performed by individuals in the field operations department, although large scale repainting is generally performed by external contract vendors.

For the electronic version of this response, refer to KAW_R_LFUCG1#19_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Keith Cartier

20. Please provide the standard(s) that KAWC is using to determine that a fire hydrant is leaking, failed or obsolete. If a hydrant is identified in such a condition, is it still billed to the customer, or is immediately removed from future billing until corrected?

Response:

Fire hydrants are inspected annually. Should a functional problem occur and be discovered during an inspection, the fire hydrant will be repaired immediately by the inspector, or referred to maintenance for prompt repair. Because of the critical nature of fire protection, KAW gives a priority to hydrant repair. Should there be a functional problem found outside of routine inspections, the fire hydrant would be repaired promptly, normally within 48 hours. All fire hydrants can be partially or fully replaced using replacement parts; there is no set standard for replacement other than visually inspecting and operating to determine deficiencies.

Due to immediate action being taken on repairs or replacement of hydrants, service interruptions rarely last more than a few hours and billing is not interrupted. Even with total replacement, the installation of a new hydrant is normally done the same day the old hydrant is taken out of service. Therefore, there is rarely a period when a fire hydrant is not in service. Hydrants are generally kept in service if at all possible.

For the electronic version, refer to KAW_R_LFUCG1#20_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Keith Cartier/Lance Williams

21. Is there a minimum flow rate at which KAWC deems a fire hydrant not to be useful? What if anything, is done with respect to such hydrants, when they are identified? If there is a difference in how different types of hydrants are treated, please explain.

Response:

KAW will not generally install a hydrant in counties other than Fayette unless it is going to be attached to at least a six-inch main and flow at least 250 gpm. In Fayette County, hydrants are generally not installed unless they can flow at least 500 gpm with a residual pressure of at least 20 psi. KAW will paint the caps red to indicate a low-flow hydrant if it flows less than 500 gpm. For existing hydrants, KAW believes that any flow is useful for flushing purposes and would still consider it useful, and expects the local fire official to ask that hydrants be removed that they do not consider useful for either low flow or other reasons.

For the electronic version, refer to KAW_R_LFUCGDR1#21_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Keith Cartier

22. Does KAWC require its privately-owned fire hydrant or service customers to provide any evidence or documentation that such systems are being adequately maintained, inspected, or tested on regular basis, or does KAWC ever perform any testing? Please explain.
- (a) What, if anything, does KAWC do if it comes to its attention that a privately owned fire hydrant is no longer operable?

Response:

It is the responsibility of the property owner to maintain, inspect and test on a regular basis, subject to the requirements of the respective fire department, state fire marshall, building codes and the property owner's insurance providers. KAWC does not require private customers to provide documentation of maintenance or inspections.

- (a) If KAW learns that a privately-owned fire hydrant is no longer operable, KAW may shut off the service and cease billing.

For the electronic version, refer to KAW_R_LFUCG1#22_043010.pdf.

23. Would KAWC object to the PSC implementing additional minimum requirements with respect to maintenance, performance, or operational standards for all fire hydrants in Fayette County? Please provide a detailed response.
- (a) Does your answer differ depending upon the type of hydrant involved (public, private, and privately owned)? If so, please explain why.

Response:

No, not as long as KAW has an opportunity to participate in the process and is given consideration regarding recovery of any increased maintenance cost associated with any proposed requirements.

- (a) No.

For the electronic version, refer to KAW_R_LFUCG1#23_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Lance Williams

24. Are all privately-owned water lines metered at some point? If not, please explain how a determination is made with respect to whether such a line is metered.

Response:

No. For many years, KAW allowed water lines for private property to connect to the KAW distribution system through an unmetered "Special Connection Agreement" and provide individual meter installations for multiple commercial or residential customers to use from that line on private property. The meters are then read by KAW. KAW no longer offers this arrangement but still has a number of agreements in place. This was used at places like UK, large commercial malls or shopping centers and some large apartment complexes. Privately-owned fire service lines will have an indicator post that indicates flow has occurred but not metered. Beginning in 2006, KAW now requires fire service lines with more than 150 feet of proposed line or serving multiple buildings to be metered or for KAW to install, own and maintain the water lines up to each connection in an easement. This was implemented to help reduce unaccounted-for-water.

For the electronic version, refer to KAW_R_LFUCGDR1#24_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: John Spanos/Sheila Miller

25. What depreciable life basis (if any) for each type of fire hydrant does KAWC utilize? Is this the industry standard service? If not, please explain.

Response:

The average service life estimated in the depreciation study prepared in Case No. 2007-00143 for Account 335, Fire Hydrants, is 75 years. The 75-year average service life is within the industry range of 65 to 80 years for fire hydrants. The Company is proposing an 80 year life in the depreciation study filed with the Company's application.

For the electronic version, refer to KAW_R_LFUCGDR1#25_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Lance Williams

26. What is the individual fire flow requirement to which KAWC's water system in Fayette County has been designed and/or built?
- (a) Does this differ in any way from the historical or current actual performance level of the system?
 - (b) How often is this tested?
 - (c) Are these results provided to the LFUCG Division of Fire and Emergency Services?

Response:

There is not an individual fire flow requirement to which the KAW system has been built. Hydrants are generally not installed in Fayette County unless they can flow at least 500 gallons per minute with a residual pressure of at least 20 pounds per square inch (psi). The LFUCG Fire Department requests the hydrant installations, and if 500 gallons per minute at 20 psi is not available, they are specifically asked if a hydrant should still be installed despite lower flow conditions. The 500 gallons per minute with 20 psi residual is a minimum, and much greater flow is available at locations throughout the system.

- a. Not applicable
- b. Not applicable
- c. Please refer to the response to Item 19 of this same data request.

For the electronic version, refer to KAW_R_LFUCGDR1#26_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Lance Williams

27. What is the minimum fire flow protection required to meet ISO guidelines? Please provide any supporting documentation.

Response:

The ISO has developed a GUIDE FOR DETERMINATION OF NEEDED FIRE FLOW which is available at <http://www.isomitigation.com/downloads/ppc3001.pdf>. Needed fire flow will range from 500 gpm to 12,000 gpm for individual properties. ISO will not consider a hydrant in its rating that does not flow at least 500 gpm, and will not evaluate a community unless it can produce 250 gpm for fire flow for 2 hours at a 20 psi residual pressure.

For the electronic version, refer to KAW_R_LFUCGDR1#27_043010.pdf.

CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Keith Cartier/Michael A. Miller

30. Does KAWC have any plans to acquire any additional water or wastewater facilities during the forecast period? If so, please provide a detailed explanation.

Response:

KAWC does not currently have any written commitments to acquire additional water or wastewater facilities.

KAW has an active business development function that continues to develop potential acquisitions that would be beneficial to KAW and its existing customers. The Company believes growth in customers provides the opportunity for KAW to grow its customer base which in turn permits KAW to spread its fixed costs over a larger customer base. The company's existing customers benefit in this scenario.

For the electronic version, refer to KAW_R_LFUCGDR1#30_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Linda Bridwell/Michael A. Miller

31. Please refer to KAWC's Supplemental Data Response 31(a) dated February 29, 2008 in PSC Case No. 2007-00134. Which, if any, of the factors used by KAWC in estimating the overall rate impact of the new construction costs to be cumulatively less than 37% has changed? Please provide any corresponding workpapers or documents.
- (a) What changes have occurred in costs for this project and its projected costs since 2007?
 - (b) Explain in detail how all such costs were distributed (i.e. lobbying, construction, etc.).

Response:

The project cost has increased from that utilized by Mr. Miller in the 2/29/08 supplemental update DR 31(a) referenced above due to the increase in bid costs from those utilized at the hearing in case number 2007-00134. Ms. Bridwell discussed those bid increases at the March 6, 2008 hearing in response to questioning from Chairman Goss. In addition, the project cost has increased from the 2/29/08 estimate due to additional AFUDC resulting from only \$20.2 million of full rate base for the project being recognized in the settlement agreement (executed by the LFUCG) in case number 2008-00427 compared to the \$89.493 million estimate used for full rate base treatment in the 2/29/08 estimate. Please see the response to KAW_R_AGDR1#133 for a more detailed discussion of changes in the project costs since case number 2007-00134.

Please refer to the response to KAW_R_LFUCGDR1#33 for a break down of the current KRS II project costs.

For the electronic version of this response, refer to KAW_R_LFUCGDR1#31_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Michael A. Miller/Linda C. Bridwell

32. Please provide an update on the cost of the entire new treatment plant and pipeline project. Over what time period do you anticipate that the total cost of the project will be recouped through rate recovery?

Response:

On page 11 of 24 at line 15 of the Direct Testimony of Linda C. Bridwell, the current estimate of the cost of the entire project is identified as \$163.9 million and is the projected cost included in this case. In general, the cost of capital construction is fully recovered over the depreciated life of the asset. In the case of the new treatment plant and pipeline project, the various components have differing depreciation life expectancies.

For the electronic version, refer to KAW_R_LFUCGDR1#32_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Linda C. Bridwell

33. Please provide a detailed construction budget and work plan for the new water treatment plant and pipeline, broken down more specifically as follows:
- (a) How the funds are distributed with respect to general and sub-contracts for goods and services related to the plant or included in the total cost of the plant.
 - (b) What are the costs associated with goods, services and overhead provided by KAWC and its affiliates that are either related to the plant or included in the total costs of the plant?
 - (c) What are the costs associated with contracts or subcontracts related to the financing of the plant?

Response:

Please see attached file.

- (a) Please see attached file.
- (b) Please see attached file.
- (c) Please see attached file. Note that the costs for the tax exempt financing are included in the line item of AFUDC.

For the electronic version, refer to KAW_R_LFUCG1#33_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Linda C. Bridwell/Michael A. Miller

34. Please provide a list of all local governments in Kentucky (other than Lexington) who obtain water from KAWC and the terms of each such arrangement. As KAWC adds additional customers of this type, please explain whether such customers will reduce the burden of the new treatment plant and pipeline on existing customers, or whether they will in any way reduce the cost of future water rates.

Response:

Please refer to the response to Item 415, parts a, b and c of the Attorney General's First Data Request in this case, dated April 23, 2010. KAW generally negotiates wholesale water purchases in accordance with cost of service based agreements, therefore any additional customers would be required to cover the cost of the service requested. Currently, the new treatment plant has been designed and constructed for a capacity to meet KAW's current customers during hot, dry periods and droughts, and to meet projected population increases within the area that KAW currently serves through the year 2030. Any additional wholesale customer would need to pay for the cost of a plant expansion and the prorated portion of shared facilities (such as the transmission main). KAW customers would benefit through the economies of scale of utilizing shared facilities with either reduced rates or delayed rate increases depending on the size and scope of any future expansions.

For the electronic version, refer to KAW_R_LFUCGDR1#34_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Linda C. Bridwell

35. Please indicate the minimum daily water usage of the new treatment plant and pipeline, and whether this has in anyway changed since approval by the PSC.

Response:

For maintenance of mechanical equipment and electrical efficiencies, KAW estimates that a minimum of 6 million gallons per day on average should be produced at the new treatment plant and pumped through the pipeline, therefore, all of the operating and maintenance costs included in this case assume a minimum operation of 6 million gallons per day. The Company's expected use of the KRS II facility during normal operating conditions has not changed since approval of the KRS II project in case number 2007-00134.

For the electronic version, refer to KAW_R_LFUCGDR1#35_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Linda C. Bridwell

36. What is the amount of water available through the new facilities that will be available to Lexington in the event of a drought? How is KAWC balancing these needs with additional future water sales?

Response:

The entire capacity of the 20 million gallon per day facility is reserved for KAW customers equally in the event of the drought. Customers in Fayette County comprise over 90% of KAW's customers. The plant capacity is sized to handle the current treatment and raw water deficits of KAW's existing customers, and additional customers expected through population growth in the area KAW currently serves through 2030. The population projections used in KAW's demand projections are from the Kentucky State Data Center in Louisville.

For the electronic version, refer to KAW_R_LFUCGDR1#36_043010.pdf.

37. Has the actual current use of water met KAWC's projections from the last several years? Please explain.

- (a) To what extent are current demand and consumption rates consistent with the projections KAWC has submitted in PSC proceedings since 2002?

Response:

Yes.

- (a) Since 2002, KAW has submitted demand projections twice in PSC proceedings. The first time was in Case 2001-00117 as an update in 2004 to earlier information. The actual daily demands exceeded the projections by 1.93 million gallons per day on average from 2004 through 2009, or 4.76%.

The second demand projections submitted since 2002 were in the Certificate Case 2007-00134. The actual daily demands for 2007 through 2009 have exceeded the projections by 0.61 million gallons per day on average or 1.5%.

For the electronic version, refer to KAW_R_LFUCGDR1#37_043010.pdf.

**KENTUCKY-AMERICAN WATER COMPANY
CASE NO. 2010-00036
LFUCG'S FIRST REQUEST FOR INFORMATION**

Witness: Keith Cartier/Michael A. Miller

38. Please provide the total amount of water supplied by KAWC to its customers on an annual basis since 1985. To the extent possible, please provide the same information broken down into counties or regions.

(a) Please provide this information for each category of ratepayer.

Response:

Attached is the recap of water sales by customer class from 1990-2009, which encompasses the information readily available to KAW.

For the electronic version, refer to KAW_R_LFUCGDR1#38_043010.pdf.

Witness: Michael A. Miller/ Keith Cartier

39. What costs and revenues are associated with the administrative services provided by KAWC for processing LFUCG fees?

Response:

Revenues associated with contracts for sewer billing, landfill billing and water quality management fee billing are \$810K, \$301K, and \$364K, respectively, for the forecast period. The Company does not track the costs of providing these services separately on its books and records. The revenue obtained from providing these services is reflected in the Company's going level revenue and directly offsets the expenses of such in the overall revenue requirement provided in the Company's filing.

For the electronic version, refer to KAW_R_LFUCGDR1#39_043010.pdf.

41. Do you anticipate filing a rate case in the next two (2) years?

Response:

The Company cannot answer this question at this time. Any number of factors influence the decision to file a rate case, including but not limited to: financial market conditions, weather, capital investment levels, customer growth, etc. Another factor that will influence this decision will be the outcome of this case.

For the electronic version, refer to KAW_R_LFUCGDR1#41_043010.pdf.
