To Whom It May Concern:

I recently heard of the proposed rate hikes by Kentucky American Water. While I have always been very satisfied with the service, I could not agree with the proposed increases of an overall 37.7%. If memory serves me correctly, they just got a substantial increase less than a year ago. I am a residential home owner.

At a time like this in the economy when people are just barely able to hang onto their homes and businesses, it would be an additional hardship that may result in the water company getting less revenue due to delinquency in payment. Kentucky American Water is a solid company and I am sure can find another way to handle this situation.

Thank you for your consideration.

Sincerely,

Leslie Goode
