We are very upset about the rate increase that Kentucky American Water Company is thinking about levying on their customers.

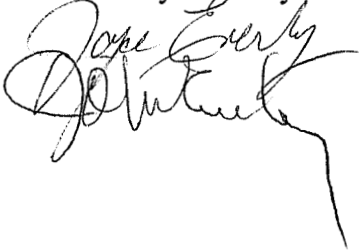

It is a 37.1% increase. How can they possibly justify that enormous amount of increase.

We are senior citizens and live on a fixed income, There are many of us trying to keep our heads above water in these trying times. I see no justification for a increase of that magnitude.

Please be sure when you are debating whether this company should have a 37.1 % rate increase and is that increase just for the people of this community.

Sincerely,

John and Joyce Everly

A handwritten signature in cursive script, appearing to read "Joyce Everly". The signature is written in black ink and includes a long, thin vertical line extending downwards from the end of the name.
