Please note my opposition to the recent KAWC rate increase request. KAWC received an 18% rate increase less than a year ago in June, 2009. Based on the information provided by KAWC, they indicated that the current request reflects "an overall increase of 37.7%." However, the residential rate per 1,000 gallons consumed is currently \$3.77200 and the proposed increase is \$5.76133 for a difference of \$1.98413 or an **increase of 52.6015%**. This is much more than an overall increase of 37.7%.
