Case No. 2010-00094

Dear Mr. Derouen:

Northern Kentucky Water District submitted a supplemental operating budget for the period encompassing the pro forma adjustments pursuant to 807 KAR 5:001, Section 10(7)(d)). That regulation requires a monthly operating budget; however, Northern does not prepare a monthly pro forma budget. Such a budget would provide no more useful information than the annual budget. To avoid the cost and delay of preparing another financial statement that would have no additional analytical value, Northern requests a deviation from this regulation pursuant to 807 KAR 5:001(14).

A deviation from this type of minor deficiency was requested in the application filed on June 4. Northern requests that the deviation be approved effective on the date of the filing of the supplemental information on June 14. If that is not allowed, revised proposed tariffs with an effective date of August 1, 2010 are attached.

In accordance with the Commission's orders in this case, I certify that the electronically filed documents are a true representation of the original documents.

Very truly yours,  
  
John N. Hughes

Attorney for Northern Kentucky  
Water District

CC: Attorney General
