

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION**  
Washington, D.C. 20549

**FORM 8-K**

**CURRENT REPORT**

Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934  
Date of Report (Date of earliest event reported): February 28, 2025

<u>Commission File Number</u>	<u>Registrant; State of Incorporation; Address and Telephone Number</u>	<u>IRS Employer Identification No.</u>
1-11459	<b>PPL Corporation</b> (Exact name of Registrant as specified in its charter) Pennsylvania 645 Hamilton Street Allentown, PA 18101 (610) 774-5151	23-2758192
1-2893	<b>Louisville Gas and Electric Company</b> (Exact name of Registrant as specified in its charter) Kentucky 220 West Main Street Louisville, KY 40202-1377 (502) 627-2000	61-0264150
1-3464	<b>Kentucky Utilities Company</b> (Exact name of Registrant as specified in its charter) Kentucky and Virginia One Quality Street Lexington, KY 40507-1462 (502) 627-2000	61-0247570

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
  - Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
  - Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
  - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of each class</u>	<u>Trading Symbol:</u>	<u>Name of each exchange on which registered</u>
Common Stock of PPL Corporation	PPL	New York Stock Exchange
Junior Subordinated Notes of PPL Capital Funding, Inc.		
2007 Series A due 2067	PPL/67	New York Stock Exchange

Indicate by a check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

- PPL Corporation
- Louisville Gas and Electric Company
- Kentucky Utilities Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

- PPL Corporation
  - Louisville Gas and Electric Company
  - Kentucky Utilities Company

## Section 8 - Other Events

### Item 8.01 Other Events

On February 28, 2025, Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU" and, together with LG&E, the "Companies") filed an application with the Kentucky Public Service Commission ("KPSC") regarding certain future plans for new generation and related matters.

The Companies submitted a joint application to the KPSC for approval of certain certificates of convenience and necessity, site compatibility certificates, and accounting treatment, where applicable, relating to a number of generation-related plans or projects that generally are expected to become operational or established within the next six years. The aggregate projected capital expenditures associated with these proposals are expected to be approximately \$3.725 billion over the 2025 to 2031 period. Projected capital expenditures related to these proposals were included in the Companies' latest forecasts reflected in the Companies' Form 10-K. The application includes proposals:

- to build a 645MW natural gas combined cycle ("NGCC") generation unit at KU's E.W. Brown station,
- to build a 645MW NGCC generation unit at LG&E's Mill Creek station,
- to build a four-hour 400MW (1,600MWh total) battery storage facility ("BESS") at LG&E's Cane Run station, and
- to build a selective catalytic reduction ("SCR") environmental facility for an existing coal generation unit at KU's Ghent station.

The new NGCC units are currently anticipated to be wholly owned by LG&E and the BESS unit jointly owned by LG&E and KU in respective 32% and 68% shares, with actual project costs allocated consistent with the Companies' ultimate ownership shares and existing shared dispatch, cost allocation, tariff or other frameworks. The proposed Mill Creek NGCC is in addition to a new NGCC generating unit currently under construction at that location.

The filing also notes projected in service dates for the projects, including the E.W. Brown NGCC in 2030, the Mill Creek NGCC in 2031, the Cane Run BESS in 2028 and the Ghent SCR in 2028.

The Companies cannot predict the outcome of the proceedings. The Companies anticipate a ruling from the KPSC during the fourth quarter of 2025.

The KPSC proceedings are designated as Case No. 2025-00045.

A copy of the Companies' press release is filed as an exhibit to this report.

## Cautionary Statement on Forward-Looking Statements

*Statements in this report regarding future events and their timing, including statements as to future costs or expenses, regulation, corporate strategy and performance, are “forward-looking statements” within the meaning of the federal securities laws. Although the PPL Corporation and the Companies believe that the expectations and assumptions reflected in these forward-looking statements are reasonable, these expectations, assumptions and statements are subject to a number of risks and uncertainties, and actual results may differ materially from the results discussed in the statements. The following are among the important factors that could cause actual results to differ materially from the forward-looking statements: subsequent phases of rate proceedings and regulatory cost recovery; market demand and prices for electricity and natural gas; political, regulatory or economic conditions in states and regions where the Companies conduct business; final negotiated terms and conditions in any prospective contracts and the progress of actual construction, purchase or installation of assets or operations. All forward-looking statements should be considered in light of these important factors and in conjunction with PPL Corporation’s and the Companies’ Form 10-K and other reports on file with the Securities and Exchange Commission.*

**Press Release**

February 28, 2025

**LG&E and KU power Kentucky's growth with plans for new generation and battery storage**  
*Accelerated economic development and data center growth driving need for more energy*

(LOUISVILLE, Ky.) – Record-breaking economic growth in the Commonwealth is catching worldwide attention and benefiting all Kentuckians with more job opportunities, increased tourism, and additional tax revenue.

The unprecedented economic growth and data center interest also means a greater need for electricity. As a result, Louisville Gas and Electric Company and Kentucky Utilities Company, subsidiaries of PPL Corporation (NYSE:PPL), requested approval for a Certificate of Convenience and Necessity today from the Kentucky Public Service Commission for additional generation capacity and battery storage.

LG&E and KU are proposing a significant investment in Kentucky's energy future, including:

- Building two new, highly efficient 645-megawatt natural gas combined-cycle units. These modern generating stations will use advanced technology, similar to the one currently under construction at the company's Mill Creek Generating Station in Jefferson County.
- Adding 400 megawatts of battery storage to the power grid. Battery storage is a key component of a modern energy system, allowing for better management of power supply and increased reliability at all times of the day.
- Upgrading environmental controls on Unit 2 at the Ghent Generating Station to further reduce emissions.

“This is an exciting time for Kentucky as the interest in locating new and expanding businesses continues to grow,” said John R. Crockett III, LG&E and KU President and PPL Chief Development Officer. “These investments in our system will allow us to continue serving our customers safely and reliably while meeting our regulatory obligation and the growing economic interest in the Commonwealth – all while maintaining affordability.”

LG&E and KU currently are in discussions with a variety of businesses that, all total, in the coming years have the potential generation need of up to 8,000 megawatts, more than double the utilities current energy demand. As regulated utilities, LG&E and KU are required to serve this new economic development load in the most reasonable least-cost manner.

The potential need for additional generation at the companies' E.W. Brown Generating Station in Mercer County was acknowledged by the KPSC in 2023. Since that time, the unprecedented growth has increased even more than anticipated, creating the need for even more generation. As outlined in today's filing and pending approval, LG&E and KU expect to have the first unit, Brown 12, available in 2030 and the second unit, Mill Creek 6, available in 2031.

Additionally, given the anticipated economic load growth increases by 2,000 megawatts between now and 2032, the companies plan to install 400 megawatts of battery energy storage at the Cane Run Generating Station and a selective catalytic reduction facility to reduce nitrogen oxide (NOx) emissions for Ghent Unit 2. Both will be available in 2028.

“We are pleased that our affordable generation and state regulations are encouraging growth that benefits all Kentuckians by bringing more jobs and additional tax revenue to the Commonwealth,” Crockett added. “Since the announcement of BlueOval, we have seen new and expanded manufacturing in our service territory. Now we’re seeing unprecedented interest in locating data centers to Kentucky. When these large businesses choose Kentucky, it benefits all our customers.”

The KPSC is expected to rule on the CPCN request by November.

###

*Louisville Gas and Electric Company and Kentucky Utilities Company, part of the PPL Corporation (NYSE: PPL) family of companies, are regulated utilities that serve more than 1.3 million customers and have consistently ranked among the best companies for customer service in the United States. LG&E serves 335,000 natural gas and 436,000 electric customers in Louisville and 16 surrounding counties. KU serves 545,000 customers in 77 Kentucky counties and 28,000 in five counties in Virginia.
