RE: Submission of Plans and Profiles for Phase Six of the Electric Transmission Line by Southern Indiana Gas & Electric Co. d/b/a Vectren Energy Delivery of Indiana, Inc. Pursuant to Order of the Kentucky State Board on Electric Generation and Transmission Siting, Case No. 2010-00223

Dear Mr. Derouen:

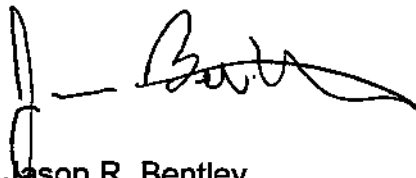

Southern Indiana Gas & Electric Co. d/b/a Vectren Energy Delivery of Indiana, Inc. (hereafter, Vectren), tenders herewith its Plans and Profiles for construction of Phase Six (6) of its 345kV Interstate Electric Transmission Line.

The attached document constitutes the final location of the line and its appurtenances for Phase Six of the project, which is the next phase ready for construction. Phase Six is the tie in at the Reid substation terminal to the terminus of the route approved by the Siting Board. The entirety of Phase 6 is on property owned by Big Rivers Electric Corporation ("BREC"), and the final alignment for Phase 6 was determined in conjunction and with the approval of BREC.

As pre-construction work on the next Phase of the project is completed, Vectren will tender its Plans and Profiles for that phase of construction.

Thank you, again, for your attention to this matter. Vectren truly appreciates the work of the Siting Board and the staff in this interstate baseline reliability project.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Bentley", written over a horizontal line.

Jason R. Bentley  
Attorney for Vectren Energy Delivery of Indiana
