RE: Submission of Plans and Profiles for Phase Four of the Electric Transmission Line by Southern Indiana Gas & Electric Co. d/b/a Vectren Energy Delivery of Indiana, Inc. Pursuant to Order of the Kentucky State Board on Electric Generation and Transmission Siting, Case No. 2010-00223

Dear Mr. Derouen:

Southern Indiana Gas & Electric Co. d/b/a Vectren Energy Delivery of Indiana, Inc. (hereafter, Vectren), tenders herewith its Plans and Profiles for construction of Phase Four (4) of its 345kV Interstate Electric Transmission Line.

The attached document constitutes the final location of the line and its appurtenances for Phase Four of the project, which is the next phase ready for construction. Phase Four begins at the structural support pole identified as #100, and continues to pole #140. All of the facilities in Phase Four are located along the centerline of the route as approved by the final Order of the Siting Board in this Case.

As pre-construction work on the next Phase of the project is completed, Vectren will tender its Plans and Profiles for that phase of construction. Thank you, again, for your attention to this matter. Vectren truly appreciates the work of the Siting Board and the staff in this interstate baseline reliability project.

Sincerely,

Jason R. Bentley
Attorney for Vectren Energy Delivery of Indiana
