RE: Submission of Plans and Profiles for Phase Seven and Amended Phase Six of the Electric Transmission Line by Southern Indiana Gas & Electric Co. d/b/a Vectren Energy Delivery of Indiana, Inc. Pursuant to Order of the Kentucky State Board on Electric Generation and Transmission Siting, Case No. 2010-00223

Dear Mr. Derouen:

Southern Indiana Gas & Electric Co. d/b/a Vectren Energy Delivery of Indiana, Inc. (hereafter, Vectren), tenders herewith its Plans and Profiles for construction of Phase Seven (7) of its 345kV Interstate Electric Transmission Line. The Plans and Profiles for Phase Seven are the last of such plans to be filed for the project approved by the Board in the above referenced matter.

The final route for Phase Seven was the subject of a recent route modification approved by the Board by Order dated September 26, 2012. As a result of this route modification, Vectren also herein submits revised Plans and Profiles for Phase Six (6), which were filed with the Board on May 23, 2012. The route modification for Phase 7 reduces the length of Phase 6 and eliminates the need for one support structure. Vectren previously halted construction on Phase 6, in order to resolve the Phase 7 route issue, so no structures will have to be moved. Thus, the attached Plans and Profiles for Phase 6 hereby amend and replace the previous Phase 6 filing and represent the final, to-be-constructed location of all structures in Phase 6.

With this filing of Phase 7 and amended Phase 6 Plans and Profiles, Vectren has now filed with the Siting Board a complete survey of the final location of the line and its

appurtenances as required by the Order granting the Certificate for this project.

Thank you, again, for your attention to this matter. Vectren truly appreciates the work of the Siting Board and the staff in this interstate baseline reliability project. Please do not hesitate to contact me if you have any questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Bentley". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Jason R. Bentley  
Attorney for Vectren Energy Delivery of Indiana
