**3. SWITCHED ACCESS SERVICE**

**3.4 SWITCHED ACCESS RATES AND CHARGES (CONT'D)**

**3.4.4 LOCAL SWITCHING**

A. Local Switching **RECURRING RATE**

**PER MOU**

Local switching rates will be reduced in accordance with the timeline established by the Commission's Orders dated March 22, 2012 and May 30, 2012 entered in Administrative Case No. 2010-00398.

Pursuant to 47 C.F.R. § 51.911(c), beginning July 3, 2012, FPB will charge for interstate originating and terminating switched access service at a rate equal to that of the competing incumbent local exchange carrier. For example, AT&T.

Pursuant to 47 C.F.R. § 51.911(c), beginning July 3, 2012, FPB will charge for intrastate originating and terminating switched access service at a rate equal to that of the competing incumbent local exchange carrier. For example, AT&T.

Because FPB is immediately reducing its access rates to those of the competing incumbent local exchange carrier, there is no need to calculate the Step 1 Access Revenue Reduction. Therefore, no supporting documentation or calculations are included.
