REQUEST NO. 1: Please identify the last time your Kentucky intrastateswitched access rates were changed and the proceeding in which they were changed. If the change was pursuant to a tariff filing and not a formal proceeding, please identify the tariff filing. If your Kentucky intrastateswitched access rates have remained constant since initially being established, please identify the date and the proceeding in which they were established.

OBJECTION: This request is overly broad, unduly burdensome, and is not reasonably calculated to lead to the discovery of admissible evidence. This request seeks publicly available information contained in Commission orders or tariffs filed with and approved by the Commission. Such information speaks for itself. Without waiving these objections, the RLEC's response follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: The Company's intrastateswitched access rates were last changed on November 1, 1999 pursuant to tariff filing TFS 1999-01105.

VERIZON

REQUESTNO.2: Please identify all of the rate elements in your current Kentucky intrastate switched access rates, including but not limited to any Carrier Common Line (“CCL”) rate element.

OBJECTION: The RLECs object that this request seeks publicly available information contained in Commission orders or tariffs filed with and approved by the Commission. Such information speaks for itself. Without waiving the objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

REQUEST NO. 3: Please identify your intrastate and interstate rate associated with each rate element identified in Request No. 2.

OBJECTION: This request is overly broad, unduly burdensome, and is not reasonably calculated to lead to the discovery of admissible evidence. To the extent that this request seeks information regarding the RLECs interstate rates, such request is irrelevant to the subject of this proceeding. This request seeks publicly available information contained in Commission orders or tariffs filed with and approved by the Commission. This request further seeks publicly available information contained in tariffs filed with and approved by the Federal Communications Commission ("FCC"). Without waiving these objections, the RLECs respond as follows.

REQUESTNO.4: Please identify the interstate and intrastate tariffs supporting the rates identified in Request No. 2.

OBJECTION: The RLEC object that this request is unduly burdensome because it seeks publicly available information contained in Commission orders or tariffs filed with and approved by the Commission. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: The Company is an Issuing Carrier of the F.C.C No. 5 Interstate Access Service Tariff filed by the National Exchange Carrier Association (“NECA”), Inc. effective July 1, 2010.

The Company is an Issuing Carrier of the PSC KY No. 2A Intrastate Access Service Tariff filed by Duo County Telephone Cooperative Corporation, Inc. effective November 1, 1999.

REQUEST NO. 5: Please identify whether your Kentucky intrastate switched access rates contain any charges or other recovery for any Non-Traffic Sensitive Revenue Requirement (“NTSRR”). If so, please identify the rate or amount of your NTSRR charges, fully describe how they are assessed (e.g., on a monthly or per minute basis), and identify the intrastate switched access rate elements containing or reflecting any NTSRR charges or recovery.

OBJECTION: The RLECs object that this request is unduly burdensome because it seeks publicly available information contained in Commission orders or tariffs filed with and approved by the Commission. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: The Company developed an NTSR rate per terminating rated access minute by dividing its annual NTS Revenue Requirement by the total terminating rated access minutes for all customers.

The monthly NTSR charge for each customer is determined by multiplying the NTSR rate per terminating rated access minute by each customer's monthly terminating rated access minutes.

The annual total of the monthly NTSR billing to each customer is adjusted to an amount that is equal to the Company's annual NTS Revenue Requirement multiplied by the customer's annual percent distribution.

REQUESTNO.2: Provide your average interstate and intrastate switched access charges per minute, by month for the past five years.

OBJECTION: This request is overly broad, unduly burdensome, and is not reasonably calculated to lead to the discovery of admissible evidence. To the extent that this request seeks information regarding the RLECs interstate rates, such request is irrelevant to the subject of this proceeding. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

REQUESTNO.3: For 2010, what was your company's total intrastate switched access revenue, by rate element, from all recurring switched access rate elements billed (including switched dedicated elements that are priced on a flat-rate basis)?

OBJECTION: This request is overly broad and is not reasonably calculated to lead to the discovery of admissible evidence. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

REQUESTNO.4: For each rate element identified in Request #3 above, provide the intrastate billed demand for each rate element for 2010.

OBJECTION: This request is overly broad and is not reasonably calculated to lead to the discovery of admissible evidence. This request is vague and ambiguous insofar as the meaning of the term "billed demand" is not certain. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

REQUEST NO. 5: Identify any differences in rate structure between your interstate and intrastate switched access tariffs.

OBJECTION: This request is overly broad and is not reasonably calculated to lead to the discovery of admissible evidence. This request seeks information regarding the RLECs interstate access rates, which are irrelevant to the subject of this proceeding. Moreover, inter- and intrastate access rates are not comparable because interstate services involve explicit cost recovery mechanisms outside of the rate, while intrastate services include cost recovery within the rate itself. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: Duo County Access Tariff & NECA have same rate structure. Duo County Access Tariff includes a charge for Non-Traffic Sensitive Revenue. This rate is not included in the Company's Interstate Tariff .

TWTC/LEVEL3/PAETEC

REQUEST NO. 6: Provide a comparison of your interstate and intrastate switched access rates by rate element for 2009 and 2010.

OBJECTION: This request is overly broad, unduly burdensome, and is not reasonably calculated to lead to the discovery of admissible evidence. This request is vague and ambiguous because the scope of the requested "comparison" is unstated. This request seeks publicly available information contained in tariffs filed with the Commission and the FCC. To the extent that this request seeks information regarding the RLECs' interstate access rates, such request is irrelevant to the subject matter of this proceeding. Moreover, inter- and intrastate access rates are not comparable because interstate services involve explicit cost recovery mechanisms outside of the rate, while intrastate services include cost recovery within the rate itself. Without waiving these objections, the RLECs respond as follows.

REQUESTNO.7: Provide a year-end income statement and balance sheet for your company for the past five years.

OBJECTION: This request is overly broad, unduly burdensome, and is not reasonably calculated to lead to the discovery of admissible evidence. This information is publicly available at the Commission. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: See response attached.

REQUESTNO.8: Provide the return on equity and return on rate base–total company and Kentucky intrastate only–for each year for the past five years.

OBJECTION: This request is overly broad, unduly burdensome, and is not reasonably calculated to lead to the discovery of admissible evidence. The phrase “return on equity and return on rate base– total company and Kentucky intrastate only” is vague and ambiguous. This information is not kept in the ordinary course of business, and it is not readily available to average schedule companies. The data sought is competitively sensitive and **HIGHLY CONFIDENTIAL**. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: Return on equity–total company:

REQUESTNO.9: State the number of access lines subscribing to stand-alone basic local service (that is, without any additional optional features or services, includingDSL)atyearend,foreachofthepastfiveyears.

OBJECTION: This request is overly broad, unduly burdensome, and is not reasonably calculated to lead to the discovery of admissible evidence. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Withoutwaivingtheseobjections,theRLECsrespondasfollows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone CooperativeCorporation,Inc.

TWTC/LEVEL3/PAETEC

REQUEST NO.10: Does your company or an affiliate provide DSL? If the answer is yes, provide:

- a. The number of residential and business lines that subscribe to DSL service;
- b. The average monthly price for DSL for 2011; and
- c. If an affiliate provides DSL, how the ILEC company is compensated (including structure and level) for the use of the local loop to provide DSL.

OBJECTION: This request is overly broad and is not reasonably calculated to lead to the discovery of admissible evidence; DSL services are not directly at issue in this proceeding. The RLECs also object to the extent that this request seeks information regarding any affiliates that are not a party to this proceeding. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: Yes.

- a. Residential 3 [REDACTED]
Business 2 [REDACTED]
- b. \$ [REDACTED]
- c. NECA Tariff F.C.C.No.5

TWTC/LEVEL3/PAETEC

REQUESTNO.11: What is the monthly recurring price (at year-end 2010) and number of units sold (during calendar year 2010) for each bundle or package that includes basic local service?

OBJECTION: This request is vague and ambiguous because “units” and “number of units sold” are not defined. The data sought is competitively sensitive and
HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: RLS \$59.99 38 [REDACTED]

TWTC/LEVEL3/PAETEC

REQUESTNO.12: State the current level of basic local service and the corresponding interstate SLC, assuming no additional features are purchased by the customer.

OBJECTION: This request is overly broad and is not reasonably calculated to lead to the discovery of admissible evidence. The phrase “current level of basic local service” is vague and ambiguous. To the extent that this request seeks information regarding the RLECs’ interstate rates, such request is irrelevant to the subject of this proceeding. This request seeks publicly available information contained in Commission orders or tariffs filed with and approved by the Commission. This request further seeks publicly available information contained in tariffs filed with and approved by the FCC. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: Residential and single-line business SLC: \$6.50
Multi-line business SLC: \$9.20

TWTC/LEVEL3/PAETEC

REQUESTNO.13: Provide your average revenue per residential and switched access line for each of the past five years, including all revenues for optional retail services in the numerator. Identify all additional features and services for which revenues were collected in each year.

OBJECTION: This request is overly broad, unduly burdensome, and not reasonably calculated to lead to the discovery of admissible evidence. This request is vague and ambiguous because the meaning of “average revenue per residential and switched access line” is unclear; this type of data is not kept by the RLECs in the ordinary course of business and even if it were it would be HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: See objection above and see below.

REQUESTNO.14: With respect to the access revenue shift estimate and number s you filed with the Commission on or about April 15, 2011, provide all workpapers for each such estimate or number, including spreadsheets, calculations , and input data.

OBJECTION: This request seeks the production of documents and information that is subject to the attorney-client privilege and attorney work product doctrine. This request is overly broad, unduly burdensome, and is not reasonably calculated to lead to the discovery of admissible evidence. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

REQUEST NO.1: For each year from 2001 through 2010, and for 2011 most recent data available, please provide the total number of revenue-producing *retail* access lines for the following:

- (a) Residential standalone basic local exchange service (as defined in KRS 278.541) access lines, including “lines” being provided *via* a non-traditional means such as voice over Internet protocol (VoIP).
- (b) Business standalone basic local exchange service (as defined in KRS 278.541) access lines, including “lines” being provided *via* a non-traditional means such as voice over Internet protocol (VoIP).
- (c) Residential non-basic local exchange service access lines (as defined in KRS 278.541), including “lines” being provided *via* a non-traditional means such as voice over Internet protocol (VoIP), and voice grade equivalent lines for ISDN-BRI.
- (d) Business non-basic local exchange service access lines (as defined in KRS 278.541), including “lines” being provided *via* a non-traditional means such as voice over Internet protocol (VoIP), and voice grade equivalent lines to which intrastate switched access applies (*e.g.*, all activated B-channels in an ISDN-PRI or ISDN-BRI to the extent the ISDN-PRI is providing connectivity to the PSTN).
- (e) Other facilities to which intrastate switched access applies, if any, not included in (a) through (d) above.

OBJECTION: This request is overly broad and unduly burdensome insofar as it seeks data for 11 years, most of which is not readily available. The *ed* data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

REQUESTNO.2: For each year from 2001 through 2010, and for 2011 most recent data available, please provide the average monthly revenue per line identified in Data Request 1(a), 1(b), 1(c), 1(d) and 1(e). If the average monthly revenue figures are not available in the format requested for each of these types of lines, provide the total annual revenue for the years requested, for all lines identified in Data Request 1, presented at the greatest level of disaggregation the ILEC maintains in its historical revenue records.

OBJECTION: This request is overly broad and unduly burdensome insofar as it seeks data for 11 years, most of which is not readily available. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

RESPONSE: Not applicable.

REQUEST NO. 4: For each of the retail types of lines identified in Data Request 1(a) through (e), for 2010, and for 2011 most recent data available, provide the calculated weighted average local rate per line per month, and all back-up information and worksheets that support these calculations.

OBJECTION: This request is vague and ambiguous insofar as the phrase “calculated weighted average local rate per line per month” is not defined. Moreover, this request is overly broad and unduly burdensome as the RLECs do not routinely calculate average rates per line, per month, and the data is therefore not readily available. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: See response to AT&T Request No. 2.

REQUEST NO. 5: For each of the wholesale types of lines in Data Request 3(a) through (e), for 2010, and for 2011 most recent data available, provide the calculated weighted average local rate per line per month, and all back-up information and worksheets that support these calculations.

OBJECTION: This request is vague and ambiguous insofar as the phrase “calculated weighted average local rate per line per month” is not defined. Moreover, this request is overly broad and unduly burdensome as the RLECs do not routinely calculate average rates per line, per month, and the data is therefore not readily available. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: Not applicable.

REQUEST NO. 6: For 2010, and 2011 most current data available, please separately identify:

- (a) All support received from each of the Federal Universal Service Fund(s);
- (b) All payments into the Federal Universal Service Fund(s).

OBJECTION: This request is overly broad and is not reasonably calculated to lead to the discovery of admissible evidence. To the extent that this request seeks information regarding the federal Universal Service Fund (“USF”), such request is irrelevant to the subject of this proceeding. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

REQUEST NO. 7: For 2010, and 2011 most current data available, provide the following:

- (a) Volumes of intra MTA minutes terminated by you on behalf of all wireless carriers, and dollars billed for such terminating intra MTA minutes broken out by
 - 1. Intra LATA intrastate,
 - 2. Inter LATA intrastate, and
 - 3. Inter LATA interstate.
- (b) Volume of intrastate, inter MTA minutes terminated by you on behalf of wireless carriers, and dollars billed for such intrastate, inter MTA minutes.
- (c) Volume of local minutes terminated by you and dollars billed for wireless traffic as reciprocal compensation for such traffic;
- (d) Volume of local minutes terminated by you and dollars billed for non-wireless traffic as reciprocal compensation for such traffic.

OBJECTION: This request is overly broad, unduly burdensome, and is not reasonably calculated to lead to the discovery of admissible evidence. The volumes and classifications of CMRS traffic terminated by the RLECs is not readily ascertainable, as the traffic exchanged with CMRS providers is typically billed on a traffic factor basis. Moreover, volumes and billings related to local traffic are irrelevant to the subject matter of this proceeding. The data sought is competitively sensitive and **HIGHLY CONFIDENTIAL**. Without waiving these objections, the RLECs respond as follows.

REQUESTNO.8: What rate(s) do you charge for termination of intraMTA wireless calls? Provide the source showing the basis for each such rate(s).

OBJECTION: This request is overly broad and unduly burdensome, and it seeks information that is not reasonably calculated to lead to the discovery of admissible evidence, insofar as intraMTA wireless traffic is jurisdictionalized as local traffic. The interconnection agreements setting out the reciprocal compensation rates applied to this traffic are filed with and approved by the Commission. Moreover, volumes and billings related to local traffic are irrelevant to the subject matter of this proceeding. Without waiving these objections, the RLECs respond as follows.

Re: *Interconnection Agreement Between East Kentucky Network, LLC, d/b/a Appalachian Wireless, and Thacker-Grigsby Telephone Company, Gearheart Communications d/b/a Coalfields Telephone Company, Mountain Rural Telephone Cooperative, Peoples Rural Telephone Cooperative, and Foothills Rural Telephone Cooperative (Collectively, "Partners")*

By Overnight Delivery

Dear Ms. O'Donnell:

I became aware that interconnection agreements negotiated between Appalachian Wireless and the Partners (identified above) had inadvertently failed to be filed with this Commission. Appalachian Wireless and the Partners entered into these Agreements effective August 2004 and the Agreements have been unchanged since that time. These agreements reflect the voluntary negotiations between Appalachian Wireless and each of the Partners, pursuant to §252(a) of the Telecommunications Act of 1996 ("Act"), and are being submitted to the Kentucky Public Service Commission pursuant to § 252(e) of the Act.

Please contact me at 800-438-2355 with any questions.

Sincerely,

Gerald Robinette

AGREEMENT FOR FACILITIES-BASED NETWORK INTERCONNECTION AND PUBLIC SERVICE
RECIPROCAL COMPENSATION FOR TRANSPORT AND TERMINATION OF COMMUNICATION
TELECOMMUNICATIONS TRAFFIC
(CMRS-LEC AGREEMENT)

This Agreement, effective this 1st day of August, 2004, is made and entered into by and between East Kentucky Network, LLC d/b/a Appalachian Wireless, a limited liability company organized under the laws of the Commonwealth of Kentucky (hereinafter referred to as EKN) and Peoples Rural Telephone Cooperative Corporation, Inc. a corporation organized under the laws of the Commonwealth of Kentucky (hereinafter referred to as PRTC), as follows:

WITNESSETH:

WHEREAS, EKN is a Commercial Mobile Radio Services ("CMRS") provider licensed by the Federal Communications Commission ("FCC") to provide CMRS; and

WHEREAS, PRTC is a local exchange carrier ("LEC") providing telecommunications services in the Commonwealth of Kentucky; and

WHEREAS, EKN desires to connect its facilities to those of PRTC in accordance with the terms and conditions of this Agreement and interchange traffic for the provision of telecommunications service, and

WHEREAS, PRTC is willing to provide such connection and interchange traffic for the provision of telecommunications service as provided herein;

NOW, THEREFORE, in consideration of the premises hereinafter contained, PRTC and EKN hereby agree as follows:

1. DESCRIPTION OF SERVICE

- 1.1 This Agreement provides PRTC equipment, facilities and services (referred to as "Service") for the interconnection and interchange of domestic public cellular radio telecommunications trafficked between EKN and PRTC.
- 1.2 Service will be provided by an end office Type 1 interconnection arrangement as defined in Bell Communications Research publication TR-NPL-00145.
- 1.3 This Type 1 interconnection provides for the termination of EKN originated calls to directory numbers in the local calling area (including EAS) of the specific PRTC exchange(s) and for the origination of calls from directory numbers in the local calling area (including EAS) of the specific PRTC

exchange(s) that can be terminated directly to EKN customers via the connecting trunks provided pursuant to this Agreement.

- 1.4 Directory listings of EKN customers in PRTC directories are not included in the Service provided pursuant to this Agreement.

2. SERVICE PROVISION

- 2.1 Connecting trunks between any PRTC central office and the EKN Mobile Telephone Switching Office (MTSO) will be provided as mutually agreed to by the Parties.
- 2.2 Service will be provided by EKN placing an order to PRTC using the normal PRTC ordering procedures for connecting trunks between the PRTC central office and the EKN MTSO.
- 2.3 Signaling arrangements, digit out pulsing, answer and disconnect supervisory signaling and other equipment interconnection features will be as mutually agreed to by the Parties.

3. TROUBLE REPORTING, TESTING AND PROTECTION

- 3.1 In order to facilitate reporting of troubles and interruptions and to coordinate the restoration of Service provided to EKN by PRTC under this Agreement, PRTC will designate a Trouble Reporting Control Office (TRCO) and furnish to EKN a telephone number for such TRCO. Where possible, PRTC will provide EKN a seventy-two (72) hour advance notice of scheduled service interruptions affecting EKN operations.
- 3.2 When EKN reports a trouble or interrupted condition, it will first have used its best efforts to isolate the problem to the facilities of PRTC.
- 3.3 EKN and PRTC will make cooperative tests, as appropriate, to minimize trouble and interrupted conditions.
- 3.4 The characteristics and methods of operation of any circuits, facilities or equipment of EKN connected with circuits, facilities or equipment of PRTC pursuant to this Agreement shall not interfere with or impair other services of PRTC or its connecting and concurring carriers involved in such services, cause damage to their plant, impair the privacy of any communications carried over their facilities or create hazards to the employees of any of them or to the public.

- 3.5 If such characteristics or methods of operation are not in accordance with Paragraph 3.4 above, PRTC will notify EKN of such discrepancy and non-compliance. EKN shall work diligently to correct any discrepancy or non-compliance. EKN shall immediately cease and desist any operation that interferes with or impairs the normal provisioning of telephone service to PRTC customers.

4. RATES AND CHARGES

- 4.1 EKN is responsible for the payment of all rates, charges and deposits due to PRTC under the terms of this Agreement.
- 4.2 Charges for Service provided pursuant to this Agreement shall consist of:
- (a.) switched usage charges for terminating EKN traffic on the local exchange network,
 - (b.) monthly recurring charges for connecting trunks between PRTC central offices and the EKN MTSO at the approved tariff rates in the intrastate access tariff of PRTC, and
 - (c.) non-recurring and/or special construction charges as may be applicable to services or facilities requested by EKN.
- 4.3 Switched usage charges for the termination of EKN originated traffic interchanged with PRTC and destined to points on the local exchange network will be on an access minutes of use basis. Such traffic destined to points within the local calling scope of the PRTC central offices serving EKN will be at the rate of:
- Switched Usage Rate: \$0.0150
- 4.4 In the event that terminating access minutes cannot be measured, either on a temporary or permanent basis, the Parties will negotiate an assumed monthly minutes of use for purposes of Paragraph 4.2.
- 4.5 Monthly recurring charges, non-recurring charges and special construction charges for connecting trunks, special construction and other services and facilities as requested by EKN, will be invoiced to EKN at tariff or other applicable rates in accordance with normal PRTC billing procedures. The charges for connecting trunks within the EAB are shown on Exhibit No. 1, attached hereto and made a part hereof.

- 4.6 Exhibits to the Agreement may be added, deleted or modified as necessary to reflect changes in facilities requested, central office connections or changes in approved tariff rates.

5. DEPOSIT

Since EKN has established a satisfactory credit rating with PRTC, no deposit will be required for Service provided pursuant to this Agreement.

6. BILLING AND PAYMENT

- 6.1 PRTC will submit to EKN, no later than the tenth (10th) day of each month an invoice for the Service provided hereunder for the proceeding month pursuant to the rates and charges contained in Paragraph 4.
- 6.2 Payment is due upon receipt of invoice and considered past due in not received within thirty (30) days of the invoice date.
- 6.3 A delinquent charge of twelve percent (12%) per annum will be imposed on undisputed amounts past due.

7. MISCELLANEOUS

- 7.1 The performance of the Parties under this Agreement shall be excused by labor difficulties, governmental orders, civil commotions, acts of God and other circumstances beyond the reasonable control of the Parties.
- 7.2 Each Party agrees to indemnify and hold harmless the other Party for libel, slander, copyright, trademark or patent infringement arising from the provision of Service hereunder and claims for injuries or damages for the negligent or willful actions of the employees, agents, contractors or representatives of the indemnifying Party.
- 7.3 All information furnished by one Party to the other and identified as confidential by the furnishing Party, will not be distributed, provided or disclosed by the other Party except by order of a court or regulatory body of competent jurisdiction.
- 7.4 This Agreement may not be assigned by either Party without the written permission of the other Party, which shall not be unreasonably withheld.
- 7.5 All notices, demands, or requests which may be given by one Party to the other under this Contract (other than trouble reports and notice of interruption

pursuant to Paragraph 3) shall be in writing and shall be deemed to have been duly given on the date delivered in person or deposited, postage, prepaid, in the United States Mail via certified mail return receipt requested, or sent via telex, telefax or cable, and addressed as follows:

Peoples Rural Telephone Cooperative Corp, Inc.
Hwy. 421 S.
P.O. Box 159
McKee, KY 40447

And to EKN, addressed as follows:

East Kentucky Network, LLC d/b/a Appalachian Wireless
P.O. Box 405
Prestonsburg, KY 41653

8. TERMINATION

- 8.1 The initial term of this Agreement shall be for one (1) year beginning with the effective date shown above and shall automatically renew for successive one (1) year terms unless terminated by either party upon sixty (60) days written notice prior to the expiration of any term, or as otherwise provided herein.
- 8.2 This Agreement shall terminate immediately upon the suspension, revocation or termination of the license or other authorization of EKN to provide Commercial Mobile Radio Services in the geographic area of PRTC.
- 8.3 This Agreement may be terminated by PRTC upon not less than thirty (30) days written notice to EKN, for failure to pay undisputed amounts past due PRTC pursuant to the provisions of this Agreement.
- 8.4 This Agreement may be terminated at any time mutual consent of both Parties and written notification thereof.

IN WITNESS WHEREOF, the Parties hereto execute this Agreement on
this 14th day of July, 2004.

AT&T

REQUEST NO. 9: What rate(s) do you charge for termination of VoIP calls originated by VoIP providers?

OBJECTION: This request is overbroad and unduly burdensome, and seeks information that is not reasonably calculated to lead to the discovery of admissible evidence. The RLECs are not always aware when other carriers may be sending them VoIP calls originated by VoIP providers. Local traffic is typically addressed by an interconnection agreement, and any such interconnection agreements are filed with and approved by the Commission. Moreover, volumes and billings related to local traffic are irrelevant to the subject matter of this proceeding. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: Traffic is billed as access to the Company responsible for the trunk group, with the exception of AT&T for which MOUs are adjusted for CMR traffic.

AT&T

REQUEST NO. 10: How many Lifeline access lines were provided by you for 2010 and for 2011 most recent data available?

OBJECTION: This request is overly broad, unduly burdensome, and is not reasonably calculated to lead to the discovery of admissible evidence. Moreover, the number of Lifeline lines provided by an RLEC is irrelevant to the subject matter of this proceeding. The data sought is competitively sensitive and **HIGHLY CONFIDENTIAL**. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: 2010 1 [REDACTED]
2011 1 [REDACTED]

AT&T

REQUESTNO.11: For each year from 2001 through 2010, and for 2011 most recent data available, provide, and in (a) thru (d) specifically identify and group the revenues in a matrix by (1) type of provider (CLEC/ILEC, mobile wireless services provider, cable VoIP services provider, and non-cable VoIP services provider), and by (2) each rate element billed. Please identify separately (if any) revenues from your non-ILEC affiliates.

(a) Total *intrastate, terminating* switched access revenues billed (including non-traffic sensitive revenues) and MOUs;

(b) Total *intrastate, originating* switched access revenues billed (including non-traffic sensitive revenues) and MOUs;

(c) Total *interstate, terminating* switched access revenues billed (including non-traffic sensitive revenues) and MOUs;

(d) Total *interstate, originating* switched access revenues billed (including non-traffic sensitive revenues) and MOUs;

(e) Please provide the work papers for the rate elements, volumes, revenues and associated calculations for (a) through (d) above in electronic/Excel format. Please specify the unit of measure for each rate element (e.g., MOU, circuit/month, line message, etc.). If the billing basis is not MOU, please provide the relevant quantities associated with each rate element.

OBJECTION: This request is overly broad and unduly burdensome insofar as it seeks data for 11 years (most of which is not readily available), seeks segregation of data in a manner not kept by the RLECs in the ordinary course of business, and relates to information that is publicly filed with and approved by the Commission and/or the FCC. Moreover, this request seeks information not reasonably calculated to lead to the discovery of admissible evidence insofar as it seeks information regarding interstate revenues. The RLECs also object to the extent that this request seeks information regarding any affiliates that are not a party to this proceeding. The data sought is competitively sensitive and **HIGHLY CONFIDENTIAL**. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: (a) Data not readily available.

(b) Data not readily available.

(c) Data not readily available.

(d) Data not readily available.

(e) Data not readily available.

AT&T

REQUEST NO. 12: For 2010, and for 2011 most recent data available, for you and your non-ILEC affiliates (if any), please provide the following:

- (a) Total Kentucky *intrastate* originating and terminating switched MOUs and access expenditures paid to other providers (*i.e.*, ILECs and CLECs, excluding payments to any of your affiliates). Please provide payments to each carrier and group by ILECs and CLECs separately;
- (b) Total Kentucky *interstate* originating and terminating switched MOUs and access expenditures paid to other providers (*i.e.*, ILECs, and CLECs, excluding any of your affiliates). Please provide payments to each carrier and group by ILECs and CLECs separately.
- (c) Please respond to (a) and (b) for the traffic (excluded above) between you and your Kentucky affiliates.

OBJECTION: This request is overly broad and unduly burdensome insofar as it seeks data in a manner not kept by the RLECs in the ordinary course of business. Moreover, this request seeks information not reasonably calculated to lead to the discovery of admissible evidence insofar as it seeks information regarding interstate traffic. The RLECs also object to the extent that this request seeks information regarding any affiliates that are not a party to this proceeding. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: Not applicable.

AT&T

REQUEST NO. 13: Please provide separate estimates of the percentage of terminating intercarrier traffic you and your parent companies and affiliates receive both in Kentucky and nationwide that lacks sufficient call detail or signaling information to either (a) identify the carrier financially responsible for intercarrier charges or (b) apply the proper compensation regime for interstate access, intrastate access, and reciprocal compensation (such traffic is generally and collectively known as “phantom traffic”.)

OBJECTION: This request is overly broad and unduly burdensome insofar as it seeks data in a manner not kept by the RLECs in the ordinary course of business. The RLECs also object to the extent that this request seeks information regarding any affiliates that are not a party to this proceeding. The data sought is competitively sensitive and **HIGHLY CONFIDENTIAL**. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: **Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.**

RESPONSE: **No estimate.**

AT&T

REQUESTNO.14: What is your practice for determining the intercarrier compensation applicable to traffic that lacks sufficient information to otherwise identify the traffic's proper intercarrier compensation regime? Cite all your intrastate and interstate tariffs, interconnection agreements, or other relevant sources that determine what intercarrier compensation scheme should apply to such traffic.

OBJECTION: This request is unduly burdensome, as well as vague and ambiguous, insofar as it does not specify the manner in which unidentifiable traffic has been delivered to the RLECs, and given the multitude of manners in which traffic of this nature could be delivered (including, perhaps, without the RLECs even knowing it is being delivered), it is impossible to describe how the traffic may be jurisdictionalized, as each instance would likely be reviewed by the RLECs on a case-by-case basis to determine the appropriate and consistent categorization of such traffic. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: PRTC bills access to the owning carrier of the facility used to deliver its traffic to the PRTC tandem pursuant to state and federal access tariffs. Traffic delivered to PRTC via the Bell Toll Trunk is billed to Bell with the limited exception of wireless traffic that is billed to the respective wireless carrier pursuant to the ICA established with those wireless carriers.

AT&T

REQUESTNO.15: Please provide your estimate of the percentage of your terminating intercarrier traffic, both for traffic sent or received by you in Kentucky, for which the compensation regime (interstate access, intrastate access, or reciprocal compensation) is mischaracterized.

OBJECTION: This request is unduly burdensome, as well as vague and ambiguous, insofar as it does not specify the manner in which unidentifiable traffic has been delivered to the RLECs or mischaracterized by the originating or delivering carrier. Given the multitude of manners in which traffic of this nature could be delivered (including, perhaps, without the RLECs even knowing it is being delivered) or mischaracterized, it is impossible to formulate a response to this request. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: Since PRTC believes that ATT (fka BellSouth) is the primary source for the delivery of this type of traffic, PRTC believes that that company, and not PRTC, is better positioned to answer and support a response to this question.

AT&T

REQUEST NO. 16: Have you, your parent companies and/or affiliates filed any appeals of FCC Order that established your interstate switched access rates?

OBJECTION: Moreover, this request seeks information not reasonably calculated to lead to the discovery of admissible evidence insofar as it seeks information regarding interstate traffic. This request is overly broad and unduly burdensome insofar as the RLECs may not have kept detailed records of the appellate actions of the various national organizations with which they are associated. This request is also unduly burdensome because, in the event there are any such appeals, those appeals would be matters of public record. The RLECs also object to the extent that this request seeks information regarding any affiliates that are not a party to this proceeding. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: No.

AT&T

REQUEST NO. 17: Have you ever made a claim or appeal in any forum that your existing interstate switched access rates are not compensatory or are confiscatory? Please list every instance where such claim or appeal was made, provide all evidence supporting such claim, and indicate the result of the related challenge or appeal (if any)?

OBJECTION: This request seeks information not reasonably calculated to lead to the discovery of admissible evidence insofar as it seeks information regarding interstate traffic. This request is overly broad and unduly burdensome insofar as the RLECs may not have kept detailed records of the appellate actions of the various national organizations with which they are associated. This request is also unduly burdensome because, in the event there are any such claims or appeals, those claims or appeals would be matters of public record. It would be unduly burdensome to require the production of "all evidence supporting such claim," in any event, even if there have been any such claims/appeals. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

REQUEST NO. 18: Regarding the origination and termination of landline toll traffic in Kentucky:

- (a) Does the function provided by you for interstate originating and terminating switched access service materially differ from the functionality provided for your intrastate originating and terminating switched access service? If so, identify and describe each material difference in detail, and quantify the cost difference caused by each purported material difference.
- (b) Does the functionality you use to provide terminating switched access services, either for interstate or intrastate toll calls, materially differ from the functionality you use to provide local call termination for which either the FCC adopted reciprocal compensation charge or local interconnection charge applies? If so, identify and describe each material difference in detail, and quantify the cost difference caused by each purported material difference.
- (c) Does the function you perform to provide terminating switched access services, either for interstate or intrastate calls, materially differ from the function you use to terminate VOIP originated calls? If so, identify and describe each material difference, and quantify the cost difference caused by each purported material difference.
- (d) Does the function you perform to provide terminating switched access services, either for interstate or intrastate calls, materially differ from the function you use to terminate intraMTA wireless calls, either interstate or intrastate? If so, identify and describe each material difference, and quantify the cost difference caused by each purported material difference.

OBJECTION: This request is overly broad and is not reasonably calculated to lead to the discovery of admissible evidence. This request seeks information regarding the RLECs interstate access rates, which are irrelevant to the subject matter of this proceeding. Moreover, inter- and intrastate access rates are not comparable because interstate services involve explicit cost recovery mechanisms outside of the rate, while intrastate services include cost recovery within the rate itself. This request is also vague and ambiguous insofar as the meanings of the different phrases “function provided by you,” “functionality you use to provide,” and “function you perform” are unclear. Without waiving these objections, the RLECs respond as follows.

REQUESTNO.19: Do you or any of your parent companies or affiliates in any other state mirror your interstate and intrastate access rates or any individual rate elements? Also, are you subject to any future mirroring (e.g., by an order that requires phased-in mirroring)?

(a) Please list all states where you or an affiliate company mirror these rates or rate elements;

(b) Please describe and identify (by docket number, relevant statute section, or other similar type of identifier) the proceedings or legislation that led you or an affiliate entity to mirror these rates and list the applicable docket numbers or code citations;

(c) Please state whether you or your affected affiliate entity appealed any order of any state commission or challenged any statute involved in (a) or (b) above. If yes, identify each appeal or challenge.

(d) If the answer to (c) indicates “yes,” what was the result of the related appeal or challenge?

OBJECTION: This request is overly broad, unduly burdensome, and seeks information that is not reasonably calculated to lead to the discovery of admissible evidence insofar as it seeks information related to other states. The RLECs also object to the extent that this request seeks information regarding any affiliates that are not a party to this proceeding. Moreover, the word “mirror” is unduly vague and ambiguous in the context of complicated access reform plans. Moreover, any appeals sought in subsection (c) are matters of public record, for which it would be unduly burdensome for the RLECs to respond. This request is overly broad and unduly burdensome insofar as the RLECs may not have kept detailed records of the appellate actions of the various national organizations with which they are associated. Without waiving these objections, the RLECs respond as follows.

REQUEST NO. 20: Have you ever filed a pleading with the FCC indicating your support for a unified interstate and intrastate rate? If yes, provide such filing or attach to obtain the document if publicly available.

OBJECTION: This request seeks information not reasonably calculated to lead to the discovery of admissible evidence insofar as it seeks information regarding interstate traffic. This request is overly broad and unduly burdensome insofar as the RLECs may not have kept detailed records of the FCC actions of the various national organizations with which they are associated. This request is also unduly burdensome because, in the event there are any such FCC actions, those claims or appeals would be matters of public record. Without waiving these objections, the RLECs respond as follows.

REQUEST NO. 21: Do you provide intrastate toll and interstate toll services in Kentucky? If not, do you have an affiliate that provides those services? If so, provide the names of the affiliate and the type of service they provide.

OBJECTION: This request seeks information not reasonably calculated to lead to the discovery of admissible evidence insofar as it seeks information regarding interstate traffic. The RLECs also object to the extent that this request seeks information regarding any affiliates that are not a party to this proceeding. Without waiving these objections, the RLECs respond as follows.

REQUEST NO. 22: For each year from 2001 through 2010, and for 2011 most recent data available, for you and your affiliate (if any), please provide the following:

- (a) Total Kentucky *intrastate* toll MOUs and revenues;
- (b) Total Kentucky *interstate* toll MOUs and revenues

OBJECTION: This request is overly broad and unduly burdensome insofar as it seeks data for 11 years, most of which is not readily available. This request is also not reasonably calculated to lead to the discovery of admissible evidence insofar as it seeks data related to interstate traffic, which is irrelevant to the subject matter of this proceeding. The RLECs also object to the extent that this request seeks information regarding any affiliates that are not a party to this proceeding. The data sought is competitively sensitive and **HIGHLY CONFIDENTIAL**. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: **Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.**

REQUEST NO. 23: Do you have any elasticity studies for local toll services? If so, please produce copies of those.

OBJECTION: This request is overly broad and unduly burdensome insofar as it seeks data related to local or interstate traffic. The phrase “elasticity studies for local or toll services” is also vague and ambiguous. The RLECs also object to the extent that this request seeks information regarding any affiliates that are not a party to this proceeding. The data sought is competitively sensitive and HIGHLY CONFIDENTIAL. Without waiving these objections, the RLECs respond as follows.

REQUEST NO. 25: Provide a schedule reflecting your local rates for residential and business customers by rate group from 1985 to the present.

OBJECTION: This request is overly broad, unduly burdensome, and is not reasonably calculated to lead to the discovery of admissible evidence insofar as it seeks 26 years of data regarding local service. The RLECs further object that their local rates are filed with and approved by the Commission. Without waiving these objections, the RLECs respond as follows.

RESPONDENT: Jodi Gabbard, CABS Coordinator, Peoples Rural Telephone Cooperative Corporation, Inc.

RESPONSE: Residential–1985-1997–all exchanges
\$12.00

Business–1985-1997–all exchanges
\$18.60

Residential–1998-present–all exchanges
\$14.00

Business–1998-present–all exchanges
\$21.10

Rate increase due to inclusion of Touch Tone service into basic local rate.
