RE: CASE No. 2011-00313 Responses for Deficiencies (November 18, 2011).

Dear Mr. Derouen:

Please regard this letter and the electronically filed documents as Owen Electric Cooperative's ("OEC") response to the Commission's rejection of the November 9, 2011 filing. OEC will refer to and answer for the deficiencies as they were presented: (1; 2; 3).

Deficiency (1): No projects will require franchises or permits to be filed with the Commission.

Deficiency (2): Ten (10) map files in PDF format are being submitted in this response. The maps are to permitted scale and indicate like facilities owned by others where applicable. Commission council for this case (Mr. Nguyen) indicated by telephone conversation, on November 28, 2011 that these map files are acceptable in the electronic format.

Deficiency (3): The estimated cost of operation after the proposed facilities are completed is **\$3,062,951**. The Excel File: Case No 2011-00313 Annual Operating Costs of CWP Projects – EXCEL.XLS is included in this response for full description of answer to Def 3 methodology.

Please contact me with any further questions or comments,
