

## **READ 1st**

**RE: CASE NO. 2012-00013**

**This upload contains the final 3 files that did not successfully upload on Feb 24.**

**After a discussion with Renee Smith, it was determined that IT had captured the files. After a check on the PSC Electronic Filing Site, it was determined that the 3 subject files had still not been entered into the system.**

**The addition of these files will complete the content of the original Feb 24 attempt of the filing.**

**A PDF File of system Improvement projects on map Drawing (3 paper copies in hardcopy mailing):** *CKT\_MAP-2012-00013\_CWP.pdf*

**A complete version of the 2012-2015 CWP (excludes economic conductor analysis which follows in next file):** *LVRECC 2012-2015.pdf*

**PDF showing the Economic Conductor Analysis:** *econ-conductor\_app\_A*

I certify that this electronically filed document is a true and complete representation of the original document.
