(REDACTED VERSION)**

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response of The Kroger Co. to
First Data Request Of Attorney General**

Responding Witness: Kevin C. Higgins to all Items

Item 1. Please state under what tariff(s) Kroger takes service from KU.

Response: Kroger takes the majority of its service under the Time-of-Day Secondary Service (TODS) rate schedule.

Item 1-2. Please provide cumulative (all locations) base rate charges (total, customer, energy and demand individually), for each month of the historic test year used by KU in this proceeding.

Response: Monthly base rate charges by individual billing component are not available without a special study being performed. For reference, approximately 1.6% of Kroger's current base rates are attributable to the basic service charge, 34.8% to demand charges, and 63.6% to the energy charge. The table below presents Kroger's total electricity cost for each month of the test year.

Item 1-4. Please provide an estimate of the impact on Kroger's total electric charges (all locations) if KU's proposals (revenue requirement, class revenue allocations, and rate design) are approved as filed and updated.

Response: Kroger estimates that KU's proposal would result in an annual increase of approximately ■% to Kroger.

Item 1-5. Please provide by each service location for the test year the billing determinants (the number of bills, kWh, and billed kW). Please provide the information in electronic format whether Excel or otherwise with cells intact.

Response: Please see the attachment, Kroger_AG_Att_1-005 (KU) for the requested information. The attachment is filed subject to a Petition for confidentiality.

Item 1-6. Please provide the time, date, and level of actual maximum demand (kW) for each service location during the test year. Please provide the information in electronic format whether Excel or otherwise with cells intact.

Response: Kroger does not know the time and date of actual maximum demand during the test year. Please see the attachment, Kroger_AG_Att_1-005 (KU), which contains the monthly maximum demand for the service locations for which this data is available.
