ATTORNEY FOR KSBA

**KSBA's Data Requests to
Kentucky Utilities Company
Case No. 2012-00221**

KSBA'S REQUESTS TO KENTUCKY UTILITIES COMPANY

1. Please provide a list of the benefits and cost savings achieved by KU/LG&E from harmonizing their tariffs and copies of all analyses performed to determine the savings.
2. Please provide copies of all studies comparing the usage characteristics of the various types of customers receiving service from KU.
3. Does Mr. Conroy agree that KU's Rate AES is supportable from an economic standpoint?
4. Given the statutory directives contained in KRS 160.325 and KRS 157.455 for public schools to focus on energy management and construction and renovation of highly efficient and net zero schools would KU agree that unfreezing Rate Schedule AES would serve the public interest without harming KU's other customers?
5. Given the unique characteristics of schools do KU and LG&E believe it appropriate to establish time-of-day rates available to all k-12 schools? If not, please explain.
6. Please provide an approximate percentage or number breakdown by SIC code of customers provided service pursuant to the KU's GS, PS and TOD Rate Schedules.
7. Please clarify if school flashing lights that operate only during school hours qualify for service under KU's TE Rate Schedules. If no, please explain why the availability provision should not be modified to permit such service.
8. Does KU agree that the Meter Pulse Charge facilitates load management by customers and that with the exception of certain industrial customers the associated service and cost recovery should become part of KU's demand-side management programs?
9. Please provide copies of any studies performed by, or on behalf of KU, of inter and intra-class subsidization.
10. Is it Mr. Conroy's opinion that all customers and rate classes should eventually have the same rate of return when evaluated using KU's cost of service methodology? Please explain.

11. KU states the average impact of their requested increase by rate schedule. What does KU believe to be a reasonable deviation from that average to comply with their expressed gradualism principle?
12. Please provide copies of any analyses performed by KU to determine if some customers will be unreasonably affected by their requests.
13. Please explain how the monthly billing demand ratchet percentages stated in KU's PS and TOD schedules were determined and provide the cost support for the stated percentages.
14. Please provide the per unit energy cost reflected in the monthly energy charge in KU's PS and TOD rate schedules.
