July 26, 2012

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 71

Responding Witness: Kent W. Blake

- Q-71. Provide the twelve months-ending return on common equity for each month from January 2009 to the present.
- A-71. KU does not prepare the return on common equity on a monthly basis. Please refer to PSC 1-38 to obtain the return on common equity for year ends previous to 2012.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 72

Responding Witness: Paul W. Thompson

Q-72. Please supply a copy of KU's latest Ten Year Demand Forecast.

A-72. See attached.

2012 MTP Non-coincident MW Peaks - Uncurtailed

Year	KU	LGE
2012	4,539	2,770
2013	4,591	2,777
2014	4,599	2,718
2015	4,637	2,727
2016	4,736	2,820
2017	4,790	2,785
2018	4,776	2,862
2019	4,837	2,886
2020	4,880	2,865
2021	5,064	2,951
2022	5,017	2,994

2012 MTP Coincident MW Peaks - Uncurtailed

Year	KU	LGE	CC Peak
2012	4,277	2,770	7,047
2013	4,388	2,700	7,089
2014	4,423	2,704	7,127
2015	4,455	2,710	7,165
2016	4,427	2,820	7,246
2017	4,504	2,785	7,289
2018	4,486	2,862	7,348
2019	4,597	2,801	7,398
2020	4,663	2,835	7,498
2021	4,589	2,951	7,540
2022	4,664	2,994	7,658

Note: All peaks are inclusive of the respective peak DLC. Curtailable amounts are not included. Data matches the most recent Annual Resource Assessment (387) filing.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 73

Responding Witness: Valerie L. Scott

- Q-73. Please list all year end closing and adjusting accounting entries, both internal and those made by your external auditors for 2009, 2010, and 2011.
- A-73. See attached for all internal year end entries. There were no entries made by the external auditors.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 74

Responding Witness: Valerie L. Scott

- Q-74. List each change in accounting principles made by the Company during 2009, 2010, 2011 and 2012 to date.
- a. For each such change, state the revenue and/or expense or capital impact in this filing.
- A-74. The following changes in accounting principles were made by the Company during 2009, 2010, 2011 and 2012 to date.

On January 1, 2009, KU adopted the provisions in Statement of Financial Accounting Standards (SFAS) No. 160³, Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51. The objective of SFAS No. 160, issued in December of 2007 and effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008, is to improve the relevance, comparability and transparency of financial information in a reporting entity's consolidated financial statements. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On January 1, 2009, KU adopted the provisions in SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133⁴. The objective of SFAS No. 161, issued in March of 2008 and effective for fiscal years, and interim periods within those fiscal years, beginning on or after November 15, 2008, is to enhance the current disclosure framework. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

³ The guidance in SFAS No.160 is now contained in FASB Accounting Standards Codification Topic 810, adopted effective September 30, 2009.

⁴ The guidance in SFAS No.161 is now contained in FASB Accounting Standards Codification Topic 815, adopted effective September 30, 2009.

On September 30, 2009, KU adopted the provisions in Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2009-01, Topic 105-Generally Accepted Principles, amendments based on SFAS No. 168 – *The FASB Accounting Standards Codification* and the Hierarchy of Generally Accepted Accounting Principles. ASU 2009-01, issued in June of 2009 and effective for interim and annual periods ending after September 15, 2009, introduces guidance which establishes the FASB ASC as the single source of authoritative nongovernmental U.S. generally accepted accounting principles. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On September 30, 2009, KU adopted the provisions in FASB ASU 2009-05, Fair Value Measurement and Disclosures (Topic 820) – Measuring Liabilities at Fair Value, an amendment of the FASB Accounting Standards Codification. The ASU 2010-06 amendments, issued in August of 2009 and effective for the first reporting period (including interim periods) beginning after issuance, provides guidance to clarify and reduce ambiguity in valuation techniques, adjustments and measurement criteria for liabilities measured at fair value. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On December 31, 2009, KU adopted the provisions in FASB Staff Position (FSP) Financial Accounting Statement (FAS) 132(R)-1, Employers' Disclosures about Pensions and Other Postretirement Benefits, a technical amendment to revised Statement 132 (FSP FAS 132(R))⁵. FAS 132(R)-1, issued in December of 2008 and effective for fiscal years ending after December 15, 2009, requires additional disclosures related to pension and other postretirement benefit plan assets. Additional disclosures include the investment allocation decision-making process, the fair value of each major category of plan assets as well as the inputs and valuation techniques used to measure fair value and significant concentrations of risk within the plan assets. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On June 30, 2009, KU adopted the provisions in FASB FSP No. Financial Accounting Statement (FAS) 107-1 and Accounting Principles Board Opinion (APB) 28-1 (FSP FAS107-1/APB28-1), Interim Disclosures about Fair Value of Financial Instruments, an amendment to disclosure requirements of Statement 107 and Opinion 28⁶. FAS 107-1 and APB 28-1, issued in April of 2009 and effective for interim reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009, requires disclosures about fair value of financial instruments. This guidance requires qualitative and quantitative

⁵ The guidance in FSP FAS132(R)-1 is now contained in FASB Accounting Standards Codification Topic 715, adopted effective September 30, 2009.

⁶ The guidance in FSP FAS107-1/APB28-1 is now contained in FASB Accounting Standards Codification Topic 825, adopted effective September 30, 2009.

disclosures about fair value of assets and liabilities on a quarterly basis. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On June 30, 2009, KU adopted the provisions in SFAS No. 165, Subsequent Events⁷. SFAS No. 165, issued in May of 2009 and effective for interim and annual periods ending after June 15, 2009, requires disclosure of the date through which subsequent events have been evaluated, as well as whether that date is the date the financial statements were issued or the date they were available to be issued. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On December 31, 2009, KU adopted the provisions in FASB ASU 2010-06, Fair Value Measurement and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements, an amendment of the FASB Accounting Standards Codification. The ASU 2010-06 amendments, issued in January of 2010, required separate disclosure of amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements. This guidance was effective for interim and annual reporting periods beginning after December 15, 2009. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On January 1, 2011, KU adopted the provisions in Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2010-06, Fair Value Measurement and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements, an amendment of the FASB Accounting Standards Codification. The ASU 2010-06 amendments, issued in January of 2010, required separate information about purchases, sales, issuances and settlements within Level 3 measurements. This guidance was effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On December 31, 2011, KU adopted the provisions in FASB ASU 2011-05, Comprehensive Income (Topic 220) - Presentation of Comprehensive Income, an amendment of the FASB Accounting Standards Codification. The ASU 2011-05 amendments, issued in June of 2011 and effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, requires that all non-owner changes in stockholder's equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements where the first statement includes the components of net income and the second statement includes the components of OCI. There was no revenue

⁷ The guidance in SFAS No.165 is now contained in FASB Accounting Standards Codification Topic 855, adopted effective September 30, 2009.

and/or expense or capital impact in this filing as a result of adopting this guidance.

On December 31, 2011, KU adopted the provisions in FASB ASU 2011-09, Compensation – Retirement Benefits – Multiemployer Plans (Topic 715-80) – Disclosures about an Employer’s Participation in a Multiemployer Plan, an amendment of the FASB Accounting Standards Codification. The ASU 2011-09 amendments, issued in September of 2011 and effective for annual periods for fiscal years ending after December 15, 2011, requires that employers provide additional separate disclosures which include the significant multiemployer plans in which an employer participates, the level of the employer’s participation in these plans, the financial health of these plans and the nature of employer commitments to these plans. For plans for which users are unable to obtain additional publicly available information outside the employer’s financial statements, additional disclosures are required. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On January 1, 2012, KU adopted the provisions in FASB ASU 2011-04, Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, an amendment of the FASB Accounting Standards Codification. The ASU 2011-04 amendments, issued in May of 2011 and effective during interim and annual periods beginning after December 15, 2011, requires additional disclosures which include quantitative information about significant unobservable inputs used for Level 3 measurements, qualitative information about the sensitivity of recurring Level 3 measurements, information about any transfers between Level 1 and 2 of the fair value hierarchy, information about when the current use of a non-financial asset is different from the highest and best use, and the hierarchy classification for assets and liabilities whose fair value is disclosed only in the notes to the financial statements. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On January 1, 2012, KU adopted the provisions in FASB ASU 2011-08, Intangibles-Goodwill and Other (Topic 350) – Testing Goodwill for Impairment, an amendment of the FASB Accounting Standards Codification. The ASU 2011-08 amendments, issued in September of 2011 and effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, allows an entity to elect the option to first make a qualitative evaluation about the likelihood of an impairment of goodwill. If, based on this assessment, the entity determines it is not more likely than not the fair value of a reporting unit is less than the carrying amount, the two-step goodwill impairment test is not necessary. However, the first step of the impairment test is required if an entity concludes it is more likely than not the fair value of a reporting unit is less than the carrying amount based on the qualitative assessment. There was no revenue

and/or expense or capital impact in this filing as a result of adopting this guidance.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

Response to Attorney General's Initial Requests for Information

Dated July 31, 2012

Question No. 75

Responding Witness: Valerie L. Scott

Q-75. Please list all procedures the Company follows to ensure that there was a proper assignment of costs to the test period and that the test period only includes charges incurred during the test period.

A-75. The Company maintains its accounting records consistent with the FERC Uniform System of Accounts. In preparation of Exhibit 1 of the Company's application in this case a thorough review of the financial data for the test period was performed to ensure that the costs included during the test period reflected only those costs applicable to the test period. Costs recorded during the test period that were not applicable to the test period were included in Exhibit 1 as proforma adjustments. A summary of the policies and procedures the Company follows to maintain its accounting records in accordance with the FERC Uniform System of Accounts follows. See also the responses to Question No. 67 and Question No. 183.

Corporate Accounting Policies

- Expenditures are properly approved in accordance with the Company's Disbursement Policy and Authority Limit Matrix.
- The Company has a Purchasing Policy which states that the Company shall comply with all applicable federal, state and local laws, statutes, rules and regulations. As discussed previously, the FERC Uniform System of Accounts is followed to help determine the appropriate accounts charged.

Training and Resources

- The Controller Department maintains an intranet site with links to the Uniform System of Accounts and other technical accounting guidance.
- In general, employees who code invoices receive guidance from the Accounting department. Accounting guidance regarding coding of

invoices is further provided as necessary through operations personnel, whose responsibility is to further communicate to the appropriate employees in their respective areas.

Internal Procedures and Controls

- Journal entry procedures are developed and followed to insure journal entries are prepared in accordance with Company policies and the Uniform System of Accounts.
- Monthly reviews of financial data, including variance analyses, are performed by accounting and operations personnel.
- Accounts Payable may also follow up on invoices that do not appear to be coded correctly and, as applicable, provide guidance to the person who coded the invoice directly and/or the appropriate operations personnel.
- The Company's general ledger system (Oracle) contains many cross validation rules that help prevent certain types of miscodings.
- Non-standard journal entries and any adjustments made during and after the test period are reviewed to determine whether adjustments relate to the test period or other periods. Appropriate adjustments are made to the test period to insure proper assignment of costs to the test period.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 76

Responding Witness: Valerie L. Scott

- Q-76. Provide a copy of the Company's two most recent management letters and recommendations received from the Company's independent auditors.
- A-76. The Company has not received management letters or letters of recommendation from the Company's independent auditors for at least the last ten years.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 77

Responding Witness: Kent W. Blake

Q-77. List each internal audit completed, scheduled, or in progress at the Company for 2009, 2010, 2011 and 2012 to date. For each, list subject of audit, date of audit, date of report and title of report.

A-77. See attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 78

Responding Witness: Lonnie E. Bellar

Q-78. Provide a copy of the Company's most recent management and operations audit.

A-78. On September 14, 2011 the PSC issued the Final Audit Report on the Focused Management and Operations Audit of Louisville Gas and Electric Company's and Kentucky Utilities Company's customer service functions. Below is the link to the final report.

http://psc.ky.gov/agencies/psc/M_Audit/KU%20LGE%20Final%20Report%20with%20Letter.pdf

On November 10, 2011 the PSC issued the Management Audit Action Plans regarding the aforementioned management audit. Below is the link to the Action Plans.

http://psc.ky.gov/agencies/psc/M_Audit/LGE_KU_CS_Audit_Action_Plan_Final.pdf

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 79

Responding Witness: Counsel

- Q-79. List each proposed pro forma entry which was considered in this filing but not made and state the reason(s) why the entry was not made.
- A-79. Objection. All decisions regarding which adjustments to include in the application in this proceeding were made in consultation with legal counsel. Any response to this question necessarily requires the Company to reveal the contents of communications with counsel and the mental impressions of counsel, which information is protected from disclosure by the attorney-client privilege and the work product doctrine. The Commission determined in its July 30, 2010 Order in Case No. 2009-00548 that such information is not discoverable. See pages 6-10 and ordering paragraph 5 of the Commission's Final Order in Case No. 2009-00548 dated July 30, 2010.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 80

Responding Witness: Valerie L. Scott

- Q-80. Please provide an explanation of all items included in the following accounts (by subaccount if any) and provide the appropriate jurisdictional amounts for the year ended 2009, 2010, and 2011:
- a. Other Accounts Receivable,
 - b. Accrued Utility Revenues,
 - c. Miscellaneous Deferred Debits,
 - d. Miscellaneous current and accrued liabilities, and
 - e. Other Deferred Credits.
- A-80. KU does not maintain its books in the manner necessary to produce a jurisdictional balance sheet. The attached Kentucky jurisdictional balance sheet was developed by allocating remaining balances based on appropriate methodologies.
- a-e See attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 81

Responding Witness: Shannon L. Charnas / Counsel

- Q-81. Please provide a comparison by month, or if not available, by quarter, of budgeted versus actual retirements for each month of 2009, 2010, 2011 and 2012 to date. Please explain any significant variations.
- A-81. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 19, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, see attached for actual retirements..

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 82

Responding Witness: Kent W. Blake

Q-82. Customer Advances.

- a. What is the ratemaking treatment for customer advances proposed by the Company in its filing? Where is such proposal found in the filing?
- b. Provide the monthly level of customer advances for the period December 2009 thru December 2011.
- c. Provide the monthly interest expense paid by the Company on customer advances for the same period.

A-82. a. Consistent with the Commission's Orders in Case Nos. 98-474 and 2003-00434 (KU) and Case Nos. 98-426 and 2003-00433 (LG&E) customer advances are treated as a deduction from rate base. See Blake Exhibit 3 in the filing.

b. See attached.

c. The Company does not pay interest expense on customer advances.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 84

Responding Witness: Sidney L. "Butch" Cockerill

- Q-84. Customer Deposits.
- a. What is the contractual interest rate on customer deposits?
 - b. Identify the tariff or statute that establishes the interest rate.
 - c. Does the Company accrue interest on inactive customer deposits?
 - d. How often is interest on customer deposits paid?
 - e. Is interest on customer deposits paid by check, in the form of a bill credit, or credited as an addition to the customer deposit balance?
 - f. What is the Company's policy on customer deposits for collection, refund, and use as an offset against an uncollectible balance?
 - g. Provide a copy of the Company's policy(s) relating to customer deposits.
 - h. Is the amount different than the company has used in prior cases? If so, explain in detail. If yes, please explain how it will affect the impact on the revenue requirement.
- A-84.
- a. Contractual interest rate on customer deposits is .104%.
 - b. KRS 278.460 establishes the interest rate to be paid on customer deposits.
 - c. No.
 - d. Interest is paid to the customer annually, per 807 KAR 5:006, Section 7. Deposits (6).

- e. Interest on customer deposits is paid in the form of a bill credit.
- f. See response in Part “g”.
- g. See attached policy for Service Deposits.
- h. No change is being proposed to the amount of customer deposits.

POLICY FOR SERVICE DEPOSITS

X. Policy for Service Deposits

Revised 8-2010

A. Overview

The collection of service deposits from both residential and non-residential customers is an essential part of managing the Company's credit risk and exposure to loss.

B. Definitions

N/A

C. Applicability

See Kentucky Public Service Commission Regulation 807 KAR 5:006. General Rules, Section 7, Subsections (1) – (7).

See Kentucky Utilities Company Rates, Terms & Conditions for Furnishing Electric Service Sheet No. 87 P.S.C No. 13

D. Terms of the Service Deposit Policy

Residential service deposits are required from all new customers, based on the customer's credit score, provided by Experian, as well as existing customers who have been disconnected for nonpayment and are seeking to have service restored. Accounts requiring a security deposit may have the deposit billed in up to four monthly installments.

Residential service deposit amounts can be found in each utility's filed and approved tariffs.

Residential Deposits:

LG&E, KU and ODP residential service deposits are held a minimum of 12 months. LG&E and KU deposits earn interest determined by the KPSC annually, while ODP deposits earn interest determined by the Commonwealth of Virginia annually.

LG&E, KU and ODP deposits will be refunded (applied to the customer's account) at the end of the first 12 month period, in which the customer has not:

- Been disconnected for nonpayment, or
- Received a disconnect notice/budget reminder letter, or
- Had a returned check, or
- Had meter theft/tampering or diversion charges, or
- Defaulted on an installment plan

IMPORTANT: The maximum security deposit for a residential contract account **cannot** exceed the amount indicated in our approved tariffs.

For residential customers, personal guarantees or letters of credit from other utilities **ARE NOT** acceptable in lieu of a cash deposit.

Security deposits should not be required on non-metered contracts (typically outdoor lights) tied to residential contract accounts.

The use and usage of non-residential contracts tied to residential contract accounts should be determined and if historic consumption on the non-residential contract(s) warrants a security deposit, then the deposit should be required based on the tariffed method of calculation. (fixed deposit amount for GS rate categories and 2/12's for all other rate categories) (Ex. Assume a residential contract account has an electric contract, a gas contract, and separate garage that constitutes a non-residential contract. In this case CCS will render a deposit quote for all three contracts. The CSR should review the historic usage on the garage and/or inquire as to the intended use of the garage and then make a determination as to whether a deposit should be requested for the garage.)

Non-residential Deposits:

Service deposits should be required from all new non-residential customers, as well as all existing non-residential customers failing to maintain satisfactory credit with the Company defined as no disconnects, no late notices, no defaults on installment plans, no returned payments, and no diversion incidents or customers whose deposit is below the 2/12 minimum. Calculation of the deposit amount is typically 2/12 of the annual billing per meter unless the customer is on a GS rate. (see filed and approved tariffs for current amount).

Non-residential deposits for LG&E and KU will be held until the customer terminates the service. The only exception to this is for LG&E non-residential deposits secured prior to July 1, 2004 which will be refunded under the policies in effect at that time.

Non-residential deposits for ODP will be held a minimum of two years, and will be refunded (applied to the customer's account), provided the customer has maintained satisfactory credit with the Company, as defined above.

A surety bond or bank letter of credit can be provided in lieu of a cash deposit

Business rules for non-residential deposits

All new, separate, and distinct non-residential service applicants will be required to provide a security deposit as a condition of service. New, separate and distinct is defined as follows: For incorporated or LLC businesses, this would be indicated by separate tax id numbers. For unincorporated businesses (sole proprietorship), new, separate and distinct would be indicated by a different type of business. For example, a pizza shop and an auto repair business.

This deposit may be paid prior to providing service or may be billed up to four installments beginning on the first regular billing. If the deposit is waived, appropriate contacts should be entered on all accounts indicating the employee responsible for the decision to waive and the reason for the waiver.

All existing non-residential customers will be required to provide a security deposit as a condition of reconnection after service has been disconnected for either non-payment or any other reasons for disconnection per approved tariffs and regulations. If the deposit is waived, appropriate contacts should be entered on all accounts indicating the employee responsible for

the decision to waive and the reason for the waiver.

All existing non-residential customers may be assessed a deposit once their payment history becomes unsatisfactory. In addition, if a non-residential customer has a deposit less than 2/12's of the annual usage, and unsatisfactory credit, an increase in the deposit amount should be considered.

Discretion should be used to determine whether security deposits should be required on non-metered contracts (typically outdoor lights) tied to non-residential contract accounts as well as non-metered contracts (typically outdoor lights) on stand-alone contract accounts.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 85

Responding Witness: Shannon L. Charnas

- Q-85. For the test period and the preceding two 12-month periods, has the Company sold any property which had formerly been included in Plant Held for Future Use or devoted to utility service? If so, for each sale, describe the property sold; state whether, when and in what manner it had been included in rate base; show the details of how the gain or loss was calculated; indicate when the sale occurred; explain how and whether the Company is amortizing such gain or loss; and show how such amortization was computed.
- A-85. See attached. All property listed has been included in net original cost rate base from the time of purchase through the time of sale. KU is not amortizing any gains or losses associated with these property sales except for the gain on the sale of the Carrollton office which was accounted for as a sale/leaseback transaction.

				\$ (14,633)

*See deferred gain calculation

†KU transferred 149 rail cars owned by KU to Trinity Industries Leasing Company as part of a lease transaction under which KU will lease 150 new aluminum railcars. KU received a trade-in allowance for the railcars of \$774,800. KU has classified this trade-in allowance as a prepaid lease as it is reducing the monthly lease payments over the life of the lease. The loss KU recognized is the difference between the net book value of the existing railcars and the trade-in allowance given by the lessor.

A loss of \$483,341 was recorded to Account 151-Fuel Stock. The use of Plant Account 151 is required pursuant to the Kentucky Public Service Commission's January 2, 1997 Order in Case No. 92-493, requiring that the gain on the sale of railcars depreciated through the Company's fuel adjustment clause (FAC) be passed to customers through the Company's FAC.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 86

Responding Witness: Shannon L. Charnas / Ronald L. Miller

Q-86. The following questions are related to the Company's policies regarding accounting for CWIP, plant in service and depreciation:

- a. For each item of CWIP which the Company has transferred into utility plant in service for purposes of this filing, has a full 12 months of depreciation expense been included in the cost of service?
- b. For each item of CWIP which the company has transferred into utility plant in service for the purposes of this filing, has an amount representing a full 12 months of depreciation expense been added to the total accumulated depreciation by which rate base is reduced?
- c. Provide the same information as requested in subsection b. above for the deferred taxes related to the depreciation timing differences.

- A-86.
- a. Yes. See Blake Exhibit 1, References Schedule 1.12
 - b. Yes. See Blake Exhibit 4, Pro Forma Rate Base, Line 3, Column 3.
 - c. No pro forma deferred tax adjustment to the rate base has been included for CWIP depreciation timing differences.

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 87

Responding Witness: Lonnie E. Bellar

- Q-87. For major plant construction projects representing plant additions costing more than \$5 million added during 2009, 2010, 2011 and 2012 to date please state the following:
- a. Description of project.
 - b. Any economic feasibility studies done in a relationship to the project.
 - c. Any related cost savings achieved as a result of adding the addition.
 - d. Whether the project was for replacement, for new growth, environmental, or other.
 - e. Description of why the project was necessary.
- A-87. a. – e. See the attached table and supporting documents. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

**Attachment pages provided under
confidential seal have been removed.**

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 88

Responding Witness: Valerie L. Scott

- Q-88. Identify how much of the Company's materials and supplies balance in 2009, 2010, 2011 and 2012 to date is related to construction activities.
- A-88. Materials and supplies specifically purchased for a capital project are charged directly to that project. The items in the materials and supplies balance are not related to any specific construction activities.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 90

Responding Witness: Ronald L. Miller / Counsel

Q-90. Please provide detailed calculations of federal income taxes (budgeted and actual) for the year ended 2009, 2010 and 2011.

A-90. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, the Company provides the following actual information:

The 2009 and 2010 calculations of federal income taxes for our year-end estimate and actual per the return is provided under seal. The 2011 calculation of federal income taxes for our year-end estimate is also included. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

The 2011 federal tax return has not yet been prepared; this return will be filed before September 15, 2012.

**Attachment pages provided under
confidential seal have been removed.**

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 91

Responding Witness: Ronald L. Miller

- Q-91. Please provide workpapers detailing the calculation of each statutory addition and deduction used in arriving at taxable income in the above calculation. Also provide a narrative explanation of the effect of each statutory addition and deduction on tax and/or book income, and the Internal Revenue Code Section or Treasury Regulation calling for the adjustment.
- A-91. The 2010 workpapers detailing the calculation to arrive at taxable income are provided under seal. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

The 2011 federal tax return has not yet been prepared; this return will be filed before September 15, 2012.

A comprehensive narrative explanation of the effect of each statutory addition and deduction on tax and/or book income does not exist; however, a summary explanation of our book vs. tax differences is attached. Also, there is no readily available comprehensive listing of each adjustment that references either the applicable Internal Revenue Code Section or Treasury Regulation. The Company does follow the Internal Revenue Code and Treasury Regulations in preparing its federal tax return.

**Attachment pages provided under
confidential seal have been removed.**

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 92

Responding Witness: Ronald L. Miller

- Q-92. For 2009, 2010 and 2011, please provide a copy of the U.S. Corporation Income Tax Return, and the Kentucky Corporate Income Tax Return and all other Kentucky Tax Returns. If separate returns were not prepared, please provide the detailed worksheets that were used to prepare the consolidated return.
- A-92. The 2009 pro forma Kentucky tax return is attached and provided under seal. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

See the response to Question No. 89 for the federal income tax returns.

The 2010 pro forma Kentucky income tax return was filed in this case as Response to Commission First Data Request Number 26(a)(8). The 2011 Kentucky income tax return has not yet been prepared; this return will be filed before October 15, 2012. Local income tax returns are not required for public service corporations in Kentucky.

Other routine non-income tax Kentucky returns such as monthly Sales/Use tax returns, quarterly payroll tax returns, and property tax returns can be provided or are available for review, if needed.

CASE NO. 2012-00221

Response to Attorney General's Initial Requests for Information

Dated July 31, 2012

Question No. 93

Responding Witness: Ronald L. Miller

- Q-93. Please provide the following information regarding deferred income taxes included in the test-year tax expense:
- a. Calculation of all timing differences reflected in DFIT; show book amount and tax amount; indicate when amounts were included in book and in tax returns;
 - b. Tax rate applied to each timing difference;
 - c. Calculation of actual DFIT;
 - d. If different, reconcile book amount per cost of service and book amount in DFIT calculation. Identify and quantify all reconciling items.
 - e. The gross and net additions to deferred taxes. Please breakdown such additions by sub-account, providing the number and name for each account and sub-account. For each item by year, please reconcile the gross to net additions and explain how that reconciliation was derived.
- A-93.
- a. The net differences are listed on the attached as separate book and tax amounts are not readily available for the test year.
 - b. See response to (a.) above.
 - c. See response to (a.) above.
 - d. The book amounts used for the cost of service study and the book amounts used for deferred tax calculations are the same. The cost of service study does not use the book amounts after net operating income.

- e. See attached for the listing of sub-account amounts during the test year. The Company does not keep its deferred tax records for gross or net additions, therefore no reconciliation is provided.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 94

Responding Witness: Lonnie E. Bellar / Ronald L. Miller

Q-94. Please list the name and business function of all Company subsidiaries and separately list those which are included in this case for ratemaking purposes.

A-94. KU has one inactive wholly owned subsidiary company, Lexington Utilities Company. KU also has minority investments in Electric Energy, Inc and Ohio Valley Electric Corporation. Neither minority investment is consolidated with KU.

None of these subsidiaries are included in this case for ratemaking purposes.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 95

Responding Witness: Ronald L. Miller

- Q-95. Please provide worksheets which reconcile book and tax income and tax liability on the books and on the tax return for 2009, 2010 and 2011.
- A-95. See the response to Question No. 90 for reconciliation of book income and federal taxable income for 2009 and 2010. The 2011 tax return has not yet been prepared; therefore no 2011 reconciliation is included.

Also, a reconciliation of the Company's book tax liability to the corresponding tax return for 2009 and 2010 is provided under seal. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

Question No. 96

Responding Witness: Ronald L. Miller

- Q-96. Please list and explain in detail the allocation methods used to allocate state and federal tax liability and tax credits between the Company and its subsidiaries. Please provide worksheets which show a detailed derivation of the allocations for 2009, 2010 and 2011. The derivation should include separate listing of contributions, indebtedness cost, NOL (current, carryforwards and carrybacks), each credit by type (such as the investment tax credit, jobs credit), and intercompany transactions.
- A-96. There are no allocations between KU and its subsidiaries, Lexington Utilities, EEI and OVEC.

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 99

Responding Witness: Ronald L. Miller

- Q-99. Please provide for each year from 2000 through 2008 the gross and net additions to deferred taxes. Please breakdown such additions within each year by sub-account, providing the number and name for each account and sub-account.
- a. For each item by year please reconcile the gross to net additions and explain how that reconciliation was derived.
- A-99. See attached for the ending balances for 2006 through 2011 for Accumulated Deferred Income Taxes. Earlier information is not readily available. Note that certain subaccounts have changed through the years. Also, KU's reconciliations of these accounts are maintained based on net amounts, rather than being detailed by gross additions, deductions, etc.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 100

Responding Witness: Ronald L. Miller

Q-100. Please provide detailed worksheets showing the derivation of "excess tax over book depreciation" for 2009, 2010 and 2011.

A-100.

	<u>Per Return Year 2009</u>	<u>Per Return Year 2010</u>
Tax Depreciation	\$(207,492,430)	\$(310,401,901)
Book Depreciation	<u>135,048,784</u>	<u>148,453,427</u>
Excess Tax over Book	<u>\$(72,443,646)</u>	<u>\$(161,948,474)</u>

Note: Year 2011 information is not available – the Federal Return is not yet completed.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 101

Responding Witness: Ronald L. Miller

- Q-101. Please provide the beginning and ending balances for 2009, 2010 and 2011 for Accumulated Deferred Income Taxes and Provisions for Deferred Income Taxes broken down by sub-account with the name and number of each sub-account.
- A-101. See the response to Question No. 99 for balances by accounts for 2009 through 2011. For Provisions for Deferred Income Taxes see response to Question No. 102.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 102

Responding Witness: Ronald L. Miller

Q-102. Please provide the following amounts for 2009, 2010 and 2011:

- a. Income tax expense, current, deferred, deferred-credit, investment tax credit deferred and investment tax credit amortized from prior years. Identify by Uniform System Account number.
- b. Identify the benefit giving rise to each charge, as shown in the example below.
- c. Separate federal and state amounts.
- d. Cite the order or ruling on which the Company bases rate treatment of these benefits (normalized or flow-through). Note the rate treatment (normalized or flow-through).
- e. State the accumulated total for each as it appears on the test period balance sheets. Identify by Uniform System Account Number.
- f. State the rate base treatment of each item (e.g. deducted from rate base, cost-free capital, treated as equity, etc.).
- g. Cite the order or ruling on which the Company bases treatment identified in f.

A-102. a. Income Taxes:

Federal income taxes current –

	<u>2009</u>	<u>2010</u>	<u>2011</u>
Account 409.1	(\$4,766,355)	\$61,659,449	(\$6,941,452)
Account 409.2	(\$987,569)	(\$2,299,144)	(\$921,896)
Total	(\$5,753,924)	\$59,360,305	(\$7,863,348)

State income taxes current –

	<u>2009</u>	<u>2010</u>	<u>2011</u>
Account 409.1	\$1,631,507	\$12,756,393	\$4,455,179
Account 409.2	<u>(\$307,915)</u>	<u>(\$413,222)</u>	<u>(\$252,272)</u>

	<u>2009</u>	<u>2010</u>	<u>2011</u>
Account 411.1	(\$6,673,683)	(\$27,119,305)	(\$19,961,037)
Account 411.2	<u>(\$708,345)</u>	<u>(\$199,435)</u>	<u>(\$47,757)</u>
Total	(\$7,382,028)	(\$27,318,740)	(\$20,008,794)

Investment Tax Credit Deferred –

	<u>2009</u>	<u>2010</u>	<u>2011</u>
Account 411.4	\$21,416,455	\$0	\$0

Investment Tax Credit Amortized –

	<u>2009</u>	<u>2010</u>	<u>2011</u>
Account 420	(\$130,847)	(\$71,100)	(\$2,686,401)

	<u>2009</u>	<u>2010</u>	<u>2011</u>
Grand Total	\$67,099,846	\$98,680,118	\$105,958,941

- b. There is no “example below” in the question to reference.
- c. See response to part (a) of this question.
- d. The Company follows the Internal Revenue Code and Commission practices to determine if an item flows through or is normalized. KU flows through the Allowance for Funds Used During Construction Equity, all else is normalized.
- e. There is no Allowance for Funds Used During Construction Equity in the Kentucky Jurisdiction.
- f. The deferred tax balances are deducted from rate base.
- g. The Company’s treatment of the deferred taxes is consistent with general rate making practices.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 103

Responding Witness: Ronald L. Miller

Q-103. Please provide a detailed derivation of 2009, 2010 and 2011 research and development credits, including:

- a. a list of all research, development and experimentation expenditures, and for each item provide separately:
 - (i) the amounts payable to inside and outside contractors;
 - (ii) the amount payable in the test period;
 - (iii) the total expenditures to be expensed in determining federal taxable income; and
 - (iv) the total expenditures qualifying for any R & E credit under the Internal Revenue Code.

A-103. See attached.

**KENTUCKY UTILITIES COMPANY
CASE NO. 2012-00221
R&E Credit Analysis**

		<u>2009 KU</u>	<u>2010 KU</u>	
(i)	Outside Contractors(No Inside Contractors)			
	EPRI	1,330,850	1,722,060	
	Nonqualified EPRI 50% Adjustment Per Agreement With IRS	(665,425)	(861,030)	
	Western KY Carbon Storage Foundation Inc.	791,947		
	E.ON Engineering	4,108

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 104

Responding Witness: Ronald L. Miller

Q-104. Identify all net operating loss carrybacks and carryforwards for KU, its parent and each subsidiary for 2008, 2009, 2010 and 2011.

A-104. There are no net operating loss carrybacks or carryforwards for KU for 2008, 2009 or 2010. See the attached for net operating losses for its parent and subsidiaries. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

The 2011 federal tax return has not yet been prepared; this return will be filed before September 15, 2012.

**Attachment pages provided under
confidential seal have been removed.**

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 105

Responding Witness: Ronald L. Miller

Q-105. What amount of KU interest expense for tax purposes and separately for book purposes was allocated to Kentucky regulated operations on a combined and intrastate basis during the test period? Please explain and provide a reconciliation of the difference.

A-105. KU has its own debt and the related interest expense. Therefore, no interest expense is allocated to KU regulated operations from any other company for book or tax purposes. For ratemaking purposes, the KU legal entity is divided into Kentucky, Virginia and FERC jurisdictions. Total company interest expense is allocated to these three jurisdictions based on the Cost of Service Study.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 106

Responding Witness: Ronald L. Miller

Q-106. Regarding the investment tax credit, please provide the amount of 3%, 4%, 7%, 10%, and 11% credits the company generated, booked for ratemaking purposes, and/or used as a credit against federal tax liability for each year from 2009 through 2011 and the derivation of each of those amounts.

A-106. KU had no investment tax credit at the rates mentioned above that were generated or used as a credit against its federal tax liability from 2009 through 2011. KU did generate advanced coal investment tax credit equal to 15% of its portion of Trimble County Unit 2 eligible construction expenditures. The estimated advanced coal investment tax credit recorded was \$21,416,455 for 2009, and the actual amount used as a credit against its 2009 tax liability was \$19,584,004. No advanced coal investment tax credit was recorded in 2010 or 2011 as the maximum allowable credit was met in 2009.

KU recorded investment tax credit amortization of \$130,847, \$71,100 and \$2,686,401 for the years 2009 through 2011, respectively.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 107

Responding Witness: Ronald L. Miller

- Q-107. For each distinct tax-timing difference for which the Company has provided deferred taxes, please identify the amount of excess deferred income taxes (i.e. deferred taxes accrued by the Company at federal tax rates higher than the current corporate tax rate, the excess is the difference over the current rate) existing on the Company's books at December 31, 2011 which can be flowed back to ratepayers on an accelerated basis (i.e. such amortization is not prohibited by the normalization requirements of the Internal Revenue Code). Show how these amounts are calculated.
- A-107. KU had no excess deferred income taxes existing on the books at December 31, 2011 which could be flowed back to ratepayers on an accelerated basis. In accordance with Internal Revenue Code Section 203(e) normalization requirements, excess reserves may not be reduced more rapidly than under the average rate assumption method, ARAM. KU applies this method which reduces excess deferred income tax reserves over the remaining book lives of the underlying property.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 108

Responding Witness: Ronald L. Miller

Q-108. Will the amount of investment tax credits utilized be increased if the Company is granted its requested rate increase in these proceedings? If not, why not? If so, provide calculations showing the Company's best estimate as to how much ITC will be utilized.

A-108. No, the amount of investment tax credit utilized will not be increased if the Company is granted its requested rate increase in these proceedings. KU has utilized all investment tax credits claimed.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 109

Responding Witness: Ronald L. Miller

Q-109. Provide detailed descriptions of any IRS audit, settlements with the Internal Revenue Service, or audit adjustments made during the three years ending December 31, 2011.

A-109. The IRS has completed its audit for the 2009 tax year and the ten month tax period ended October 31, 2010. These return years were completed under the Compliance Assurance Process. The IRS proposed no adjustments for those tax years.

Due to the acquisition by PPL Corporation, KU is now included in the consolidated return of PPL beginning November 1, 2010. The two month period ended December 2010 is not currently under examination. The 2011 federal tax return has not yet been prepared; this return will be filed before September 15, 2012.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 110

Responding Witness: Ronald L. Miller

Q-110. Provide a copy of any and all revenue ruling requests, IRS responses, and correspondence between the Company and the IRS during the ten years ending December 31, 2011.

A-110. KU has not made any requests for IRS income tax revenue rulings during the ten years ending December 31, 2011.

The Company does have routine correspondence with the IRS in dealing with payroll matters, employee benefits, income tax audits, tax payments/refunds, and other miscellaneous federal tax matters. Correspondence of this nature is available upon request or for inspection at the Company's offices, if needed.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 111

Responding Witness: Ronald L. Miller

Q-111. List total property taxes and property tax refunds or abatements each year, for the test period and the most recent three years for which actual information is available. Describe and show the accounting treatment accorded to each item, showing journal entries, dates, accounts, amounts and descriptions.

A-111. See attached.

Kentucky Utilities Company
Case No. 2012-00221
Property Taxes

<u>Account</u>	<u>Description</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>Test Year</u>
408.1	Property Tax Expense	11,974,840	10,166,001	16,755,000	17,465,361
408.2	Property Tax Expense	2,004	2,004	2,004	2,004
107	Construction Work in Progress	594,658	718,992	-	-

There were no abatements during the three years ending December 31, 2011 or the test year. See Question No. 113 for property tax refunds.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 112

Responding Witness: Ronald L. Miller

- Q-112. List all amounts of property taxes under dispute at December 31, 2011, and indicate the tax year and the taxing district to which each relates.
- A-112. KU filed a formal letter of protest with the Kentucky Division of Protest concerning its 2011 property tax assessment that was received from the Kentucky Department of Revenue. This protest related to the assessed value for state and local Kentucky tax purposes.

In June 2012, KU met with the Department of Revenue, including representatives from the Division of Protest Review and the Finance Cabinet's Legal Division to present the Company's position on its 2011 property tax assessment. Following the discussions, KU and the State reached agreement on the amount of the assessment, as well as the allocations among the various property classifications. The impact from the 2011 settlement resulted in an approximately \$473,000 additional charge to earnings which was recorded in the second quarter of 2012.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 113

Responding Witness: Ronald L. Miller

- Q-113. List all property tax refunds, by geographical area and taxing authority, by year, received in the most recent three years through 2011.
- A-113. KU received a \$3.64 refund from the City of Bardstown for property tax in 2009. In 2010, KU received an \$866.74 refund from Hickman County for property tax. In 2011, no property tax refunds were received by KU.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 114

Responding Witness: Ronald L. Miller

Q-114. Please explain and provide all workpapers and source documents supporting the derivation of the taxable bases for Kentucky property taxes for 2009, 2010 and 2011.

A-114. See attached for 2009 and 2010, information for 2011 is not yet available.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 115

Responding Witness: Ronald L. Miller

Q-115. Provide full supporting documentation, workpapers and correspondence associated with refunds of any and all taxes other than income taxes received in 2009, 2010 and 2011. Indicate which accounts were affected and the associated dollar amounts. Also describe how the Company intends to treat this/these item(s) for rate case purposes.

A-115. KU received a \$450,000 Kentucky Sales/Use tax refund in February 2009 for the audit period covering January 1996 to July 2000. The entire \$450,000 was recorded prior to 2009. Interest income of \$318,449 was recorded in the amounts of \$300,000 prior to 2009 and \$18,449 in 2009.

The settlement agreement related to this refund is attached and provided under seal. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

KU received miscellaneous IRS 941 payroll withholding refunds of \$2,747.23 in 2010. These refunds were credited to FERC account 408. KU received no payroll tax refunds in 2009 or 2011.

See the response to Question No. 113 for property tax refunds. All property tax refunds were credited to FERC account 408.

**Attachment pages provided under
confidential seal have been removed.**

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 116

Responding Witness: Ronald L. Miller

Q-116. Please state whether any settlements, penalties or interest resulting from audits by taxing authorities are included in expense per books in 2009, 2010 and 2011. If so, provide full details including the periods and issues resolved, the dollar amounts of settlement by issue, the taxing authority penalty or interest by issue, the taxing authority involved, the date of settlement, the current status of the payment, and the final resolution of the matter or status of the protest if unresolved.

A-116. The Company settled the Kentucky Department of Revenue's audit of Sales/Use tax for the period January 1996 to July 2000 in 2009. (See the response to Question No. 115). The settlement resulted in refunds of tax, including interest.

The Company settled the Kentucky Department of Revenue's audit of Sales/Use tax for the period August 2000 to December 2005 and received an assessment of \$65,135 and \$34,897 of interest. The entire \$65,135 assessment and \$16,538 of interest expense was recorded prior to 2009. The additional interest expense of \$18,359 was recorded in 2011.

The Company's Internal Revenue Service settlements in 2009 and 2010 are discussed in the response to Question No. 109. No interest or penalties are included in the expense per books in 2009, 2010, or 2011.

Settlements are reached annually in connection with the filing of the Company's Kentucky property tax returns. Results from the 2009 and 2010 settlements were recorded in each year's property tax expenses. The 2011 Kentucky property assessment was unable to be resolved until mid-2012 and resulted in an additional tax assessment of \$473,000 and an interest assessment of \$26,000, both of which were recorded in June 2012. There were no penalties or interest charges associated with the 2009 settlements. Furthermore, there were no audits of the Company's property tax filings outside of these settlements.

KU recorded property tax penalties of \$3,254 in 2010 and \$88 in 2011.

KU recorded penalties of \$26 in 2010 and \$235 in 2011 for late state payroll tax deposits. There were no payroll tax penalties for 2009.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 117

Responding Witness: Counsel

- Q-117. For the years 2009, 2010, and 2011, please provide a description of all variations between budgeted and actual expense levels which are due to known and certain changes, providing supporting documentation. Indicate all variations from actual levels which result from the application of inflation or escalation factors. In those instances where inflation or escalation factors were utilized, explain the derivation of the factors used in each case. If a single factor was used, a summary description will suffice.
- A-117. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. The budgetary information requested in this data request is not relevant to the analysis of known and measurable pro forma adjustments in this case.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 118

Responding Witness: Valerie L. Scott

Q-118. Please indicate, if known and quantifiable, any anticipated changes in jurisdictional allocation factors and the impacts thereof on the test period in this case.

A-118. The Company does not anticipate any changes in jurisdictional allocation factors. The Company has used a historical test year in this case and therefore does not anticipate any changes to test period results in this case.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 119

Responding Witness: Valerie L. Scott

Q-119. Indicate the number of and expenses related to temporary or seasonal employees included in 2009, 2010 and 2011 jurisdictional expenses.

A-119. The Company does not have any seasonal employees. The chart below reflects Kentucky jurisdictional expenses related to labor and labor related burdens for temporary employees for 2009, 2010 and 2011.

Year	Company	# of Employees	Expenses
2009	KU charging KU	-	-
	Servco charging KU	54*	318,583
2010	KU charging KU	2	38,694
	Servco charging KU	66*	391,372
2011	KU charging KU	5	62,257
	Servco charging KU	68*	547,715

* Full headcounts are used for Servco temporary employees, however their expenses are allocated to LG&E and KU based on their respective assignments.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 120

Responding Witness: Paula H. Pottinger, Ph.D.

Q-120. Please provide a schedule showing the percentage of increase in salaries and wages for both union and non-union employees for the test period and the three preceding 12-month periods. Break out non-union employees between CEO, executives making more than \$150,000 and management making less than \$150,000.

A-120. The schedule below shows the salary increase for the test period and the three preceding 12-month periods as requested above. While executives are employees of the service company, only a portion of their salary is charged to rate payers as indicated in the response to Staff initial data request question No. 1-46.

	Test Period	2011	2010	2009
Union	2.5%	3.0%	3.0%	3.5%
CEO	0.0%	0.0%	0.0%	3.0%
Executives > \$150,000	3.2%	3.0%	2.8%	3.0%
Management < \$150,000	3.1%	3.1%	2.6%	3.2%
Individual Contributors	2.9%	3.0%	3.2%	3.5%
Non-Exempt	3.0%	2.9%	3.2%	3.3%

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 121

Responding Witness: Valerie L. Scott

- Q-121. Please provide jurisdictional totals and amounts by payee, and an explanation of the services provided, for all amounts charged to outside services during 2009, 2010 and 2011.
- A-121. See attached for detail of total company outside services from January 2009 through March 2011. See the response to PSC 1-31 for detail of total company outside services from April 2011 to December 2011. The Company does not maintain its books in the manner necessary to produce jurisdictional totals for outside services.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 122

Responding Witness: Paula H. Pottinger, Ph.D.

Q-122. Please provide copies of any studies or analyses prepared by or for the Company regarding the level of the Company's wages compared to the wages paid by other utilities, service companies, or any other entity.

A-122. The Company participates annually in a number of general and utility industry third party compensation surveys to obtain market pricing and salary planning data from which to determine competitive salaries. Attachment #1 summarizes the analysis completed for 2012.

The Company's compensation philosophy is to establish salary ranges based on the 50th percentile of each job's market pricing. A job's market price serves as a reference point from which to administer compensation. Compensation compared to the external reference point results in a compa-ratio. The analysis below was completed mid-November 2011 in order to make a recommendation for 2012's salary increase budget.

Sal Plan	Average of 2011 <u>Base</u> Compa-Ratio	Average of 2011 <u>Actual TCC</u> Compa-Ratio	Average of 2011 <u>Target TCC</u> Compa-Ratio	# Employees in Salary Plan
EX	99.75%	102.75%	103.24%	1,061

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 123

Responding Witness: Valerie L. Scott

Q-123. Please provide the FICA wage base dollars included in total wages paid for the years ended December 31, 2010 and 2011.

A-123.

Year	OASDI Taxable Wages	Medicare Wages
2010	\$ 76,880,926	\$ 77,966,402
2011	\$ 79,391,557	\$ 80,866,641

Data reported includes Kentucky Utilities employees only.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 124

Responding Witness: Valerie L. Scott

Q-124. Please provide the FICA wage base anticipated for the base and test periods and explain its derivation.

A-124. See table below.

	OASDI Taxable Wages	Medicare Wages
Test Year	\$ 81,724,339	\$ 83,199,403

Data was derived from payroll records and includes Kentucky Utilities Company employees only.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

Response to Attorney General's Initial Requests for Information

Dated July 31, 2012

Question No. 125

Responding Witness: Valerie L. Scott

Q-125. Please provide the percent of wages, employee benefits, overheads by type, employment taxes and other expenses charged to O&M on the basis of labor dollars (by the various labor categories, if possible) for 2009, 2010 and 2011. Please indicate the causes of any differences between the percentages (over 3 percent) from year to year.

A-125. The table below represents the respective expense items, each as a percent of total wages.

<u>Type of O&M Expense</u>	<u>2009</u>	<u>2010</u>	<u>2010</u>		<u>2011</u>	
			<u>vs.</u>	<u>2009</u>	<u>2011</u>	<u>vs.</u>
Wages	67.8%	71.1%	3.3%	71.1%	0.0%	
401k	2.5%	2.7%	0.2%	2.5%	-0.2%	
Dental	0.4%	0.4%	0.0%	0.4%	0.0%	
ASC 712	-0.1%	0.0%	0.1%	0.7%	0.7%	
ASC 715	4.1%	4.0%	-0.1%	3.4%	-0.6%	
FICA	0.0%	0.0%	0.0%	0.0%	0.0%	
Life	0.3%	0.3%	0.0%	0.3%	0.0%	
Long-Term Disability	0.2%	0.3%	0.1%	0.3%	0.0%	
Medical	6.6%	7.6%	1.0%	7.1%	-0.5%	
Miscellaneous	0.4%	0.5%	0.1%	0.3%	-0.2%	
Pension	15.9%	14.4%	-1.5%	13.9%	-0.5%	
Retirement Income	0.2%	0.3%	0.1%	0.4%	0.1%	
TIA	5.1%	7.3%	2.2%	5.3%	-2.0%	
Tuition Reimbursement	0.2%	0.2%	0.0%	0.2%	0.0%	
Unemployment	0.0%	0.0%	0.0%	0.0%	0.0%	
Workers' Compensation	0.3%	0.3%	0.0%	0.5%	0.2%	

Wages as a percentage of total labor increased from 2009 to 2010 as a result of reduced company labor charges to major construction projects in 2010 compared to 2009. See the response to PSC 2-52(a).

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 126

Responding Witness: Valerie L. Scott

Q-126. For the five (5) year period preceding the test year, provide expenses for: (i) labor; (ii) overtime; and premium expenses, and provide a definition for what the company includes as premium expenses.

A-126. The table below represents labor, overtime, and premium pay reported for KU for the five years preceding the test year.

Year	Labor	Overtime	Premium Pay	Total
2007	\$ 65,377,400	\$ 7,813,079	\$ 237,311	\$ 73,427,790
2008	68,628,633	9,272,328	367,989	78,268,950
2009	71,439,065	13,580,429	407,719	85,427,213
2010	81,153,668	9,191,322	372,348	90,717,338
2011	87,633,757	10,962,513	413,435	99,009,705

Premium pay expense represents additional pay for work regularly performed outside normal daytime hours.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 127

Responding Witness: Valerie L. Scott

Q-127. State whether the filing includes any provision for corporate performance awards. If so, list the dollar amount for each program. Identify into which accounts and in what amounts it has been accrued.

A-127. The Team Incentive Award (TIA) is the only corporate performance award provided to employees. See attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 128

Responding Witness: Valerie L. Scott

Q-128. Does overtime include normal pay plus premium or just premium? Identify the level of premium pay for 2009, 2010 and 2011.

A-128. Overtime includes straight time pay, overtime pay differentials and premium pay. The Company does not record straight time pay and overtime pay differentials separately for employees earning overtime pay rates. Premium pay (e.g. additional pay for work regularly performed outside normal daytime hours) is recorded separately. The table below represents premium pay reported for KU in 2009, 2010 and 2011.

Year	Premium Pay
2009	472,532
2010	455,758
2011	495,920

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 129

Responding Witness: Paula H. Pottinger, Ph.D.

Q-129. Please provide a copy of any Company labor productivity analyses which have been performed during the past three years.

A-129. While there are not any overall Company labor productivity analyses, employee performance is continuously evaluated at all levels of the company.

Salaried managers and employees work together to develop performance objectives, specify achievable measurements and select appropriate competencies in relation to objectives and for developmental purposes.

Managers and employees meet periodically to review performance. They note progress on achievement against objectives, competencies and the goals set forth in Individual Development Plans. They also address areas where the employee needs to improve performance in order to reach objectives or demonstrate appropriate work behaviors.

Non-salaried employees receive feedback on tasks and skills using pre-determined accountabilities.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 130

Responding Witness: Daniel K. Arbough

Q-130. Please provide a copy of the Company's most recent pension plan and post-retirement benefits actuarial studies.

A-130. Refer PSC-1-52(c) for the most recent post retirement actuarial study and to KIUC 1-1 for the actuarial report for the 2012 pension expense and the 2012 post employment expense.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

Response to Attorney General's Initial Requests for Information

Dated July 31, 2012

Question No. 131

Responding Witness: Daniel K. Arbough

Q-131. With regard to pension expense:

- a. Please provide the most recent actuarial study.
- b. Please identify the amount of pension expense included in 2009, 2010 and 2011. Also please provide workpapers showing the derivation of these amounts.
- c. Please state whether the pension expense provided in part b, includes interest charges or earnings based on the time of payment. If yes, please identify the amount and provide workpapers or supporting documentation.
- d. Please state the frequency with which pension contributions are made and the relationship of the payment date(s) to the period for which the contribution is being made. If the pension contributions are paid to the parent or service company, please identify both Company payment date(s) and the date(s) on which the contribution is actually made by the affiliate.
- e. Please identify where pension expense has been included in the last working capital study and how the pension contribution date was recognized in determining the lag days for that category.
- f. Please describe and quantify the effects FASB 87, 88 and 158 had on the pension plans for the Company for 2009, 2010 and 2011 if fully reflected.

A-131. a. See attached.

- b. Refer to part a. for the 2011 Mercer year-end disclosure, and see attached for 2009 and 2010 disclosures, that support all assumptions used and the derivation of the calculations detailed below.

	<u>2009</u>	<u>2010</u>	<u>2011</u>
KU Charging KU:			
Mercer net periodic benefit cost	\$ 18,894,116	\$ 16,271,765	\$ 17,148,804
Expense Allocation %	<u>61.47%</u>	<u>61.65%</u>	<u>58.47%</u>
	<u>11,614,155</u>	<u>10,030,781</u>	<u>10,027,294</u>
Servco Charging KU:			
Mercer net periodic benefit cost	21,586,653	20,850,249	22,626,552
Servco Allocation %	<u>48.91%</u>	<u>51.25%</u>	<u>52.19%</u>
	10,558,843	10,685,810	11,808,501
Expense Allocation %	<u>77.52%</u>	<u>78.10%</u>	<u>78.67%</u>
	<u>8,185,699</u>	<u>8,346,079</u>	<u>9,289,859</u>
Others Charging KU:			
	<u>171,504</u>	<u>151,794</u>	<u>198,168</u>
Total KU Expense:	<u><u>\$ 19,971,358</u></u>	<u><u>\$ 18,528,654</u></u>	<u><u>\$ 19,515,321</u></u>

- c. Mercer takes the expected date of plan contributions by the Company into consideration when calculating net periodic pension cost. However, Mercer does not separately disclose the interest charges or expected earnings resulting from variations in payment dates. Contribution dates have been consistent with the assumptions made by Mercer.
- d. KU made discretionary contributions to the pension plan of \$13.3 million in April 2009, \$12.8 million in January 2010, \$43 million in January 2011 and \$14.8 million in January 2012. The amount of future contributions to the pension plan will depend upon the actual return on plan assets and other factors, but the Company's policy is to fund the greater of the amount required by the Pension Protection Act of 2006 (the "PPA") or the FAS 87 pension expense for the year. The Company's policy also calls for contributions to be made to ensure that the plan is funded to at least 80% of the PPA target liability. Contributions are made to the plan by the services company and are reimbursed by KU in the following calendar month.
- e. Not applicable. The Company does not perform working capital studies.

- f. FASB 87 was adopted in 1987 and FASB 158 was adopted in 2006. The impact of the implementation of FASB 158 is discussed in PSC 1-51. The amounts provided in b. above include the effects of the adoption of both FASB 87 and 158. Since the Company has not curtailed its plan, FASB 88 does not apply.

Ms. Kelli Higdon
LG&E and KU Energy LLC
220 West Main Street
Louisville, KY 40202

January 13, 2012

Dear Kelli:

Enclosed are the revised year-end disclosure exhibits (for both financial and regulatory accounting purposes) for the Qualified Retirement Plans and SERPs of LG&E and KU Energy LLC for the fiscal year ending December 31, 2011. The disclosure exhibits were revised to reflect year-end discount rates determined by the Towers Watson Bond Model and updated market value of assets as of December 31, 2011.

We used the September 30, 2010 valuation data to compute the liability amounts as of December 31, 2011. This is the same data that was used to determine the net periodic pension cost for the fiscal year beginning January 1, 2011 and ending December 31, 2011 as shown in the valuation report dated November 2011. Liabilities were rolled from January 1, 2011 to December 31, 2011 using actual 2011 benefit payments.

The actuarial assumptions and methods used to determine the liability amounts as of December 31, 2011 are the same as those used in the determination of the net periodic pension cost for the fiscal year beginning January 1, 2011 and ending December 31, 2011 as shown in the valuation report dated November 2011, with the following exceptions:

1. The healthy mortality tables were updated to reflect the tables required under the Pension Protection Act for plan years beginning in 2012.
2. The retirement rate at age 60 was changed from .15 to .10 and the retirement rate at age 62 was changed from .625 to .500.
3. The salary increase assumption was changed from 5.25% to 4.00% per annum, the taxable wage base increase assumption was changed from 4.00% to 3.50% per annum and the COLA increase assumption was changed from 3.00% to 2.50% per annum.
4. The discount rates were updated to reflect those determined by the Towers Watson Bond Model as of December 31, 2011 based on the individual plans' cash flows.

Page 2
January 13, 2012
Ms. Kelli Higdon
LG&E and KU Energy LLC

The plan provisions used in determining the year-end liability amounts are the same as those used in the determination of the net periodic pension cost for the fiscal year beginning January 1, 2011 and ending December 31, 2011 as shown in the valuation report dated November 2011 with the exception that for the LG&E Union Plan, the negotiated increases in the benefit multipliers were incorporated. Specifically, the multipliers increase to \$72/\$85/\$91 on January 1, 2012, \$74/\$87/\$94 on January 1, 2013 and \$76/\$90/\$97 on January 1, 2014.

We relied upon asset information as provided by you in order to complete the disclosures.

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

If you have any questions or need anything else, please give me a call.

Mercer has prepared this report exclusively to assist LG&E and KU Energy LLC and its auditors in preparing financial reports under US accounting standards for defined benefit pension plans relating to the LG&E and KU Energy LLC Retirement Plans for the fiscal year ending December 31, 2011.

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and others are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this

Page 3
January 13, 2012
Ms. Kelli Higdon
LG&E and KU Energy LLC

report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

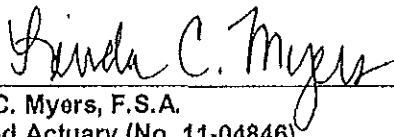

To prepare this report, Mercer has used and relied on financial data submitted by the trustee as well as participant data supplied by the plan sponsor. The data used is referenced above. We have reviewed the financial and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments, supplied by the plan sponsor, as summarized in the Summary of Plan Provisions section of the valuation report containing the net periodic pension cost for the fiscal year end December 31, 2011, dated November 2011. LG&E and KU Energy LLC is solely responsible for the validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

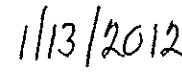

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

Private & Confidential

Dear Kelli:

Enclosed are the FAS disclosure exhibits (for both financial and regulatory accounting purposes) for the Qualified Retirement Plans and SERPs of LG&E and KU Energy LLC for the period from January 1, 2010 through October 31, 2010.

We used the September 30, 2009 valuation data to compute the liability amounts as of October 31, 2010. This is the same data that was used to determine the 2010 FAS 87 expense for the period from January 1, 2010 through October 31, 2010 as shown on the enclosed disclosures.

The actuarial assumptions and methods used to determine the liability amounts as of October 31, 2010 are the same as those used in the determination of the 2010 FAS 87 expense with the exception that the discount rates were determined by the Mercer Yield Curve as of October 31, 2010 based on matching projected benefit cash flows by plan. A discount rate of 5.00% (the long-term assumption for lump sums) was used for the WKE Union Plan.

The plan provisions used in determining the year-end liability amounts are the same as those used in the determination of the 2010 FAS 87 expense. We also calculated the FAS 88 settlement charges for the WKE Union Plan for 2010.

We relied upon asset information as provided by you in order to complete the disclosures.

If you have any questions or need anything else, please give me a call.

Mercer has prepared this report exclusively to assist LG&E and KU Energy LLC and its auditors in preparing financial reports under US accounting standards for defined benefit pension plans relating to the LG&E and KU Energy LLC Retirement Plans for the period from January 1, 2010 through October 31, 2010.

MERCER

MARSH MERCER KROLL
GUY CARPENTER OLIVER WYMAN

Ms. Kelli Higdon
LG&E and KU Energy LLC

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and others are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

To prepare this report, Mercer has used and relied on financial data submitted by the trustee as well as participant data supplied by the plan sponsor. The data used is referenced above. We have reviewed the financial and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments, supplied by the plan sponsor, as summarized in the Summary of Plan Provisions section of the 2009 FAS valuation report. LG&E and KU Energy LLC is solely responsible for the validity,

MERCER

accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

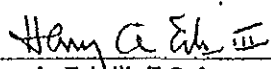

We are available to answer any questions on the material contained in the report, or to provide explanations or further details as may be appropriate. The undersigned credentialed actuaries meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained in this report. We are not aware of any direct or material indirect financial interest or relationship, including investments or other services that could create a conflict of interest, that would impair the objectivity of our work.

Ms. Kelli Higdon
LG&E and KU Energy LLC
220 West Main Street
Louisville, KY 40202

Private & Confidential

Dear Kelli:

Enclosed are the FAS disclosure exhibits (for both financial and regulatory accounting purposes) for the Qualified Retirement Plans and SERPs of LG&E and KU Energy LLC for the period from November 1, 2010 through December 31, 2010.

We used the September 30, 2009 valuation data to compute the liability amounts as of December 31, 2010. This is the same data that was used to determine the 2010 FAS 87 expense for the period from November 1, 2010 through December 31, 2010 as shown on the enclosed disclosures.

The actuarial assumptions and methods used to determine the liability amounts as of December 31, 2010 are the same as those used in the determination of the November 1, 2010 to December 31, 2010 FAS 87 expense with the exception that the discount rates were determined by the Towers Watson Yield Curve as of December 31, 2010. In addition, the healthy mortality tables were updated to reflect the tables required under the Pension Protection Act for plan years beginning in 2011. Lastly, for the 2011 expected amortization of actuarial losses/(gains), we have incorporated PPL's market-related value of assets methodology prospectively from November 1, 2010.

The plan provisions used in determining the year-end liability amounts are the same as those used in the determination of the 2010 FAS 87 expense.

We relied upon asset information as provided by you in order to complete the disclosures.

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and

MERCER

Page 2
January 6, 2011
Ms. Kelli Higdon
LG&E and KU Energy LLC

expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

If you have any questions or need anything else, please give me a call.

Mercer has prepared this report exclusively to assist LG&E and KU Energy LLC and its auditors in preparing financial reports under US accounting standards for defined benefit pension plans relating to the LG&E and KU Energy LLC Retirement Plans for the period from November 1, 2010 through December 31, 2010.

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and others are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

MERCER

Page 3
January 6, 2011
Ms. Kelli Higdon
LG&E and KU Energy LLC

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

To prepare this report, Mercer has used and relied on financial data submitted by the trustee as well as participant data supplied by the plan sponsor. The data used is referenced above. We have reviewed the financial and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments, supplied by the plan sponsor, as summarized in the Summary of Plan Provisions section of the 2009 FAS valuation report. LG&E and KU Energy LLC is solely responsible for the validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

Private & Confidential

Dear Kelli:

Enclosed are the FAS year-end disclosure exhibits (for both financial and regulatory accounting purposes) for the Qualified Retirement Plans and SERPs of E.ON U.S. LLC for the fiscal year ending December 31, 2009.

We used the September 30, 2008 valuation data to compute the year-end liability amounts. This is the same data that was used to determine the 2009 FAS 87 expense.

The actuarial assumptions and methods used to determine the year-end liability amounts are the same as those used in the determination of the 2009 FAS 87 expense with the exception that the discount rates were determined by the Mercer Yield Curve as of December 28, 2009 based on matching projected benefit cash flows by plan. These discount rates were then lowered by 8 basis points for the average change in the 4 bond indices (that were previously communicated in my January 4, 2010 memo to you regarding Mercer Yield Curve Results) for the period from December 28, 2009 to December 31, 2009. A discount rate of 5.00% (the long-term assumption for lump sums) was used for the WKE Union Plan. In addition, the healthy mortality tables were updated to reflect the tables required under the Pension Protection Act for plan years beginning in 2010.

The plan provisions used in determining the year-end liability amounts are the same as those used in the determination of the 2009 FAS 87 expense. The effects of the WKE transaction with Big Rivers were also reflected.

We relied upon the year-end asset information as provided by you in order to complete the disclosures.

Ms. Kelli Higdon

E.ON U.S. LLC

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

If you have any questions or need anything else, please give me a call.

Mercer has prepared this report exclusively to assist E.ON U.S. LLC and its auditors in preparing financial reports under US accounting standards for defined benefit pension plans relating to the E.ON U.S. LLC Retirement Plans for the fiscal year ending December 31, 2009.

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and others are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited

MERCER

E.ON U.S. LLC

scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

To prepare this report, Mercer has used and relied on financial data submitted by the trustee as well as participant data supplied by the plan sponsor. The data used is referenced above. We have reviewed the financial and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments, supplied by the plan sponsor, as summarized in the Summary of Plan Provisions section of the 2009 FAS and IAS valuation report. E.ON U.S. LLC is solely responsible for the validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 132

Responding Witness: Daniel K. Arbough

Q-132. What rate of interest is the Company currently earning on its pension plan fund balance?

A-132. The KU plan earned rates of return of 8.5%, 12.0%, and 22.7% on its pension plan fund balance for years 2011, 2010, and 2009, respectively (net of fees). The three-year and five-year returns as of year-end 2011 were 14.2% and 3.9%, respectively.

The assumed rate of return used in 2012 expense calculations is 7.25%.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 133

Responding Witness: Paula H. Pottinger, Ph.D.

Q-133. Has the Company considered reducing the amount of post retirement health care, dental and life insurance coverage? If yes, provide details of any proposed reductions. If no, provide an explanation of why not.

A-133. The Company regularly reviews our benefit offerings to ensure we are competitive. Noted below are changes to Post Retirement Medical and Post Retirement Life benefits.

Post Retirement Medical

The Company reduced the amount of post retirement medical coverage for employees hired or rehired after 1/1/06.

- Future retirees, age 55 with at least 10 years of service, with a hire or rehire date on or after 1/1/06 are eligible for a retiree premium account that is credited with a one- time contribution credit equal to \$2,000 multiplied by the retiree's full years of service after age 45, but not to exceed \$30,000. In addition, for the retiree's dependents, a separate premium account equal to fifty percent of the retiree's premium account is provided. Retirees can use the premium account to pay for the full cost or partial cost for retiree medical coverage, however when the premium account is depleted, the retiree pays the full monthly cost of the retiree medical coverage.

Post Retirement Life

The Company reduced the amount of post retirement life insurance for all KU employees who retired after 1/1/00.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 134

Responding Witness: Daniel K. Arbough

- Q-134. Provide a complete copy of any and all actuarial reports prepared by or for the Company during the past three years concerning the cost of post retirement benefits other than pensions.
- A-134. Attachment 001 is the December 31, 2009 actuarial report, attachment 002 is the October 31, 2010 actuarial report, attachment 003 is the December 31, 2010 actuarial report, and attachment 004 is the December 31, 2011 actuarial report. There was a report issued as of October 31, 2010 due to the acquisition of E.ON US LLC by PPL Corporation.

Subject: FAS Year-End Disclosure for Postretirement Benefit Plan

Dear Kelli:

We have enclosed the FAS year-end disclosure exhibits (for both financial and regulatory accounting purposes) for the Postretirement Benefit Plan of E.ON U.S. LLC for the fiscal year ending December 31, 2009. As requested, we have updated the exhibits issued January 6, 2010 based on the revised retiree death benefit premium information.

We used the September 30, 2008 valuation data to compute the year end liability amounts. This is the same data that was used to determine the 2009 FAS 106 expense.

The actuarial assumptions and methods used to determine the year end liability amounts are the same as those shown in the 2009 valuation report with the exception that the discount rates were determined by the Mercer Yield Curve as of December 28, 2009 based on matching projected benefit cash flows. These discount rates were then lowered by 8 basis points for the average change in the 4 bond indices (that were previously communicated in Linda Myers' January 4, 2010 memo to you regarding Mercer Yield Curve Results) for the period from December 28, 2009 to December 31, 2009. This results in a discount rate of 5.82%. In addition, the healthy mortality tables were updated to reflect the tables required for defined benefit pension plans under the Pension Protection Act for plan years beginning in 2010 and the healthcare cost trend rates were updated.

The plan provisions used in determining the year end liability amounts are the same as those shown in the 2009 actuarial valuation report, including the effects of the WKE transaction with Big Rivers.

The asset values, benefit payments, contributions and plan expense amounts from the non-union and union VEBA's and 401(h) account and death benefit premiums were provided by

Ms. Kelli Higdon

E.ON U.S. LLC

E.ON U.S. LLC. Employer contributions for 2009 and year end accruals were also provided by entity by E.ON U.S. LLC. Note that the FAS year end benefit obligation includes the impact of the Medicare Modernization Act of 2003 (MMA) using the same assumptions and methods as those used in the determination of the 2009 FAS 106 expense.

In addition, the disclosure exhibits include a schedule of the estimated future benefit payments and the estimated gross amount of Medicare subsidy receipts. We have also included a special disclosure for the impact of MMA for FAS 109 purposes.

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

Mercer has prepared this report exclusively to assist E.ON U.S. LLC and its auditors in preparing financial reports under US accounting standards for the Postretirement Benefit Plan of E.ON U.S. LLC for the fiscal year ending December 31, 2009.

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and other variables are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, actuarial assumptions, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will

MERCER

Ms. Kelli Higdon

E.ON U.S. LLC

differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of changes in mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

Data and plan provisions

To prepare this report, Mercer has used and relied on financial data submitted by E.ON U.S. LLC, and claims, premium and participant data supplied by the plan sponsor, third party administrator or insurance carrier. We have reviewed the financial, claims, premium and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments and summary plan descriptions, supplied by the plan sponsor, as described above. E.ON U.S. LLC is solely responsible for the validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

Accounting results

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described in the "actuarial basis" section of this report. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

Assumed health care cost trend

Assumed health care cost trend rates can have a significant effect on the amounts reported for the health care plan. E.ON U.S. LLC's plan design reduces the impact of cost fluctuations by capping a portion of E.ON U.S. LLC's obligation. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	One-Percentage-Point Decrease					
Effect on total of service and interest cost components	\$ (149,333)	\$ (90,315)		\$ (284,414)		
Effect on year-end benefit obligation	(1,535,767)	(565,810)		(3,996,785)		
	One-Percentage-Point Increase

Subject: FAS October 31, 2010 Disclosure for Postretirement Benefit Plan

Dear Kelli:

We have enclosed the FAS October 31, 2010 disclosure exhibits (for both financial and regulatory accounting purposes) for the Postretirement Benefit Plan of E.ON U.S. LLC for the period January 1, 2010 through October 31, 2010.

We used the September 30, 2009 valuation data to compute the October 31, 2010 liability amounts. This is the same data that was used to determine the 2010 FAS 106 expense.

The actuarial assumptions and methods used to determine the October 31, 2010 liability amounts are the same as those used in the determination of the 2010 FAS 106 expense with the exception that the 4.96% discount rate was determined by the Mercer Yield Curve as of October 31, 2010 based on matching projected benefit cash flows.

The plan provisions used in determining the October 31, 2010 liability amounts are the same as those used in the determination of the 2010 FAS 106 expense.

The asset values, benefit payments, contributions and plan expense amounts from the non-union and union VEBA's and 401(h) account and death benefit premiums were provided by E.ON U.S. LLC. Employer contributions for 2010 and October 31, 2010 accruals were also provided by entity by E.ON U.S. LLC. Note that the FAS year end benefit obligation includes the impact of the Medicare Modernization Act of 2003 (MMA) using the same assumptions and methods as those used in the determination of the 2010 FAS 106 expense.

Mercer has prepared this report exclusively to assist E.ON U.S. LLC and its auditors in preparing financial reports under US accounting standards for the Postretirement Benefit Plan of E.ON U.S. LLC for the period January 1, 2010 through October 31, 2010.

MERCER

Page 2
November 4, 2010
Ms. Kelli Higdon
E.ON U.S. LLC

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and other variables are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of changes in mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

Data and plan provisions

To prepare this report, Mercer has used and relied on financial data submitted by E.ON U.S. LLC, and claims, premium and participant data supplied by the plan sponsor, third party administrator or insurance carrier. We have reviewed the financial, claims, premium and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments and summary plan descriptions, supplied by the plan sponsor, as described above. E.ON U.S. LLC is solely responsible for the

validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

Accounting results

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described in the "actuarial basis" section of this report. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

Professional qualifications

We are available to answer any questions on this material, or to provide explanations or further details, as may be appropriate. Collectively, the credentialed actuaries Marcie Gunnell and Linda Myers meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained in this letter. We are not aware of any direct or material indirect financial interest or relationship, including investments or other services that could create a conflict of interest, that would impair the objectivity of our work.

Subject: FAS Year End Disclosure for Postretirement Benefit Plan

Dear Kelli:

We have enclosed the FAS year end disclosure exhibits (for both financial and regulatory accounting purposes) for the Postretirement Benefit Plan of LG&E and KU Energy LLC for the period November 1, 2010 through December 31, 2010.

We used the September 30, 2009 valuation data to compute the December 31, 2010 liability amounts. This is the same data that was used to determine the 2010 FAS 106 expense for the period from November 1, 2010 through December 31, 2010 as shown on the enclosed disclosures.

The actuarial assumptions and methods used to determine the December 31, 2010 liability amounts are the same as those used in the determination of the 2010 FAS 106 expense for the period from November 1, 2010 through December 31, 2010 with the exception that the 5.12% discount rate was determined by the Towers Watson Yield Curve as of December 31, 2010. In addition, the healthy mortality tables were updated to reflect the tables required for defined benefit pension plans under the Pension Protection Act for the plan years beginning in 2011.

The plan provisions used in determining the December 31, 2010 liability amounts are the same as those used in the determination of the 2010 FAS 106 expense.

The asset values, benefit payments, contributions and plan expense amounts from the non-union and union VEBA's and 401(h) account and death benefit premiums were provided by LG&E and KU Energy LLC. Employer contributions for the period from November 1, 2010 through December 31, 2010, and December 31, 2010 accruals were also provided by entity by LG&E and KU Energy LLC. Note that the FAS year end benefit obligation includes the impact of the Medicare Modernization Act of 2003 (MMA) using the same assumptions and methods as those used in the determination of the 2010 FAS 106 expense for the period

MERCER

January 6, 2011

Ms. Kelli Higdon

LG&E and KU Energy LLC

from November 1, 2010 through December 31, 2010. We have assumed any impact due to Health Reform legislation is deemed immaterial.

In addition, the disclosure exhibits include a schedule of the estimated future benefit payments and the estimated gross amount of Medicare subsidy receipts. We have also included a special disclosure for the impact of MMA for FAS 109 purposes.

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

Mercer has prepared this report exclusively to assist LG&E and KU Energy LLC and its auditors in preparing financial reports under US accounting standards for the Postretirement Benefit Plan of LG&E and KU Energy LLC for the period from November 1, 2010 through December 31, 2010.

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and other variables are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition,

MERCER

Page 3

January 6, 2011

Ms. Kelli Higdon

LG&E and KU Energy LLC

different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of changes in mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

Data and plan provisions

To prepare this report, Mercer has used and relied on financial data submitted by LG&E and KU Energy LLC, and claims, premium and participant data supplied by the plan sponsor, third party administrator or insurance carrier. We have reviewed the financial, claims, premium and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments and summary plan descriptions, supplied by the plan sponsor, as described above. LG&E and KU Energy LLC is solely responsible for the validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

Accounting results

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

Year that the rate reaches the ultimate trend rate	2019	2019		2019		

Assumed health care cost trend

Assumed health care cost trend rates can have a significant effect on the amounts reported for the health care plan. LG&E and KU Energy LLC's plan design reduces the impact of cost fluctuations by capping a portion of LG&E and KU Energy LLC's obligation. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	One-Percentage-Point Decrease					
Effect on total of service and interest cost components	\$ (22,086)	\$ (17,007)		\$ (42,753)	\$	\$
Effect on year-end benefit obligation	(1,430,531)	(597,840)		(3,654,566)		
	One-Percentage-Point Increase					
Effect on total of service and interest cost components	\$ 25,127	\$ 19,018		\$ 46,126	\$	\$
Effect on year-end benefit obligation	1,587,918	653,798		4,102,510

Year that the rate reaches the ultimate trend rate	2019	2019		2019		

Assumed health care cost trend

Assumed health care cost trend rates can have a significant effect on the amounts reported for the health care plan. LG&E and KU Energy LLC's plan design reduces the impact of cost fluctuations by capping a portion of LG&E and KU Energy LLC's obligation. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	One-Percentage-Point Decrease					
Effect on total of service and interest cost components	\$ (22,086)	\$ (17,007)		\$ (42,753)	\$	
Effect on year-end benefit obligation	(1,430,531)	(597,840)		(3,654,586)		
	One-Percentage-Point Increase					
Effect on total of service and interest cost components	\$ 25,127	\$ 19,018		\$ 48,126	\$	
Effect on year-end benefit obligation	1,587,918	653,798		4,102,510

Subject: Year End Disclosure for Postretirement Benefit Plan Under ASC 715, Revised

Dear Kelli:

We have enclosed the revised year end disclosure exhibits (for both financial and regulatory accounting purposes) for the Postretirement Benefit Plan of LG&E and KU Energy LLC for the fiscal year ending December 31, 2011. As requested, we have revised the previous disclosure exhibits to reflect the discount rate determined by the Towers Watson Bond Model and updated market value of assets as of December 31, 2011.

We used the September 30, 2010 valuation data to compute the December 31, 2011 liability amounts. This is the same data that was used to determine the 2011 ASC 715 expense.

The actuarial assumptions and methods used to determine the December 31, 2012 liability amounts are the same as those used in the determination of the 2011 expense with the following exceptions:

- The discount rate was updated to 4.78% to reflect the rate determined by the Towers Watson Bond Model as of December 31, 2011 based on the Plan's cash flows.
- The healthy mortality tables were updated to reflect the tables required for defined benefit pension plans under the Pension Protection Act for the plan years beginning in 2012.
- The salary scale was decreased from 5.25% to 4%.
- Retirement rates at age 60 and 62 were updated to 10% and 50% from 15% and 62.5%, respectfully.

The plan provisions used in determining the December 31, 2011 liability amounts changed from those used in the determination of the 2011 expense. Effective January 1, 2012, the monthly retiree credit increased from \$190 per month to \$200. Furthermore, effective for retirees hired before 2006 and retiring on or after January 1, 2012, the monthly retiree credit of \$200 continues until attained age 62, which at such time the credit increased to \$465. The \$465 retiree credit continues until attained age 65, which at such time the retiree credit reverts to \$200.

Page 2

January 13, 2012

Ms. Kelli Higdon

LG&E and KU Energy LLC

The asset values, benefit payments, contributions and plan expense amounts from the non-union and union VEBA's and 401(h) account and death benefit premiums were provided by LG&E and KU Energy LLC. Employer contributions for 2011 and year end accruals were also provided by entity by LG&E and KU Energy LLC. Note that the year end benefit obligation includes the impact of the Medicare Modernization Act of 2003 (MMA) using the same assumptions and methods as those used in the determination of the 2011 expense. We have assumed any impact due to Health Reform legislation is deemed immaterial.

In addition, the disclosure exhibits include a schedule of the estimated future benefit payments and the estimated gross amount of Medicare subsidy receipts. We have also included a special disclosure for the impact of MMA.

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

Mercer has prepared this report exclusively for LG&E and KU Energy LLC, subject to this limitation, LG&E and KU Energy LLC may direct that this report be provided to its auditors in connection with the audit of its financial statements. Mercer is not responsible for use of this report by any other party.

The only purpose of this report is to present Mercer's actuarial estimates of liabilities as of December 31, 2011 for other Postretirement Benefit plans relating to LG&E and KU Energy LLC to incorporate, as LG&E and KU Energy LLC deems appropriate, in its financial statements under US accounting standards.

This report may not be used for any other purpose. Mercer is not responsible for the consequences of any unauthorized use. Its content may not be modified, incorporated into or used in other material, sold or otherwise provided, in whole or in part, to any other person or entity, without Mercer's permission.

All parts of this report, including any documents incorporated by reference, are integral to understanding and explaining its contents, no part may be taken out of context, used or relied upon without reference to the report as a whole.

Ms. Kelli Higdon

LG&E and KU Energy LLC

This is not an AFTAP certification under IRC Section 436.

Decisions about benefit changes, granting new benefits, investment policy, funding policy, benefit security and/or benefit-related issues should not be made on the basis of this valuation, but only after careful consideration of alternative economic, financial, demographic and societal factors, including financial scenarios that assume future sustained investment losses.

The plan sponsor is ultimately responsible for selecting the plan's accounting policies, methods and assumptions. The policies, methods, and assumptions used in this valuation are described above. The plan sponsor is solely responsible for communicating to Mercer any changes required to those policies, methods and assumptions.

This report was prepared in accordance with generally accepted actuarial principles and procedures. The results reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

This report is based on our understanding of applicable law and regulations as of the valuation date. Mercer is not an accountant or auditor and is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. Mercer is not engaged in the practice of law. This report does not constitute and is not a substitute for legal advice.

LG&E and KU Energy LLC should notify Mercer promptly after receipt of the valuation report if LG&E and KU Energy LLC disagrees with anything contained in the valuation report or is aware of any information that would affect the results of the valuation report that has not been communicated to Mercer or incorporated therein. The valuation report will be deemed final and acceptable to LG&E and KU Energy LLC unless LG&E and KU Energy LLC promptly provides such notice to Mercer.

Assumed health care cost trend

Assumed health care cost trend rates can have a significant effect on the amounts reported for the health care plan. LG&E and KU Energy LLC's plan design reduces the impact of cost fluctuations by capping a portion of LG&E and KU Energy LLC's obligation. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	One-Percentage-Point Decrease					
Effect on total of service and interest cost components	\$ (117,060)	\$ (81,611)		\$ (228,334)	\$	
Effect on year-end benefit obligation	(1,286,427)	(564,883)		(3,558,440)

KENTUCKY UTILITIES COMPANY**CASE NO. 2012-00221****Response to Attorney General's Initial Requests for Information
Dated July 31, 2012****Question No. 135****Responding Witness: Daniel K. Arbough**

Q-135. Post Retirement benefits other than pensions (OPEB's).

- a. Please provide complete workpapers showing the derivation of OPEB expense for 2009, 2010 and 2011.
- b. Please show all assumptions and the basis of all calculations.

A-135. a. See the table below.

	<u>2009</u>	<u>2010</u>	<u>2011</u>
KU Charging KU:			
Mercer net periodic benefit cost	\$ 6,352,440	\$ 6,112,521	\$ 5,794,076
Expense Allocation %	<u>68.25%</u>	<u>68.40%</u>	<u>66.35%</u>
	<u>4,335,297</u>	<u>4,181,114</u>	<u>3,844,616</u>
Servco Charging KU:			
Mercer net periodic benefit cost	2,188,474	2,141,579	1,906,399
Servco Allocation %	<u>48.79%</u>	<u>51.25%</u>	<u>52.21%</u>
	1,067,749	1,097,622	995,267
Expense Allocation %	<u>77.34%</u>	<u>78.36%</u>	<u>78.72%</u>
	<u>825,831</u>	<u>860,065</u>	<u>783,443</u>
Others Charging KU:			
	<u>57,721</u>	<u>53,204</u>	<u>56,406</u>
Total KU Expense:	<u><u>\$ 5,218,849</u></u>	<u><u>\$ 5,094,383</u></u>	<u><u>\$ 4,684,465</u></u>

- b. Refer to Question No. 134 for Mercer year-end disclosures for 2009, 2010 and 2011 that support all assumptions used and the derivation of the calculations detailed above.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 136

Responding Witness: Daniel K. Arbough

Q-136. List expense amounts for workers compensation insurance and claims for each year 2009, 2010 and 2011. Indicate in which expense accounts these items are recorded.

A-136. See the response to Question No. 176.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 137

Responding Witness: Valerie L. Scott

- Q-137. Please state whether any amounts have been booked during the test period by the Company for the liability created pursuant to any employment severance compensation agreements.
- A-137. Severance compensation paid by the Company during the test period totaled \$169,465. No liabilities have been created pursuant to any employment severance compensation agreements. Severance compensation is excluded from the revenue requirement via the proforma adjustment at Blake Exhibit 1, Reference Schedule 1.13, including adjustments in response to PSC 2-66 (b).

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

Response to Attorney General's Initial Requests for Information

Dated July 31, 2012

Question No. 138

Responding Witness: Paula H. Pottinger, Ph.D.

Q-138. Please list all steps the Company has taken to reduce the cost of medical insurance.

- a. Does the Company's insurance coverage require a coordination of benefits and, if so, how does it function?
- b. Does the Company plan require a co-pay percentage by the employee? If so, what is the percentage and has it increased over the past three years? State the various levels over the past three years.

A-138.

- In 2012, the Company added a \$200/mo. surcharge for working spouses of full-time employees who did not enroll in the spouse's employer's medical plan, if eligible for coverage.
- For 2012, the Company conducted an employed spouse premium verification audit to ensure that the \$200/mo. spouse surcharge rules were followed.
- In 2011, the Company unbundled prescription drug coverage from the medical vendor and joined a pharmacy benefit collective to obtain lower prices with pharmacies due to the collective's aggregate buying clout. Our pharmacy vendor uses clinical tools aimed at reducing inappropriate prescribing by physicians, reducing medication errors, and improving consumer compliance and health outcomes.
- The Company continues to offer health care management programs through our medical options to help employees and dependents maintain their health, control chronic conditions and understand treatment options.
- The Company continues to offer Company sponsored wellness programs to encourage healthy behavior, to promote individual responsibility for wellness, and to reduce health care claims. Programs include annual flu shots, annual

health fairs, fitness center incentive, weight loss program incentive, smoking cessation, annual mammograms, health risk appraisals and attendance at company sponsored health fairs.

- a. Yes. All benefits provided under the medical plan are subject to coordination of benefits, except prescription drug benefits.

When the participant is covered by another group plan in addition to the Company's medical plan, our medical plan will follow coordination of benefit rules to determine which plan is primary and which is secondary. For dependent children, the Birthday Rule applies.

- b. Under the Standard PPO medical option, employees pay a co-insurance percentage for the following benefit provisions. The co-pay amounts have not changed.

Standard PPO option	2010	2011	2012
Annual Deductible	In-network: \$400 per individual, \$800 per family Out-of-network: \$800 per individual, \$1,600 per family.	In-network: \$400 per individual, \$800 per family Out-of-network: \$800 per individual, \$1,600 per family.	In-network: \$400 per individual, \$800 per family Out-of-network: \$800 per individual, \$1,600 per family.
<ul style="list-style-type: none"> • Hospital Services • Emergency Room • Outpatient Surgery, MRA/MRI, PET Scans and CAT scans • Mental Health and Substance Abuse In-patient • Cardiac Rehabilitation • Occupational, Physical and Speech Therapy 	<p>In-network: Employee pays 20% of the allowable amount after the deductible.</p> <p>Out-of-network: Employee pays 40% of the allowable amount after the deductible.</p>	<p>In-network: Employee pays 20% of the allowable amount after the deductible.</p> <p>Out-of-network: Employee pays 40% of the allowable amount after the deductible.</p>	<p>In-network: Employee pays 20% of the allowable amount after the deductible.</p> <p>Out-of-network: Employee pays 40% of the allowable amount after the deductible.</p>

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 139

Responding Witness: Valerie L. Scott

Q-139. Provide the following information for the total company operations. If any amounts were allocated, show a calculation of the factor used to allocate each amount.

- a. An analysis of Miscellaneous General expenses for the test period. Include a complete breakdown of this account, including industry association dues, stockholder and debt service expenses, institutional advertising, conservation advertising, rate department load studies, director's fees and expenses, dues and subscriptions, and miscellaneous expenses. Provide detailed workpapers supporting this analysis. At a minimum, the workpapers should show the account number, date, vendor, reference (i.e., voucher no., etc.), dollar amount, and brief description of each expenditure of \$500 or more.
- b. An analysis of Other Income Deductions for the test period. Include a complete breakdown of this account including donations, civic activities, political activities and other, and provide detailed workpapers supporting this analysis. At a minimum, the workpapers should show the account number, date, vendor, reference (i.e., voucher no., etc.), dollar amount, and brief description of each expenditure of \$500 or more.

A-139. a. See the response to PSC 1-30(b)

b. See the response to PSC 1-30(c).

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 140

Responding Witness: Valerie L. Scott

Q-140. Provide a detailed analysis of expenses incurred during the test period for professional services, including legal, engineering, accounting and other, and provide all workpapers supporting the analysis. At a minimum, the workpapers should show the payee, dollar amount, reference (i.e., voucher no., etc.), account charged, hourly rates and time charged to the company according to each invoice, and a description of the services provided.

A-140. See the response to PSC 1-31.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 141

Responding Witness: Valerie L. Scott

- Q-141. Provide a detailed analysis of contributions for charitable and political purposes (in cash or services), if any, recorded in accounts other than Other Income Deductions. Show the amount of the expenditure, the recipient of the contribution, and the specific account charged. If amounts are allocated, show a calculation of the factor used to allocate each amount. Detailed analysis is not required for amounts less than \$100, provided the items are grouped by classes.
- A-141. There were no contributions for charitable or political purposes recorded in accounts other than in Account No. 426. See the response to PSC 1-32.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 142

Responding Witness: Valerie L. Scott

Q-142. Describe KU's lobbying activities and provide a schedule showing the name, salary, affiliation, all company-paid or reimbursed expenses or allowances, and the account charged for each individual whose principal function is lobbying on the local, state, or national level. If any amounts are allocated, show a calculation of the factor used to allocate each amount.

A-142. See the response to PSC 1-33.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 143

Responding Witness: Valerie L. Scott

- Q-143. List each athletic and employee association to which the Company contributes, the associated amounts for the test period and preceding year and the accounts charged. State how the Company has treated these expenses in the test period.
- A-143. See attached. All of these expenses were charged to FERC Account No. 426, below the line. None of the charges were included for rate making purposes.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 144

Responding Witness: Lonnie E. Bellar

Q-144. List the dollar value of discounts for service and merchandise the Company provides to employees. Provide these amounts for the test period. Show in what accounts and amounts such expense was recorded. What employees are eligible to receive such discounts?

A-144. The Company does not provide discounts for electric service to employees or sell merchandise at a discount to employees.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 145

Responding Witness: Chris Hermann / Ronald L. Miller

Q-145. List all Company owned automobiles, other than service vehicles, and state the Company's policy for charging employees for the personal use of these automobiles and the Company policy of reporting the personal usage of these automobiles for Federal income tax purposes.

A-145. The Company follows the guidelines established in the U.S. Internal Revenue Service's Publication 15-B (2010), Employer's Tax Guide to Fringe Benefits for charging and reporting employees personal use of Company vehicles. Personal usage of automobiles is tracked for each applicable employee and the imputed value is included in W-2 earnings. The value is determined by applying either the IRS "Commuting Rule" or "Lease Value Rule" as deemed appropriate.

See the attachment for a list of all Company vehicles, other than service vehicles.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 146

Responding Witness: Valerie L. Scott

- Q-146. For the test period list all payments made for employee gifts, employee awards, employee luncheons and dinners, employee picnics and all other similar type items. For each, list the dollar amount paid, the payee, the account charged and state the purpose. Provide copies of invoices which exceed \$5,000.
- A-146. See attached for a list of payments made for employee recognition. In the process of responding to this question the Company identified \$18 booked to balance sheet accounts that should have been recorded in account 426.5.

Invoices for related employee recognition which exceed \$5,000 are attached

KENTUCKY UTILITIES COMPANY**CASE NO. 2012-00221****Response to Attorney General's Initial Requests for Information
Dated July 31, 2012****Question No. 147****Responding Witness: Valerie L. Scott**

- Q-147. Identify all expenses incurred during the test period for athletic events, tickets, sky boxes and all sporting activities.
- Specifically identify the activity, dollar amount and account charged.
 - Provide copies of paid vouchers and invoices supporting these expenditures.
- A-147. a. KU does not maintain a separate account code for specific expenses for athletic events, tickets, sky boxes and all sporting activities. KU's expenses for these activities should be charged below-the-line in accordance with its accounting procedures. The Company identified the following charges:

Vendor	Date	Account	Amount
Lexington Legends (1)	04/06/11	921	\$14.81
Lexington Legends (1)	04/07/11	921	19.83
Parking for Derby Fest Basketball Classic (1)	04/23/11	566	1.40
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	0.56
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	1.40
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	3.50
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	1.40
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	3.50
Personal mileage - Derby Fest Luncheon (1)	04/23/11	921	3.86
Personal mileage - Derby Fest Luncheon (1)	04/23/11	921	9.64
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	2.10
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	0.84
Personal mileage - Derby Fest Pro-Am Tourn (1)	04/23/11	921	2.39
Personal mileage - Derby Fest Pro-Am Tourn (1)	04/23/11	921	5.98
Churchill Downs	05/12/11	566	406.02
Churchill Downs	05/12/11	566	1,105.40
Louisville Bats	06/16/11	426	440.92
Churchill Downs	06/18/11	426	1,193.77
Churchill Downs	06/18/11	426	92.88
Churchill Downs	06/19/11	921	92.10

Vendor	Date	Account	Amount
Louisville Bats	06/29/11	426	653.59
Louisville Bats	09/08/11	921	26.68
University of Louisville	02/03/12	426	35.00
Churchill Downs	02/10/12	921	1,027.78

- (1) No receipts for these charges exist. These expenses were incurred by employees and reimbursed to the employees by the Company. Company policy requires employees to obtain receipts only for expenses greater than \$25.

The charges to accounts 566 and 921, which total \$2,729, should have been charged to accounts below the line and would have decreased the revenue requirement in this case.

- b. See attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

Response to Attorney General's Initial Requests for Information

Dated July 31, 2012

Question No. 148

Responding Witness: Paul W. Thompson / Counsel

- Q-148. With regard to research and development (R&D) expenditures, please provide:
- a. A monthly breakdown of the R&D expenses by project included in 2009, 2010 and 2011.
 - b. A comparison of actual vs. budgeted expenditures for 2009, 2010 and 2011.
 - c. A detailed explanation of the causes of any increase from 2008 levels to 2009 levels and from 2010 to 2011 levels and why such an increase is necessary and reasonable
 - d. A summary description of each of the R&D projects identified and the benefit to be derived by ratepayers.
 - e. Please provide the costs by project for each year of 2009, 2010 and 2011.
- A-148. a. See attached.
- b. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, see attached for actual charges.

c. See table below.

Year	Difference	Reason
2008-2009 KU	\$51K (4%)	A 4% increase is within a normal year to year increase through scope changes at EPRI and inflation. There were no significant changes to note between 2008 and 2009.
2010-2011 KU	\$477K (25.4%)	The most significant increases are due to the amortization schedules for the projects under the CMRG funded through the University of Kentucky Research Foundation and the Sequestration project through the Western Kentucky Carbon Storage Foundation.
2008-2009 LGE	No increase	No Increase
2010-2011 LGE	\$146K (10%)	The most significant increases are due to the amortization schedules for the projects under the CMRG funded through the University of Kentucky Research Foundation and the Sequestration project through the Western Kentucky Carbon Storage Foundation.

c. See the response to PSC 1-47.

d. See attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 149

Responding Witness: Paul W. Thompson

Q-149. With regard to R&D projects, do KU's regulated operations realize any royalties, profits from commercialization, or other forms of reimbursement or funding? If yes, please identify the amounts of all such items in 2009, 2010 and 2011.

A-149. There were no royalties, profits, or other forms of reimbursement for the years 2009, 2010, and 2011

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 150

Responding Witness: Shannon L. Charnas / Counsel

- Q-150. With regard to all capital and expense accounts included in the filing, please provide:
- a. A monthly breakdown of the expense by capital project and/or expense account included in 2009, 2010 and 2011.
 - b. A comparison of actual vs. budgeted expenditures for 2009, 2010 and 2011.
 - c. A detailed explanation of the causes of any increase from 2008 levels to 2009 levels and from 2010 to 2011 levels and why such an increase is necessary and reasonable.
 - d. A summary description of each of the capital projects identified and the benefit to be derived by ratepayers.
 - e. Please provide the costs by project for each year of 2008, 2009 and 2010.
- A-150. a. See attached.
- b. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, see the attached for actual information.
 - c. See attached.
 - d. See response to (a.) above for the description of each project. These projects were necessary to provide safe, reliable service to customers.
 - e. See attached for 2008. See the response to (a.) above for 2009 and 2010.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 151

Responding Witness: Valerie L. Scott

- Q-151. Please provide a detailed analysis of all charges booked during the test period for advertising expenditures. Include a complete breakdown, including but not limited to these categories: (1) sales or promotional, (2) institutional, (3) conservation related, (4) rate case, and (5) other. The analysis should specify the account charged, the purpose of the expenditure and the expected benefit to be derived.
- A-151. See attached. In the process of providing this response, KU identified \$148,402 of costs that were incorrectly included in Blake Exhibit 1, Reference Schedule 1.17, The Kentucky jurisdictional impact is \$140,950.

(1) This advertising cost was not initiated for the sole benefit of the ratepayers; therefore, this cost was included in pro forma adjustment 1

(2) This advertising cost was not initiated for the sole benefit of the ratepayers; therefore, this cost is not included in recoverable expenses.

(3) This advertising cost was initiated for the sole benefit of the ratepayers, and was incorrectly included in pro forma adjustment 1.17. These costs total \$148,402.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 152

Responding Witness: Valerie L. Scott

- Q-152. For each advertising expense over \$10,000 recorded by the Company during the test period, state the payee, amount, date and purpose. Also provide a copy of the associated invoice and a copy of (or if a non-print ad, the text of) each advertisement.
- A-152. See the response to Question No. 151 for detail of charges over \$10,000. See attached.

The attachment is being
provided in a separate
file.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 153

Responding Witness: Valerie L. Scott

Q-153. Are there any advertising costs being incurred by the Company which cannot be identified with a specific advertisement? If so, please itemize and describe each such cost, and list the associated amounts for each year 2008, 2009 and 2010.

A-153. See attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 154

Responding Witness: Valerie L. Scott

Q-154. Break down the Company's advertising expense for the test period into its components, i.e., labor, overhead, materials and fees to agencies, etc.

A-154. See the response to Question No. 151.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 155

Responding Witness: Lonnie E. Bellar

Q-155. Does the Company have any studies as to the effectiveness of its advertising and marketing programs? If so, describe by name, date and contents each study the Company has. Provide a copy of all such studies in the last three years.

A-155. KU has proposed an adjustment to eliminate advertising expenses that are primarily institutional and promotional in nature; see Reference Schedule 1.17 of Blake Exhibit 1 in KU's application. Also, advertising expenses related to Energy Efficiency initiatives are eliminated as part of an adjustment to remove DSM revenue and expense; see Reference Schedule 1.06 of Blake Exhibit 1 in KU's application. KU does not have any studies as to the effectiveness of the remaining KU advertising, which is conducted primarily to inform customers about electrical safety.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 156

Responding Witness: Valerie L. Scott

Q-156. Please list the trend in advertising expense per dollar of revenue for the five year period ending with 2011. If the Company has not made this calculation, please supply the information necessary to make it.

A-156.

	<u>Advertising Expense</u>	<u>Revenue</u>	<u>Expense per Dollar of Revenue</u>
2007	\$ 1,070,796	\$ 1,272,548,899	\$ 0.0008
2008	847,814	1,404,042,053	0.0006
2009	1,004,809	1,356,189,003	0.0007
2010	942,038	1,511,709,712	0.0006
2011	1,178,454	1,547,516,986	0.0008

Note: Excludes advertising dollars recovered through the Demand Side Management revenue mechanism.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 157

Responding Witness: Lonnie E. Bellar

- Q-157. Please provide a listing of and a copy of any and all Commission Orders the Company has reviewed or relied upon in preparation of its filing in this case concerning the ratemaking treatment of costs for each distinct type of advertising expense it incurs, including but not limited to these categories: (1) sales or promotional, (2) institutional, (3) conservation related, (4) rate case, and (5) other.
- A-157. In preparing its rate case filing, the Company did not review any Commission Orders concerning the ratemaking treatment of costs for each distinct type of advertising expense it incurs. However, the Company is aware of, and complies with, the Commission's regulation on advertising which can be found at 807 KAR 5:016.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 158

Responding Witness: Lonnie E. Bellar

Q-158. List any antitrust expense included in the test period.

A-158. No antitrust expense is included in the test period.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 159

Responding Witness: Lonnie E. Bellar

Q-159. Does the Company's proposed rate increase include any claim for attrition or suppression of sales?

- a. If so, please reference where this is presented.
- b. Provide a complete copy of any and all attrition studies or analyses prepared by or for the Company during the period 2009 through 2010.

A-159. No.

- a. Not applicable.
- b. No studies were prepared during the period 2009 through 2010.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 160

Responding Witness: Valerie L. Scott

Q-160. Explain the method used by the Company to project uncollectibles for the test period. Include an explanation of all assumptions used and a detailed explanation, including examples, of whether and how historical data was used in making this projection.

A-160. The allowance for doubtful accounts included in retail customer accounts receivable is based on the ratio of the amounts charged-off during the last twelve months to the retail revenues billed over the same period multiplied by the retail revenues billed over the last four months. Accounts with no payment activity are charged-off after four months, although collection efforts continue thereafter.

The Company reviews wholesale accounts receivable to identify potential uncollectible accounts using specific customer identification. Amounts are reserved as necessary.

The allowance for doubtful accounts included in other accounts receivable is composed of accounts aged more than four months. Adjustments are made to this balance quarterly. Increases to the balance are the result of new items that reach the four months aged criteria. Decreases are the result of items for which payment has been received and items deemed uncollectible and written off.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 161

Responding Witness: Valerie L. Scott

Q-161. Provide for each year 2009, 2010, 2011 and 2012 the total dollar write-offs to uncollectibles reserve with and without subsequent recoveries.

A-161. Retail Receivables:

Year	Write-Offs to Uncollectible Reserve	Write-Offs net of Subsequent Recoveries
2009	\$4,774,558	\$3,925,087
2010	7,181,984	6,223,108
2011	8,248,113	6,062,834
2012	1,498,397	1,131,080

Wholesale Receivables:

Year	Write-Offs to Uncollectible Reserve	Write-Offs net of Subsequent Recoveries
2009	\$45,971	\$45,531
2010	0	0
2011	25,732	25,732
2012	0	0

Other Receivables:

Year	Write-Offs to Uncollectible Reserve	Write-Offs net of Subsequent Recoveries
2009	\$167,776	\$162,796
2010	1,678,417	1,665,846
2011	367,620	352,336
2012	123,594	117,595

Note: 2012 is for the period of January 1, 2012 through March 31, 2012

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 162

Responding Witness: Sidney L. "Butch" Cockerill

Q-162. Please list by customer and amount and by year for the period 2008 through 2011 any uncollectible accounts which have been written off and which exceeded \$1,000.00.

A-162. See attached. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 163

Responding Witness: Lonnie E. Bellar

- Q-163. List and describe in detail any cost-saving programs implemented 2008 through the present.
- a. For each program listed in response to this request, show the anticipated and achieved savings. Include calculations of savings amounts and explain any assumptions used in such calculations.
 - b. Provide the cost-benefit analyses for each such program.
 - c. Show the impact of any such cost-saving programs on the test period.
- A-163. a-c. See the response to Question No. 87, PSC 1-23(c), and the direct testimony of Paul W. Thompson and Chris Hermann in this case, 2009 rate case (Case No. 2009-00548) and 2008 rate case (Case No. 2008-00252) for descriptions of business processes or initiatives for operating the Company's systems cost-effectively to provide service and a discussion of their costs and benefits. The cost-reduction impacts of these programs are embedded in the test year in this case. The Company does not track savings.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 164

Responding Witness: Counsel

Q-164. Provide a complete explanation of any and all expense reduction goals (cost savings programs) the Company had concerning the development of the 2009, 2010 and 2011 budgets.

A-164. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. The budgetary information requested in this data request is not relevant to the analysis of known and measurable pro forma adjustments in this case.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 165

Responding Witness: Valerie L. Scott

- Q-165. List for the test period, the amount of country club initiation fees, stock purchase payments, if applicable, annual dues and expenses which were paid and to what account these fees were charged.
- a. For each payment list the individual whose name the membership is in or who uses the club, his (her) title, and name of the country club.
- A-165. KU did not pay any country club initiation fees or stock purchase payments.
- a. None.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 166

Responding Witness: Lonnie E. Bellar

- Q-166. Provide a copy of the Annual Report of EEI and every other organization of which Company was/is a dues-paying member during 2010, 2011 and 2012. For the purpose of this question through Question No. 161, the term "organization" refers to EEI and / or any other organization of which the Company is a dues-paying member.
- A-166. KU does not collect and retain the requested information for its corporate files. The requested information is thus not readily available.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 167

Responding Witness: Valerie L. Scott

- Q-167. Provide a copy of the formula used to compute, and the actual calculation of the Company's dues paid to any organization for the years 2009, 2010, 2011 and 2012. Also, provide a complete copy of invoices regarding dues paid for these years.
- A-167. See attached. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

**Attachment pages provided under
confidential seal have been removed.**

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 168

Responding Witness: Lonnie E. Bellar

Q-168. Please provide any documents in KU's possession that show how these organizations spend the dues they collect, including the percentage that goes to legislative advocacy, legislative policy research, regulatory advocacy, regulatory policy research, advertising, marketing, utility operations and engineering, finance legal, planning and customer service, and public relations.

A-168. See the response to Question No. 167.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 169

Responding Witness: Valerie L. Scott

- Q-169. Has the Company included in the test period operating expense any amount for any organizations' media communications? If so, state the amount, indicate in which account this has been recorded, and provide a citation to any and all Commission Orders or other authority upon which the Company is relying for the inclusion of such expense in the test period.
- A-169. See the response to Question No. 151. The Company does not record advertising expenses related to media communications for any other organization.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 170

Responding Witness: Valerie L. Scott

Q-170. Is the Company relying upon any NARUC reports or other studies for the exclusion from or inclusion in rates of a portion of its organization dues? If so, please provide a copy of such report and indicate how the report's recommendations have been included in its filing.

A-170. KU does not rely upon any NARUC reports or other studies for the exclusion from or inclusion in rates of a portion of any organizations dues. KU relies on information provided on the invoices received from any organization in order to determine the lobbying portion of dues that should be excluded from rates.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 171

Responding Witness: Lonnie E. Bellar

- Q-171. List all travel and entertainment expenses incurred in the test period by Company employees in relation to these organizations and other industry association activities. Show accounts, amounts, descriptions, person, job title and reason for the expense. Provide a copy of employee time and expense reports and invoices documenting such expenses.
- A-171. The Company does not track the requested information specifically related these organizations and other industry association activities. Company employees participate in various industry associations and organizations to gain knowledge and experience throughout the industry to allow for the Company to provide service to its customers in the most economical, cost-effective and reliable manner. The gaining of industry knowledge through these associations benefits customers through the use of best practices in providing services.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 172

Responding Witness: Lonnie E. Bellar

Q-172. Do any of the Company's personnel actively participate on Committees and/or any other work for any industry organization to which the Company belongs?

- a. If so, state specifically which employees participate, how they are compensated for their time (amount and source of compensation), and the purpose and accomplishments of any such association related work.
- b. List any and all reimbursements received from industry associations, for work performed for such organizations by Company employees.

A-172. Company employees participate in various industry associations and organizations to gain knowledge and experience throughout the industry to allow for the Company to provide service to its customers in the most economical, cost effective and reliable manner. The gaining of industry knowledge through these associations benefits customers through the use of best practices in providing services.

- a. The Company does not track employee participation in industry organizations. Employees are not compensated by industry organizations for participation on committees.
- b. See response to (a.) above.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 173

Responding Witness: Lonnie E. Bellar

Q-173. Please provide copies of all expense reports (or similar documents) which exceed \$1,000 submitted by Company officers during 2010, 2011 and 2012 to date for reimbursement of business or personal expenses.

A-173. See the attached which details KU monthly expense report charges which exceeded \$1,000 during 2010, 2011, and 2012 to date by officer and charge type.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 174

Responding Witness: Daniel K. Arbough

Q-174. For each injury and damage claim, where the settlement exceeded \$10,000 for the years 2010, 2011 and 2012, list by year each such claim, the basis for the claim, the dollar amount of the claim paid and the associated legal fees.

A-174. The attachment shows the requested information through July 31, 2012.

The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

**Attachment pages provided under
confidential seal have been removed.**

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 175

Responding Witness: Valerie L. Scott

Q-175. State the amount of injuries and damages expense for each of the last three years.

A-175. See Blake Exhibit 1, Reference Schedule 1.16.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

Response to Attorney General's Initial Requests for Information

Dated July 31, 2012

Question No. 176

Responding Witness: Paula H. Pottinger, Ph.D. / Daniel K. Arbough

Q-176. Itemize each component of insurance expense included in the test period, and provide comparative information for 2009, 2010 and 2011. Indicate the accounts and amounts in which each item of insurance expense is recorded.

- a. For any component of the Company's insurance expense which has fluctuated by more than 10% or \$10,000 from one year to the next, provide an explanation as to the cause of such fluctuation.

A-176. The insurance expense is itemized in the attachment for the test period and each of 2009, 2010, and 2011.

Property insurance expense increased from 2009 to 2010 due to the lead insurance carrier not offering a credit in 2010 associated with the length of the relationship with Kentucky Utilities (a membership credit), whereas a membership credit was realized in 2009. An increase in the value of the property covered by the insurance, due to completed construction projects, also contributed to the increase in insurance expense in 2010. Property insurance expense decreased in 2011 from 2010 due to Kentucky Utilities qualifying for a membership credit issued by the lead insurance carrier. Kentucky Utilities also qualified for a credit from the lead insurer in 2011 resulting from completion of projects which reduced the risk profile of the Kentucky Utilities property.

Public liability expenses increased 2009 to 2010 due to a significant increase in the magnitude of claim payments during the year due to timing and an increase in premium cost resulting from market conditions. 2011 expense increased due to an increase in insurance premiums due to changes in the premium allocation provided by the insurer between KU and LG&E and due to fluctuations in the magnitude of claim payments during the year.

The Company is self-insured for workers' compensation. This expense decreased in 2010 and increased in 2011 due to an update in reserves for open claims used in

the calculation of the worker's compensation liability. The test year expense is impacted by the update in reserves used in the calculation of the liability.

Auto liability expense decreased in 2010 and 2011 due to fluctuations in the volume and magnitude of claim payments. The expense is impacted by the timing of claims and recoveries from insurers. Test year expense increased due to the timing of claim payments.

Injuries and damages increased from 2009 to 2010 as brokerage fees were incurred, but were charged to account 923 in 2009 but to account 925 in 2010, and brokerage fees increased due to new pollution legal liability insurance coverage being purchased in 2010. Costs in 2011 were higher due to broker fees.

Group life insurance costs are based on a negotiated insured premium times the amount of life insurance for each covered employee. The amount of coverage is based on the employee's salary. The company negotiated life insurance premium with the current carrier for the same rate for 2009 – 2012. The fluctuation in cost is due to changes in salaries and in the number of employees. It is also impacted by the timing of payment of premiums. The fluctuation between 2011 and the test period is due to the timing of the true up of the clearing accounts.

The medical plan is self-insured, paying medical claims incurred that year plus insured fees for administration, vision, stop-loss insurance and health care management program fees. Fluctuations from year to year are primarily based on an increase or decrease of medical claims.

The dental plan is on a self-insured basis, paying dental claims incurred that year plus an administrative fee. Fluctuations from year to year are primarily based on an increase or decrease of dental claims.

Long-term disability insurance costs are based on a negotiated insured premium times the amount of base salary for covered employees. The company negotiated Long-term disability insurance premium with the current carrier for the same rate for 2009 – 2012. The fluctuation in cost is due to changes in salaries and in the number of employees. It is also impacted by the timing of payment of premiums. The fluctuation between 2011 and the test period is due to the timing of the true up of the clearing accounts.

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 178

Responding Witness: Valerie L. Scott

Q-178. Please itemize the amount of non-rate case legal expense for 2008, 2009, 2010, 2011 and 2012 to date. For each distinct item over \$5,000 show payee, amount, account and indicate what services were performed and what the subject matter of the services was.

- a. Provide copies of all invoices which exceed \$10,000. This should be the complete document including a detailed description of work performed.

A-178. See attached.

- a. The information requested herein is voluminous and would require a significant amount of time to compile. If the AG has specific invoices that it would like to review, please advise and the Company will agree to provide copies of those invoices, appropriately redacted to protect the attorney-client privilege or work product information.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 179

Responding Witness: Daniel K. Arbough

Q-179. List all fees during the test period, the previous two years and 2012 to date for maintaining lines of credit. List such fees for each line of credit which the Company maintains. Indicate in which account such fees are recorded.

A-179. See attached.

The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

CONFIDENTIAL INFORMATION REDACTED

Line of Credit Fees

	2010	2011	2012 1/1-6/30	Test Period 4/1/2011 - 3/31/2012
\$35 million bilateral line of credit	\$ 20,405			
\$198 million letter of credit facility		\$ 192,265	\$ 149,456	\$ 266,993
\$400 million revolving line of credit:				
Amortization of upfront fees				
Commitment fees	125,352	646,484	252,778	646,816
Total line of credit fees	\$ 314,828	\$ 1,836,023	\$ 794,913	\$ 1,852,025

Fees for the \$35 million line of credit were recorded in account #921003 - General office expense/supplies.

Fees for the \$198 million letter of credit facility are recorded as an amortization in account #428013 - amortization expense which consolidates into interest expense

Fees for the \$400 million revolving line of credit are recorded in account #431104 - Interest expense from financial liabilities or in amortization expense account #428007. These two accounts both are consolidated into interest expense. Note that the \$400 million revolving line of credit was in place for only 2 months in 2010.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 180

Responding Witness: Valerie L. Scott

Q-180. Does the Company employ a fringe-benefit or overhead factor to assign overhead costs to specific projects? If so, state what these factors were in 2009 and 2010 and show in detail how they were calculated.

A-180. Yes. See attached.

KU June - December 2009 Generation Local Engineering Rate Adjustment

Account Description

184600 ENGINEERING OVERHEADS - GENERATION

	Period	Activity	Balance	
	12/31/2008		352,948.95	
	Jan-09	31,839.12	384,788.07	
	Feb-09	(8,066.05)	376,722.02	
	Mar-09	(43,808.72)	332,913.30	
	Apr-09	28,632.13	361,545.43	
	May-09	9,698.49	371,243.92	
	Jun-09	23,463.87	394,707.79	A
	Jul-09	20,993.46	415,701.25	
	Aug-09	22,885.63	438,586.88	
	Sep-09	10,905.75	449,492.63	
	Oct-09	11,149.69	460,642.32	B
	Nov-09	(7,329.63)	453,312.69	
	Dec-09	(48,375.02)	404,937.67	

A June 2009 - KU local engineering balance increased over time in 2009 so rate was slightly increased from 1.0% to 1.3% to help make progress toward getting closer to zero. It was a small change so as to not greatly impact the projects by higher burdens.

B October 2009 - KU local engineering balance increased over time in 2009 so rate was doubled for October 2009 from 1.3% to 2.5% to help make progress toward getting closer to zero. Earlier increase was not enough.

**January - June 2010 Generation Local Engineering Rate Calculation
(\$000)**

January - April 2009 Actual Charges	360		A
2010 Estimated Annual Charges (based on 2009)	1,080		$A \times 3 = B$

Estimated 2010 Rate (rounded)	1.5%		

KU July - December 2010 Generation Local Engineering Rate Adjustment

Account Description

184600 ENGINEERING OVERHEADS - GENERATION

Period	Activity	Balance	
12/31/2009		404,937.67	
Jan-10	(12,567.41)	392,370.26	
Feb-10	12,845.99	405,216.25	
Mar-10	5,882.19	411,098.44	
Apr-10	13,059.68	424,158.12	
May-10	26,707.73	450,865.85	
Jun-10	28,649.23	479,515.08	
Jul-10	20,466.78	499,981.86	A
Aug-10	20,246.70	520,228.56	
Sep-10	(223,942.48)	296,286.08	
Oct-10	(349,072.31)	(52,786.23)	
Nov-10	(206,387.19)	(259,173.42)	
Dec-10	259,173.42	0.00	B

A July 2010 - KU rate changed from 1.3% to 4% based on account balance. Projected Capital spend in 2010 was expected to lower LE balance closer to zero with increase of local engineering rate to 4%. This was accomplished by the end of October 2010 as shown above. The 4% amount was projected as high enough to make progress on the balance without being a large charge for each transaction.

B December 2010 - KU rate changed from 4% to 0% based on account balance. Higher than expected 2010 Capital resulted in KU moving to credit balance. Future charges to local engineering would bring balance closer to zero.

**January - December 2009 Transmission Local Engineering Rate Calculation
(\$000)**

- 1) Annualize amounts in first 4 months
- 2) Budgeted rate increase is 3.5%
- 3) Burden labor using budget labor rate for year
- 4) Total Labor and burdens.
- 5) Add total labor and non-labor and divide by budgeted capital spend to calculate rate to apply to capital projects.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 181

Responding Witness: Paul W. Thompson / Chris Hermann

Q-181. List and describe all maintenance programs and expenses which have been deferred into the test period from prior years, and for each item, explain the Company's reason for such deferral.

A-181. KU did not defer maintenance programs and expenses for the purpose of reflecting costs in the test year. The timing and continuation of maintenance programs is based on the requirements of the overall operation of the system and the conditions experienced in operating the system.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 182

Responding Witness: Daniel K. Arbough

Q-182. List all merchandise-related revenue, expense and rate base items included in the test period by account and amount.

A-182. The net revenue booked in Account 415 – Revenue for Merchandise Sales in the test year was \$29,845.40. This represents sales of items such as transformers, poles, conduit, etc. to KU customers.

The net expense booked in Account 416 – Expense for Merchandise Cost of Sales, was \$684.76. This represents the cost of items such as transformers, poles, conduit, etc.

Demand Side Management revenues and expenses are excluded from this response since they are included in Blake Exhibit 1, Reference Schedule 1.09.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 183

Responding Witness: Valerie L. Scott

Q-183. List each abnormal or non recurring charge or credit which occurred during 2009, 2010 and 2011 and 2012 to date, and which exceeded \$10,000.00. For purposes of this question, regulatory assets for storm-related damage may be excluded.

- a. For each such charge or credit, state the basis and dollar magnitude of each.
- b. Provide copies of invoices, journal entries or other documentation to support each abnormal or non recurring item.

A-183. Abnormal or non-recurring charges are not specifically tracked. These types of charges or credits are identified through the normal course of rate case preparation and not during other time periods. Therefore, the Company has only identified abnormal or non-recurring charges during rate case test years. The test years ended October 31, 2009 and March 31, 2012 fall into the time period requested above and the abnormal or non-recurring charges identified for each of these cases is provided below.

- a. See attached. Additionally, the Company transferred ownership of certain assets at its Trimble County Station from Louisville Gas & Electric (LG&E) as these assets became jointly owned by both KU and LG&E related to Trimble County Unit 2 in 2009. See also the response to Question No. 67.
- b. For details regarding the adjustments, please refer to Blake Exhibit 1, the related Reference Schedules and the related testimony for the current case as well as Case No. 2009-00548. See attached July 30, 2009 letter to the Kentucky Public Service Commission and the June 7, 2010 letter to the Federal Energy Regulatory Commission related to the transferred ownership of Trimble County Station assets.

RE: Transfer of Joint Use Assets for Trimble County Unit No. 2 in Accordance with the Commission's November 1, 2005 Order in Case No. 2004-00507, In the Matter of: Joint Application of Louisville Gas and Electric Company and Kentucky Utilities Company for a Certificate of Public Convenience and Necessity, and a Site Compatibility Certificate, for the Expansion of the Trimble County Generating Station

Dear Mr. DeRouen:

This letter is to advise the Commission of the planned transfer on the books and records of Louisville Gas & Electric Company ("LG&E") and Kentucky Utilities Company ("KU") (collectively, the "Companies") of the ownership of certain assets relating to the Trimble County Generating Station from LG&E to KU.

The Commission issued LG&E a Certificate of Public Convenience and Necessity ("CPCN") for the Trimble County Generating Station on October 19, 1978, in Case No. 7113.¹ The CPCN allowed for the installation of two 495 MW generating units, Units Number 1 ("TC1") and Number 2, to be available for operation in May 1983 and May 1985, respectively. TC1 was placed in service in December 1990 with a 495 MW net summer rating and a 566 MW

¹ *In the Matter of: Application of Louisville Gas and Electric Company for a Certificate of Public Convenience and Necessity and a Certificate of Environmental Compatibility to Proceed with the Development of a New FOUR-UNIT Electric Generating Station with a Total Capacity of 2340 MW and to Install 2 – 495 MW Coal-Fired Steam Turbine-Driven Generating Units at Trimble County Station on the Ohio River Near Bedford Kentucky, Case No. 7113, Order (Oct. 19, 1978).*

Mr. Jeff DeRouen, Executive Director
July 30, 2009

generator nameplate rating; however, the Companies ultimately allowed the original CPCN for Unit Number 2 to lapse.

When LG&E and KU merged in 1998, the Companies committed to plan and operate their generation and transmission systems on an integrated basis, including jointly dispatching their generating units. They also anticipated that future generating units might be jointly owned and that each company would be responsible for its pro rata share of each such unit's costs.² Subsequently, the Companies sought, and the Commission issued, a new CPCN for the construction of Trimble County Unit 2 ("TC2"),³ now an 838 MW (generator nameplate rating) baseload unit to be located adjacent to TC1. In its order granting the CPCN, the Commission established ownership shares of 81% and 19% for KU and LG&E, respectively, for the Companies' collective 75% share of the unit. (The other 25% is owned by the Indiana Municipal Power Agency and the Illinois Municipal Electric Agency.)

A number of the assets that will be necessary to the operation of TC2 (e.g., the plant coal handling system) are currently being used only by TC1. When TC2 is complete, both units will use such assets ("Joint Use Assets"). Because KU has no ownership interest in TC1, to achieve the ownership shares in TC2 that the Commission explicitly approved in its November 1, 2005 Order in Case No. 2004-00507, LG&E will need to transfer ownership interests in the Joint Use Assets to KU. KRS 278.218 states that any transfer of utility assets valued at more than \$1 million require Commission approval, which the Commission shall grant if the proposed transaction is for a proper purpose and is consistent with the public interest. In this particular circumstance, the Commission has already approved as consistent with the public convenience and necessity the 81% and 19% respective ownership shares of KU and LG&E in their collective 75% ownership interest in TC2; the transfers of ownership interests the Companies describe herein are necessary to achieve the overall ownership interests in TC2 the Commission has already approved, and therefore do not require the Commission to issue an additional order in this proceeding.

To achieve this Commission-approved division of ownership, the Companies will transfer ownership interests in the Joint Use Assets from LG&E to KU in

² *In the Matter of: Joint Application of Louisville Gas & Electric Company and Kentucky Utilities Company for Approval of Merger*, Case No. 97-300, Order at 18-19 (Sept. 12, 1997).

³ *In the Matter of: Joint Application of Louisville Gas and Electric Company and Kentucky Utilities Company for a Certificate of Public Convenience and Necessity, and a Site Compatibility Certificate, For the Expansion of the Trimble County Generating Station*, Case No. 2004-00507, Order (Nov. 1, 2005).

Mr. Jeff DeRouen, Executive Director
July 30, 2009

accordance with the Corporate Policies and Guidelines for Intercompany Transactions (“Guidelines”).

Transfers or sales of assets will be priced at the greater of cost or fair market value for transfers or sales from LG&E or KU to LG&E Energy or other subsidiaries and at the lower of cost or fair market value for transfers or sales made to LG&E or KU from LG&E Energy or any of LG&E Energy’s non-utility subsidiaries. Transfers or sales of assets between LG&E and KU will be priced at cost.⁴

To comply with the Guidelines in this exchange, KU will pay LG&E net book value (original cost minus accumulated depreciation) to purchase its ownership share of the Joint Use Assets. On the basis of the nameplate ratings of TC1 and TC2, the Companies have determined that to achieve respective overall ownership shares of 81% and 19% for KU and LG&E in TC2, their respective ownership shares of the Joint Use Assets must be 48% and 52%. Attachment 1 hereto is a schedule of the assets LG&E will transfer to KU and the net book value of KU’s ownership share of each asset (a total as of June 2009 of \$48,753,671); Attachment 2 is a site plan of the Trimble County Generating Station showing the locations of the Joint Use Assets; Attachment 3 shows sample journal entries for the ownership interest transfers LG&E will make to KU for the Joint Use Assets in December 2009, the first period in which the assets are expected to be used by both LG&E and KU as TC2 unit testing begins; and Attachment 4 shows the method by which the Companies have determined that the Joint Use Assets should be owned 52% and 48% by LG&E and KU, respectively.

In August 2009, LG&E and KU will apply to the Commission for approval of depreciation rates to use for its TC2-related assets.

⁴ Emphasis added. See *In the Matter of: Joint Application of Louisville Gas and Electric Company and Kentucky Utilities Company for Approval of Merger*, Case No. 97-300, Order at 39 (Sept. 12, 1997) (“LG&E, KU and each related company shall, after the merger, comply with LG&E Energy’s Corporate Policies and Guidelines for Intercompany Transactions.”).

Mr. Jeff DeRouen, Executive Director

Trimble County Steam Generating Plant**Transfer of Joint Use Assets to KU**Net Book Value As of June 2009

<u>Asset</u>	<u>Description</u>	<u>KU 48%</u> <u>Net Book Value</u>
01 - Unit Structure	The Unit Structure System is the structural steel and reinforced concrete skeletal frame as well as finished concrete floors of the powerhouse including the Turbine Room, Conveyor Room, Boiler Room Deaerator Room and Air Preheater Room. Covering of the building sides and roofs is included also as well as louvers, heating/ventilating, lighting, communication, grounding, fire protection, plumbing, drains and passenger/freight elevators are also a part of this system.	\$ 1,618,879
02 - Service Bldg	The Service Building System shall include costs for contracted labor, material and equipment and local labor, material and equipment to provide a service building facility. The Service Building System shall include the service building physical structure, the shops, offices, locker rooms and restrooms, and storage rooms. which are provided to service all units.	\$ 6,473,934
03 - Screenwell	The Screenwell System includes the structural steel and reinforced concrete skeletal frame of the Ohio River water intake structure for the station. This system includes all the mechanical equipment located in the screenwell structure. This includes but is not limited to various pumps, traveling screens, fixed screens, chemical treatment equipment, piping, house crane (located in the screenwell), trash rakes and other screen cleaning devices, stop log gates, and heating/ventilating equipment. The Screenwell System also includes all electrical equipment located within the screenwell structure.	\$ 3,923,274
04 - Structure B	The Structures B/As Fired Sample House System includes two main structures: Structure B, the north extension of the Unit 1 Conveyor Room; and Coal Conveying Structure, As Fired Sample House. Due to the particular arrangement of the coal conveying system at Trimble County Station, it was necessary to construct a portion of the Unit 2 Conveyor Room to be able to operate the coal conveying system in Unit 1. This portion of Unit 2 is known as Structure B. The System includes the structural steel and reinforced concrete skeletal frames for these two structures. Building covering of the sides and roof are also included. The heating, ventilating and air conditioning equipment, building drains, lighting, communication, grounding, and fire protection in the two structures are a part of this system.	\$ 1,479,471
05 - Land Improvements	This System shall include only those improvements which have a long term life, which approximates the life of the plant. Items which would be included are emergency fly ash and sludge storage pond; relocation of Corn Creek; relocation of Highway 1488; bottom ash storage pond; coal pile impoundment dikes, liners, and stacker-reclaimer fill; grading for reactant preparation, solid waste, construction shops, parking lots, equipment laydown, and concrete batch plant; undercutting for cooling towers, units, and service building; improvement fills and liners for limestone storage, and coal pile runoff, fuel oil storage; construction and plant site runoff basin; switching station fill; permanent plant roads including fill and surfacing; and aesthetic berm.	\$ 5,363,411

<u>Asset</u>	<u>Description</u>	<u>Net Book Value</u>
06 - Yard Facilities	The Yard Facilities System will include those facilities or equipment which are: inter-connections between other systems; have multi-system usage, or are not within a plant structure. Items which shall be included in the Yard Facilities System are: plant yard surfacing; underground electrical ducts; monitor wells; grounding; yard lighting; security facilities; yard drainage (including storm sewers, culverts, and ditches); diesel fire pump house; sanitary sewers (including lift and pumping stations); and fences. (see subsystem descriptions below)	\$ 1,992,881
07 - Above Ground Piping	This system shall include contract labor, materials, and equipment and local labor, material and equipment required to install combined plant piping-systems which are routed and supported on a common pipe rack. The ash water recycle pumps, floating ash pond pumps, platform, floating lines, power, and control shall be part of this system. Also the floating discharge lines for bottom ash, scrubber sludge, and fly ash and sludge storage pond shall be included.	\$ 1,414,127
08 - Under Ground Piping	This System shall include contract labor, materials and equipment, and local labor, material and equipment required to install underground pipe which runs across the plant site from one System to another. Pipe lines included in this System are the Underground Portable Water Piping Distribution Facilities, Yard Fire Protection Piping Distribution Facilities, Fuel Piping Distribution Facilities, Service Water Underground Pipe Distribution Facilities and the "Temporary" Underground Pipes west of Unit 1 and 2 Boiler Room to facilitate Unit No. 2 Construction.	\$ 695,609
22 - Stack	This system shall include contract labor, material, and equipment and local labor, material and equipment to install the stack. The Stack System includes the reinforced concrete base slab and column, all structural steel including ladders, and the fiberglass liner. This system also includes any concrete floors or grating and the permanent elevator is also a part of the Stack System. Mechanical equipment and piping located within the chimney are a part of this system. Electrically, all power, grounding, lighting, communications, instrumentation and control equipment, and wiring are a part of this system. This system also includes the strobe warning lights or other warning devices or system.	\$ 1,496,135
25 - Plant Coal Handling	The system shall be defined as including all contract labor and material, and all company labor and local material as may apply within the system boundaries' outlined as follows: 1) Fabrication and erection of coal bunkers down to outlet flange (to include load cells, seals at conveyor room floor, interior coating of top ring, etc.); 2) "G" conveyors, trippers and all coal handling equipment in conveyor room (to include dust collection equipment); 3) Silo junction house sampling equipment; 4) Fire protection system including deluge valve and all piping down stream of valve; 5) All instrument, control and electrical shall be included with the associated equipment in the respective subsystem (including 6900V, 480V, conduit and cable tray).	\$ 320,672
30 - Fuel Oil System	The Fuel Oil System shall include contract labor, material and equipment, and local labor, material and equipment to install the fuel oil system. The Fuel Oil System will begin at the first joint through the dike around the fuel oil tanks such as foundations for the tanks and station piping and pumps, the steel tanks, pumps and piping within the dike area to the last joint prior to going through the dike. The boundary stops at this last joint. All labor and materials are covered within the dike area. The Fuel Oil Electric Building and Fuel Oil Pump house is also included.	\$ 306,784

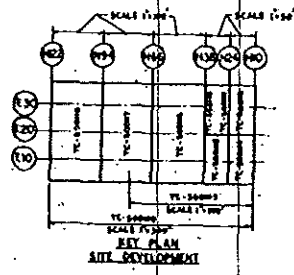

<u>Asset</u>	<u>Description</u>	<u>Net Book Value</u>
31 - Coal Unloading	The coal unloading system shall be defined as including contract labor material, and equipment, and local labor, material and equipment to provide coal unloading facilities within system boundaries as outlined as follows: 1) Shuttle barge equipment; 2) Barge Unloader and Coal Conveyor "A" & "B"; 3) Transfer House "B" - "C"; 4) Coal Conveyor "C"; 5) Sample House which includes vibrating feeders, conveyor "D", "as-delivered" scales, conveyor "S", barge unloader bin, and the concrete support for "E" conveyor (but not "E" conveyor or its pulley frame). (see subsystem descriptions below)	\$ 6,121,011
32 - Coal Conveying System	The Coal Conveying System shall be defined as including contract labor, material and equipment, and local labor, material and equipment as required to provide a stackout-to-storage and reclaim-from-storage machine, a conveyor system which shall begin with steel framework to support "E" conveyor, "F" conveyors, up to the point where the framework supporting the head pulley attaches to the plant structural steel, reclaim hoppers and tunnel, conveyor R, and R.2., magnetic separator, crusher equipment, vibrating feeders in crusher house, and crusher house. Shall also include all Instrumentation and Control and all electrical. Power feed shall be included back to the breaker terminals for 4000V equipment or to the motor starter terminals for 480V equipment. (see subsystem descriptions below)	\$ 4,954,731
35 - Reactant Supply & Barge Unloading	This system shall include contract labor, material and equipment and local labor, material and equipment to install reactant supply and barge unloading system. The Reactant Supply and Barge Unloading System will begin at the Barge Unloading Facilities and will end where the conveyor enters the Ball Mill pulverizer building at the Surge Hopper. It shall also include all Instrumentation and Control and all electrical. Control wiring shall be included. Power feed shall be included for 4000V equipment. (see subsystem descriptions below)	\$ 4,369,349
41 - Reactant Preparation	This system shall include contract labor, material and equipment and local labor, material and equipment to install the Reactant Preparation System. This system will include the Ball Mill Building, and associated equipment, Live Storage Tanks, agitators and other equipment. It shall also include all Instrumentation and Control and all electrical. Control wiring shall be included. Power feed shall be included for 4000V equipment. (see subsystem descriptions below)	\$ 3,307,517
50 - Station Water Treatment Facility	This system shall include contract labor, material and equipment, and local labor, material and equipment to consolidate facilities in one location for treating station waste water and water treatment. The system shall include the SWWT building and pipe, equipment, tanks, storage tanks and storage facilities, in and adjacent to the SWWT building. Facilities associated with this system will include sewage treatment, cooling tower water treatment, condensate make-up water treatment, and demineralization, associated bulk chemical storage, and SWWT compressed air facilities. Shall also include all Instrumentation and Control and all electrical	\$ 2,117,762
53 - Misc. Plant Equipment	This system shall include contract labor, material and equipment, and local labor, material and equipment to install the following subsystems: Turbine Room Gantry Crane, Turbine Room House Crane, Electric Hoists, Station Air Compressors, and Instrument Air Compressors. It shall also include all Instrumentation and Control and all electrical. Control wiring shall be included. Power feed shall be included for 4000V or 6900V equipment or for 480V equipment.	\$ 987,746
61 - Circulating Water System	This system shall include contract labor, material and equipment, and local labor, material and equipment to provide the circulating water facilities. This system shall include the cooling tower, cooling tower pumps, circulating water lines, condenser, cooling tower blowdown facilities, and ash water makeup system.	\$ 114,750

<u>Asset</u>	<u>Description</u>	<u>Net Book Value</u>
71 - Station Auxiliary	This subsystem shall include contract labor, material and equipment, and local labor, material and equipment to install the reserve auxiliary transformers (including foundations and fire protection), the 138KV cable from the switching station termination to the reserve auxiliary transformers, the 6900 volt station switchgear, 6900/480 volt station transformers, 480 volt station switchgear and 480 volt station motor control centers. This includes all necessary control wiring changes internal to the switchgear, power feeds (bus duct and cable) and check-out associated with this equipment.	\$ 1,471,491
73 - Cable Tray & Conduit	This system shall include contract labor, material and equipment, and local labor, material and equipment to install the cable tray system in the plant and service building. Any cable tray or conduit drops to final devices (motors, boxes, etc.) shall be charged to the appropriate system and subsystem.	\$ 224,137

Mr. Scott Molony, Chief Accountant
Federal Energy Regulatory Commission
888 1st Street N.E.
Washington, D.C. 20426

Dear Mr. Molony:

Trimble County Generating Station Unit 2 is currently under construction and is jointly owned by Kentucky Utilities Company (KU) and Louisville Gas and Electric Company (LG&E). KU purchased from LG&E a share of certain joint use assets which are to be utilized by both Trimble County Unit 1 (currently owned by LG&E) and Trimble County Unit 2. Additionally, KU also purchased from LG&E a share of a hyperbolic cooling tower previously used by Trimble County Unit 1 but which will be used solely for Trimble County Unit 2 in the future. Consistent with Federal Energy Regulatory Commission regulations, KU is treating these transactions as a purchase of an Operating Unit or System.

In accordance with the Code of Federal Regulations part 101 – Uniform System of Accounts Prescribed for Public Utilities, Electric Plant Instruction Number 5 – Electric Plant Purchased or Sold, KU respectfully submits this filing related to journal entries made to Plant Account 102, as described on Attachment A, Item 1, which is enclosed. Since there is no gain or loss on the transaction, the debits and credits charged to Plant Account 102 net to zero and there are no journal entries required to clear the balance of Plant Account 102.

Please contact me at (502) 627-3189 should you have any questions regarding this matter.

Very truly yours,

A handwritten signature in cursive script that reads "Sara Wiseman".

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 185

Responding Witness: Valerie L. Scott

- Q-185. List by account the Company's annual O&M expenses for the years 2008 through and including 2012 to date. For each account having a variance over the prior year exceeding 10%, explain the cause of such variance, listing and describing each significant causative item and the associated dollar amount.
- A-185. See attached. The Company does not maintain variance analyses in this level of detail. Variance explanations between 2008 and 2009 were provided in Case No. 2009-00548 in its response to AG 1-149, dated March 15, 2010, which the Company hereby incorporates by reference. Variance explanations between 2009 and 2010, and between 2010 and 2011 are provided in response to Question No. 222.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 186

Responding Witness: Valerie L. Scott

Q-186. Penalties and fines.

List and describe any and all penalties and fines in the test period and the preceding three years. Indicate in which account each such item was recorded, and whether any such penalty or fine is a shareholder or ratepayer expense.

A-186. See attached.

**Kentucky Utilities Company

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 187

Responding Witness: Paula H. Pottinger, Ph.D.

Q-187. List all productivity savings expected to be realized by the Company as a result of increased employee experience.

A-187. The Company has not completed any productivity studies relative to increased employee experience.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 188

Responding Witness: Valerie L. Scott

Q-188. List each facility, location and asset which is included as rental expense. For each item include a description, the annual or monthly rental rate, the account and amount included in the base and test period expense.

A-188. See attached.

Kentucky Utilities Company
Rental Expenses

¹ The costs related to the copiers reflect the individual items returned at varying times throughout the 2011 portion of the test year - final month charges were prorated i.e. not a full month, refund due, etc.

² The costs related to the railcars are charged initially to the 151 Fuel Inventory account and included in the average cost. These charges are expensed with the cost of the fuel based on fuel burned.

³ The costs related to uniform leases, uniform fittings began Q1 2012.

⁴ The costs related to the vehicles are charged initially to the 184 Transportation Clearing Account. These charges are allocated based on labor charges on a one month lag.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 189

Responding Witness: Valerie L. Scott

Q-189. Provide, by year, all affiliated operating expenses charged to Kentucky regulated operations for the 10 years ending 2011.

A-189. Affiliated operating expenses charged to Kentucky regulated operations are shown in the table below. Data prior to 2005 is not readily available.

Year	KU
2011	\$285,878,157
2010	\$224,893,559
2009	\$182,756,809
2008	\$175,111,386
2007	\$151,530,194
2006	\$149,985,255
2005	\$ 95,726,410

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 190

Responding Witness: Valerie L. Scott

- Q-190. Provide detailed support for any Management Fees included in the filing. Provide this in Microsoft Excel or compatible format. Include total charges incurred by each corporate department and the amount each of these departments allocated to Kentucky regulated operations. Also include the number of employees in each department and the method used to allocate charges for each department.
- A-190. Management fees are not charged to Kentucky regulated operations.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 191

Responding Witness: Valerie L. Scott

Q-191. Provide a general ledger listing or similar report of all transactions that comprise any corporate charges allocated to regulated operations.

A-191. There are no corporate charges allocated to the regulated operations. All charges are directly or indirectly charged in compliance with the Cost Allocation Manual, located at 807 KAR 5:001 Section 10(6)(t) in the original filing. See the response to PSC 1-42 for charges allocated to Kentucky Utilities from LG&E and KU Services Company.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 192

Responding Witness: Lonnie E. Bellar

Q-192. Reference the Spanos testimony in general. State the total costs which the witness is charging KU for his services in this proceeding.

A-192. See the response to PSC 1-55 and the update to the same filed on July 31, 2012.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 193

Responding Witness: John J. Spanos

Q-193. Reference the Spanos testimony, pp. 13-14. State what jurisdiction, if any, along with the name of the case and case number, in which the proposed methodology, which the witness acknowledges is a deviation from best practices, has been accepted.

A-193. Mr. Spanos does not acknowledge that the proposed methodology is a "deviation from best practices," but instead states that the "the new methodology is a more precise practice and utilized by most utilities." The new methodology is, however, a change from the prior practice for production plant net salvage for Kentucky Utilities Company.

This methodology has been accepted in many jurisdictions which is represented by, but not limited to, the jurisdictions represented by the studies set forth in response to data request KIUC-1-44.

Additionally, Florida and California have accepted similar methodologies (FPL and PG&E), but in which the dismantlement component is recovered separately from depreciation expense.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

Response to Attorney General's Initial Requests for Information

Dated July 31, 2012

Question No. 194

Responding Witness: Lonnie E. Bellar

Q-194. Please identify, describe fully, and provide full documentation of any capital or maintenance plans or programs that the Company has undertaken or is considering undertaking that will extend or shorten the life of any of its electric plant.

A-194. The Company continuously reviews the investment in and the operation of its electric facilities in order to provide continual reliable and economic operation of all assets to provide service to customers. As discussed in the Testimony of Mr. Thompson, one of Energy Services' major corporate objectives is to maximize the performance and investment life of the Companies' generation and transmission assets. The dual goals of asset management are to increase the efficiency of the assets while continuing to provide reliable service. Asset management allows for realization of these goals in the most cost-effective manner possible. In addition, as discussed in the Testimony of Mr. Hermann, the cornerstone of the distribution and retail operations continues to be the Company's commitment to the delivery of safe and reliable service at a low cost to customers. The Company remains dedicated to providing high quality customer service through refining its current programs and implementing innovative practices.

Investments to extend the operational ability of all assets are considered on an ongoing basis. Please refer to the response to Question No. 87 for various investment projects considered for electric plant. The Company is considering turbine upgrade projects for five of its existing coal units; these projects would extend the lives of the steam turbines. These projects are in the early developmental stages, and as such, there is no documentation to provide.

In addition, as part of the Integrated Resource Plan filed with the Kentucky Commission on a periodic basis, the Company reviews the ongoing operation of the existing facilities. See the response to KIUC 1-63 for the most recently filed Integrated Resource Plan.

KU's maintenance practices include time and symptom-based guidelines for maintaining or replacing, as appropriate, certain critical asset components before they fail, and maintains its plant assets in a way that is consistent with prudent utility practices.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 195

Responding Witness: Shannon L. Charnas

Q-195. Please identify, describe fully, and provide full documentation of any changes in the definition of plant units subject to capitalization that the Company has adopted during the last 20 years.

A-195. There have been no changes in the definition of plant units subject to capitalization.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 196

Responding Witness: Shannon L. Charnas

Q-196. Please identify, describe fully, and provide full documentation of any changes in the definition or treatment of salvage or removal/dismantlement costs that the Company has adopted during the last 20 years.

A-196. The adoption of SFAS No. 143⁸ resulted in a change in accounting for removal costs. See the response to PSC 1-56 for full description and documentation of the related changes. There have been no other changes in the definition or treatment of salvage or removal/dismantlement costs.

⁸ The guidance in SFAS No. 143 is now contained in FASB Accounting Standards Codification Topic 410, adopted effective September 30, 2009.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 197

Responding Witness: Shannon L. Charnas

Q-197. Please provide a copy of the Company's most recent depreciation study relating to electric plant and the Order(s), Decision(s), Stipulation(s) and/or Settlement(s) establishing the current electric depreciation rates.

A-197. See the information provided, as required by Commission regulation 807 KAR 5:001, Section 10(6)(n), located at Tab 33 of the filing Requirements for the most recent depreciation study. See attached for the Order establishing the current depreciation rates. The full stipulation and settlement, and all related case documents, can be found at <http://psc.ky.gov/pscscf/2008%20cases/2008-00251/>.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 198

Responding Witness: John J. Spanos

- Q-198. Please provide the calculation of the current depreciation rates (or those used to calculate the test period depreciation expense, if different) in electronic format (Excel) with all formulae intact. Show all parameters used (i.e., ASL, curve, remaining life, net salvage ratio), and provide a source for those parameters. Please explain any differences in the parameters or rates from those that were ordered when the rates were adopted.
- A-198. The attached spreadsheet sets forth the calculation of the current depreciation rates in Excel format. The spreadsheet includes all parameters. These parameters were agreed upon in settlement from the last proceeding. There are no differences in the parameters or rates from those that were ordered when the rates were adopted.

The attachment is being provided in a separate file in Excel format.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 199

Responding Witness: Shannon L. Charnas

Q-199. Does the Company maintain its book reserve by plant account? If not, explain why not and explain how the book reserves were determined for use in calculating the current depreciation rates.

A-199. The Company maintains its book reserve by plant account.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 200

Responding Witness: Shannon L. Charnas

Q-200. Please provide the current depreciation rates, split into three separate components: capital recovery, gross salvage and cost of removal.

A-200. See attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 201

Responding Witness: Shannon L. Charnas

Q-201. Please provide any and all internal studies and correspondence from 2008-2012, inclusive, concerning FASB Statement No. 143, FIN 47 and FERC Order No. 631 in RM-02-7-000.

A-201. The Company provided internal documents and correspondence concerning FASB Statement No. 143, FIN47 and FERC Order 631 for 2008-2009 in Case No. 2009-00548 in its response to AG 1-163, dated March 15, 2010, which the Company hereby incorporates by reference. See attached for 2010 – 2012. KU has made its best effort to provide the most relevant documentation in response to this question other than documents that are subject to the attorney-client privilege or attorney work product protection.

The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 202

Responding Witness: Shannon L. Charnas

- Q-202. Please provide complete copies of all correspondence with the following parties from 2008-2012, inclusive, regarding FASB Statement No. 143, FIN 47 and FERC Order 631 in RM02-7-000:
- a. External auditors and other public accounting firms,
 - b. Consultants,
 - c. External counsel,
 - d. Federal and State regulatory agencies, and
 - e. Internal Revenue Service.
- A-202.
- a. See the response to Question No. 201.
 - b. See the response to Question No. 201.
 - c. Based on a reasonable search, there was no correspondence with external counsel from 2008-2012 regarding FASB Statement No. 143, FIN 47 or FERC Order 631 in RM02-7-000.
 - d. The Company had no correspondence with Federal and State regulatory agencies from 2008-2012 regarding FASB Statement No. 143, FIN 47 or FERC Order 631 in RM02-7-000.
 - e. The Company had no correspondence with the IRS from 2008-2012 regarding FASB Statement No. 143, FIN 47 or FERC Order 631 in RM02-7-000.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 203

Responding Witness: Shannon L. Charnas

Q-203. Regarding FASB Statement No. 143, FIN 47, and FERC Order No. 631 in Docket No. RM02-7-000, on a plant account-by-plant account basis, please identify any and all "legal obligations" associated with the retirement of the assets contained in the account that result from the acquisition, construction, development and (or) the normal operation of the assets in the account. For the purposes of this question, please use the definition of a "legal obligation" provided in FASB Statement No. 143: "an obligation that a party is required to settle as a result of an existing or enacted law, statute, ordinance, or written or oral contract under the doctrine of promissory estoppel."

A-203. See attached.

Kentucky Utilities
Asset Retirement Obligations by Plant Account

ARO	Plant Account and Description	Legal Obligation
Ash Ponds, Landfills	131100 - Structures and Improvements	Coal combustion by-product storage facilities must be properly closed and monitored.
Coal Storage	131100 - Structures and Improvements	Must remove all material storage piles to eliminate the potential for contaminated storm water runoff from the site.
Gypsum Stack	131200 - Boiler Plant Equipment	Must remove all material storage piles to eliminate the potential for contaminated storm water runoff from the site.
Generation Wells	131100 - Structures and Improvements	Wells must be properly covered and closed.
Nuclear Sources	131200 - Boiler Plant Equipment	The handling and disposal of radioactive waste.
Chemical Storage	131200 - Boiler Plant Equipment	Hazardous wastes must be removed from site and disposed of properly.
Oil Storage	131200 - Boiler Plant Equipment	Must drain/remove all hazardous chemicals/petroleum products from aboveground storage tanks/reservoirs and recycle/reuse or dispose of properly.
Asbestos - Generation	131200 - Boiler Plant Equipment	Removal and disposal of asbestos in the proper manner.
Asbestos - General Plant	139010 - Structures and Improvements	Removal and disposal of asbestos in the proper manner.
Asbestos - Distribution	136100 - Structures and Improvements	Removal and disposal of asbestos in the proper manner.
Asbestos - Transmission	135210 - Structures & Improvements-Non System Control	Removal and disposal of asbestos in the proper manner.
PCB - Line Transformers	136800 - Line Transformers	Removal and disposal of PCB in the proper manner.
PCB - Distribution	136200 - Station Equipment	Removal and disposal of PCB in the proper manner.
PCB - Transmission	135310 - Station Equipment - Non System Control	Removal and disposal of PCB in the proper manner.

Question No. 204

Responding Witness: Shannon L. Charnas

- Q-204. For any asset retirement obligations identified above, please provide the "fair value" of the obligation. For the purposes of the question, fair value means "the amount at which that liability could be settled in a current [not future] transaction between willing parties, that is, other than in a forced or liquidation transaction." Please provide all assumptions and calculations underlying these amounts.
- A-204. See attached for the current asset retirement obligation (ARO) liabilities. The calculation of the ARO liability is an automated function in the Fixed Asset system. Each month, the Fixed Asset system multiplies the current month's beginning ARO liability balance by the applicable discount rate and then divides that amount by 12 to arrive at the monthly accretion amount. This monthly amount is added to the current month's beginning liability balance to compute the current ending balance.

Kentucky Utilities
Asset Retirement Obligation Liabilities
March 31, 2012

ARO	LIABILITY
Ash Ponds, Landfills	\$ 41,754,333
Coal Storage	927,559

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 205

Responding Witness: Shannon L. Charnas

Q-205. Please provide the "credit adjusted risk free rate" used for any and all ARO calculations under FASB Statement No. 143, FIN 47, and FERC Order No. 631 calculations to date.

A-205. See attached.

The "credit adjusted risk free rate" is based on KU's credit rating. The discount rate used for each ARO is equal to the yield for a bond with KU's credit rating and a maturity date in the same year as the year the ARO is expected to be settled. The yields are based on indications provided by a major investment bank. FERC Order No. 631 does not have separate calculations.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 206

Responding Witness: Shannon L. Charnas

Q-206. Please provide complete copies of all Board of Director's minutes and internal management meeting minutes from 2008-2012, inclusive, in which any or all of the following subjects were discussed: the Company's electric plant depreciation rates; retirement unit costs; SFAS No. 143; FIN 47; and, FERC RM02-7-000.

A-206. See attached.

Minutes of Depreciation Study Results Meeting
April 13, 2012
9 A.M.

Attendees:

Valerie Scott, Controller
Shannon Charnas, Director, Accounting & Regulatory Reporting
Robert Conroy, Director, Rates
Sara Wiseman, Manager, Property Accounting
Eric Riggs, Senior Property Accounting Analyst
Doug Leichty, Senior Rate & Regulatory Analyst
John Spanos, Gannett Fleming (conference telephone)
Robert Watt, Stoll Keenon Ogden PLLC (conference telephone)

The final recommendations and findings for the depreciation studies for Louisville Gas and Electric Company and Kentucky Utilities Company were presented by John Spanos of Gannett Fleming. Mr. Spanos noted the following regarding the study:

- The depreciation study results were prepared using the average service life procedure and remaining life basis methodology consistent with past studies.
- The study resulted in revised life and salvage parameters based on historical information, industry benchmarks and discussion with Company personnel.
- Probable retirement dates are based on a combination of the age of the current assets, the life assessment study and discussions with management. Generation retirement dates may be less than or greater than the years referenced in the life assessment study due to various circumstances at each plant.
- Retirement dates of 2015 were established for Cane Run, Green River and Tyrone steam generating units.
- Estimated terminal net salvage for generation assets was incorporated. This is a weighted average for terminal and interim net salvage. This parameter change provides a more precise method to include the final retirement costs of generation facilities.
- Future rates for LS Power/Bluegrass Generation were provided using interim salvage curves, net salvage percents and retirement dates consistent with the Company's existing assets.
- Communication, power operated and transportation equipment was segregated into new accounts based on the utilization of assets. The use of new accounts and depreciation rates will better represent the recovery of these assets.
- Trimble County Generating Unit 2 was assigned a life of 55 years, the same as the life from the original rate calculation in 2011, due primarily to the transfer of joint use assets from Trimble County Generating Unit 1.

Mr. Spanos also incorporated a relatively small reallocation of the accumulated provision for depreciation reserve for generation assets in order to realign past recovery and smooth out future recovery.

At the conclusion of this discussion, the depreciation study was accepted.

SLW

Minutes of the Investment Committee
April 20, 2009

The Investment Committee (“the Committee” or “IC”) met on April 20, 2009 at 1:30 P.M. Committee Members present were: Chris Hermann, John McCall, Brad Rives, Paul Thompson (via phone), and Wendy Welsh. Other attendees included: Lonnie Bellar, Kent Blake, Ralph Bowling, David Cosby, Jeff Heun, Roger Hickman, Rusty Hudson, Christian Hulsman, Fred Jackson, Jon Miller, Caryl Pfeiffer, Debbie Shelton, John Voyles, Bob Waterman, Joe Watson and Sharon Wright. The meeting opened with solicitation by Brad Rives for approval of the minutes from March meeting (March 18, 2009). Minutes were approved as written.

I. RAC Update

The RAC met on April 9th. There were several projects that were cancelled or under runs on projects totaling \$2.6M plus the carryover of \$96K from March. RAC also has a list of unbudgeted or over runs on various projects. The RAC decided to fund some of the P1s that are needed immediately which totaled \$2.2M. We are about \$458K favorable to budget on a cash basis excluding the ice storm. Including the ice storm we are about \$39.7M unfavorable on a cash basis.

II. Project: Brown Ash Pond – Phase II

Proposal: This investment proposal seeks approval for \$25.0M to expand the Brown Ash Pond. The overall BAP project was approved by the Investment Committee on May 15, 2006 and included sanction approval for \$73.1M. Phase I is in progress and will be completed end of 2010. The investment is currently being recovered through ECR. Phase II includes the following activities: 1) Raising the Auxiliary Pond embankments from their current elevation of 880 feet to an elevation of 900 feet which provides 20-years of bottom ash storage; 2) Raising the Main Pond embankment from the current elevation of 902 feet to an elevation of 912 feet which provides 3-years of fly ash and gypsum storage; and 3) Operation and maintenance of the gypsum dewatering facility. Phase II is eligible for ECR recovery and will be presented to the KPSC in June 2009. No CCN is required.

Total LTP includes \$26.4M for this project compared to projected costs of \$25.0M. Final detailed engineering has been completed

and all applicable permits have been issued for the overall project. The project amount includes a 6% escalation rate (7.3% for fuel, 5.4% for labor and 5.5% for remaining cost) and a 10% contingency.

Discussion:

- The proposal was presented by Jeff Heun, Project Engineering.
- To meet the plant's CCP storage needs, construction of the Starter Dike, Aux Pond 900', and Main Pond 912' must run continuously. If delayed the Main Pond and Aux Pond would reach capacity in approximately one year after the FGD is placed into service.
- We haven't received a definite answer from Corporate Center regarding approval requirements. According to the Planning & Controlling Manual we might need an approval before going to the Commission.
- The IC requested an update on all CCP projects on a quarterly basis.

Resolution: Approved – consistent with bids. ECR Projects should provide periodic updates on a quarterly basis.

III. Project: TC BAP Dike Extension/GSP Liner Project

Proposal: This proposal seeks approval for \$25.0M net (\$33.4M gross) for the construction for the BAP Dike Extension and GSP liner. The expanded BAP will provide approximately 4 years of bottom ash and fly ash storage while the GSP will provide approximately 4 years of gypsum storage based on historical and projected CCP production rates. The BAP and GSP scope will provide an interim and incremental short term storage location for Trimble County CCP materials until the engineering, permitting, and construction of the first phases of long term storage in Ravines A and/or B can be developed.

The MTP includes \$17.6M for this project; however, the projected project cost is \$25.0M. The unfavorable variance in 2009 and 2010 will be partially offset by the budgeted TC Ravine project. Seven bids were received; however, no final decision has been made. Therefore, Project Engineering has included a 12% contingency, as well as a 6% escalation rate. This project is eligible for ECR recovery and will be presented to the KPSC in June 2009.

Discussion:

- The proposal was presented by Bob Waterman, Project Engineering.
- All necessary permits have been received.
- If the BAP and GSP Expansion project is cancelled or delayed beyond the optimal construction window, the existing BAP would reach capacity prior to Commercial Operation date for TC Unit #2, scheduled for June, 2010.
- This is the cheapest short-term solution and it is cheaper than the ravine project. Even in the case that the ravines could go in service earlier this is the preferred option. Furthermore, this could be used for long-term backup storage in the future.
- Depreciation rate is the same as the last unit placed in service. Financial Planning confirmed with Property Accounting.

Resolution: Approved – consistent with bids. ECR Projects should provide periodic updates on a quarterly basis.

Upon resolution Jeff Heun, Bob Waterman, Joe Watson, and Jon Miller left the meeting. Brian Isaac entered the meeting. Jeff Joyce dialed in.

IV. Project: Ghent Trans Ash Contract

Proposal: This contract proposal seeks approval for \$10.2M for beneficial reuse of 1.5 million tons of gypsum as structural fill. The scope of this project is to contract with Trans Ash to excavate gypsum from the gypsum stacking area at Ghent, load, haul and place at the beneficial reuse site a total of 1.5 million tons of gypsum. Without taking gypsum off-site, the remaining gypsum stacking capacity will fall below the desired level in mid 2012, well before the planned in-service date of the new landfill at Ghent. The proposed contract is for three years with two annual extensions. This project is eligible for ECR recovery.

The current beneficial reuse opportunity is \$1.4M (in PVRR) lower than the next least cost alternative and provides a hedge against lack of adequate on-site storage due to potential permitting or construction delays associated with the new landfill at Ghent.

Discussion:

- The proposal was presented by Brian Isaac, Senior Electrical Engineer. Reference was made to a provided handout.
- Financial Planning followed up with Property Accounting and confirmed this would not be capitalized.

- There are no dollars to cover this within the MTP; however, recovered through ECR.
- Could excavate from ATB#1 to meet liability if needed.

Resolution: Approved.

Upon resolution Brian Isaac left the meeting. Dan Kremer and Mike Hensley connected via telephone.

V. Project: Cane Run Soda Ash Contract

Proposal: This contract proposal seeks approval for \$7.4M to contract with Solvay Chemical to provide soda ash to the Cane Run Station storage. Soda ash is currently being utilized at Cane Run to treat high sulfur bituminous coal for SO₂ emissions. It is used in the sulfur dioxide removal system for CR6 to reduce emissions as per federal EPA regulations. The new contract will be January 1, 2010 through December 31, 2012. Funding for this award recommendation is for the new three year contract (\$6.0M) and additional funding needed for 2009 of \$1.4M. A 10% contingency is included to cover any incremental generation above the MTP assumptions.

Discussion:

- The project update was presented by Dan Kremer, Manager of Commercial Operation. Reference was made to a provided handout.
- Due to an increase in plant generation and changes made to the scrubbing process, the number of tons purchased and dollar amount authorized under the contract will be met May, 2009, prior to the expiration of the contract at the end of 2009.
- No ECR recovery or FAC.
- Solvay was the low bidder.

Resolution: Approved.

Upon resolution Dan Kremer disconnected. Doug Schetzel entered the meeting.

VI. Project: Wind Power Purchase Agreement

Proposal: This contract proposal seeks approval to contract with Invenegy Grand Ridge Power and Horizon Power for available energy from wind farms for a term of 20 years. The contract with Invenegy is for \$504.1M and the contract with Horizon is \$535.6M. The two wind PPAs together are expected to provide approximately 560 GWh annually or approximately 1.5% of the Utilities' retail sales.

The Invenegy PPA is for the output of the 99 MW Grand Ridge wind farm located in LaSalle County, Illinois. The Utilities are required to take and pay for all energy produced by the wind farm. The Utilities will use firm point to point transmission service from PJM to deliver the energy to the Utilities' transmission system. The Utilities hold all transmission risk. The energy price in the first contract year (2010) is \$76/MWh and it will escalate by 2.25% per year. In addition, PJM transmission service will cost \$20/kW-Yr or approximately \$7.15/MWh at the anticipated capacity factor. The PPA contains two conditions precedent for the Utilities: acceptable regulatory approvals and the execution of the PJM transmission agreement.

The Horizon Rail Splitter is for the output of the 100.5MW Rail Splitter wind farm located just north of Lincoln, Illinois. The Utilities are required to take and pay for all energy produced by the wind farm. The energy price from the Rail Splitter wind farm is \$91/MWh fixed for the term. In addition, the required transmission service will be provided by MISO for \$30/kW-Yr or approximately \$10.73/MWh at the anticipated capacity factor. The PPA contains only one condition precedent for acceptable regulatory approvals. The Rail Splitter PPA has not yet been fully negotiated, so additional differences could develop.

Transmission service is renewable annually with one year with rollover rights. If the PPA is terminated the transmission service would not be renewed.

These PPA's will allow the Utilities to begin building a renewable energy portfolio to comply with a future RPS. E.ON Board and EUSIC Board approval will be obtained prior to execution, transmission service will be obtained and PSC approval for cost recovery will be obtained before the PPA's are effective. If the Utilities do not obtain regulatory approval to recover all costs of the PPA's from the rate payers in a timely manner, the PPA's can be terminated without further liability to the Utilities. This is not covered in the 2009-2011 MTP.

Discussion:

- The update was presented by Doug Schetzel, Director of Energy Services.
- Because of term and amount of contracts need to go through E.ON approval of contract process. This has to be done before presenting to KPSC. EUSIC Board approval is required as well.
- The Utilities hold all transmission risk and are required to pay Seller for all energy that would have been produced, but for a transmission constraint.
- There may be additional investments required (e.g. Transmission network upgrades). PJM and MISO studies are underway to determine if upgrades will be required. These studies should be complete in the 4th Q of 2009.
- Early termination is possible but cost of cover damages would result.
- Take and pay contract. We will not enter into an agreement without full recover over term of contract.
- Contract will only be concluded if KPSC approved for recovery over the whole contract term is granted.

Resolution: Approved – discuss strategy with Vic Staffieri. Use one or both as pilot program.

Update: The wind power contracts for Invenergy and Horizon Rail Splitter will not proceed further. The contract with Invenergy is no longer active and the Rail Splitter contract was never active. (3/25/10 per e-mail from Rusty Hudson)

Upon resolution Dave Cosby, Doug Schetzel, Rusty Hudson, Fred Jackson and Lonnie left the meeting. Mark Schmitt, Lisa Hennekes, Butch Cockerill, Don Thorn, Joan Renfro and Douglas Wagoner entered the meeting.

VII. Project: Meter Reading/Field Services Contract

Proposal: This contract proposal seeks approval to provide monthly meter reading and field/credit services to customers throughout the

LG&E and KU service territory. Existing contracts with TruCheck and Accuread expire May 31, 2009. This contract seeks approval for the following: Meter reading contract for LG&E to Accuread for \$9.5M, Meter reading contract for KU to TruCheck for \$12.2M, Field and Credit Services contract for both companies to TruCheck for \$11.2M, with a total of \$32.9M in total contract. Each contract proposed is for three years with the option for two additional one year extensions. This agreement can be terminated. The variance from the MTP is due to the loss of the Columbia Gas contract which increased the costs of the meter reading contracts for KU.

Discussion:

- The project update was presented by Butch Cockerill, Director of Revenue Collection. Reference was made to a provided handout.
- In 2009, the \$186K will be covered through operational savings from ED. 2010 and 2011 overrun will need to be covered by ED in the 2010-2012 MTP process.
- No penalties for early termination.

Resolution: Approved.

The meeting was then adjourned.

Minutes of the Investment Committee
February 15, 2008

The Investment Committee “(the Committee)” met on February 15, 2008 at 2:00 P.M. Committee Members present were: Brad Rives, Chris Hermann, John McCall and Mike Spurlock (as Wendy’s DOA). Other attendees included: Lonnie Bellar, Tom Crutcher, Roger Hickman, Christian Hulsman, Fred Jackson, Chip Keeling, John Malloy, Caryl Pfeifer, Ed Staton, John Voyles, and Sharon Wright. The meeting opened with solicitation by Brad Rives for approval of the minutes from January (January 14, 2008). One minor change was noted.

I. RAC Update

There are numerous cancelled/under runs on projects totaling \$36.2M. However, the RAC also has a list of unbudgeted or over runs on various projects. The RAC decided to fund all of the P1s and several P2s that are needed immediately. This will leave \$13.7M to allocate for future needs. The Committee accepted the RAC proposal; however, RAC should be aware that may need to find \$22M to cover additional cost for the scrubber.

Pam Orlando, Dave Cosby, Jon Miller, Phil Rabe, and Tomas Menezes entered the meeting. Ed Staton, Roger Hickman and Chip Keeling left the meeting.

II. Project: Trimble County SCR Catalyst

Proposal: This proposal seeks approval for \$2.8M gross (\$2.1M net) to purchase and install of one complete layer of plate type catalyst for the TC1 SCR. As part of a comprehensive plan to comply with the EPA NO_x SIP Call, E.ON US installed Selective Catalytic Reduction (SCR) equipment on six generating units throughout the system, including Trimble County Unit 1 (TC1). In 2009 EPA CAIR annual NO_x regulations take effect and the six SCRs will operate year-round. The projected performance of the TC1 SCR Catalyst will degrade below the level required for E.ON U.S. to meet the corporate plan for compliance with CAIR NO_x regulatory requirements by late 2011, supporting the need to add catalyst to TC1 SCR during November 2011 outage. This project is ECR recoverable. The E.ON US Regulated Generation Catalyst Management program has identified the need for spare material in the fleet due to the risk of catalyst damage or rapid deactivation. If this were to occur, the lead times are a major risk.

Discussion:

- The proposal was presented by Pam Orlando, Lead Engineer; reference was made to a provided handout.
- Follow-up – Potential MTP savings if some can be pushed out. [Jon sent MTP numbers on 2/25/08. Will not know what can be delayed until after the spring outage.]
- The MTP includes \$1.9M for this project. The resulting gap in the future years will be covered within Regulated Generation.

Resolution: Approved.

III. Project: Ghent #3 SCR Catalyst Addition

Proposal: This Investment Proposal seeks approval for \$2.9M to purchase and install one complete layer of plate type catalyst for the GH3 SCR. As part of a comprehensive plan to comply with the EPA NO_x SIP Call, E.ON US installed Selective Catalytic Reduction (SCR) equipment on six generating units throughout the system, including Ghent Unit 3 (GH3). The GH3 SCR is designed to hold three catalyst layers. Two layers were filled with catalyst initially, with the expectation of adding a third layer after the initial warranty period of 24,000 operating hours. This project is ECR recoverable. A total of \$3.0M is included in the 2008 MTP.

Discussion:

- The proposal was presented by Pam Orlando, Lead Engineer; reference was made to a provided handout.
- E.ON would have to purchase additional NOX allowance if SCR Catalyst not purchased.

Resolution: Approved

Immediately following the approval, Pam Orlando left the meeting.

IV. Project: Trimble County CTs GE Contract

Proposal: This contract seeks approval for \$4.6M. Trimble County Station has six GE frame single fuel gas turbines installed. The units are designated as TC5 through TC10. TC5 and TC6 were commissioned in 2002 and the remaining four units were commissioned in 2004. GE has a detailed recommended maintenance schedule for the major turbine components. The need to perform Combustion Inspections (CI) on a machine is determined by the number of factored starts for machines operated as peaking units. Major inspection intervals for the Trimble County units are recommended every 450 factored starts. TC 5 is the only unit which has had a major inspection to date.

Discussion:

- The contract was presented by Dave Cosby, Manager Commercial Operations. Reference was made to a provided handout.
- The MTP includes \$4.0M for this project and \$750K for T&M work.
- Follow-up on how Property Accounting is depreciating CTs. [Result: TC CTs are being depreciated over a 30 year life. ES proposed a 19 year life (email sent on 2/25/08). This has been filed with PSC, but still awaiting their approval.]

Resolution: Approved.

Immediately following the resolution, Dave Cosby, Phil Rabe, Tomas Menezes, and Tom Crutcher left the meeting. Jeff Fraley joined the meeting via telephone.

V. Project: Brown 2 Reheater

Proposal: This proposal seeks approval for \$6.5M to replace the reheater inlet and outlet headers and pendant assemblies. Leak failures are considered imminent, within the next 1 to 3 years, and can be expected to have increased frequency within this period considering recent inspection data. Inspection results have also indicated creep damage on the outlet header. The majority of the front pendants have been in service since original unit startup in 1962, with partial replacements in 1989 and 2001. The rear pendants were totally replaced in 1990. The headers are original installation.

Discussion:

- The proposal was presented by Jeff Fraley, General Manager – Brown & Tyrone; reference was made to a provided handout.
- MTP includes \$3.8M for this project. The project is more expensive than originally planned due to roof tubing and additional stainless steel. RAC decided to use available funds for this project.
- Follow-up – Jon Miller will send other CEM for \$1.8M spending. [Result: Jon sent CEM via email on 2/25/08. Added an options summary tab within the CEM that shows capital and NPV of the different options.]

Resolution: Approved.

Immediately following the discussion Jon Miller and John Voyles left the meeting. Jeff Fraley disconnected. Barry Walker and Lisa Hennekes entered the meeting.

VI. Doe Run Drill Shale Gas Recovery Wells

Proposal: This Investment Proposal seeks approval for cash outlay of \$9.7M to expand the shale gas recovery system in Doe Run storage field to increase the recovery of gas that has leaked from the Doe Run storage formation to the New Albany black shale formation. O&M savings are expected in the form of a reduction in gas write-offs from the Doe Run Gas Storage Field. This O&M savings is directly offset in gas supply clause (GSC) revenues, as the gas losses are recoverable through the GSC. However, failure by LG&E to take appropriate action to mitigate the increased gas losses could jeopardize the continued recovery of storage field gas losses. The primary risk associated with this project is the potential failure to yield the projected reductions in annual lost gas write-offs for Doe Run storage field.

Discussion:

- The proposal was presented by Barry Walker, Director of Gas Storage and Compliance; reference was made to provided handouts.
- A total of \$7,718K is included in Energy Delivery's 2008-2010 MTP. An additional \$2,199K will be required in 2011 to complete the project.

- Follow-up – Was this included in the Long-Term Plan?
[Result – Per Lisa’s email on 2/19/08 the amount for 2011 was not included in the LTP, but will be included on the next Plan.]

Resolution: Approved.

The meeting was then adjourned.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 207

Responding Witness: Shannon L. Charnas

- Q-207. Please provide all accounting entries (debits and credits) relating to SFAS No. 143 and FIN 47, along with all workpapers supporting those entries. Please provide all these workpapers and calculations in electronic format (Excel) with all formulae intact.
- A-207. See attached for test year journal entries. See the response to PSC 1-54(b) for implementation journal entries. The ARO calculations are an automated function in the Fixed Asset system, therefore, there are no workpapers and calculations which can be provided.

The attachment is being provided in a separate file in Excel format.

KENTUCKY UTILITIES COMPANY**CASE NO. 2012-00221****Response to Attorney General's Initial Requests for Information
Dated July 31, 2012****Question No. 208****Responding Witness: Shannon L. Charnas**

Q-208. Provide an analysis of the regulatory liability for accrued asset removal costs since inception identifying and explaining each debit and credit entry and amount. Also, provide the copies of the pages from each of KU's SEC Form 10Ks, Form 10Qs and Annual Reports in which SFAS No. 143 has ever mentioned from 2008-2012, whether or not KU had quantified an amount of the regulatory liability at the time. Specify the exact date each of these reports was issued and released to the public.

A-208. See the following table for an analysis of the regulatory liability for accrued asset removal cost since inception.

Regulatory Liability Balance 12/31/03	\$ (256,744,263)
Depreciation	(18,825,793)
Net Cost of Removal Charges	<u>8,765,059</u>
Regulatory Liability Balance 12/31/04	<u>(266,804,997)</u>
Depreciation	(19,794,852)
Net Cost of Removal Charges	4,101,461
Reclass of COR to Regulatory Liability from Life Reserves	<u>1,569,312</u>
Regulatory Liability Balance 12/31/05	<u>(280,929,076)</u>
Depreciation	(19,785,945)
Net Cost of Removal Charges	<u>3,401,885</u>
Regulatory Liability Balance 12/31/06	<u>(297,313,136)</u>
Depreciation	(20,646,337)
Net Cost of Removal Charges	<u>8,032,396</u>
Regulatory Liability Balance 12/31/07	<u>(309,927,077)</u>
Depreciation	(23,611,534)
Net Cost of Removal Charges	<u>4,797,840</u>
Regulatory Liability Balance 12/31/08	<u>(328,740,771)</u>
Depreciation	<u>(18,546,622)</u>

Net Cost of Removal Charges	16,722,231
Regulatory Liability Balance 12/31/09	<u>(330,565,162)</u>
Depreciation	(20,346,519)
Net Cost of Removal Charges	<u>6,891,123</u>
Regulatory Liability Balance 12/31/10	<u>(344,020,558)</u>
Depreciation	(30,936,032)
Net Cost of Removal Charges	<u>13,435,229</u>
Regulatory Liability Balance 12/31/11	<u>(361,521,361)</u>
Depreciation	(7,755,525)
Net Cost of Removal Charges	<u>2,170,162</u>
Regulatory Liability Balance 03/31/12	<u><u>\$ (367,106,724)</u></u>

See attached for copies of pages referencing SFAS No. 143 from KU's SEC Form 10Ks, Form 10Qs and Annual Reports. The following table specifies the date these reports were released:

<u>Document</u>	<u>Released Date</u>
2008 KU Annual Report	03/24/09

Kentucky Utilities Company

Financial Statements and Additional Information

As of and For the Years Ended December 31, 2008 and 2007

ARO. A summary of KU's net ARO assets, regulatory assets, ARO liabilities, regulatory liabilities and cost of removal established under FIN 47, *Accounting for Conditional Asset Retirement Obligations*, an *Interpretation of SFAS No. 143*, and SFAS No. 143, *Accounting for Asset Retirement Obligations*, follows:

	ARO Net <u>Assets</u>	ARO <u>Liabilities</u>	Regulatory <u>Assets</u>	Regulatory <u>Liabilities</u>	Accumulated <u>Cost of Removal</u>	Cost of Removal <u>Depreciation</u>
As of December 31, 2006	\$ 5	\$ (28)	\$ 22	\$ (2)	\$ 2	\$ 1
ARO accretion	-	(2)	2	-	-	-
As of December 31, 2007	5	(30)	24	(2)	2	1
ARO accretion	-	(2)	2	-	-	-
Removal cost reclass	-	-	2	(2)	-	-
As of December 31, 2008	<u>\$ 5</u>	<u>\$ (32)</u>	<u>\$ 28</u>	<u>\$ (4)</u>	<u>\$ 2</u>	<u>\$ 1</u>

Pursuant to regulatory treatment prescribed under SFAS No. 71, an offsetting regulatory credit was recorded in depreciation and amortization in the income statement of \$2 million in 2008 and 2007 for the ARO accretion and depreciation expense. KU AROs are primarily related to the final retirement of assets associated with generating units. For assets associated with AROs, the removal cost accrued through depreciation under regulatory accounting is established as a regulatory liability pursuant to regulatory treatment prescribed under SFAS No. 71. There were no FIN 47 net asset additions during 2008 or 2007. For the years ended December 31, 2008 and 2007, KU recorded less than \$1 million of depreciation expense related to the cost of removal of ARO related assets. An offsetting regulatory liability was established pursuant to regulatory treatment prescribed under SFAS No. 71.

KU transmission and distribution lines largely operate under perpetual property easement agreements which do not generally require restoration upon removal of the property. Therefore, under SFAS No. 143, no material asset retirement obligations are recorded for transmission and distribution assets.

MISO. Following receipt of applicable FERC, Kentucky Commission and other regulatory orders, KU withdrew from the MISO effective September 1, 2006. Specific proceedings regarding the costs and benefits of the MISO and exit matters had been underway since July 2003. Since the exit from the MISO, KU has been operating under a FERC-approved open access-transmission tariff. KU now contracts with the Tennessee Valley Authority to act as its transmission Reliability Coordinator and Southwest Power Pool, Inc. to function as its Independent Transmission Organization, pursuant to FERC requirements.

KU and the MISO have agreed upon overall calculation methods for the contractual exit fee to be paid by the Company following its withdrawal. In October 2006, the Company paid \$20 million to the MISO pursuant to an invoice regarding the exit fee and made related FERC compliance filings. The Company's payment of this exit fee amount was with reservation of its rights to contest the amount, or components thereof, following a continuing review of its calculation and supporting documentation. KU and the MISO resolved their dispute regarding the calculation of the exit fee and, in November 2007, filed an application with the FERC for approval of a recalculation agreement. In March 2008, the FERC approved the parties' recalculation of the exit fee, and the approved agreement provided KU with an immediate recovery of \$1 million and an estimated \$3 million over the next seven years for credits realized from other payments the MISO will receive, plus interest. In accordance with Kentucky Commission Orders approving the MISO exit, KU has established a regulatory asset for the exit fee, subject to adjustment for possible future MISO credits, and a regulatory liability for certain revenues associated with former MISO administrative charges, which continue to be collected via base rates. The approved base rate case settlement provided for MISO Schedule 10 expenses collected through base

recognize the over-funded or under-funded status of a defined benefit pension and postretirement plan as an asset or liability in the balance sheet and to recognize through other comprehensive income the changes in the funded status in the year in which the changes occur. Under SFAS No. 71, KU can defer recoverable costs that would otherwise be charged to expense or equity by non-regulated entities. Current rate recovery in Kentucky and Virginia is based on SFAS No. 87, *Employers' Accounting for Pensions*, and SFAS No. 106, *Employers' Accounting for Postretirement Benefits Other than Pensions*, both of which were amended by SFAS No. 158. Regulators have been clear and consistent with their historical treatment of such rate recovery, therefore, the Company has recorded a regulatory asset representing the change in funded status of the pension and postretirement plans that is expected to be recovered. The regulatory asset will be adjusted annually as prior service cost and actuarial gains and losses are recognized in net periodic benefit cost.

Accumulated Cost of Removal of Utility Plant. As of December 31, 2008 and 2007, KU has segregated the cost of removal, previously embedded in accumulated depreciation, of \$329 million and \$310 million, respectively, in accordance with FERC Order No. 631. This cost of removal component is for assets that do not have a legal ARO under SFAS No. 143. For reporting purposes in the balance sheets, KU has presented this cost of removal as a regulatory liability pursuant to SFAS No. 71.

Deferred Income Taxes – Net. These regulatory assets and liabilities represent the future revenue impact from the reversal of deferred income taxes required for unamortized investment tax credits, the allowance for funds used during construction and deferred taxes provided at rates in excess of currently enacted rates.

DSM. KU's rates contain a DSM provision. The provision includes a rate mechanism that provides for concurrent recovery of DSM costs and provides an incentive for implementing DSM programs. The provision allows KU to recover revenues from lost sales associated with the DSM programs based on program plan engineering estimates and post-implementation evaluations.

In July 2007, KU and LG&E filed an application with the Kentucky Commission requesting an order approving enhanced versions of the existing DSM programs along with the addition of several new cost effective programs. The total annual budget for these programs is approximately \$26 million, an increase over the previous annual costs of approximately \$10 million. In March 2008, the Kentucky Commission issued an Order approving the application, with minor modifications. KU and LG&E filed revised tariffs in April 2008, under authority of this Order, which were effective in May 2008.

Other Regulatory Matters

Storm Restoration. In January 2009, a significant winter ice storm passed through KU's service territory causing approximately 199,000 customer outages, followed closely by a severe wind storm in February 2009, causing approximately 44,000 customer outages. KU currently estimates costs incurred of \$66 million of expenses and \$28 million of capital expenditures related to the restoration following the two storms. The Company expects to seek recovery of these costs from the Kentucky Commission.

Utility Competition in Virginia. The Commonwealth of Virginia passed the Virginia Electric Utility Restructuring Act in 1999. This act gave customers the ability to choose their electric supplier and capped electric rates through December 2010. KU subsequently received a legislative exemption from the customer choice requirements of this law. In April 2007, however, the Virginia General Assembly amended the Virginia Electric Utility Restructuring Act, thereby terminating this competitive market and commencing re-regulation of utility rates. The new act ended the cap on rates at the end of 2008. Pursuant to this legislation, the Virginia Commission adopted regulations revising the rules governing

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 209

Responding Witness: Shannon L. Charnas

- Q-209. Provide KU's projection of the annual year-end balance in the regulatory liability for cost of removal obligations for KU for the next 20 years. If not available for the next twenty years provide for as many years into the future that the projection is available. If this projection has not been made, please explain why not. Provide in electronic format (Excel) with all formulae intact.
- a. For this projection assume that all of KU's current depreciation rates are continued in use.
 - b. Explain all other assumptions used to make this projection.
- A-209. a. See attached. The projections presented were made in July 2011 and use KU's existing depreciation rates.
- b. Costs for the physical work associated with the removal of assets are projected for a five year planning period. These costs assume normal on-going business activities including inflationary adjustments.

The attachment is being provided in a separate file in Excel format.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 210

Responding Witness: Shannon L. Charnas

- Q-210. For all accounts for which KU has collected non-legal AROs, but instead recorded a regulatory liability (regulatory liability for cost of removal), please provide the fair value of the related asset retirement cost as of December 31, 2008; December 31, 2009; December 31, 2010, and December 31, 2011. For the purposes of this question, assume that KU has legal AROs for these accounts, and use the life and dispersion assumptions reflected in the current depreciation rates.
- A-210. KU is not required under any accounting or regulatory standard to perform these hypothetical calculations. Therefore, these hypothetical calculations require original work and have not been prepared.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 211

Responding Witness: John J. Spanos

- Q-211. Provide the calculation of the annual amount of future gross salvage, cost of removal and net salvage incorporated into KU's existing depreciation rates. If any of the amounts are reduced by the total amount of non-legal AROs included in year-end accumulated depreciation, show that calculation.
- A-211. The attached spreadsheet sets forth the calculation of the future annual gross salvage and cost of removal incorporated in KU's current depreciation rates by account. None of the amounts are reduced by the amount of non-legal ARO.

The attachment is being provided in a separate file in Excel format.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 212

Responding Witness: Shannon L. Charnas

Q-212. Are the amounts of cost of removal and gross salvage incorporated into the existing and proposed depreciation rates the same as they would have been in the absence of SFAS No. 143 and FIN 47? Please explain.

A-212. The amounts of cost of removal and gross salvage incorporated into the existing and proposed depreciation rates are the same as they would have been in the absence of SFAS No. 143 and FIN 47.

All of the cost of removal and gross salvage recorded on the books and developed into the depreciation rates are costs associated with normal business in the utility industry.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 213

Responding Witness: Shannon L. Charnas

- Q-213. Please identify and describe the level of detail, e.g. by account, functional category, at which the Company computes the depreciation expense for purposes of financial reporting, Commission reporting, and ratemaking. Explain fully any differences among these three depreciation calculations.
- A-213. There are no differences in computing depreciation expense for financial reporting, Commission reporting, and ratemaking. Depreciation expense is calculated at the plant account level for transmission, distribution, and general plant. Depreciation expense for generation plant is calculated by plant account for each generation unit location.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 214

Responding Witness: Shannon L. Charnas

- Q-214. State whether the Company has forecast any non-legal removal costs that it does not regard as regulatory liabilities. Please describe these costs in detail, state fully the reason(s) for your belief that such forecast costs are not regulatory liabilities, and identify the forecast amounts of such removal costs in as much detail as is available. Provide the supporting documentation for each forecast amount.
- A-214. The Company has not forecast any non-legal removal costs that it does not regard as regulatory liabilities.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 215

Responding Witness: Lonnie E. Bellar

Q-215. Reference the Avera testimony in general. State the total costs which the witness is charging KU for his services in this proceeding.

A-215. See the response to PSC 1-55 and the update to the same filed on July 31, 2012.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 216

Responding Witness: Daniel K. Arbough / Counsel

- Q-216. Please provide copies of all presentations made to rating agencies and/or investment firms by PPL and/or Kentucky Utilities between January 1, 2010 and the present.
- A-216. Objections are made to the request for production of documents on the grounds that it seeks the production of documents that are irrelevant to the issues in this case and relate to non-utility activities or hypothetical scenarios based upon projections. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. These non-utility activities and projected information are not relevant to the analysis of known and measurable pro forma adjustments to the historic test period in this case. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 19, 1990 Orders in Case No. 90-158 that comparable projected information is not discoverable in historical test year rate cases. Without waiver of this objection see the attached documents provided to the credit rating agencies and investment firms since September 2010. The presentations made by KU to the rating agencies prior to September 2010 were produced to the Attorney General and filed with the Commission in the course of discovery in Case No. 2009-00548; presentations made by PPL to the rating agencies and investment firms prior to September 2010 were produced to the Attorney General and filed with the Commission in Case No. 2010-00204.

RESEARCH

Research Update:

Rating On Kentucky Utilities' Restructured Debt Is Lowered To 'BBB+'; CCR Affirmed

Publication date: 27-Feb-2007
Primary Credit Analyst: Todd A Shipman, CFA, New York (1) 212-438-7676;
todd_shipman@standardandpoors.com

Rationale

On Feb. 27, 2007, Standard & Poor's Ratings Services affirmed its 'BBB+' corporate credit ratings on E.ON U.S. LLC and subsidiary Kentucky Utilities Co. (KU) and, at the same time, lowered its ratings on several KU debt issues to 'BBB+' from 'A'.

The lower ratings on KU's debt reflects the transformation of those formerly secured securities to unsecured obligations of the company. The fundamental credit profile is unaffected by the financial restructuring.

In a series of transactions, KU has restructured its secured debt and eliminated the lien on the remaining outstanding bonds. The issues are now senior unsecured debt, and the ratings are now equivalent to KU's corporate credit rating.

Rating Action: Kentucky Utilities Co.

Moody's downgrades four Kentucky Utilities issues due to release of security

Approximately \$33 million of debt securities affected

New York, May 08, 2007 -- Moody's Investors Service downgraded four tax-exempt debt issues of Kentucky Utilities Company (KU: A2 Issuer Rating) to A2 from A1. The four issues are: Carroll County Pollution Control Revenue Bonds, \$20,930,000 2002 Series A due 2032 and \$2,400,000 2002 Series B due 2032; Muhlenberg County Pollution Control Revenue Bonds, \$2,400,000 2002 Series A due 2032 and Mercer County Pollution Control Revenue Bonds, \$7,400,000 2002 Series A due 2032. KU is the obligor under each of these issues. KU's A2 Issuer Rating remains unchanged. The rating outlook is stable.

The downgrade of these securities was triggered by the termination of KU's mortgage indenture dated 1947 and its associated supplemental indentures. Specifically, all four issues have "fall-away" collateral provisions that are triggered upon termination of the mortgage indenture. In light of the termination of the mortgage indenture these four issues are now senior unsecured obligations of KU and their ratings have been adjusted accordingly.

Separately, Moody's downgraded the underlying rating for several KU Pollution Control Revenues Bonds to A2 from A1. The repayment obligations for these Pollution Control Revenue Bonds remain guaranteed by third-party financial guarantors and the bonds continue to be rated Aaa.

Kentucky Utilities is a wholly-owned subsidiary of E.ON U.S. LLC. It is headquartered in Louisville, Kentucky.

All information contained herein is obtained by MOODY'S from sources believed by it to be accurate and reliable. Because of the possibility of human or mechanical error as well as other factors, however, such information is provided "as is" without warranty of any kind and MOODY'S, in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness, completeness, merchantability or fitness for any particular purpose of any such information. Under no circumstances shall MOODY'S have any liability to any person or entity for (a) any loss or damage in whole or in part caused by, resulting from, or relating to, any error (negligent or otherwise) or other circumstance or contingency within or outside the control of MOODY'S or any of its directors, officers, employees or agents in connection with the procurement, collection, compilation, analysis, interpretation, communication, publication or delivery of any such information, or (b) any direct, indirect, special, consequential, compensatory or incidental damages whatsoever (including without limitation, lost profits), even if MOODY'S is advised in advance of the possibility of such damages, resulting from the use of or inability to use, any such information. The credit ratings and financial reporting analysis observations, if any, constituting part of the information contained herein are, and must be construed solely as, statements of opinion and not statements of fact or recommendations to purchase, sell or hold any securities. NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY MOODY'S IN ANY FORM OR MANNER WHATSOEVER. Each rating or other opinion must be weighed solely as one factor in any investment decision made by or on behalf of any user of the information contained herein, and each such user must accordingly make its own study and evaluation of each security and of each issuer and guarantor of, and each provider of credit support for, each security that it may consider purchasing, holding or selling.

MOODY'S hereby discloses that most issuers of debt securities (including corporate and municipal bonds, debentures, notes and commercial paper) and preferred stock rated by MOODY'S have, prior to assignment of any rating, agreed to pay to MOODY'S for appraisal and rating services rendered by it fees ranging from \$1,500 to approximately \$2,400,000. Moody's Corporation (MCO) and its wholly-owned credit rating agency subsidiary, Moody's Investors Service (MIS), also maintain policies and procedures to address the independence of MIS's ratings and rating processes. Information regarding certain affiliations that may exist between directors of MCO and rated entities, and between entities who hold ratings from MIS and have also publicly reported to the SEC an ownership interest in MCO of more than 5%, is posted annually on Moody's website at www.moody.com under the heading "Shareholder Relations - Corporate Governance - Director and Shareholder Affiliation Policy."

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 220

Responding Witness: Daniel K. Arbough

- Q-220. Please provide the breakdown in the expected return on pension plan assets for Kentucky Utilities. Specifically, please provide the expected return on different assets classes (bonds, US stocks, international stocks, etc.) used in determining the expected return on plan assets. Please provide all associated source documents and work papers.
- A-220. KU generally sets the expected long-term rate of return assumption in consultation with its independent actuary and pension consultant. Attached are the return assumptions received from the actuary and pension consultant, along with the calculation of the expected returns for the KU pension plan assets. Additional considerations, including the portfolio's diversification benefit and additional returns expected from active portfolio management offset by non-investment expenses, are then factored in to arrive at the final expected return assumption of 7.25%.

KU Pension Plan Expected Return Calculation

<u>Category</u>	Target Allocation	Actuary Expected Return	Target Allocation	Consultant Expected Returns
Large Cap Domestic Equity	8.4%	9.41%	8.4%	8.20%

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 226

Responding Witness: Daniel K. Arbough

Q-226. Please provide copies of the source documents, work papers, and underlying data used in the development of Reference Schedule 1.14 of Blake Exhibit 1. Please provide the data and work papers in both hard copy and electronic formats (Microsoft Excel), with all data and formulas intact. Please also include electronic copies (Microsoft Excel) of the Exhibit, leaving all data and formulas intact.

A-226. See the response to PSC 1-52(c) and KIUC 1-1 for support.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 227

Responding Witness: Daniel K. Arbough

Q-227. Please provide copies of the source documents, work papers, and underlying data used in the development of Reference Schedule 1.19 of Blake Exhibit 1. Please provide the data and work papers in both hard copy and electronic formats (Microsoft Excel), with all data and formulas intact. Please also include electronic copies (Microsoft Excel) of the Exhibit, leaving all data and formulas intact.

A-227. See the response to KIUC 1-1.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 228

Responding Witness: William E. Avera

Q-228. Please provide a copy of Dr. Avera's testimony in Microsoft Word.

A-228. The Commission's electronic filing procedures do not permit the electronic filing of Word documents. Therefore, the requested Word document will be provided to the Attorney General under separate cover.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 229

Responding Witness: William E. Avera

Q-229. Please provide copies of all source documents, articles, cited documents listed in footnotes, regulatory decisions, work papers, and other sources used in the development and preparation of the testimony of Dr. Avera.

A-229. Please refer to the response to KIUC 1-11.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 230

Responding Witness: William E. Avera

Q-230. Please provide Microsoft Excel copies of all source documents, work papers, and data used to develop the tables and figures in the testimony of Dr. Avera. For the Microsoft Excel copies of the data, please keep all formulas intact.

A-230. Please refer to the response to KIUC 1-11.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 231

Responding Witness: William E. Avera

- Q-231. With reference to pages 6-7, please provide a breakdown by assets, revenues, and net income for the subsidiaries of PPL Corporation for year-end 2010 and 2011.
- A-231. Dr. Avera did not perform such an analysis in the course of preparing his testimony; nor was it necessary to support his conclusions and recommendations. To the extent it is publicly available, this information may be obtained from PPL Corporation's Form 10-K Report, which can be obtained at <http://www.sec.gov/edgar/searchedgar/companysearch.html>.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 232

Responding Witness: William E. Avera

- Q-232. With reference to pages 9-13, please provide copies of all empirical studies performed that compare the business, financial, and investment risk of the jurisdictional electric utility operations of Kentucky Electric to: (1) PPL Corporation; and (2) electric utility companies.
- A-232. Dr. Avera has not conducted any empirical studies to compare the business, financial, and investment risk of the jurisdictional electric operations of KU to PPL Corporation or other electric utility companies. As indicated in his testimony, he relied on objective risk indicators, such as published credit ratings, which are relied on by investors.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 233

Responding Witness: William E. Avera

- Q-233. With reference to page 21, lines 1-14, please: (1) indicate the universe of companies with electric and gas operations as indicated by Value Line Investment Survey, (2) the companies eliminated from the group from each of the four screens; and (3) the reasons each of the companies were eliminated.
- A-233. Please refer to the Excel workbook provided in response to KIUC 1-11, which contains the requested information.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 234

Responding Witness: William E. Avera

- Q-234. With reference to page 24, lines 6-11, please: (1) list the screens applied to the Value Line database in establishing the Non-Utility Proxy Group; (2) indicate the justification for each of the screens applied to the companies in the Value Line Investment Survey in establishing the Non-Utility Proxy Group; (3) the companies eliminated from the group from each of the five screens; and (4) the reasons that each of the companies were eliminated.
- A-234. 1) As indicated at page 24, lines 8-11 of Dr. Avera's testimony, the screens used to identify the firms in the Non-Utility Group were (1) pay common dividends; (2) have a Safety Rank of "1"; (3) have a Financial Strength Rating of "B++" or greater; (4) have a beta of 0.65 or less; and, (5) have investment grade credit ratings from S&P.
- 2) With respect to criteria (1), Dr. Avera required that the non-utility firms pay common dividends because the dividend yield is a key component required to apply the constant growth DCF model to estimate the cost of equity. Meanwhile criteria (2) through (5) were applied to ensure that the resulting group of non-utility firms would represent a conservative, low risk group of companies with investment risks that are comparable to or lower than those of the firms in the Combination Utility Group. Please also refer to the discussion at pages 24-25 of Dr. Avera's testimony.
- 3) Value Line includes coverage for approximately 1,700 firms. Dr. Avera applied his screening criteria interactively using Value Line's proprietary stock screening software, and does not have any information concerning the firms that did not meet his screening criteria.
- 4) Please refer to the response to subpart (3), above.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 235

Responding Witness: William E. Avera

- Q-235. With reference to page 38, line 11 to page 41, line 8, please: (1) provide copies of FERC orders that specify its 'extreme outliers' as it relates to low DCF estimates; and (2) indicate the page numbers where the test of extreme outliers as it relates to low DCF estimates is defined.
- A-235. Please refer to the specific orders cases cited in footnotes 40 and 41 of Dr. Avera's testimony, which are publicly available at <http://www.ferc.gov/docs-filing/elibrary.asp>.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 236

Responding Witness: William E. Avera

- Q-236. With reference to page 40, lines 17-18, please; (1) provide copies of FERC orders that defines "extreme outliers" as it pertains to high DCF estimates; and (2) indicate the page numbers where "extreme outliers" as it pertains to high DCF estimates is defined.
- A-236. Please refer to the citation provided in footnote 43 to Dr. Avera's testimony, which established the FERC's test of high-end outliers. This document is publicly available at <http://www.ferc.gov/docs-filing/elibrary.asp>.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 237

Responding Witness: William E. Avera

- Q-237. With reference to page 58, for each of the flotation cost estimates (5%-10%, 3.6%, 12-47 basis points), please provide the breakdown of the flotation costs into underwriting spread, company issuance costs, market pressure, and other expenses. Please show all calculations, and provide the associate source documents and work papers.
- A-237. The source documents supporting the flotation cost percentages cited in Dr. Avera's testimony are included in his workpapers, provided in response to KIUC 1-11. The 3.6% cost percentage represents gross underwriting spread only, and does not include other issuance costs, such as legal, printing, and other company issuance costs. Nor does it include any allowance for market pressure. While the 5% to 10% range represents a total flotation cost percentage based on a review of the financial literature, no breakdown between the various components of flotation cost was provided.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 238

Responding Witness: William E. Avera

- Q-238. With reference to page 72, lines 9-11, please indicate which of the numbers in Table WEA-8 were used and which of the numbers in Table WEA-8 were not used in arriving at the 10.1%-11.5% recommended range as an equity cost rate for the Company.
- A-238. Dr. Avera considered the results of all the analyses presented in his testimony. As explained in his testimony, he arrived at his recommended ROE range by considering the relative strengths and weaknesses inherent in each method, and conservatively giving less emphasis to the upper- and lower-most boundaries of the range of results. As indicated on page 73 of his testimony, Dr. Avera also considered the results of his DCF analysis for the Non-Utility Group in his evaluation of the DCF results for the Combination Utility Group.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 239

Responding Witness: William E. Avera

Q-239. Please provide copies of the source documents, work papers, and underlying data used in the development of Exhibit WEA-2 through WEA-10. Please provide the data and work papers in both hard copy and electronic formats (Microsoft Excel), with all data and formulas intact. Please also include electronic copies (Microsoft Excel) of the Exhibit, leaving all data and formulas intact.

A-239. Please refer to the response to KIUC 1-11.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 240

Responding Witness: Kent W. Blake

Q-240. Please provide a copy of Mr. Blake's testimony in Microsoft Word.

A-240. The Commission's electronic filing procedures do not permit the electronic filing of Word documents. Therefore, the requested Word document will be provided to the Attorney General under separate cover.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 241

Responding Witness: Kent W. Blake

Q-241. With reference to Exhibit 2, please provide: (1) copies of all data, source documents, work papers, and other sources used in the development of the Company's proposed capital structure in Exhibit 2; copies of all data, source documents, work papers, and other sources used in the adjustments made to the balance sheet amounts of debt and equity in the development of the Company's proposed capital structure in Exhibit 2; and (3) the data and work papers in (1) – (2), in both hard copy and electronic (Microsoft Excel) formats, with all data and formulas intact.

A-241. See the response to KIUC 1-1.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 242

Responding Witness: Daniel K. Arbough

Q-242. With reference to Exhibit 2, please: (1) provide the Company's monthly amounts of short-term debt outstanding for the thirteen months March 31, 2012; (2) indicate the cost of short-term debt on a monthly basis; and (3) show all calculations involved in the calculation of the short-term debt cost rate; (4) provide copies of all loan documents and lending agreements associated with either inter-company and/or financial institution short-term debt; and (5) provide the data and work papers in (1) – (4), in both hard copy and electronic (Microsoft Excel) formats, with all data and formulas intact.

- A-242. 1) Refer to attached for support of the Company's monthly amounts of short-term debt outstanding for the thirteen months ended March 31, 2012.
- 2) Refer to attached for support of the Company's cost of short-term debt on a monthly basis for the thirteen months ended March 31, 2012.
- 3) Refer to the attached electronic file for calculations involved in the calculation of the Company's short-term debt cost rate for the thirteen months ended March 31, 2012.
- 4) Refer to attachments 001 and 002 to this sub-part (4) for copies of the inter-company loan agreements and to attachment 003 to this subpart (4), for a schedule of where the loan documents and lending agreements associated with the short-term debt at KU can be found on the SEC website.
- 5) Work papers in (1) – (4) are provided in both hard copy and electronic formats, with all data and formulas intact.

The attachment is being provided in a separate file in Excel format.

2011 UTILITY MONEY POOL AGREEMENT

This Amended Utility Money Pool Agreement (the "Agreement"), dated as of December __, 2011, is made and entered into by and among LG&E and KU Energy LLC ("LKE") (f/k/a E.ON U.S. LLC), a Kentucky limited liability company, a Kentucky limited liability company and a holding company under the Federal Power Act ("FPA") and the Public Utility Holding Company Act of 2005 ("PUHCA 2005"), each as amended, LG&E and KU Services Company ("LG&E and KU Services") (f/k/a E.ON U.S. Services Inc.), a Kentucky corporation and a non-utility subsidiary of LKE and a service company under PUHCA 2005, (in its role as administrator of the money pool), Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU") (each a "Party" and collectively, the "Parties"). LKE shall participate in the money pool as a lender only ("Lender").

WITNESSETH:

WHEREAS, pursuant to an Amended Utility Money Pool Agreement dated December 17, 2007, (the "Prior Agreement") the Parties previously established a Money Pool (the "Utility Money Pool") to coordinate and provide for certain of their short-term cash and working capital requirements; and

WHEREAS, the parties desire to terminate the Prior Agreement and enter into this Agreement to govern the Utility Money Pool; and

WHEREAS, the utility subsidiaries that will participate in the Utility Money Pool (each a "Utility Subsidiary" and collectively, the "Utility Subsidiaries") will from time to time have need to borrow funds on a short-term basis, and certain of the Parties will from time to time have funds available to loan on a short-term basis;

NOW, THEREFORE, in consideration of the premises and the mutual agreements, covenants and provisions contained herein, the Parties hereto agree as follows:

ARTICLE I
CONTRIBUTIONS AND BORROWINGS

Section 1.01 Contributions to Utility Money Pool.

Each Party will determine each day, on the basis of cash flow projections and other relevant factors, in such Party's sole discretion, the amount of funds it has available for contribution to the Utility Money Pool, and will contribute such funds to the Utility Money Pool. The determination of whether a Party at any time has surplus funds to lend to the Utility Money Pool or shall lend funds to the Utility Money Pool will be made by or under the direction of such Party's chief financial officer or treasurer, or by their authorized designee, on the basis of cash flow projections and other relevant factors, in such Party's sole discretion. Each Party may withdraw any of its funds at any time upon notice to LG&E and KU Services as administrative agent of the Utility Money Pool.

Section 1.02 Rights to Borrow.

Subject to the provisions of Section 1.04(c) of this Agreement, short-term borrowing needs of the Utility Subsidiaries may be met by funds in the Utility Money Pool to the extent such funds are available. Each Utility Subsidiary shall have the right to make short-term borrowings from the Utility Money Pool from time to time, subject to the availability of funds and the limitations and conditions set forth herein, in the FPA and PUHCA 2005 and in the applicable orders of the Federal Energy Regulatory Commission ("FERC") thereunder. Each Utility Subsidiary may request loans from the Utility Money Pool from time to time during the period from the date hereof until this Agreement is terminated by written agreement of the Parties; provided, however, that the aggregate amount of all loans requested by any Utility Subsidiary hereunder shall not exceed the applicable borrowing limits set forth in applicable orders of the FERC and other regulatory authorities, resolutions of such Utility Subsidiary's Board of Directors, such Utility Subsidiary's governing corporate documents, and agreements binding upon such Utility Subsidiary. No loans through the Utility Money Pool will be made to, and no borrowings through the Utility Money Pool will be made by, LKE or LG&E and KU Services.

Section 1.03 Source of Funds.

Funds will be available through the Utility Money Pool from the following sources for use by the Parties from time to time: (1) surplus funds in the treasuries of the Utility Subsidiaries, (2) surplus funds in the treasuries of LKE, (3) intercompany short-term loans, and (4) proceeds from bank borrowings and/or the sale of commercial paper by each of the Parties (other than LG&E and KU Services) ("External Funds"), in each case to the extent permitted by applicable laws and regulatory orders. Funds will be made available from such sources in such other order as LG&E and KU Services, as administrator of the Utility Money Pool, may determine will result in a lower cost of borrowing to companies borrowing from the Utility Money Pool, consistent with the individual borrowing needs and financial standing of the Parties providing funds to the Utility Money Pool.

Section 1.04 Authorization.

(a) Each loan shall be authorized by or under the direction of the lending Party's chief financial officer or treasurer, or by their authorized designee.

(b) LG&E and KU Services, as administrator of the Utility Money Pool, will provide each Party with periodic activity and cash accounting reports that include, among other things, reports of cash activity, the daily balance of loans outstanding and the calculation of interest charged.

(c) All borrowings from the Utility Money Pool shall be authorized by or under the direction of the borrowing Party's chief financial officer or treasurer, or by their authorized designee. No Party shall be required to effect a borrowing through the Utility Money Pool if

such Party determines that it can (and is authorized to) effect such borrowing at lower cost directly from banks or through the sale of its own commercial paper.

Section 1.05 Interest.

The daily outstanding balance of all loans to any Utility Subsidiary during a calendar month shall accrue interest at the rates for A2/P2/F2 rated US Commercial Paper programs as quoted by Bloomberg under the ticker DCPD030D on the last business day of the prior calendar month. LG&E and KU Services will not charge interest or fees for managing the Utility Money Pool.

Section 1.06 Certain Costs.

The cost of compensating balances and fees paid to banks to maintain credit lines by Parties lending External Funds to the Utility Money Pool shall be paid by the Party maintaining such line.

Section 1.07 Repayment.

Each Utility Subsidiary receiving a loan from the Utility Money Pool hereunder shall repay the principal amount of such loan, together with all interest accrued thereon, on demand and in any event within 365 days of the date on which such loan was made. All loans made through the Utility Money Pool may be prepaid by the borrower without premium or penalty.

Section 1.08 Form of Loans to Utility Subsidiaries.

Loans to the Utility Subsidiaries from the Utility Money Pool shall be made as open-account advances, pursuant to the terms of this Agreement. A separate promissory note will not be required for each individual transaction. Instead, a promissory note evidencing the terms of the transactions shall be signed by the Parties to the transaction. Any such note shall: (a) be in substantially the form attached hereto as Exhibit A; (b) be dated as of the date of the initial borrowing; (c) be payable on demand; and (d) be repayable in whole at any time or in part from time to time, without premium or penalty.

ARTICLE II OPERATION OF UTILITY MONEY POOL

Section 2.01 Operation.

Operation of the Utility Money Pool, including record keeping and coordination of loans, will be handled by LG&E and KU Services under the authority of the appropriate officers of the Parties. LG&E and KU Services shall be responsible for the determination of all applicable interest rates and charges to be applied to advances outstanding at any time hereunder, shall maintain records of all balances, advances, interest charges and accruals, maturity dates, interest and principal payments, security, restrictions, and/or methods or Parties' duties regarding the above (all, as and if applicable) for purposes hereof, and shall prepare periodic reports thereof for

the Parties. LG&E and KU Services will not charge for managing the Utility Money Pool. Such documentation shall be maintained in accordance with the applicable documentation requirements of the FERC's Uniform System of Accounts. Separate records shall be kept by LG&E and KU Services for the Utility Money Pool established by this Agreement and any other money pool administered by LG&E and KU Services.

Section 2.02 Investment of Surplus Funds in the Utility Money Pool.

Funds not required for the Utility Money Pool loans (with the exception of funds required to satisfy the Utility Money Pool's liquidity requirements) will ordinarily be invested in one or more short-term investments, including (i) interest-bearing accounts with banks; (ii) obligations issued or guaranteed by the U.S. government and/or its agencies and instrumentalities, including obligations under repurchase agreements; (iii) obligations issued or guaranteed by any state or political subdivision thereof, provided that such obligations are rated not less than A by a nationally recognized rating agency; (iv) commercial paper rated not less than A-1 by S&P or P-1 by Moody's, or their equivalent by a nationally recognized rating agency; (v) money market funds; (vi) bank certificates of deposit; (vii) Eurodollar funds and (viii) such other investments as are permitted by Section 203 of the FPA and Rule 33 thereunder.

Section 2.03 Allocation of Interest Income and Investment Earnings.

The interest income and other investment income earned by the Utility Money Pool on loans and investment of surplus funds will be allocated among the Parties in accordance with the proportion each Party's contribution of funds in the Utility Money Pool bears to the total amount of funds in the Utility Money Pool. Interest and other investment earnings will be computed on a daily basis and settled once per month.

Section 2.04 Event of Default.

If any Utility Subsidiary shall generally not pay its debts as such debts become due, or shall admit in writing its inability to pay its debts generally, or shall make a general assignment for the benefit of creditors, or any proceeding shall be instituted by or against any Party seeking to adjudicate it bankrupt or insolvent, then LG&E and KU Services, on behalf of the Utility Money Pool, may, by notice to the Utility Subsidiary, terminate the Utility Money Pool's commitment to the Utility Subsidiary and/or declare the principal amount then outstanding of, and the accrued interest on, the loans and all other amounts payable to the Utility Money Pool by the Utility Subsidiary hereunder to be forthwith due and payable, whereupon such amounts shall be immediately due and payable without presentment, demand, protest or other formalities of any kind, all of which are hereby expressly waived by each Utility Subsidiary.

ARTICLE III
MISCELLANEOUS

Section 3.01 Amendments.

No amendment to this Agreement shall be adopted except in a writing executed by a duly authorized officer of each of the Parties hereto and subject to all applicable approvals by the FERC and the applicable state utility regulatory commission.

Section 3.02 Legal Responsibility.

Nothing herein contained shall render any Party liable for the obligations of any other Party hereunder and the rights, obligations and liabilities of the Parties are several in accordance with their respective obligations, and not joint.

Section 3.03 Rules for Implementation.

The Parties may develop a set of guidelines for implementing the provisions of this Agreement, provided that the guidelines are consistent with all of the provisions of this Agreement.

Section 3.04 Governing Law.

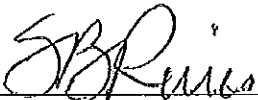

This Agreement shall be governed by and construed in accordance with, the laws of the Commonwealth of Kentucky.

Section 3.05 Termination of Prior Agreement

Upon the effectiveness of this Agreement, including applicable FERC or state utility commission approvals, the Prior Agreement shall be deemed terminated and no further effect.

IN WITNESS WHEREOF, this Agreement has been duly executed and delivered by the duly authorized officer of each Party hereto as of the date first above written.

Exhibit A
To 2011 Utility Money Pool Agreement

FORM OF NOTE

FOR VALUE RECEIVED, the undersigned, _____ (the "Borrower"), hereby promises to pay to the order of LG&E and KU Services Company, as administrator of the Utility Money Pool as defined in the 2011 Utility Money Pool Agreement (as defined below), at its principal office in Louisville, Kentucky, on demand, the principal amount outstanding from time to time under that certain 2011 Utility Money Pool Agreement dated as of _____, 2011 by and among LG&E and KU Energy LLC, LG&E and KU Services Company, as administrator, the undersigned, and each of the other utility subsidiaries whose name appears on the signature pages thereof (the "Money Pool Agreement"). The principal amount outstanding under this note shall bear interest at a rate determined in accordance with the Money Pool Agreement. The undersigned hereby authorizes the administrator to record on the grid on the reverse side hereof or attached hereto, or in a similar electronic record, the date and amount of each advance under the Money Pool Agreement and each payment made on account of the principal thereof. The principal amount outstanding, as set forth in such record, shall be rebuttable presumptive evidence of the principal amount owing and unpaid on this note. This note may be prepaid in full at any time or in part from time to time, without premium or penalty.

AMENDED UTILITY MONEY POOL AGREEMENT

This Amended Utility Money Pool Agreement (the "Agreement"), dated as of December 17, 2007, is made and entered into by and among E.ON U.S. LLC ("E.ON US"), a Kentucky limited liability company and a holding company under the Federal Power Act ("FPA") and the Public Utility Holding Company Act of 2005 ("PUHCA 2005"), each as amended, E.ON U.S. Services Inc. ("E.ON US Services"), a Kentucky corporation and a non-utility subsidiary of E.ON US and a service company under PUHCA 2005, (in its role as administrator of the money pool), Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU") (each a "Party" and collectively, the "Parties").

WITNESSETH:

WHEREAS, pursuant to an Utility Money Pool Agreement dated September 1, 2002, (the "Prior Agreement") the Parties previously established a Money Pool (the "Utility Money Pool") to coordinate and provide for certain of their short-term cash and working capital requirements; and

WHEREAS, in accordance with recent changes in law and regulations under the FPA and PUHCA 2005, the parties desire to terminate the Prior Agreement and enter into this Agreement to govern the Utility Money Pool; and

WHEREAS, the utility subsidiaries that will participate in the Utility Money Pool (each a "Utility Subsidiary" and collectively, the "Utility Subsidiaries") will from time to time have need to borrow funds on a short-term basis, and certain of the Parties will from time to time have funds available to loan on a short-term basis;

NOW, THEREFORE, in consideration of the premises and the mutual agreements, covenants and provisions contained herein, the Parties hereto agree as follows:

ARTICLE I
CONTRIBUTIONS AND BORROWINGS

Section 1.01 Contributions to Utility Money Pool.

Each Party will determine each day, on the basis of cash flow projections and other relevant factors, in such Party's sole discretion, the amount of funds it has available for contribution to the Utility Money Pool, and will contribute such funds to the Utility Money Pool. The determination of whether a Party at any time has surplus funds to lend to the Utility Money Pool or shall lend funds to the Utility Money Pool will be made by such Party's chief financial officer or treasurer, or by a designee thereof, on the basis of cash flow projections and other relevant factors, in such Party's sole discretion. Each Party may withdraw any of its funds at any time upon notice to E.ON US Services as administrative agent of the Utility Money Pool.

Section 1.02 Rights to Borrow.

Subject to the provisions of Section 1.04(c) of this Agreement, short-term borrowing needs of the Utility Subsidiaries will be met by funds in the Utility Money Pool to the extent such funds are available. Each Utility Subsidiary shall have the right to make short-term borrowings from the Utility Money Pool from time to time, subject to the availability of funds and the limitations and conditions set forth herein, in the FPA and PUHCA 2005 and in the applicable orders of the Federal Energy Regulatory Commission ("FERC") thereunder. Each Utility Subsidiary may request loans from the Utility Money Pool from time to time during the period from the date hereof until this Agreement is terminated by written agreement of the Parties; provided, however, that the aggregate amount of all loans requested by any Utility Subsidiary hereunder shall not exceed the applicable borrowing limits set forth in applicable orders of the FERC and other regulatory authorities, resolutions of such Utility Subsidiary's Board of Directors, such Utility Subsidiary's governing corporate documents, and agreements binding upon such Utility Subsidiary. No loans through the Utility Money Pool will be made to, and no borrowings through the Utility Money Pool will be made by, E.ON US or E.ON US Services.

Section 1.03 Source of Funds.

Funds will be available through the Utility Money Pool from the following sources for use by the Parties from time to time: (1) surplus funds in the treasuries of the Utility Subsidiaries, (2) surplus funds in the treasuries of E.ON US, (3) intercompany short-term loans, and (4) proceeds from bank borrowings and/or the sale of commercial paper by each of the Parties (other than E.ON US Services) ("External Funds"), in each case to the extent permitted by applicable laws and regulatory orders. Funds will be made available from such sources in such other order as E.ON US Services, as administrator of the Utility Money Pool, may determine will result in a lower cost of borrowing to companies borrowing from the Utility Money Pool, consistent with the individual borrowing needs and financial standing of the Parties providing funds to the Utility Money Pool.

Section 1.04 Authorization.

(a) Each loan shall be authorized by the lending Party's chief financial officer or treasurer, or by a designee thereof.

(b) E.ON US Services, as administrator of the Utility Money Pool, will provide each Party with periodic activity and cash accounting reports that include, among other things, reports of cash activity, the daily balance of loans outstanding and the calculation of interest charged.

(c) All borrowings from the Utility Money Pool shall be authorized by the borrowing Party's chief financial officer or treasurer, or by a designee thereof. No Party shall be required to effect a borrowing through the Utility Money Pool if such Party determines that it can (and is authorized to) effect such borrowing at lower cost directly from banks or through the sale of its own commercial paper.

Section 1.05 Interest.

The daily outstanding balance of all loans to any Utility Subsidiary during a calendar month shall accrue interest at the rates for high-grade unsecured 30-day commercial paper of major corporations sold through dealers as quoted in The Wall Street Journal (the "Average Composite") on the last business day of the prior calendar month. E.ON US Services will not charge interest or fees for managing the Utility Money Pool.

Section 1.06 Certain Costs.

The cost of compensating balances and fees paid to banks to maintain credit lines by Parties lending External Funds to the Utility Money Pool shall be paid by the Party maintaining such line.

Section 1.07 Repayment.

Each Utility Subsidiary receiving a loan from the Utility Money Pool hereunder shall repay the principal amount of such loan, together with all interest accrued thereon, on demand and in any event within 365 days of the date on which such loan was made. All loans made through the Utility Money Pool may be prepaid by the borrower without premium or penalty.

Section 1.08 Form of Loans to Utility Subsidiaries.

Loans to the Utility Subsidiaries from the Utility Money Pool shall be made as open-account advances, pursuant to the terms of this Agreement. A separate promissory note will not be required for each individual transaction. Instead, a promissory note evidencing the terms of the transactions shall be signed by the Parties to the transaction. Any such note shall: (a) be in substantially the form attached hereto as Exhibit A; (b) be dated as of the date of the initial borrowing; (c) be payable on demand; and (d) be repayable in whole at any time or in part from time to time, without premium or penalty.

ARTICLE II OPERATION OF UTILITY MONEY POOL

Section 2.01 Operation.

Operation of the Utility Money Pool, including record keeping and coordination of loans, will be handled by E.ON US Services under the authority of the appropriate officers of the Parties. E.ON US Services shall be responsible for the determination of all applicable interest rates and charges to be applied to advances outstanding at any time hereunder, shall maintain records of all balances, advances, interest charges and accruals, maturity dates, interest and principal payments, security, restrictions, and/or methods or Parties' duties regarding the above (all, as and if applicable) for purposes hereof, and shall prepare periodic reports thereof for the Parties. E.ON US Services will not charge for managing the Utility Money Pool. Such documentation shall be maintained in accordance with the applicable documentation requirements of the FERC's Uniform System of Accounts. Separate records shall be kept by

E.ON US Services for the Utility Money Pool established by this Agreement and any other money pool administered by E.ON US Services.

Section 2.02 Investment of Surplus Funds in the Utility Money Pool.

Funds not required for the Utility Money Pool loans (with the exception of funds required to satisfy the Utility Money Pool's liquidity requirements) will ordinarily be invested in one or more short-term investments, including (i) interest-bearing accounts with banks; (ii) obligations issued or guaranteed by the U.S. government and/or its agencies and instrumentalities, including obligations under repurchase agreements; (iii) obligations issued or guaranteed by any state or political subdivision thereof, provided that such obligations are rated not less than A by a nationally recognized rating agency; (iv) commercial paper rated not less than A-1 by S&P or P-1 by Moody's, or their equivalent by a nationally recognized rating agency; (v) money market funds; (vi) bank certificates of deposit; (vii) Eurodollar funds and (viii) such other investments as are permitted by Section 203 of the FPA and Rule 33 thereunder.

Section 2.03 Allocation of Interest Income and Investment Earnings.

The interest income and other investment income earned by the Utility Money Pool on loans and investment of surplus funds will be allocated among the Parties in accordance with the proportion each Party's contribution of funds in the Utility Money Pool bears to the total amount of funds in the Utility Money Pool. Interest and other investment earnings will be computed on a daily basis and settled once per month.

Section 2.04 Event of Default.

If any Utility Subsidiary shall generally not pay its debts as such debts become due, or shall admit in writing its inability to pay its debts generally, or shall make a general assignment for the benefit of creditors, or any proceeding shall be instituted by or against any Party seeking to adjudicate it bankrupt or insolvent, then E.ON US Services, on behalf of the Utility Money Pool, may, by notice to the Utility Subsidiary, terminate the Utility Money Pool's commitment to the Utility Subsidiary and/or declare the principal amount then outstanding of, and the accrued interest on, the loans and all other amounts payable to the Utility Money Pool by the Utility Subsidiary hereunder to be forthwith due and payable, whereupon such amounts shall be immediately due and payable without presentment, demand, protest or other formalities of any kind, all of which are hereby expressly waived by each Utility Subsidiary.

ARTICLE III
MISCELLANEOUS

Section 3.01 Amendments.

No amendment to this Agreement shall be adopted except in a writing executed by a duly authorized officer of each of the Parties hereto and subject to all applicable approvals by the FERC and the applicable state utility regulatory commission.

Section 3.02 Legal Responsibility.

Nothing herein contained shall render any Party liable for the obligations of any other Party hereunder and the rights, obligations and liabilities of the Parties are several in accordance with their respective obligations, and not joint.

Section 3.03 Rules for Implementation.

The Parties may develop a set of guidelines for implementing the provisions of this Agreement, provided that the guidelines are consistent with all of the provisions of this Agreement.

Section 3.04 Governing Law.

This Agreement shall be governed by and construed in accordance with, the laws of the Commonwealth of Kentucky.

Section 3.05 Termination of Prior Agreement

Upon the effectiveness of this Agreement, including applicable FERC or state utility commission approvals, the Prior Agreement shall be deemed terminated and no further effect.

IN WITNESS WHEREOF, this Agreement has been duly executed and delivered by the duly authorized officer of each Party hereto as of the date first above written.

* Note: A security rating is not a recommendation to buy, sell or hold securities, it may be revised or withdrawn at any time by the assigning rating organization and each rating presented should be evaluated independently of any other rating.

These securities have not been registered under the Securities Act of 1933, as amended (the "Securities Act"), and may only be sold to qualified institutional buyers pursuant to Rule 144A or outside the United States to non-U.S. persons in compliance with Regulation S under the Securities Act.

This communication should be read in conjunction with the Issuer's preliminary offering memorandum dated November 8, 2010 (the "Offering Memorandum"). The information in this communication supersedes the information in the Offering Memorandum to the extent it is inconsistent with the information in the Offering Memorandum. This communication is qualified in its entirety by reference to the Offering Memorandum.

ANY DISCLAIMERS OR OTHER NOTICES THAT MAY APPEAR BELOW ARE NOT APPLICABLE TO THIS COMMUNICATION AND SHOULD BE DISREGARDED. SUCH DISCLAIMERS OR OTHER NOTICES WERE AUTOMATICALLY GENERATED AS A RESULT OF THIS COMMUNICATION BEING SENT VIA BLOOMBERG OR ANOTHER EMAIL SYSTEM.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 244

Responding Witness: Daniel K. Arbough

Q-244. With reference to Exhibit 2, please: (1) provide the quarterly amounts of short-term debt, long-term debt, and shareholders' equity for the Company for the four quarters ending March 31, 2012; (2) provide the data and work papers in (1) in both hard copy and electronic (Microsoft Excel) formats, with all data and formulas intact.

A-244. See attached.

The attachment is being provided in a separate file in Excel format.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 245

Responding Witness: Robert M. Conroy

Q-245. Please provide a fully executable computerized copy of the KU class cost of service study in Microsoft Excel format. In this response provide all linked files.

A-245. See the response to PSC 2-75.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 246

Responding Witness: Robert M. Conroy

- Q-246. Please explain and provide all workpapers and spreadsheets showing the determination of the separation of Production and Transmission costs among Intermediate, and Peak implicit in the determination in KU Conroy, Direct Testimony, Page 17 and Conroy Exhibit C1. In this response, explain the relevance or relationship of the Non-Time-Differentiated Cost (34.35%), Summer Peak Period Cost (33.26%) and Winter Peak Period Costs (32.39%). Please provide this response in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel), including all workpapers, source documents, calculations etc. that support the amounts, assumptions, and calculations presented therein.
- A-246. The modified BIP methodology takes into account the cost differences inherent in providing electric service to customers at different times during the calendar year due to changes in demand for electricity. The BIP separation is used to allocate the costs associated with production and transmission facilities in place to serve customers during each of those three periods. The base or non-time differentiated period includes the portion of the costs that do not vary with time, the summer peak period includes the portion of those costs that are associated with serving the peak load during the summer peak, and the winter peak period includes the portion of those costs associated with serving the peak load during the winter peak. See the response to PSC 2-75 for the workpapers associated with this exhibit.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 247

Responding Witness: Robert M. Conroy

Q-247. Please provide all workpapers, source documents, and electronic spreadsheets showing the development of each external allocator "functional vector" utilized in Mr. Conroy's KU class cost of service study and referred to at Page 21 of his Direct Testimony. In this response, provide the source for all data and the bases for any weightings. Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

A-247. See the response to PSC 2-75.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 248

Responding Witness: Paul W. Thompson / Shannon L. Charnas

Q-248. For each KU and LG&E generating unit that was in service at the end of the test year, owned individually, jointly, or partially, please provide the following:

- (a) names of owners (and ownership percentages);
- (b) type and fuels;
- (c) total nameplate (rated) capacity (MW);
- (d) total and individual company gross investment at the end of test year;
- (e) total and individual company depreciation reserve at the end of test year;
- (f) total and individual company annual test year depreciation expense;
- (g) gross KWH produced during the test year; and,
- (h) net (less station use) KWH produced during the test year.

A-248. a. – e. See attached.

f. Depreciation expense is not tracked separately by unit. See the response to KU Question No. 273 and LG&E AG 1-316.

g. – h. See attached.

(1) Gross, Net Generation, Investment and Depreciation Reserve reported for Dix Dam, and Ohio Falls represents total plant. Generation is not reported on a per unit basis and fixed asset costs are not accumulated on a per unit basis.

(2) Investment and Depreciation Reserve reported for Haefling represents total plant. Fixed asset costs are not accumulated on a per unit basis.

(3) Investment and Depreciation Reserve is shown for active units only. This does not include structural components still in place, land, and ARO costs associated with retired units.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 249

Responding Witness: Paul W. Thompson / Shannon L. Charnas

- Q-249. For each KU and LG&E generating unit included in this rate application that was not actually in service at the end of the test year, i.e., included in CWIP, please provide the following:
- (a) names of owners (and ownership percentages);
 - (b) type and fuels;
 - (c) total nameplate (rated) capacity (MW);
 - (d) total and individual company gross investment at the end of test year;
 - (e) total expected gross investment when ultimately placed in service; and,
 - (f) design or expected rate of each fuel type.
- A-249. a. Kentucky Utilities Company (78% ownership) and Louisville Gas and Electric Company (22% ownership).
- b. Natural Gas fired combined cycle
 - c. The net rated capacity is 640 MW for the entire unit (net nominal summer rating).
 - d. The KU amount at the end of the test year is \$2,220,392. The LG&E amount at the end of the test year is \$734,831, the total amount is \$2,955,223.
 - e. The total estimated gross investment when the unit is placed in service is \$559 million (\$436 million KU and \$123 million LG&E).
 - f. The design net heat rate is 6,655 BTU/KWH (High Heating Value) with the CT's in new and clean conditions.

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 250

Responding Witness: Robert M. Conroy

- Q-250. Please provide the combined KU and LG&E generating order of dispatch by unit and basis for this order of dispatch for units in service during the test year.
- A-250. See the attached dispatch merit order. The dispatch merit order provided is based on unit assumptions at full load considering fuel and variable costs. The schedule is updated monthly. The schedule attached is for the month of March 2012. Actual dispatch merit order is determined dynamically in the Energy Management System (EMS) based on heat rate curves and operating parameters for each unit.

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 251

Responding Witness: Robert M. Conroy

- Q-251. Please provide the combined KU and LG&E generating order of dispatch by unit and basis for this order of dispatch, with the addition of all units currently included in CWIP.
- A-251. See the response to Question No. 250. KU and LG&E currently have no units included in CWIP.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 252

Responding Witness: Robert M. Conroy

Q-252. Please provide total system, total KU, total LG&E, and KU class contributions to each monthly system (KU + LG&E) coincident peak demand during the test year. Provide class contributions at generation voltage level. In this response please provide the date and hour of each provided observation.

A-252. See the response to KIUC 1-8.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 253

Responding Witness: Robert M. Conroy

Q-253. Please provide total system, total KU, total LG&E, and KU class contributions to the 24 highest system (KU + LG&E) having coincident peak demands during the test year. In this response, please provide the date and hour of each provided observation.

A-253. See attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 254

Responding Witness: Robert M. Conroy

Q-254. For each KU and LG&E generating unit, please provide all forced (unscheduled) outages (dates, time, and duration) by unit during the test year.

A-254. See the attached for KU and LG&E forced outages by unit during the test year.

Unit	Start Date & Time	End Date & Time	Duration
Brown 1	4/19/11 10:05 PM	4/20/11 2:41 AM	4.6

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 255

Responding Witness: Robert M. Conroy

Q-255. Please identify and explain any events or circumstance occurring during the test year that materially (significantly) altered the normal (typical) economic dispatch of LG&E's and KU's electric production resources (if any).

A-255 During the test year, all units were economically dispatched within their dispatch capability and availability, except for occasional re-dispatch required by the transmission operator. None of these events were material.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 256

Responding Witness: Robert M. Conroy

Q-256. For each KU and LG&E generating unit, please provide average annual fuel cost per KWH during test year.

A-256. See attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 257

Responding Witness: Robert M. Conroy

Q-257. Please specifically explain and define how KU distinguishes between primary and secondary voltage; e.g., voltage level.

A-257. The voltage levels for primary and secondary delivery are defined on Sheet No. 99, Character of Service, of the proposed P.S.C. Electric No. 9, which is provided in Volume 1, Tab 8 of the Filing Requirements.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 258

Responding Witness: Robert M. Conroy

Q-258. Please provide a copy of the most recent KU class load study (basis for estimating class peak demands) including all supporting tables, schedules, and data. Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

A-258. See the response to PSC 2-75.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 259

Responding Witness: Robert M. Conroy

- Q-259. Please provide all workpapers, analyses, calculations, etc. supporting all KU non-jurisdictional and jurisdictional class demands (loads) utilized in the jurisdictional and class cost of service studies. In this response, please explain and indicate how class demands were specifically determined or estimated. Include all definitions of demand utilized; e.g., CP, NCP and sum of individual customers. Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).
- A-259. The CP, NCP, and sum of individual customer demands were calculated using the load research data provided in response to PSC 2-75. The CP demand allocators are the class contributions to the summer and winter hourly peaks respectively, the NCP allocator is the highest hourly class maximum demand recorded during the test year, and the sum of individual customer demands is the maximum hourly demand for each individual customer in each rate class summed together.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 260

Responding Witness: Robert M. Conroy

Q-260. With regard to Conroy's Direct Testimony, please explain where revenues from Cable TV attachment charges (Page 45) meter test charges (Page 46), meter pulse charges (Page 47), customer deposits (Page 48), and other special charges (Page 49), and the respective amounts of these charges are included in KU's electric class cost of service study. In this response, please itemize and quantify each item individually.

A-260. Cable TV attachment charges, meter test charges, meter pulse charges, and other special charges are included in the Other Service Revenue and Rent from Electric Property lines on page 23 of Conroy Exhibit C4. Customer deposits are not included in the cost of service study. See the table below for itemized test year amounts by charge type.

Electric Charges	G/L Account	Balance
Cable TV Attachment	454001	\$1,067,374
Meter Test	451004	2,077
Meter Pulse	456028	12,798
Customer Deposits	235001	22,522,317
Return Payment	456007	130,862
Meter Data Processing	456028	2,167

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 261

Responding Witness: Robert M. Conroy

- Q-261. Please explain how Curtailable Service Riders CSR10 and CSR30 customers' demands and energy usage are reflected in the KU class cost of service study.
- A-261. Curtailable customers' actual energy usage was used to develop the energy allocation factors. The customers' CP demands were adjusted to reflect levels that would have occurred had the customers not been curtailed.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 262

Responding Witness: Lonnie E. Bellar

Q-262. With regard to KU's current Curtailment Service Rider CSR10, please provide the following amounts by rate schedule, separated between Primary and Transmission, for each month of the test year:

- (a) total firm contract demand;
- (b) total contract curtailment load;
- (c) total billing demand;
- (d) total demand credits;
- (e) total non-compliance charges by month; and,
- (f) listing of date, time, duration, and estimated MW curtailment.

Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

A-262. See the response to KIUC 1-49.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 263

Responding Witness: Lonnie E. Bellar

Q-263. With regard to KU's proposed Curtailable Service Riders ("CSRs") referenced at Pages 8 through 11 of Mr. Bellar's Direct Testimony, please provide all workpapers, spreadsheets, source documents, assumptions, etc. utilized to develop the CSR provisions (curtailable hours, buy-through rates, etc.) being proposed in this case. Please provide the response in hard copy as well as in Microsoft readable electronic format as applicable (preferably Microsoft Excel).

A-263. See the response to KIUC 1-47.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 264

Responding Witness: Robert M. Conroy

Q-264. With regards to the Specific Assignment of Curtailable Service Rider credits and avoided costs shown in KU Conroy Exhibit C4, Pages 23 and 24:

- (a) please explain what the <\$5,672,873> of "Curtailable Service Rider Avoided Cost" represents and provide all workpapers showing the determination of this amount;
- (b) please explain and provide all workpapers, spreadsheets, source documents, and analyses showing how the "specific assignments" were made to individual classes; and,
- (c) please explain the basis and provide all workpapers and spreadsheets showing how the Allocation of Curtailable Service Rider Credits of \$5,672,873 were made; e.g., the development of Allocation Vector "INTCRE."

Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

A-264. See the response to PSC 2-75 for the requested workpapers.

- a. The <\$5,672,873> of "Specific Assignment of Interruptible Credit" represents the volume of interruptible credits provided to CSR customers during the test year priced at the proposed CSR credit. See page 3 of Conroy Exhibit R4.
- b. The amount is assigned to the rate class under which each CSR customer is served.
- c. The "INTCRE" allocation factor represents the sum of the winter and summer fixed production plant.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

Response to Attorney General's Initial Requests for Information

Dated July 31, 2012

Question No. 265

Responding Witness: Robert M. Conroy

Q-265. With respect to Mr. Conroy's KU zero-intercept analysis (summarized in Exhibits C5 through C7), please provide:

- (a) statistical output including all diagnostic statistics;
- (b) specific definition of dependent and independent variable(s) utilized corresponding to the data provided in each Exhibit;
- (c) specific regression model (including coefficient);
- (d) definition of "size" for each account;
- (e) definition of "cost" for each account;
- (f) definition of "quantity" for each account; and,
- (g) source documents supporting Mr. Conroy's regression data.

Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

- A-265. a. See the response to PSC 2- 75.
- b. For overhead conductor, the dependent variable is the average cost per foot of conductor and the independent variable is the size of the conductor in MCM. For underground conductor, the dependent variable is the average cost per foot of conductor and the independent variable is the size of the conductor in MCM. For line transformers, the dependent variable is the average cost per transformer and the independent variable is the size of the transformer category in kVA. The analysis uses weighted regression with the feet of conductor or number of transformers as the weights.

- c. See the response to PSC 2-75.
- d. See response to b.
- e. See response to b.
- f. See response to b.
- g. See the response to PSC 2-75.

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 267

Responding Witness: Robert M. Conroy

Q-267. Please provide the following separated between primary and secondary (as available) by vintage year, size, and type for KU Account 365 (Overhead Conductors) in the greatest level of detail available:

- (a) installed footage;
- (b) gross investment;
- (c) materials investment;
- (d) capitalized labor; and,
- (e) Handy-Whitman Cost Index or equivalent.

If all data is not available for all years, please provide the level of detail that is available. Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

A-267. See the response to PSC 2-75. Gross investment includes both materials investment and capitalized labor.

Dated July 31, 2012**

Question No. 268

Responding Witness: Robert M. Conroy

Q-268. Please provide the following separated between primary and secondary (as available) by vintage year, size, and type for KU Account 367 (Underground Conductors) in the greatest level of detail available:

- (a) installed footage;
- (b) gross investment;
- (c) materials investment;
- (d) capitalized labor; and,
- (e) Handy-Whitman Cost Index or equivalent.

If all data is not available for all years, please provide the level of detail that is available. Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

A-268. See the response to PSC 2-75. Gross investment includes both materials investment and capitalized labor.

Question No. 269

Responding Witness: Robert M. Conroy

Q-269. Please provide the following separated between primary and secondary as available by vintage year, size and type for KU Account 368 (Line Transformers) in the greatest level of detail available:

- (a) installed units;
- (b) gross investment;
- (c) materials investment;
- (d) capitalized labor; and,
- (e) Handy-Whitman Cost Index or equivalent.

If all data is not available for all years, please provide the level of detail that is available. Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

A-269. See the response to PSC 2-75. Gross investment includes both materials investment and capitalized labor.

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 270

Responding Witness: Robert M. Conroy

Q-270. Please provide each of the following KU Exhibits included in Mr. Conroy's Direct Testimony in executable Excel format (include all linked files):

- (a) Exhibits: P1 through P7;
- (b) Exhibits: C1 through C4;
- (c) Exhibits: R2 through R6; and,
- (d) Exhibits: M1 through M8;

Please include in this response all the workpapers, spreadsheets, source documents, etc. that support the amounts, assumptions and calculations presented in each of these Exhibits. An example of such workpapers, source documents, etc. are current loss studies associated with Exhibit P3.

A-270. See the response to PSC 2-75.

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 274

Responding Witness: Valerie L. Scott

Q-274. Please provide all KU calculated, actual, or estimated test year uncollectible expense by customer class.

A-274. This information is not available. The Company does not maintain uncollectible expense by customer class.

See the response to PSC 1-35 for additional information.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General’s Initial Requests for Information
Dated July 31, 2012**

Question No. 275

Responding Witness: Sidney L. “Butch” Cockerill

Q-275. Please provide actual and estimated KU meter reads by customer class during the test year, and/or the most recent 12 months available.

A-275. The table below includes manually read meters for the period April 1, 2011 – March 31, 2012. Remotely read meters are not included.

<u>Rate Schedule</u>	<u>Number of Actual Meter Reads</u>	<u>Number of Estimated Meter Reads</u>
All Electric School	12,082	149
General Service	1,231,145	22,062
Low Emission Vehicle Service	11	1
Wholesale Power Sales	24	31
Power Service	144,097	2,293
Residential Service	5,092,592	39,092
Retail Transmission Service	1,856	38
Small Cap Co-Gen	13	0
Traffic Energy Service	5,496	72
Volunteer Fire Department	672	0
Net Metering	887	0
Time of Day - Primary	9,378	0
Time of Day - Secondary	12,145	0
Temporary Suspension - Industrial	108	0
Temporary Suspension - Commercial	1,820	0
Temporary Suspension - Residential	332	82

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 276

Responding Witness: Robert M. Conroy

Q-276. With regard to KU Purchased Power (Account 555) included in its electric class cost of service study, please provide:

- (a) all workpapers and analyses showing the determination of total capacity costs within the Account total; and,
- (b) all workpapers and analyses showing the determination of total energy costs within the Account total.

Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

A-276. See response to PSC 2-75 for requested workpapers.

a,b. See below for total company amounts. Demand is booked to Account 555016.

555007	CLOSED 04/11 - MISO DAY 2 PURCHASED POWER - NL	\$(29,219.60)
555010	OSS POWER PURCHASES	\$49,275.75
555015	NL POWER PURCHASES - ENERGY	\$16,399,547.76
555016	NL POWER PURCHASES - DEMAND	\$8,732,448.05
555020	OSS I/C POWER PURCHASES	\$118,126.38
555025	NL I/C POWER PURCHASES	\$78,557,872.95
555080	PURCHASE POWER NATIVE LOAD - SQF AND LQF TARIFF	\$1,218.52

The Demand and Energy allocation to Kentucky retail jurisdiction is shown on Conroy Exhibit C2, page 10 of 29, rows 41 and 42. The demand and energy allocators can be found on page 25, row 1 and page 26, row 1, respectively.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 277

Responding Witness: Robert M. Conroy

Q-277. With regard to KU Intercompany Sales of \$22,834,450 (Conroy Exhibit C4, Page 23), please provide:

- (a) a detailed explanation along with all workpapers and analyses showing the pricing methodology (basis) and amount (units and dollars) for sales to affiliates; and,
- (b) if not provided in (a) above, please provide the detailed determination of test year Intercompany sales (units and dollars) by month and by affiliate.

Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

- A-277. a. The only sales to affiliates that KU makes are intercompany sales to Louisville Gas and Electric. LG&E and KU follow the long-standing practice of pricing intercompany sales at the fuel cost of the selling utility plus one-half of the fuel savings of the buying utility. The generation assigned to intercompany sales is determined by the Companies' After the Fact Billing program, which 'stacks' all sources by hour in order of cost, and matches the sources so that highest cost sources are assigned to off-system sales.
- b. See attached, which ties to page 2 of KU's monthly Form Bs filed with the Commission.

Intercompany Sales to Louisville Gas and Electric					
	kWh	Demand (\$)	Fuel (\$)	Other Charges (\$)	Total Charges (\$)
April-11	32,742,000	\$ -	\$ 910,858	\$ 38,311	\$ 949,170
May-11	94,609,000	-	2,679,120	90,315	2,769,435
June-11	96,698,000	-	2,878,735	91,643	2,970,378
July-11	85,090,000	-	2,509,918	85,554	2,595,473
August-11	46,790,000	-	1,464,300	40,106	1,504,406
September-11	90,092,000	-	2,323,327	121,332	2,444,659
October-11	160,377,000	-	4,018,619	217,105	4,235,724

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General’s Initial Requests for Information
Dated July 31, 2012**

Question No. 279

Responding Witness: Robert M. Conroy

Q-279. Please provide a table or matrix comparing each rate class in this filing with the rate classes shown in KU’s last cost of service study in Docket No. 2009-00548. In this response please explain any consolidations and migrations.

A-279. See the table below.

2012 Rate Class	2009 Rate Class
Residential - RS	Residential - RS
General Service – GS	General Service – GS
All Electric School -- AES	All Electric School -- AES
Power Service Secondary – PSS	Power Service Secondary – PSS
Power Service Primary – PSP	Power Service Primary – PSP
Time of Day Secondary – TODS	Time of Day Secondary – TODS
Time of Day Primary – TODP	Time of Day Primary – TODP
Retail Transmission Service – RTS	Retail Transmission Service – RTS
Fluctuating Load Service -- FLS	Fluctuating Load Service - FLS
Lighting Service – LS & RLS	Lighting Service – St.Lt., PO. Lt., DSK, LE, TLE
Lighting Energy – LE	
Traffic Energy – TE	

The rate schedules in this filing map to the rate classes from the cost of service study provided in the referenced case, with the sole exception being that Rate VFD is included with Rate RS in both cost of service studies. The cost of service filed in Case No. 2009-00548 consolidated all outdoor lighting categories, whereas the cost of service file in this proceeding separates Rates LE and TE from other outdoor lighting.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 280

Responding Witness: Sidney L. "Butch" Cockerill

- Q-280. Please provide the current (or end of test year) number of customers by rate schedule for each zip code within KU's service area. Please provide in Microsoft Excel or Access if possible, otherwise provide in ASCII electronic format.
- A-280. See attached Excel file. KU does not have a business reason to maintain ongoing files with information segregated according to the requested parameters. The attached information represents KU's effort to extract the data within the time allowed to respond to this request for information. Customers billed under multiple rate schedules are reflected in each category for which they have service. The totals represent the number of services provided in each zip code rather than the number of unique customers.

The attachment is being provided in a separate file in Excel format.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General’s Initial Requests for Information
Dated July 31, 2012**

Question No. 281

Responding Witness: Robert M. Conroy

Q-281. With regard to the amounts presented in Conroy Exhibit C2, Page 1, column “Kentucky State Jurisdiction”, and the amounts presented in Conroy Exhibit C4 (electric class cost of service study), please reconcile the following:

	<u>Exhibit C2 (Page 1)</u>	<u>Exhibit C4</u>
Net Original Cost Rate Base	\$3,550,375,899	\$3,500,935,146 (Page 5)
Accretion Expense	\$2,542,421	(\$2,665,352) (Page 13)
Rate of Return	5.71%	6.02% (Page 29)

A-281. Net Original Cost Rate Base as determined on Exhibit C2, page 1 does not remove the balance of Asset Retirement Obligations, and Net Original Cost Rate Base as determined on Exhibit C4, page 5 does. See Conroy Exhibit C3, Functional Assignment, page 9 for the ARO balance removed from Net Cost Rate Base.

The amount labeled “Accretion Expense” on Conroy Exhibit C4, page 13, is actually the total of Accretion Expense and Regulatory Credits. See Conroy Exhibit C3, page 45, Regulatory Credits and Accretion total of (\$2,665,352). See Conroy Exhibit C2, page 1 for Regulatory Credits total of (\$5,207,773) and Accretion total of \$2,542,421, which net to (\$2,665,352).

The Rate of Return on Conroy Exhibit C2 (5.71%) is calculated by dividing net operating income of \$202,748,924 by Net Original Cost Rate Base of \$3,550,375,899 to result in 5.71%. The rate of return on Conroy Exhibit C4, page 29 is calculated by dividing Net Operating Income (*Adjusted*) of \$199,192,491 by *Adjusted* Net Cost Rate Base of \$3,310,845,270 to result in 6.02%. To determine a Rate of Return calculation from Conroy Exhibit C4 that is comparable to the rate of return on Conroy Exhibit C2, page 1, unadjusted net operating income and net cost rate base must be used. These amounts are found on Conroy Exhibit C4, page 23: Net operating income of \$202,748,924 divided by Net cost rate base of \$3,500,935,146 results in an unadjusted rate of return of 5.79%.

Dated July 31, 2012**

Question No. 282

Responding Witness: Robert M. Conroy

Q-282. Please provide the individual "Net Cost Rate Base" line item amounts shown in Conroy Exhibit C4, Page 5 (electric class cost of service study) that determine the Distribution, Demand-Related amount of \$181,337,903 and the Distribution, Customer – Related amount of \$299,593,473 shown in Conroy Exhibit R2 Page 1 (Unit Cost of Service Based on the Cost of Service Study). Include in this response, any specific calculations and analyses of any of the Conroy Exhibit C4 Page 5 amounts that sum to each of the Conroy Exhibit R2 Page 1 amounts referenced in this request. Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

A-282. See the response to PSC 2-75.

Residential Demand-Related Distribution-Components from Conroy Exhibit C4,
page 5

Distribution Substation	\$39,686,223
Distribution Lines, Primary Demand	\$64,276,380
Distribution Lines, Secondary Demand	\$17,175,277
Distribution Transformers, Demand	<u>\$60,200,023</u>
Total Distribution Demand	\$181,337,903

Residential Customer-Related Distribution-Components from Conroy Exhibit C4,
page 5

Distribution Lines, Primary Customer	\$161,519,721
Distribution Lines, Secondary Customer	\$28,528,612
Distribution Transformers, Customer	\$59,876,809
Distribution Services, Customer	\$23,963,754
Distribution Meters, Customer	<u>\$25,704,577</u>
Total Distribution Customer	\$299,593,473

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 283

Responding Witness: Robert M. Conroy

- Q-283. With respect to Figure 2, Page 23 of Conroy's Direct Testimony, please provide the "Costs by Account" (FERC accounts) and respective amounts that are incorporated in KU's electric class cost of service study (Conroy Exhibit C4). Include in this response matrices or tables that show the individual FERC accounts and corresponding amounts included in each of the line item amounts in the electric class cost of service study (Conroy Exhibit C4) categories: rate base (Pages 1-6); operation and maintenance expenses (Pages 7 and 8); labor expenses (Pages 9 and 10); depreciation expenses (Pages 11 and 12); accretion expenses (Pages 13 and 14); property taxes (Pages 15 and 16); other taxes (Pages 17 and 18) and revenues (Pages 23). Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).
- A-283. See the response to PSC 2-75. The requested details are found in Conroy Exhibit C-3—Electric Cost of Service Study – Functional Assignment. FERC account designations are included with item descriptions in column 1, and total amounts used in Conroy Exhibit 4 are found in the column labeled "Total System."

Rate base: Conroy Exhibit C3, pages 1-12
Operation and maintenance expenses: Conroy Exhibit C3, pages 13-28
Depreciation expenses: Conroy Exhibit C3, pages 45-52
Regulatory credits: Conroy Exhibit C2, pages 45-52
Accretion expenses: Conroy Exhibit C2, pages 45-52
Property and other taxes: Conroy Exhibit C2, pages 45-52

Revenues by category are booked to the following FERC accounts:

Sales to ultimate consumers – 440, 442, 444, 445
Intercompany sales – 447
Off-system sales – 447
Settled swap revenue and expense – 447
Forfeited discounts – 450
Miscellaneous service revenues – 456
Rent from electric property -- 454
Other electric revenue –
Unbilled revenues – 440-445

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 284

Responding Witness: Robert M. Conroy

Q-284. With regard to KU operating revenue line items listed under "Total System" in Conroy Exhibit C4, Page 23, please provide the workpapers and analyses, including units, dollars, etc., that show how each of the amounts was determined, as well as detailed explanations as necessary regarding these determinations.

A-284. See the response to PSC 2-75. The Total System revenues are Kentucky retail jurisdictional as allocated on Conroy Exhibit C2, page 9. See the response to PSC 2-75 for the electronic versions of these exhibits. Sales of Electricity on Conroy Exhibit C2 are assigned to each of KU's regulatory jurisdictions to reflect actual revenues collected. Sales for resale are allocated to jurisdictions on the basis of energy. Late payment charges, reconnect charges, other service charges, rent from electric property, return check charges, excess facilities charges and other miscellaneous revenues are all directly assigned to each jurisdiction on the basis of actual revenues collected. Transmission service revenue is allocated to jurisdictions based on demand. Tax remittance compensation and forfeited refundable advances are assigned to Kentucky retail jurisdiction.

The totals of these categories assigned to Kentucky State Jurisdiction are used on page 23 of Conroy Exhibit C4 to allocate revenues to Kentucky rate classes.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 285

Responding Witness: Robert M. Conroy

Q-285. Please provide all workpapers, analyses, spreadsheets, source documents, etc. that show how each of the electric class cost of service study allocation factors was determined that are identified in Conroy's Direct Testimony at Pages 18 through 21. Please provide in hard copy as well as in Microsoft readable electronic format (preferably Microsoft Excel).

A-285. See the response to PSC 2-75.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 286

Responding Witness: Chris Hermann

Q-286. Please provide the following actual or estimated number of circuit miles as follows:

- (a) separated between primary and secondary voltage;
- (b) separated between 3-phase and single (dual) phase; and,
- (c) separated by size of conductor.

- A-286.
- a. KU has approximately 15,205 primary circuit miles and 3,594 of secondary circuit miles not including services. Lengths of services are not readily available.
 - b. KU has approximately 5,086 three phase circuit miles and 13,713 single (dual) phase circuit miles not including services. Lengths of services are not available.
 - c. Circuit miles by size of conductor are not readily available.
