KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 1

Responding Witness: Lonnie E. Bellar

- Q-1. When the companies issued a press release about the proposed rate increases for residential customers which are the subject of the instant filing, the figures provided were associated not with the average customer in terms of usage, but on an arbitrary figure, that of 1,000 kWh. Please describe why this figure was used as opposed to the usage for the average customer, on a consumption basis
- A-1. Actual average monthly usage for residential customers will vary from month to month depending upon the time period of the year. The use of 1,000 kWh per month to reflect the impact on a residential customer's bill provides a general representation that is easily scalable to an individual residential customer's actual usage.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 2

Responding Witness: Robert M. Conroy

- Q-2. Reference the Staffieri testimony at pp. 7– 8. Are the amounts set forth therein for the proposed increases the same amounts provided by the company in its notice sent to its customers, especially the amount of the increase on the average residential bill?
- A-2. Yes, although the notice sent to customers does not include the effect of the change in the Curtailable Service Rider or the change in miscellaneous revenue, and the total increase referenced in Mr. Staffieri's testimony does. The residential increase published in the newspapers and included in customers' bills states a monthly bill increase of \$7.41, as Mr. Staffieri states on page 8 of his testimony.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 3

Responding Witness: Lonnie E. Bellar

Q-3. Reference the Staffieri testimony at pp. 10-12. Please provide a breakdown since 1994 of the amount contributed per year for each program that supports benevolent endeavors across the Commonwealth.

A-3. The LG&E and KU Foundation is funded by shareholder contributions and represents LG&E and KU Energy LLC and its subsidiaries as the philanthropic arm for charitable giving. Committed to social responsibility, the LG&E and KU Foundation proactively supports many philanthropic initiatives with the intent to improve the quality of life in communities where the Companies provide service by supporting Education, Diversity, Environmental, and Health and Human Services initiatives.

Attached is Form 990-PF that includes information for contributions made by the LG&E and KU Foundation for the period of 2004 through 2011 (the years that are readily available).

LG&E Energy Foundation, Inc. 61-1257368

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 4

Responding Witness: Kent W. Blake

Q-4. For each year beginning 1994, provide the amount of profit that the companies netted.

A-4. See attached.

Net Income by Year (\$ Millions)

1994 - 2011

KU

Net Income	78	77	86	86	73	107	96	96	93	91	133	112	152	167	157	133	175	177

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 5

Responding Witness: Sidney L. "Butch" Cockerill

- Q-5. Reference the Staffieri testimony at p. 12. Provide the sums KU received in late payment fees broken down by month and year for the five years prior to the offering of the FLEX option.
- a. Please provide the number of customer accounts which have been assessed a late payment penalty for the past three (3) years, listed by month. If customer accounts have been assessed a late payment penalty more than once, please provide the total number of these accounts.
 - b. Provide this same information broken down by account status, as in 30 days past due, 60 days past due, etc.
- A-5. The FLEX option was first offered in January 2010. KU began assessing late payment charges (LPC) in April 2009, therefore, only 9 months of data can be provided.

Month	LPC Paid
April	\$82,888.71
May	\$510,637.36
June	\$558,726.97
July	\$692,346.85
August	\$707,134.54
September	\$695,472.08
October	\$685,087.02
November	\$600,601.39
December	\$606,233.37

- a. KU does not have a business reason to maintain ongoing files with the requested information segregated according to requested parameters. The count below will include a customer's account more than once, if the customer's account has been assessed a late payment charge more than once.

AG KU 5a

Number of Customers Assessed LPC

	2009	2010	2011	2012
Jan		109,680	88,553	73,377
Feb		111,446	86,090	75,157
Mar		111,868	82,238	81,270
Apr	38,813	114,857	80,654	76,105
May	117,699	102,856	78,172	74,424
Jun	102,978	105,982	86,676	82,469
Jul	121,162	120,814	82,488	75,452
Aug	114,400	99,984	89,695	
Sep	104,649	117,026	88,904	
Oct	121,689	106,949	78,499	
Nov	115,884	105,105	75,019	
Dec	118,247	109,359	91,620	

- b. Late payment charges are assessed on the current month's charges only. Arrears are not subject to additional late payment charges. KU does not have a business reason to maintain ongoing files with the requested information segregated according to requested parameters. The requested data does not exist.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 6

Responding Witness: Sidney L. "Butch" Cockerill

- Q-6. Provide the dollar amounts KU has assessed in late payment penalties for the three (3) years, broken down by zip code.
- A-6. See the attachment for the dollar amounts KU has assessed in late payment penalties for the three (3) years, broken down by zip code. KU does not have a business reason to maintain ongoing files with the requested information segregated according to requested parameters. The attached information represents KU's effort to extract the data according to the requested parameters within the time allowed to respond to this request for information.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 7

Responding Witness: Sidney L. "Butch" Cockerill

- Q-7. Please provide the amount in dollars that KU has collected in late payment penalties for the past three (3) years, broken down by month.
- a. Provide this same information broken down by account status, as in 30 days past due, 60 days past due, etc.
 - b. Provide the dollar amount KU has collected in late payment penalties for the past three (3) years, broken down by zip code.

A-7.

Late Payment Charges (LPC) Collected in Dollars

	2009	2010	2011	2012
Jan		617,046.04	624,623.26	437,406.13
Feb		764,006.88	679,977.52	534,711.73
Mar		849,747.16	558,540.41	462,149.46
Apr	40,296.79	682,536.50	392,708.03	405,658.78
May	368,317.54	382,205.56	362,174.08	315,509.79
Jun	391,431.86	365,853.34	291,162.36	307,860.98
Jul	472,025.14	530,993.39	373,892.33	367,742.47
Aug	511,257.79	596,743.20	502,049.07	
Sep	509,599.74	707,614.65	516,058.47	
Oct	486,471.67	587,429.24	421,484.79	
Nov	385,757.89	402,054.07	300,475.96	
Dec	440,163.38	421,243.57	347,859.05	

- a. Late payment charges are assessed on the current month's charges only. Arrears are not subject to additional late payment charges. KU does not have a business reason to maintain ongoing files with the requested information segregated according to requested parameters. The data does not exist prior to

November 2009. See the attachment for residential arrears (including LPC) at a point in time for all.

- b. See the attachment for the dollar amount KU has collected in late payment penalties for the past three (3) years, broken down by zip code.

a.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General’s Initial Requests for Information
Dated July 31, 2012**

Question No. 8

Responding Witness: Cheryl E. Bruner

Q-8. Reference the Staffieri testimony at page 6. Please describe in detail the number of current service center employee positions referenced on that page versus the number of service center employee positions broken down by each year from 1999 to date. Include in your discussion the job title of each position, and whether it is: (i) full or part time; and (ii) permanent or temporary.

A-8. KU does not have a business reason to maintain ongoing files with the requested information segregated according to requested parameters. The below information represents KU’s effort to extract the data according to the requested parameters within the time allowed to respond to this request for information.

The table shows the average staffing levels for the Residential Service Center (RSC) and Business Service Center (BSC). It represents only customer service representatives.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 9

Responding Witness: Cheryl E. Bruner

- Q-9. Provide a status update regarding changes in policies and procedures which KU implemented following the PSC's management audit on the company's customer service and billing.
- a. Please provide a list of all policies, procedures, protocol(s) and guidelines which KU changed as a result of the audit, regardless of whether any such changes are included in tariffs filed with the PSC.
 - b. Please provide copies of any and all tariffs the company changed as a result of the management audit. Alternatively, you may provide a list referencing these tariffs if they are already provided in the application.
- A-9.
- a. See the attached March 14, 2012 Progress Report pertaining to the Focused Management Audit ordered by the PSC.
 - b. There have been no tariffs changed as a result of the management audit.

RE: *Comprehensive Management and Operations Audit of the Customer Service Functions of Louisville Gas and Electric Company and Kentucky Utilities Company – First Progress Report*

Dear Mr. Rogness:

Louisville Gas and Electric Company and Kentucky Utilities Company (collectively “the Companies”) are pleased to provide the first Management Audit Action Plan Progress Reports regarding the Comprehensive Management and Operations Audit of the Customer Service functions at the Companies.

The Companies have accepted all recommendations and are requesting that ten recommendations (II-R1, II-R6, II-R9, IV-R1, IV-R2, IV-R4, IV-R5, IV-R7, IV-R8, and IV-R9) be considered complete. The remaining recommendations are considered ongoing by the Companies and will be completed according to the implementation plan of each recommendation.

Should you have any questions regarding the enclosed, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink that reads "Rick E. Lovekamp".

Rick E. Lovekamp

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: II-R1

Recommendation Statement: Fully staff Residential and Business Customer Service Centers to meet and sustain service level goals

Implementation Priority: High

LG&E/KU Person Responsible: Cheryl Bruner

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Complete construction of new call center in Morganfield, Kentucky.	01/2011	Completed 10/2011
2.	Recruit and hire Residential Service Center employees for Morganfield, Ky facility.	01/2011	Completed 02/2012
3.	Add employee agents in Residential Service Center and Business Service Center locations.	01/2011	Completed 02/2012

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Complete construction of new call center in Morganfield, Kentucky.*

Employees moved into the new Morganfield call center on October 31, 2011. The News Transmission article below was published to all employees on November 22, 2011.

NEWS TRANSMISSION

New Morganfield facility opens its doors to customers

Yesterday marked the first day the new Morganfield Business Office officially opened to customers. More than 40 employees — including employees from the customer contact center, Business Office and Economic Development — have already moved in to the facility.

The move to the new Morganfield facility continued over the weekend, with Business Office employees meeting their first customers at the new building yesterday.

In addition to the five business office reps, 35 customer contact center employees and one employee from Economic Development have settled in to their new facility. Distribution Operations employees will relocate to their new digs before the end of the year.

*“The completion of the building has taken us just under a year, a relatively quick process for a project of this scope,” said **Chris Hermann**, Senior Vice President of Energy Delivery. “This will be a positive experience not only for our customers, but for our employees as well, as they settle in to the space where everything is bright and new.”*

An employee open house will be held at the new facility on Dec. 15. A formal ribbon-cutting ceremony with community leaders will be held in January.

The following is an excerpt from a News Transmission article that was published company-wide on January 12, 2012.

NEWS TRANSMISSION
New Morganfield facility officially opens today

Representatives from LG&E and KU, along with state and local leaders, will gather today for a ribbon-cutting ceremony to officially open the company's new, consolidated business and operations center at Morganfield.

The 23,000-square-foot facility will house about 75 employees. The largest portion of those employees are in a new customer contact center that currently employs 34 and will employ up to 54 by the end of the first quarter 2012. The facility also consolidates Morganfield's customer service business office representatives, western Kentucky economic development representative, line technicians, meter readers and field service personnel all under one roof. For customers, the facility also features ample parking, a walk-in center and a customer drive-up window. A storage facility for parts and equipment also is on the grounds.

The contact center is already fielding calls from across LG&E and KU's 94-county service territory, becoming the company's fourth call center in Kentucky.

*"Morganfield is an excellent site to expand our operations," said **Chris Hermann**, senior vice president of Energy Delivery. "We already had a presence in the community and existing facilities here. The central location makes this a prime location for another storm-management hub. And as KU celebrates its 100th birthday later this year, this is a great place to kick off our second century of service to the state."*

*"The new facility enhances our field operations and customer service capabilities," said **John P. Malloy**, vice president of Energy Delivery - Retail Business. "The addition of Morganfield to customer contact centers in Louisville, Lexington and Pineville ensures customers will continue to receive the excellent service to which they are accustomed."*

The new center will primarily serve customers in northwest Kentucky, in an area north of the Western Kentucky Parkway and west of the Pennyrile Parkway.

Initiative 2: *Recruit and hire Residential Service Center employees for Morganfield, Ky facility.*

Management has hired Residential Service Center (RSC) customer service agents for Morganfield. The Company has 51 customer service agents in Morganfield as of February 20, 2012 (an employee list is shown on next page). The excerpts below appeared in the *PPL Dimensions Magazine* for first quarter 2012.

All of the new employees who were hired for the contact center live in and around Morganfield. Company representatives hosted three job fairs in February 2011, and more than 200 potential applicants attended. A team that included HR and retail management reviewed more than 1,500 applications and screened applicants to fill 48 positions to date with plans to bring on an additional 10 employees in February.

"We were thrilled with the overwhelming response we had to the new contact center positions," said Paul Weis, senior HR generalist. "These positions require people with demonstrated customer service, problem-solving and decision-making experience. We used technical and personality assessments to identify and screen for applicants with the skills, behaviors and motivators to ensure the right fit."

A number of the newly hired employees had previous call center experience. When a local call center closed in July 2011, a number of those employees were able to bring their customer service experience and focus to the new positions at LG&E and KU.

Attachment to Response to KU AG-1 Question No. 9

Initiative 3: *Add employee agents in Residential Service Center and Business Service Center locations.*

Management added 25% more RSC customer service agents between June 2011 and February 20, 2012. The Company added 59% more Business Service Center (BSC) customer service agents during the same time period.

Residential Service Center	Customer Service Agents	Customer Service Agent Contractors	Total Customer Service Agents	% Increase from June 2011
Jun-11	98	32	130	N/A
Dec-11	123	27	150	15%
Feb-12*	141	22	163	25%

Business Service Center	Customer Service Agents	Customer Service Agent Contractors	Total Customer Service Agents	% Increase from June 2011
Jun-11	11	6	17	N/A
Dec-11	15	7	22	29%
Feb-12*	25	2	27	59%

* As of February 20, 2012

The additional employee agents contributed to the steadily improving Service Level in both the RSC and BSC. Excerpts from the December 2011 Retail Operating Report reflect the improvement.

The full Retail Operating Report contains confidential information which is not available to the general public. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

RSC Service Level (calls answered within 30 seconds)
and Abandonment Rate (calls abandoned after queued to an agent)

BSC Service Level (calls answered within 30 seconds)

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU’s response and proposed implementation steps met the intention of Liberty Consulting’s recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

LG&E/KU considers this action plan complete and requests that it be closed.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

Raising the number of customer service agents in the Companies’ call centers will increase labor and associated costs. Approximately \$3.5 million annually was added for the expense of additional customer service agents including moving to the direct hire method. However, raising the number of customer service agents (given static call volume) is expected to decrease expenses associated with long distance charges while customers are waiting in the call queue and decrease costs associated with overflow calls to the Companies’ third party vendor. The capital cost to construct the Morganfield Call Center was approximately \$5.3 million. Annual operating cost for maintaining the facility is projected to be approximately \$245,000.

B. Benefit Analysis

The increase in customer service agents should reduce long distance charges, reduce overflow call charges, reduce call volume (repeat calls/abandoned calls), reduce customer complaints and increase customer satisfaction.

C. Cost/Benefit Summary

Category	One Time	Annual Recurring
Cost:	<ul style="list-style-type: none"> • Morganfield Call Center construction costs (\$5.3 million) • Recruitment, hiring, and training costs to staff center (\$15,000) 	<ul style="list-style-type: none"> • Morganfield Call Center facility operational costs (\$245,000) • Increased call center headcount (\$3.5 million)
Benefit	<ul style="list-style-type: none"> • N/A 	<ul style="list-style-type: none"> • Reduction in long distance charges and call overflow charges/fees • Reduced call volume (repeat calls/abandons) • Reduced customer complaints / increased customer satisfaction

D. Other Costs or Benefits

None identified.

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: II-R2

Recommendation Statement: Equip the Resource Planning and Management group to be able to manage RSC and BSC call centers by service level in real-time.

Implementation Priority: High

LG&E/KU Person Responsible: Cheryl Bruner

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Fill Call Center Analyst position	Underway	Completed 01/2012
2.	Provide training to Analyst and RPM staff	11/2011	06/2012
3.	Further define roles, processes, and communications to support forecasting, scheduling and intra-day adjustments to maintain service levels	06/2011	06/2012
4.	Incorporate service level accountability in Energy Delivery Management Performance Management Process	06/2011	Completed 06/2011
5.	Evaluate / upgrade call center software to allow for balancing between virtual call centers and to support queue-level forecasting / schedule / service level management	06/2011	12/2012

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Fill Call Center Analyst position*

The Call Center Analyst position was hired on January 2, 2012. Below is a screen shot from the Company's HR Information System evidencing the hire date of the Analyst.

The screenshot displays the Oracle HR Information System interface for a specific job record. The record is for an employee with ID 0000026664, working at the Broadway Office Complex. The job is titled 'Call Center Business Analyst' with position number 00005374. Key dates include an effective date of 01/02/2012, a position entry date of 01/02/2012, and a department entry date of 01/02/2012. The employee's status is 'Active' and the payroll status is 'Active'. The job is currently active and is the primary job for the employee. The system also shows the company as 'LG&E and KU Services Company', the business unit as 'Retail Business', and the department as 'Residential Service'. The location is 'Broadway Office Complex-3' and the establishment is 'Broadway Office Complex'. The record was created on 01/05/2012.

Initiative 2: *Provide training to Analyst and Resource Planning & Management (RPM) staff*

The Call Center Analyst attended two separate week long seminars. Those seminars were entitled: *Administration: Workforce Management System Management Essentials* and *Workforce Management Advanced Forecasting, Scheduling and Tracking*. RPM staff attended a seminar entitled: *Workforce Management Certification*.

The tables below identify completed and planned training sessions.

Completed

Training Title	Company	Days	Dates	Location	Attendee
Administration: Workforce Management System Management Essentials	Aspect	5	11/14/2011 - 11/18/2011	Nashville (Brentwood), TN	Analyst
Workforce Management Advanced Forecasting	Aspect	3	12/5/2011 - 12/7/2011	Nashville (Brentwood), TN	Analyst
Workforce Management Advanced Scheduling and Tracking	Aspect	2	12/8/2011 - 12/9/2011	Nashville (Brentwood), TN	Analyst
Workforce Management Certification	Benchmark Portal	2	2/23/2012 - 2/24/2012	Indianapolis, IN	RPM
SWPP Conference (Workforce Management)	Society of Workforce Planning Professionals (SWPP)	3	3/7/2012 - 3/9/2012	Nashville (Opryland Hotel), TN	Analyst and RPM

Planned

Training Title	Company	Days	Dates	Location	Attendee
Call Management System (CMS) Training - Overview of Reports	Avaya	0.5	3/21/2012	Louisville, KY	All Call Center Support Staff
CMS Training - Report Configuration	Avaya	1.5	3/21/2012 - 3/22/2012	Louisville, KY	Analyst and RPM
Workforce Management Configuration	Aspect	3	3/26/2012 - 3/28/2012	Nashville (Brentwood), TN	Analyst and RPM
Introduction to Business Analysis	Learning Tree	3	4/18/2012 - 4/20/2012	Washington, DC (Reston, VA)	RPM
Critical Thinking and Creative Problem Solving	Learning Tree	3	5/23/2012 - 5/25/2012	Washington, DC (Rockville, MD)	RPM

Initiative 3: *Further define roles, processes, and communications to support forecasting, scheduling and intra-day adjustments to maintain service levels*

Management is working to define roles, processes and communications to maintain service levels through effective call center management.

Initiative 4: *Incorporate service level accountability in Energy Delivery Management Performance Management Process*

Service level accountability has been included in the Performance Management Process objectives for the following employees:

- Director, Customer Service and Marketing
- Manager, Residential Service Center
- Manager, Business Service Center
- Operations Managers in Residential Service Center

On the next page is a screen shot showing that Service Level is incorporated into the objective pertaining to Operational Performance/Customer Experience.

*Objective 2: Operational Performance/Customer Experience

Details
<p>Description: Achieve high levels of customer satisfaction.</p> <p>Measurement: Monthly Metrics: Service Level 80% of calls answered within 30 seconds Overall Customer Experience target 8.5 First Contact Resolution target 75%</p> <p>Edit Details Add Notes</p>

Initiative 5: *Evaluate / upgrade call center software to allow for balancing between virtual call centers and to support queue-level forecasting / schedule / service level management*

Management is evaluating call center software that balances virtual calls centers and supports service level management.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response and proposed implementation steps met the intention of Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

Initiative 2: *Provide training to Analyst and RPM staff*

Management has identified other additional seminars in the coming months in which the Analyst or other members of the RPM staff will participate. The status will be reported during the next progress report period.

Initiative 3: *Further define roles, processes, and communications to support forecasting, scheduling and intra-day adjustments to maintain service levels*

Management is working to define roles and responsibilities. The status will be reported during the next progress report period.

Initiative 5: *Evaluate / upgrade call center software to allow for balancing between virtual call centers and to support queue-level forecasting / schedule / service level management*

Management is evaluating call center software that balances virtual calls centers and supports service level management. The status will be reported during the next progress report period.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

Filling the Analyst position has annual recurring cost of approximately \$120,000, inclusive of salary, benefits and other overhead costs. Providing training to the Analyst and other RPM staff is estimated at \$20,000 annually.

B. Benefit Analysis

Increased optimization through efficient scheduling of agents should result in increased customer satisfaction with the contact experience.

C. Cost/Benefit Summary

To be completed once the recommendation is marked as completed.

Category	One Time	Annual Recurring
Cost		
Benefit		

D. Other Costs or Benefits

To be completed once the recommendation is marked as completed.

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: II-R3

Recommendation Statement: Institute a process with associated accountability to track telecom network activity and review busy studies on a regular basis to monitor telecom capacity.

Implementation Priority: Medium

LG&E Person Responsible: Cheryl Bruner

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Produce monthly reports for all trunks.	10/2011	Completed 02/2012
2.	Request routine reports from Telecom vendors on traffic information for local and long distance services. IT Network Infrastructure to review and track reports monthly.	10/2011	07/2012
3.	Develop process to review trunk utilization reports and information from telecom carriers after storm situations to better understand impact of storms on internal and external telecom networks and take corrective action as needed.	01/2012	07/2012
4.	Develop processes with telecom partners to leverage their available carrier tools/services to route calls to third party providers during major unplanned events.	01/2012	Completed 02/2012
5.	Review accumulated monthly trunk and traffic reports annually. Evaluate costs associated with any needed capacity improvements and incorporate into the next budget cycle.	01/2012	01/2013
6.	Investigate methods (tools, services, models) to more accurately predict high volume conditions and their impact on the telecom network.	01/2012	07/2012
7.	Evaluate “Virtual Hold” capability in next generation contact center architecture solution.	01/2012	Completed 02/2012

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Produce monthly reports for all trunks.*

Management has made system software changes necessary to utilize the Avaya Contact Management System (CMS) system to produce monthly reports for the Contact Center trunks. These CMS reports will be run monthly. Management will review each month and address any anomalies with the telecom providers. See Chapter II-R3 - Attachment 1 for a copy of the monthly report.

Initiative 2: *Request routine reports from Telecom vendors on traffic information for local and long distance services. IT Network Infrastructure to review and track reports monthly.*

Requests have been made to all three vendors involved with providing our services; AT&T, AT&T SE, and Windstream. Management is actively working to obtain these reports.

Initiative 3: *Develop process to review trunk utilization reports and information from telecom carriers after storm situations to better understand impact of storms on internal and external telecom networks and take corrective action as needed.*

Management is working to document the formal process.

Initiative 4: *Develop processes with telecom partners to leverage their available carrier tools/services to route calls to third party providers during major unplanned events.*

The Companies have a contract with Twenty-First Century Communications for High Volume Call Answering services. This service provides additional phone line trunks where the Companies' automated voice response system is replicated and customers can report outages even if the Companies' phone lines are full due to a large volume of incoming calls related to a major event. On the next page is a summary from Twenty-First Century Communications showing the daily call volume they received during January 2012.

Initiative 5: *Review accumulated monthly trunk and traffic reports annually. Evaluate costs associated with any needed capacity improvements and incorporate into the next budget cycle.*

Management created a process to review accumulated monthly trunk and traffic reports annually and it will be included in future planning processes.

Initiative 6: *Investigate methods (tools, services, models) to more accurately predict high volume conditions and their impact on the telecom network.*

Management is working on developing analytics to create models for various size storms and their impact to the contact center.

Initiative 7: *Evaluate “Virtual Hold” capability in next generation contact center architecture solution.*

Management has investigated “Virtual Hold” capability and determined not to implement it at this time due to other technology projects underway. These projects include the implementation of new CTI/screen pop functionality, transition to a “soft phone” type of interface, planned modifications to the IVR scripts and flow, and the auto reconnect and auto payment arrangement projects. “Virtual Hold” will be considered again in the future.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU’s response and proposed implementation steps met the intention of Liberty Consulting’s recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

Initiative 2: *Request routine reports from Telecom vendors on traffic information for local and long distance services. IT Network Infrastructure to review and track reports monthly.*

Management will obtain routine reports from all three telecom providers. The status will be reported during the next progress report period.

Initiative 3: *Develop process to review trunk utilization reports and information from telecom carriers after storm situations to better understand impact of storms on internal and external telecom networks and take corrective action as needed.*

Management will document the formal process. The status will be reported during the next progress report period.

Initiative 5: *Review accumulated monthly trunk and traffic reports annually. Evaluate costs associated with any needed capacity improvements and incorporate into the next budget cycle.*

Management will review the monthly trunk and traffic reports annually and incorporate any improvements into the next budget cycle. The status will be reported during the next progress reporting period.

Initiative 6: *Investigate methods (tools, services, models) to more accurately predict high volume conditions and their impact on the telecom network.*

Management will develop a model. The status will be reported during the next progress reporting period.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

Routine reports from telecom that provides traffic information for local and long distance is estimated at \$10,000 annually. Carrier tools and services that route calls to third party providers during major unplanned events are estimated at \$10,000 annually. The development of tools, services, or models to more accurately predict high volume conditions and their impact on the telecom network is estimated at \$100,000 and will require \$10,000 annually to operate and maintain.

B. Benefit Analysis

Trunk reports will provide Management needed information to identify any trunk constraints and take action if needed, which should enhance the customer experience.

C. Cost/Benefit Summary

To be completed once the recommendation is marked as completed.

Trunk Reports

January 2012

Executive Summary

January 2012

Please find the trunk reports for January following this summary. Each trunk report has an overview description of the trunk group being reported on. Any deviations from the norm will be highlighted and a deeper dive will be taken into any particular day to further evaluate any action that may or may not be needed.

The categories of the trunk reports are as follows:

Date This is just the date being reported on. In the case of the Trunk Summary Daily Reports which are included here, it represents the entire day.

Inbound Calls This is an actual peg count of the number of calls received on these particular trunk groups for the period

Inbound CCS CCS stands for Centrum Call Seconds or Hundred Call Seconds. The measurements taken by the PBX are taken every hundred seconds. There are 36 CCS per hour and a trunk (or channel) in full use would register 36 call seconds if it was busy for an entire hour.

% ATB This is the percent of the time involved that all trunks were busy. In the case of LG&E-KU, this does not mean a busy signal is issued, rather that further routing is taking place that either sends that call to another internal trunk group or offsite to 21st Century.

As expected, January 3 was a busy day due to being the first business day of the month and the fact it was the first day following a long holiday weekend. Additional reports for January 3 are included in the package to show when we were experiencing an overflow situation. January is not a true representation in Louisville because for most of the month of January, we were unable to report on Trunk Group 4 which performs the exact same function as trunk group 3. After making some changes to our CMS, we were able to include these trunks beginning in February 2012. To better reflect when all trunks are actually busy, we have moved the 2 T1s in Trunk Group 4 into trunk group 3. Starting in February, trunk group 3 will reflect all 138 members.

January 17 was a busy day again because it was the first day after a three day weekend as the contact center was in training on Martin Luther King day. We sent 1109 calls to 21st Century on this Tuesday.

Louisville

The Louisville section of the report consists of reports on Trunk Group 3 and Trunk Group 10. Trunk group 3 contains the primary incoming local trunks for the Louisville based customers. Trunk Group 3 contains 138 lines which allow for that many simultaneous conversations. Calls on this trunk group are generated by calling 502-589-1444 for customer service or 502-589-3500 for Electric Trouble. This trunk group carries 95%+ of all calls received initially in the Louisville Contact Center which also includes Morganfield. The balance of the calls originating from LG&E customers are carried through the Aastra switch which contains trunks from AT&T to carry the small amount of toll-free calls (800-331-7370). There are 46 trunks between the Aastra and the Avaya contact center switch in Louisville. The Aastra switch is LG&E's local campus switch serving the Louisville area so many backdoor calls also come in this way. A backdoor call would be someone who dials the main corporate number (502-627-2000) and request to speak to a contact center agent.

Once any of these trunk groups are busy and cannot take any more calls they have automatic coverage to an offsite vendor (21st Century) which provides an offsite outage IVR where customers can input information about an outage. The system then automatically creates an outage ticket on our Trouble Order Entry system which sets in motion the restoration effort. High priority calls such as wire down or gas emergency are routed back to LG&E-KU on designated trunks and placed high in the queue for a speedy resolution.

Lexington

The Lexington section of the report consists of reports on Trunk Groups 1, 4, and 5. Trunk groups 4 and 5 contain the primary incoming tollfree trunks for the Kentucky Utility based customers. Since the KU customers are spread around Kentucky and Virginia, most calls coming to the KU facing contact center arrive as a toll call (800-981-0600). Trunk group 4 is an AT&T trunk group with 71 members and is carried the last mile by ESPIRE communications. Trunk group 5 is an AT&T trunk group with 71 members and is carried the last mile by Windstream Communications. These two trunk groups carry 95%+ of all calls received initially in the Lexington Contact Center which also includes Pineville. Together, these two trunk groups can carry 142 simultaneous tollfree calls. Trunk group 1 is the local trunk group for the Lexington area and has the capability for 70 simultaneous calls.

Once any of the AT&T trunk groups are busy and cannot take any more calls they have automatic coverage to an offsite vendor (21st Century) which provides an offsite outage IVR where customers can input information about an outage. The system then automatically creates an outage ticket on our Trouble Order Entry system which sets in motion the restoration effort. High priority calls such as wire down or gas emergency are routed back to LG&E-KU on designated trunks and placed high in the queue for a speedy resolution. This service is not available on the Lexington local trunks due to a technology constraint by Windstream at their serving Central Office.

Intraflow between LG&E and KU

LG&E and KU operate as two separate ACD groups but are connected for the interflow of calls between the two ACDs. This allows for one center to cover in high volume situations or to cover in overnight/weekend situations. This intraflow is made possible with Trunk Group 20 which is set up as 94 tie lines between the two ACDs. Trunk Group 20 is provided by our SONET network and does not involve an outside vendor. The included report is from the perspective of the Louisville ACD which represents calls flowing to KU will be termed outbound and calls flowing from KU to Louisville will be termed inbound.

I. RECOMMENDATION REFERENCE:

Recommendation No.: II-R4

Recommendation Statement: Improve customer service hiring practices and working environment to facilitate higher Residential Service Center agent retention.

Implementation Priority: High

LG&E Person Responsible: Cheryl Bruner

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Recruit and hire a Retail Staffing Specialist to support direct hire staffing	07/2011	Completed 09/2011
2.	Implement survey of new hires	10/2011	Completed 11/2011
3.	Develop and implement pilot to promote employee referrals	10/2011	Completed 01/2012
4.	Further define career progression paths for CSRs	10/2011	Completed 02/2012
5.	Develop and implement additional pre-employment screening tools to assess suitability of agents and Coaches	09/2010	Completed 07/2011
6.	Reduce overtime and occupancy targets	01/2012	06/2012
7.	Identify additional off-call activities for agents	01/2012	06/2012
8.	Develop reward and recognition programs	12/2010	Completed 04/2011
9.	Develop additional training for Coach and CSR development	05/2011	7/2012

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Recruit and hire a Retail Staffing Specialist to support direct hire staffing*

A Retail Staffing Specialist was hired in September 2011 to support the recruiting, screening, and direct hire staffing of contact center and other customer service positions. On the next page is a screen shot from the Company's HR Information System evidencing the hire date of the Retail Staffing Specialist.

The screenshot displays the Oracle HR system interface for an employee with ID 0000026841. The page is titled 'Work Location' and includes a navigation menu with options like 'Home', 'Worklist', 'Add to Favorites', and 'Sign out'. The main content area shows the following details:

- HR Status:** Active
- Payroll Status:** Active
- Effective Date:** 09/19/2011
- Sequence:** 0
- Job Indicator:** Primary Job
- Action / Reason:** Hire (New Hire)
- Last Start Date:** 09/19/2011
- Termination Date:** (blank)
- Expected Job End Date:** (blank)
- Position Number:** 00005869
- Position Title:** Retail Staffing Specialist
- Position Entry Date:** 09/19/2011
- Regulatory Region:** USA (United States)
- Company:** 020 (LG&E and KU Services Company)
- Business Unit:** DISTR (Distribution Operations)
- Department:** 025700 (Dir HR Energy Delivery)
- Department Entry Date:** 09/19/2011
- Location:** 26P (LG&E Center 16th floor)
- Establishment ID:** 260 (LG&E Center)
- Date Created:** 09/08/2011

At the bottom of the page, there are links for 'Job Data', 'Employment Data', 'Earnings Distribution', and 'Benefits Program Participation'.

Initiative 2: *Implement survey of new hires*

A new hire employee survey was developed in October 2011 and launched in November 2011 as a method to obtain feedback from newly hired employees on the recruiting, hiring and on-boarding process. This survey is sent to new employees approximately two weeks after their hire date. The new employee survey and the results of the new employee survey contain confidential information which is not available to the general public. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

Initiative 3: *Develop and implement pilot to promote employee referrals*

An employee referral program for customer service positions was developed and implemented. A copy of the article that appeared in the Company's daily employee newsletter, News Transmission, announcing the program to all employees is found in Chapter II-R4 - Attachment 1.

Initiative 4: *Further define career progression paths for Customer Service Representative (CSR)*

Management further defined career progression paths for customer service representatives, and then developed a presentation for customer service employees highlighting the job families, position responsibilities, qualifications, and education necessary for various positions within the company. This

information will provide customer service employees a guide to assist them in career progression with the company. A copy of the presentation is found in Chapter II-R4 - Attachment 2.

Initiative 5: *Develop and implement additional pre-employment screening tools to assess suitability of agents and Coaches*

Management implemented the use of personality assessments in the screening process for customer service representative positions beginning with staffing of the Morganfield contact center in February 2011. The use of the personality assessment was further expanded to the other residential contact centers and to the business service centers during 2011. Given the proprietary nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

Initiative 6: *Reduce overtime and occupancy targets*

The hiring of additional customer service agents (see response to Chapter II Recommendation 1) is expected to reduce overtime requirements and will allow management to align the occupancy targets with industry best practices.

Initiative 7: *Identify additional off-call activities for agents*

Residential Service Center and Business Service Center management are in the process of identifying additional off-call activities for agents.

Initiative 8: *Develop reward and recognition programs.*

The Residential Service Center has developed and implemented reward and recognition programs. On the next page is a description of those programs and frequency.

Event	Frequency Awarded
Monthly Recognition	Monthly (Depends on Performance)
Quarterly Recognition	Quarterly (Depends on Performance)
Year End Recognition	Year-End (Depends on Performance)
Ambassador Shirts	Once
Spontaniety Promotions	Various
 Holidays	 Frequency Awarded
Valentine's Day	Once
4th of July	Once
Thanksgiving	Once
Halloween	Once
Year-End	Once
 Special Events	 Frequency Awarded
Picnic	Once per Location
Customer Service Week	Once Per Location
Special Week	Once Per Location
Retirement/Baby Showers	Various
Health Safety	Once
 Performance	 Frequency Awarded
Attendance Awards 2012	End of 2012
Adherence-Coaches	Monthly
Service Level	Monthly
Adherence- Representatives	Monthly
Top 25 Representatives	Quarterly
Managers	Yearly

Initiative 9: *Develop additional training for Coach and CSR development*

Management has developed additional training for coaches and CSRs including “Soft Skills” training, leadership training for the Coaches, and additional training on rate tariff structures. Management also is pursuing training on analytical skills for this employee group.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU’s response and proposed implementation steps met the intention of Liberty Consulting’s recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

Initiative 6: *Reduce overtime and occupancy targets*

When training on all skills is completed for the additional customer service agents, the overtime needs and the occupancy target should be reduced. The status will be reported during the next progress report period.

Initiative 7: *Identify additional off-call activities for agents*

Management will identify additional off-call activity for agents. The status will be reported during the next progress report period.

Initiative 9: *Develop additional training for Coach and CSR development*

Management will execute additional training for Coach and CSR development. The status will be reported during the next project report period.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

The goal of this recommendation is to increase the retention of the Company's residential customer service agents. The Company invested over \$4 million on the following initiatives that focus on hiring practices and employee working environment. The initiatives are: increased customer service agent staffing level; hired a Staffing Specialist to lead the hiring of the incremental agents; moved away from "temp to hire" staffing strategy to a "direct hire" strategic model; developed and implemented a new employee referral program and pre-employment screening tool; increased employee training; and enhanced employee reward and recognition program.

B. Benefit Analysis

Improved hiring practices should result in lower employee turnover which would reduce the number of new employee training sessions. Reducing the number of new employee training sessions provides the trainers additional time to focus on refresher and enhanced skill training for the other employees.

C. Cost/Benefit Summary

To be completed once the recommendation is marked as completed.

Category	One Time	Annual Recurring
Cost		
Benefit		

D. Other Costs or Benefits

To be completed once the recommendation is marked as completed.

Employee referral program begins

News Category
Human Resources: Retail

Headline Date
2/6/2012

Know any great potential customer service employees? LG&E and KU want them to apply. Effective immediately, the company is launching its Employee Referral Program.

This program seeks to fill customer service positions in business service centers, residential service centers and business offices statewide. These positions require candidates with demonstrated customer service, problem-solving and decision-making experience.

Employees often are LG&E and KU's best recruiting ambassadors when it comes to understanding utility customer service, and if you know candidates who you believe would be a good fit for a customer service career at the company, please encourage them to apply for a position when they are posted and list you as the referring employee.

All regular full- or part-time LG&E and KU employees are eligible to participate in this referral program, excluding company officers, senior management, managers, HR employees, and supervisors in the business service centers, residential service centers and business offices.

If you refer an applicant for a posted customer service position, the applicant needs to apply online and list you as the referral source. You do not need to complete any forms or contact anyone about the candidate. If the candidate is hired and listed you as a referral, Human Resources will notify you.

Up to \$500 in lump sum payments

Two \$250 lump sum payments, less applicable taxes and withholdings, will be paid to the referring employee for each referred applicant who is hired. The first payment will take place after the new employee has completed six months of employment. If you and the employee are both active after 12 months of continuous employment by the new employee, the second payment will be made.

You may refer as many job candidates as you feel are qualified for customer service positions. However, this award does not apply for the referral of current company contractors or employees of contractors assigned to LG&E and KU.

For more information about the program, see the Q&A below or contact your HR generalist or manager.

Employee Referral Program Q & A

Q. Why is the company establishing an Employee Referral Program at this time?

A. The company is establishing this program to provide employees an opportunity to actively participate in and benefit from the LG&E and KU's recruiting efforts to employ qualified applicants for customer service positions in the business service centers, residential service centers and business offices.

Q. What positions qualify for the referral program?

A. The referral will apply to customer service positions in the business service centers, residential service centers and business offices.

Q. Why are only customer service positions included in this program?

A. Customer service positions are part of the critical link to ensuring a positive customer experience and require candidates with specific skill sets who may be difficult to identify through typical recruiting channels (i.e. web advertisements, classified ads, etc.)

Q. Who is eligible to participate in the program?

A. All regular full- or part-time KU or LG&E employees and their subsidiaries are eligible to participate, excluding company officers, senior managers, managers, HR employees, and supervisors in the business service centers, residential service centers and business offices.

Q. How do I make sure I am listed as the referral source for an applicant?

A. Inform the applicant that if he or she does not list you as a referral when applying for the position, you will not be given credit as the referral source. Applicants must apply for positions online in Kenexa and note your name in the system as the referring employee.

Q. How much will I be rewarded for the referral?

A. Two \$250 cash awards, less applicable taxes and withholdings, will be paid to you for the referral of an applicant who is hired. You will receive the first \$250 after the new employee has completed six months of employment, and the second \$250 after 12 months of continuous employment.

Q. Is the referral award applicable if I refer current contractors? A. No, employees who refer current contractors or employees of contractors assigned to LG&E and KU will not receive the lump sum award.

Q. Are my family members eligible to be referred?

A. Yes, subject to the company's policy on Employment of Relatives.

Q. When will I receive the bonus?

A. If you and the employee are both active after six months of the new employee's start date, you will receive the first payment on the closest paycheck following that date. If you and the employee are both active after 12 months of continuous employment by the new employee, the second payment will be made.

Q. Is there a limit as to how many candidates I can refer?

A. No. An employee can refer as many candidates they feel are qualified for customer service positions.

Q. How will I know if the person I referred is hired?

A. Human Resources will notify you if the person is hired, and will subsequently contact you if that person is employed after six months and when you should expect the first payment. HR will contact you again after the new hire completes 12 months of employment and indicate when you will receive the second payment.

Q. When does the program begin?

A. The program begins Feb. 1, 2012 and will continue until management deems it unnecessary. This program will be applicable to referred candidates who apply for a position on or after Feb. 1, 2012.

PPL companies

Retail Career Pathways

March 5-9, 2012

Retail business overview

- *Contact Centers*
- *Business Offices*
- *Billing Integrity*
- *Remittance & Collection*

Retail business overview

- *420 retail employees and contractors*
- *3.9 million customer contacts made to call centers*
- *Handled 2.5 million calls in 4 call center locations*
- *Processed 2.8 million walk in transactions in 26 business office locations*
- *Approximately 1 million bills processed monthly*

Retail Career Opportunities — Job Families

- *Customer Care Representative*
- *Customer Representative*
- *Billing Analysis Associate*
- *Rates and Tariffs Analysts*
- *Remittance Collection Associate*
- *Revenue Collection Associate/Investigator*

Job Family — Customer Care Representative

Primary responsibilities

- *Responsible for answering incoming customer calls and performing comprehensive account transactions in accordance with policies, procedures and regulations*
- *Works to exceed established productivity, schedule adherence, and quality standards*

Job Family — Customer Care Representative

Basic qualifications include:

- *High school diploma or equivalent is required; associate degree preferred*
- *One year of customer service experience analyzing and resolving customers problems in a customer call/contact center highly preferred*
- *Demonstrated ability to work cooperatively with customers*
- *Proficient with MS Office and with basic math skills*

Job Family — Customer Representative

Primary responsibilities

- *Responsible for handling front-line customer transactions handled in an efficient, professional and courteous manner in accordance with policies, regulations and procedures*

Job Family — Customer Representative

Basic qualifications include:

- *High school diploma or equivalent is required; associate degree preferred*
- *One year of customer service experience analyzing and resolving customers' problems in face-to-face customer service environment*
- *Demonstrated ability to work cooperatively with customers*
- *Experience cash handling and daily cash balancing*
- *Proficient with MS Office and basic math skills*

Job Family — Billing Analysis Associate

Primary responsibilities

- *Research billing exceptions identified by the customer billing system*
- *Perform customer billing adjustments when billing inaccuracies are identified*
- *Contact customers to discuss billing adjustments*

Job Family — Billing Analysis Associate

Basic qualifications include:

- *Bachelor's degree in accounting, finance or business-related major preferred; customer accounting/billing experience*
- *Working knowledge of Windows-based operating system, proficient Excel knowledge and experience a plus*
- *Able to work unassisted and with limited supervision*

Job Family — Billing Analysis Associate

Basic qualifications include:

- *Able to work unassisted and with limited supervision*
- *Possess excellent interpersonal skills with the ability to effectively deal with and solve problems for internal and external customers*
- *Perform complicated rate calculations with multiple components, analyze and interpret data to render accurate decisions, effective organizational skills, and maintain highest degree of accuracy and timeliness*

Job Family — Rates & Tariff Analyst

Primary responsibilities

- *Able to perform and effectively explain complex billing adjustments*
- *Calculate and explain complex rate structures to internal and external customers*
- *Serve as expert to resolve billing errors*
- *Research accounts and provide documentation to assist in the resolution of customer complaints*

Job Family — Rates & Tariff Analyst

Basic qualifications include:

- *Bachelor's degree in accounting, finance or business*
- *Five years of customer accounting/billing experience*
- *Working knowledge of PC systems; excellent Excel knowledge*
- *Effective communication skills to handle internal and external customers*
- *Excellent problem-solving skills are a must*

Job Family — Remittance Associate

Primary responsibilities

- *Responsible for customer payments posting and balancing process*
- *Involves making daily decisions on customer exception payments*

Job Family — Remittance Associate

Basic qualifications include:

- *Knowledge of established payment and cash reporting procedures and a high degree of proficiency in understanding the source of all payments and details*
- *Proficient in database applications, mail payment service provider web portals, cash management systems; demonstrated PC proficiency and MS Office software*
- *Possess excellent interpersonal skills*
- *Demonstrated ability to set priorities and manage multiple projects*

Job Family — Revenue Collection Associate

Primary responsibilities

- *Handle customer transactions and credit related activities (deposit billing and refunds, transfer of balances, negotiating and entering payment arrangements*
- *Able to explain billing and usage to customers, analyze account history, and resolve customer inquiries and disputes*
- *Support collection activities including skip tracing, ad hoc reporting, credit reviews*
- *Participate in the administration, processing, and reporting of bankruptcies and third-party collections*

Job Family — Revenue Collection Associate

Basic qualifications include:

- *High school diploma or GED required; excellent PC/computer skills*
- *Knowledge of basic mathematics and ability to organize statistical information and comprehend*
- *Good written and verbal communication skills and interpersonal skills*
- *Possess organizational and analytical ability with attention to detail*
- *Ability to handle and manage confidential information*

Job Family — Revenue Protection Associate/Investigator

Primary responsibilities

- *Investigate suspected theft or fraudulent use of service*
- *Documents findings, including interviewing customers/witnesses, obtaining written evidentiary statements, taking photographs, completing necessary forms, and recording other pertinent information*
- *Prepares reports suitable for review and action by prosecutorial authorities*

Job Family — Revenue Protection Associate/Investigator

Basic qualifications include:

- *Associate degree; able to understanding complex rules and regulations*
- *Excellent verbal and written communication skills*
- *Ability to handle substantial responsibility independently*
- *Possess a valid vehicle operator's license*
- *Moderate amount of walking with few occasions requiring lifting and/or climbing into areas which are difficult to navigate*

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: II-R5
Recommendation Statement: Enhance Customer Information System Usability.
Implementation Priority: High
LG&E Person Responsible: Cheryl Bruner

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)
 ONGOING (The implementation of this action plan is still in progress.)
 DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Discontinued request for social security numbers as a means of customer identification.	09/2011	Completed 09/2011
2.	Evaluate CSR usability and identify opportunities for system enhancements.	06/2011	Completed 12/2011
3.	Develop CTI screen-pop investment proposal and enter into contract.	06/2011	Completed 10/2011
4.	Implement new screen-pop and soft phone capabilities.	10/2011	06/2012

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Discontinued request for social security numbers as a means of customer identification.*

Alternative customer identification methods were implemented starting in September 2011. A copy of a training guide delivered by Coaches in the RSC (called a “tailgate”) from September 22, 2011 is found below.

Customer Care System Searching and Verification-from Quality Assurance group-the processes listed below will be coaching opportunities for September calls and scoring off for October calls.

The preferred method of searching is as follows:

- *Account number*
- *Account name (Do not add any other search criteria such as city)*
- *Address (Do not add any other search criteria such as city)*
- *Phone number (Do not add any other search criteria such as city)*

Method of Verification of social security number:

- *Last 4 digits of the social security number only.*
- *Okay to verify full social security when the customer offers to provide it.*
- *Last resort is to ask for full social security number if unable to access the account using the preferred method listed above.*

Note: Educate our customers during the call to have their account number when customers make future calls to customer service.

Initiative 2: *Evaluate CSR usability and identify opportunities for system enhancements.*

SAP technical and business process experts were brought on site in September 2011 to conduct a detailed evaluation of Customer Service Representative (CSR) usability, including system processes and technical design. This review consisted of the SAP experts observing Residential Service Center and Business Service Center representatives to gain an understanding of current processes and agent concerns. The technical experts reviewed the business processes, technical architecture and actual code within SAP for conflicts or “less than optimal” use of the SAP application. As a result of this review, opportunities to enhance the usability of the system were identified. Source code changes were made to further optimize the technical design. Management is using established internal IT processes to prioritize the implementation of these enhancements.

Attachment to Response to KU AG-1 Question No. 9

Initiative 4: *Implement new screen-pop and soft phone capabilities.*

The CTI screen-pop project is on-going. SAP software enhancements, setup and installation of the CTI software and hardware are progressing on schedule.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response and proposed implementation steps met the intention of Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

Initiative 4: *Implement new screen-pop and soft phone capabilities.*

Management expects to complete the implement the screen-pop and soft phone capabilities. The status will be reported during the next progress report period.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

The CTI screen-pop and soft phone enablement project is expected to cost \$1,900,000.

B. Benefit Analysis

Improvements to customer service representative usability of the Customer Care System (CCS) would be focused on reducing the complexity of the system and improving call handling times. Implementing screen pop within the CCS system, in place of the current "pop" to a text box screen, should result in some time savings on the call; however, this savings cannot be quantified at this time.

C. Cost/Benefit Summary

To be completed once the recommendation is marked as completed.

Category	One Time	Annual Recurring
Cost		
Benefit		

D. Other Costs or Benefits

To be completed once the recommendation is marked as completed.

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: II-R6

Recommendation Statement: Implement actions to ensure that meter reading accuracy meets or exceeds targets.

Implementation Priority: Medium

LG&E Person Responsible: Butch Cockerill

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Conduct “all hands” meeting with all employees involved with the meter reading function along with the executives for our contract partners to communicate our new vision and commitment to improve our meter reading performance.	08/2011	Completed 08/2011
2.	Utilize benchmarking data to identify utilities that excel in meter reading accuracy and compare their processes and procedures to ours to seek improvement opportunities. <ul style="list-style-type: none"> a. Analyze and evaluate the benchmarking data to identify the comparable companies (i.e. Electric only, combo only with predominantly manual reading) b. Schedule discussions with comparable companies that have better performance and learn what they are doing differently and how the practice was implemented 	09/2011	Completed 10/2011
		11/2011	Completed 01/2012
3.	Partner with internal customers to conduct comprehensive review of current processes and procedures to identify gaps. Develop and implement corrective actions.	11/2011	Completed 01/2012
4.	Utilize Companies’ personnel to institute field quality audits to spot check for meter read accuracy, condition of our facilities, etc. <ul style="list-style-type: none"> a. Develop process to monitor and report field audits b. Include an initiative for performing Quality Assurance Audits as part of company personnel’s Performance Excellence Process. 	12/2011	Completed 01/2012
		02/2012	Completed 02/2012
5.	Change our meter reading parameters contained in our meter reading system to tighten the tolerances for increase/decrease consumption in monthly meter reads. <ul style="list-style-type: none"> a. Work with IT and Billing Integrity to determine tolerance parameters b. Change tolerance parameter in meter reading system. 	10/2011	Completed 10/2011
		11/2011	Completed 11/2011

6.	<p>Re-evaluate our current Performance Scorecard to determine if any changes are warranted. If so, implement when current business partner contract expires in May 2012.</p> <p style="margin-left: 20px;">a. Discuss with comparable companies that utilize contract meter reader to learn what they are doing in relations to performance measures.</p> <p style="margin-left: 20px;">b. Determine what changes, if any, should be incorporated into upcoming contracts.</p>	02/2012	Completed 02/2012
		02/2012	Completed 02/2012
7.	<p>Enhance communications with all meter reading employees to inform them on meter reading performance. Create a “How are we Doing” bulletin board to post our monthly and YTD performance.</p>	11/2011	Completed 12/2011

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Conduct “all hands” meeting with all employees involved with the meter reading function.*

Management conducted a meeting in August 2011 with all Meter Reading employees to review the findings and recommendations from the Customer Service Audit and discuss the need to improve meter reading accuracy. Additionally, Management met with executives of our contract partners – Accuread and TruCheck - in September 2011. Below is the agenda.

- *Results of PSC Audit*
- *Key recommendation - improve meter reading accuracy*
 - *Discuss the changes to take place in order to improve accuracy:*
 - *Tighten parameters in the handheld*
 - *Capture types of verified reads and post in CCS*
 - *Deny quarterly incentive if it falls below accuracy target of 99.9%*
 - *Enhance meter reading training and follow up*
 - *Number of meters read consecutively without error*
 - *Documentation of results*
 - *Establish field audit process*
 - *Contractor to review all errors found on a weekly basis (use of cameras)*
 - *Increase employee accountability and adopt more stringent discipline measures if needed for continued performance issues*

- *Internal program implemented to also conduct Quality Field Audits on readers who miss monthly accuracy targets and all new hires*
- *Quality Audits objective will be added in 2012 PEP*
- *Posting results of key performance indicators in all locations on a monthly basis*
- *Importance of accuracy as it relates to how errors impact customer bill and the overall experience your service is for our customers*

Initiative 2a: *Analyze and evaluate the benchmarking data to identify the comparable companies.*

Management reviewed a proprietary benchmark data study during September 2011. Management selected, for comparison, those utilities that most closely matched our meter reading operation. The goal was to compare Company performance against those considered to be “peer” utilities. The comparison included a detailed review of errors, percent of meters missed, and the cost per meter read.

Initiative 2b: *Schedule discussions with comparable companies that perform well in meter reading accuracy.*

Management reviewed a proprietary benchmark data study to select utilities that performed well and contacted them for further discussions regarding their meter reading operations. Management discussions focused on meter reading accuracy, billing parameters, missed meters, inside meter access, and employee safety. Management also attended a workshop and participated in breakout sessions that provided direct interaction and discussion with other utilities regarding metrics and best practices in the meter reading area.

Initiative 3: *Conduct comprehensive review of current processes and procedures to identify gaps.*

Management reviewed all major processes and procedures in meter reading. Several changes were identified to streamline common practices across the two companies. These included: creating a single Business Intelligence reporting for errors, harmonizing monthly performance reporting, using existing software instead of emails for tracking new and changed meters, standardizing the process for requesting meter read send backs, and creating a single data repository site to access data from multiple systems to enhance reporting. A copy of the action items related to this initiative is found at Chapter II-R6-Attachment 1.

Initiative 4a: *Develop process to monitor and report field audits.*

Management developed a process to monitor and report field audits for meter readers. Meter readers who do not meet their monthly accuracy target will be subject to being randomly selected for an audit. Each month, meter reading management will randomly select a group of meter readers for field audits from those not meeting their accuracy target. Additionally, based upon meter reading accuracy reports, Management knows the first few weeks are critical for a new meter reader, so Management plans to conduct a field audit on all new meter readers during their first weeks on the job.

On the next page is a copy of the Meter Reading Field Quality Audit form.

METER READING FIELD QUALITY AUDIT

Meter Reader (print) _____ Date Evaluated _____

Evaluator (print) _____

1. Knows/understands/reports no read codes? Yes No
2. Knows/understands/ reports meter condition codes? Yes No
3. Knows/understands/reports changed meters? Yes No
4. Knows/understands process/reports new meters? Yes No
5. Knows meaning of each color seal? RED Yes No YELLOW Yes No GREEN Yes No
BLUE Yes No ORANGE Yes No BLACK Yes No
6. Checks meter numbers? Yes No
7. Follows safety procedures? Yes No
8. Interacts well with customers? Yes No
9. Leaves hang card on missed meters? Yes No

Field Evaluation

Areas needing improvement

Follow up required on: _____

Meter Reader Signature _____

Evaluator Signature _____

Initiative 4b: *Include an initiative for performing Quality Assurance Audits as part of company personnel's Performance Excellence Process (PEP).*

Management has reviewed and discussed performing quality audits with each Contract Coordinator. An initiative to perform these audits has been added to each Contract Coordinator's 2012 PEP. Below is an excerpt of their PEP related to performing field quality audits.

Objective 1: Customer Experience Objective

Description: *Increase customer's satisfaction by enhancing the customer experience by offering timely solutions while maintaining a courteous and professional relationship with the customer.*

Measurement: *Work with contract meter readers to improve meter reading accuracy by conducting field quality audits on meter readers falling below accuracy target of 99.9% and on all new hires.*

Initiative 5a: *Work with IT and Billing Integrity to determine tolerance parameters*

Management completed research and made a decision to change our current meter reading consumption tolerance parameters. The research included contacting other utilities regarding their parameters and working with Billing and Information Technology to evaluate the impact of various tolerance parameters. A key concern was trying to determine the impact the tighter tolerance would initially have with the number of meters the readers would need to validate due to the tighter consumption tolerances. Management decided to take an aggressive approach with the tolerance parameters. A decision was made to tighten the parameters in the meter reading handhelds from 5 times high to 1.75 times time high on the upper consumption tolerance and from 99% to 50% for all rate classes except for residential gas which was changed to 75% for the lower consumption tolerance. Management expects moving to these much tighter tolerances to create an increase in the number of meter reads the reader will be required to verify for the first few months. However, the long-term benefits of improved accuracy will provide far greater benefits to customers, Billing Integrity and the Customer Contact Centers.

Initiative 5b: *Change tolerance parameters in meter reading system*

Management changed the consumption tolerance parameters in the meter reading system in November 2011. The tolerance parameter compares the customer's current month consumption to the same period in prior year. The new tolerance parameter changed the consumption upper limit from 4 times higher to 1.75 times higher and changed the consumption lower limit from 99% lower to 50% lower

except residential gas which is 75% lower. These tighter consumption limits resulted in improved meter read accuracy. Excerpt from the December 2011 Retail Operating Report reflect the improvement.

The full Retail Operating Report contains confidential information which is not available to the general public. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

Meter Reading Accuracy

Initiative 6a *Discuss with comparable companies that utilize contract meter readers to learn what they are doing in relations to performance measures for Business Partners.*

Management reviewed a proprietary benchmarking data study to identify utilities that use outside contractors to read their meters and performed well in the meter reading benchmarking study. Management contacted those utilities to discuss the performance standards contained in the contract with their Business Partners. Areas discussed regarding possible performance targets include accuracy, route completion, missed meters, and if those companies included incentives or penalties associated with performance targets.

Initiative 6b *Determine what changes, if any, should be incorporated into upcoming contracts.*

While the discussions did not yield any significant findings related to performance measures other utilities utilize with their contract partners, the discussions were beneficial in they confirmed Management was focusing on the correct performance areas in managing our Business Partner relationships. Since no significant findings were discovered, Management took advantage of the discussions with the other utilities to do some “brain storming.” From these discussions, Management was able to identify several potential ideas. Some are potential performance incentive opportunities and others are day to day operational opportunities. Management is reviewing each idea for possible inclusion in upcoming contract.

There are two ideas from the discussions that are likely to be included in the Scope of Work for the upcoming contract bid package. The first is a performance incentive measure. In an effort to continually improve our meter reading accuracy, Management is going to propose a two-tier incentive program for meter reading accuracy. Management currently has a risk/reward provision in our current contract for meter reading accuracy. This risk/reward incentive is tied to the Business Partner’s average meter reading accuracy. The Business Partner is penalized or rewarded based upon their average quarterly meter reading accuracy measured against our accuracy target. Management is going to propose keeping this program and introducing a new two-tier performance incentive program. Under this program, the incentive will be paid directly to each meter reader, based upon their meter reading accuracy. This will be a reward program only and will provide the opportunity for each meter reader to earn an incentive for exceeding our accuracy target. There will be two accuracy bands with incentives tied to each band. The higher the accuracy band the higher the incentive. Below are the details of the new program that are being proposed will be included in our upcoming Scope of Work for our contract negotiations.

Two-tier incentive program for exceeding accuracy rate of 99.9% paid directly to the reader on a quarterly basis:

- 99.91 – 99.95% \$50/month or \$250/quarter
- 99.96 – 100% \$100/month or \$500/quarter

The second idea from discussions likely to be included in upcoming Scope of Work is to leave a “Door Hanger” for every customer where an access issue prevented us from reading their meter. The Company would also leave a copy of the customer’s meter reading schedule which would inform them of when the meter readers will read their meter in the following months. If this program is successful, it should help reduce the number of meters the Company estimates.

Initiative 7: *Enhance communications with all meter reading employees and contractors to keep them informed of our current and year-to-date meter reading performance.*

Management purchased and installed bulletin boards at all locations where meter reading employees and contractors are assigned. Each month, the current month and year-to-date results of Meter Reading key performance goals are posted on the bulletin boards. The goals include: meter read accuracy on a macro and micro level, percent of meters estimated, customer satisfaction, and safety.

Below is a photograph of the Performance Metrics bulletin board at the LG&E Broadway Office Complex.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response and proposed implementation steps met the intention of Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

LG&E/KU considers this action plan complete and requests that it be closed.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

This exercise remains within the internal operating expenses of the Companies therefore minimal additional costs are envisioned.

B. Benefit Analysis

Benefits obtained from improved meter reads did transcend beyond Meter Reading into almost every area across the Retail Business. Not only has it improved the customer experience, it has also improved overall performance, and reduced customer call backs. This enhanced focus on quality has benefited customers by reducing billing errors and improving customer satisfaction.

C. Cost/Benefit Summary

Category	One Time	Annual Recurring
Cost	<ul style="list-style-type: none">N/A	<ul style="list-style-type: none">N/A
Benefit	<ul style="list-style-type: none">N/A	<ul style="list-style-type: none">Reduce errors and reworkReduce field tripsReduce customer call backsImprove customer satisfaction

D. Other Costs or Benefits

None identified.

Bruner

Action Plan Item #	Action Plan Item	Notes	Timeline Start, Duration and Completion	Findings/Status
<p>Meter Reading Accuracy Reporting: Purpose: Meter Reading accuracy metrics report performance to target in the monthly Retail Operating Report. S&OP recommendations are intended to harmonize and enhance consistency in preparation of accuracy reporting. Benefits: Enhance consistency and accuracy in data collection methodology and calculation of the accuracy percentage (harmonize LGE/KU tracking and reporting processes). Ensures audit trail of any adjustments in accuracy calculations. KPIs and individual accuracy reporting will be based on the number of errors found in a period divided by the number or reads for the period. Harmonize processes for TruCheck and AccuRead validation of preliminary error report. Contractors must provide support for the exclusion of errors from the accuracy calculation.</p>				
1	In the short-term: Develop Microsoft Access database that integrates the 2 data sources for KPI reporting (CCS and Fieldnet) for Accuracy reporting	See Item # 2 for the long-term resolution: Allows for a single data source to produce meter reading accuracy reports and KPIs. Ensures that the detail and summary reports tie in totality and the data ties back in totality to the source creating a solid audit trail		
1.1	Work with IT to gain access to Fieldnet data using Access	The initial approach by IT is impacting production performance. An alternative is to be researched and recommended by IT.	Start - 12/7/2011 Target date:	3/7: COMPLETED. Access to Fieldnet tables completed 2/22/2012
1.2	Work with IT and Clevest to modify Fieldnet "End of Day Summary" to include Device Type/Meter Type column	If 1.1 is accomplished this can be done in-house and not require Clevest	Start depends on completion of 1.1 Target date - 1/27/2012	3/7: Developed in-house. MR testing
1.3	Define requirements for and develop database and reports Limiting scope to 4 tables, 2 reports for initial implementation	KPIs and individual accuracy reporting will be based on the number of errors found in a period divided by the number of reads for a period. Reporting back to the period it occurred can still take place through this new database if required. Manager Meter Reading notifies Residential Service Center (RSC), Business Service Center (BSC), Billing Integrity and Business Offices if high errors found on any of the meter reader(s).	Depends on completion of Item #1.2 Duration - 4 weeks	3/7: underway
1.3.1	Define requirements for database tables. Four tables have be defined to this point (SOP Meter Reading Accuracy Reporting V2 - Appendix A-D)		Depends on completion of Item #1.2	3/7: Fieldnet data tables are defined. CCS data still to be defined.
1.3.2	Develop Access database tables and develop process to populate		Depends on completion of Item #1.3.1	3/7: Fieldnet data tables are defined. CCS data still to be defined.
1.3.3	Define requirements for Meter Reading Accuracy Report (SOP Meter Reading Accuracy Reporting V2 - Appendix E)	Detail accuracy report by reader	Depends on completion of Item #1.1	3/7: Successfully duplicated the Fieldnet End of Day Summary report in Access. User menu set up in Access to simplify user reporting process. Weekly sessions scheduled with MR clerk to develop and enhance MR reporting from Access. Target date: 4/30/2012. (The S&OP role is not limited to development of an Access DB and reports, but also entails on-going maintenance and support.)
1.3.4	Define requirements for Meter Reading Monthly Report (SOP Meter Reading Accuracy Reporting V2 - Appendix F)	Summary accuracy report by area, by contractor group	Depends on completion of Item #1.1	3/7: Weekly sessions scheduled with MR clerk to develop and enhance MR reporting from Access. Target date: 4/30/2012.
1.4	Test Access database and reports and perform rework		Depends on completion of Item #1.3.2; Duration - 1 week	3/7: Testing the database and reports is on-going through the weekly sessions with MR clerk
1.5	Train users on Access database and reports		Depends on completion of Item #1.4; Duration - 1 week	3/7: Dependent on completion of 1.4
2	Develop an IT-supported reporting platform	The participation and support of IT is required to execute the long-term solution. That target date is TBD. Meter Reading manager has submitted RFC	Depends on RFC 91826 assignment to IT	3/7: Not started – RFC 91826 Priority = Medium. Requested B Cockerill help to escalate the RFC to the Prioritization Committee

Attachment to Response to KU AG-1 Question No. 9

Bruner

Action Plan Item #	Action Plan Item	Notes	Timeline Start, Duration and Completion	Findings/Status
2.1	Define requirements for reporting platform	The reports defined and developed for the Access database and reports will be the starting point for the long-term reporting	Depends on RFC 91826 assignment to IT	3/7: Not started – RFC 91826 Priority = Medium. Requested B Cockerill help to escalate the RFC to the Prioritization Committee
2.2	Test reporting platform		Depends on RFC 91826 assignment to IT	3/7: Not started – RFC 91826 Priority = Medium. Requested B Cockerill help to escalate the RFC to the Prioritization Committee
2.3	Train users on reporting platform		Depends on RFC 91826 assignment to IT	3/7: Not started – RFC 91826 Priority = Medium. Requested B Cockerill help to escalate the RFC to the Prioritization Committee
3	Harmonize process for TruCheck and AccuRead validation of preliminary error report.	MR vendors must provide support for the exclusion of errors from the accuracy calculation	Jan-12	3/7: COMPLETED. Started for Accuread in January 2012 was already in place for TruCheck
4	Enhance CCS to route ZORR/ZRRR 'sendback' orders to Field Services rather than Meter Reading for LG&E	LG&E ZORR/ZRRR orders occurring within up to 2 days after portion close to automatically route to Field Services to be consistent with KU. This would eliminate a manual paper trail, but still an impact to Field Service and could impact the timing of getting bills out.	Depends on RFC 91825 assignment to IT	3/7: IT development is underway
5	Develop method to communicate to Billing Integrity billing meter reading adjustments which should not have been made and were removed from meter reading accuracy calculation (either coming from AccuRead / TruCheck contesting an error or a customer complaint that is researched both after the fact) so that they can monitor and train their employees	Manager Meter Reading is okay with providing this via a manual process, but Manager Billing Integrity needs to determine the time frame (e.g. weekly, monthly). This should be reported out of the new database. In the interim, meter reading will send emails with documentation	Jan-12	3/7: COMPLETED. Started sending emails to BI with examples from BW error report back in February and send after each full month is completed
6	Enhance documentation of AccuRead and TruCheck remediation training on Meter Pro by readers falling below the established accuracy benchmark. This will be a part of the monthly reporting from the meter reading vendors.	Monthly written verification, field reports and outcomes that AccuRead and TruCheck are requiring their employees falling below our established benchmark are receiving remediation training on Meter Pro. This reporting will be added to their normal monthly reporting. It will include name, date, and number of meters read correctly on Meter Pro and the frequency of remedial training for that individual	Jan-12	3/7: COMPLETED. Requested vendors to include in monthly reporting but will include in language of the new contract effective June 1, 2012
7	Manager Meter Reading performs an analysis on establishing a two tiered bonus system to better incentive employees for reinforcing accuracy	Once the budget impact can be calculated, Manager Meter Reading will make recommendations to upper management	Start - 1/3/2012 Completion - June 2012	3/7 in progress by MR manager
8	Begin implementing quality checks to independently check the field's meter read starting in Q1 2012. A calendar will be used to track the QC checks scheduled. Paperwork with documented results will be scanned and saved.	Manager Meter Reading has developed a checklist form to use for this QC function. Based on the accuracy rate performance for the prior month. All new hires and below performance targets will be audited and random audits of those meeting target if internal resources are able. Manager Meter Reading working on schedule and tracking based on November 2011 stats. It will be discussed with staff during December 2011 and will become part of auditors PEP in 2012. This information will also be posted monthly on all meter reading reporting location bulletin boards	Start - 1/1/2012. On-going	3/7: COMPLETED 3/2012

Meter Reading Parameters:

Purpose: Understand and optimize the CCS functionality for meter reading tolerance limits and independent validations. Report on verified reads which are outside the Fieldnet parameters but within the CCS parameters, resulting in no CCS BPEN being created to Billing Integrity. This reporting reflects

Attachment to Response to KU AG-1 Question No. 9

Bruner

Action Plan Item #	Action Plan Item	Notes	Timeline Start, Duration and Completion	Findings/Status
9	Test new Meter Reading ABAP report of Verified reads	Testing of the report is on-hold until Item #9.2 is more fully defined	Start - 10/31/2011	3/7: Revisit with the MR manager the business value in pursuing the necessary modifications and testing to complete this report for production. On-hold until Billing Integrity parameter changes are stable, i.e., BI has a consistent BPEM caseload at a manageable level. Target Date: 3/17/2012
9.1	Document the calculations of the CCS meter reading tolerances limits of independent validations functionality	Concepts to document include: expected consumption, degree day weighting, high and low factors, expected reading, maximum and minimum reading	Start - 1/13/2012; Duration - 2 weeks	3/7: Develop business narrative document describing CCS functionality rules for validating meter readings. Target Date: 3/22/2012 Reformat document with all MR implausible case types. Target Date: 3/9/2012
9.2	Billing Integrity working with IT to fine-tune CCS independent validations (IV) 'bands' and tolerance limits	BI is exploring establishing new, smaller consumption factor 'bands' to fine-tune the validation rules that result in IV06 BPEM cases for implausible readings. The goal is to safely modify the rules to reduce BPEM case creation.	Start - 1/5/2012	3/7: Current Billing Integrity bands and tolerance limits put into effect on 12/22/2011
Meter Reading Exceptions (Found/changed meters): Purpose: A harmonized and automated (CCS-based) process facilitates timely and more transparent resolution of meter exception issues. Benefits: Eliminates duplicate work on the Exception report by multiple groups. Gets the exception identified, researched, and corrected in CCS using more consistent and timely processes - so the customer gets billed. Reduces service order volume and multiple tech visits to customer's premise				
10.1	Enhance CCS with a new BPEM case for follow-up work assigned to the Field Services service order section when found/changed/new meter identified on the Meter Exception report	CCS BPEM cases will replace emails for workflow between MR and Field Services	Start: 1/4/12	2/23: COMPLETE. In production on 2/22/2012
10.2	Enhance BW reports to include 3-character code used by Field Services to identify various meter conditions, i.e., STL(stolen), CGI (Can't Get In)		Started but on-hold	3/7: RFC 63863: This has been assigned to another BW developer and he's provided an estimated target date. Escalate this RFC to the BW prioritization committee with goal of improving the priority. Target Date: 3rd quarter
10.3	Develop recommendations for process improvements for new/found meters identified on the Exception report	Research As-Is processes and identify root causes and improvements. Based on historical data from the Retail Operating Report there are Distribution Operations touchpoints that need process improvements	Start: 1/10/12	3/7: COMPLETE. Process flowchart published on Sharepoint Friday 3/2/2012
Benchmarking Review: Purpose: Compile data elements to identify peer utilities to confer with on meter reading best practices. Benefit: Discover processes that other utilities have employed within meter reading that have positively impacted accuracy.				
11	Review/analyze Meter Reading benchmarking data to identify peer utilities and reveal conclusions related to accuracy processes.	J Renfrow had compiled some quartile calculations based on raw data but would like some additional analysis. Analysis completed on 2/1/12, but phone conference timeline TBD	Start:1/16/12; Duration: 2 weeks	3/7:COMPLETE. MR manager conducted two teleconferences with peers for MR, to discuss accuracy measures.

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: II-R7

Recommendation Statement: Develop and implement Service Order business processes consistent with effective workforce management planning, service order prioritization, and a high level of schedule adherence.

Implementation Priority: Medium

LG&E Person Responsible: Butch Cockerill

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Conduct “all hands” meeting with all employees involved with the service order function along with the Companies’ contract partners to communicate the new vision and commitment to improve service order performance.	10/2011	Completed 11/2011
2.	Enhance communications with all service order employees to inform them on their performance. Create a “How are We Doing” bulletin boards at all Field Services locations to display monthly and YTD performance metrics.	11/2011	Completed 12/2011
3.	Utilize benchmarking data to identify utilities that provide superior customer service in field services and evaluate their processes and procedures to seek improvement opportunities. <ul style="list-style-type: none"> a. Analyze and evaluate benchmark data to identify comparable companies to align internal KPIs and other operational and performance results. b. Contact those companies to discuss their service metrics and operational processes to identify potential improvement opportunities. 	10/2011 11/2011	Completed 12/2011 Completed 01/2012
4.	Partner with internal customers to conduct comprehensive review of current processes and procedures to identify gaps. Will develop and implement corrective actions.	12/2011	Completed 12/2011
5.	Institute field quality audit to spot check the customer experience and service order completion accuracy. Establish targets for appropriate company personnel and include in their Performance Management Plan. <ul style="list-style-type: none"> a. Develop process to monitor and report field audits. b. Include an initiative for performing Quality Assurance Audits as part of company personnel’s Performance Excellence Process 	12/2011 02/2012	Completed 01/2012 Completed 02/2012

6.	Create specific service level goals for customer-requested orders, enhanced tracking of service level goals, establish processes to complete priority work orders within reduced timeframes, and identify opportunities to reduce the number of field visits.		
	a. Reevaluate current process for classifying and prioritizing customer requested orders to ensure accuracy.	12/2011	Completed 03/2012
	b. Develop reporting process to analyze customer requested service orders not completed by date requested.	02/2012	06/2012
	c. Develop reporting process to analyze assigned service orders that are re-dated for another day.	02/2012	06/2012
	d. Develop corrective actions to address causes identified in 6b and 6c above.	04/2012	08/2012

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Conduct “all hands” meeting with all employees involved with the service order function.*

Management held meetings during October and November 2011 with all Field Service employees. Topics covered included: review of audit findings, process issues, data entry errors and the impact those errors have on customer service, and customer relations in the field. Management also reviewed the recommendations for Field Services identified in the Management Audit Action Plan as well as the timelines for completing the recommendations. Below is a copy of the agenda.

- *Relation between Management Audit Action Plan and Field Service Operations*
- *Relation between the Audit and our Customer Experience Strategy*
- *“Tools” used to measure performance*
- *Implementation Plan key points:*
 - *Accuracy of data entry on service orders (meter reads, meter numbers, notes)*
 - *Courtesy and helpfulness to customers in the field*
 - *Monthly posting of Field Services KPIs on bulletin boards at each location*

- *Importance and use of utility benchmarking data to measure performance*
- *Timely completion and tracking of customer-requested service orders to meet customer expectations.*
- *Implementation of the Quality Field Audit program to document customer feedback as well as technician abilities and performance*
- *Question and answer*

The dates of the “all hands” are shown in the table below.

<u>Operational Area</u>	<u>Technicians</u>	<u>Date</u>	<u>Time</u>	<u>Meeting Place</u>	<u>Presenter</u>
LG&E Field Service	Employees and Contractors	10/24/2011	8:30a-10:00a	BOC Annex	Dale Bielefeld
KU Lexington, Mt Sterling, Winchester, Georgetown, Versailles	Employees and Contractors	11/14/2011	10:00a-11:30a	Loudon St Office	Dale Bielefeld
KU Greenville, Morganfield, Earlington, Eddyville, Barlow	Employees	11/17/2011	3:30p-5:00p	Earlington Office	Dale Bielefeld
KU Elizabethtown	Employees and Contractors	11/28/2011	8:30a-10:00a	Elizabethtown Office	Dale Bielefeld
KU Danville	Contractors	11/29/2011	8:00a-9:30a	Danville Office	Troy Venables
KU Campbellsville	Contractors	11/29/2011	10:00a-11:30	Campbellsville Office	Troy Venables
KU Shelbyville	Contractors	11/30/2011	9:00a-10:00a	Shelbyville Office	Troy Venables
KU Carrollton	Employees	11/30/2011	11:00a-12:00	Carrollton Office	Troy Venables
KU Paris	Employees	12/2/2011	8:30a-9:30a	Paris Office	Troy Venables
KU Maysville	Employee and Contractors	12/2/2011	10:30a-11:45a	Maysville Office	Troy Venables
KU London, Somerset	Employees and Contractors	11/15/2011	9:00a -10:30a	London Office	David Marler
KU Pineville, Harlan, Middlesboro	Employees	11/16/2011	9:00a -10:30a	Pineville OC	David Marler
ODP Norton, Pennington Gap	Employees	11/17/2011	9:00a -10:30a	Norton Office	David Marler
KU Richmond	Employees and Contractors	11/22/2011	8:00a - 9:30p	Richmond SC	David Marler
KU Morehead	Contractors	11/22/2011	10:30a-12:30a	Morehead Office	David Marler

Initiative 2: *Enhance communications with all service order employees to inform them on their performance.*

Management purchased and installed bulletin boards at all locations where field service employees are assigned. Each month, Management will post the results of Field Service’s key performance goals. The goals include: monthly and year-to-date service orders created and completed, current service order backlog, costs per order and average number of service orders completed daily per service technician.

Below is a photograph of the Performance Metrics bulletin board at the LG&E Broadway Office Complex.

Initiative 3a: *Analyze and evaluate the benchmarking data to identify the comparable companies to align internal KPIs and other operational and performance results.*

Management reviewed a proprietary benchmark data study to select utilities that most closely matched the Company's size and field service operation. The goal was to compare our performance against those considered to be a "peer" utility. Detailed reviews were conducted comparing our performance against the other utilities in the areas of service orders generated and completed annually, service orders completed per tech, and cost per service order completed.

Initiative 3b: *Contact those companies to discuss their service metrics and operational processes to identify potential improvement opportunities.*

Management reviewed a proprietary benchmark data study and selected comparable regional utilities that performed well and contacted them for further discussions regarding their field service operations. Field Service Management also attended a workshop and participated in breakout sessions that provided direct interaction and discussion with other utilities regarding metrics and best practices in the field services area. From these discussions, the Company was able to confirm the processes in place for addressing customer's request for service are very similar across all the utilities.

The following results were learned:

- *All of the companies dispatch and complete their service orders through mobile computing systems.*

- *Most of the companies utilize appointment scheduling in two-to-four hour timeframes; LG&E and KU schedules two-hour timeframes for customers who need appointments during the work week.*
- *Most of the other companies utilize field surveys to measure technician performance, safety and technical abilities.*
- *The peer group utilizes phone “call back” surveys to measure customer satisfaction. We are planning to utilize this approach as well as field audits as discussed in Initiative 5 under this Recommendation and in our response to Recommendation 10 Initiative 4.*

Initiative 4: *Conduct comprehensive review of current processes and procedures to identify gaps.*

Management conducted a review of field service processes and procedures to identify potential operational gaps. The review included an examination of internal service order processing procedures, Key Performance Initiatives, and Business Intelligence reports. Management also reviewed the electronic order handling processes between CCS and Ventyx Mobile system. From this review, a process gap was identified with after hour reconnects. Further analysis of the after hour reconnect process determined the main issue resulted from inadequate coverage in certain areas across the state during weekends and holidays. Working with Distribution Operations, this process has been streamlined and sufficient resources have been assigned during weekend and holiday periods.

Initiative 5a: *Develop process to monitor and report field audits.*

Quality monitoring for field service activities involves a two-tier approach: 1) management performing random audits in the field, and 2) phone surveying customers who have recently requested a service action. Field Services has developed criteria that will be used to randomly select service technicians for field audits. The Company already had an initiative that required management to conduct safety audits on field employees and complete a form documenting their findings. This form has been updated to include a section for customer feedback. While at the job site conducting the safety audit, management personnel will ask the customer questions regarding their satisfaction with the work performed by the field service technician. Audits are random and each technician will be audited (on average) twice annually. The customer’s feedback will be shared with the employee, reviewed by management and followed up as necessary. The phone survey process is explained in detail in our response for Chapter II-R10 Initiative No. 4. On the next page is a copy of the Field Service Audit Form.

**Energy Delivery
 Field Service Job Site & Safety Audit**

1. Crew: KU: ___ LGE: ___ Contractor: _____
Crew Reporting Location or Name of Contractor

1a. If Contractor: Passported?: YES ___ NO ___ Passport shown on request: YES ___ NO ___

2. Name and class of employee directly in charge of work: _____

3. Name of immediate supervisor of employee directly in charge: _____

4. Location and brief description of work: _____

5. If a customer requested turn-off (gas/elec) or an electric turn-on, were proper procedures followed (correct seals and turn off/on method used, locks used or removed when necessary, order completed correctly in tablet)?
 YES ___ NO ___

6. If a customer requested gas turn-on, were proper procedures followed (walkthrough procedure, leak tested house line, verified gas on in house, order completed correctly in tablet)? YES ___ NO ___

7. If auditing a customer requested order, was customer present? YES ___ NO ___

12. Are all safety devices in working order? YES ___ NO ___ _____

13. Audit results discussed with employee in charge: YES ___ NO ___ _____

_____ Date of Audit _____ Time of Audit _____ Employee Performing Audit

Initiative 5b: *Include an initiative for performing Quality Assurance Audits as part of company personnel's Performance Excellence Process (PEP)*

Management has reviewed and discussed the audit process with team leaders and contract coordinators and this initiative has been included in their 2012 PEP.

Below is a copy of the objectives included in the 2012 PEPs:

Objective 4: Customer Satisfaction - Internal and External

Description: *Improve LG&E customer satisfaction ratings by offering timely field solutions and exceptional service as defined in the Customer Experience Strategy.*

Measurements:

- *Conduct customer satisfaction survey during field safety audits when possible/applicable (correct order type and customer is present)*
- *Investigate claims and issues impacting customer satisfaction and Field Service operations*
- *Average of two Job site/safety audits per tech annually*

Initiative 6a: *Reevaluate current process for classifying and prioritizing customer requested orders to ensure accuracy.*

Management conducted an evaluation to identify the key service orders that provide the greatest opportunity to improve customer satisfaction. Based upon this evaluation, Management concluded their greatest opportunity to enhance customer satisfaction was by ensuring the efficient completion of customer requests for the following three service types: Turn Service On; Turn Service Off; and Move In/Move Out.

Management also conducted a review of all service orders completed in 2011 and ranked them based upon the number of times a customer requested to have that type of service performed. This review determined that Field Services completed over 350,000 customer requests for service for the three above referenced service types representing over 48% of the service orders completed in 2011(see table below). These findings support Management's recommendation to focus on the above noted service order types.

Management has reviewed the processes associated with completing these order types and is making plans to move forward to develop a tracking and reporting mechanism to measure the percentage of these orders completed by the customer "need date." The "need date" is the date by which the customer requests the service order be completed. The "completion date" is the actual date the Technician completed the order in the field.

	Jan-11	Feb-11	Mar-11	Apr-11	May-11	Jun-11	Jul-11	Aug-11	Sep-11	Oct-11	Nov-11	Dec-11	Grand Total-2011	% of Total

Source: Business Intelligence Report 6620 Completed Service Orders for LG&E and KU for all of 2011

Initiative 6b: *Develop reporting process to analyze customer requested service orders not completed by date requested.*

Management is working with Information Technology to create reports to monitor service order completion dates. Once created, the reports will be generated from the Business Intelligence reporting function of the Customer Care System and sent to Field Service Management for review and analysis.

Initiative 6c: *Develop reporting process to analyze assigned service orders that are re-dated for another day.*

Management is working with Information Technology to create reports that will monitor re-dated service orders. Once created, the reports will be generated from the Business Intelligence reporting function of the Customer Care System and sent to Field Service Management for review and analysis.

Initiative 6d: *Develop corrective actions to address causes identified in 6b and 6c above.*

This initiative is scheduled to begin in April 2012.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response and proposed implementation steps met the intention of Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

Initiative 6b: *Develop reporting process to analyze customer requested service orders not completed by date requested.*

Management will develop reporting to analyze customer request service order not completed by date requested. The status will be reported during the next progress report period.

Initiative 6c: *Develop reporting process to analyze assigned service orders that are re-dated for another day.*

Management will develop a reporting process to analyze service orders that are re-dated. The status will be reported during the next progress report period.

Initiative 6d: *Develop corrective actions to address causes identified in 6b and 6c above.*

Initiative will begin once the reports required for 6b and 6c above are created. The status will be reported during the next progress report period.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

The projected annual recurring costs to add the six additional resources are approximately \$700,000 which includes salary and benefits. The additional resources are necessary to ensure adequate staffing to timely complete volume of service orders created across both companies. The costs to implement other recommendations are minimal. The development of the quality assurance process and quality performance reporting can be accomplished with existing staff.

B. Benefit Analysis

The additional resources will be utilized to work service orders affecting customer satisfaction, billing and revenue collection activities, and to develop and analyze operational data. Quality assurance monitoring refers to the process of observing an employee’s meter reads or spot-checking completed meter reads. This should help to reduce errors and rework, field visits, lower customer call backs, focus training efforts and create employee development opportunities, which should improve customer satisfaction.

C. Cost/Benefit Summary

To be completed once the recommendation is marked as completed.

Category	One Time	Annual Recurring
Cost		
Benefit		

D. Other Costs or Benefits

To be completed once the recommendation is marked as completed.

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: II-R8

Recommendation Statement: Standardize Billing Integrity business processes; review and address staffing levels, while establishing an environment of continuous improvement.

Implementation Priority: Medium

LG&E Person Responsible: Butch Cockerill

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

4.	Enhance hiring process to include pre-employment aptitude based testing and increased educational requirements for certain positions.	06/2011	Completed 09/2011
5.	Reduce Billing Exception resolution period: <ul style="list-style-type: none"> a. Re-examine current system tolerances in an effort to identify appropriate tolerance levels that result in quicker identification of valid customer data anomalies. b. Implement the new system tolerances levels based upon finding of above analysis and monitor impact of new tolerances and adjust if necessary. c. Develop a method to track the time required to successfully complete key billing exceptions from creation to resolution. 	10/2011 02/2012 04/2012	Completed 01/2012 06/2012 08/2012
6.	Conduct evaluation of existing MV90 processes and system capabilities and recommend the most effective solution to address current requests to add more complex meters capable of capturing consumption over multiple time periods, support internal need for more detailed load utilization across entire service territory for enhanced forecasting capability, and prepare for future rate structure changes which will likely include more complex metering and billing structures.	10/2011	Completed 01/2012

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Establish Business Continuity and Data Integrity functional group*

Management developed job description for this newly created function. This new functional group will consist of five analysts that are responsible for developing process maps of the key processes within Billing Integrity that will aid in harmonizing the processes between LG&E and KU. In addition, these positions will conduct training as each process map is developed and establish and monitor quality standards for key billing exceptions.

Below is a screen shot from the Company's HR Information System providing information supporting the hiring date.

The breadcrumb trail at the bottom reads: Work Location | Job Information | Job Labor | Payroll | Salary Plan | Compensation.

A copy of the job description is found at Chapter II-R8-Attachment 1.

Initiative 2a: *Establish Key Processes*

This initiative is scheduled to begin in March 2012. This date was set to allow time to establish the Business Continuity and Data Integrity group, which is responsible for completing this initiative.

Initiative 2b: *Develop training and change management program*

This initiative is scheduled to begin in April 2012. This date was set to allow time to establish the Business Continuity and Data Integrity group, which is responsible for completing this initiative.

Initiative 2c: *Monitor Employees*

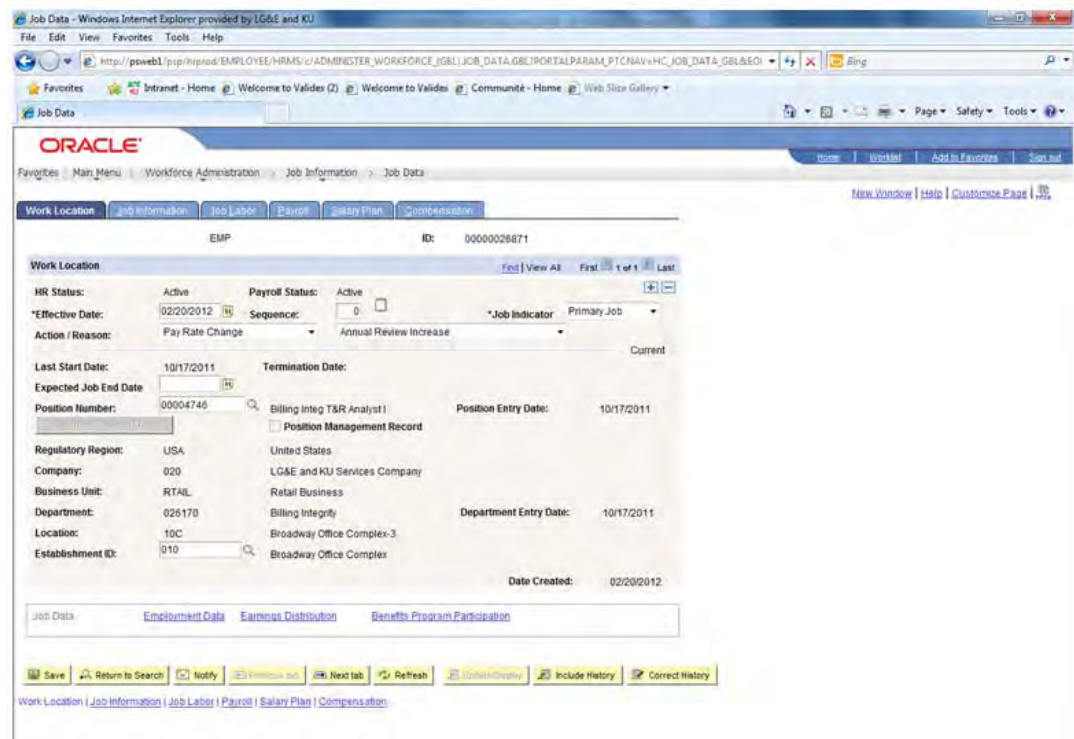

This initiative is scheduled to begin in April 2012. This date was set to allow time to establish the Business Continuity and Data Integrity group, which is responsible for completing this initiative.

Initiative 2d: *Implement measures*

This initiative is scheduled to begin in April 2012. This date was set to allow time to establish the Business Continuity and Data Integrity group, which is responsible for completing this initiative.

Initiative 3: *Staff Billing Integrity Rate and Tariff Analysts*

Management developed a job description for this newly created function. The new functional group consists of five analysts that are responsible for ensuring billing adherence to approved tariffs and to provide expertise in identifying customer impacts of proposed tariff changes. Billing Integrity has completed the hiring process and all five analysts started working during October 2011. Below is a screen shot from the Company's HR Information System providing information supporting the hiring date.

A copy of the job description is found at Chapter II-R8-Attachment 2.

Initiative 4: *Enhance hiring process to include pre-employment aptitude based testing.*

Management contacted various utilities to obtain information regarding their hiring and educational requirements for employees who perform their billing validation processes. Also, Management analyzed the current tariff structure and billing calculation complexity for some of their larger customers. Based upon these reviews, Management implemented the following changes to their recruitment process in an effort to enhance the employee recruitment process:

- Implemented a pre-employment aptitude test to enhance the selection process. Billing Integrity, along with other areas, developed a Customer Billing Exercise that is administered to potential applicants to evaluate their ability to analyze and process data. Depending on the position, examples include calculating a customer's bill, determining a customer's minimum payment, determining applicability of tariffs and writing an executive summary memo.
- Enhanced the educational requirement by requiring a college degree and/or numerous years of billing experience for the new Rate and Tariff Analyst and Business Continuity and Data Integrity positions. See Chapter II-R8-Attachment 1 & 2 for copies of the jobs descriptions.
- Modified current educational requirement for the Billing Analysts Associate positions by including language stating "A college degree was required or relative accounting/billing experience". See Chapter II-R8-Attachment 3 for a copy of the job description.

Initiative 5a: *Re-examine current system tolerances*

Management conducted several analyses of our meter reading and billing consumption tolerance parameters in an effort to find the most effective tolerance bands. Following these analyses, Management changed the meter reading consumption tolerance parameter in November 2011 (See response to Chapter II Recommendation No. 6). Management is continuing to monitor this change to evaluate the effect on meter read accuracy, meter reader workload, and customer billing prior to making any further tolerance changes.

Initiative 5b: *Implement new system tolerances*

Management will determine next steps toward tightening the current billing consumption tolerance bands after completing the evaluation of the recent changes made to the meter reading consumption tolerance changes. The current ongoing evaluation will provide information on the effect tightening the meter read tolerances had on meter read accuracy, meter reader workload, and provide a better understand the longer term impacts on customer billing.

Initiative 5c: *Develop a method to track the time required to complete key billing exceptions*

This initiative is scheduled to begin in April 2012. This date was set to allow time to establish the Business Continuity and Data Integrity group, which is responsible for completing this initiative.

Initiative 6: *Conduct evaluation of existing MV90 process and system capabilities*

A cross functional team was formed to conduct an analysis of our MV90 processes to determine how this system is used and by whom. The primary purpose of this analysis was to gain a better understanding of how Billing Integrity currently uses this system and provide recommendations to improve the efficient use of the system. The findings of this analysis provided recommendations to improve system reporting, system changes/enhancements, and made recommendations regarding the roles and responsibilities for the Billing Integrity employees that utilize this system. The team also recommended we engage the software designer to conduct a site visit to monitor our use of the system and provide user training. Management has reviewed the recommendation of the team and has agreed to bring the software designer onsite. A copy of the MV90 overview and conclusions is found at Chapter II-R8-Attachment 4.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response and proposed implementation steps met the intention of Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

Initiative 2a: *Establish Key Processes*

This initiative is scheduled to begin in March 2012. The status will be reported during the next progress report period.

Initiative 2b: *Develop training and change management program*

This initiative is scheduled to begin in April 2012. The status will be reported during the next progress report period.

Initiative 2c: *Monitor Employees*

This initiative is scheduled to begin in April 2012. The status will be reported during the next progress report period.

Initiative 2d: *Implement measures*

This initiative is scheduled to begin in April 2012. The status will be reported during the next progress report period.

Initiative 5b: *Implement new system tolerances*

Management continues to monitor the results of the recent changes to tighten the meter reading consumption tolerances. The status will be reported during the next progress report period.

Initiative 5c: *Develop a method to track the time required to complete key billing exceptions*

This initiative is scheduled to begin in April 2012. The status will be reported during the next progress report period.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

The projected annual recurring labor and benefits cost for the additional Billing Integrity analysts is approximately \$1.4 million.

B. Benefit Analysis

The Company's additional Billing Integrity resources and increased focus on process improvement for the key billing process should improve billing performance, address billing backlog issues, and improve customer satisfaction.

C. Cost/Benefit Summary

To be completed once the recommendation is marked as completed.

Category	One Time	Annual Recurring
Cost		
Benefit		

D. Other Costs or Benefits

To be completed once the recommendation is marked as completed.

**LG&E – KU Energy Services
EXEMPT POSITION DESCRIPTION**

Title: *Sr. Business Continuity and Data
Integrity Support Analyst*
Department: *Billing Integrity*
Location: *Louisville*
Reports to: *Manager-Billing Integrity*

For Compensation Department Use Only

Job Code:	E6703
EEO Category:	
Supervises:	
Approved by:	M Denham
Effective Date:	Oct 2011
Revision Date:	

Position Purpose

This position functions at the senior level responsible for assisting in the analysis of departmental policies and practices in an effort to identify departmental improvement opportunities and ensuring the adherence to departmental policies, practices, and Company Internal Controls. This position will also be responsible for assisting in the implementation, monitoring, and data analysis of the department's quality assurance/quality control programs and performance metrics.

Major Accountabilities

- Provides guidance, assistance and direction to analysts related to the analysis and determination of the impact of decisions that will affect the Billing Integrity department.
- Collects, analyzes, compiles and prepares data to formulate departmental recommendations for process improvements that assist in meeting Billing Integrity targets and objectives.
- Provides analytical-based problem solving in addressing functional inadequacies by analyzing, compiling data and utilizing root cause analysis to document and identify areas of improvement in the resolution of internal and external issues affecting Billing Integrity as it relates to the issuance of external customer bills.
- Responsible for the oversight, monitoring, and testing of internal controls to ensure adherence to Company Internal Control requirements.
- Responsible for the identification, development, documentation and implementation of best practice policies and practices as it relates to Billing Integrity processes and monitors adherence to such practices.
- Responsible for the evaluation of current billing processes and practices to identify opportunities for improvement and harmonization of such practices among all Billing Integrity applications.
- Identifies, analyzes, compiles and prepares data to complete monthly operational and statistical reports and provides support to the Manager, Billing Integrity and Billing Integrity Team Leader(s) in reporting of results and metric related to internal and external requests.
- Perform other duties as assigned by Manager, Billing Integrity.

Recommended Education/Experience

Bachelor degree in Business, Finance, or Accounting preferred or a work background indicating a

demonstrated ability to absorb information, apply conceptual skills in practical applications, achieve desired results in a highly technical, operating environment. Previous experience of 8 or more years in an analytical role is desired. Working knowledge of Six Sigma practices strongly desired. Must possess exceptional communication and people skills with the ability to deal effectively with internal and external customers. Problem solving and root cause analysis skills are a must.

Special Qualifications

Should be knowledgeable of different computer systems and corresponding applications to company activities. Primary computer skills should be with the Microsoft Office products (Excel, Word, PowerPoint, and Access). Advanced knowledge of Retail business operating systems and their application to Billing Integrity business processes (I.e. CCS, Mobile, SM etc.). An individual in this position must have the ability to multitask and take ownership of and resolve identified problems.

Attendance

Regular attendance is essential for satisfactory performance in this position.

Required Contacts

Communication and interpersonal skills are necessary for contact with internal customers for analytical inquiries with other department representatives.

Work Conditions

Normal office environment.

Physical Effort

Primarily sitting with optional standing or walking.

Job Hazards Or Danger

Low degree of danger or hazard associated with job.

EXEMPT POSITION DESCRIPTION

Title: Billing Integrity Tariff and Rate
Analyst Senior
Department: Billing Integrity
Location: Various
Reports to: Manager Billing Integrity

For Compensation Department Use Only

Job Code:	E3210
EEO Category:	
Supervises:	
Approved by:	Melinda Denham
Effective Date:	April 2011
Revision Date:	

Position Purpose

This position will function at the advanced and senior level for Billing Integrity analyst and is expected to demonstrate and possess an in-depth knowledge in the analysis, resolution and documentation of complex customer billing issues. Incumbent performs assignments in accordance with Company procedures and guidelines, works under minimal supervision, and receives specific instructions as to required tasks and results expected. This position is responsible for assisting the Billing Integrity Associates, Team Leaders, and Manager in the cross-functional business processes that impact Billing Integrity.

Major Accountabilities

- Must be able to perform and effectively explain complex billing adjustments to both external customers and internal management.
- Calculates and explains complex rate structures to internal and external customers and serves as the expert for internal and external customers to resolve billing errors.
- Closely interacts with internal departments to research and correctly identified billing errors and works to resolve such errors.
- Researches accounts and obtains documentation necessary to assist in the company's response to PSC complaints.
- Understands and reviews electric and/or gas contracts; and updates and maintains the contract information in CCS.
- Assists in the review of new and proposed rate structures.
- Maintains expert working knowledge of Rates, Rules and Regulations for furnishing electric and gas service for the Company and be able to communicate such to internal departments.
- Works closely with rate and regulatory departments to test and institute new rates, ensuring the accurate billing occurs.
- Maintains expert working knowledge of the billing and account information contained in CCS.
- Must be able to provide exceptional customer service to all internal and external customers.
- May assist in the training of Billing Analysis Associates as requested by Team Leader or Manager.

- Maintains critical documentation on resolution of complex customer billing scenarios.
- May serve as temporary Team Leader in absence of Team Leader and Manager.
- Other duties as assigned.

Recommended Education/Experience

Bachelor's degree in accounting, finance or business-related area and over fifteen (15) years of customer accounting/billing experience in a regulated environment using SAP/CCS is required. Prior experience in other phases of the Billing Integrity Department or a related area is required. Working knowledge of PC systems including Word and Excel required; excellent Excel knowledge and skills a plus. Effective communication skills in dealing with fellow employees and external customers. Must be able to work limited supervision. Must possess exceptional people skills with the ability to deal effectively with internal and external customers. Excellent problem solving skills are a must.

Technical Skills

An individual in this position must have expert working knowledge of the rates and tariffs that affect the Companies (LGE and KU) billing and customer application processes. This position collaborates with other departments within the company to address customer complaints resulting from billing practices, reviews customer accounts to ensure accurate customer billing data and successfully performs complex billing adjustments as appropriate. This position also is responsible for performing root cause analysis and documentation of resolution of complex customer billing issues.

Excellent interpersonal skills for communicating complicated rate structure and billing explanations in both written and oral formats to others, both within and outside the corporation. Ability to use PC and mainframe based applications.

Must be able to effectively manage responsibilities and be able to successfully manage to meet deadlines and regulatory requirements to meet all departmental goals. Must have the ability to multitask and take ownership of identified problems with customer accounts.

Attendance

Regular attendance is essential for satisfactory performance in this position.

Required Contracts:

Frequent contact with co-workers in Billing Integrity, and throughout the Retail/Energy Delivery Line of Business (e.g., Field Services, Meter Reading, Review Protection, Electric and Gas Operations, Customer Service, etc.). May interact with company-wide leadership in the recommendation and resolution of complex customer issues that involve PSC-level complaints. May also interact with customer groups. Daily contact with outside customers related to account billing adjustments and corrections may be required.

Work Conditions

Normal office environment.

Physical Effort

Primarily sitting with optional standing and walking.

Job Hazards Or Danger

Low degree of danger or hazard associated with job.

**Louisville Gas and Electric Services Company
NON-EXEMPT POSITION DESCRIPTION**

Title: *Billing Analysis Associate II*
Department: *Billing Integrity*
Location: *Lexington or Louisville*
Reports to: *Billing Integrity Team Leader*

For Compensation Use Only

Salary Grade:	Job Code:
	<i>N2003</i>
EEO Category:	Emp. Code:
Supervises:	
Approved by:	
Effective Date:	
Revision Date:	June 2009

Position Purpose

This position is responsible for ensuring the accuracy of customer billing records contained in the Company's (LGE and/or KU) internal customer care system(s) ("CCS") by analyzing identified customer billing exceptions and researching customer billing complaints. Must be able to correct customer accounts and adjust customer bills as necessary in accordance with state regulations governing the furnishing of electric and gas service for the Company. An individual in this position must have an understanding of the rates, tariffs, and regulations that affect the Company's billing processes. This position will also analyze bills to verify correctness and coordinate meter rereads and meter change out requests when needed. This position collaborates with other departments within the company to address customer inquiries regarding their account and reviews customer accounts to ensure accurate customer billing. An individual in this position must have the ability to take ownership of identified problems with customer accounts and must be able to resolve the problems in a timely manner. It is anticipated that a person would spend a minimum of three years in this position before becoming eligible for promotion.

Major Accountabilities

- Must be able to work well as a team member, to develop and manage internal relationships, and exercise professional judgement.
- Researches and corrects errors on service orders and customer accounts in CCS.
- Maintains accurate, auditable customer billing records in CCS.
- Helps prepare monthly statistical reports.
- Processes various daily reports in a timely manner.
- Coordinates the completion of pending service orders, which includes meter changes, removals, installs, new accounts, customer changes, turn ons and offs .
- Analyze customer account information to calculate and processes billing corrections including rebills and billing adjustments.
- Correct or estimate usage necessary to render an accurate bill.
- Provide accurate information necessary to explain CCS account information to internal and external customers
- Researches accounts and obtains documentation necessary to assist in the company's response to PSC complaints.
- Closely interacts with internal departments to research and correct identified billing errors.
- Assumes responsibilities as directed by Team Leader to meet all departmental goals and deadlines for work group.

- Maintains a working knowledge of Rates, Rules and Regulations for furnishing electric and gas service for the Company.
- Maintains proficient knowledge of the billing and account information contained in CCS.
- Problem solving skills.
- Other duties as assigned.

Recommended Education/Experience

Bachelor's degree in finance, accounting or business-related degree is required or three (3) years of customer accounting/billing experience in a regulated environment utilizing SAP/CCS or transferable experience and skills which result in equivalent job knowledge is required. Working knowledge of PC systems using a Windows based operating system, including Word and Excel required; proficient Excel knowledge and experience a plus. Works with assistance and moderate supervision. Must possess effective communication skills and good people skills with the ability to deal effectively with internal and external customers.

Technical Skills

Must possess the ability to perform complicated rate calculations with multiple components. Must be able to analyze and interpret data to render accurate decisions. Must have effective communication and organizational skills. The highest degree of accuracy and timeliness is mandatory. Errors will result in incorrect bills being mailed to customers; must be able to multitask and take ownership of and resolve problems. Problem solving skills are a must. Must be able to work with limited assistance and moderate supervision.

Attendance

Regular attendance is essential and required for successful performance in this position.

Work Conditions

Works with supervision and specific instruction. Requires ability to manage multiple tasks and handle stress. Undetected errors would normally result in an adverse effect on employee's work unit.

Required Contacts

Frequent contact with employees in other departments to exchange information, answer billing questions, etc. Contact with outside customers related to basic questions may occur.

Energy Delivery – Retail Business

MV90 Overview and Recommendations February 15, 2012

Overview:

Billing Integrity recently completed a review of the MV90 system, documenting the processes completed by the system and reviewed how the two Billing Integrity (BI) employees operate and utilize the system. The purpose of the review was to gain greater understanding of how we use the system, increase our understanding of the system's capabilities, and identify improvement opportunities. The MV90 system captures meter pulse consumption data and translates the pulse data into numeric data. This system is a vital tool for BI as the data maintained in the system is used to bill many of our largest customers. Additionally, this system provides consumption data for other areas of the company aiding them with performing many of their tasks.

The MV90 system is monitored and operated by two BI analysts working in Lexington. The primary responsibilities of these analysts are meter setup, data maintenance, and data integrity. A large portion of this study was to monitor how these employees perform their work to gain a better understanding of their processes and challenges. Within the LGE/KU service territory numerous customers have been set up with meters programmed to capture load profile meter pulse data. These meters register pulse interval data in response to the customer's usage. MV90 collects this meter pulse data received from load profile programmed meters and converts or "translates" this data into customer consumption data. The MV90 system also converts this consumption data into numeric meter read data that can be entered in the Customer Care System (CCS) and billing purposes. The majority of load profile meters used in the LGE/KU service territory capture pulse data in 15 minute intervals. There are a few meters, however, that have been programmed to capture pulse data in 5 minute intervals.

Depending upon the method used to collect the data determines the amount of interaction the Billing Integrity employees have with the data. The two primary methods for collecting consumption data is by manually probing the meter or by remote interrogation. Load profile data is acquired either manually or remotely. Manually interrogated meter data is obtained by a meter reader who probes the meter with a hand held or lap top device. Remotely interrogated meter data is obtained through one of several MV90 remote interrogation processes (electronically via Transmission Control Protocol Internet Protocol (TCP/IP)/internet connection, modem or telephone line).

A nightly batch process uploads the meter reads and usage data probed by the meter reader. Most of our larger customer's meters are remotely interrogated. With this process, the meters are remotely called once a week and on the periodic read date of the particular meter. Because of the quantity of consumption these customers consume, BI analyses the usage weekly in an effort to identify and resolve potential issues prior to the end of the billing window. The weekly reviews allow the MV90 personnel to quickly identify and respond to any informational gaps in

the pulse data. If the remote call fails, MV90 personnel attempt to manually call the meter. If no connection is made with the meter, Meter Shop personnel are sent to the sight to investigate.

Once all the data has been collected, the data must be translated into useful billing data. This could include “splitting files”, combining files, and aggregating or totalizing meters. All of these functions in addition to generating reports that are sent to some customers providing them with detailed Time of Day information about their operation are performed by the two MV90 analysts.

In addition to the billing data generated by MV90 and utilized by the Billing Integrity group, other internal departments also utilize the data maintained in the MV90 system. These groups include: Load Research, System Analysis and Planning, Engineering, Sales Analysis and Forecasting, and Major Accounts.

Conclusions:

Billing Integrity's MV90 Analysts perform a variety of duties. They have responsibility not only for acquiring consumption data from meter pulse information; but, they are also responsible for ensuring that the meter data housed in MV90 is accurate and up to date. Since the move to CCS, the MV90 translators have taken on added responsibility for ensuring the MV90 data is correctly entered into CCS. A large portion of the MV90 personnel's time is spent validating and revalidating information to ensure that all meter data necessary for billing is obtained and entered correctly. However, we learned that the MV90 analysts no longer have to review and interact with each piece of data processed through the system. With some recent system upgrades and review of current operational processes, improvements were made that reduced the amount manual manipulation of data.

Since the implementation of CCS, the companies' have introduced new complex, 3 tier time of day (TOD) structured rates; acquired redundant capacity customers; revamped its curtailable service riders; and redefined LGE's method for calculating Power Factor. Each of these items has brought new meter programming challenges, introduced the need for more specific rate understanding, and created more time consuming process steps. More and frequent interaction with the meter asset group has also resulted, to address challenges related to the newly implemented rate tariff structures. In addition, the introduction of CCS and more complex rate structures has created a need for more interaction between the MV90 and the Major Accounts/Economic Development groups.

The recent merger of LKE with PPL has also placed more emphasis on revenue forecasting. This renewed emphasis has created the need for more real time consumption data from our largest customers. As a result, there has been an increased interaction between MV90, the Load Research, and the Sales and Forecasting groups.

Each of these changes has placed more responsibility on MV90 personnel and introduced more process changes to their daily work. Very little MV90 specific training outside of "On the Job" training has been provided to these individuals to address these new challenges. Most of the training has been handed down from one analyst to the other based upon the way they were trained. The lack of training and the lack of process change management have led to overworked individuals who are unsure of their responsibilities. In addition, the MV90 data needs of other groups outside of Billing Integrity continue to increase and we have concerns about our current ability to fully address their needs. These other groups look to the BI MV90 analysts as the MV90 experts.

Recommendations:

1. Enhanced Vendor Support: Engage Itron in addressing such items as:
 - File Maintenance to alleviate the cumbersome processes associated with splitting and combining files.
 - Total period data acquisition to more efficiently obtain daily peaks without the need to run each day as a separate report
 - Exception reporting to eliminate the need to maintain external "checklists"
 - Data calculations to eliminate the need for manual calculations in external spreadsheets
 - Automated report creation and customer data "push" capabilities to automate the emailing of the customer's meter data reports
 - System upgrade benefits and liabilities that include a full explanation of the pros, cons and customer experiences related to system upgrades.
 - Evaluate skill sets of our MV90 analysts and make training recommendations.
 - Meet with internal users to gain understanding of their MV90 needs and recommend corrective actions to address their issues.
 - Projected costs for a week long onsite engagement is approximately \$20K

2. Training: Provide MV90 specific training to those individuals who have primary responsibility for maintaining and utilizing the data in the MV90 system. Evaluate the recommended training programs based upon Itron's observation of our analysts. Funds are available in BI current budget to provide the recommended training. Itron offers the following specific MV90xi training courses:
 - MV90xi Basic Operational Training
 - MV90xi Advanced Operational Training
 - MV90xi Administrator Training
 - MV90xi IT Training

3. Internal Operations Support: Utilize the information obtained from Itron's discussion with our internal users to evaluate the best way to meet their needs. The evaluation should include the need to create "In-house" expertise to help business operations by:
 - Creating new customized reports to eliminate the need to manually enter data into external spreadsheets
 - Creating exception reporting to eliminate the need to maintain external "checklists"

- Providing easier and consistent communication between business and IT operations
 - Being a conduit for information and system capabilities for groups external to BI
 - Identifying process improvements and enhancement opportunities
4. Other systems: Evaluate enhancements to Non-Mv90 systems to include
- Provide MV90/CCS data reporting capabilities utilizing BW
 - Allow "Combined" files to be automatically exported from MV90 to CCS
5. Process mapping and review: Review current processes to determine if:
- The roles and responsibilities MV90 personnel have for CCS data maintenance should remain as is or transition to Billing Associates/Analysts
 - Current criteria for the inclusion of a meter in MV90 are sufficient or determine if visual meter reading is more appropriate.
 - The responsibilities MV90 personnel have for load survey metering data and non-billing report generation should transition to other non-billing groups.
 - The current status of meter reprogramming for meters set in the field is adequate. Many kVA billed meters have not been reprogrammed to capture kVA, which has to be derived from MV90 data.
6. Upgrade MV90 2.0 to version 3.0
- Just learned that need to move to 3.0 by year end to meet new internal IT Corporate mandate.
 - No system should be running on Window XP by end of year.
 - All systems need to run on Window 7.
 - Itron has stated will be able to assist us with this conversion while down conducting their operational review.
 - Need to work with IT on cost analysis

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: II-R9

Recommendation Statement: Carefully plan and deploy full-balance dunning changes in a manner that is sympathetic to customer need.

Implementation Priority: High

LG&E Person Responsible: Butch Cockerill

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Meet with KPSC in informal conference to discuss planned changes to dunning process	07/2011	Completed 07/2011
2.	Implement full account balance dunning over the course of four months to control operational impact	08/2011	Completed 11/2011

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Meet with KPSC in informal conference to discuss planned changes to dunning process*

Management met with representatives from the KPSC and the Office of the Attorney General for an Informal Conference on July 18, 2011. The purpose of the meeting was to review the Company's plan for implementing Full Account Dunning. Management also reviewed its customer communication plan and plan for working with customers who may have difficulty paying their entire past due balance. See Chapter II-R9 – Attachment 1 for copy of the Company's presentation reviewed during the Informal Conference.

Initiative 2: *Implement full account balance dunning over the course of four months to control operational impact*

The Company was aware that during the initial implementation of its Full Account Dunning program, some customers may experience financial hardships. Therefore, as part of the process to introduce the program, the Company developed a comprehensive communication strategy and enhanced its financial offering for customers. Additionally, the Company decided to phase in the new program to minimize its affect on customers and ensure its employees were available to efficiently respond to customer inquiries. Full Account Dunning began being phased into operation starting on August 1, 2011 in accordance with the Implementation Plan discussed during the Informal Conference. Starting with customer billing in December 2011, the transition to Full Account Dunning was completed and remains in effect today. Over 23,000 customers received past due bill notices during the four months the Company transitioned Full Account Dunning into operations. Because of the Informal Conference with the KPSC and Attorney General's office along with the advanced planning by the Company, no customer complaints were received as part of the implementation of this program.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response and proposed implementation steps met the intention of Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

LG&E/KU considers this action plan complete and requests that it be closed.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

The cost for the system development required to implement this change was approximately \$165,000.

B. Benefit Analysis

This change improved the management of collection's performances.

C. Cost/Benefit Summary

PSC Informal Conference Changes to Dunning (Collection) Process

July 18, 2011

Purpose of Presentation

- *Overview of dunning (collection) process (in place since April 2009).*
- *Review planned changes to the dunning process.*
- *Review customer impact assessment.*
- *Review implementation plan.*

Overview of Dunning Process

- *Current Process*
 - *Evaluate accounts based upon past due balance of "current bill only" to determine whether to issue a disconnect notice ("brown bill") to customer.*
- *Planned Process*
 - *Evaluate accounts based upon "total past due balance" to determine whether to issue a disconnect notice to customer.*

Customer Impact Assessment

- *Number of customers eligible for full account balance dunning on June 27 was approx. 23,000*
 - *Residential customers are 90% of total*
- *Average balance*
 - *Overall = \$204*
 - *Residential = \$198*
 - *Non-Residential = \$277*
- *Highest balance*
 - *Residential = \$2,598*
 - *Non-Residential = \$2,492*

Customer Impact Assessment

- *Customers should be aware of the amount they owe as it appears on each regular monthly invoice under the Billing Summary section and is included in the "Pay This Amount" section.*
- *Approximately 60% of the 23,000 customers have received a disconnect notice at least one time since April 2009.*

Implementation Plan

- *Modified language in "Important Information About Disconnection" brochure included with disconnect notice.*
- *Establish thresholds to phase-in change beginning with August billing cycle and work through different \$ threshold levels by end of November.*

	Threshold	# of Accounts	Acct Balances
<i>August</i>	<i>\$225</i>	<i>5,951</i>	<i>\$2.4 M</i>
<i>September</i>	<i>\$150 - \$224</i>	<i>5,456</i>	<i>\$997 k</i>
<i>October</i>	<i>\$105 - \$149</i>	<i>5,957</i>	<i>\$754 k</i>
<i><u>December</u></i>	<i><u>\$75 - \$104</u></i>	<i><u>5,198</u></i>	<i><u>\$460 k</u></i>
Total		22,562	\$4.6 M

* *Table above reflects snapshot of customers on June 27; numbers change daily.*

Implementation Plan

- *Modified CCS to make it easy for Customer Service Representatives to identify customers impacted.*
- *Offer generous payment arrangements to these customers who owe for many months but who have not been disconnected (i.e., up to one year if customer requests).*
- *If customer is disconnected for non-pay, full past due balance must be paid prior to reconnection (as is the policy today).*
- *If customer is required to pay a deposit following disconnection (because customer does not have one on file), allow customer to pay over 4 months as required by tariff.*

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: II-R10
Recommendation Statement: Improve the focus on Quality.
Implementation Priority: Medium
LG&E Person Responsible: Cheryl Bruner

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)
 ONGOING (The implementation of this action plan is still in progress.)
 DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Evaluate efficiency (Average Handle Time) in relation to effectiveness (quality and first contact resolution) in completing customer calls. Develop metrics that reflect this balance.	10/2011	Completed 10/2011
2.	Re-evaluate policies and practices in call centers to minimize the transfer of customers.	10/2011	Completed 01/2012
3.	Develop “Soft Skills” training for management team and all front office and field personnel.	01/2012	Completed 01/2012
4.	Expand “Quality Monitoring” by developing and implementing transactional surveys in the Field Services group.	10/2011	Completed 03/2012
5.	Increase calibration sessions for management team and training group for RSC and BSC QA	08/2011	Completed 01/2012
6.	Conduct random transactional monitoring/review of billing transactions.	03/2012	09/2012
7.	Perform route audits / field spot checks of meter readings and field orders.	12/2011	Completed 02/2012
8.	Develop and implement a process to perform side-by-side quality monitoring of Business Office transactions.	10/2011	Completed 01/2012
9.	Perform random transactional monitoring of collections activities.	03/2012	Completed 03/2012
10.	Add to monitoring process, some calls that have been surveyed for customer satisfaction.	08/2011	Completed 01/2012

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Evaluate efficiency (Average Handle Time) in relation to effectiveness (quality and first contact resolution) in completing customer calls. Develop metrics that reflect this balance.*

The Residential Service Center raised their Average Handle Time (AHT) target in October 2011 while placing more emphasis on the quality of the customer experience. The Residential Service Center and Business Service Center modified their Customer Service Representative (CSR) evaluation placing more weight on quality monitored through monthly call sampling and less emphasis on average handle time. The table below highlights the new AHT goals.

Skill	December 2010 - September 2011		Effective October 2011	
	Seconds	Minutes	Seconds	Minutes
Outage- Electric			90	1:30
Billing	315	5:15	375	6:15
Credit	249	4:09	309	5:09
Moves	374	6:14	434	7:14
Reconnect	249	4:09	309	5:09

Initiative 2: *Re-evaluate policies and practices in call centers to minimize the transfer of customers.*

Management’s re-evaluation of policies and practices for transferred calls resulted in additional training plans and updates to the automated call response system. Below is an email sent to Quality Assurance emphasizing customer service representatives are to take the call (and not transfer it) if they have the needed knowledge, even if the call is of a type not assigned to the representative at that time. The section below highlights the communication with Operations Managers and Quality Assurance employees:

If a representative gets a call not related to a skill that comes in and the representative has the skill, the representative can go ahead and take the call. Do not score them off. For example, if the call comes in on Billing and the customer needs to make an installment plan and the representative has credit skill as well, the representative can help the customer install of transferring the call. This will apply for all skills.

Initiative 3: *Develop “Soft Skills” training for management team and all front office and field personnel.*

A Retail Service Trainer was hired and has developed soft skills curriculum for customer facing and related management personnel. The “Soft Skills” training was added to new hire training curriculum beginning in January 2012. Given the proprietary nature of the information, LG&E and KU will provide the information for visual inspection at the Companies’ offices.

Initiative 4: *Expand “Quality Monitoring” by developing and implementing transactional surveys in the Field Services group.*

Management developed a two-tier approach to expand their quality monitoring of the activities of the field technicians. The two approaches are: 1) management performing random audits in the field; and 2) phone surveying customers who have recently requested a field service action. The random field audit processed was explained in detail in our response to Chapter II Recommendation No. 7. Besides the random field audits, customers who contact the Residential Service Center to request a field service activity, will be randomly surveyed (by phone) to

provide feedback on their customer experience with the work performed by Field Services. This survey was implemented in March 2012 and will be conducted by the same third party vendor that conducts our other transactional studies. The data will be tabulated and reported to Field Service management for review and follow up as needed. Given the proprietary nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

Initiative 5: *Increase calibration sessions for management team and training group for RSC and BSC QA*

The Residential Service Center and Business Service Center calls are monitored by the Quality Assurance Team. Customer Service Representatives are rated on the soft skills and technical aspects. Internal ratings are calibrated on a weekly basis and the Management team calibrates on a monthly basis. This helps to ensure consistency across the Quality Assurance rating. The monthly calibration sessions were scheduled on January 9, 2012 for the full year. Attendees at these recurring meetings include RSC Operations Managers, Coaches, Quality Assurance, Resource Management personnel, Retail Trainers, BSC Manager, BSC Specialist, and Business Office representatives. The Quality Assurance team calibration occurs weekly.

Initiative 6: *Conduct random transactional monitoring/review of billing transactions.*

A responsibility of the newly created Business Continuity and Data Integrity functional group is to establish and monitor quality standards for key billing exceptions. Additional details of the responsibilities of this group are explained in our response under Chapter II Recommendation No. 8 Initiative 1.

Initiative 7: *Perform route audits / field spot checks of meter readings and field orders.*

Meter Reading and Field Service management has developed processes to monitor the activities of their field personnel. Each month, management will randomly audit the performance of the field service employees by obtaining feedback from the customers they visited and by conducting random field audits to inspect how they are performing their work. The meter reading field audits began in January 2012 and field service audits began in late February 2012. On the next two pages are copies of the Field Audit Forms for Meter Reading and Field Services. Additional details about the two field audits are contained under Chapter II Recommendation No. 6 Initiative 4 for Meter Reading and Recommendation No. 7 Initiative 5 for Field Services.

Initiative 8: *Develop and implement a process to perform side-by-side quality monitoring of Business Office transactions.*

A monitoring process described below has been implemented where Management conducts routine side-by-side reviews to ensure quality performance.

- *Regular side-by-side observations are conducted by the lead/manager with Customer Service Representatives (CSR) to review procedure adherence and appropriate utilization of customer service skills*

- *Lead/manager provides immediate feedback regarding performance*
- *If necessary, lead/manager conducts a 1-1 to discuss findings and make recommendations*
- *If additional training is recommended, the Retail Services Trainer is contacted to conduct refresher training*

Initiative 9: *Perform random transactional monitoring of collections activities.*

A collections activity identified as key to affecting customer satisfaction is prompt posting of customer payments to their account. Mailed payments and electronic payments represent two methods used by many customers to pay their bill. The electronic payments are entered by the customer into their bank website, Quicken, or some other electronic provider. Unfortunately, errors made by the customer in entering these payments prevent the Company from posting the payment to their account. Since the customer is not present when these payments are received, correcting these errors can be difficult. However, if the customer's payment is not posted to the customer's account, the account is at risk for disconnection of service due to non-payment.

Because of the potential impact this issue has on customer satisfaction, the Company has processes in place to attempt to correct errors made by customer's when remitting their payment. Examples of mail payment errors include failure to include the payment stub or account number, single payment for several accounts but amount of payment does not equal the amounts for the enclosed customer bills, and unable to read the check or other documents included with payment. The error most often encountered with respect to electronic payments initiated by the customer is when the customer enters an incorrect account number. The Company receives a list of payment exceptions daily and Company employees research each exception in an attempt to resolve the issue.

Management began in March 2012 to conduct random reviews of the payment exception lists and monitor the actions taken by Company personnel. Management will also monitor the exception list for possible process improvement opportunities.

Since the payment exception list is worked daily, the dollar balance total and quantity total remain low. The table from the Customer Care System below shows the 33 payment exception items across LG&E and KU as of March 1, 2012 for a total of \$3,550.

Initiative 10: *Add to monitoring process, some calls that have been surveyed for customer satisfaction.*

This has been added to the monitoring process. The section below highlights the communication with Quality Assurance employees:

If you have a survey call for the month it will be part of your Quality Assurance scoring.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response and proposed implementation steps met the intention of Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

Initiative 6: *Conduct random transactional monitoring/review of billing transactions.*

The status will be reported during the next progress report period.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

The costs identified in this recommendation represent those incremental costs outside the costs of previously stated recommendations. The transactional study in Field Services area is estimated at \$75,000 annually.

B. Benefit Analysis

Quality monitoring should improve accuracy in billing and meter reads and is expected to provide the benefit of fewer calls on these subjects and increased customer satisfaction. Monitoring calls from customers who have been surveyed in our transactional studies provides the benefit of information on how the customer viewed the experience and the opportunity to discuss their experience with the agent. Information received from additional transactional studies will provide the management team with meaningful information on the customer's view of the experience, which will be used to enhance processes and staff performance.

C. Cost/Benefit Summary

To be completed once the recommendation is marked as completed.

Category	One Time	Annual Recurring
Cost		
Benefit		

D. Other Costs or Benefits

To be completed once the recommendation is marked as completed.

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: IV-R1

LG&E/KU Person Responsible: John P. Malloy

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1a	Revamp the Customer Experience Strategic (CES) Plan <i>Note: Actions included in the CES are continuing while this exercise occurs. The longer timeline is to ensure the new aspects of the strategy are properly disseminated across the corporation.</i>	See Rec. IV-9	Completed 03/2012
1b	Implementation of the CES <i>Note: Implementation of specific actions in the CES are well underway and/or have varying timelines depending on the specific nature of the action. Therefore, the CES has a perpetual timeline given that tactics are completed and new tactics come into the plan.</i>	See Rec. IV-9	Completed 03/2012
1c	Integrate the CES in planning and budget process	See Rec. IV-8	Completed 10/2011
1d	Set credible targets for metrics included in Retail Operating Report and incorporate into day-to-day decision making.	See Rec. IV-4	Completed 10/2011
1e	Evaluate / implement TIA measures and determine recommended approach	See Rec. IV-10	01/2013 <i>(Moved to IV-10)</i>
1f	Inclusion of Customer Service priorities in strategic planning and budgeting process.	See Rec. IV-5	Completed 10/2011

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1a: *Revamp the Customer Experience Strategic (CES) Plan*

The Customer Experience Strategy has been revised to reflect ongoing efforts to improve overall operational performance. The implementation is fully funded in the Energy Delivery 2012-2016 Mid Term Plan. A detailed review is included in response to section IV-R9 and also shown on Chapter IV-R1 – Attachment 1.

Initiative 1b: *Implementation of the CES*

Implementation of the Customer Experience Strategy is well underway and fully funded in the Energy Delivery 2012-2016 Mid Term Plan. A detailed review is included in response to section IV-R9 and also shown on Chapter IV-R1 – Attachment 1.

Initiative 1c: *Integrate the CES in planning and budget process*

The Corporate planning process effectively reflects the customer facing initiatives as well as the implementation of the Customer Experience Strategy. Excerpts from the LGE – KU 2012 – 2016 Plan summary are referenced below.

The full plan contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

1.1 Vision and Mission

The Company's vision is to empower economic vitality and quality of life, and our mission is to provide reliable, safe, competitively priced energy to customers and best-in-sector returns to our shareowners. The Company is guided by six core values which are essential to fulfilling our vision and represent the expectations of our customers, employees, and shareowners: safety and health, customer focus, employee commitment and diversity, integrity and openness, performance excellence, and corporate citizenship. The following examples demonstrate actions taken in 2011 which are consistent with our vision, mission, and set of values:

- *The Company maintained a solid position in the most recent J.D. Power residential survey, with KU and LG&E ranking 5th and 6th among their peers in the Midwest region. In the 2011 J.D. Power Electric Utility Business Customer Satisfaction Study, KU and LG&E ranked 3rd and 10th (tied with Indianapolis Power & Light) respectively, among 22 utilities in the Midwest region.*
- *The Company has renewed its commitment to superior customer service and satisfaction and has launched "The Customer Experience", a corporate-wide initiative, designed to raise awareness among all employees and business partners about how they impact customers and how they can influence customer satisfaction. We are also implementing the recommendations of the KPSC customer service audit. Many of the recommendations were already underway as part of our "Customer Experience" strategy.*

2.4 Customer Service

Customer satisfaction is a core value of the Company illustrated by a strong record of providing exceptional customer service, while keeping rates among the lowest in the country. As a result of the Company's efforts in this area, the Company has received several J.D. Power awards over the years for residential and business customer satisfaction.

However, customer satisfaction across the utility industry began to decline in recent years as customers have been confronted with many external challenges, including severe weather events, an economic recession, and rising rates. The Company is not immune to these factors and has experienced a decline in customer satisfaction due to the 2008 wind and 2009 ice storms; financial hardships on customers created by the failing economy; rate and tariff adjustments; and changes related to the implementation of a new customer information system. Furthermore, the Company's filing of a Kentucky rate case in July 2008, negatively impacted customer satisfaction as significant changes to harmonize LG&E and KU tariffs went into effect, including late payment fees and modifications to the billing cycle. In the order settling that rate case, the KPSC initiated a focused management audit of LG&E and KU's customer service areas, citing customer complaints as the driver, the majority of which were related to the rate case. The audit was conducted by Liberty Consulting and the report was issued on September 14, 2011.

Well before the KPSC initiated the audit, the Company made significant investments in technology and initiated plans for the construction of a new call center to provide space for additional customer service representatives. Some of the technology investments included online self-service options with additional enhancements to serve visually impaired and Spanish-speaking customers; web portals to serve low-income customers and property managers; a new automated phone system for customer service; an online outage map including estimated restoration times and Smartphone apps for easy access; and mobile Geographic Information System (GIS) and dispatch capabilities to improve communication and efficiency among field crews.

The audit report states that the Company went too far in containing costs, rather than improving service. Liberty concluded the Company should have been willing to spend more in the interest of customers. The Company's focus always has been and will continue to be to hold down costs for customers, while enhancing service. The audit report consists of 56 key recommendations – 50 of which the Company submitted to Liberty for inclusion in the report. The Company is working with the KPSC to develop detailed action plans and has committed to making the necessary improvements. As part of the effort, the Company has planned for the incremental expenditures necessary to implement the recommendations which include the new \$5 million Morganfield center and the hiring of more than 100 incremental customer service employees, to enhance service. The Company has also initiated CEO and officer daily customer inquiry tracking to enhance awareness and transparency.

Additionally, the Energy Delivery plan presentation contains more specific and targeted areas of customer facing objectives and metrics. The abridged Energy Delivery 2012 – 2016 Mid Term Plan is included in this report (Chapter IV-R1 – Attachment 2).

The full plan contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies’ offices.

Initiative 1d: *Set credible targets for metrics included in Retail Operating Report and incorporate into day-to-day decision making.*

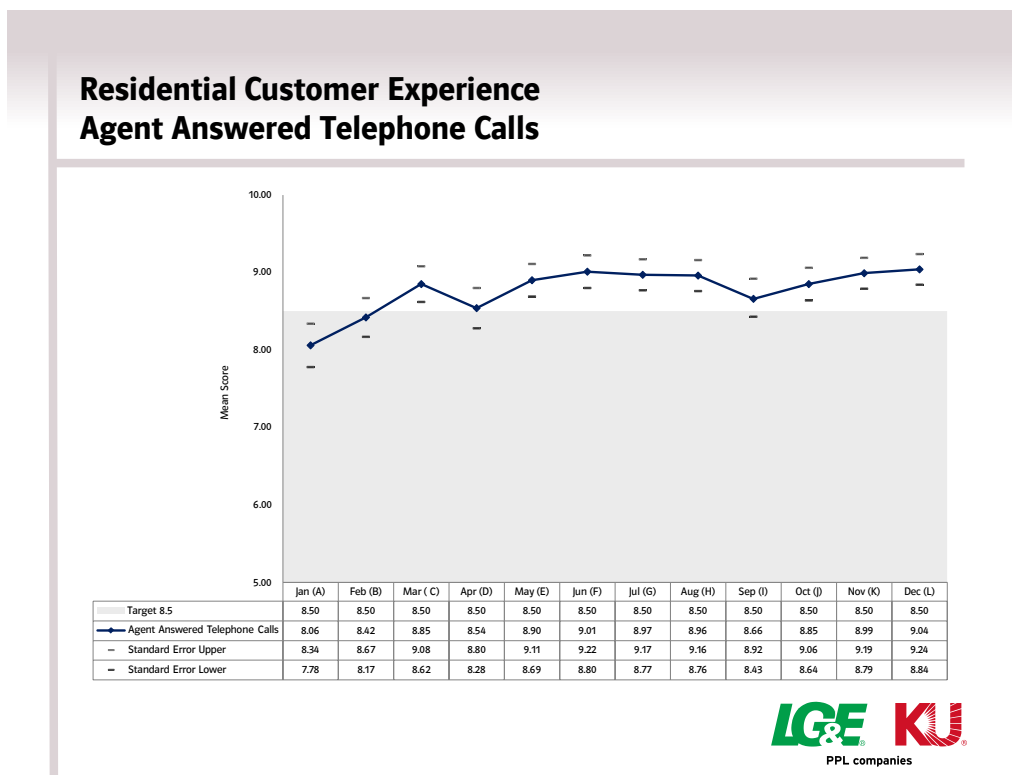

Residential Retail Service

Retail metrics have been revised to include credible targets to achieve industry first quartile metrics. The Residential Service Level has steadily improved over the course of the 2010 and 2011. By December 2011, the Residential Call Center achieved 79% of all calls answered in 30 seconds or less. The graph below depicts the “stair stepped” monthly targets and associated performance against these targets. Additionally, the Residential customer Abandonment Rate stabilized throughout 2011 and met the target level at or below 4% in December 2011.

Bellomy Research* completes Residential Call Center surveys of customers who have recently contacted the center. Residential customer's satisfaction continued to improve throughout 2011 exceeding the target of 8.5 on a scale of one to ten. The graph below depicts the overall customer experience. These surveys will be continued into the future.

**Bellomy Research is an experienced market research firm that conducts multi-channel transaction-based customer satisfaction surveys for LG&E/KU. Current studies include residential transactions (phone call, IVR, email, web and walk-in transactions), business transactions (phone call, IVR, web) and field transactions (tree trimming and field services metering work). The overall objective is to measure customer perceptions regarding their interaction. Results of the research are used to assess effectiveness of the handling of the contact and resolution of the issue.*

Business Retail Service

By December 2011, the Business Service Center (Business customer call center) achieved 89% of all calls answered in 30 seconds or less. The graph below depicts the “stair stepped” monthly targets and associated performance against these targets. On the following graph, the Business Customer Abandonment Rate stabilized throughout 2011 and met the target level of at or below 2% in November 2011.

Also, the Business Service Center can and routinely does assist with residential customer calls during periods of high volume.

BSC Abandonment Rate *(calls abandoned after queued to an agent)*

The transaction-based customer satisfaction surveys for the Business area continued to improve month over month throughout 2011. By December of 2011, average business customer satisfaction ratings were 9.26 on a ten point scale.

Business Customer Experience Agent Answered Telephone Calls

Email Service – Business and Residential

Email service levels for both business and residential customers improved during 2011. Two separate targets are managed against; the internal 24 hour response time and the associated industry 48 hour response target. Both service level targets were achieved and sustained by year end 2011 with performance of 96% against the 24 hour target and 99% against the 48 hour target. The graph below reflects overall performance.

Email service levels and associated customer satisfaction levels dramatically improved upon the implementation of a dedicated email response team.

Customers responded favorably through the email transaction-based surveys with a December 2011 score of 8.45 on a ten point scale as depicted on the graph below.

Residential & Business Customer Experience Agent Answered Emails

The balance of Retail customer service metrics and transactional survey scores for IVRU, Web Self-Service and agent Assisted Walk-in (Business Offices) customer contact channels can be reviewed in the abridged December 2011 Retail Operating Report as Chapter IV-R1 – Attachment 3.

The full Retail Operating Report contains confidential information which is not available to the general public. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies’ offices.

Meter Reading

Meter reading business process changes and associated quality control and quality assurance measures implemented from August through December of 2011 led to improved overall performance. By December 2011, both LG&E and KU meter reading business partners’ accuracy improved to 99.93% and 99.94% respectively against a target of 99.9%.

Additionally, the percentages of meter reading estimates are in line with expectations 1.13% for LG&E and 0.96% for KU. Note: Meter Reading estimates are impacted by other non-performance related causes such as storms and customer allowed access.

The following graphs reflect performance across both accuracy and meter reading estimates.

Meter Reading Accuracy

Percentage Meter Reading Estimates

Kentucky Public Service Commission Inquires

The graph below provides a month over month reflection of KPSC inquiries from 2009 through full year 2011.

In late 2009, the Commission inquiries began to stabilize. The trend continued and began to improve during 2010. In 2011, 11 of 12 months were below the prior year – prior month and the total of 2011 inquiries was the lowest in several years.

Lastly, the Energy Delivery Balanced Scorecard indicates 2011 year end operational performance. Below is an excerpt from the Energy Delivery Balanced Scorecard.

KPI	YTD Actuals	YTD Target	Full Year Target
Residential Service Level	79% December	December Target 80% of Calls Answered in 30 Seconds	End of Year Target 80% of Calls Answered in 30 Seconds
Business Service Level	89% December	December Target 80% of Calls Answered in 30 Seconds	End of Year Target 80% of Calls Answered in 30 Seconds
TIA Customer Satisfaction (points) (RCCS Study Results)	Q1 Results - 0 Points Q2 Results - 3 Points Q3 Results - 6 Points Q4 Results - 3 Points YTD Results - 12 Points	N/A	18 Points (of possible 32 Points)

The complete Energy Delivery Balanced Scorecard contains confidential and market-sensitive information which is not available to the general public. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

Initiative 1e: *Evaluate / implement TIA measures and determine recommended approach*

A new customer service index score has been developed to run in conjunction with the existing team incentive award as measured by the Residential Competitive Customer Satisfaction study (RCCS). The RCCS covers many areas of customers' opinions about their utility. An overall index of critical satisfaction factors has been constructed to simplify the review of the information. The resultant Customer Satisfaction Index (CSI) provides a single objective measure by which employees can compare LG&E and KU residential customers' perceptions relative to the competitive group. A total of 28 attributes are used to obtain the overall index and factors for residential customers. The grouping of these attributes into five factors is confirmed using factor analysis. The relative importance associated with each of the 28 attributes and five factors is determined using regression analysis. Together they represent a balanced synthesis of the overall residential customer perceptions. The CSI is comprised of five related factors. These factors are as follows:

- Power Quality & Reliability
- Price
- Billing & Payment
- Corporate Citizenship
- Communications

The target for all attributes and the overall CSI score is a mean score of 8.5 on a 10 point scale.

The CSI model contains proprietary information which is not available to the general public. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

Management continued parallel tracking of this index along with the current "top two box" score method and will evaluate the effectiveness of an indexing method.

Initiative 1f: *Inclusion of Customer Service priorities in strategic planning and budgeting process.*

The Corporate planning process effectively reflects the customer facing initiatives as well as the implementation of the Customer Experience Strategy. Excerpts from the LGE – KU 2012 – 2016 Plan summary are referenced below.

The full plan contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

1.1 Vision and Mission

The Company's vision is to empower economic vitality and quality of life, and our mission is to provide reliable, safe, competitively priced energy to customers and best-in-sector returns to our shareowners. The Company is guided by six core values which are essential to fulfilling our vision and represent the expectations of our customers, employees, and shareowners: safety and health, customer focus, employee commitment and diversity, integrity and openness, performance excellence, and corporate citizenship. The following examples demonstrate actions taken in 2011 which are consistent with our vision, mission, and set of values:

- *The Company maintained a solid position in the most recent J.D. Power residential survey, with KU and LG&E ranking 5th and 6th among their peers in the Midwest region. In the 2011 J.D. Power Electric Utility Business Customer Satisfaction Study, KU and LG&E ranked 3rd and 10th (tied with Indianapolis Power & Light) respectively, among 22 utilities in the Midwest region.*
- *The Company has renewed its commitment to superior customer service and satisfaction and has launched “The Customer Experience”, a corporate-wide initiative, designed to raise awareness among all employees and business partners about how they impact customers and how they can influence customer satisfaction. We are also implementing the recommendations of the KPSC customer service audit. Many of the recommendations were already underway as part of our “Customer Experience” strategy.*

2.4 Customer Service

Customer satisfaction is a core value of the Company illustrated by a strong record of providing exceptional customer service, while keeping rates among the lowest in the country. As a result of the Company’s efforts in this area, the Company has received several J.D. Power awards over the years for residential and business customer satisfaction.

However, customer satisfaction across the utility industry began to decline in recent years as customers have been confronted with many external challenges, including severe weather events, an economic recession, and rising rates. The Company is not immune to these factors and has experienced a decline in customer satisfaction due to the 2008 wind and 2009 ice storms; financial hardships on customers created by the failing economy; rate and tariff adjustments; and changes related to the implementation of a new customer information system. Furthermore, the Company’s filing of a Kentucky rate case in July 2008, negatively impacted customer satisfaction as significant changes to harmonize LG&E and KU tariffs went into effect, including late payment fees and modifications to the billing cycle. In the order settling that rate case, the KPSC initiated a focused management audit of LG&E and KU’s customer service areas, citing customer complaints as the driver, the majority of which were related to the rate case. The audit was conducted by Liberty Consulting and the report was issued on September 14, 2011.

Well before the KPSC initiated the audit, the Company made significant investments in technology and initiated plans for the construction of a new call center to provide space for additional customer service representatives. Some of the technology investments included online self-service options with additional enhancements to serve visually impaired and Spanish-speaking customers; web portals to serve low-income customers and property managers; a new automated phone system for customer service; an online outage map including estimated restoration times and Smartphone apps for easy access; and mobile Geographic Information System (GIS) and dispatch capabilities to improve communication and efficiency among field crews.

The audit report states that the Company went too far in containing costs, rather than improving service. Liberty concluded the Company should have been willing to spend more in the interest of customers. The Company's focus always has been and will continue to be to hold down costs for customers, while enhancing service. The audit report consists of 56 key recommendations – 50 of which the Company submitted to Liberty for inclusion in the report. The Company is working with the KPSC to develop detailed action plans and has committed to making the necessary improvements. As part of the effort, the Company has planned for the incremental expenditures necessary to implement the recommendations which include the new \$5 million Morganfield center and the hiring of more than 100 incremental customer service employees, to enhance service. The Company has also initiated CEO and officer daily customer inquiry tracking to enhance awareness and transparency.

Additionally, the Energy Delivery plan presentation contains more specific and targeted areas of customer facing objectives and metrics. The abridged Energy Delivery 2012 – 2016 Mid Term Plan is included in this report (Chapter IV –R1 Attachment 2).

The full plan contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

Liberty Consulting believes the implementation plan developed by LG&E and KU is appropriate.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

LG&E/KU considers this action plan complete and requests that it be closed.

Please note that initiative *Evaluate / implement TIA measures and determine recommended approach* will carry on until January 2013, however future reporting will occur in Section IV-10.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

These recommendations remain within the internal operating expenses of the Companies', therefore no additional "explicit" costs are envisioned. However, costs associated with the individual objectives or tactical plans are already included in the corporate budget and included in the cost analysis in other sections of this report.

B. Benefit Analysis

Improvement in organizational attitudes and priorities regarding the corporate objective to advance the customer service culture.

C. Cost/Benefit Summary

Category	One Time	Annual Recurring
Cost	N/A	N/A
Benefit	N/A	N/A

D. Other Costs or Benefits

None identified.

Customer Experience Strategy

2012 Tactical Plan

OUR VISION

LG&E and KU will be superior utility providers of innovative customer experiences.

OUR MISSION

To expand our relationships with all stakeholders by delivering outstanding customer experiences that create value and build trust.

OUR VALUES

- Safety and Health
- Customer Focus
- Employee Commitment and Diversity
- Integrity and Openness
- Performance Excellence
- Corporate Citizenship

TOP PRIORITIES

While the Vision and Mission provide the long-term objectives, a review of current circumstances in the form of ‘Top Priorities’ illustrate the immediate objectives. The Strategic Plan addresses these priorities.

- Continue commitment to workforce and public safety.
- Expand our relationships with customers by delivering positive customer experiences that create value and build trust.
- Continue commitment to corporate citizenship and community involvement.
- Align the organization, operations and processes of the business around the needs of customers.
- Create collaborative relationships that promote employee engagement.

In addition to the top priorities above, the following issues of importance have been identified and are included in the Customer Experience Strategy as areas of focus:

- Develop strategies, process models and information technology to design, manage and optimize the end-to-end customer experience process.
- Build metrics to comprehensively manage customers’ end-to-end experience with the company.
- Continue being effective stewards of financial, administrative and organizational resources.
- Create tariffs that competitively position the company and respect the overall impact on customers.
- Meet customer needs by advancing economic development and other customer products and services.

CUSTOMER EXPERIENCE STRATEGY

Our strategic theme is “Making a Connection” with our customers. The essence of the strategy is to increase LG&E and KU customers’ satisfaction by enhancing the customer experience through respectful relationships, timely solutions and exceptional service.

2012 TACTICAL PLANS

CUSTOMER PERSPECTIVE

Strategy	(1) Respectful Relationships
Department	Energy Delivery
Tactical Initiative	(1.1) Enhance relationships with trade allies
Objectives	Improve the quality of trade allies' work as it relates to compliance with Company Operating Guidelines and Customer Experience Strategy when performing service work such as the initial establishment of service (concentration in multi-premise connection objects).
Tactics:	<p>Establish a partnership with trade allies that promotes adherence to our processes and guidelines (e.g. multi-meter repairs, meter base repairs, etc.). Additionally, create a process, similar to our Safety Passport Training. Once certified, the trade allies will be listed as "Recommended Provider" for various programs (e.g. DSM).</p> <ul style="list-style-type: none"> A. Identify and prioritize key adherence issues (e.g. cross meters, new installations, etc.). B. Develop a business plan for promoting adherence to processes and guidelines. C. Develop a process to monitor trade allies' compliance with company Operating Guidelines and Customer Experience Strategy. D. Develop training plan. E. Develop marketing and sales plan. F. Execute.
Owner	<p>Butch Cockerill, Director Revenue Collections Dale Bielefeld, Manager Field Services David Huff, Director Customer Energy Efficiency Mike Hornung, Manager Energy Efficiency Plan and Development</p>
Timeline	Q2 2012
Budget	
Metrics	TBD

Strategy	(2) Timely Solutions
Department	Customer Energy Efficiency
Tactical Initiative	(2.2) Execute cost-effective energy efficiency campaigns.
Objectives	Implement cost-effective energy efficiency mass marketing and direct marketing campaigns that meet the individual 2012 participation and energy savings goals.
Tactics:	<p>Expand Energy Efficiency programs to create additional company and consumer value and achieve program goals.</p> <ul style="list-style-type: none"> A. New Residential Programs <ul style="list-style-type: none"> a. Refrigerator and Freezer Recycling (April 2012) b. Rebates (May 2012) c. Smart Energy Profile (May 2012) B. New Commercial Programs <ul style="list-style-type: none"> a. Customized Rebates (April 2012) b. Direct Load Control (May 2012) <p>Develop and implement mass media and communication plans to support all programs – specifically focusing on programs that do not include direct marketing campaigns (e.g. Customer Education, Residential Appliance Rebate, Refrigerator and Freezer Recycling, etc.).</p>
Owner	David Huff, Director Customer Energy Efficiency Lisa Keels, Manager Energy Efficiency Operations Chris Whelan, Director Communications and Brand Management Brian Phillips, Manager External Communications Cheryl Bruner, Director Customer Service & Marketing Wendy Wagoner, Manager Performance and Marketing

Energy Delivery

Abridged

2012 - 2016

October 14, 2011

Plan Highlights

Customer satisfaction is a core value at LG&E and KU. Energy Delivery strives to provide safe, reliable, and low cost service to our customers, enhancing the quality of life in the areas we serve. We are committed to enhancing our relationship with our customers by delivering positive experiences that create value and build trust.

- Funding levels within the proposed plan are established with the following priorities in mind:
 - Employee and public safety including compliance with industry regulatory requirements
 - Performance improvement in all customer facing areas
 - Improvement in gas and electric service reliability
 - Asset replacement to address aging infrastructure
 - Increased system capacity to meet forecasted customer demand
 - Significant increases in OPEX are proposed to:
 - Improve responsiveness to customer needs, in particular in the contact centers and billing

Plan Highlights

Energy Delivery Safety Performance Data – EEI Data

Plan Highlights

- Customer Experience

- *Advance the “Customer Experience” strategy/initiative*
- *Continue investments in enhanced customer contact channels and the migration to a Corporate “Unified Communications” platform*
- *Continue progress on enhancements to Customer Care System functionality*
- *Enhance our “Customer Advocacy” role through partnerships with customer focus groups*
- *Continue commitment to corporate citizenship and community involvement*
- *Create tariffs and regulations that competitively position the company and respect the overall impact on customers*
- *Continue to expand the portfolio of customer energy efficiency programs, including customer education on the need for energy efficiency*
- *Advance our understanding of customer behavior while gaining insight into customer needs*
- *Develop and pilot an overall Customer Experience index*

Plan Highlights

- OPEX
 - *Major Initiatives:*
 - Customer Experience Strategy
 - Reliability - Hazard Tree Program
 - Industry Regulatory Compliance
 - *Major Financial Risks:*
 - Storm Restoration
 - Customer Hardship and Uncollectible Accounts (uncertainty with LIHEAP)
 - Industry Regulatory Compliance

Plan Highlights

- Capital

- *Major Customer Initiatives:*

- Energy Efficiency Programs and Services
- Circuit Hardening / Reliability / Asset Replacement
- Pole Inspection and Treatment Program
- Distribution Automation
- Substation Enhancements
- Mobile Technology / Work Management Replacement
- Gas Leak Mitigation
- Magnolia Gas Compressor Addition
- Gas Compressor Station and System Enhancements
- Pipeline Integrity

Major Assumptions

- Energy Delivery improves our position in the residential J.D. Power and RCCS surveys with a continued focus on the Customer Experience.
- Customer expectations regarding levels of service and availability of information will continue to increase.
- Energy Efficiency projects and education will increase and continue to be an area of focus.
- Storm budgets are based on 5 year average.
- The plan includes no significant changes to industry regulation.

Percentage Meter Reading Estimates

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: IV-R2

Recommendation Statement: Give customer-service operational performance greater visibility and oversight at the corporate and parent levels

Implementation Priority: High

LG&E/KU Person Responsible: John P. Malloy

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1a	Develop / report customer service operational metrics in senior level performance reports	10/2011	Completed 11/2011
1b	Retain the Customer Experience Strategy steering committee to formally track and report on performance of strategic goals and tactical objectives. The steering committee includes: SVP Energy Delivery, Chief Information Officer, VP Corporate Planning and Development, VP State Regulation and Rates, VP Corporate Responsibility and Community Affairs, VP External Affairs, VP Corporate Communication, VP Retail Business.	Completed	Completed

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1a: *Develop / report customer service operational metrics in senior level performance reports*

KPSC Customer Inquiries are tracked and reflected in the CEO Daily Operating Report. Below is an excerpt from the CEO Daily Operating Report.

<u>KPSC Customer Inquiries</u>			
<u>PUC Complaints</u>	<u>Previous Day</u>	<u>MTD</u>	<u>YTD</u>
KPSC LG&E	1	12	12
KPSC KU	2	11	11
VSCC ODP	0	0	0
TOTAL	3	23	23

The full report contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

The Retail Operating Report reflects detailed monthly operational results against targets across the following divisions:

- Residential Service Center
- Business Service Center
- Business Offices
- Major Accounts
- Economic Development
- Customer Commitment
- Metering
- Meter Reading
- Field Services
- Billing Integrity
- Remittance and Collections
- Energy Efficiency

These performance reports are included in monthly managerial discussions and planning efforts. The full Retail Operating Report contains confidential information which is not available to the general public. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

The monthly Corporate Performance Report contains the following key performance indicators for Customer Service performance. This report is reviewed by senior executives.

Lastly, the Energy Delivery Balanced Scorecard is reported to senior leadership on a monthly basis and is also included in monthly managerial discussions and planning efforts. The complete Energy Delivery Balanced Scorecard contains confidential and market-sensitive information which is not available to the general public. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

Initiative 1b: *Retain the Customer Experience Strategy steering committee to formally track and report on performance of strategic goals and tactical objectives.*

The Customer Experience strategy steering committee remains an ongoing committee for formally tracking and reporting on performance of strategic goals and tactical objectives. The steering committee includes: SVP Energy Delivery, Chief Information Officer, VP Corporate Planning and Development, VP State Regulation and Rates, VP Corporate Responsibility and Community Affairs, VP External Affairs, VP Corporate Communication, VP Retail Business.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E/KU believes the implementation plan is appropriate.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

LG&E/KU considers this action plan complete and requests that it be closed.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

This exercise remains within the internal operating expenses of the Companies therefore no additional costs are envisioned.

B. Benefit Analysis

Executive attention to operational performance will ensure course correction where required are timely.

C. Cost/Benefit Summary

Category	One Time	Annual Recurring
Cost	N/A	N/A
Benefit	N/A	N/A

D. Other Costs or Benefits

None identified.

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: IV-R3

Recommendation Statement: Take actions at the parental level to reinforce PPL's commitment to superior service.

Implementation Priority: High

LG&E/KU Person Responsible: John P. Malloy

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1a	Set up Best Practice teams <ul style="list-style-type: none"> - Customer Service - Billing and Payment - Low Income programs - Energy Efficiency program - Economic Development - Community Involvement 	03/2011	Completed 05/2011
1b	Exchange Best Practices	04/2011	Completed 12/2011
1c	Exchange Call Center management expertise for review of current trends and business processes and seek performance improvement opportunities.	11/2011	12/2011 (<i>Moved to 03/2012</i>)

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1a: *Set up Best Practice teams*

Best Practice teams have been set up in the following areas:

- Customer Service
- Billing and Payment
- Low Income programs
- Energy Efficiency program
- Economic Development
- Community Involvement

Initiative 1b: *Exchange Best Practices*

The 2011 LGE-KU / PPL Retail Best Practice Annual Report covers the areas identified above (Chapter IV-R3 – Attachment 1). Additionally, separate reports reflect the comparison of low-income programs and energy efficiency programs. The 2011 LGE-KU / PPL Low Income Assessment Report (Chapter IV-R3 Attachment 2) and the 2011 Energy Efficiency Program Assessment Report (Chapter IV-R3- Attachment 3) are included in this report.

Initiative 1c: *Exchange Call Center management expertise for review of current trends and business processes and seek performance improvement opportunities.*

This objective was completed on February 24, 2012. A final report from this exercise will be available during the next reporting period.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E/KU believes the implementation plan is appropriate.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

Initiative 1c: *Exchange Call Center management expertise for review of current trends and business processes and seek performance improvement opportunities.*

The status will be reported during the next progress report period.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

This exercise remains within the internal operating expenses of the Companies.

B. Benefit Analysis

The adoption of best practice approaches in managing the Retail business will improve overall operations.

C. Cost/Benefit Summary

Category	One Time	Annual Recurring
Cost	N/A	N/A
Benefit	N/A	N/A

D. Other Costs or Benefits

None identified.

Customer Service Best Practice Report

Team	Customer Service
Leads	Cheryl Bruner/Bernie Molchany/Dave Ling
Objective	To enhance the relationship between LKE and PPL and to share best practices relating to Call Center operations, including: organizational structure, reward/recognition, training, quality assurance, forecasting/scheduling, technologies, and tech support.
Scope	<ul style="list-style-type: none"> • Establish strong peer to peer working relationships between the companies. • Share best practices, including these areas: <ul style="list-style-type: none"> ○ 21st Century's High Volume Call Answering ○ Web-based self-services ○ Enrollment in 21st Century's Mutual Assistance Service (MARS), ○ Avaya/Genesys phone system, ○ Increased adoption rates of IVR self-service. ○ Increased adoption rates of web self-service.
Findings	<p>PPL EU and LKE have long histories of being customer focused. The cultures of the companies are very similar and the peer to peer working relationships were established quickly and easily. All are focused on continually improving and providing customers the best possible service at a reasonable cost.</p> <p>PPL experienced an unprecedented level of storms in 2011. The magnitudes of these storms lead to customer communication issues.</p> <p>PPL reached out to LKE to learn about their experience with Twenty First Century's High Volume Call Answering (HVCA) as LKE has been using this service for a number of years.</p>
Recommendation	Continue to strengthen the working relationships established and share best practices to meet the above objective.
Status	The parties have built solid working relationships that continue to strengthen. PPL installed HVCA on 12/22/2011, and Dave Ling spent 4 days in Louisville in February 2012 seeking out and sharing best practices. There is an opportunity to benefit from these continuing efforts.

Customer Service Best Practice Report

Team	Billing and Payment
Leads	Mike Cooper/Mark Velicer
Objective	To enhance the relationship between LKE and PPL and to share best practices relating to credit/collections and payments.
Scope	<ul style="list-style-type: none"> • Establish strong peer to peer working relationships between the companies. • Share best practices, including these areas: <ul style="list-style-type: none"> ○ Estimating Budget Payment Plan payments to avoid high ‘true-up’ bills for customers. ○ Final accounts - outside collection agency performance ○ Active accounts - behavioral (risk) scoring practices and outside vendors ○ Red Flag Rules (defined by Fair and Accurate Credit Transactions Act) ○ Active accounts – payment arrangements
Findings	PPL EU and LKE both have similar cultures and strong credit/collection and payment practices, employing several industry best practices. PPL EU has a significantly higher level of net write offs, primarily due to regulatory differences. There are potential synergies by using common collection agencies. PPL may benefit from adopting an external behavioral scoring model similar to LKE.
Recommendation	Consider leveraging combined value of accounts at outside collection agencies. Investigate Total Solution behavioral scoring model for use at PPL. Continue discussions on best practices and implement those where measurable benefits can be obtained.
Status	The team completed its review of LKE’s Budget Payment Plan and submitted to the KPSC. Preparing a request for information to be released to potential collection agencies. PPL is in contact with Total Solution and is moving forward. Best practice discussions related to the scope above are continuing.

Customer Service Best Practice Report

Team	Low-Income Team
Leads	Tim Melton, Tim Dahl, Debbie Shobe
Objective	To enhance relationships between LKE and PPL and serve as an advocate for vulnerable customers and the agencies and organizations that serve them.
Scope	<ul style="list-style-type: none"> • Establish strong peer to peer working relationships between the companies. • Share best practices. • LKE and PPL plan to further explore the programs offered to low income customers by both companies, to include and ways to maximize LIHEAP funds obtained for these customers • Monitor and ensure that all financial commitments to low income programs are completed according to agreed upon assurances in 2010 rate case and PPL Change of Control agreements
Findings	<p>PPL and LKE have long histories of providing targeted programs to assist customers in financial need. PPL's Universal Service Programs and LKE's low-income program offerings have many similarities. The primary difference between PPL and LKE's programs is the level of program funding provided through a rider or special charge on the customer bill. The companies work closely with agencies that administer LIHEAP funds.</p> <p>LKE monitored and ensured that all financial commitments to low income programs were completed according to agreed upon assurances in the 2010 rate case and PPL Change of Control agreements.</p>
Recommendation	Maintain the present low-income offerings. Continue the best practice sharing between PPL and LKE. Continue the open dialogue concerning low-income programs, policies and practices with low-income advocacy groups by continuing quarterly Customer Commitment Advisory Forums. Continue to aggressively pursue partnerships with agencies and organization that serve the low-income customers.
Status	A report comparing LKE and PPL low income programs was completed in October 2011. Best practice discussions related to the scope above are continuing.

Customer Service Best Practice Report

Team	Demand Side Management (DSM) and Energy Efficiency (EE)
Leads	Tom Stathos and David Huff
Objective	To enhance relationships between LKE and PPL and exchange information about design, development and results of DSM and EE programs and ensure alignment on smart grid strategy.
Scope	<ul style="list-style-type: none"> • Establish strong peer to peer working relationships between the companies. • Share best practices and review programs deployed by LKE and PPL. • Share Smart Grid Strategy.
Findings	<p>Both KE and PPL EU have DSM and EE programs that serve the entire spectrum of their respective customer bases. At both utilities the DSM and EE programs are funded by rate payers.</p> <p>As a vertically integrated electric utility, LKE's EE and DSM programs fit into their integrated resource planning and support the Kentucky Governor's efforts to reduce carbon emission.</p> <p>PPL EU's EE and DSM programs are primarily driven by Act 129 requirements. Failure to meet compliance goals could result in fines.</p> <p>The key tenets for evaluating smart grid and smart meter technologies are demonstrated consistently in PPL and LKE's deployment initiatives.</p>
Recommendation	Continue to strengthen and enhance the channels of communications between the LKE and PPL EU. Participate in the NIST Smart Grid Interoperability Panel ("SGIP").
Status	A report comparing PPL and LKE program offerings was completed and filed with KPSC in October 2011. Coordinating participation on the SGIP. Best practice discussions related to the scope above are continuing.

Customer Service Best Practice Report

Team	<i>Economic Development</i>
Leads	<i>Alan McGinnis and Don Bernhard</i>
Objective	To enhance relationships between LKE and PPL and review best practices in both states.
Scope	<ul style="list-style-type: none"> • Establish strong peer to peer working relationships between the companies. • Establish and communicate best practices, including review of related tariffs
Findings	<p>There are very different models in the two states based on a regulated versus deregulated environment. In a deregulated environment economic development is no longer a revenue generator for a wires company, but expectations from communities for utility leadership remains high. LKE continues a traditional utility economic development approach, which produces important public relations benefits with key community leaders plus revenue growth for LKE. Kentucky economic development staff has a direct impact on landing new jobs in the state and on strengthening local development groups to do the same.</p> <p>In both states the economic development teams work very successfully with state economic development teams.</p>
Recommendation	<p>Continue the best practice sharing between PPL and LKE. Periodically review our comparative experiences with specific site location consultants and with economic development experts who are potential speakers at our respective PPL sponsored state economic development forums.</p> <p>Look for opportunities to work together to strengthen national reputation.</p> <p>Continue to work closely with state and local economic development organizations.</p>
Status	Kentucky and Pennsylvania economic development staff remains committed to providing leadership to local partners. Best practice discussions related to the scope above are continuing.
Team	Community Involvement
Leads	Debbie Shobe/ Don Bernhard
Objective	To enhance relationships between LKE and PPL and review practices related to community involvement and overall corporate giving.
Scope	<ul style="list-style-type: none"> • Establish strong peer to peer working relationships between the companies. • Establish and communicate best practices, including review of funding priorities and tracking mechanisms.

Customer Service Best Practice Report

Findings	<p>PPL and LGE both have a long heritage of excellent customer service. However, scores related to awareness of community involvement are higher in Kentucky.</p> <p>Funding priorities are similar and compatible in Pennsylvania and Kentucky.</p> <p>In both states there is an effective combination of a high level budget to fund major philanthropic initiatives and local programs where funding decisions are made by people with strong local connections and knowledge. The local presence and local involvement is strength in both places.</p> <p>LKE is committed to maintaining a level of community involvement and charitable contributions comparable to or greater than pre-merger levels.</p> <p>Initial benchmarking analysis shows that PPL at a corporate level is very close to the utility industry average for donations, especially when the analysis is done solely for US operations.</p>
Recommendation	<p>All community programs and donations are well structured and well executed and the company should continue to move forward with them.</p> <p>Pennsylvania should consider changes in its philanthropic process in order to raise awareness.</p> <p>LKE and PPL should continue to work closely with local organizations.</p>
Status	<p>Changes to philanthropy in Pennsylvania and the creation of an Ambassador program are under review.</p> <p>LKE and PPL are continuing to work closely with local partners.</p> <p>Best practice discussions related to the scope above are continuing.</p>

Customer Service & Marketing

Low-Income Program Comparison PPL/LG&E/KU October 2011

PPL Electric, Louisville Gas and Electric and Kentucky Utilities have long histories of providing targeted programs to assist customers in financial need. This memo and the matrix that follows provide an overview comparison of the utilities' current offerings.

PPL's Universal Service Programs and LKE's low-income program offerings have many similarities. All three utilities offer programs geared to assist customers-in-need with monthly payments, provide weatherization services, allow flexible due dates, waive late payment charges, refer customers to other assistance agencies and provide "double" protection against disconnection for non-payment.

The primary difference between PPL and LKE's programs, however, is the level of program funding, in particular, funding provided through a rider or special charge on the customer bill. For example, PPL's OnTrack Program is comparable in design and purpose to LG&E and KU's Home Energy Assistance program. However, the OnTrack program is funded through a Universal Service Rider charge on the customer bill of \$0.00515/kWh (\$5.15/mo for a customer using 1,000 kWh) and provides assistance for approximately 35,000 customers annually with a \$50 million budget, while the Home Energy Assistance program is funded through a charge of \$0.15/residential meter and provides assistance for approximately 4,000 customers annually with a \$2 million budget.

PPL's Winter Relief Assistance Program ("WRAP") is comparable to LG&E and KU's WeCare program. Both programs provide energy education, energy audits and weatherization services for qualified customers. The WRAP program assists approximately 7,000 customers annually with a \$17 million budget, while the WeCare program assists approximately 1,200 customers annually with just under \$2 million.

PPL's Operation HELP program is similar to LG&E's Community Winterhelp and KU's WinterCare program in that both PPL and LKE utilize community based organizations to administer the utility assistance programs. Operation HELP assists over 4,000 customers with an annual budget of \$1.4 million (\$1 million PPL contribution). Community Winterhelp and WinterCare assist more than 1,500 customers from customer contributions and a \$300,000 budget (company matching funds). Additionally, LG&E partners with the Association of Community Ministries by leveraging \$225,000 in shareholder dollars to assist approximately 2,000 additional customers.

All three utilities work closely with agencies that administer Low Income Home Energy Assistance Program ("LIHEAP") federal funds. PPL and LKE receive comparable amounts of LIHEAP funds, with PPL receiving about \$15.5 million annually for 50,000 customers, and LG&E and KU receiving about \$16.2 million for 56,000 customers.

**Low Income Programs
October 2011
PPL/LG&E/KU**

Focus Area	PPL	LG&E	KU
Bill Assistance	<p>On Track Funded by universal service rider on customer bills. Provides reduced payments, arrearage forgiveness, and referrals to other assistance programs. Administered by local agencies. Approx. 35,000 customers assisted annually. Annual budget of \$50 million.</p>	<p>Home Energy Assistance (HEA) Funded by \$0.15 meter charge for residential customers. Arrearage payment (Fresh Start) and monthly bill assistance. Annual renewal. Approx. 2,000 customers assisted annually. \$180,000 in shareholder dollars committed to program annually.</p>	<p>Kentucky Home Energy Assistance (KHEA) Funded by \$0.15 meter charge for residential customers. Bill assistance payments for seven months (July-Sept and December-March). Approx. 2,300 customers assisted annually. \$120,000 in shareholder dollars committed to program annually.</p>
Bill Assistance	<p>Operation HELP Funded by donations from PPL, employees and customers. Pays any type of home energy bill. Open year-round and administered by local agencies. Over 4,000 customers assisted annually. Annual budget of \$1.4 million.</p>	<p>Community Winterhelp Funded by donations from LG&E and customers. Administered by Louisville Urban League. Assists customers January-April Over 1,000 customers assisted annually. Funded by approximately \$200,000 in LG&E and customer contributions.</p>	<p>WinterCare Funded by donations from KU and customers. Statewide program so other utilities contribute to fund. Administered by Community Action Kentucky and Lexington Community Action Council. Over 500 customers assisted annually. Funded by approximately \$100,000 in KU and customer contributions. Beginning in 2011, minimum KU shareholder contribution is \$100,000.</p>
Bill Assistance		<p>Association of Community Ministries (ACM) Utility Match. Funded by \$225,000 shareholder contribution. Distributed by 16 community ministry organizations. For every dollar raised by ministry, LG&E matches with \$2 until \$225,000 is</p>	

Focus Area	PPL	LG&E	KU
		distributed. Over 2,000 customers assisted annually.	
Low-Income Weatherization	WRAP (Winter Relief Assistance Program) Provides free weatherization services, including energy education. Energy audit and installation of materials by contractors and/or agencies. Approx. 3,000 customers assisted annually. Annual budget of \$8 million.	WeCare (Weatherization, Conservation Advice and Recycling Energy) Funded DSM charge on residential bill. Managed by Energy Efficiency department. Approx. 600 customers assisted annually. Annual budget of \$900,000.	WeCare (Weatherization, Conservation Advice and Recycling Energy) Funded by DSM charge on residential bill. Managed by Energy Efficiency department. Approx. 600 customers assisted annually. Annual budget of \$900,000.
Low Income Assistance Referral	CARES (Customer Assistance and Referral Evaluation Service) Provides short-term payment arrangements and protects customer from shutoff. Refers customer to PPL or community assistance programs. Administered internally and assists about 900 customers annually.	CSRs provide short term payment arrangements and refer customers to community based organizations who offer utility payment assistance.	CSRs provide short term payment arrangements and refer customers to community based organizations who offer utility payment assistance.
Low Income – Late Payment Charge (LPC) Waiver	LIHEAP recipients and OnTrack participants receive waiver of LPC. For LIHEAP recipients, the waiver remains in place until the next LIHEAP program year. For OnTrack recipients, the waiver remains in place as long as the customer is active in the program.	LPC is waived for current month and eleven following months when customer receives a utility assistance payment. This includes LIHEAP and other assistance as well.	LPC is waived for current month and eleven following months when customer receives a utility assistance payment. This includes LIHEAP and other assistance as well.

Dear Mr. DeRouen:

Pursuant to the Commission's Order of September 30, 2010, in the above-referenced proceeding, Ordering Paragraph No. 3, Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU") hereby file a report describing and summarizing the effectiveness of all demand-side management programs which PPL entities have implemented in other jurisdictions that differ from the programs offered by LG&E and KU to their Kentucky customers.

Please place the file stamp of your Office on the enclosed additional copy of this notice and return it in the envelope provided.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

Rick E. Lovekamp

INTRODUCTION

On May 28, 2010, PPL Corporation, E.ON AG (“E.ON”), E.ON US Investments Corp. (“E.ON Investments”), E.ON U.S. LLC (“E.ON US”), Louisville Gas and Electric Company (“LG&E”), and Kentucky Utilities Company (“KU”) tendered for filing a joint application pursuant to KRS 278.020(5) and 278.020(6) for approval of the transfer of ownership and control of E.ON US and, by extension, LG&E and KU to PPL Corporation in accordance with terms of an April 28, 2010 Purchase and Sale Agreement. The minimum filing requirements were satisfied on June 2, 2010 and the joint application was accepted as filed on that date.

In its final order approving the change of control (Case No. 2010-00204), the Kentucky Public Service Commission (“Commission”) states “...because of our belief that DSM, energy efficiency, and conservation will continue to increase in importance over time, we are extremely interested in remaining apprised of all such programs which PPL [Corporation] affiliates have implemented in other jurisdictions. For that reason, we will establish a requirement for PPL [Corporation], LG&E, and KU to file a report with the Commission annually which describes and summarizes the effectiveness of all such retail programs that are offered by a PPL [Corporation] affiliate in other jurisdictions but are not offered by LG&E and KU.” Ordering Paragraph No. 3 of the Order establishes that reporting requirement.

In response to the reporting requirement set forth in the Commission’s Order, PPL Corporation, LG&E, and KU present the following: (1) a comparative of offerings between the Companies¹; (2) a description of existing DSM programs for PPL Electric Utilities Corporation (“PPL”), LG&E, and KU; (3) a description of the varying regulatory structures between PPL, LG&E, and KU; and (4) a historical perspective of DSM initiatives for PPL, LG&E, and KU.

1.0: Comparative of Offerings between PPL, LG&E and KU

PPL Program Name	LG&E and KU Comparative Program
Compact Florescent Lighting Program	Residential High Efficiency Lighting Program
Energy Star® New Homes Program	Residential New Construction Program
HVAC Tune-Up Program	Residential and Commercial HVAC Diagnostic and Tune-Up Programs
Direct Load Control Program and Load Curtailment	Residential and Commercial Load Management
Energy-Efficient Behavior and Education	Customer Education and Public Information
Appliance Recycling Program	Residential Refrigerator Removal Program
Commercial and Industrial Customer Incentive Program	Commercial Conservation Program

¹ This being the initial report issued by PPL, LG&E, and KU the Companies are providing a comparative and details of all DSM/EE programs. Future reports provided by the Companies will provide information relating to retail programs that are offered by a PPL affiliate in other jurisdictions but are not offered by LG&E and KU.

Residential Energy Assessment and Weatherization	Residential Conservation Program
Administrative Call and Rebate Processing Center and the Energy Efficiency MIS Functions	Program Development and Administration
Renewable Energy Program	Green Energy Program & Net Metering
Time of Use Rates	Time of Use Rates

2.0: Regulatory Structure and Legislation of PPL, LG&E, and KU

2.1: PPL

On October 15, 2008, Governor Rendell signed HB 2200 into law as Act 129 of 2008, with an effective date of November 14, 2008. The Act expands oversight responsibilities of the Pennsylvania Public Utility Commission (“PUC”) and imposes new requirements on electric distribution companies (“EDCs”), with the overall goal of reducing energy consumption and demand. Pursuant to an Implementation Order entered by the PUC on the January 16, 2009, PPL submitted a revised Energy Efficiency and Conservation Plan in compliance with Section 2806.1 (b)(1)(i) of Act 129. A subsequent revision to the EEC plan was issued on February 28, 2011 and approved by the PUC on May 5, 2011 (Docket No. M-2009-2093216). Those revisions are reflected in this document. The Plan describes an extensive portfolio of energy-efficiency, conservation, and peak load reduction measures, programs, and customer education. The PPL Portfolio consists of the following programs, all of which are voluntary for customers

1. Efficient Equipment Incentive Program
2. Residential Energy Assessment & Weatherization
3. Compact Fluorescent Lighting Campaign
4. Appliance Recycling Program
5. ENERGY STAR® New Homes Program
6. Renewable Energy Program
7. Direct Load Control Program
8. Time of Use Rates
9. Energy-efficiency Behavior & Education
10. Low-income WRAP
11. Low-income E-Power Wise
12. Commercial and Industrial Custom Incentive Program
13. HVAC Tune-Up Program
14. Load Curtailment Program

These 14 programs are designed to meet the goals established by Sections 2806.1 and 2806.2 of Act 129, as outlined in the PUC’s January Order:

PP&E / KU
DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

“This program requires an EDC with at least 100,000 customers to adopt a plan, approved by the Commission, to reduce electric consumption by at least one percent (1%) of its expected consumption for June 1, 2009 through May 31, 2010, adjusted for weather and extraordinary loads. This one percent (1%) reduction is to be accomplished by May 31, 2011. By May 13, 2013, the total annual weather-normalized consumption is to be reduced by a minimum of three percent (3%). Also, by May 31, 2013, peak demand is to be reduced by a minimum of four-and-a-half percent (4.5%) of the EDC’s annual system peak demand during the period of June 1, 2007 through May 31, 2008.”²

These programs are designed as a portfolio of options which, once implemented, will offer PPL’s customers a cost-effective, equitable, flexible, and wide-ranging set of programmatic choices, incentive options, information, and educational opportunities. In a series of orders, the PUC has approved all of these programs together as an integrated portfolio designed to meet Act 129 energy-efficiency and conservation goals in PPL’s service territory.

2.2: LG&E and KU

The need for Demand-Side Management and Energy Efficiency (“DSM/EE”) programs is growing, as Kentucky’s government has recognized at the very highest levels. For example, the Commission expressed its clear desire to see greater development and deployment of DSM/EE programs in its February 17, 2011 Final Order in Case No. 2010-00222:

The Commission believes that conservation, energy efficiency and DSM, generally, will become more important and cost-effective as there will likely be more constraints placed upon utilities whose main source of supply is coal-based generation.

...

[T]he Commission believes that it is appropriate to strongly encourage Meade, and all other electric energy providers, to make a greater effort to offer cost-effective DSM and other energy efficiency programs.³

In November 2008, the Commonwealth of Kentucky issued a report entitled, “Intelligent Energy Choices for Kentucky’s Future”. It outlines seven strategies to diversify sources of energy, conserve energy, and become more energy-efficient to reduce demand. The very first strategy stated in the Governor’s report is, “Strategy 1: Improve the Energy Efficiency of Kentucky’s Homes, Buildings, Industries, and Transportation Fleet,” with a strategic goal of having “[e]nergy efficiency ... offset at least 18 percent of Kentucky’s projected 2025 energy demand.”⁴

² January 16, 2009 Implementation Order (Implementation Order) of the Pennsylvania Public Utility Commission (the Commission) at Docket M-2008-2069887 and the Commission’s Opinion and Order entered on October 26, 2009 at Docket M-2009-2093216.

³ *In the Matter of: Application of Meade County Rural Electric Cooperative Corporation to Adjust Electric Rates*, Case No. 2010-00222, Order at 15-16 (Feb. 17, 2011).

PP&E / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

As Governor Beshear stated in the report, “For Kentucky to be a national energy leader, we must fully integrate the development of our energy resources with our mission to protect the environment...The seven strategies, when implemented, will restructure our energy portfolio so that we can use energy in its broadest sense as a tool for economic development and preserving our environment, which Kentucky desperately needs.”⁵ The report indicates that Kentucky’s energy usage is projected to grow slightly more than 40% between 2008 and 2025 in the absence of energy efficiency efforts. While there is no legislative requirement that LG&E and KU offer energy efficiency to its customers, the Companies promote energy efficiency products and services for three core reasons: (1) To reduce peak demand and delay the need to invest in additional power plant construction; (2) To provide customers with tools and information to become better managers of their energy usage; and (3) To be responsive to the Kentucky governor’s seven-point energy plan which places energy efficiency as a core element in addressing carbon emissions.

3.0: History of DSM Initiatives

3.1: PPL

The Pennsylvania Electricity Generation Customer Choice and Competition Act of 1996 deregulated the generation of electricity in Pennsylvania effective January 1, 1997. The legislation provided a transition to deregulation of generation supply with rate caps put in place for all EDC customers, generally for about 10 years. These rate caps maintained retail rates at 1997 levels while EDCs collected stranded costs created by the restructuring of the industry. As the rate caps began to expire in other states, like Maryland, the PUC realized that those customers were susceptible to much higher electricity prices.

Energy Efficiency in Pennsylvania began to take shape in 2006 with the PUC’s May 19, 2006 Order and June 22, 2006 en banc hearings through which the PUC began an investigation of policies to mitigate potential electricity price increases when rate caps expired. It became apparent that the rate caps which had held customers’ rates constant for so many years would end, exposing the customers to market rates much higher than they were currently paying. On December 21, 2006 during a meeting with the Energy Association of Pennsylvania (“EAPA”), the PUC’s Vice-Chairman identified implementing demand-side response, energy efficiency, and conservation as his top priority and indicated that the Governor and his administration supported such an initiative.

As a result of this meeting and others, utilities in Pennsylvania began to include conservation, energy efficiency and consumer education proposals in their distribution base rate filings. The funds for these programs were included in the future test year claims submitted with the rate case filings. In general, funds requested for energy efficiency and consumer education were modest and covered smaller efficiency programs that were limited in scope. They also covered advertising and other communications that promoted energy efficiency and shopping for electricity supply to the customer base.

⁵ Id. at xii.

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

Generally, requests for funding of energy efficiency and energy education programs were approved by the PUC. Even with those funds in place, it became evident that more would need to be done to mitigate the potential increases in electricity prices that would occur when the rate caps expired. The rate caps ended on January 1, 2009 for PPL and on January 1, 2010 for PECO and First Energy.

Prior to rate caps expiring for the three largest electric EDCs in Pennsylvania, the public policy push for energy efficiency shifted from the PUC to the legislature. House Bill 2200 was drafted in early 2008 and signed into law by Governor Rendell on October 15, 2008, as Act 129. The Act laid the framework for energy efficiency and demand reductions for all the Pennsylvania utilities by May 31, 2013, with interim consumption reductions on May 31, 2011. Implementation of the legislation was assigned to the PUC. The PUC's charge is to interpret and administer Act 129, but the PUC does not have authority to change the requirements of Act 129.

The EDCs in Pennsylvania have been on a steep learning curve since Act 129 was passed. Throughout the first two years of implementation, both the PUC and the EDCs have worked to understand how the EDCs' plans would be implemented; how savings would be evaluated, measured, and verified; and how mid-stream corrections to the EDCs' plans could be made to adjust to a dynamic market place. Through collaboration by all stakeholders, significant progress has been made to enhance the overall process by which cost-effective energy savings are achieved in Pennsylvania.

The Act directs the PUC, by November 30, 2013, to determine whether to adopt additional incremental reductions in consumption and demand. The EDCs have asked the PUC to provide guidance and objectives for development of any EE&C plans that would follow the expiration of current EE&C plans on May 31, 2013. Currently, there are no active legislative efforts to modify Act 129.

3.2: LG&E and KU

LG&E began negotiations with interveners in 1992 regarding the implementation of DSM/EE programs for the benefit of its customers, and the recovery of the costs associated with such programs. This collaborative effort, known as the DSM Collaborative resulted in a request to the Commission in November 1993 to approve "The Joint Application for the Approval of Demand-Side Management Programs, a DSM Cost Recovery Mechanism, and a Continuing Collaborative Process on DSM for Louisville Gas and Electric Company" (Case No. 93-150). Initial DSM/EE programs were implemented in 1994.

In December 1995, the DSM Collaborative submitted a filing proposing to begin new DSM/EE programs and to continue the existing programs. The Commission approved the filing in June 1996. The approved programs included initial research and development for the Residential Load Management Program and the Program Development and Administration, which was developed to capture the cost of developing and administering the complete set of DSM/EE programs.

PP&E / KU
DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

In 1997, the DSM Collaborative submitted several filings that resulted in all the programs previously approved being proposed again to the Commission along with the addition of the Residential Energy Audit Program. The Commission approved this filing in April 1998.

In May 2001, the Companies received approval for the modification and continuation of DSM/EE programs and cost recovery mechanisms. In 2008 the Commission approved the Companies' latest filing, Case No. 2007-00319. That filing demonstrated the Companies' objective to develop, implement, and promote cost-effective offerings that advance the effective and deliberate use of energy by end-use customers. The intention is to provide customers with the tools they need to help make better use of the energy the Companies provide.

Case No. 2007-00319 represented a significant expansion and emphasis on customer energy efficiency. The three years since the approval of these programs has granted greater insight into the challenges and obstacles associated with the outlined metrics within that program plan. As a result of the lessons learned, the Companies filed with the Commission in April 2011⁶ to enhance the following programs: Residential and Commercial Load Management; Commercial Conservation; Residential Conservation; Residential Low Income Weatherization Program; and Program Development and Administration.

In addition to enhancing several currently approved programs, the Companies sought approval for additional DSM/EE programs that will further increase participation opportunities for customers. These programs include the Residential Incentives Program, and a Residential Refrigerator Removal Program.

Programs the Companies proposed and the Commission approved in Case No. 2007-00319 not included in the April 2011 program plan will remain unchanged in regard to programming, budgets, and associated metrics. The Companies propose to continue these existing programs through 2014. The rationale for the Companies not seeking any changes to these particular programs at this time is that the programs can be categorized as "market transformation programs" or are currently operating satisfactorily within the approved program designs, and therefore do not warrant enhancements. These programs include Residential High Efficiency Lighting, Residential New Construction, Residential and Commercial HVAC Diagnostic and Tune Up, and Customer Education and Public Information.

4.0: Existing Program Descriptions

4.1: PPL

The following provides an overview of the Energy Efficiency and Conservation Act 129 Programs. Programmatic information includes a program description and objectives. Programs include: Efficient Equipment Incentive Program; Residential Energy Assessment &

Kentucky Public Service Commission Case No. 2010-00204

Weatherization; Compact Fluorescent Lighting Campaign; Appliance Recycling Program; ENERGY STAR® New Homes Program; Renewable Energy Program; Direct Load Control Program; Time of Use Rates; Energy-efficiency Behavior & Education; Low-income WRAP; Low-income E-Power Wise; Commercial and Industrial Custom Incentive Program; HVAC Tune-Up Program; and Load Curtailment Program. Also included are descriptions of the administrative function for the Call and Rebate Processing Center and the Energy Efficiency Management Information System (“EEMIS”).

4.1.1. Residential Efficient Equipment Incentive Program

The Efficient Equipment Incentive Program is designed to promote the purchase and installation of a wide range of high-efficiency appliances and equipment. This program provides customers with rebates to offset the higher cost of the qualified appliance and equipment purchases.

An Administrative Conservation Service Provider (“CSP”) was contracted to provide intake, verify eligibility of customer requests for rebates, and process rebates. An Advertising, Marketing and Public Relations CSP was contracted to promote this program. This program was not designed to utilize a CSP at the consumer level. Customers participating in this program are required to submit a paper application requesting a rebate. Customers receive a rebate in the form of a check or a debit card.

A large number of rebates processed are from customers making purchases in small independent stores. Because of the large number of independent retailers in PPL’s territory and the importance of keeping those retailers engaged in the program, a CSP was contracted to work directly with independent retailers, providing a field trainer to visit stores and promote the program.

The objectives of the Residential Efficient Equipment Incentive Program are to: (1) Provide customers with opportunities to reduce their energy costs and increase their energy efficiency; (2) Encourage customers to install high-efficiency lighting equipment and electric appliances; (3) Encourage the use of high-efficiency/ENERGY STAR®-rated appliances; (4) Promote strategies that encourage and support market transformation for high-efficiency appliances and (5) Achieve no less than four million installed measures through 2013, with a total reduction of 29,708 MWh and 5,000 kW.

4.1.2. Residential Energy Assessment & Weatherization Program

The Residential Energy Assessment & Weatherization Program serves as a mechanism to assess the energy performance of customers’ homes, educate customers about actions they can take to increase the energy efficiency of their homes, and distribute low cost energy efficiency measures (including compact fluorescent lamps, surge strips, and pipe insulation).

The program targets residential customers with a household income greater than 150% of the Federal Poverty Level who live in a single family or mobile homes with electric heat, electric water heating, and/or central air conditioning.

Bruneau / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

There are two tracks to the program: a walk through Survey with a customer cost of \$50 and a Comprehensive Energy Audit with a customer rebate of \$100 or \$250 depending on the customer's heating and cooling source. Customers participating in the Comprehensive Energy Audit program have the opportunity to receive additional rebates if they install two or more of the measures recommended in their audit.

The objectives of the Residential Energy Assessment & Weatherization Program are to: (1) Provide customers with the opportunity to participate in a walk-through survey or comprehensive energy audit; (2) Provide customers with opportunities to reduce their energy costs and increase their energy efficiency; (3) Encourage customers to weatherize their homes by providing rebates; (4) Install low-cost energy saving measures as part of both the survey and the audit which may result in immediate savings; and (5) Obtain participation by no less than 5,940 customers through 2013, with a total reduction of 5,960 MWh and 590 kW.

4.1.3. Compact Fluorescent Lighting Campaign -- CFL Program

The Compact Fluorescent Lighting Campaign ("CFL Program") encourages customers to install ENERGY STAR® rated CFL bulbs. The program has two components: a retail upstream lighting incentive that significantly reduces the customer cost of purchasing ENERGY STAR CFLs at a participating retail store and a CFL giveaway component that distributes free CFLs at various events and activities.

The objectives of the CFL Program are to: (1) Provide a mechanism for customers to easily obtain discounted ENERGY STAR-qualified CFLs; (2) Develop and execute strategies aimed at transforming the market for ENERGY STAR-qualified CFLs with the goal of increasing the number of qualified products purchased and installed in the service territory; (3) Encourage customers to install CFLs obtained from the give-away program; (4) Increase consumer awareness and understanding of the energy-efficiency of CFLs, as well as proper use of CFLs in various lighting applications; (5) Promote consumer awareness and understanding of the ENERGY STAR label; (6) Promote other PPL energy efficiency programs through CFL package inserts; and (7) Distribute no fewer than 7,125,000 CFLs through 2013, with a total reduction of 292,100 MWh and 45,630 kW.

4.1.4. Appliance Recycling Program

The Appliance Recycling Program provides customers with an incentive to dispose of their older inefficient refrigerators, freezers and room air conditioners. Refrigerators, freezers and air conditioners are picked up from the customer's location. Room air conditioners are only picked up at residential customers' home in conjunction with a pickup of a refrigerator or freezer. After independent assessments, the same CSP was chosen by each EDC to provide appliance recycling. That CSP has opened two recycling facilities that process units picked up from the Pennsylvania EDC customers.

PBB/E / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

PPL's program primarily targets residential customers, but it is available to all customer segments wanting to recycle a working, residential grade refrigerator, freezer, or room air conditioner unit. Refrigerators must be at least 10 cubic feet in size.

The objectives of the Appliance Recycling Program are to: (1) Encourage customers to dispose of their existing, inefficient appliances when they purchase new ones or eliminate a second unit that may not be needed; (2) Reduce the use of secondary, inefficient appliances; (3) Ensure appliances are disposed of in an environmentally responsible manner; (4) Provide on-site decommissioning to ensure appliances are not resold in a secondary market; and (5) Collect and recycle no fewer than 49,000 appliances⁷ through 2013, with a total reduction of 114,760 MWh and 13,150 kW.

4.1.5. ENERGY STAR® New Homes Program

The ENERGY STAR® New Homes Program was designed to encourage construction of energy-efficient new homes addressing both the building shell and electrical equipment. The program was based on the US Environmental Protection Agency's ENERGY STAR® New Homes program. Participants are expected to work within the framework of the Residential Energy Services Network (RESNET®) accredited Home Energy Rating System (HERS) to receive a qualifying HERS rating. The program was designed to offer financial incentives for technical assessments (*i.e.*, HERS ratings) and to offset the higher purchase price of new, high-efficiency equipment based on achieving ENERGY STAR® certification.

The objectives of the ENERGY STAR® New Homes Program are to: (1) Promote construction of energy-efficient new homes; (2) Educate construction industry professionals and customers about the benefits of ENERGY STAR new homes; and (3) Obtain participation by no less than 1,930 customers through 2013, with a total reduction of 5,200 MWh and 590 kW.

PPL is recommending to the PUC that the ENERGY Star New Homes program should not be implemented in this EEC plan because: (1) Savings are negligible compared to existing codes and standards that represent the baseline from which savings are measured; (2) It is costly to build the infrastructure to support the program; (3) New home construction is at very low levels due to the poor economic conditions; and, (4) Customers and builders can get incentives through other residential EEC programs for appliance and higher insulation levels.

4.1.6. Renewable Energy Program

PPL's Renewable Energy Program was designed to encourage customers to install a solar photovoltaic ("PV") array or ground-source heat pump ("GSHP") at their home or building by offering rebates to reduce the overall costs.

⁷ This number was reduced from 69,000 as part of the course correction of the Act 129 Residential program portfolio.

PBruck & KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

The rebate for PVs was \$2/watt, up to a maximum of \$5,000 for residential and \$500,000 for Government, Non-profit and Institutional customers. The rebate for GSHPs was \$217/ton for Residential, Government, Non-profit and Institutional customers. Helgeson, the Administrative CSP, manages the rebate process.

The objectives of the Renewable Energy Program are to: (1) Provide customers with opportunities to self-generate electricity using clean, renewable resources; (2) Encourage customers to install solar photovoltaic systems and geothermal heat pumps; (3) Promote strategies that encourage and support market transformation toward qualifying clean, renewable energy generation; and (4) Achieve no less than 1,260 installed measures through 2013, with a total reduction of 18,500 MWh and 2,000 kW.

4.1.7. Direct Load Control - Peak Saver Program

Direct Load Control program is designed for residential and small commercial customers. The program will operate weekdays between noon and 7:00 PM during the peak summer season, from June 1st to September 30th. A control device installed on a customer's central air conditioning/heat pump unit by the CSP will allow the unit to be cycled off during peak periods.

The objectives of the Direct Load Control Program are to: (1) Provide incentives to customers willing to reduce their energy consumption during summer peak hours; (2) Educate customers about energy efficiency and peak periods; (3) Reduce demand by 33MW over 100 hours of peak demand during the summer of 2012; and (4) Install approximately 50,000 load control devices to reduce peak demand by 33,000kW.

4.1.8. Time of Use Rates ("TOU") Program

The TOU program, offered to residential, low-income, Small C&I and Government, Non-profit and Institutional customers, provides pricing that encourages customers to shift electricity usage from on-peak periods (when electricity demands and wholesale energy prices are higher) to off-peak periods (when such demands and prices are lower). Shifting use from on-peak to off-peak periods reduces peak demand on generation resources, contributes to reducing wholesale electricity prices during the hours of highest demand, and provides customers with an opportunity to reduce their monthly electric bill.

TOU rates change in June 2011 and then quarterly thereafter. Participants can enter/leave the TOU Program at will. TOU has not sustained customer interest due to the volatility of the rate.

The objectives of the TOU Program are to: (1) Educate customers about energy-efficiency and peak periods; and, (2) Help customers save money by shifting energy use from peak hours to off-peak hours.

PPL G&E / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

4.1.9. Energy Efficiency Behavior & Education Program

The Energy Efficiency Behavior & Education Program, designed for residential customers, provides customers with a bi-monthly report card. These reports include information about free or low-cost energy efficiency measures; behavioral changes a customer may take to reduce energy usage; the value of installing energy-efficiency measures; and information about how behavior and practices impact energy usage. Hard copies of the reports are sent by mail.

The objectives of the Energy Efficiency Behavior & Education Program: (1) Educate customers about free or very low-cost measures and behavior changes that may reduce energy consumption or demand; (2) Educate customers about PPL's online resources and energy efficiency and conservation programs; (3) Encourage customers to adopt energy efficient behaviors and to install energy efficiency measures in their homes; (4) Generate customer reports comparing individual customers to other customers with similar energy usage patterns; and (5) Obtain participation by no fewer than 100,000 customers in Program Year 3 and Program Year 4, with a total reduction of 50 GWh.

4.1.10. Low-Income Winter Relief Assistance Program ("WRAP")

WRAP was a pre-existing PPL program designed to reduce electric consumption and improve comfort for low-income customers. The program provides free energy audits, energy-efficiency measures, and energy education to income-qualified participants. As part of the Act 129 portfolio, PPL increased funding for WRAP by approximately 60% to support delivery to more customers.

WRAP targets customers at or below 150% of the Federal Poverty Level. The program is available to customers in existing single-family housing and in existing multifamily housing, where 50% or more tenants are low-income qualified. Further, the program aims to reach PPL customers that received WRAP assistance in the past and may be in need of further WRAP services, as well as customers that may not have been eligible for low-income assistance due to eligibility rules requiring more than nine months residence in a dwelling.

The objectives of the WRAP program are to: (1) Assist low-income customers to reduce their energy use and energy expenses; (2) Maintain partnerships with social service agencies, Community Based Organizations ("CBOs"), and local contractors to ensure maximum and timely assistance; (3) Provide a referral stream to low-income programs, including On Track, Operation HELP⁸, E-Power Wise, and LIHEAP; (4) Obtain participation by no fewer than 23,590 customers through 2013, with a total reduction of 18,695 MWh and 2,985 kW.

⁸ On Track is PPL Electric Utilities low-income customer debt forgiveness program and Operation Help is PPL Electric Utilities fuel fund.

PIB/E / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

4.1.11. Low-income E-Power Wise Program

The E-Power Wise Program, delivered via community based and non-profit organizations, provides low-income customers with free energy-efficiency education and energy-efficiency measures for self installation.

The objectives of the E-Power Wise Program are to: (1) Provide quality energy efficiency education to low-income customers so they can make informed choices about their energy use; (2) Provide information about low-cost/no-cost energy efficiency strategies low-income customers can use in their homes; (3) Provide low-income customers with energy-efficiency measures in free take-home energy efficiency kits; and (4) Obtain participation by no fewer than 7,200 customers through 2013 with a total reduction of 1,080 MWh and 150 kW.

4.1.12. Commercial / Industrial Custom Incentive & Prescriptive Program

These Programs together provide incentives for Small and Large C&I, Government, Non-profit and institutional customers to install electric energy efficiency measures. The program provides prescriptive rebates based on per unit incentives for each measure installed or a custom incentive for measures not eligible for prescriptive incentives that rely on verified savings prior to payment. The program also launched a direct service for Small C&I and Government / Non-Profit customers that provide higher incentives to more quickly bring energy efficiency resource measures to this target sector.

The objectives of the Commercial and Industrial Custom Incentive and Prescription Program are to: (1) Provide customers with opportunities to reduce their energy costs and increase their energy-efficiency; (2) Encourage the installation of high-efficiency equipment not included in PPL Electric Utilities' Efficient Equipment Incentive Program by C&I customers in new and existing facilities; (3) Encourage equipment repairs and optimization and operational or process changes that reduce electricity consumption and peak demand; (4) Encourage a "whole facility" approach to energy-efficiency; (5) Increase the market penetration of high-efficiency equipment; (6) Encourage advanced energy-efficiency strategies required for certification by national market transformation programs such as Leadership in Energy and Environmental Design (LEED); (7) Encourage customers to install high-efficiency HVAC, lighting equipment, electric appliances and the use of high-efficiency/ENERGY STAR®-rated equipment; (8) Promote strategies that encourage and support market transformation for high efficiency appliances and equipment; and (9) Obtain participation by no less than 400 customers through 2013, with a total reduction of 826,626 MWh and 127,370 kW.

4.1.13. HVAC Tune-Up Program

The HVAC Tune-Up Program (delivered through HVAC contractors) is designed to assist Small C&I customers to increase the operating performance of electric HVAC systems in commercial buildings. The Program provides financial incentives to HVAC contractors to diagnose and correct performance inefficiencies in existing packaged HVAC equipment. Incentives for

PIB/E / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

retrofits are given to the customer. Retrofits include such measures as modifications to existing equipment (*i.e.*, economizer adjustments) and thermostat replacement.

The objectives of the HVAC Tune-Up Program are to: (1) Optimize HVAC unit performance; (2) Assist commercial customers in lowering their energy bills and operating costs; and (3) Obtain participation by no less than 5,770 customers through 2013, with a total reduction of 22,180 MWh and 11MW.

4.1.14. Load Curtailment Program

The Load Curtailment program, designed for Large C&I customers, provides incentives to curtail demand during the peak summer season. The CSP is responsible to enroll and curtail Large C&I customers load during the summer months (June-Sept).

Customers will be notified of peak-hour events and will be requested to decrease load during that period by shifting or eliminating load or using back-up or distributed generation that meets environmental regulations. Customers will be paid an incentive by the CSP.

The number of participants, the number of interruptible hours per participant, and the size of the participant's load reduction will be managed by the CSP. Incentive levels will vary depending on the number of interruptions, the size of the load reductions, and other factors agreed upon between the customer and the CSP. The program will be designed to coordinate with the demand response programs of PJM (the Regional Transmission Operator) to ensure that there is no "double counting" of reductions and to rely on PJM verification protocols to the extent practical.

The objectives of the Load Curtailment Program are to: (1) Reduce peak demand by providing incentives for energy usage reduction during peak hours in summer period; and (2) Obtain 300 MW over 50 of the top 100 hours of peak demand during the summer of 2012.

4.1.15. Administrative Function: Call and Rebate Processing Center

The Administrative Call and Rebate Processing Center is responsible for providing call and rebate processing for Act 129 energy efficiency rebate programs. This includes providing a toll-free contact number, integrated voice response/voicemail, live operators, and other means for customers to contact the center with questions about programs, rebates, problems, etc. The Center is responsible for managing intake and approval of rebates, reviewing rebate applications, verifying customer eligibility, entering all relevant data into PPL's Energy Efficiency Management Information System ("EEMIS"), and verifying that the equipment or actions taken by the customer is in compliance with PPL's program requirements.

The objectives of the Administrative Call and Rebate Processing Center are to: (1) Provide a call center with knowledgeable staff to manage customer intake and routing, process applications and rebates, track and verify eligibility and program data, provide customer and transaction information to PPL, and referrals to other programs; (2) Refer customers interested in a

PIB/E / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

comprehensive energy audit to independent, BPI (Building Performance Institute, Inc.) certified trade allies for Energy Audits and Weatherization explaining both program tracks to the customer and directing customers to the appropriate track; (3) Handle customer calls, review and verify applications, process rebates, track customer and project data, and report results to PPL; (4) Document measure installation, instances of customer complaints and remediation activities and other information associated with projects where rebate processing provides the primary means of tracking program activity; and (5) Maintain a grade of service of 80 percent of the calls from PPL customers answered within 20 seconds or less.

4.1.16. Administrative Function: Energy Efficiency Management Information System (“EEMIS”)

EEMIS is a computer tracking system custom designed and implemented to capture data for all Energy Efficiency & Conservation Programs. This system is collecting data that includes, but is not limited to, kWh savings customer account numbers, date of installation, and type and number of measure(s) installed.

The objectives of EEMIS are to: (1) Provide a foundation for tracking, managing, and reporting on PPL’s Act 129 programs; (2) Provide progress reports to regulators on the status of the programs compared to the goals for each program; and (3) Generate data for annual and other reports required by the PUC.

4.2. LG&E and KU

As the Commonwealth’s largest utilities, serving more than 2.8 million Kentuckians, the Companies seek to educate and empower consumers of all ages to do their part in the fastest, cleanest, most cost-effective method of reducing our growing demand for energy by embracing energy efficiency and conservation as a way of life. The following provides an overview of existing and unchanged programs, proposed enhancements to existing and new Energy Efficiency/Demand Side Management Programs.⁹ Programmatic information will include a program description and objectives. Existing programs that will be overviewed will include: Residential High-Efficiency Lighting Program; Residential New Construction Program; Residential and Commercial HVAC Diagnostics and Tune-up Programs; Customer Education and Public Information; and Dealer Referral Network. Programs with proposed enhancements before the Commission in Case No. 2011-00134 that will be overviewed will include: Residential and Commercial Load Management Program; Commercial Conservation Program; Residential Conservation Program; Residential Low-income Weatherization Program (WeCare); Responsive Pricing; Smart Metering Pilot Program; and Program Development and Administration. New programs proposed in Case No. 2011-00134 that will be overviewed will include: Smart Energy Profile Program; Residential Incentives Program and the Residential Refrigerator Removal Program.

⁹ Case No. 2011-00134 was filed with the Kentucky Public Service Commission on April 14, 2011. This case includes enhancements to existing programs that were approved in Case No. 2007-00139 as well as a request for new programs for inclusion in the DSM/ Energy Efficiency Program Plan. Case No. 2011-00134 is currently under Commission review.

Bruneau / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

Existing and Unchanged Programs (Approved in Case No. 2007-00139)

4.2.1. Residential High-Efficiency Lighting Program

The Residential High Efficiency Lighting Program is designed to facilitate market transformation by creating a shift in LG&E and KU consumer purchasing incandescent light bulbs to Compact Fluorescent Light bulbs (CFL). LG&E and KU utilize this program to increase customer awareness of environmental and financial benefits of the CFL bulb and as a result, increase societal acceptance and market penetration.

Residential electric customers participate in the Residential High Efficiency Lighting Program by: (1) returning postage paid business reply cards that have been mailed directly to their home; (2) completing an online residential audit; or (3) taking advantage of manufacturers' coupons that typically are included with their utility bill or mailed directly to paperless billing customers.

The objectives of the Residential High Efficiency Lighting Program are to: (1) Place 5.8 million Energy Star rated CFLs within the residential sector, with a total energy and demand reduction of 341,831 MWh and 23,083Kw through 2014.

4.2.2. Residential New Construction Program

The New Residential Construction program is designed to reduce residential energy usage and facilitate market transformation by creating a shift in builders' new home construction to include energy-efficient construction practices. This 2010 "Leadership in Housing Award" winning program has succeeded in engaging a significant portion of Kentucky's new-home construction sector through outreach and training activities. Orientation sessions introduced builders, contractors, design professionals and energy raters to the requirements and benefits of program participation.

The objectives of the New Residential Construction program are to: (1) Educate customers and promote increased construction of Energy Star rated homes within the residential sector; (2) Have 4,487 new homes Energy Star® Rated through the Home Energy Rating System with a total energy and demand reduction of 11,933 MWh and 3,807Kw through 2014.

4.2.3. Residential/Commercial HVAC Diagnostics & Tune-up Programs

The Residential and Commercial HVAC Diagnostic and Tune-up program targets customers with HVAC system performance issues. The objectives of the program are to: (1) Reduce peak demand and energy use by conducting a diagnostic performance check on residential and small commercial unitary air conditioning and heat pump units, air restricted indoor and outdoor coils, and over and under refrigerant charge; (2) Provide in the residential sector 6,950 diagnostics and 4,518 tune-ups with a total energy and demand reduction of 5,672 MWh and 2,575 Kw through 2014; (3) Provide in the commercial sector 3,750 diagnostics and 3,510 tune-ups with a total energy and demand reduction of 9,891 MWh and 2,374 Kw through 2014.

PIB/E / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

4.2.4. Customer Education and Public Information

The Customer Education and Public Information programs are designed to help customers make sound energy-use decisions, increase control over energy bills and empower them to actively manage their energy usage. Customer Education and Public Information is accomplished through two processes: elementary and middle-school programming and a mass-media campaign.

The objective of the Customer Education and Public Information is to: (1) Increase public awareness and understanding of both the urgent need for more efficient use of energy and the environmental and financial impacts created by climate change issues and (2) Increase customer awareness and encourage utilization of the energy efficiency products and services.

Enhancements to Existing Programs (Pending Case No. 2011-00134)

4.2.5. Residential and Commercial Load Management Program

The existing Demand Conservation Program is voluntary and has been operational since 2001. Demand Conservation employs switches in homes and small businesses to help reduce the demand for electricity during peak times. The Program uses one-way paging signals to communicate with the switches to cycle central air conditioning units, heat pumps, electric water heaters and pool pumps off and on through a predetermined sequence.

The Demand Conservation Program has experienced success in program enrollment since its inception; however, over the nine years of program development the Companies have reached 24% market saturation rate. To address the market saturation the Companies are seeking approval for the following proposed program enhancements: (1) The addition of another full time employee (FTE) to assist in outreach efforts to the multi-family and commercial customer segment; (2) The ability to modify and increase the financial incentives to attract those customers who have not been interested in this voluntary customer program; (3) Install 91,800 devices in the residential market through 2017, with a total energy and demand reduction of 20,009 MWh and 79.9 MW; and (4) Install 3,540 devices in the commercial market through 2017, with a total energy and demand reduction of 907 MWh and 5.2 MW .

4.2.6. Commercial Conservation Program

The Commercial Conservation / Commercial Incentive Program is designed to provide energy efficiency opportunities for the Companies' commercial class customers through energy audits and to increase the implementation of energy efficiency measures identified through the audit by providing financial incentives to assist with the replacement of aging and less efficient equipment. This proposed filing enhancement is an effort to be responsive to the growing rate of requests for inclusion of other applications and needs of the commercial customer segment. The Companies seek to enhance this program in several ways: (1) the Companies seek to add to the

PIB / LG&E / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

energy efficiency retrofits eligible for rebate incentives to include Refrigeration; (2) the Companies seek to add Commercial Customized Incentives to incent energy efficient retrofits for customers with less typical technologies and those retrofits not covered by the existing Commercial Conservation/Rebate Program (i.e., equipment not specified in the current program literature). Incentives available to all customers in this program's rate classes will be developed based upon a \$100 per kW for calculated efficiency improvements; and (3) the Companies seek to extend the current Commercial Conservation component of the Program through 2017.

The objectives of the Commercial Conservation and Commercial Incentives Program are to: (1) Identify energy efficiency opportunities for the Companies' commercial class customers through no-charge energy audits and to increase implementation rates for effective measures by offering energy efficient-new technology equipment incentives for replacement of aging, less efficient equipment; and (2) Attain a total energy and demand reduction of 384,916 MWh and 144.8 MW.

4.2.7. Residential Conservation / Home Energy Performance Program

The Residential Conservation Program / Home Energy Performance Program is designed to help customers reduce energy costs within the home using on-line or on-site energy audits. The program works with customers to identify specific steps they can take to reduce energy costs, making them better energy managers. The on-line energy audit component to this program will remain unchanged while the on-site audit component will be modified to become a more comprehensive program that includes certified auditors and tiered incentives for residential customers to support the implementation of energy saving measures. The structure of this program would feature auditors certified to national standards. The auditors would use standardized software products similarly endorsed by national ruling bodies such as the Residential Energy Services Network (RESNET), the Building Performance Institute (BPI), and the BESTEST-EX standards committee.

The objectives of the Residential Conservation / Home Energy Performance Program are to: (1) Support customers in identifying specific steps they can take to reduce energy costs, making them better managers of energy; and (2) Complete 38,000 online audits and 12,800 onsite audits through 2017, with a total energy and demand reduction of 32,953 MWh and 8.4 MW.

4.2.8. Residential Low-income Weatherization Program (WeCare)

The Residential Low Income Weatherization Program (WeCare) is designed to reduce the energy consumption of LG&E and KU's low-income customers. The program provides both directly installed weatherization measures and an education component to enlist the customer as a "partner" in ensuring the energy savings. Through the education portion of the program, customers gain a better understanding of how to keep utility bills as low as possible through better energy usage habits. As an added long-term benefit, the educational information provided to customers is something they can take with them wherever they live. Weatherization improves customers' comfort and reduces the tendency to raise the thermostat in winter or lower it in summer. As energy usage in a home is reduced and additional customers are served, customer bills become more affordable.

To address the growing need in this customer segment, the Companies are seeking approval for the following proposed program enhancements: (1) additional funds that will allow for increased weatherization measures for the low-income customer segment, further increasing energy savings; (2) increase the number of customers served over the program plan. This increased funding request comes as a result of customer feedback as well as additional opportunities identified while providing weatherization measures in customer homes. As a result, increases to the funding level for program tiers and increasing the number of customers served are the only changes being proposed to this program; all other aspects of the program including but not limited to program eligibility and home ownership status shall remain the same; and (3) the Companies seek to extend the WeCare Program through year seven of the proposed program plan.

The objectives of the Residential Low Income Weatherization Program (WeCare) are to: (1) Provide low-income customers who would otherwise not be likely to participate in Energy Efficiency programs an opportunity to do so; (2) Provide energy efficient products and energy management techniques, to allow recipients of the program to gain control over their utility bills; and (3) Provide an audit, energy education, and home weatherization services to 18,900 low-income participants; with a total energy and demand reduction of 41,455 MWh and 4,130 Kw.

4.2.9. Program Development and Administration

Program Development and Administration has several responsibilities within the Customer Energy Efficiency Department. Program Development and Administration efforts include: evaluation, measurement and verification of the existing energy efficiency portfolio; new program concept and initial design; market research related to new programming; research and technical evaluation of new technologies and programs; overall program tracking and management; and the development of key personnel. The daily activities performed by the program development and administration team support the LG&E and KU objective to develop, implement and promote cost effective offerings that advance the effective and deliberate use of energy by end-use customers.

Since the 2007 filing approval it has become evident that the amount of individual program needs has surpassed earlier projections. With the significant program growth, the Companies seek additional staff to support procurement; marketing; financial analysis; and the rigorous evaluation, measurement and verification (EM&V) efforts associated with each of the programs in the DSM portfolio. EM&V efforts of the Program Development and Administration program include data on program design, delivery, impacts and return on investment.

PP&E / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204**New Programs (Pending Case No. 2011-00134)****4.2.10. Residential Incentives Program**

The Residential Incentives Program is a new program designed to encourage customers to purchase various Energy Star appliances, HVAC equipment, or window films that meet certain requirements, qualifying them for an incentive. This is a simple program where as long as a qualifying appliance or product is purchased during the program period, only a completed Rebate Application Form and a copy of the proof of purchase (i.e., valid store receipt) needs to be submitted to receive the applicable incentive.

The objectives of the Residential Incentives Program are to: (1) Reduce energy utilization that provides benefits to the environment and will assist in the reduction of the customer's energy expenses; (2) Provide 128,200 incentives in the residential customer segment through 2017 with a total energy and demand reduction of 100,720 MWh and 18.6 MW.

4.2.11. Residential Refrigerator Removal Program

The Residential Refrigerator Removal Program is designed to provide removal and recycling of inefficient secondary refrigerators and freezers from LG&E and KU customer households. The removal of these inefficient units will reduce consumption and demand. The Companies will work with identified third-party vendors to collect and transport the inefficient appliance to an appropriate recycling center that will be responsible for adhering to any local, state or federal recycling ordinances. Customers participating in this program will be provided a one-time incentive.

The objectives of the Residential Refrigerator Removal Program are to: (1) Remove secondary refrigerator units from the electric grid that will result in the reduction of consumption and demand; (2) Remove 62,000 refrigerators through 2017 with a total energy and demand reduction of 46,500 MWh and 5.3 MW.

Time of Use Programs

The Time-of-Userates offered by LG&E currently covers all customer classes except a small Power Service (50 kW to 250 kW). It should also be noted that the Time-of-Use rates available to Residential Service and General Service are pilot programs. KU does not offer Time-of-Use rates below 250 kW. The current programs provide price signals that encourage more efficient use of energy and a reduction of peak demand. These programs provide opportunities for customers to better manage their energy bills while reducing demand on the generation resources.

The objectives of these programs are to (1) Educate customers about energy-efficiency and peak periods; and, (2) Help customers manage their energy usage by shifting use from peak hours to off-peak hours.

Bruneau / KU

DSM / Energy Efficiency Program Comparative
Kentucky Public Service Commission Case No. 2010-00204

Renewable Energy

While there is no RPS in Kentucky, LG&E and KU offer customers a Green Energy Program, Net Metering Service, and consider renewable energy technologies in the supply-side analysis as discussed in the integrated resource plan.

CONCLUSION

The energy efficiency and conservation programs offered by PPL, LG&E, and KU have been reviewed and summarized above in compliance with Ordering Paragraph No. 3 of the Commission's final order in Case No. 2010-00204. As shown by the foregoing discussion, the current DSM programs operated by PPL are similar in nature to those DSM programs currently being operated through KPSC approved Case No. 2007-00139 or those being proposed in KPSC Case No. 2011-00134.

APPENDIX

Appendix 1

Energy Efficiency Program Portfolio / PPL Corporation

Program Name	Start Date	Program Budget
Efficient Equipment Incentive	November, 2009	\$88,934,000
Residential Energy Assessment & Weatherization	May, 2010	\$2,755,818
Compact Fluorescent Lighting Campaign	January, 2010	\$17,742,646
Appliance Recycling Program	November, 2009	\$9,082,000
ENERGY STAR® New Homes Program ¹⁰	Scheduled to start mid 2010	\$2,731,000
Renewable Energy Program ¹¹	March 2010	Residential sector - \$1,109,098 / Government and Non-profit sector - \$4,540,271
Direct Load Control Program	March 2011	\$10,621,000
Time of Use Rates	May 2010	Residential - \$4,038,000 Small C&I - \$750,000 Government/Non-Profit - \$56,000 Low-Income - \$813,000
Energy-efficiency Behavior & Education	April 2010	\$2,830,000
Low-income WRAP	April, 2010	\$28,657,000
Low-income E-Power Wise	March, 2010	\$681,000

¹⁰ In the time that has passed since the approval of PPL Electric Utilities' Act 129 Plan, building codes and standards have changed, becoming more stringent and making it more difficult to achieve incremental energy savings (see program description). At this time, a recommendation is being made to the PA Public Utility Commission to cancel the program.

¹¹ Due to oversubscription and depletion of funds, the Residential PV portion of the program closed May 2010; the Government, Non-profit and Institutional PV portion of the program closed August 2010; and the residential GSHP portion of the program closed January 2011. The Government, Non-profit and Institutional GSHP program is still open.

Program Name	Start Date	Program Budget
Commercial and Industrial Custom Incentive Program	March, 2010	\$20,598,000
HVAC Tune-Up Program	April, 2010	\$2,154,418
Administrative Call and Rebate Processing Center	November, 2009	\$3,908,000
Energy Efficiency Management Information System Program	December, 2009	\$3,150,428

I. RECOMMENDATION REFERENCE:

Recommendation No.: IV-R4

Recommendation Statement: Reevaluate KPIs in customer service, set realistic targets consistent with its vision and reestablish the credibility of the KPI program.

Implementation Priority: High

LG&E/KU Person Responsible: John P. Malloy

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Set credible targets for metrics included in Retail Operating Report	09/2011	Completed 09/2011

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Set credible target for metrics included in Retail Operating Report*

Residential Retail Service

Retail metrics have been revised to include credible targets to achieve industry first quartile metrics. The Residential Service Level has steadily improved over the course of the 2010 and 2011. By December 2011, the Residential Call Center achieved 79% of all calls answered in 30 seconds or less. The graph below depicts the “stair stepped” monthly targets and associated performance against these targets. Additionally, the Residential customer Abandonment Rate stabilized throughout 2011 and met the target level at or below 4% in December 2011.

Bellomy Research* completes Residential Call Center surveys of customers who have recently contacted the center. Residential customer’s satisfaction continued to improve throughout 2011 exceeding the target of 8.5 on a scale of one to ten. The graph below depicts the overall customer experience. These surveys will be continued into the future.

**Bellomy Research is an experienced market research firm that conducts multi-channel transaction-based customer satisfaction surveys for LG&E/KU. Current studies include residential transactions (phone call, IVR, email, web and walk-in transactions), business transactions (phone call, IVR, web) and field transactions (tree trimming and field services metering work). The overall objective is to measure customer perceptions regarding their interaction. Results of the research are used to assess effectiveness of the handling of the contact and resolution of the issue.*

Residential Customer Experience Agent Answered Telephone Calls

Business Retail Service

By December 2011, the Business Service Center (Business customer call center) achieved 89% of all calls answered in 30 seconds or less. The graph below depicts the “stair stepped” monthly targets and associated performance against these targets. On the following graph, the Business Customer Abandonment Rate stabilized throughout 2011 and met the target level of at or below 2% in November 2011.

Also, the Business Service Center can and routinely does assist with residential customer calls during periods of high volume.

BSC Service Level (calls answered within 30 seconds)

BSC Abandonment Rate (calls abandoned after queued to an agent)

The transaction-based customer satisfaction surveys for the Business area continued to improve month over month throughout 2011. By December of 2011, average business customer satisfaction ratings were 9.26 on a ten point scale.

Email Service – Business and Residential

Email service levels for both business and residential customers improved during 2011. Two separate targets are managed against; the internal 24 hour response time and the associated industry 48 hour response target. Both service level targets were achieved and sustained by year end 2011 with performance of 96% against the 24 hour target and 99% against the 48 hour target. The graph below reflects overall performance.

Email service levels and associated customer satisfaction levels dramatically improved upon the implementation of a dedicated email response team.

Customers responded favorably through the email transaction-based surveys with a December 2011 score of 8.45 on a ten point scale as depicted on the graph below.

Residential & Business Customer Experience Agent Answered Emails

The balance of Retail customer service metrics and transactional survey scores for IVRU, Web Self-Service and agent Assisted Walk-in (Business Offices) customer contact channels can be reviewed in the abridged December 2011 Retail Operating Report as Chapter IV-R1 – Attachment 3.

The full Retail Operating Report contains confidential information which is not available to the general public. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies’ offices.

Meter Reading

Meter reading business process changes and associated quality control and quality assurance measures implemented from August through December of 2011 led to improved overall performance. By December 2011, both LG&E and KU meter reading business partners’ accuracy improved to 99.93% and 99.94% respectively against a target of 99.9%.

Additionally, the percentages of meter reading estimates are in line with expectations 1.13% for LG&E and 0.96% for KU. Note: Meter Reading estimates are impacted by other non-performance related causes such as storms and customer allowed access.

The following graphs reflect performance across both accuracy and meter reading estimates.

Meter Reading Accuracy

Percentage Meter Reading Estimates

Kentucky Public Service Commission Inquires

The graph below provides a month over month reflection of KPSC inquiries from 2009 through full year 2011.

In late 2009, the Commission inquiries began to stabilize. The trend continued and began to improve during 2010. In 2011, 11 of 12 months were below the prior year – prior month and the total of 2011 inquiries was the lowest in several years.

Additionally, the Energy Delivery Balanced Scorecard indicates 2011 year end operational performance. Below is an excerpt from the Energy Delivery Balanced Scorecard.

The complete Energy Delivery Balanced Scorecard contains confidential and market-sensitive information which is not available to the general public. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies’ offices.

KPI	YTD Actuals	YTD Target	Full Year Target
Residential Service Level	79% December	December Target 80% of Calls Answered in 30 Seconds	End of Year Target 80% of Calls Answered in 30 Seconds
Business Service Level	89% December	December Target 80% of Calls Answered in 30 Seconds	End of Year Target 80% of Calls Answered in 30 Seconds
TIA Customer Satisfaction (points) (RCCS Study Results)	Q1 Results - 0 Points Q2 Results - 3 Points Q3 Results - 6 Points Q4 Results - 3 Points YTD Results - 12 Points	N/A	18 Points (of possible 32 Points)

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

The actions proposed by LG&E and KU were generally consistent with Liberty Consulting’s recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

LG&E/KU considers this action plan complete and requests that it be closed.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

This exercise remains within the internal operating expenses of the Companies, therefore no additional costs are envisioned.

B. Benefit Analysis

Provides management and staff credible targets to gauge overall operational performance improvement efforts while maintaining a long range focus on the Customer Experience Strategy’s vision.

C. Cost/Benefit Summary

Category	One Time	Annual Recurring
Cost	N/A	N/A
Benefit	N/A	N/A

D. Other Costs or Benefits

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Incorporate into strategic planning and budgeting process.	05/2011	Completed 10/2011

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Incorporate into strategic planning and budgeting process.*

The Corporate planning process effectively reflects the customer facing initiatives as well as the implementation of the Customer Experience Strategy. Excerpts from the LGE – KU 2012 – 2016 Plan summary are referenced below.

The full plan contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the requested information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

1.1 Vision and Mission

The Company's vision is to empower economic vitality and quality of life, and our mission is to provide reliable, safe, competitively priced energy to customers and best-in-sector returns to our shareowners. The Company is guided by six core values which are essential to fulfilling our vision and represent the expectations of our customers, employees, and shareowners: safety and health, customer focus, employee commitment and diversity, integrity and openness, performance excellence, and corporate citizenship. The following examples demonstrate actions taken in 2011 which are consistent with our vision, mission, and set of values:

- *The Company maintained a solid position in the most recent J.D. Power residential survey, with KU and LG&E ranking 5th and 6th among their peers in the Midwest region. In the 2011 J.D. Power Electric Utility Business Customer Satisfaction Study, KU and LG&E ranked 3rd and 10th (tied with Indianapolis Power & Light) respectively, among 22 utilities in the Midwest region.*
- *The Company has renewed its commitment to superior customer service and satisfaction and has launched "The Customer Experience", a corporate-wide initiative, designed to raise awareness among all employees and business partners about how they impact customers and how they can influence customer satisfaction. We are also implementing the recommendations of the KPSC customer service audit. Many of the recommendations were already underway as part of our "Customer Experience" strategy.*

2.4 Customer Service

Customer satisfaction is a core value of the Company illustrated by a strong record of providing exceptional customer service, while keeping rates among the lowest in the country. As a result of the Company's efforts in this area, the Company has received several J.D. Power awards over the years for residential and business customer satisfaction.

However, customer satisfaction across the utility industry began to decline in recent years as customers have been confronted with many external challenges, including severe weather events, an economic recession, and rising rates. The Company is not immune to these factors and has experienced a decline in customer satisfaction due to the 2008 wind and

2009 ice storms; financial hardships on customers created by the failing economy; rate and tariff adjustments; and changes related to the implementation of a new customer information system. Furthermore, the Company's filing of a Kentucky rate case in July 2008, negatively impacted customer satisfaction as significant changes to harmonize LG&E and KU tariffs went into effect, including late payment fees and modifications to the billing cycle. In the order settling that rate case, the KPSC initiated a focused management audit of LG&E and KU's customer service areas, citing customer complaints as the driver, the majority of which were related to the rate case. The audit was conducted by Liberty Consulting and the report was issued on September 14, 2011.

Well before the KPSC initiated the audit, the Company made significant investments in technology and initiated plans for the construction of a new call center to provide space for additional customer service representatives. Some of the technology investments included online self-service options with additional enhancements to serve visually impaired and Spanish-speaking customers; web portals to serve low-income customers and property managers; a new automated phone system for customer service; an online outage map including estimated restoration times and Smartphone apps for easy access; and mobile Geographic Information System (GIS) and dispatch capabilities to improve communication and efficiency among field crews.

The audit report states that the Company went too far in containing costs, rather than improving service. Liberty concluded the Company should have been willing to spend more in the interest of customers. The Company's focus always has been and will continue to be to hold down costs for customers, while enhancing service. The audit report consists of 56 key recommendations – 50 of which the Company submitted to Liberty for inclusion in the report. The Company is working with the KPSC to develop detailed action plans and has committed to making the necessary improvements. As part of the effort, the Company has planned for the incremental expenditures necessary to implement the recommendations which include the new \$5 million Morganfield center and the hiring of more than 100 incremental customer service employees, to enhance service. The Company has also initiated CEO and officer daily customer inquiry tracking to enhance awareness and transparency.

Additionally, the Energy Delivery plan presentation contains more specific and targeted areas of customer facing objectives and metrics. The abridged Energy Delivery 2012 – 2016 Mid Term Plan is included in this report (Chapter IV-R1 – Attachment 2).

The full plan contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response is consistent with Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

LG&E/KU considers this action plan complete and requests that it be closed.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

This exercise remains within the internal operating expenses of the Companies, therefore no additional costs are envisioned.

B. Benefit Analysis

Focused priority of Customer Service in the strategic planning and budgeting process to ensure operational goals are tracked and achieved.

C. Cost/Benefit Summary

Category	One Time	Annual Recurring
Cost	N/A	N/A
Benefit	N/A	N/A

D. Other Costs or Benefits

None identified.

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: IV-R6

Recommendation Statement: Examine, in a formal quantified way, the long-term strategy for minimizing customer expenses to assure that the vision for superior customer service is not compromised.

Implementation Priority: High

LG&E/KU Person Responsible: John P. Malloy

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1a	Complete study	01/2012	04/2012
1b	Evaluate results for inclusion in strategic planning	04/2012	06/2012

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1a: *Complete study*

Request for proposals have been received and are currently being evaluated.

Initiative 1b: *Evaluate results for inclusion in strategic planning*

The evaluation of the results for inclusion in the strategic plan is scheduled to begin in April 2012.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response is consistent with Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

Initiative 1a: *Complete study*

Management is working on the study. The status will be reported during the next progress report period.

Initiative 1b: *Evaluate results for inclusion in strategic planning*

The Companies inclusion of results into strategic planning will take place during the normal annual planning process. The status will be reported during the next progress report period.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

The recommendation entails a one-time study from an independent external firm and is projected to run approximately \$80,000.

B. Benefit Analysis

The study will provide an assessment of the Company's long-term strategy of minimizing customer expenses to assure that the vision for superior customer service is not compromised.

C. Cost/Benefit Summary

To be completed once the recommendation is marked as completed.

Category	One Time	Annual Recurring
Cost		
Benefit		

D. Other Costs or Benefits

To be completed once the recommendation is marked as completed.

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: IV-R7

Recommendation Statement: Directly tie the budgeting process and the resulting allocation of resources to operational goals and objectives.

Implementation Priority: High

LG&E/KU Person Responsible: John P. Malloy

II. RECOMMENDATION STATUS

- COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)
- ONGOING (The implementation of this action plan is still in progress.)
- DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1.	Restructure responsibility to the Mgr. of Strategic and Operational Performance and allocate analyst to this department.	05/2011	Completed 05/2011 <i>Note: Analyst in role as of May 2011.</i>

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1: *Restructure responsibility to the Mgr. of Strategic and Operational Performance and allocate analyst to this department.*

The Manager of Strategic and Operational Performance now has the responsibility for the strategic allocation of resources and associated operational goals and objectives. This led to the consolidation of both a benchmarking analyst and an operational metrics analyst to the Strategic and Operational Performance group. This role currently has twelve (12) analysts responsible for the wide technical breadth of Energy Delivery operations, inclusive of Electric Distribution, Gas Operations and Retail services. Additionally, this functional role tracks and reports on operational performance and actively works with the Director of Asset Management for prudent resource allocation.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response is consistent with Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

LG&E/KU considers this action plan complete and requests that it be closed.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

The annual cost for an additional analyst to support "collective reporting" is approximately \$155,000 annually.

B. Benefit Analysis

The optimization of operational performance led to the effective allocation of resources.

C. Cost/Benefit Summary

Category	One Time	Annual Recurring

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1a *Revamp the Customer Experience Strategic (CES) plan (from IV-1)*
(From IV-1):

The Customer Experience Strategy has been revised to reflect ongoing efforts to improve overall operational performance. The implementation is fully funded in the Energy Delivery 2012-2016 Mid Term Plan. A detailed review is included in response to section IV-R9 and also shown on Chapter IV-R1 – Attachment 1.

Initiative 1b *Implementation of the CES (from IV-1)*
(From IV-1):

Implementation of the Customer Experience Strategy is well underway and fully funded in the Energy Delivery 2012-2016 Mid Term Plan. A detailed review is included in response to section IV-R9 and also shown on Chapter IV-R1 – Attachment 1.

The full plan contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

Initiative 1a: *Integrate the CES in planning and budgeting process*

The Corporate planning process effectively reflects the customer facing initiatives as well as the implementation of the Customer Experience Strategy. Excerpts from the LGE – KU 2012 – 2016 Plan summary are referenced below.

The full plan contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the requested information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

1.1 Vision and Mission

The Company's vision is to empower economic vitality and quality of life, and our mission is to provide reliable, safe, competitively priced energy to customers and best-in-sector returns to our shareowners. The Company is guided by six core values which are essential to fulfilling our vision and represent the expectations of our customers, employees, and shareowners: safety and health, customer focus, employee commitment and diversity, integrity and openness, performance excellence, and corporate citizenship. The following examples demonstrate actions taken in 2011 which are consistent with our vision, mission, and set of values:

I. RECOMMENDATION REFERENCE:

Recommendation No.: IV-R9

Recommendation Statement: Make a number of specific changes to the CES to reinforce its effectiveness.

- a. The final CES should be accompanied by approved funding sufficient to fully implement the strategy.
- b. The CES should evidence a greater sense of urgency and a greater commitment to each of its initiatives, including specific goals and committed timetables.
- c. The CES should include correction of the basic performance shortcomings described herein and as already acknowledged by the Company.
- d. Specific, quantified goals should be included as opposed to broad concepts.

Implementation Priority: High

LG&E/KU Person Responsible: John P. Malloy

II. RECOMMENDATION STATUS

COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)

ONGOING (The implementation of this action plan is still in progress.)

DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1a	<p>Revamp the Customer Experience Strategic (CES) plan</p> <p><i>Note: Actions included in the CES are continuing while this exercise occurs. The longer timeline is to ensure the new aspects of the strategy are properly disseminated across the corporation.</i></p>	11/2011	Completed 03/2012
1b	<p>Implementation of the CES</p> <p><i>Note: Implementation of specific actions in the CES are well underway and/or have varying timelines depending on the specific nature of the action. Therefore, the CES has a perpetual timeline given that tactics are completed and new tactics come into the plan.</i></p>	See note	See note

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1a: *Revamp the Customer Experience Strategic (CES) plan*

The Customer Experience Strategic plan has been revised to reflect ongoing efforts to improve overall operational performance. The Customer Experience Strategy is included in this report (Chapter IV-R1- Attachment 1).

Initiative 1b: *Implementation of the CES*

Implementation of the Customer Experience Strategy is well underway and fully funded in the abridged Energy Delivery 2012 – 2016 Mid Term Plan (Chapter IV-R1 – Attachment 2).

The full plan contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

Initiative 1c: *Integrate the CES in planning and budget process (from IV-1) (from IV-1):*

The Corporate planning process effectively reflects the customer facing initiatives as well as the implementation of the Customer Experience Strategy. Excerpts from the LGE – KU 2012 – 2016 Plan summary are referenced below report.

The full plan contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the requested information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

1.1 Vision and Mission

The Company's vision is to empower economic vitality and quality of life, and our mission is to provide reliable, safe, competitively priced energy to customers and best-in-sector returns to our shareowners. The Company is guided by six core values which are essential to fulfilling our vision and represent the expectations of our customers, employees, and shareowners: safety and health, customer focus, employee commitment and diversity, integrity and openness, performance excellence, and corporate citizenship. The following examples demonstrate actions taken in 2011 which are consistent with our vision, mission, and set of values:

- *The Company maintained a solid position in the most recent J.D. Power residential survey, with KU and LG&E ranking 5th and 6th among their peers in the Midwest region. In the 2011 J.D. Power Electric Utility Business Customer Satisfaction Study, KU and LG&E ranked 3rd and 10th (tied with Indianapolis Power & Light) respectively, among 22 utilities in the Midwest region.*
- *The Company has renewed its commitment to superior customer service and satisfaction and has launched "The Customer Experience", a corporate-wide initiative, designed to raise awareness among all employees and business partners about how they impact customers and how they can influence customer satisfaction. We are also implementing the recommendations of the KPSC customer service audit. Many of the recommendations were already underway as part of our "Customer Experience" strategy.*

2.4 Customer Service

Customer satisfaction is a core value of the Company illustrated by a strong record of providing exceptional customer service, while keeping rates among the lowest in the country. As a result of the Company's efforts in this area, the Company has received several J.D. Power awards over the years for residential and business customer satisfaction.

However, customer satisfaction across the utility industry began to decline in recent years as customers have been confronted with many external challenges, including severe weather events, an economic recession, and rising rates. The Company is not immune to these factors and has

experienced a decline in customer satisfaction due to the 2008 wind and 2009 ice storms; financial hardships on customers created by the failing economy; rate and tariff adjustments; and changes related to the implementation of a new customer information system. Furthermore, the Company's filing of a Kentucky rate case in July 2008, negatively impacted customer satisfaction as significant changes to harmonize LG&E and KU tariffs went into effect, including late payment fees and modifications to the billing cycle. In the order settling that rate case, the KPSC initiated a focused management audit of LG&E and KU's customer service areas, citing customer complaints as the driver, the majority of which were related to the rate case. The audit was conducted by Liberty Consulting and the report was issued on September 14, 2011.

Well before the KPSC initiated the audit, the Company made significant investments in technology and initiated plans for the construction of a new call center to provide space for additional customer service representatives. Some of the technology investments included online self-service options with additional enhancements to serve visually impaired and Spanish-speaking customers; web portals to serve low-income customers and property managers; a new automated phone system for customer service; an online outage map including estimated restoration times and Smartphone apps for easy access; and mobile Geographic Information System (GIS) and dispatch capabilities to improve communication and efficiency among field crews.

The audit report states that the Company went too far in containing costs, rather than improving service. Liberty concluded the Company should have been willing to spend more in the interest of customers. The Company's focus always has been and will continue to be to hold down costs for customers, while enhancing service. The audit report consists of 56 key recommendations – 50 of which the Company submitted to Liberty for inclusion in the report. The Company is working with the KPSC to develop detailed action plans and has committed to making the necessary improvements. As part of the effort, the Company has planned for the incremental expenditures necessary to implement the recommendations which include the new \$5 million Morganfield center and the hiring of more than 100 incremental customer service employees, to enhance service. The Company has also initiated CEO and officer daily customer inquiry tracking to enhance awareness and transparency.

Additionally, the Energy Delivery plan presentation contains more specific and targeted areas of customer facing objectives and metrics. The abridged Energy Delivery 2012 – 2016 Mid Term Plan is included in this report (Chapter IV-R1 – Attachment 2).

The full plan contains confidential, market-sensitive, forward-looking information which is not available to the general public or to the investment community. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response is consistent with Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

LG&E/KU considers this action plan complete and requests that it be closed.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

This exercise remains within the internal operating expenses of the Companies, therefore no additional costs are envisioned. Costs associated with the individual objectives or tactical plans are already included in the corporate budget and included in the cost analysis in previous sections of this report.

B. Benefit Analysis

The improved clarity of corporate and operational objectives led to enhance the overall customer service culture while driving operational performance.

C. Cost/Benefit Summary

Category	One Time	Annual Recurring
Cost	N/A	N/A
Benefit	N/A	N/A

D. Other Costs or Benefits

None identified.

Date Filed: March 14, 2012

I. RECOMMENDATION REFERENCE:

Recommendation No.: IV-R10

Recommendation Statement: Introduce into the TIA more aggressive, yet achievable, goals consistent with a much improved level of customer service.

Implementation Priority: High

LG&E/KU Person Responsible: John P. Malloy

II. RECOMMENDATION STATUS

- COMPLETE (LG&E/KU considers this action plan complete and requests that it be closed.)
- ONGOING (The implementation of this action plan is still in progress.)
- DISAGREE (LG&E/KU does not agree with this recommendation.)

III. IMPLEMENTATION STEPS TO ACCOMPLISH RECOMMENDATION

No.	Step	Dates	
		Start	Complete
1a	Evaluate TIA measures and determine recommended approach	10/2011	Completed 02/2012
1b	Implement recommended approach	06/2012	01/2013

IV. ACTION TAKEN ON IMPLEMENTATION STEPS

Initiative 1a: *Evaluate / implement TIA measures and determine recommended approach*

A new customer service index score have been developed to run in conjunction with the existing team incentive award measure. The Residential Competitive Customer Satisfaction (RCCS) study covers many areas of customers' opinions about their utility. An overall index of critical satisfaction factors has been constructed to simplify the review of the information. The Customer Satisfaction Index (CSI) provides a single objective measure by which employees can compare LG&E and KU residential customers' perceptions relative to the competitive group. A total of 28 attributes are used to obtain the overall index and factors for residential customers. The grouping of these attributes into five factors is confirmed using factor analysis. The relative importance associated with each of the 28 attributes and five factors is determined using regression analysis. Together they represent a balanced synthesis of the overall residential customer perceptions. The CSI is comprised of five related factors. These factors are as follows:

- Power Quality & Reliability
- Price
- Billing & Payment
- Corporate Citizenship
- Communications

The target for all attributes and the overall CSI score is a mean score of 8.5 on a 10 point scale.

The CSI model contains proprietary information which is not available to the general public. Given the nature of the information, LG&E and KU will provide the information for visual inspection at the Companies' offices.

Management continued parallel tracking of this index along with the current "top two box" score method and will evaluate the effectiveness of an indexing method.

Initiative 1b: *Implement recommended approach*

Activity is scheduled to begin in June 2012.

V. ANSWERS TO QUESTIONS OF COMMISSION STAFF

LG&E and KU's response is consistent with Liberty Consulting's recommendation.

VI. ACTIONS CONTEMPLATED PRIOR TO NEXT RESPONSE FILING

Initiative 1b: *Evaluate / implement TIA measures and determine recommended approach*

The status will be reported during the next progress report period.

VII. COST/BENEFIT ANALYSIS AND SUPPORT

A. Cost Analysis

This exercise remains within the internal operating expenses of the Companies, therefore no additional costs are envisioned.

B. Benefit Analysis

This action seeks to ensure incentive compensation is directly tied to managerial and employee decision making while advancing the corporate wide customer service culture.

C. Cost/Benefit Summary

To be completed once the recommendation is marked as completed.

Category	One Time	Annual Recurring
Cost		
Benefit		

D. Other Costs or Benefits

To be completed once the recommendation is marked as completed.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 10

Responding Witness: Sidney L. "Butch" Cockerill

Q-10. Please provide the number of customers for whom KU has changed the bill payment due date since implementation of the FLEX program. Provide complete details.

A-10.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 11

Responding Witness: Sidney L. "Butch" Cockerill

Q-11. For the average KU customer, how many times in the past year has the bill payment due date been changed?

A-11. None. There have been no changes to the tariffs regarding bill payment due dates since the 2008 KU rate case. However, for the benefit of the customers, bills will be due only on working days, and not weekends or holidays, bill payment due dates fluctuate some from month to month.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 12

Responding Witness: Sidney L. "Butch" Cockerill

Q-12. What is the most times in the past year that a bill payment due date has been changed for any customer?

A-12. There have been no changes to the tariffs regarding bill payment due dates since the 2008 KU rate case. However, for the benefit of the customer, bills will be due only on working days, and not weekends or holidays, bill payment due dates fluctuate some from month to month.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 13

Responding Witness: Sidney L. "Butch" Cockerill

- Q-13. With the change in the bill payment due date, what is the fewest number of days that a customer has had to timely tender payment to the company? In your answer, please consider also all relevant information in complaints filed against the company at the PSC.
- A-13. There have been no changes to the tariffs regarding bill payment due dates since the 2008 KU rate case. By tariff, customer bill payments are due twelve calendar days from the issuance of the invoice and a late payment charge is applied three calendar days following the due date. Therefore, by tariff, all customers have at least fifteen calendar days to pay before a late payment charge is assessed.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 14

Responding Witness: Sidney L. "Butch" Cockerill

- Q-14. With the change in the bill payment due date, what is the most number of days that a customer has had to timely tender payment to the company? In your answer, please consider also all relevant information in complaints filed against the company at the PSC.
- A-14. There have been no changes to the tariffs regarding bill payment due dates since the 2008 KU rate case. However, as a mutual resolution to customer complaints, KU developed the "FLEX" program, effective January 1, 2010, for eligible customers on a fixed or limited income where the customer's due date is extended from twelve days to twenty-eight days. Therefore, customers on the FLEX program have the most number of days to tender timely payment to the company, at twenty-eight days, plus three, before a late payment charge is assessed.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 15

Responding Witness: Cheryl E. Bruner

Q-15. Please provide for the five past years, listed by month, the number of complaints which KU has received from its customers broken down by the nature of the complaints, such as late payment penalty, poor service, etc.

A-15. See attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

Response to Attorney General's Initial Requests for Information
Dated July 31, 2012

Question No. 16

Responding Witness: Paul W. Thompson

- Q-16. Reference the Thompson testimony, p. 9. Describe all efforts the company is making to get the TC2 unit to function within the performance standards for which it is designed.
- a. Describe whether any of the O & M costs sought to be recovered are or could be covered under warranty with the TC2 manufacturers and/or other contractors who designed and/or built the unit.
 - b. Provide a history of all unplanned outages at TC2 since the unit went on-line commercially. For each such outage, describe whether any costs associated therewith were or could be covered under insurance and/or warranties.
 - c. Reference the Thompson testimony at p. 13. Has the Black & Veatch software been used to analyze the heat rate issues at TC2? If so, please provide results. If not, why not?
- A-16. TC2 had a major planned outage from March 23, 2012 to June 1, 2012 to address known, remaining issues that were negatively impacting performance. It is the Company's belief that the areas of the unit addressed during the outage are operating closer to design levels.
- a. There are no O&M costs incurred by KU for which recovery is being sought under the warranty.
 - b. See attached. None of these outages resulted in costs that could be covered under insurance or warranties.
 - c. Yes, the Black and Veatch program has been used to monitor Heat Rate issues at Trimble County. Some examples of these issues are:
 - 1. Unit 2 Feedwater heater 1B shell temperature was found elevated. A main steam supply valve to the turbine gland steam was found open; this gland

steam drains to the heater shell, and was elevating the temperature and impacting heater performance. The immediate impact was 16 BTU/kwh, or \$16,000 per month in heat rate impact.

2. Ongoing monitoring of Unit 2 High Pressure condenser identified high backpressure and possible cleanliness issues. Going into the spring 2012 outage, the plant was notified and advised to perform an extensive condenser cleaning. After the outage, the Black and Veatch program continued investigating and assisted with pinpointing a large source of air in leakage to this condenser. Once that source was eliminated, the backpressure improved to normal levels. The heat rate impact of this find was quantified at 22 BTU/kwh, or \$22,340 per month.
3. The Black and Veatch program identified air heater pluggage and possible damage due to picking up increasing gas differential pressures across the heaters. The increase in differential pressure was noted before it reached alarm status, allowing the plant to plan corrective action in a timely manner. The quantified heat rate impact was 15 BTU/kwh, or \$15,200 per month.
4. The Black and Veatch program has identified potential issues with both feedwater and condensate heater flows. They are monitoring the drain valve positions to both the HP Feedwater and the LP Condensate heaters, and valve positions on the 8A and 8B HP heaters as well as the 2A, 2B, 1A, and 1B heaters indicated increased flow through the systems. These may be part of separate issues or single issues; the investigation is ongoing between the station and Black and Veatch. Possible impacts to heat rate could be excessive extraction flow to the heaters, causing the drain valves to open further; this would impact the turbine performance by eliminating steam from the cycle. Additionally, it could be indicative of a tube leak in one of the heaters, which would eliminate feedwater from the system prior to entering the turbine and lowering steam flow.

In general, the Black and Veatch program has been utilized to identify and address heat rate issues at Trimble County Unit 2 where possible. In the cases presented above, there were attempts made to address issues found. However, in many of the open items found by Black and Veatch, the heat rate impact is a result of ongoing issues with the boiler OEM and the EPC contractor. Impacts to the heat rate from boiler operation and efficiency; burner combustion, pulverizer operation and performance, and forced and induced draft fan performance are being addressed and tuned by Doosan and Bechtel. In these cases, the heat rate issues have been identified, but the actual work to address them is being pushed not by the plant, but by these other parties as part of their contractual obligations.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 17

Responding Witness: Paul W. Thompson

Q-17. Please describe in detail any financial ramifications to the company and its ratepayers if TC2 does not "operate effectively and efficiently going forward."

A-17. The Company fully expects TC2 to operate as designed over the long term. The issues that TC2 has experienced are typical of a large unit start-up, as noted more fully in response to PSC 2-21.

Should TC2 operate at less than the desired level, the impact from a ratepayer perspective would be in one of two ways. If TC2 were on an extended "planned" outage the ratepayers would pay the incremental fuel cost between TC2 and the next most efficient unit. Should TC2 be on a "forced" outage, the company would absorb the incremental cost difference through the forced outage penalty provision in the fuel adjustment clause.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 18

Responding Witness: Paul W. Thompson

- Q-18. Reference the Thompson testimony at p. 9, lines 15 -19. Are the \$11 million in costs listed therein in excess of that which the company had previously anticipated? If so, explain in detail, and please provide a detailed explanation of the purpose of those costs.
- A-18. The costs were in line with expectations. See the attached file for the FERC Account breakdown.

TRIMBLE COUNTY UNIT 2 - OPEX Expenses for twelve months ending March 31, 2012

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 20

Responding Witness: Paul W. Thompson

- Q-20. Reference the Thompson testimony at p. 13, wherein Mr. Thompson states that the Black & Veatch software will “optimize” maintenance costs. Will it also reduce maintenance costs? Please explain.
- A-20. B&V software leverages operation and condition status to optimize maintenance frequency and duration. Optimized maintenance may incrementally reduce cost, relative to a frequency based maintenance program.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 21

Responding Witness: Paul W. Thompson

Q-21. Please list the total cost(s) for the services of Black and Veatch, by year since the engagement of the firm's services for the above-referenced software.

A-21. The KU amount for 2010 was \$71,390. The KU amount for 2011 was \$364,598.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 22

Responding Witness: Paul W. Thompson

- Q-22. Reference the Thompson testimony at p. 14-16, wherein Mr. Thompson references decreasing abilities to make off-system sales, and structural changes to the Companies' base load generation fleet. Describe the structural changes in detail.
- A-22. As noted in the testimony, the primary structural changes are the expiration of Electric Energy, Inc. and Owensboro Municipal Utilities contracts for power that served KU and LG&E native load. In combination with the lower natural gas prices, the ability to generate significant revenues through the wholesale power market was greatly reduced from the levels realized in 2005-2008.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 23

Responding Witness: Paul W. Thompson

Q-23. State why the agreements with OMU and Electric Energy, Inc. were terminated, and whether the companies believe any agreements could be reached with these entities in the future.

A-23. The OMU contract was terminated by OMU, not by KU. OMU sought and obtained a declaration from the US District Court from the Western District of Kentucky that it had the unilateral right, under the contract, to terminate without cause with certain notice. OMU then proceeded to terminate the contract after several years of litigation by KU. With regard to EEI, in 2005, the EEI Board proposed to modify its contract with KU from cost-based rates to market-based rates over the objection of KU as a minority shareholder. Based upon these changes, KU determined that it was no longer a least cost option for KU customers and the then-existing contract expired at the end of 2005.

As for the future, as with any power purchase agreement, EEI and/or OMU would have to be a least cost resource before KU would agree to enter into a new contract. In addition, KU would want to be certain that any necessary environmental investments have been made for the life of any contract. While EEI submitted a bid in response to the Companies' last RFP for capacity, it was only for a limited amount of capacity from 2013 to 2016. This bid was not determined to be a least cost resource at that time. OMU did not respond to the Companies' most recent RFP.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 24

Responding Witness: Paul W. Thompson

Q-24. Do the companies believe that in light of expensive-to-comply-with EPA air regulations, the price for off system sales will remain low? If so, provide complete justification and any and all bases for such a belief.

A-24. As noted in the testimony, the Company believes that the increased domestic production of natural gas, which is driving down both natural gas and wholesale electricity prices, in concert with the Company's structural changes in base load due to the loss of the Electric Energy, Inc. and Owensboro Municipal Utilities contracts, is greatly limiting the ability to sell power off-system at prices consistently above variable cost. The Company constantly evaluates the off-system market and opportunities however, and should gas prices move up and power is available after serving native load, the Company will make such sales if they can be profitable.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 25

Responding Witness: Paul W. Thompson

- Q-25. Reference the Thompson testimony at p. 19, and 20-21 wherein Mr. Thompson references an estimate of \$62 million to complete upgrades to the Companies' transmission facilities in order to comply with new NERC guidelines. If the Companies were a member of an RTO, would any portion of this cost be a subject to partial funding from other RTO members?
- A-25. No. In the Companies' assessment of the NERC Alert requirements, the projects identified in the assessment are all local projects and thus would not be allocated any differently whether an RTO member or not.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 26

Responding Witness: Paul W. Thompson

- Q-26. Please provide a breakdown of how costs for EMS and CASCADE have been allocated between KU and LG&E.
- A-26. The capital costs incurred between the two test year periods were allocated 65% to KU and 35% to LG&E for CASCADE, and 68% to KU and 32% to LG&E for EMS.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 27

Responding Witness: Paul W. Thompson

Q-27. Reference the Thompson testimony at p. 20. Please provide a breakdown of how costs for the new employees of Energy Services have been allocated between KU and LG&E.

A-27. The costs by function by Company are as follows:

	<u>LG&E</u>	<u>KU</u>
Generation	\$255,091	\$542,199
Transmission	<u>\$551,103</u>	<u>\$1,023,478</u>
Total Energy Services	\$806,194	\$1,565,677

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 28

Responding Witness: Paul W. Thompson

Q-28. Reference the Thompson testimony at p. 21. Provide the company's funding to the Electric Power Research Institute for the past five years. Describe how much of these sums are paid by the company's ratepayers.

A-28. Funding to EPRI from KU between 2007 and 2011 is as follows:

2007	\$1,222k
2008	\$1,145k
2009	\$1,297k
2010	\$1,722k
2011	\$1,981k

The ratepayers pay 100% of all sums.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 29

Responding Witness: Paul W. Thompson

- Q-29. Reference the Thompson testimony at p. 22. Please state whether the funding to the WKCFS is a reoccurring cost going forward.
- A-29. Though the actual cash funding has been completed, the payments to the Western Kentucky Carbon Storage Foundation were set up as regulatory assets and approved for amortization and rate recovery under LG&E Case Number 2009-00549 and KU Case Number 2009-00548 under the name Kentucky Consortium for Carbon Storage (KCCS). The amortization of the regulatory asset runs through July, 2014.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 30

Responding Witness: Paul W. Thompson

- Q-30. Reference the Thompson testimony at p. 22 and 23. Please state whether the financial commitments to the DOE as noted on these pages will continue after the termination dates listed therein.
- A-30. The Company continually evaluates R&D projects and makes funding decisions based on the projects that offer the most promise and potential benefits to the Company and its customers. The projects referenced above will be evaluated as part of that overall scope. No commitment beyond what was referenced in Mr. Thompson's testimony has been made on those specific projects.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 31

Responding Witness: Paul W. Thompson

Q-31. Reference the Thompson testimony at p. 23. Provide a detailed financial accounting for the amount requested by the company in the current case for the Dix Dam project.

A-31. See attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 32

Responding Witness: Paul W. Thompson / Counsel

- Q-32. Provide a detailed listing of costs for the prior five years as well as those expected for the five years following the end of the test year.
- A-32. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, for the years 2007-2011, see the attached.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 33

Responding Witness: Paul W. Thompson

- Q-33. Reference the Thompson testimony at pp. 23-24. Detail any physical improvements undertaken, whether by the company or any other entity, to address the integrity of Dix Dam.
- A-33. The dam has only needed maintenance performed (no physical improvements per se) to maintain its integrity throughout its history. Inspections, assessments and repairs have been performed periodically to ensure the safety of the facility. The assessments have always concluded that the dam is safe. The most recent of these assessments was a Potential Failure Mode Analysis performed in 2009. That analysis concluded that there were no safety related deficiencies in the structure. The associated reports are included in response to Question No. 34.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 34

Responding Witness: Paul W. Thompson

- Q-34. Reference the Thompson testimony in general concerning Dix Dam. Please provide copies of all studies, analyses, reports etc., whether preliminary in nature or final, that pertain to the integrity and safety of Dix Dam.
- A-34. Responsive reports dating back to 2003 included on digital media are being provided. Earlier reports are available in hard copy and are difficult to produce due to the volume, but are available at the Brown Station Administrative office at a mutually agreeable time. See the Motion for Deviation.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 35

Responding Witness: Paul W. Thompson

- Q-35. Reference the Thompson testimony in general regarding the Dix Dam. Please supply a photocopy of any inspection report, safety or integrity assessment, or other similar type of document which analyzes or discusses the condition of Dix Dam and/or the corresponding risks associated with its condition. For purposes of this request: (a) the scope includes any preliminary report if a final report is pending or was not issued; (b) the question is limited to reports or assessments created on or after 1 January 2008; (c) please include each report commissioned by Kentucky Utilities as well as any report or draft of a report supplied to Kentucky Utilities by a third-party since 1 January 2008 including any inspection report(s) generated by the Kentucky Division of Water that is (are) in the possession or control of Kentucky Utilities. If there are no reports falling within the scope of this request, please affirmatively state that fact and supply the most recent report commissioned by Kentucky Utilities (even if not in final form) as well as the identification of the date of the most recent report of the Kentucky Division of Water pertaining to the inspection of Dix Dam (per the understanding of Kentucky Utilities).
- A-35. See the response to Question No.34.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

Response to Attorney General's Initial Requests for Information

Dated July 31, 2012

Question No. 36

Responding Witness: Paul W. Thompson

- Q-36. Reference the Thompson testimony in general regarding the Dix Dam. Please answer the following:
- a. Does KU conduct periodic or routine assessments of Dix Dam? For example, does KU periodically survey the structure for the growth of vegetation on the dam or signs of leakage?
 - b. With regard to such assessments, if any, please provide a narrative of the types of assessments that are conducted including the frequency of each assessment. If the frequency is not determined by reference to a set cycle, for example, weekly, monthly, quarterly, but rather by reference to an event such as hours of operation of the hydro facility, water level behind the dam, rainfall amounts, etc., then please explain each event or type of event that triggers an assessment.
 - c. Please identify the last major rehabilitation or stabilization project for the Dix Dam impoundment. Include information such as the cost of the project, the date of completion, and the goal of the project.
 - d. Please identify the next major rehabilitation or stabilization project for the Dix Dam impoundment. Include information such as the cost projection for the project, the expected date of completion, and the goal of the project.
 - e. For the period of 1 January 2000 to the present, by date, indicate the number of times water flowed through the emergency spillway (the channel that allows water to flow to the Kentucky River by bypass of the Dam rather than over the crest of Dix Dam).
 - f. For planning purposes, in terms of the operation of the Dix Dam facility, how many times per year is it expected that water will flow through the emergency spillway? Otherwise stated: Is water flowing through the emergency spillway an occurrence expected on a regular basis? If the use of the spillway is part of the normal or planned operation of the Dix Dam facility, then please provide a narrative explaining how and when it is used.

A-36. a. KU sprays vegetation annually or as needed and inspects the facility for abnormal leakage daily.

b. KU inspects the structure daily looking for:

- Change in weir flow
- Change in water clarity
- Change in face slab expansion joints
- Change in vegetation growth

KU also performs a biennial inspection with the KY Division of Water Dam Safety Branch as well as a 5 year inspection with an outside third party engineering firm. The details of such assessments can be viewed with attached files in reference to Q-34.

Other inspections outside of said routine assessments are conducted when significant changes in the structure or leakage rate occur. It is normal for rock- fill dams to leak and a leakage rate of 100cfs is the agreed upon action limit with the KY Division of Water Dam Safety for Dix Dam.

c. There has never been a “stabilization” project performed on the dam, as one has never been needed. Rehabilitation projects throughout the dam’s history have mainly been performed to control leakage and generally occur about every 20 years. Leakage in a rock filled structure is considered by experts to be normal as long as it’s controlled at an acceptable level.

d. There was a major leakage control project completed in December 2011 at a total cost of \$11.5 million. The next anticipated leakage control project would occur in approximately 15 to 20 years, the need for which would be dictated by future inspections.

e. See the Spill Gate Log Summary included with the files responsive to question number 34.

f. Note that the use of the spillway is a normal occurrence for which it was designed. It is used regularly in times of heavy rainfall. See the document entitled “Dix Dam General Overview” in the “Operations Section” for the requested narrative.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 37

Responding Witness: Paul Gregory "Greg" Thomas

- Q-37. Reference the Hermann testimony in general. Provide a detailed financial accounting of any additional enhanced ROW or other work performed on KU's transmission system for the past five (5) preceding the test year.
- A-37. The hazard tree program is the only initiative that would fall under this category. It is a distribution program only and does not apply to transmission.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 38

Responding Witness: Paul Gregory "Greg" Thomas

- Q-38. Provide a detailed financial projection of costs for the five (5) year period following the conclusion of the test year.
- A-38. The hazard tree program is the only one that would fall under this category. It is a distribution program only and does not apply to transmission.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 39

Responding Witness: Paul Gregory "Greg" Thomas

Q-39. Reference the Hermann testimony in general. Provide a detailed financial accounting of any additional enhanced ROW or other work performed on KU's distribution system for the past five (5) preceding the test year.

A-39. The Enhanced Hazard Tree removal program began in September 2010. For the past five (5) years preceding the test year, KU has spent the following additional dollars to remove hazard trees as part of this program:

2010	\$ 703,000.
2011-Prior to test period	<u>\$ 688,000.</u>

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 40

Responding Witness: Paul Gregory "Greg" Thomas / Counsel

Q-40. Provide a detailed financial projection of costs for the five (5) year period following the conclusion of the test year.

A-40. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, a detailed financial projection of costs for the Enhanced Hazard Tree Program for the next five years is not available the actual spent from April 1, 2012 through July 1, 2012 is \$1,106 K.

KENTUCKY UTILITIES COMPANY**CASE NO. 2012-00221****Response to Attorney General's Initial Requests for Information
Dated July 31, 2012****Question No. 41****Responding Witness: Cheryl E. Bruner / Counsel**

- Q-41. Please reference the Hermann testimony at pp. 19-26 regarding customer service and satisfaction. Please list separately each program's implementation or enhancement date, along with the specific current costs as well as the projected costs on a going forward basis.
- A-41. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, the table below outlines each program's implementation/enhancement date and current and projected costs.

Program Implementation	Implementation / Enhancement Date	Current Costs	Projected Going Forward	Comments, If Applicable
Four Business Offices were Renovated; 12 More Business Offices Scheduled to be Renovated	February 2011 - March 2012	\$ 453,000	\$ 1,320,000	N/A
Morganfield Construction Costs	October 2011	\$ 5,390,000	\$0	A
Morganfield Facility Annual Operating Costs	October 2011	\$ 400,000	\$ 400,000	B
Additional Staffing of Customer Service Agents	June 2011 - February 20, 2012	\$ 3,360,000	\$ 3,360,000	C
"My Account" - Web Self-Service	April 2009	\$ 1,068,000	\$ 300,000	D
Low Income Assistance Portal	October 2009	\$ 319,000	\$ 250,000	E
Landlord Portal	October 2009	Part of "My Account"	Part of "My Account"	N/A
New Interactive Voice Response System	November 2010 - August 2012	\$ 1,250,000	\$ 200,000	N/A
10 Member Email Team	December 2010	\$ 497,000	\$ 497,000	N/A
Hiring of 10 Full Time Billing Employees	October 2011 - April 2012	\$ 800,000	\$ 800,000	N/A

Comments

- A June 29, 2012 testimony from C. Hermann states approximately \$5.3 million – incremental increase is from late arriving invoices in the final total
- B June 29, 2012 testimony from C. Hermann states approximately \$245,000 for Morganfield facility costs; actual operating costs increased to \$400,000 including incremental headcount for telecom and communication costs
- C June 29, 2012 testimony from C. Hermann states approximately \$3,500,000 which is reduced by hiring part-time customer service representatives in the latter portion of 2012 to better manage peak call volume.
- D Company does not track O&M cost separately for “My Account” versus other SAP applications. 2009 capital spend was part of the overall CCS project. Current costs include capital costs spent between January 2010 through June 2012.
- E Company does not track O&M costs separately for “Low Income Assistance Portal” versus other SAP applications. 2009 capital spend was part of the overall CCS project. Current costs include capital spend between January 2010 and June 2012.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 42

Responding Witness: Chris Hermann

- Q-42. Reference the Hermann testimony at pp. 26-27. Are these DSM costs not currently recovered in the company's DSM program? If not, why not?
- A-42. Yes, the DSM / EE programs in the Commission approved Case No. 2011-00134 are currently being recovered through DSM Cost Recovery mechanism.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General’s Initial Requests for Information
Dated July 31, 2012**

Question No. 43

Responding Witness: Chris Hermann

- Q-43. Reference the Hermann testimony at p. 27. Provide the data that demonstrates the company’s projected contention that approximately 1% of the annual and forecasted residential and commercial customer consumption will decrease because of DSM programs.
- A-43. The Companies DSM-EE portfolio is projected to reduce incremental annual sales to residential and commercial customers by an average of 1% through 2018. The analysis utilizes the forecast referenced David Sinclair’s testimony as part of Case No. 2011-00375¹ as well as the projected energy efficiency reductions from the Companies DSM-EE portfolio in Case No. 2011-00134² shifted one year due to the delayed filing. The 1% projected energy reductions are demonstrated in the table below.

DSM Energy Reductions (GWh)	2012	2013	2014	2015	2016	2017	2018	Total
Residential DSM Energy Reduction	142	138	145	193	139	139	139	1,036
Commercial DSM Energy Reduction	40	59	60	60	58	58	58	394
Total Energy Reduction	182	197	205	253	198	198	198	1,430

Energy Sales Forecast (GWh)	2012	2013	2014	2015	2016	2017	2018	Total
Residential Energy Sales Forecast	11,026	11,079	11,117	11,214	11,327	11,457	11,635	78,856
Commercial Energy Sales Forecast	8,573	8,750	8,902	9,109	9,349	9,520	9,691	63,894
Total Energy Sales Forecast	19,599	19,830	20,019	20,323	20,677	20,977	21,327	142,749

DSM Energy Reductions (%)	2012	2013	2014	2015	2016	2017	2018	Total
Residential Reduction	1.29%	1.24%	1.30%	1.72%	1.23%	1.22%	1.20%	1.31%
Commercial Reduction	0.47%	0.68%	0.68%	0.66%	0.62%	0.61%	0.60%	0.62%
Total Res/Com % Reduction	0.93%	0.99%	1.03%	1.24%	0.96%	0.94%	0.93%	1.00%

¹ Joint Application of Louisville Gas and Electric Company and Kentucky Utilities Company for a Certificate of Public Convenience and Necessity and Site Compatibility Certificate for the Construction of a Combined Cycle Combustion Turbine at the Can Run Generating Station and the Purchase of Existing Simple Cycle Combustion Turbine Facilities from Blue Grass Generating Company, LLC in LaGrange, Kentucky. Case No. 2011-00375

² Joint Application of Louisville Gas and Electric Company and Kentucky Utilities Company for Review, Modification, and Continuation of Existing, and Addition of New, Demand-Side Management and Energy-Efficiency Programs. Case No. 20011-00314

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 44

Responding Witness: Daniel K. Arbough

- Q-44. Reference the Blake testimony, p. 1. Did the witness use a credit rating for debt analysis similar to that which the company used in the last general rate case when KU was still owned by E.ON U.S.? If not, why not?
- A-44. KU assumes the request for information is directed to Mr. Arbough and not Mr. Blake. Please read the testimony of Mr. Arbough at pages 2–4 for a detailed description of the use of credit ratings in the capital structure analysis. A similar analysis was presented in the testimony of Mr. Arbough in the 2009 rate case

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 45

Responding Witness: Paula H. Pottinger, Ph.D.

- Q-45. Reference the Scott testimony, p. 5. Confirm that the company has not increased its contribution of 401(k) payments to the employee plans.
- A-45. The Company has not increased its matching contribution percentage of participants' 401(k) contributions. The dollar amount of matching contributions increased due to increased labor costs.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 46

Responding Witness: Paula H. Pottinger, Ph.D.

Q-46. Provide the amounts the company has contributed to the employees' 401(k) plan for the five years preceding the test year by calendar year.

A-46. The amounts the Company has contributed to the employees' savings plan for the five years preceding the test year are noted below. The Company match is based upon employee contributions. The Retirement Income Account is contributions for employees hired on or after 1/1/2006, who do not participate in the Company's defined benefit pension plan.

	2011	2010	2009	2008	2007
Company Match	\$ 2,795,802	\$ 2,793,719	\$ 2,672,007	\$ 2,478,534	\$2,005,713
Retirement Income Account	\$ 343,389	\$ 284,469	\$ 243,518	\$ 176,822	\$ 92,757
Total	\$ 3,139,191	\$ 3,078,188	\$ 2,915,524	\$ 2,655,356	\$2,098,469

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 47

Responding Witness: Shannon L. Charnas

Q-47. Reference the Charnas testimony, p. 3. Provide a copy of the Ventyx report.

A-47. See attached. The Ventyx report is subject to a confidentiality agreement with the vendor and is being provided under seal pursuant to a petition for confidential treatment. The Company will supplement this response with a public version of the document once the vendor has redacted its proprietary information and given the Company permission to file the report publicly. The Company expects to do so by Wednesday, August 14, 2012.

**Attachment pages provided under
confidential seal have been removed.**

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 48

Responding Witness: Daniel K. Arbough

Q-48. Reference the Arbough testimony in general. Is KU's credit rating the same as it was prior to its acquisition by PPL? If not, in what way(s) has it changed?

A-48. Prior to the PPL acquisition, KU had an Issuer Rating of A2 from Moody's and a Corporate Credit Rating of BBB+ from S&P.

On October 25, 2010, Moody's downgraded the Issuer Rating of KU to Baa1 from A2 as a result of the pending acquisition of KU by PPL. Separately, Moody's confirmed KU's outstanding tax-exempt debt at A2. The rating confirmation considered that the formerly unsecured debt had been secured with first mortgage bonds provided to the trustee. Following the Moody's action the ratings of Moody's and S&P were effectively equivalent.

On October 25, 2010, Fitch assigned an Issuer Default Rating of A- and secured debt rating of A+ for KU. Previously, Fitch did not issue ratings for KU.

On November 8, 2010, S&P assigned an A Senior Secured Rating to KU's first mortgage bond offerings, which is the rating on which the publicly issued bonds are priced.

On November, 9, 2010, Moody's assigned an A2 rating to KU's first mortgage bond offerings.

On March 2, 2011, S&P downgraded the Corporate Credit Rating for KU to BBB from BBB+ and the Senior Secured Rating to A- from A. The rating actions followed PPL's planned acquisition of E.ON UK's Central Networks West PLC and Central Networks East PLC (two distribution networks in the United Kingdom). As of June 30, 2012, KU had an Issuer Rating of Baa1 from Moody's, a Corporate Credit Rating of BBB by S&P, and an Issuer Default Rating of A- by Fitch. The secured debt rating for Moody's, S&P, and Fitch was A2, A-, and A+, respectively. These are strong investment grade ratings that allow the Company to effectively access capital markets.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 49

Responding Witness: Daniel K. Arbough

- Q-49. Reference the Arbough testimony at p. 8. Provide copies of any and all materials pertaining to Mercer's calculations.
- A-49. See the response to PSC 1-52(c) for the actuarial report for the 2012 post retirement expense and KIUC 1-1 for the actuarial report for the 2012 pension expense and the 2012 post employment expense.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 50

Responding Witness: Daniel K. Arbough

- Q-50. Reference the Arbough testimony, exhibit 3 (S & P's 2008 Corporate Criteria Report), p. 29. Confirm the following statement set forth therein: "PPAs do benefit utilities by shifting various risks to the suppliers, such as construction risk and most of the operating risk."
- a. Why was a four (4)-year old report submitted as an exhibit? Is there a more current version? If so, please provide an actual copy.
 - b. Reference exhibit 4. Why did the company submit a report which is five (5) years old? Is there a more current version? If so, please provide an actual copy.
- A-50. Page 29 of exhibit 3 does contain the following statement from S & P: "PPAs do benefit utilities by shifting various risks to the suppliers, such as construction risk and most of the operating risk." This is S & P's opinion on this issue.
- a. Page 2 of exhibit 3 contains an Editor's Note that this criteria article has been partially amended by an article published December 28, 2011. The Editor's Note also indicates that the criteria article has been superseded by other articles published subsequent to the April 15, 2008 report. However, none of these subsequent articles provide updates to the information in the April 15, 2008 article regarding adjustments for operating leases, postretirement employee benefits or power purchase agreements, which are the specific type of adjustments S & P makes to KU's debt. Therefore, the April 15, 2008 article is current for these types of adjustments.
 - b. Page 2 of exhibit 4 contains an Editor's Note which states the article was republished following a periodic review completed by S & P on April 26, 2011. This article is therefore current.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General’s Initial Requests for Information
Dated July 31, 2012**

Question No. 51

Responding Witness: Lonnie E. Bellar

Q-51. Reference the Bellar testimony at p. 16. Provide a detailed explanation and calculation for the company’s assertion that “KU’s DSM –EE programs achieved a total demand reduction of 90 MW, and in the test year alone produced energy savings of over 100,000 MWh.”

A-51. The demand reduction of 90 MW and energy savings of 100,000 MWh reported reflects the cumulative savings for KU’s DSM-EE programs from 2001 through March 31, 2012. The table below demonstrates the reported savings.

Demand Savings in MW		Energy Savings in MWh	
Year	KU	Year	KU
2001	0	2001	9
2002	1	2002	406
2003	13	2003	2,447
2004	24	2004	5,222
2005	40	2005	7,381
2006	51	2006	9,908
2007	56	2007	12,164
2008	60	2008	15,475
2009	67	2009	19,986
2010	76	2010	63,297
2011	88	2011	126,148
2012 (thru 3/31)	<u>90</u>	2012 (thru 3/31)	<u>130,255</u>
Total	90	Total	392,700

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 52

Responding Witness: Lonnie E. Bellar

Q-52. Reference the Bellar testimony at p. 14. Provide the amount of Green Energy credits stated in energy bought on a kWh basis for each of the past five calendar years.

A-52. The table below provides the amount of Green Energy credits purchased for each of the past five calendar years for Kentucky Utilities as well as Louisville Gas and Electric Company. In 2010 the Company made the decision to handle purchase of energy credits internally. This decision has allowed the Company to purchase additional credits increasing the value for customers participating in the program.

Renewable Energy Credits Purchased in kWh

	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>Total</u>
LG&E	259,000	4,790,000	8,149,000	18,629,000	40,153,000	71,980,000

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 53

Responding Witness: Robert M. Conroy

- Q-53. Reference the Bellar testimony at p. 14. Provide the number of customers who participate in the Low- Emission Vehicle rate tariff for each of the past five calendar years. For each year, state the amount of energy purchased.
- A-53. There have been no customers participating in KU's Low Emission Vehicle rider during the past 5 years or during the test year in this proceeding. KU currently has 2 customers that began taking service after the test year.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 54

Responding Witness: Robert M. Conroy

Q-54. For a customer who takes service under this tariff, provide the cost which the customer would have to pay for a like amount of energy purchased during times other than during "reduced off-peak" hours.

A-54. No customers took service under this tariff during the test year, so there is no "like" amount of energy purchased to perform the calculation. One customer began taking service during July 2012, and one customer began taking service during August 2012 so there is insufficient data to perform the requested analysis.

The data to perform the calculations for an assumed "like" amount of energy purchased is on Conroy Exhibit R5, page 1 of 16.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 55

Responding Witness: Robert M. Conroy

Q-55. Reference the Conroy testimony at pp. 33 -34. Does the witness agree that by moving more of the end-user's total bill from the energy charge to the customer charge, which is a fixed amount, inhibits the end-user from being able to reduce his/her total bill by conserving electricity and thus reducing the total energy charge thus reducing the total bill? If not, explain in detail.

A-55. Yes. But the purpose of cost-of-service rate-making is to send accurate price signals to customers, ensuring that cost-causers pay the costs they cause. Reducing fixed cost recovery through fixed charges and increasing energy costs to attempt to make up the difference sends distorted, inaccurate price signals to customers. It also unjustifiably shifts fixed-cost burdens onto those who cannot or do not reduce their energy consumption to provide a subsidy to those who do reduce their energy consumption. Whatever the virtues of such a subsidy as a matter of public policy, such an approach does not conform to cost-of-service rate-making.

By collecting fixed costs through fixed charges and variable costs through variable charges, the end user can conserve energy and as a result reduce their bill, without reducing the utility's fixed cost recovery. When variable cost drivers and their corresponding variable charges are aligned, every kWh conserved by the customer benefits both the customer and the utility by reducing the costs for both parties. Thus, moving a portion of the fixed costs being recovered through the energy charge to the fixed customer charge will not inhibit the end user from being able to reduce his/her total bill by conserving energy because it properly aligns the cost savings for both the end use customer and the utility.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 56

Responding Witness: Robert M. Conroy

- Q-56. Reference the Conroy testimony at p. 34. Confirm that high energy consumers will pay lower bills under the proposed rate structure.
- A-56. No. Under the proposed rate structure customers with above average usage will see a smaller percentage increase than customers with below average usage. All customers will receive an increase; however, the amount of that increase will vary based upon usage. No customers are receiving a rate decrease, which is the only rate proposal that would result in lower bills.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 57

Responding Witness: Robert M. Conroy

- Q-57. Reference the Conroy testimony at p. 34. Confirm that the elimination of “spikes” in bills also translates to a leveled bill that varies little based on energy consumed.
- A-57. No. All bills vary based on the energy consumed, but when fixed costs are collected through the energy charge rather than through a fixed charge, the spikes in customer bills can be much more volatile. This volatility is exacerbated in months where energy consumption is high such as hot summer months and cold winter months. By recovering more fixed costs through the customer charge, those “spikes” in bills are reduced because there is less fixed cost being recovered through the energy charge thus making the customer bill more consistent even in months with extreme weather.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 58

Responding Witness: Robert M. Conroy

- Q-58. Reference the Conroy testimony in general regarding the Real Time Pricing Program (Rider RTP). Was the intent of the program to motivate end-users to monitor their usage and “move” it to times of the day when energy charge was cheaper?
- a. Because no consumers chose to participate in the Rider RTP, does the company agree that consumers pay attention to when they use electricity?
 - b. Because no consumers chose to participate in the Rider RTP, does the company agree that consumers pay attention to how much electricity they use?
- A-58. Yes, the intent of Rider RTP was to motivate customers to monitor their usage and if possible, shift usage away from times of the day where it is more expensive to generate electricity, also known as “On-Peak” times.
- a. If electric rates have no definitive price difference between on-peak and off-peak times, there is no economic incentive to pay attention to when electricity is consumed. However, the Company believes that with sufficient financial incentives, combined with appropriate education, a portion of the Company’s customers could be motivated to alter their consumption patterns.
 - b. The Company agrees that customers pay attention to how much electricity they use because their usage is directly correlated to their monthly energy bill.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 59

Responding Witness: Valerie L. Scott

Q-59. Provide a chart depicting the corporate structure of KU with its owner(s), corporate subsidiaries and affiliates, regardless of whether they are: (i) directly or indirectly related; and / or (ii) regulated or unregulated.

A-59. See the response to PSC 1-2.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 60

Responding Witness: Valerie L. Scott

Q-60. Reference the Price-Waterhouse-Coopers "Report of Independent Auditor" to Kentucky Utilities, report p. 134, contained in the .pdf file named "KU_FR_Tabs_1-37-06292012 (Adobe pagination p. 902). The report states: "As discussed in Note 2 to the financial statements, on November 1,2010, PPL Corporation completed its acquisition of LG&E and KU Energy LLC and its subsidiaries. The push-down basis of accounting was used at the acquisition date." Reconcile this statement with that set forth in the Settlement Agreement in Case No. 2010-00204, Article III, commitment 3.2, wherein PPL agreed to not use push down accounting in the transaction. See also Bellar testimony on Settlement, pp. 14, 16.

A-60. The Report of the Independent Auditor references Note 2, which describes the use of push-down accounting used for KU's financial statements prepared in accordance with U.S. Generally Accepted Accounting Principles (U.S. GAAP). The U.S. GAAP financial statements are used for the Company's U.S. Securities and Exchange Commission reporting which requires push-down accounting.

In the settlement agreement in Case No. 2010-00204, Article III, Section 3.2, the Company commits "to exclude expenses, such as depreciation or amortization associated with push-down accounting adjustments when determining amounts to be recovered from ratepayers". This section 3.2 is consistent with Bellar testimony on settlement page 15.

In preparing the exhibits for this case included in testimony presented by Kent W. Blake, the Company has excluded the impact of all purchase accounting consistent with the settlement agreement in Case No. 2010-00204.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 61

Responding Witness: Lonnie E. Bellar

- Q-61. Please confirm that the company will comply with any and all conditions or commitments imposed in the transfer of KU from E.ON U.S. to PPL. (These commitment(s) may also pertain to other commitments from prior transfer cases in which the company has been involved.)
- A-61. KU has complied and will comply with all such conditions or commitments.

Question No. 65

Responding Witness: Lonnie E. Bellar

- Q-65. Please provide a copy of the Board of Directors minutes for 2009, 2010, 2011 and 2012 to date.
- A-65. The Company provided the 2009 minutes in Case No. 2009-00548 in its response to the AG 1-15, dated March 15, 2010, which the Company hereby incorporates by reference. See attached for the minutes for 2010, 2011, and 2012 to date.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

June 28, 2012

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company" or "KU"), hereby adopts the following resolutions by unanimous written consent in lieu of a special meeting and consents to the actions contemplated thereby:

CROUNSE BARGE TRANSPORTATION SERVICES CONTRACT

WHEREAS, the Company, together with its affiliate, Louisville Gas and Electric Company ("LG&E"), has conducted negotiations with Crouse Corporation regarding a proposed joint, multi-year barge transportation services contract for substantially all of their annual barge deliveries of coal and limestone (the "Crouse Contract"); and

WHEREAS, the Board of Directors has been presented with relevant information and has considered matters relating to the Crouse Contract and deems it advisable and in the best interest of the Company to proceed with such transaction.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors does hereby authorize and approve the Crouse Contract; and

FURTHER RESOLVED, that the President, any Vice President, Chief Administrative Officer, Chief Financial Officer, General Counsel, Chief Compliance Officer and Corporate Secretary, Chief Information Officer, Treasurer and Controller (each an "Authorized Officer") of the Company are, and each of them hereby is, authorized and directed to negotiate, execute and deliver, from time to time, for and on behalf of the Company (i) such barge transport contracts, or amendments thereto, (ii) relevant federal, state or other governmental notices, filings or applications and (iii) any other agreement, document or instrument, that may be necessary or appropriate in connection with the Crouse Contract, including but not limited to credit, security, pledge, guaranty or other financial support arrangements, with such Authorized Officer's execution to conclusively evidence the approval of the Board of Directors; and

FURTHER RESOLVED, that the Authorized Officers of the Company are, and each of them hereby is, authorized and directed, to take such other actions as they shall, in their discretion, deem necessary, appropriate or advisable to consummate the Crouse Contract, including such additional terms, conditions precedent or other changes as may be deemed necessary, appropriate or advisable in the discretion of such Authorized Officers, with the taking of such actions and the execution of such agreements or documents conclusively to evidence the authorization thereof by the Board of Directors; and

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

**LG&E AND KU ENERGY LLC
LOUISVILLE GAS AND ELECTRIC COMPANY
and
KENTUCKY UTILITES COMPANY**

Board Summary

June 28, 2012

Crouse Corporation Barge Transportation Services Agreement

SUMMARY

Approval is requested for Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU") (collectively, the "Companies") to enter into a joint barge transportation services agreement with Crouse Corporation ("Crouse"). The proposed contract is for an up to ten-year term and transportation of 11.8 million tons of coal annually and 1.3 million tons of limestone annually. This approval relates to the initial five-year term, with an estimated aggregate value of approximately \$327.5 million.

TERMS

- Parties: LG&E/KU; Crouse
- Term: Initial period of July 2012 -- December 2018. The contract has a full reopener in March 2017, allowing continuation thru December 2023, subject to both parties' agreement.
- Commodity: Barge transportation of coal and limestone.
- Volume: No required minimum tonnages, but grants Crouse exclusive barging supplier status for coal and limestone, with limited exceptions. Estimated annual tonnages are 11.8 million tons of coal and 1.3 million tons of limestone.
- Price: Per ton transportation rates vary from \$3.94 to \$6.41 based upon origin of shipment (barge loadout) and destination point (LG&E/KU plant). Ten percent of the rate is firm for the contract term with the remaining amount variable based upon indexing to fuel, industrial commodities and waterways taxes
- Aggregate Value: Approximately \$327.5 million for initial period (based upon current rates, projected delivery volumes and index changes.)
- General: Contract is based upon LG&E/KU's existing long-term barge transportation contract with Crouse and contains customary terms and conditions and satisfactorily negotiated provisions. See above for term/reopener and volume/exclusivity provisions. Force majeure excusal exists for standard events, with optional termination by counterparty for extended, non-industry-wide, material force majeure occurrences. Reciprocal indemnities, standard insurance requirements and several, but not joint liability, for LG&E and KU, respectively. Significantly improved commercial terms include continuation of current favorable base prices and beneficial increase and aggregation of permitted barge demurrage times.

RATIONALE

Crouse's transportation rates are the lowest rates among the offers received in response to the Companies' spring 2012 solicitation for barge transportation services to start in 2014. RFP packages were sent to four barge transportation companies, with two replies. (One

further reply did not include barge services to all LG&E/KU plants, being limited only to serving Trimble County from up river origins.) Crounse's proposal was the lowest suitable offer received.

Crounse is privately owned and is recognized as one of the best performing barge transportation providers on the Ohio River. Crounse has recently invested heavily in their river fleet. They operate thirty-five towboats ranging in age from two to thirty years (they recently completed building five new boats) and 1,130 open hopper barges averaging eleven years in age (the industry average age of the open hopper fleet is eighteen to twenty years). Crounse is in the process of taking delivery of seventy newly-constructed barges.

Crounse has been a satisfactory supplier of barge transportation services to the Companies for over twenty years and is currently completing a ten-year contract. Crounse has been determined to be a suitable financial counterparty by the Companies' credit review process.

REGULATORY MATTERS AND FINANCIAL IMPACT

The proposed Crounse contract, including its pricing and other terms, was developed pursuant to and consistent with the Companies' historical coal procurement procedures and strategies and current market conditions. Under Kentucky regulatory law, prudent fuel purchases necessary to ensure an adequate and reliable supply of coal to meet the demands of LG&E and KU's native load are eligible for rate recovery under the Fuel Adjustment Clause rate mechanism ("FAC").

The Companies' base rates allow for a certain amount of base fuel recovery, with the FAC operating as a true-up mechanism whereby the difference between the base rate amount and actual fuel expense is either collected from or refunded to customers through monthly adjustments to customer bills. For purposes of the FAC, fuel expense is defined as the actual cost of burned fuel, plus the fuel portion of economic power purchases, minus the incremental fuel costs of off-system power sales, plus certain other adjustments. Recovery of fuel expenses occurs during the second calendar month after expenses are incurred and fuel expense billed through the FAC is thereafter subject to periodic subsequent six month and two year Kentucky Public Service Commission reviews.

Additionally, KU has a FERC wholesale monthly fuel component applied to wholesale customers (KU's municipal, partial requirements customers) and an annual fuel factor component applied to Virginia retail customers.

The combination of regulatory fuel mechanisms allows the Companies to recover, in substantially complete and prompt manner, their actual fuel costs prudently incurred. The Companies minimize the likelihood of disallowance of fuel expenses recovery by conforming to regulator-approved or industry prudent practices in fuel procurement policies and procedures.

The proposed Crounse delivery rates are below the Companies' estimated forward price curve used in 2012-2016 budgeting for coal and the estimated contract amounts are incorporated in the five-year fuel budget.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

June 5, 2012

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors (the "Board") of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company"), hereby adopts the following resolutions by unanimous written consent in lieu of a special meeting and consents to the actions contemplated thereby:

EXPANSION OF REVOLVING CREDIT FACILITIES

WHEREAS, the Company is borrower under a \$400 million Revolving Credit Agreement, dated as of November 1, 2010, among the Company, the Lenders party thereto and Wells Fargo Bank, National Association, as administrative agent, as amended (the "Existing Credit Agreement"), which currently is scheduled to expire in October 2016, subject to the ability to expand the facility by up to \$100 million at the Company's request, and subject to the consent of the lenders; and

WHEREAS, the Company desires to increase the amount of borrowings available under its revolving credit facilities to a total aggregate amount of up to \$500 million, through modification of the Existing Credit Agreement or by entering into additional revolving credit facilities having similar terms, such expansions or alternative facilities having a combined aggregate principal amount not to exceed \$100 million (collectively, the "Revolving Credit Facilities"); and

WHEREAS, the Board has determined that it is in the Company's best interests to amend or modify, as appropriate, the Existing Credit Agreement or negotiate and enter into additional revolving credit agreements, as appropriate, so as to effect the Revolving Credit Facilities; and

NOW, THEREFORE, BE IT RESOLVED, by the Board as follows:

Credit Agreements or Amendments

- (a) That the Chief Executive Officer, President, Chief Financial Officer, the Chief Administrative Officer, the General Counsel, Chief Compliance Officer and Corporate Secretary, any Vice President, the Treasurer, and the Controller of the Company (each, an "Authorized Officer" and, collectively, the "Authorized Officers") be, and each of them hereby is, authorized by and on behalf of the Company, authorized and empowered to negotiate, execute and enter into, on behalf of the Company, such forms of amended, modified, replacement or new promissory notes or credit agreements, whether relating to the Existing Credit Agreement or to new credit arrangements, with existing or new banks and financial institutions, that such Authorized Officer deems necessary or desirable to document and effect the Revolving Credit Facilities, together with such other agreements, instruments, notices, certificates and documents, on such terms and conditions as the officer executing such documents deems appropriate, with such officer's execution of a definitive agreement to conclusively evidence such officer's approval and the approval of this Board of Directors.
- (b) That the Authorized Officers be, and each of them hereby is, authorized by and on behalf of the Company to: (i) request advances (including issuance of letters of credit) under the Revolving Credit Facilities; (ii) delegate to any other officers or employees of the Company, either acting individually or jointly, authority to request advances (including issuances of letters of credit) under the Revolving Credit Facilities; and (iii) execute and deliver any other agreements and documents and take any and all other action as contemplated by the Revolving Credit Facilities or as such officer may deem necessary or desirable in connection with the making of advances (including issuances of letters of credit) on account of the Company pursuant to the Revolving Credit Facilities.
- (c) That the Authorized Officers be, and each of them hereby is, authorized and directed to cause the preparation of, to approve, or consent to, and execute and deliver the necessary documents, instruments, agreements or certificates necessary to enter into the Revolving Credit Facilities.

General

- (d) That the Authorized Officers of the Company be, and each of them hereby is, authorized and empowered to execute and file, or cause to be filed, on behalf of the Company, such applications, petitions or notices (including amendments or supplements thereto) with the Public Service Commission of the Commonwealth of Kentucky, the State Corporation Commission of the Commonwealth of Virginia, the Tennessee Regulatory Authority and any other federal, state, or local commission, court, agency or body having jurisdiction as may be required to obtain any approvals, consents, orders or rulings as such officers or counsel for the Company may deem to be necessary or desirable in connection with the transactions contemplated hereby, as may be required by law or as may be deemed to be proper or appropriate in their judgment or in the judgment of counsel for the Company in connection with the foregoing.

- (e) That any and all actions heretofore taken by the Authorized Officers within the terms of the foregoing resolutions, including any actions taken in connection with applications to the Public Service Commission of the Commonwealth of Kentucky, the Virginia State Corporation Commission and the Tennessee Regulatory Authority or any other federal, state, or local commission, court, agency or body having jurisdiction as required to obtain any approvals, consents, orders or rulings as such officers or counsel for the Company deemed to be necessary or desirable in connection with the transactions contemplated hereby, be and the same are hereby in all respects approved, ratified and confirmed.

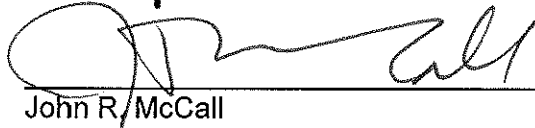

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned who are all of the directors of Kentucky Utilities Company as of the date first written above.

Paul A. Farr

Chris Herrmann

John R. McCall

S. Bradford Rives

William H. Spence

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

June 5, 2012

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company"), hereby adopts the following resolutions by unanimous written consent in lieu of a special meeting and consents to the actions contemplated thereby:

ISSUANCE OF FIRST MORTGAGE BONDS

WHEREAS, the Board of Directors of the Company (the "Board") has determined that it is desirable and in the best interests of the Company to issue up to \$300,000,000 aggregate principal amount of long-term debt in the form of first mortgage bonds for the purposes of providing funds for anticipated capital expenditures, operational or financial needs and other general corporate purposes.

NOW, THEREFORE, BE IT RESOLVED, by the Board as follows:

The Offering

- (a) That the Board authorizes and approves the issuance and sale by the Company from time to time, in one or more series, and in any combination, of up to \$300,000,000 aggregate principal amount of long-term debt in the form of first mortgage bonds (any of such bonds, the "Debt Securities") in one or more underwritten public offerings, negotiated sales, or private placement transactions (such offerings, sales and transactions collectively referred to herein as the "Offering"), the net proceeds of such Debt Securities to be used for general corporate purposes, including construction and other capital expenditures, operational funding requirements, and repayment, refunding or refinancing of short- or long-term debt at maturity or otherwise.
- (b) That the Company be, and it hereby is, authorized to issue and offer for sale the Debt Securities through or to one or more underwriters, selling or placement agents, or other purchasers pursuant to an underwriting, purchase or similar agreement, on and subject to such terms and conditions as may be approved by the Authorized Officers (as defined below), provided that the interest rate on such Debt Securities shall not exceed 6-6.5% per annum.

Debt Securities or First Mortgage Bonds

- (c) That the Chief Executive Officer, President, Chief Financial Officer, Chief Administrative Officer, General Counsel, Chief Compliance Officer and Corporate Secretary, any Vice, President, the Treasurer, and the Controller of the Company (each, an "Authorized Officer" and, collectively, the "Authorized Officers") are, and each of them hereby is, authorized by and on behalf of the Company, to negotiate, enter into, execute and deliver one or more supplemental indentures, company orders and/or officer's certificates (the "Supplemental Indentures") pursuant to the Company's Indenture dated October 1, 2010 to The Bank of New York Mellon, as trustee (such Indenture, as heretofore supplemented and as to be further supplemented and amended by any such instrument the "Indenture") relating to the creation and issuance of, and establishing the designation, form, characteristics and terms of the Debt Securities, in such form or forms and having such terms as the Authorized Officers executing the same shall approve, and to perform all of the agreements and obligations of the Company under the Supplemental Indentures and Indenture and to consummate the transactions contemplated thereby; and that each Authorized Officer be, and hereby is, authorized to execute and deliver such other agreements, certificates and documents and to take such other actions in connection with the execution and delivery of any Supplemental Indenture or other instrument pursuant to the Indenture as such Authorized Officers deem necessary, advisable or appropriate; with such changes therein, additions thereto or omissions therefrom, as any Authorized Officer executing, acknowledging or delivering the same shall approve, such Authorized Officer's execution, acknowledgement and/or delivery thereof to be conclusive evidence of such approval.
- (d) That the Authorized Officers are, and each of them hereby is, authorized, empowered and directed, in the name and on behalf of the Company, to execute, acknowledge and deliver new securities representing the Debt Securities in substantially such form and containing such terms and conditions as such Authorized Officer shall approve, with such changes therein, additions thereto or omissions therefrom as such Authorized Officer executing, acknowledging or delivering the same shall approve, such Authorized Officer's execution, acknowledgement and delivery thereof to be conclusive evidence of such approval.
- (e) That the Authorized Officers are, and each of them hereby is, authorized, empowered and directed to fix and approve the terms and conditions on which the Debt Securities are to be issued and authenticated and the final terms of the Supplemental Indentures or any other instrument pursuant to the Indenture, including, without limitation, the rights of the holders thereof, the interest rate or rates, the maturity date or dates, the sinking fund, redemption or repurchase provisions and prices, the purchase price or prices, the offering date and terms and all other matters relating thereto, and to take all such other actions as any Authorized Officer deems necessary, advisable or appropriate to consummate the transactions contemplated by the Supplemental Indentures.
- (f) That a facsimile of the corporate seal of the Company may be imprinted on the Supplemental Indentures and/or Debt Securities, which facsimile is hereby

acknowledged to be the corporate seal of the Company for the purposes of sealing the Debt Securities.

- (g) That the Authorized Officers are, and each of them hereby is, authorized to execute and deliver on behalf of the Company, in the event that all or a portion of the Debt Securities bear a fixed or variable rate of interest: (i) one or more interest rate lock or swap agreements or similar agreements with one or more underwriters, banks or other financial institutions or other counter-parties, including affiliated entities, providing for the hedging of the interest rates on such securities, and (ii) any other agreement, document or instrument that may be necessary or appropriate in connection with any such transaction.

Paying Agent and Security Registrar

- (h) That The Bank of New York Mellon is hereby appointed to act as the initial paying agent and security registrar for the Debt Securities described herein in accordance with the provisions of the Indenture; provided that any Authorized Officer may take all actions necessary or desirable, on behalf of the Company, to provide for any additional or different paying agent or security registrar for any Debt Securities, if such Authorized Officer deems such provision to be desirable, such officer's determination to be conclusively evidenced by his execution of documentation effecting such appointment or change.

Offering Documents

- (i) That, in connection with the issuance and sale of the Debt Securities, the Authorized Officers are, and each of them hereby is, authorized, empowered and directed, in the name and on behalf of the Company to: (i) prepare, or cause to be prepared, one or more prospectuses, offering memoranda or other appropriate disclosure documents (including all exhibits, annexes and other documents relating thereto) in connection with such issuance and sale of the Debt Securities, including any supplement(s) or amendment(s) thereto (the "Offering Memorandum"); (ii) execute, as such Authorized Officers or Authorized Officer deem(s) necessary, advisable or appropriate, any and all, agreements, documents and instruments in connection with such issuance and sale; and (iii) take all such other actions as such Authorized Officers or Authorized Officer deem(s) necessary, advisable or appropriate in order to effect the issuance and sale of the Debt Securities, such Authorized Officer's authority and determination to execute such documents and instruments and to take such actions being conclusively evidenced by such execution or action, as the case may be.

Authorization of Underwriting, Purchase or Similar Agreements

- (j) That the Authorized Officers are, and each of them hereby is, authorized and directed, for and on behalf of the Company, to fix and approve the terms of an underwriting, purchase or similar agreement relating to the issuance and sale of the Debt Securities to one or more underwriters, selling or placement agents or other purchasers thereof (the "Purchase Agreement") to be entered into by and among the Company and such underwriters, agents or purchasers as may agree to become parties thereto, and the Authorized Officers be, and each of them hereby is, authorized to execute and deliver the same, in such form or with such

changes therein, additions thereto or omissions therefrom as such Authorized Officers may approve, such execution and delivery by any such Authorized Officer to be conclusive evidence of such authorization and approval.

- (k) That the Authorized Officers are, and each of them hereby is, authorized to execute and file such instruments, make all such payments, and do such other acts and things as, in the opinion of any Authorized Officer, may be necessary or desirable in order to comply with the rules and regulations promulgated under the Securities Act of 1933, as amended; and to qualify the Company or any Debt Securities under the securities or "Blue Sky" laws of such states of the United States and other jurisdictions as may be necessary or desirable, and to take further necessary action for said purposes.

Regulatory Approval

- (l) That the Authorized Officers of the Company are, and each of them hereby is, authorized and empowered to execute and file, or cause to be filed, on behalf of the Company, such applications, petitions or notices (including amendments or supplements thereto) with the Public Service Commission of the Commonwealth of Kentucky, the State Corporation Commission of the Commonwealth of Virginia, the Tennessee Regulatory Authority and any other federal, state, or local commission, court, agency or body having jurisdiction as may be required to obtain any approvals, consents, orders or rulings as such officers or counsel for the Company may deem to be necessary or desirable in connection with the transactions contemplated hereby, as may be required by law or as may be deemed to be proper or appropriate in their judgment or in the judgment of counsel for the Company in connection with the foregoing.

General

- (m) That the Authorized Officers of the Company are, and each of them is, hereby authorized and empowered, in the name and behalf of the Company, to execute and deliver such agreements and other documents relating to electronic deposit and delivery, cash management, information services and such other matters as they shall deem necessary or desirable to otherwise facilitate the offering, issuance, sale and delivery of the Debt Securities and receive and apply the proceeds therefrom.
- (n) That the officers of the Company are, and each of them hereby is, authorized in the name and on behalf of the Company and under its corporate seal or otherwise, to take or cause to be taken all such further actions and to execute and deliver or cause to be executed and delivered all such further instruments, agreements, certificates and other documents in connection with the Offering as such persons may deem necessary, advisable or appropriate in connection with the transactions contemplated thereby and hereby, and to incur all such fees and expenses as shall be necessary, advisable or appropriate in their judgment in order to carry into effect the purpose and intent of any and all of the foregoing resolutions.
- (o) That any acts of the officers of this Company, which acts would have been authorized by the foregoing resolutions except that such acts were taken prior to

the adoption of such resolutions, are hereby severally ratified, confirmed, approved and adopted as acts in the name of and on behalf of this Company.

- (p) That the Authorized Officers are, and each of them hereby is, authorized and directed to take any and all further action to see that the intent of the above resolutions is carried forth.

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

KENTUCKY UTILITIES COMPANY

APPOINTMENT OF OFFICERS

May 14, 2012

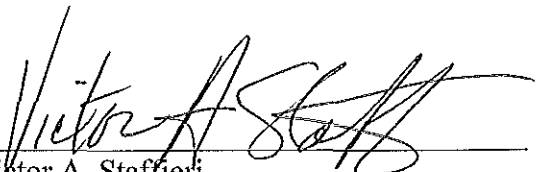

Pursuant to the Operating Agreement of LG&E and KU Energy LLC ("LKE"), and the By-laws of each of Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU"), I hereby approve the appointment of the following officers of LKE, LG&E and KU effective May 14, 2012:

Mary C. Whelan

Vice President—Communications

R.W. "Chip" Keeling

Vice President

Victor A. Staffieri
Chairman of the Board, President and
Chief Executive Officer

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

March 28, 2012

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act, and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company"), hereby adopt the following resolutions by unanimous written consent in lieu of a special meeting and consent to the actions contemplated thereby:

Filing of Omnibus Shelf Registration Statement

WHEREAS, PPL Corporation is planning to file a replacement omnibus Shelf Registration Statement on Form S-3 with the Securities and Exchange Commission ("SEC"), and it is in the interest of the Company also to file as a co-registrant to PPL Corporation's Shelf Registration Statement to facilitate the Company's ability quickly and efficiently to sell its debt securities in registered offerings in the U.S. capital markets.

NOW, THEREFORE, BE IT RESOLVED, that the Company together with PPL Corporation; PPL Energy Supply, LLC; PPL Electric Utilities Corporation; PPL Capital Funding, Inc., LG&E and KU Energy LLC, and Louisville Gas and Electric Company (collectively excluding the Company, the "Co-Registrants") is hereby authorized to file with the SEC in accordance with the Securities Act of 1933, as amended, and the applicable rules and regulations thereunder, a new omnibus Shelf Registration Statement on Form S-3 ("Shelf Registration Statement") to register indeterminate numbers of securities to be issuable by the Company and the Co-Registrants, respectively, as the proper officers of the Company and each of the Co-Registrants shall deem necessary or desirable for purposes of raising necessary funds in the U.S. capital markets over the ensuing three-year effective period of such Shelf Registration Statement, and to file post effective amendments thereto in order to supplement the descriptions or enumerated types of securities registered thereunder and for such other purposes as the proper officers of the Company and the Co-Registrants shall deem necessary or desirable; and

FURTHER RESOLVED, that each director or officer of this Company who may be required to execute the Shelf Registration Statement or any amendment thereof, including any post-effective amendment, is hereby authorized to execute a Power of Attorney appointing William H. Spence, Paul A. Farr and Robert J. Grey, and each of them severally, his or her true and lawful attorneys, with full power of substitution and

resubstitution, to execute in his or her name such Shelf Registration Statement or any and all exhibits or amendments thereto, including post-effective amendments, and instruments in connection therewith, as fully and to all intents and purposes as any such director or officer could do in person, and to file such Power of Attorney with the SEC, with full power and authority in each of such attorneys to do and perform in the name and on behalf of such director or officer, or any of them, every act requisite or necessary to be done in the premises as fully and to all intents and purposes as any such director or officer could do in person; and

FURTHER RESOLVED, that the proper officers of the Company are, and each of them is, hereby authorized (1) to receive any and all notices and communications from the SEC and its staff relating to such Shelf Registration Statement or any and all amendments thereto; and (2) to receive notices and communications relating to such matters before the SEC; and

FURTHER RESOLVED, that the proper officers of the Company are each hereby authorized to execute and file such instruments, make all such payments, and do such other acts and things as, in the opinion of any of them, may be necessary or desirable in order to comply with the rules and regulations promulgated under the Securities Act to cause such Shelf Registration Statement to become effective and to maintain such Shelf Registration Statement in effect for so long as such officers deem it to be in the best interest of this Company; and

FURTHER RESOLVED, that the proper officers of the Company are each hereby authorized to appear before the New York Stock Exchange with authority to file such applications or to make such changes in the applications filed with such exchange or in the exhibits, agreements or instruments relating thereto, and to do such other acts and things as may be necessary or, in their judgment, desirable to carry out the purposes of the foregoing resolutions; and

FURTHER RESOLVED, that the proper officers of the Company are each hereby authorized to negotiate, prepare, distribute and execute such other documents, instruments, certificates and agreements as may be necessary or, in their judgment, desirable, to carry out the purposes of the foregoing resolutions in such form as the officer executing the same approves, such judgment to be conclusively evidenced by such execution, and to take any and all such further actions (including, but not limited to, payment of agents' or other fees) as may be necessary, or in their judgment, desirable, to carry out the purposes of the foregoing resolutions; and

FURTHER RESOLVED, that any and all actions heretofore taken by any officer or officers or director or directors of this Company within the terms of the foregoing resolutions are hereby approved, ratified and in all other respects confirmed.

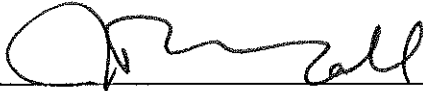

This Unanimous Written Consent of Directors may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

Paul A. Farr

Chris Heilmann

John R. McCall

S. Bradford Rives

William H. Spence

Victor A. Staffieri

Paul W. Thompson

FURTHER RESOLVED, that any and all actions heretofore taken by any officer or officers or director or directors of this Company within the terms of the foregoing resolutions are hereby approved, ratified and in all other respects confirmed.

This Unanimous Written Consent of Directors may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

January 9, 2012

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act, and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company"), hereby adopts the following resolutions by unanimous written consent in lieu of a special meeting and consents to the actions contemplated thereby:

APPOINTMENT OF CERTAIN OFFICERS

RESOLVED, that, effective as of February 1, 2012, each of the following persons be appointed to the office of the Company set out below opposite his or her name, to hold such office until the next annual meeting of the Board of Directors except as otherwise provided in the By-laws and to have all those duties and powers permitted by law, or by the Articles of Incorporation or by the By-laws, or as otherwise appropriate.

S. Bradford Rives	Chief Administrative Officer
Kent W. Blake	Chief Financial Officer

and;

RESOLVED, that, effective as of March 19, 2012, each of the following persons be appointed to the office of the Company set out below opposite his or her name, to hold such office until the next annual meeting of the Board of Directors except as otherwise provided in the By-laws and to have all those duties and powers permitted by law, or by the Articles of Incorporation or by the By-laws, or as otherwise appropriate.

John. R. McCall	Executive Vice President
Gerald A. Reynolds	General Counsel, Chief Compliance Officer and Corporate Secretary

DESIGNATION OF EXECUTIVE OFFICERS

WHEREAS, Item 401(b) of Regulation S-K of the Securities Exchange Act of 1934 provides that the Company may identify its officers and those of its subsidiaries, and such other persons performing policy-making functions for the Company who are thus considered Executive Officers.

NOW, THEREFORE, BE IT RESOLVED, that, effective February 1, 2012, the Company hereby designates the following persons as Executive Officers for 2012:

Victor A. Staffieri	Chairman of the Board, Chief Executive Officer and President
Kent W. Blake	Chief Financial Officer
Chris Hermann	Senior Vice President – Energy Delivery
John R. McCall	Executive Vice President, General Counsel, Corporate Secretary and Chief Compliance Officer (through March 19, 2012)
S. Bradford Rives	Chief Administrative Officer
Paul W. Thompson	Senior Vice President – Energy Services

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

December 22, 2011

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company"), hereby adopts the following resolutions by unanimous written consent in lieu of a special meeting and consents to the actions contemplated thereby:

COMMERCIAL PAPER PROGRAM

WHEREAS, the Company desires to establish a commercial paper program in the amount of up to \$250 million to be used to fund capital expenditure costs on an interim basis until permanent financing is in place and to fund working capital needs; and

WHEREAS, the Board of Directors deems it advisable and in the best interests of the Company to establish such commercial paper program.

NOW, THEREFORE, BE IT RESOLVED, that the President, the Vice President, Chief Financial Officer, Secretary, Treasurer or Controller of the Company (the "Authorized Officers") are each hereby authorized to arrange, on behalf of the Company, for the establishment of a commercial paper program for the Company in the amount of \$250 million, whereby unsecured promissory notes shall be issued by the Company from time to time, having such terms and conditions as are approved by an Authorized Officer, including, but not limited to, the selection of one or more issuing and paying agents and one or more dealers for such notes; provided, that the outstanding promissory notes so issued do not exceed at any one time the aggregate amount of credit then available under the Company's credit agreements with banks and other lenders, and provided that the term or terms of such notes shall not exceed 270 days and the rate or rates of interest on such notes are related to market-based rates; and

FURTHER RESOLVED, that the Authorized Officers of this Company are, and each of them is, hereby further authorized to prepare, negotiate, execute and/or deliver on behalf of the Company in connection with such commercial paper program, (i) promissory notes or other obligations of the Company arising in connection therewith; (ii) agreements with dealers, depositaries, issuing agents and paying agents; (iii) offering memoranda, (iv) appointments or designations, from time to time, of individuals authorized to give or receive instructions, or take actions, on behalf of the Company, with such financial institutions, with such appointments or designations to be in writing, signed by two officers of the Company, one of whom must be the Chief Financial Officer or Treasurer and (v) all other confirmations, documents, instruments and certificates, in each case, as

may be necessary or in their judgment desirable, from time to time, in connection with the issuance by the Company of its commercial paper notes; all such promissory notes, offering memoranda, agreements, amendments, confirmations, documents, instruments and certificates to include such terms (including such rate or rates of interest as such officer shall approve based on market conditions at the time of issuance) and to be in such form or forms as the officer executing the same on behalf of the Company may approve, his execution thereof to be conclusive evidence of such approval; and

FURTHER RESOLVED, that the proper officers of the Company be, and they hereby are, and each of them hereby is, authorized and empowered, acting for and in the name and on behalf of the Company, to make, execute, acknowledge, verify, issue and deliver all such applications, agreements, documents, instruments and certifications with or without the seal of the Company affixed thereto and attested by the Secretary of the Company, or unattested, and to do or cause to be done all such acts and things, and to take all such steps, and to make all such payments and remittances, as may in each case, in the opinion of the officer taking such action, such opinion to be conclusively evidenced by the taking of such action by such officer, be necessary or desirable in order to carry out the full intent and purposes of the preceding resolutions.

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned who are all of the directors of Kentucky Utilities Company as of the date first written above.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

December 22, 2011

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company" or "KU"), hereby adopts the following resolutions by unanimous written consent in lieu of a special meeting and consents to the actions contemplated thereby:

GHENT TRANSPORT CONTRACT

WHEREAS, the Company has conducted negotiations with TIC--The Industrial Company ("TIC") regarding a potential engineering, procurement and construction agreement in the stated amount of approximately \$193,750,000, subject to certain price adjustment mechanisms, for services on the Coal Combustion Residual Transport Project at the Company's Ghent Generating Station (the "Ghent Transport Contract"); and

WHEREAS, the Board of Directors has considered matters relating to the Ghent Transport Contract and deems it advisable and in the best interest of the Company to proceed with such transaction.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors does hereby authorize and approve the Ghent Transport Contract; and

FURTHER RESOLVED, that the appropriate officers of the Company are, and each of them hereby is, authorized and directed to negotiate, execute and deliver, from time to time, for and on behalf of the Company (i) the Ghent Transport Contract and such relevant equipment purchase, assignments and other supporting or related contracts or amendments thereto, (ii) relevant federal, state or other governmental notices, filings or applications and (iii) any other agreement, document or instrument, that may be necessary or appropriate in connection with the Ghent Transport Contract, including but not limited to credit, security, pledge, guaranty or other financial support arrangements, with such officer's execution and delivery to conclusively evidence such officer's approval thereof and the approval of the Board of Directors; and

FURTHER RESOLVED, that the appropriate officers of the Company are, and each of them hereby is, authorized and directed, to take such other actions as they shall, in their discretion, deem necessary, appropriate or advisable to consummate the Ghent Transport Contract, including such additional terms, conditions precedent or other changes as may be deemed necessary, appropriate or advisable in the discretion of such officers, with the taking of such actions and the execution of such agreements or documents conclusively to evidence the authorization thereof by the Board of Directors; and

FURTHER RESOLVED, that all actions heretofore or hereafter taken by any officer of the Company in connection with the Ghent Transport Contract contemplated by these resolutions be, and they hereby are, approved, ratified and confirmed in all respects.

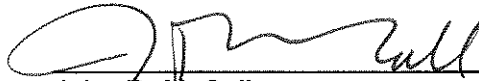

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

CORPORATE BANKING RESOLUTIONS

RESOLVED, that the proper officers of this Company are hereby authorized to (i) appoint, from time to time, as depositories of funds of this Company, such banking institutions as in their judgment are necessary or desirable in the operation of the business of this Company; (ii) revoke the appointment of banking institutions as depositories for the funds of this Company; and (iii) enter into agreements with such banking institutions to open and maintain accounts and to provide this Company with depository, disbursement, and electronic transfer services as required ("Banking Agreements"); provided, that the foregoing actions shall be in writing and shall be executed jointly by the Chief Financial Officer or the Treasurer and a second officer of this Company; and further

RESOLVED, that each of the depositories for the funds of this Company is hereby authorized, requested and directed, until written notice of the revocation of the authority hereby granted is received by it, to accept for deposit all such money, checks, drafts, orders or other deposits or transfers of funds effected by written or electronic instructions drawn or issued in favor of this Company; and further

RESOLVED, that each of the depositories for the funds of this Company is hereby authorized, requested and directed, until written notice of the revocation of the authority hereby granted is received by it, to honor and pay all such checks, drafts, orders or other written or electronic instructions to disburse or transfer funds drawn in this Company's name when such instructions, whether transmitted by letter, telex, telecopier or by other written or electronic means, have been duly authorized by this Company; provided, that such disbursements or transfers are made by the depository in full accordance with the policies and procedures specified in the Banking Agreements entered into, from time to time, between such depository and this Company and that these policies and procedures are in accordance with generally accepted banking practices; and provided further, that such disbursement or transfer instructions are made by an individual who has been jointly designated in writing by the Chief Financial Officer or the Treasurer and a second officer of this Company; and the depositories of this Company may rely upon such instructions; and further

RESOLVED, that, subject to the obtaining of all requisite regulatory approvals, authorizations or consents, the Chief Financial Officer or the Treasurer of this Company, and such other individuals as may be duly authorized in writing from

time to time by the Chief Financial Officer or the Treasurer of this Company, are each hereby authorized to procure credit and borrow money, in the name of and on behalf of this Company, from this Company's affiliates (including pursuant to the assumption of intercompany indebtedness) and from such lenders, brokers, dealers, or direct purchasers of unsecured promissory notes, including banks or institutional investors, in each case as such individuals in their discretion may determine necessary or desirable to meet the short-term financing requirements of this Company, and to execute and deliver unsecured promissory notes of this Company evidencing such borrowings in such form as such individuals in their discretion may determine, including promissory notes sold on a discount basis, accrual interest basis, or a fluctuating rate of interest basis related to an ascertainable commercial rate, subject to the following limitations, except that such limitations shall not apply to, or take into account, intercompany credit or borrowings from this Company's affiliates (including pursuant to the assumption of intercompany indebtedness):

- (a) All short-term bank loans and loans from institutional investors shall have a maturity of less than one year;
- (b) All other short-term obligations, including commercial paper notes, shall have a maturity of 270 days or less; and
- (c) No unsecured promissory notes of this Company shall be executed and delivered pursuant to this resolution unless they qualify as an exempted security under Section 3(a)3 of the Securities Act of 1933 or as an exempted transaction under Section 4(2) of the Securities Act and are, therefore, exempt from registration;

and further

RESOLVED, that funds of this Company temporarily in excess of current needs may be invested and reinvested by the Chief Financial Officer or the Treasurer or any officer of this Company, or by any individual as may be jointly designated in writing by the Chief Financial Officer or the Treasurer and a second officer of this Company, in the types of securities and financial instruments contemplated by this Company's Short-Term Investment Policy (in the form approved, and as amended from time to time, by the Chief Financial Officer or the Treasurer and a second officer of this Company), subject to the following limitations, except that such limitations shall not apply to, or take into account, intercompany promissory notes (or similar securities) issued or assigned to this Company by its affiliates or the indebtedness represented thereby;

- (a) All investments made pursuant to this resolution shall mature or be made subject to redemption by this Company at not less than the principal amount thereof or the cost of acquisition, whichever is lower;

- (b) No security or investment shall have a maturity beyond 2 years unless it contains a short-term liquidity feature such as a put option;
- (c) The weighted average life of the portfolio cannot exceed one year; and
- (d) At the time the total investment in any securities of an individual bank, corporation, or municipality exceeds \$3.0 million, this amount shall not exceed 10% of this Company's total investment portfolio;

and further

RESOLVED, that the proper officers of this Company are hereby authorized to enter into agreements with banks, trust companies, custodians and securities dealers ("Securities Agreements") to open and maintain accounts on behalf of this Company for the purchase, sale and safekeeping of securities including, but not limited to, stocks, bonds, debentures, notes, certificates of deposit and certificates of interest or indebtedness, repurchase agreements and reverse repurchase agreements involving securities approved for investment by resolution of this Company ("Securities"); provided, that the foregoing actions shall be in writing and shall be executed jointly by the Chief Financial Officer or the Treasurer and a second officer of this Company; and that any individual jointly designated in writing from time to time by the Chief Financial Officer or the Treasurer of this Company and a second officer of this Company is hereby authorized to (i) give and receive from such banks, trust companies, and securities dealers, oral, written or electronic instructions, confirmations, notices or demands by telephone, letter, telex, telecopier, or otherwise with respect to such accounts and bind and obligate this Company for the carrying out of any such transaction; (ii) pay in cash, check, draft or other orders drawn upon the funds of this Company such sums as may be necessary in connection with any of the said accounts; (iii) deliver Securities to and deposit funds with such banks, trust companies and securities dealers; (iv) agree to any terms or conditions to control any such account; and (v) accept delivery of any Securities; provided, however, that all such transactions are in accordance with the terms and conditions set forth in the Securities Agreements entered into from time to time between such banks, trust companies and securities dealers and this Company; and further

RESOLVED, that the proper officers of this Company are hereby authorized and directed to do such other acts and things as may be necessary or in their judgment, desirable, to carry out the purposes of the foregoing resolutions; and further

RESOLVED, that any and all actions heretofore taken by any officer or officers or director or directors of this Company within the terms of the foregoing resolutions are hereby approved, ratified and confirmed in all respects.

DESIGNATION OF EXECUTIVE OFFICERS

WHEREAS, Item 401(b) of Regulation S-K of the Securities Exchange Act of 1934 provides that the Company may identify its officers and those of its subsidiaries, and such other persons performing policy-making functions for the Company who are thus considered Executive Officers.

NOW, THEREFORE, BE IT RESOLVED, that the Company hereby designates the following persons as Executive Officers for 2011:

Victor A. Staffieri	Chairman of the Board, Chief Executive Officer and President
Chris Hermann	Senior Vice President – Energy Delivery
John R. McCall	Executive Vice President, General Counsel, Corporate Secretary and Chief Compliance Officer
S. Bradford Rives	Chief Financial Officer
Paul W. Thompson	Senior Vice President – Energy Services

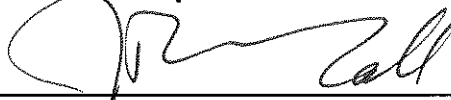

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

NOVEMBER 18, 2011

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act, and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company"), hereby adopt the following resolutions by unanimous written consent in lieu of a special meeting and consent to the actions contemplated thereby:

DECLARATION OF COMMON STOCK DIVIDEND

RESOLVED, that a dividend on the Common Stock of this Company is hereby declared for the quarter ending December 31, 2011, for payment to LG&E and KU Energy LLC on December 29, 2011, from funds legally available for payment of dividends, in an amount equal to \$36,000,000 and the effect of such dividend shall be measured as of September 30, 2011.

FURTHER RESOLVED, that the Treasurer of the Company be and is hereby authorized to pay this dividend by check or otherwise and to take all necessary steps therefore.

This Unanimous Written Consent of Directors may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

November 14, 2011

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company" or "KU"), hereby adopts the following resolutions by unanimous written consent in lieu of a special meeting and consents to the actions contemplated thereby:

PEABODY COAL CONTRACT

WHEREAS, the Company, together with its affiliate, Louisville Gas and Electric Company ("LG&E"), has conducted negotiations with Peabody COALSALES, LLC regarding a potential joint three-year coal supply agreement for approximately 4.5 million tons in the aggregate (the "Peabody Coal Contract"); and

WHEREAS, the Board of Directors has been presented with relevant information and has considered matters relating to the Peabody Coal Contract and deems it advisable and in the best interest of the Company to proceed with such transaction.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors does hereby authorize and approve the Peabody Coal Contract; and

FURTHER RESOLVED, that the appropriate officers of the Company are, and each of them hereby is, authorized and directed to negotiate, execute and deliver, from time to time, for and on behalf of the Company in connection with the Peabody Coal Contract (i) such coal purchase and transport contracts, or amendments thereto, (ii) relevant federal, state or other governmental notices, filings or applications and (iii) any other agreement, document or instrument, that may be necessary or appropriate, including but not limited to credit, security, pledge, guaranty or other financial support arrangements, with such officer's execution and delivery to conclusively evidence such officer's approval thereof and the approval of the Board of Directors; and

FURTHER RESOLVED, that the appropriate officers of the Company are, and each of them hereby is, authorized and directed, to take such other actions as they shall, in their discretion, deem necessary, appropriate or advisable to consummate the Peabody Coal Contract, including such additional terms, conditions precedent or other changes as may be deemed necessary, appropriate or advisable in the discretion of such officers, with the taking of such actions and the execution of such agreements or documents conclusively to evidence the authorization thereof by the Board of Directors; and

FURTHER RESOLVED, that all actions heretofore or hereafter taken by any officer of the Company in connection with the Peabody Coal Contract contemplated by these resolutions be, and they hereby are, approved, ratified and confirmed in all respects.

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

**LG&E AND KU ENERGY LLC
LOUISVILLE GAS AND ELECTRIC COMPANY
and
KENTUCKY UTILITIES COMPANY**

Board Summary

November 10, 2011

**Peabody COALSALES, LLC
Coal Supply Agreement**

SUMMARY

Approval is requested for Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU") (collectively, the "Companies") to enter into a joint coal supply agreement with Peabody COALSALES, LLC ("COALSALES"). The proposed contract is for a three-year term and 4.5 million tons of coal, with an estimated aggregate value of approximately \$276 million.

TERMS

- **Parties:** LG&E, KU; COALSALES
- **Term:** January 2012 -- December 2014
- **Commodity:** 11,000 BTU, High Sulfur Illinois Basin Coal, for barge and rail delivery
- **Volume:** 1.5 million tons annually; 4.5 million tons total
- **Price:** Approx \$49-50/ton (barge) and \$45/ton (rail) for 2012; Approx \$2/ton annual increases in 2013 and 2014. Quarterly indexing for diesel fuel and explosives-related components of base price.
- **Aggregate Value:** Approx \$276.3 million
- **Parent Guarantee:** Peabody Energy Corporation
- **General:** Contract generally follows standard LG&E/KU form coal contract, as well as predecessor agreements with COALSALES. Certain negotiated, but satisfactory, modifications exist in areas of weights and analysis (seller's), invoicing and payment (upon delivery), force majeure (environmental issues) and credit changes (reasonable assurances.)

RATIONALE

COALSALES' price represents one of the lowest evaluated delivered prices for high-sulfur steam coal among the offers received in response to the Companies' fall 2010 solicitation for steam coal with deliveries to start in 2012. RFP packages were sent to approximately 155 vendors, with 13 replies representing 17 proposals. With respect to all coal types, COALSALES' offer was the sixth lowest offer received and the Companies have contracted with or continue in negotiations with the other top five offerors. The anticipated contract volume represents approximately 8.8% of the Companies' estimated 17 million tons annual coal burn forecast during the contract period.

The Peabody group is a diversified coal producer and marketer and is the largest private-sector coal company in the world. Coal supplied by Peabody fuels approximately 10% and 2%, respectively, of the electricity generated in the U.S and worldwide. Peabody was originally founded in 1883 and has been listed on the NYSE since May 2001. The contracting party is a subsidiary marketing company with access to a number of affiliated or third-party mining companies. A parent guarantee from Peabody Energy Corporation, which has significant financial resources, and covering reasonable estimated risk exposure, will also be received in the transaction. Producing mines designated under the contract are a number of Indiana coal properties.

Peabody affiliates have been satisfactory suppliers of coal to the Companies for a number of decades. The parties are currently completing a five-year contract for approximately 1 million tons annually during recent years. The proposed contract is similar to the existing arrangement.

REGULATORY MATTERS AND FINANCIAL IMPACT

The proposed COALSALES contract, including its pricing, tonnage and other terms, was developed pursuant to and consistent with historical coal procurement procedures and strategies of the Companies. Under Kentucky regulatory law, prudent fuel purchases necessary to ensure an adequate and reliable supply of coal to meet the demands of LG&E and KU's native load are eligible for rate recovery under the Fuel Adjustment Clause rate mechanism ("FAC").

The Companies' base rates allow for a certain amount of base fuel recovery, with the FAC operating as a true-up mechanism whereby the difference between the base rate amount and actual fuel expense is either collected from or refunded to customers through monthly adjustments to customer bills. For purposes of the FAC, fuel expense is defined as the actual cost of burned fuel, plus the fuel portion of economic power purchases, minus the incremental fuel costs of off-system power sales, plus certain other adjustments. Recovery of fuel expenses occurs during the second calendar month after expenses are incurred and fuel expense billed through the FAC is thereafter subject to periodic subsequent 6-month and 2-year Kentucky Public Service Commission reviews.

Additionally, KU has a FERC wholesale monthly fuel component applied to wholesale customers (KU's municipal, partial requirements customers) and an annual fuel factor component applied to Virginia retail customers.

The combination of regulatory fuel mechanisms allows the Companies to recover, in substantially complete and prompt manner, their actual fuel costs prudently incurred. The Companies minimize the likelihood of disallowance of fuel expenses recovery by conforming to regulator-approved or industry prudent practices in fuel procurement policies and procedures.

The proposed COALSALES delivered annual price levels are below the Companies' estimated forward price curve used in 2012-2016 planning process for this type of coal and the estimated contract amounts are incorporated in the Companies' five-year fuel budget.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

October 12, 2011

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors (the "Board") of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company"), hereby adopts the following resolutions by unanimous written consent in lieu of a special meeting and consents to the actions contemplated thereby:

Amendment to Existing Credit Agreement

WHEREAS, the Company is borrower under a \$400 million Revolving Credit Agreement, dated as of November 1, 2010, among the Company, the Lenders party thereto and Wells Fargo Bank, National Association, as administrative agent, as amended (the "Existing Credit Agreement"), which currently is scheduled to expire on December 31, 2014, subject to the ability to extend the facility each year, for one additional year, with the consent of the lenders; and

WHEREAS, the Company has been advised that it has the opportunity to amend the Existing Credit Agreement to reduce certain fees and applicable spreads used to determine the interest rates applicable to borrowings and letter of credit fees under the Existing Credit Agreement and to extend the scheduled term of the Existing Credit Agreement from November 1, 2014 to a date approximately five years from the date of the proposed amendment with the continued ability to further extend the facility each year for an additional year with the consent of the lenders; and

WHEREAS, the Board has determined that it is in the Company's best interests to amend or replace, or amend and restate, as appropriate, the Existing Credit Agreement having terms substantially similar to those set forth in the Existing Credit Agreement except that (i) the pricing reflected in the Existing Credit Agreement shall be amended to reflect the pricing set forth in the lenders' commitment letter, dated September 19, 2011, with the Company; and (i) the scheduled term of the Existing Credit Agreement shall be extended for an additional period of up to two years (not to exceed December 31, 2016), with the continued ability each year to further extend the scheduled term for an additional year with the consent of the applicable lenders; and

NOW, THEREFORE, BE IT RESOLVED, by the Board as follows:

Credit Agreement

- (a) That the Chief Executive Officer, President, Chief Financial Officer, any Vice President, the Treasurer, and the Controller of the Company (each, an "Authorized Officer" and, collectively, the "Authorized Officers") be, and each of them hereby is, authorized by and on behalf of the Company, authorized and empowered to negotiate, execute and enter into, on behalf of the Company, an amendment to the Existing Credit Agreement in order to, among other things, extend the scheduled term of the Existing Credit Agreement for an additional period of up to two years, with the continued ability each year to further extend the scheduled term for an additional year and modify interest rate or fee provisions (the "Amended Credit Agreement") on such terms and conditions as the officer executing such documents deems appropriate, with such officer's execution of a definitive agreement to conclusively evidence such officer's approval and the approval of this Board of Directors.
- (b) That the Authorized Officers be, and each of them hereby is, authorized by and on behalf of the Company, (i) to request advances (including issuance of letters of credit) under the Amended Credit Agreement, (ii) to delegate to any other officers or employees of the Company, either acting individually or jointly, authority to request advances (including issuances of letters of credit) under the Amended Credit Agreement and (iii) to execute and deliver any other agreements and documents and to take any and all other action as contemplated by the Amended Credit Agreement or as such officer may deem necessary or desirable in connection with the making of advances (including issuances of letters of credit) on account of the Company pursuant to the Amended Credit Agreement.
- (c) That the Authorized Officers be, and each of them hereby is, authorized and directed to cause the preparation of, to approve, or consent to, and execute and deliver the necessary documents, instruments, agreements or certificates necessary to enter into the Amended Credit Agreement.

General

- (d) That the Authorized Officers of the Company be, and each of them hereby is, authorized in the name and on behalf of the Company and under its corporate seal or otherwise, to take or cause to be taken all such further actions and to execute and deliver or cause to be executed and delivered all such further documents, instruments, agreements and certificates (including without limitation, instruments authorizing or consenting to any amendment, modification or waiver to any of the agreements referred to in these resolutions) as such persons may deem necessary, advisable or appropriate in connection with the transactions contemplated thereby and hereby, and to incur all such fees and expenses as shall be necessary, advisable or appropriate in their judgment in order to carry into effect the purpose and intent of any and all of the foregoing resolutions.
- (e) That any and all actions heretofore taken by the Authorized Officers within the terms of the foregoing resolutions, including any actions taken in connection with applications to the Public Service Commission of the Commonwealth of Kentucky, the Virginia State Corporation Commission and the Tennessee Regulatory Authority or any other federal, state, or local commission, court, agency or body having jurisdiction as required to obtain

any approvals, consents, orders or rulings as such officers or counsel for the Company deemed to be necessary or desirable in connection with the transactions contemplated hereby, be and the same are hereby in all respects approved, ratified and confirmed.

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned who are all of the directors of Kentucky Utilities Company as of the date first written above.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

September 14, 2011

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company" or "KU"), hereby adopts the following resolutions by unanimous written consent in lieu of a special meeting and consents to the actions contemplated thereby:

PURCHASE OF BLUEGRASS GENERATION PLANT

WHEREAS, Bluegrass Generation Company, L.L.C., a Delaware limited liability company, ("Seller") is engaged in the business of owning and operating three natural gas-fired, simple-cycle, combustion turbine power generation units aggregating approximately 495 MW (the "CT Units") located in Oldham County, Kentucky (the CT Units and associated supporting real property, infrastructure, other improvements and certain defined contracts associated with the operation of the CT Units, collectively, the "Bluegrass Plant"); and

WHEREAS, the Company and its affiliate, Louisville Gas and Electric Company ("LG&E" and, collectively with the Company, the "Companies") have negotiated a definitive Asset Purchase Agreement ("APA"), Seller parent Guaranty and related transaction documents (collectively with the APA, the "Purchase Documents"), describing terms and conditions for the purchase by the Companies of the Bluegrass Plant from Seller; and

WHEREAS, the Purchase Documents provide for an aggregate purchase price of approximately \$110 million subject to certain closing adjustments and respective ownership percentages of 69% at LG&E and 31% at KU, and contain other customary or negotiated representations, warranties and covenants; and

WHEREAS, the Board of Directors has reviewed information provided to it relating to the Bluegrass Plant and the Purchase Documents and believes that it is in the best interests of the Company to purchase the Bluegrass Plant as contemplated in the Purchase Documents.

NOW, THEREFORE, BE IT RESOLVED, that the purchase by the Company of the Bluegrass Plant pursuant to the Purchase Documents is hereby authorized and approved, in accordance with these resolutions, and

FURTHER RESOLVED, that, (a) the Chief Executive Officer, President, and any senior or executive Vice President of the Company (collectively, the "Authorized Officers"), and each of such Authorized Officers, be, and they hereby are, authorized and directed, for and on behalf of the Company, to negotiate, execute and deliver to Seller the APA, and (b) the proper officers of the Company be, and they hereby are, authorized and directed for and on behalf of the Company, to

having terms and conditions in accordance with these resolutions, but including such terms, conditions or other changes as they may deem necessary, appropriate or advisable in their discretion in order to give effect to the transactions contemplated hereby, with the execution and delivery of such APA and other Purchase Documents by those officers to conclusively evidence the approval and due authorization thereof by this Board of Directors; and

FURTHER RESOLVED, that the proper officers of the Company and each of such officers be, and they hereby are, authorized and directed, for and on behalf of the Company, to prepare and file all such applications and any and all certificates, documents, letters or other filings with the Federal Energy Regulatory Commission, the Department of Justice, the Federal Trade Commission, the Kentucky Public Service Commission, the Virginia State Corporation Commission, the Tennessee Regulatory Authority and any other appropriate Federal, state, or other governmental authority necessary or appropriate for the approval of the transactions contemplated hereby, with full power and authority by such officers to take any and all such actions as may be necessary, appropriate or advisable in their discretion to obtain such approvals; and

FURTHER RESOLVED, that the proper officers of the Company and each of such officers be, and they hereby are, authorized and directed, for and on behalf of the Company, to take all such other actions to negotiate, execute, deliver and, where applicable, file, all such additional agreements and documents, and to incur all such fees and expenses, as they shall, in their discretion, deem necessary, appropriate or advisable to consummate the transactions contemplated hereby, with the taking of such actions and the execution and delivery or filing of such agreements or documents by such officers to conclusively evidence the approval and due authorization thereof by the Board of Directors; and

FURTHER RESOLVED, that all actions heretofore or hereafter taken by any officer of the Company within the terms of these resolutions be, and they hereby are, approved, ratified and confirmed in all respects.

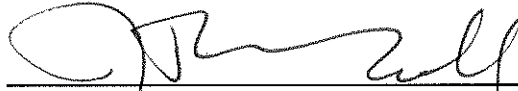

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

September 14, 2011

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky utilities Company, a Kentucky and Virginia corporation (the "Company" or "KU"), hereby adopt the following resolutions by unanimous written consent in lieu of a special meeting and consent to the actions contemplated thereby:

SHORT TERM DEBT AUTHORIZATION

WHEREAS, the Federal Power Act requires utilities to apply for authorization from the Federal Energy Regulatory Commission ("FERC") and state statutes or regulations may require utilities to apply for authorization from state agencies, respectively, to issue securities or assume certain obligations or liabilities, including the issuance of short-term debt and/or debt involving affiliates, as applicable; and

WHEREAS, the Board of Directors deems it to be in the best interests of KU that it take actions necessary to obtain the required FERC and state authorizations and to authorize the issuance during the period ending November 30, 2013, of such debt with maturities not more than two years from the date of the borrowing or renewal up to a limit of \$500 million at any time.

NOW, THEREFORE, BE IT RESOLVED, that, during the period commencing November 30, 2011 and continuing through November 30, 2013, this Company be and hereby is generally authorized to issue and reissue from time to time, in either domestic or foreign markets and to have outstanding at any one time up to \$500 million of promissory notes and other evidences of secured and unsecured indebtedness, in each case maturing on demand or otherwise in less than two years from the date of issuance (collectively, the "Debt Securities"); and

FURTHER RESOLVED, that the proper officers of this Company are hereby authorized to prepare, execute and file, on behalf of this Company, an appropriate application with the Federal Energy Regulatory Commission ("FERC") under Section 204 of the Federal Power Act and appropriate applications with any state regulatory authorities for approval to issue and reissue up to \$500 million of Debt Securities as contemplated by the foregoing resolution; and

FURTHER RESOLVED, that the proper officers of the Company are hereby authorized and empowered to execute and deliver, for and in the name of the

Company, promissory notes, other evidences of indebtedness or instruments of renewal to evidence the borrowings made pursuant to the provisions of the foregoing resolutions; and

FURTHER RESOLVED, that the proper officers of this Company are each hereby authorized to negotiate, prepare, distribute and execute on behalf of this Company such other documents, instruments, certificates and agreements as may be necessary or, in their judgment, desirable, to carry out the purposes of the foregoing resolutions in such form as the officer executing the same approves, such judgment to be conclusively evidenced by such execution, and to take any and all such further action as may be necessary, or in their judgment, desirable, to carry out the purposes of the foregoing resolutions; and

FURTHER RESOLVED, that any and all actions heretofore taken by any officer or officers or director or directors of this Company within the terms of the foregoing resolutions are hereby approved, ratified and confirmed in all respects.

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

September 6, 2011

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company" or "KU"), hereby adopts the following resolutions by unanimous written consent in lieu of a special meeting and consents to the actions contemplated thereby:

**ALLIANCE COAL, LLC
COAL SUPPLY AGREEMENT**

WHEREAS, the Company, together with its affiliate, Louisville Gas and Electric Company ("LG&E"), has conducted negotiations with Alliance Coal, LLC regarding a potential joint five-year coal supply agreement for approximately 15 million tons in the aggregate (the "Alliance Coal Contract"); and

WHEREAS, the Board of Directors has been presented with relevant information and has considered matters relating to the Alliance Coal Contract and deems it advisable and in the best interest of the Company to proceed with such transaction.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Directors does hereby authorize and approve the Alliance Coal Contract; and

FURTHER RESOLVED, that the appropriate officers of the Company are, and each of them hereby is, authorized and directed to negotiate, execute and deliver, from time to time, for and on behalf of the Company (i) such coal purchase and transport contracts, or amendments thereto, (ii) relevant federal, state or other governmental notices, filings or applications and (iii) any other agreement, document or instrument, that may be necessary or appropriate in connection with the Alliance Coal Contract, including but not limited to credit, security, pledge, guaranty or other financial support arrangements, with such officer's execution and delivery to conclusively evidence such officer's approval thereof and the approval of the Board of Directors; and

FURTHER RESOLVED, that the appropriate officers of the Company are, and each of them hereby is, authorized and directed, to take such other actions as they shall, in their discretion, deem necessary, appropriate or advisable to consummate the Alliance Coal Contract, including such additional terms, conditions precedent or other changes as may be deemed necessary, appropriate or advisable in the discretion of such officers, with the taking of such actions and the execution of such agreements or documents conclusively to evidence the authorization thereof by the Board of Directors; and

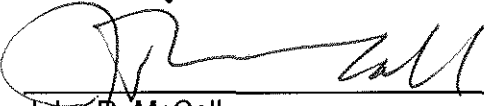

FURTHER RESOLVED, that all actions heretofore or hereafter taken by any officer of the Company in connection with the Alliance Coal Contract contemplated by these resolutions be, and they hereby are, approved, ratified and confirmed in all respects.

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

Paul A. Farr

**LG&E AND KU ENERGY LLC
LOUISVILLE GAS AND ELECTRIC COMPANY
And
KENTUCKY UTILITES COMPANY**

Board Summary

September 6, 2011

Alliance Coal, LLC Coal Supply Agreement

SUMMARY

Approval is requested for Louisville Gas and Electric Company ("LG&E") and Kentucky Utilities Company ("KU") (collectively, the "Companies") to enter into a joint coal supply agreement with Alliance Coal, LLC ("Alliance"). The proposed contract is for a five-year term and 15 million tons of coal, with an estimated aggregate value of approximately \$806 million.

TERMS

- Parties: LG&E, KU; Alliance
- Term: January 2012 -- December 2016
- Commodity: 11,500 BTU, High Sulfur Illinois Basin Coal, for rail delivery
- Volume: 3 million tons annually; 15 million tons total
- Price: \$47/ton for 2012; \$49/ton for one-half of 2013 volume. Phased, bifurcated annual price reopener procedures for remaining 2013 and further volumes. Binding arbitration tied to market-levels for price disputes, with a +/-10% annual collar from the price currently in effect.
- Aggregate Value: Approx \$806.8 million (assumes maximum price increases)
- General: Contract largely follows standard LG&E/KU form coal contract, as well as a predecessor agreement with Alliance. Certain satisfactorily negotiated modifications exist in areas of price reopeners (as above), force majeure (more defined methodology for reductions) and Company liability (several, but not joint, for LG&E/KU, respectively.)

RATIONALE

Alliance's price represents the lowest evaluated delivered price for high-sulfur steam coal among the offers received in response to the Companies' fall 2010 solicitation for steam coal with deliveries to start in 2012. RFP packages were sent to approximately 150 vendors, with 13 replies representing 17 proposals. With respect to all coal types, Alliance's offer was the fifth lowest offer received and the Companies have contracted with or continue in negotiations with the other top four offerors. The anticipated contract volume represents approximately 17.6% of the Companies' estimated 17 million tons annual coal burn forecast during the contract period.

The Alliance group is a diversified coal producer and marketer, ranking as approximately the fifth largest producer in the Eastern U.S., with 3,500 employees and 697.4 million tons of estimated coal reserves. Alliance's parent began operations in 1971 as MAPCO Coal Inc., is the industry's first publicly traded master limited partnership and is listed on NASDAQ NMS. The contracting party is a subsidiary holding company controlling a number of mining subsidiaries and has significant financial resources. Producing mines designated under the contract are a number of Kentucky coal properties.

Alliance has been a satisfactory supplier of coal to the Companies since 1996. The parties are currently completing a six-year contract for approximately 4 million tons annually during recent years. The proposed contract is similar to the existing arrangement.

REGULATORY MATTERS AND FINANCIAL IMPACT

The proposed Alliance contract, including its pricing, tonnage and other terms, was developed pursuant to and consistent with historical coal procurement procedures and strategies of the Companies. Under Kentucky regulatory law, prudent fuel purchases necessary to ensure an adequate and reliable supply of coal to meet the demands of LG&E and KU's native load are eligible for rate recovery under the Fuel Adjustment Clause rate mechanism ("FAC").

The Companies' base rates allow for a certain amount of base fuel recovery, with the FAC operating as a true-up mechanism whereby the difference between the base rate amount and actual fuel expense is either collected from or refunded to customers through monthly adjustments to customer bills. For purposes of the FAC, fuel expense is defined as the actual cost of burned fuel, plus the fuel portion of economic power purchases, minus the incremental fuel costs of off-system power sales, plus certain other adjustments. Recovery of fuel expenses occurs during the second calendar month after expenses are incurred and fuel expense billed through the FAC is thereafter subject to periodic subsequent 6 month and 2 year Kentucky Public Service Commission reviews.

Additionally, KU has a FERC wholesale monthly fuel component applied to wholesale customers (KU's municipal, partial requirements customers) and an annual fuel factor component applied to Virginia retail customers.

The combination of regulatory fuel mechanisms allows the Companies to recover, in substantially complete and prompt manner, their actual fuel costs prudently incurred. The Companies minimize the likelihood of disallowance of fuel expenses recovery by conforming to regulator-approved or industry prudent practices in fuel procurement policies and procedures.

The proposed Alliance delivered annual price levels are below the Companies' estimated forward price curve used in 2012-2016 budgeting for this type of coal and the estimated contract amounts are incorporated in the five-year fuel budget.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

AUGUST 26, 2011

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act, and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company"), hereby adopt the following resolutions by unanimous written consent in lieu of a special meeting and consent to the actions contemplated thereby:

DECLARATION OF COMMON STOCK DIVIDEND

RESOLVED, that a dividend on the Common Stock of this Company is hereby declared for the quarter ending September 30, 2011, for payment to LG&E and KU Energy LLC on September 29, 2011, from funds legally available for payment of dividends, in an amount equal to \$19,500,000 and the effect of such dividend shall be measured as of June 30, 2011.

FURTHER RESOLVED, that the Treasurer of the Company be and is hereby authorized to pay this dividend by check or otherwise and to take all necessary steps therefore.

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT
IN LIEU OF A SPECIAL MEETING**

APRIL 20, 2011

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and of Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of **KENTUCKY UTILITIES COMPANY**, a Kentucky and Virginia corporation (the "Company"), hereby adopts the following resolutions by written consent in lieu of a special meeting and consents to the actions contemplated thereby:

WHEREAS, the Company issued \$250 million aggregate principal amount of First Mortgage Bonds, 1.625% Series due 2015, \$500 million aggregate principal amount of First Mortgage Bonds, 3.250% Series due 2020 and \$750 million aggregate principal amount of First Mortgage Bonds, 5.125% Series due 2040 (collectively, the "Initial Bonds"); and

WHEREAS, in connection with the issuance of the Initial Bonds, the Company entered into a Registration Rights Agreement, dated November 16, 2010 (the "Registration Rights Agreement") under which the Company agreed to register, under the Securities Act of 1933, as amended (the "Securities Act"), an equal aggregate principal amount of first mortgage bonds in exchange for such Initial Bonds (the "Exchange Bonds").

NOW, THEREFORE, BE IT RESOLVED, that the Chief Executive Officer, President, Chief Financial Officer, any Vice President, the Treasurer and the Controller of the Company (each, an "Authorized Officer" and collectively, the "Authorized Officers") are each hereby authorized and directed on behalf of the Company to prepare, execute and/or file one or more Registration Statements, including prospectuses and appropriate exhibits, supplements and amendments thereto, with the Securities and Exchange Commission (the "Commission") registering the Exchange Bonds under the Securities Act and the rules promulgated thereunder, and qualifying any indentures or other agreements for the issuance of such securities under the Trust Indenture Act of 1939, as amended; and further

RESOLVED, that each director or officer of the Company who may be required to execute a Registration Statement or any amendment thereof, including any post-effective amendment, to be filed with the Commission with respect to the Exchange Bonds, is hereby authorized to execute a Power of Attorney appointing John R. McCall and S. Bradford Rives and each of them severally, his or her true and lawful attorneys, with full power of substitution and resubstitution, to execute in his or her name any such Registration Statement and any and all exhibits or amendments thereto, including post-effective amendments and instruments in connection therewith, as fully and to all intents and purposes as any such director or officer could do in person, and to file such Power of Attorney with the

Commission, with full power and authority in each of such attorneys to do and perform in the name and on behalf of such director or officer, or any of them, every act requisite or necessary to be done in the premises as fully and to all intents and purposes as any such director or officer could do in person; and further

RESOLVED, that the Authorized Officers are, and each of them is, hereby authorized to (1) receive any and all notices and communications from the Commission relating to any such Registration Statement and any and all amendments thereto; and (2) to receive notices and communications relating to such matters before the Commission; and further

RESOLVED, that the Authorized Officers are each hereby authorized to execute and file such instruments, make all such payments, and do such other acts and things as, in the opinion of any of them, may be necessary or desirable in order to comply with the rules and regulations promulgated under the Securities Act to cause any such Registration Statement to become effective and to maintain such Registration Statement in effect for so long as such officers deem it to be in the best interest of the Company; and further

RESOLVED, that the proper officers of the Company are each hereby authorized to negotiate, prepare, distribute and execute such other documents, instruments, certificates and agreements as may be necessary or, in their judgment, desirable, to carry out the purposes of the foregoing resolutions in such form as the officer executing the same approves, such judgment to be conclusively evidenced by such execution, and to take any and all such further actions as may be necessary, or in their judgment, desirable, to carry out the purposes of the foregoing resolutions; and further

RESOLVED, that any and all actions heretofore taken by any officer or officers or director or directors of this Company within the terms of the foregoing resolutions are hereby approved, ratified and confirmed in all respects.

This Written Consent of Directors may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

WITNESS the signatures of the undersigned, who are all of the directors of **KENTUCKY UTILITIES COMPANY** as of the date first above written.

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT**

April 8, 2011

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the undersigned, being all of the directors of the Board of Directors (the "Board") of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company") hereby waive notice of and the holding of a meeting of the Board and unanimously consent to the adoption of the following resolutions and the recording thereof among the minutes of the proceedings of the Company:

**DELIVERY OF ALTERNATE CREDIT FACILITIES
IN SUPPORT OF
CERTAIN EXISTING POLLUTION CONTROL BONDS**

WHEREAS, various counties and other municipal entities in the Commonwealth of Kentucky (the "Issuers") have previously issued certain tax-exempt bonds for the benefit of the Company; and

WHEREAS, the proceeds of the bonds were borrowed by the Company pursuant to loan agreements with the Issuers and applied by the Company to the financing or refinancing of the acquisition and construction of certain pollution control facilities of the Company; and

WHEREAS, the payment of principal or redemption price of and interest on, and purchase price of, four series of the bonds that currently bear interest at short-term interest rates (the "Bonds") is each supported by a direct-pay irrevocable letter of credit totaling approximately \$198 million (each, an "Existing Credit Facility", and collectively, the "Existing Credit Facilities") issued by Wells Fargo Bank, National Association, as credit facility issuer, on December 1, 2010, under a \$400 million Revolving Credit Agreement, dated as of November 1, 2010, among the Company, the lenders from time to time party thereto and Wells Fargo Bank, National Association, as administrative agent; and

WHEREAS, the Board has determined that it is in the Company's best interests to deliver to the bond trustee for the Bonds of each series an Alternate Credit Facility in support of such Bonds, and to replace the Existing Credit Facilities for such Bonds, such Alternate Credit Facilities to be letters of credit issued by Sumitomo Mitsui Banking Corporation ("Sumitomo"), BBVA and/or other banks acting as lenders or letter of credit issuers under a new credit facility not to exceed \$200 million (the "Credit Facility") with a three-year term (Sumitomo, BBVA and such other banks, the "Banks"); and

WHEREAS, the Company currently has regulatory authority to enter into a three-year Credit Facility and it would be in the Company's best interests to enter into such a Credit Facility with the Banks;

NOW, THEREFORE, BE IT RESOLVED, by the Board as follows:

Bank Agreements

- (a) That the Chief Executive Officer, President, Chief Financial Officer, any Vice President, the Treasurer, and the Controller of the Company (each, an "Authorized Officer" and, collectively, the "Authorized Officers") be, and each of them hereby is, authorized by and on behalf of the Company, to negotiate, execute and enter into, on behalf of the Company, a credit agreement and/or other similar letter of credit or borrowing and/or reimbursement arrangement (the "New Bank Agreement") with an aggregate principal amount of credit and/or letter of credit capacity available under such New Bank Agreement not to exceed \$200 million, and with a term of up to three years on such terms and conditions as the officer executing such documents deems appropriate, with such officer's execution of a definitive agreement to conclusively evidence such officer's approval and the approval of this Board of Directors.
- (b) That the Authorized Officers be, and each of them hereby is, authorized by and on behalf of the Company, (i) to request issuances of letters of credit in support of the Bonds (or other tax-exempt bonds issued on behalf of the Company) and other advances under the New Bank Agreement, (ii) to delegate to any other officers or employees of the Company, either acting individually or jointly, authority to request issuances of letters of credit in support of such Bonds under the New Bank Agreement and (iii) to execute and deliver any other agreements and documents and to take any and all other action as contemplated by the New Bank Agreement or as such Authorized Officer may deem necessary or desirable in connection with the making of advances (including issuances of letters of credit in support of the Bonds of each series) on account of the Company pursuant to the New Bank Agreement.
- (c) That the Authorized Officers be, and each of them hereby is, authorized and directed to cause the preparation of, to approve, or consent to, and execute and deliver the necessary documents, instruments or certificates necessary to enter into the New Bank Agreement.

General

- (d) That the proper officers of the Company be, and each of them hereby is, authorized in the name and on behalf of the Company and under its corporate seal or otherwise, to take or cause to be taken all such further actions and to execute and deliver or cause to be executed and delivered all such further documents, agreements and certificates (including without limitation, instruments authorizing or consenting to any amendment, modification or waiver to any of the agreements referred to in these resolutions, and any disclosure documents relating to the delivery of any Alternate Credit Facility) as such persons may deem necessary, advisable or appropriate in connection with the transactions contemplated thereby and hereby, and to incur all such fees and expenses as shall be necessary, advisable or appropriate in their judgment in order to carry into effect the purpose and intent of any and all of the foregoing resolutions.
- (e) That any and all actions heretofore taken by the Authorized Officers within the terms of the foregoing resolutions, including any actions taken in connection with applications to the Public Service Commission of the Commonwealth of Kentucky, the Virginia State Corporation Commission and the Tennessee Regulatory Authority or any other federal, state, or local commission, court, agency or body having jurisdiction as required to obtain any approvals, consents, orders or rulings as such officers or counsel for the Company deemed to be necessary or desirable in connection with the transactions contemplated hereby, be and the same are hereby in all respects approved, ratified and confirmed.

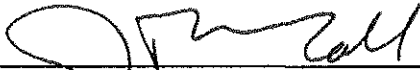

This unanimous written consent may be executed in two or more counterparts, all of which taken together shall be deemed one and the same instrument.

TAKEN BY WRITTEN CONSENT**

November 1, 2010

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act, and Section 13.1-685 of the Virginia Stock Corporation Act, the Board of Directors of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company"), hereby adopt the following resolutions by unanimous written consent in lieu of a special meeting and consent to the actions contemplated thereby:

TERMINATION OF AUDIT COMMITTEE

WHEREAS, following the indirect acquisition of the Company by PPL Corporation and in light of the existence and functions of PPL Corporation's Audit Committee and Materiality and Disclosure Committee, the Board of Directors deems it advisable and in the best interests of the Company to terminate the Audit Committee of the Board of Directors; and

WHEREAS, the Company remains authorized to implement appropriate Company policies, procedures and bodies, including but not limited to committees of management, to provide review and oversight regarding the governance, financial reporting, disclosure and other matters, consistent with the above developments.

NOW, THEREFORE, BE IT RESOLVED, that the Audit Committee of the Board of Directors be, and it hereby is terminated; and

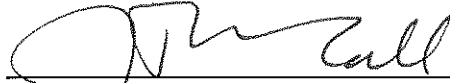

FURTHER RESOLVED, that each of the officers of the Company be, and hereby are, authorized and directed to take any and all further actions consistent with the intent of these resolutions.

WITNESS the signatures of the undersigned who are all of the directors of Kentucky Utilities Company as of the date first written above.

Paul A. Farr

**ACTION OF THE BOARD OF DIRECTORS
OF
KENTUCKY UTILITIES COMPANY
TAKEN BY WRITTEN CONSENT**

June 14, 2010

Pursuant to the provisions of Section 271B.8-210 of the Kentucky Business Corporation Act and Section 13.1-685 of the Virginia Stock Corporation Act, the undersigned, being all of the directors of the Board of Directors (the "Board") of Kentucky Utilities Company, a Kentucky and Virginia corporation (the "Company") hereby waive notice of and the holding of a meeting of the Board and unanimously consent to the adoption of the following resolutions and the recording thereof among the minutes of proceedings of the Company:

REFINANCING OF COMPANY DEBT

WHEREAS, the Company currently has outstanding \$1,331,000,000 in principal amount of unsecured promissory notes issued to Fidelia Corporation ("Fidelia"), an affiliate within the E.ON AG holding company system; and

WHEREAS, due to the proposed acquisition of E.ON U.S. LLC, the Company's parent, by PPL Corporation, the Company will be required to refinance the notes issued to Fidelia through the issuance of replacement notes to PPL Corporation or an affiliate of PPL Corporation on a temporary basis (such Fidelia notes and replacement notes are collectively referred to herein as the "Outstanding Long-Term Debt") and then refinance the Outstanding Long-Term Debt through the issuance of new long-term debt which, due to market conditions, including the increased spread between pricing for unsecured debt and secured debt, the Company may wish to issue as secured debt; and

WHEREAS, various counties and other municipal entities in the Commonwealth of Kentucky (the "Issuers") have previously issued and there are currently outstanding approximately \$351,000,000 in principal amount of the Company's Pollution Control Revenue Bonds (the "Existing Pollution Control Bonds"); and

WHEREAS, the proceeds of the Existing Pollution Control Bonds were borrowed by the Company pursuant to unsecured loan agreements with the Issuers and applied by the Company to the financing or refinancing of the acquisition and construction of certain pollution control facilities of the Company; and

WHEREAS, many of such loan agreements and related financing documents for the Existing Pollution Control Bonds contain a negative pledge pursuant to which the Company agreed not to issue secured debt unless it also secures such Existing Pollution Control Bonds; and

WHEREAS, the Company is borrower under a credit agreement, dated June 22, 2007, with U.S. Bank National Association (the "Existing Credit

Agreement") pursuant to which the Company may borrow up to \$35,000,000; and

WHEREAS, in connection with letters of credit to provide liquidity support for certain of the Existing Pollution Control Bonds, the Company has entered into four reimbursement agreements with the letter of credit provider (the "Existing Reimbursement Agreements," together with the Existing Credit Agreement, the "Existing Bank Agreements"), with Commerzbank AG, New York Bank as issuing bank under each Existing Reimbursement Agreement, with an aggregate principal component of approximately \$200,000,000; and

WHEREAS, due to the acquisition of E.ON U.S. LLC and the resulting change of control of the Company, each of the Existing Bank Agreements will need to be amended to permit such change of control or replaced with new bank agreements; and

WHEREAS, in connection with this refinancing of the Outstanding Long-Term Debt, the Board has determined that it is in the Company's best interests to authorize the issuance and sale in one or more series of up to \$1,556,000,000 principal amount of new notes to PPL Corporation or an affiliate of PPL Corporation (which includes \$1,331,000,000 to refinance the Outstanding Long-Term Debt and up to \$225,000,000 of previously authorized additional debt for other general corporate purposes) to replace the notes issued to Fidelia, which notes would then be replaced by secured debt, in the form of first mortgage bonds under a first mortgage indenture pursuant to which the Company would pledge substantially all of its property in Kentucky as security for the bonds issued thereunder; and

WHEREAS, due to the refinancing of the Outstanding Long-Term Debt and the issuance and sale of the first mortgage bonds, the Board has determined that it is in the Company's best interests to authorize the issuance of up to \$351,000,000 principal amount of first mortgage bonds to the trustees, bond insurers and/or credit facility providers for the Existing Pollution Control Bonds to secure the Company's obligations thereunder; and

WHEREAS, due to the proposed acquisition of E.ON US LLC and the resulting proposed change of control of the Company, the Board has determined that it is in the Company's best interests to authorize (i) amendments to the the Existing Bank Agreements to permit the change of control and issuance of secured debt and (ii) replacement of Existing Bank Agreements with new bank agreements with an aggregate maximum amount of credit available under such new bank agreements not to exceed \$400,000,000.

NOW, THEREFORE, BE IT RESOLVED, by the Board as follows:

The Offering

- (a) That the Board authorizes and approves the issuance and sale by the Company of up to \$1,556,000,000 principal amount of new notes to PPL Corporation or an affiliate of PPL Corporation to replace the notes issued to Fidelia, which new notes would contain the same principal amounts, terms, conditions and interest rates as the notes issued to Fidelia, except that such new notes would not have "make whole" provisions and could be repaid at any time at par plus accrued interest.
- (b) That the Board authorizes and approves the issuance and sale by the Company from time to time, in one or more series, and in any combination, of up to \$1,556,000,000 aggregate principal amount of long-term debt in the form of first mortgage bonds (the "Debt Securities") in one or more underwritten public offerings, negotiated sales, or private placement transactions (such offerings, sales and transactions collectively referred to herein as the "Offering"), the proceeds of such Debt Securities to be used to for general corporate purposes, including the refinancing of the Outstanding Long-Term Debt, capital expenditures, repayment of short-term debt and refunding or refinancing of other long-term debt at maturity or otherwise.
- (c) That the Company be, and it hereby is, authorized to issue and offer for sale the Debt Securities through one or more underwriters, initial purchasers or selling or placement agents, pursuant to an underwriting, purchase or similar agreement, on and subject to such terms and conditions as may be approved by the Authorized Officers (as defined below), provided that the interest rate on such Debt Securities shall not exceed 6.5% per year.

Bonds and Indenture

- (d) That the Chief Executive Officer, President, Chief Financial Officer, any Vice President, the Treasurer, and the Controller of the Company (each, an "Authorized Officer" and, collectively, the "Authorized Officers") be, and each of them hereby is, authorized by and on behalf of the Company, to negotiate, enter into, execute and deliver one or more indentures or similar agreements (collectively, the "Indenture") with a trustee or trustees to be selected by one or more Authorized Officers, as supplemented by one or more supplemental indentures thereto, to cause the Indenture to be filed and recorded as necessary and to take any other steps to make it binding upon and enforceable against the Company in accordance with its terms, and to issue from time to time the Debt Securities thereunder, together with any agreements, documents and instruments in connection therewith and any exhibits, annexes or attachments thereto and with such changes therein, additions thereto or omissions therefrom as such Authorized Officer deems necessary, advisable or appropriate and that the Company be, and it hereby is, authorized to pledge or otherwise encumber under the Indenture substantially all of the Company's property in Kentucky as security for the Company's obligations under the Debt Securities and debt securities to be issued thereunder from time to time in the future.
- (e) That the Authorized Officers shall be, and each of them hereby is, authorized, empowered and directed, in the name and on behalf of the Company, to execute, acknowledge and deliver new securities representing the Debt Securities in substantially such form and containing such terms and conditions as such

Authorized Officer shall approve, with such changes therein, additions thereto or omissions therefrom as such Authorized Officer executing, acknowledging or delivering the same shall approve, such Authorized Officer's execution, acknowledgement and delivery thereof to be conclusive evidence of such approval.

- (f) That the Authorized Officers be, and each of them hereby is, authorized, empowered and directed to fix and approve the terms and conditions on which the Debt Securities are to be issued and authenticated and the final terms of the Indenture, including, without limitation, the rights of the holders thereof, the maturity dates, the sinking fund provisions, the redemption price, the subordination provisions, the offering date and all other matters relating thereto, and to take all such other actions as the Authorized Officers deem necessary, advisable or appropriate to consummate the transactions contemplated by the Indenture.
- (g) That a facsimile of the corporate seal of the Company may be imprinted on the Debt Securities, which facsimile is hereby acknowledged to be the corporate seal of the Company for the purposes of sealing the Debt Securities.
- (h) That the Authorized Officers be, and each of them hereby is, authorized to execute and deliver on behalf of the Company, in the event that all or a portion of the Debt Securities bear a fixed or variable rate of interest: (i) one or more interest rate lock or swap agreements or similar agreements with one or more underwriters, banks or other financial institutions providing for the hedging of the interest rates on such securities, and (ii) any other agreement, document or instrument that may be necessary or appropriate in connection with any such transaction.

Offering Memorandum

- (i) That, in connection with the issuance and sale of the Debt Securities, each of the Authorized Officers shall be, and hereby is, authorized, empowered and directed, in the name and on behalf of the Company, (i) to prepare, or cause to be prepared, one or more offering memoranda or other appropriate disclosure document (including all exhibits, annexes and other documents relating thereto) in connection with such issuance and sale of the Debt Securities, including any supplement(s) or amendment(s) thereto (the "Offering Memorandum"), (ii) to execute, as such Authorized Officers or Authorized Officer deem(s) necessary, advisable or appropriate, any and all, agreements, documents and instruments in connection with such issuance and sale, and (iii) to take all such other actions as such Authorized Officers or Authorized Officer deem(s) necessary, advisable or appropriate in order to effect the issuance and sale of the Debt Securities, such Authorized Officer's authority and determination to execute such documents and instruments and to take such actions being conclusively evidenced by such execution or action, as the case may be.

Authorization of Purchase Agreement

- (j) That the Authorized Officers be, and hereby are, authorized and directed, for and on behalf of the Company, to fix and approve the terms of an underwriting, purchase or similar agreement relating to the issuance and sale of the Debt Securities to one or more underwriters, initial purchasers or selling or placement

agents thereof (the "Purchase Agreement") to be entered into by and among the Company and such initial purchasers or underwriters as may agree to become parties thereto, and the Authorized Officers be, and each of them hereby is, authorized to execute and deliver the same, in such form or with such changes therein, additions thereto or omissions therefrom as such Authorized Officers may approve, such execution and delivery by any such Authorized Officer to be conclusive evidence of such authorization and approval.

- (k) That, if the Offering is conducted as a private placement, the Company is hereby authorized to offer and sell the Debt Securities to the initial purchasers in a private placement offering pursuant to Section 4(2) of the Securities Act of 1933 or any other exemption from registration thereunder on the terms and subject to the conditions set forth in the Purchase Agreement.
- (l) That, if the Offering is conducted as a private placement, the Company is hereby authorized to execute and deliver one or more registration rights agreements, or similar agreements, pursuant to which the Company would agree to file one or more registration statements with the Securities and Exchange Commission under the Securities Act of 1933, including pursuant to a registered exchange offer whereby the Company would exchange the first mortgage bonds issued in the private placement with an equal aggregate principal amount of first mortgage bonds that have been registered.

Collateralization for Existing Pollution Control Bonds

- (m) That the Company is authorized to issue up to \$351,000,000 aggregate principal amount of first mortgage bonds (the "Collateral First Mortgage Bonds") to the trustees, bond insurers and/or credit facility providers for the Existing Pollution Control Bonds to serve as collateral for the Company's obligations under the respective loan agreements, bond insurance agreements and/or reimbursement agreements. The principal amount of, and interest on, the Collateral First Mortgage Bonds will not be payable except upon a default under the related Existing Pollution Control Bonds.
- (n) That the Authorized Officers be, and each of them hereby is, authorized and directed to cause the preparation of, to approve, or consent to, and execute and deliver the following documents or instruments in connection with the collateralization of the Existing Pollution Control Bonds: (i) amendments to the loan agreements between the Company and the respective Issuers to reflect such collateralization, (ii) amendments to the trust indentures with the respective Issuers to reflect such collateralization, (iii) supplements, stickers or similar amendments to the official statements that will describe the Collateral First Mortgage Bonds and the collateralization, (iv) the Collateral First Mortgage Bonds, (v) one or more supplemental indentures and/or supplemental trust indentures pursuant to which the Company may issue its Collateral First Mortgage Bonds, and (vi) such other related documents, forms, certificates or agreements as shall be necessary or appropriate to effectuate such collateralization.

Bank Agreements

- (o) That the Authorized Officers be, and each of them hereby is, authorized and empowered to (i) negotiate and execute, on behalf of the Company, such amendments or supplements to the Existing Bank Agreements as such

Authorized Officers deem necessary to permit the change of control and to permit the Company to pledge or otherwise encumber under the Indenture substantially all of the Company's property in Kentucky as security for the Company's obligations under the Debt Securities and/or (ii) to enter into credit facilities and to negotiate, execute and deliver one or more revolving credit agreements and/or other similar borrowing arrangements, including any extension or amendment of any existing credit facility ("New Bank Agreements") with an aggregate maximum amount of credit available under such New Bank Agreements not to exceed \$400,000,000 on such terms (including letter of credit provisions and an expiration period, without consideration of extensions, renewals or term-out periods, of up to five years) and conditions as the officer executing such documents deems appropriate, with such officer's execution of a definitive agreement to conclusively evidence such officer's approval and the approval of this Board of Directors.

- (p) That the Authorized Officers be, and each of them hereby is, authorized by and on behalf of the Company, (i) to request advances (including issuances of letters of credit) under each of the New Bank Agreements, (ii) to delegate to any other officers or employees of the Company, either acting individually or jointly, authority to request advances (including issuances of letters of credit) under any of the New Bank Agreements and (iii) to execute and deliver any other agreements and documents and to take any and all other action as contemplated by the New Bank Agreements or as such officer may deem necessary or desirable in connection with the making of advances (including issuances of letters of credit) on account of the Company pursuant to the New Bank Agreements.
- (q) That the Authorized Officers be, and each of them hereby is, authorized and directed to cause the preparation of, to approve, or consent to, and execute and deliver the necessary documents, instruments or certificates necessary to effect such amendments to the Existing Bank Agreements or the entering into of the new Bank Agreements.

Indenture Committee

- (r) That a committee of the Board consisting of John R. McCall and S. Bradford Rives (the "Indenture Committee") shall be, and hereby is, authorized, for and on behalf of the Company, to exercise all of the powers of the Board in connection with the Indenture, the Debt Securities, the Collateral First Mortgage Bonds, the New Bank Agreements, the Offering and all matters incident thereto, including, without limitation, the adoption of any resolutions required by the Indenture or deemed necessary or advisable in connection therewith and to take all such other actions as the Indenture Committee deems necessary, advisable or appropriate to consummate the transactions contemplated hereby.
- (s) That, in the event of the absence or disqualification of any member of the Indenture Committee, the members of the Indenture Committee present at any meeting of the Indenture Committee and not disqualified from voting thereat, whether or not they constitute a quorum, may unanimously appoint another member of the Board to act at such meeting of the Indenture Committee in the place of any such absent or disqualified member.

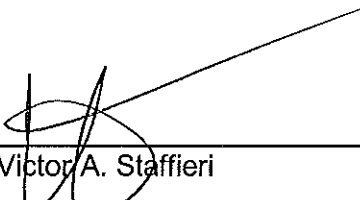

Regulatory Approval

- (t) That the Authorized Officers of the Company be, and each of them hereby is, authorized and empowered to execute and file, or cause to be filed, on behalf of the Company such applications or petitions (including amendments or supplements thereto) with the Public Service Commission of the Commonwealth of Kentucky, the Virginia State Corporation Commission and the Tennessee Regulatory Authority and any other federal, state, or local commission, court, agency or body having jurisdiction as may be required to obtain any approvals, consents, orders or rulings as such officers or counsel for the Company may deem to be necessary or desirable in connection with the transactions contemplated hereby, as may be required by law or as may be deemed to be proper or appropriate in their judgment or in the judgment of counsel for the Company in connection with the foregoing.

General

- (u) That the officers of the Company be, and each of them hereby is, authorized in the name and on behalf of the Company and under its corporate seal or otherwise, to take or cause to be taken all such further actions and to execute and deliver or cause to be executed and delivered all such further documents, agreements, certificates and agreements (including without limitation, instruments authorizing or consenting to amendment, modifications or waivers to any of the agreements or disclosure documents relating to the Existing Pollution Control Bonds) in connection with the Offering as such persons may deem necessary, advisable or appropriate in connection with the transactions contemplated thereby and hereby, and to incur all such fees and expenses as shall be necessary, advisable or appropriate in their judgment in order to carry into effect the purpose and intent of any and all of the foregoing resolutions.
- (v) That any acts of the officers of this Company, which acts would have been authorized by the foregoing resolutions except that such acts were taken prior to the adoption of such resolutions, are hereby severally ratified, confirmed, approved and adopted as acts in the name of and on behalf of this Company.
- (w) That the Board does hereby adopt, as if fully set out herein, the form of any resolutions with respect to the Offering as may be required by financial institutions and any other entities requiring such resolutions to effect the intent of these resolutions.
- (x) That each of the Authorized Officers be, and hereby is, authorized and directed to take any and all further action to see that the intent of the above resolutions are carried forth.

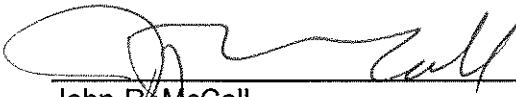

WITNESS the signatures of the undersigned, who are all of the directors of Kentucky Utilities Company as of the date first written above.

January 15, 2010

Board of Directors:

I hereby resign as an officer of E.ON U.S. LLC, Louisville Gas and Electric Company and Kentucky Utilities Company, and as an officer and/or director of its affiliates and related companies, including joint ventures, partnerships, and limited liability companies effective the 15th day of January, 2010.

Wendy C. Welsh

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 66

Responding Witness: Shannon L. Charnas

Q-66. Please explain in detail any major changes in accounting treatment for O&M expenses, retirements, replacements and removal costs instituted by the Company since 2009.

A-66. There have been no major changes in the accounting treatment for O&M expenses, retirements, replacements and removal costs instituted by the Company since 2009.

KENTUCKY UTILITIES COMPANY

CASE NO. 2012-00221

**Response to Attorney General's Initial Requests for Information
Dated July 31, 2012**

Question No. 67

Responding Witness: Valerie L. Scott

- Q-67. Please provide a copy of each out-of-period accounting adjustment (i.e., journal entry) recorded during the historical test period, and past the test period to the present, along with an explanation of each adjustment.
- A-67. See attached. All adjustments identified were included in Blake Exhibit 1, Ref. Sch. 1.18 except for \$119,623, which would have decreased the revenue requirement requested in this case.

Description: Entry from Distribution - Roxane Brown. Copy attached with signatures. Property Accounting verified work order amounts and corrected as needed to clear work order to zero. Property Accounting corrected Expenditure Types, uploaded entry, and referenced entry. The charges were applied to CAPITAL in error, they should have been O&M.

Description: Entry transfers legal fees to O & M. Legal fees were incorrectly charges to this project and were not moved via COD. Correction needs to be done in order to reflect the correct capital charges for unitization
 Charges moved with approval of John Pulliam
