July 21, 2015

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 1**

**Responding Witness: Lonnie E. Bellar**

- Q-1. When the companies issued a press release about the proposed rate increases for residential customers which are the subject of the instant filing, the figures provided were associated not with the average customer in terms of usage, but on an arbitrary figure, that of 1,000 kWh. Please describe why this figure was used as opposed to the usage for the average customer, on a consumption basis.
- A-1. Actual average monthly usage for residential customers will vary from month to month depending upon the time period of the year. The use of 1,000 kWh per month to reflect the impact on a residential customer's bill provides a general representation that is easily scalable to an individual residential customer's actual usage.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 2**

**Responding Witness: Robert M. Conroy**

- Q-2. Reference the Staffieri testimony at pp. 7– 8. Are the amounts set forth therein for the proposed increases the same amounts provided by the company in its notice sent to its customers, especially the amount of the increase on the average residential bill?
- A-2. Yes, although the notice sent to customers does not include the effect of the change in the Curtailable Service Rider or the change in miscellaneous revenue, and the total increase referenced in Mr. Staffieri's testimony does. The residential increase published in the newspapers and included in customers' bills states a monthly bill increase of \$7.25, as Mr. Staffieri states on page 8 of his testimony.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 3**

**Responding Witness: Paula H. Pottinger, Ph.D.**

- Q-3. Reference the Staffieri testimony at page 1. What is the witness' total compensation package?
- a. What portion of that amount is the company requesting the ratepayers to bear in this application?
- A-3. See the response to PSC 1-46.
- a. See the response to PSC 1-46. This shows there are three components of the witness's compensation: salary, other compensation and broad-based employee benefits. As indicated in PSC 1-46, none of the executive witness's Other Compensation is actually recovered through base rates; rather, only a portion of the witness's salary and broad-based employee benefits is so recovered. That notwithstanding, 14% of the witness's total compensation is equivalent to the amount of the witness's salary and broad-based employee benefits that LG&E recovers through base rates.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 4**

**Responding Witness: Paul W. Thompson**

- Q-4. Reference the Staffieri testimony at page 5. What is the total financial investment referenced on that page in environmental compliance plans?
- A-4. The capital investment in environmental compliance plans between October 31, 2009 and March 31, 2012 is \$350.1 million (\$25.4 million for LG&E and \$324.7 million for KU).

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 5**

**Responding Witness: Lonnie E. Bellar**

Q-5. Reference the Staffieri testimony at pp. 10-12. Please provide a breakdown since 1994 of the amount contributed per year for each program that supports benevolent endeavors across the Commonwealth.

A-5. The LG&E and KU Foundation is funded by shareholder contributions and represents LG&E and KU Energy LLC and its subsidiaries as the philanthropic arm for charitable giving. Committed to social responsibility, the LG&E and KU Foundation proactively supports many philanthropic initiatives with the intent to improve the quality of life in communities where the Companies provide service by supporting Education, Diversity, Environmental, and Health and Human Services initiatives.

Attached is Form 990-PF that includes information for contributions made by the LG&E and KU Foundation for the period of 2004 through 2011 (the years that are readily available).

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General’s Initial Requests for Information**

**Dated July 31, 2012**

**Question No. 7**

**Responding Witness: Sidney L. “Butch” Cockerill**

Q-7. Reference the Staffieri testimony at p. 12. Provide the sums LG&E received in late payment fees broken down by month and year for the five years prior to the offering of the FLEX option.

- a. Please provide the number of customer accounts which have been assessed a late payment penalty for the past three (3) years, listed by month. If customer accounts have been assessed a late payment penalty more than once, please provide the total number of these accounts.
- b. Provide this same information broken down by account status, as in 30 days past due, 60 days past due, etc.

A-7. The FLEX program was first offered in January 2010.

<b>Month</b>	<b>2005</b>	<b>2006</b>	<b>2007</b>	<b>2008</b>	<b>2009</b>
January	\$305,317	\$464,297	\$365,568	\$395,882	\$459,377
February	283,563	478,688	323,328	451,019	538,910
March	373,188	449,291	446,157	612,307	642,120
April	310,145	430,033	444,845	521,883	579,073
May	291,931	387,905	283,620	405,737	1,021,283
June	186,518	223,970	231,298	261,357	880,889
July	192,799	200,943	248,525	247,107	790,627
August	322,975	287,242	327,576	341,386	787,059
September	339,556	332,757	314,267	419,911	731,735
October	327,583	312,258	449,427	478,493	665,615
November	216,224	188,130	319,177	288,856	558,197
December	178,751	213,546	251,813	327,985	567,682

- a. LG&E does not have a business reason to maintain ongoing files with the requested information segregated according to requested parameters. The count below will include a customer's account more than once, if the customer's account has been assessed a late payment charge more than once.

	2009	2010	2011	2012
Jan		109,196	87,699	76,708
Feb		101,209	86,603	73,811
Mar		99,148	80,278	78,566
Apr	102,788	101,733	78,820	73,851
May	117,440	93,937	75,846	73,350
Jun	104,482	93,927	84,200	78,941
Jul	114,515	107,351	81,578	72,094
Aug	109,595	93,963	87,601	
Sep	103,118	108,873	87,137	
Oct	110,515	104,897	76,417	
Nov	104,499	99,677	72,562	
Dec	106,490	102,685	88,594	

- b. Late payment charges are assessed on the current month's charges only. Arrears are not subject to additional late payment charges. LG&E does not have a business reason to maintain ongoing files with the requested information segregated according to requested parameters. The requested data does not exist.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 8**

**Responding Witness: Sidney L. "Butch" Cockerill**

- Q-8. Provide the dollar amounts LG&E has assessed in late payment penalties for the three (3) years, broken down by zip code.
- A-8. See the attached for the dollar amounts LG&E has assessed in late payment penalties for the three (3) years, broken down by zip code. LG&E does not have a business reason to maintain ongoing files with the requested information segregated according to requested parameters. The attached information represents LG&E's effort to extract the data according to the requested parameters within the time allowed to respond to this request for information.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General’s Initial Requests for Information  
Dated July 31, 2012**

**Question No. 9**

**Responding Witness: Sidney L. “Butch” Cockerill**

- Q-9. Please provide the amount in dollars that LG&E has collected in late payment penalties for the past three (3) years, broken down by month.
- a. Provide this same information broken down by account status, as in 30 days past due, 60 days past due, etc.
  - b. Provide the dollar amount LG&E has collected in late payment penalties for the past three (3) years, broken down by zip code.

A-9.

Late Payment Charges (LPC) Collected in Dollars

	<b>2009</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>
<b>Jan</b>		609,664.40	\$ 698,133.65	514,967.09
<b>Feb</b>		709,903.76	\$ 795,486.04	629,597.28
<b>Mar</b>		817,515.65	\$ 672,477.44	560,264.98
<b>Apr</b>	423,269.95	649,327.92	\$ 482,656.73	452,136.94
<b>May</b>	696,667.40	411,992.77	\$ 415,238.84	358,387.88
<b>Jun</b>	610,940.39	354,491.88	\$ 327,136.78	337,315.63
<b>Jul</b>	546,435.35	493,987.26	\$ 399,670.82	378,616.60
<b>Aug</b>	577,642.33	575,079.59	\$ 582,773.47

<b>Nov</b>	380,155.20	429,527.43	\$ 320,034.70	
<b>Dec</b>	407,948.95	437,710.43	\$ 392,618.98	

- a. Late payment charges are assessed on the current month's charges only. Arrears are not subject to additional late payment charges. LG&E does not have a business reason to maintain ongoing files with the requested information segregated according to requested parameters. The data does not exist prior to November 2009. See the attachment for residential arrears (including LPC) at a point in time for all.
  
- b. See the attachment for the dollar amount LG&E has collected in late payment penalties for the past three (3) years, broken down by zip code.

a.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 10**

**Responding Witness: Cheryl E. Bruner**

Q-10. Reference the Staffieri testimony at page 6. Please describe in detail the number of current service center employee positions referenced on that page versus the number of service center employee positions broken down by each year from 1999 to date. Include in your discussion the job title of each position, and whether it is: (i) full or part time; and (ii) permanent or temporary.

A-10. LG&E does not have a business reason to maintain ongoing files with the requested information segregated according to requested parameters. The below information represents LG&E's effort to extract the data according to the requested parameters within the time allowed to respond to this request for information.

The table shows the average staffing levels for the Residential Service Center (RSC) and Business Service Center (BSC). It represents only customer service representatives.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 11**

**Responding Witness: Cheryl E. Bruner**

- Q-11. Provide a status update regarding changes in policies and procedures which LG&E implemented following the PSC's management audit on the company's customer service and billing.
- a. Please provide a list of all policies, procedures, protocol(s) and guidelines which LG&E changed as a result of the audit, regardless of whether any such changes are included in tariffs filed with the PSC.
  - b. Please provide copies of any and all tariffs the company changed as a result of the management audit. Alternatively, you may provide a list referencing these tariffs if they are already provided in the application.
- A-11. a. See the attached March 14, 2012 Progress Report pertaining to the Focused Management Audit ordered by the PSC.
- b. There have been no tariffs changed as a result of the management audit.
- .

The attachment is being  
provided in a separate  
file.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information**

**Dated July 31, 2012**

**Question No. 12**

**Responding Witness: Sidney L. "Butch" Cockerill**

Q-12. Please provide the number of customers for whom LG&E has changed the bill payment due date since implementation of the FLEX program. Provide complete details.

A-12.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 13**

**Responding Witness: Sidney L. "Butch" Cockerill**

- Q-13. For the average LG&E customer, how many times in the past year has the bill payment due date been changed?
- A-13. None. There have been no changes to the tariffs regarding bill payment due dates since the 2008 LG&E rate case. However, for the benefit of the customer, bills will be due only on working days, and not weekends or holidays, bill payment due dates fluctuate some from month to month.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 14**

**Responding Witness: Sidney L. "Butch" Cockerill**

Q-14. What is the most times in the past year that a bill payment due date has been changed for any customer?

A-14. There have been no changes to the tariffs regarding bill payment due dates since the 2008 LG&E rate case. However, for the benefit of the customer, bills will be due only on working days, and not weekends or holidays, bill payment due dates fluctuate some from month to month.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 15**

**Responding Witness: Sidney L. "Butch" Cockerill**

- Q-15. With the change in the bill payment due date, what is the fewest number of days that a customer has had to timely tender payment to the company? In your answer, please consider also all relevant information in complaints filed against the company at the PSC.
- A-15. There have been no changes to the tariffs regarding bill payment due dates since the 2008 LG&E rate case. By tariff, customer bill payments are due twelve calendar days from the issuance of the invoice and a late payment charge is applied three calendar days following the due date. Therefore, by tariff, all customers have at least fifteen calendar days to pay before a late payment charge is assessed.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 16**

**Responding Witness: Sidney L. "Butch" Cockerill**

- Q-16. With the change in the bill payment due date, what is the most number of days that a customer has had to timely tender payment to the company? In your answer, please consider also all relevant information in complaints filed against the company at the PSC.
- A-16. There have been no changes to the tariffs regarding bill payment due dates since the 2008 LG&E rate case. However, as a mutual resolution to customer complaints, LG&E developed the "FLEX" program, effective January 1, 2010, for eligible customers on a fixed or limited income where the customer's due date is extended from twelve days to twenty-eight days. Therefore, customers on the FLEX program have the most number of days to tender timely payment to the company, at twenty-eight days, plus three, before a late payment charge is assessed.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 17**

**Responding Witness: Cheryl E. Bruner**

Q-17. Please provide for the five past years, listed by month, the number of complaints which KU has received from its customers broken down by the nature of the complaints, such as late payment penalty, poor service, etc.

A-17. See attached for LG&E complaints.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 18**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-18. Reference the Thompson testimony at page 1. What is the witness' total compensation package?

A-18. See the response to PSC 1-46.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 19**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-19. What portion of that amount is the company requesting the ratepayers to bear in this application?

A-19. See the response to PSC 1-46. This shows there are three components of the witness's compensation: salary, other compensation and broad-based employee benefits. As indicated in PSC 1-46, none of the executive witness's Other Compensation is actually recovered through base rates; rather, only a portion of the witness's salary and broad-based employee benefits is so recovered. That notwithstanding, 20.5% of the witness's total compensation is equivalent to the amount of the witness's salary and broad-based employee benefits that LG&E recovers through base rates.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information**

**Dated July 31, 2012**

**Question No. 20**

**Responding Witness: Paul W. Thompson**

- Q-20. Reference the Thompson testimony, p. 9. Describe all efforts the company is making to get the TC2 unit to function within the performance standards for which it is designed.
- a. Describe whether any of the O & M costs sought to be recovered are or could be covered under warranty with the TC2 manufacturers and/or other contractors who designed and/or built the unit.
  - b. Provide a history of all unplanned outages at TC2 since the unit went on-line commercially. For each such outage, describe whether any costs associated therewith were or could be covered under insurance and/or warranties.
  - c. Reference the Thompson testimony at p. 13. Has the Black & Veatch software been used to analyze the heat rate issues at TC2? If so, please provide results. If not, why not?
- A-20. TC2 had a major planned outage from March 23, 2012 to June 1, 2012 to address known, remaining issues that were negatively impacting performance. It is the Company's belief that the areas of the unit addressed during the outage are operating closer to design levels.
- a. There are no O&M costs incurred by LG&E for which recovery is being sought under the warranty.
  - b. See attached. None of these outages resulted in costs that could be covered under insurance or warranties.
  - c. Yes, the Black and Veatch program has been used to monitor Heat Rate issues at Trimble County. Some examples of these issues are:
    - 1. Unit 2 Feedwater heater 1B shell temperature was found elevated. A main steam supply valve to the turbine gland steam was found open; this gland

steam drains to the heater shell, and was elevating the temperature and impacting heater performance. The immediate impact was 16 BTU/kwh, or \$16,000 per month in heat rate impact.

2. Ongoing monitoring of Unit 2 High Pressure condenser identified high backpressure and possible cleanliness issues. Going into the spring 2012 outage, the plant was notified and advised to perform an extensive condenser cleaning. After the outage, the Black and Veatch program continued investigating and assisted with pinpointing a large source of air in leakage to this condenser. Once that source was eliminated, the backpressure improved to normal levels. The heat rate impact of this find was quantified at 22 BTU/kwh, or \$22,340 per month.
3. The Black and Veatch program identified air heater pluggage and possible damage due to picking up increasing gas differential pressures across the heaters. The increase in differential pressure was noted before it reached alarm status, allowing the plant to plan corrective action in a timely manner. The quantified heat rate impact was 15 BTU/kwh, or \$15,200 per month.
4. The Black and Veatch program has identified potential issues with both feedwater and condensate heater flows. They are monitoring the drain valve positions to both the HP Feedwater and the LP Condensate heaters, and valve positions on the 8A and 8B HP heaters as well as the 2A, 2B, 1A, and 1B heaters indicated increased flow through the systems. These may be part of separate issues or single issues; the investigation is ongoing between the station and Black and Veatch. Possible impacts to heat rate could be excessive extraction flow to the heaters, causing the drain valves to open further; this would impact the turbine performance by eliminating steam from the cycle. Additionally, it could be indicative of a tube leak in one of the heaters, which would eliminate feedwater from the system prior to entering the turbine and lowering steam flow.

In general, the Black and Veatch program has been utilized to identify and address heat rate issues at Trimble County Unit 2 where possible. In the cases presented above, there were attempts made to address issues found. However, in many of the open items found by Black and Veatch, the heat rate impact is a result of ongoing issues with the boiler OEM and the EPC contractor. Impacts to the heat rate from boiler operation and efficiency; burner combustion, pulverizer operation and performance, and forced and induced draft fan performance are being addressed and tuned by Doosan and Bechtel. In these cases, the heat rate issues have been identified, but the actual work to address them is being pushed not by the plant, but by these other parties as part of their contractual obligations.

Attachment to Response to LGE AG-1 Question No. 20(b)

Page 1 of 1

Thompson

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 21**

**Responding Witness: Paul W. Thompson**

Q-21. Please describe in detail any financial ramifications to the company and its ratepayers if TC2 does not "operate effectively and efficiently going forward."

A-21. The Company fully expects TC2 to operate as designed over the long term. The issues that TC2 has experienced are typical of a large unit start-up, as noted more fully in response to PSC 2-37.

The Company fully expects TC2 to operate as designed over the long term. Should TC2 operate at less than the desired level, the impact from a ratepayer perspective would be in one of two ways. If TC2 were on an extended "planned" outage the ratepayers would pay the incremental fuel cost between TC2 and the next most efficient unit. Should TC2 be on a "forced" outage, the company would absorb the incremental cost difference through the forced outage penalty provision in the fuel adjustment clause.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 22**

**Responding Witness: Paul W. Thompson**

- Q-22. Reference the Thompson testimony at p. 9, lines 15 -19. Are the \$11 million in costs listed therein in excess of that which the company had previously anticipated? If so, explain in detail, and please provide a detailed explanation of the purpose of those costs.
- A-22. The costs were in line with expectations. See the attached file for the FERC Account breakdown.

TRIMBLE COUNTY UNIT 2 - OPEX Expenses for twelve months ending March 31, 2012

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 24**

**Responding Witness: Paul W. Thompson**

- Q-24. Reference the Thompson testimony at p. 13, wherein Mr. Thompson states that the Black & Veatch software will "optimize" maintenance costs. Will it also reduce maintenance costs? Please explain.
- A-24. B&V software leverages operation and condition status to optimize maintenance frequency and duration. Optimized maintenance may incrementally reduce cost relative to a frequency based maintenance program.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 25**

**Responding Witness: Paul W. Thompson**

Q-25. Please list the total cost(s) for the services of Black and Veatch, by year since the engagement of the firm's services for the above-referenced software.

A-25. The LG&E amount for 2010 was \$41,850. The LG&E amount for 2011 was \$299,076.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 26**

**Responding Witness: Paul W. Thompson**

- Q-26. Reference the Thompson testimony at p. 14-16, wherein Mr. Thompson references decreasing abilities to make off-system sales, and structural changes to the Companies' base load generation fleet. Describe the structural changes in detail.
- A-26. As noted in the testimony, the primary structural changes are the expiration of Electric Energy, Inc. and Owensboro Municipal Utilities contracts for power that served KU and LG&E native load. In combination with the lower natural gas prices, the ability to generate significant revenues through the wholesale power market was greatly reduced from the levels realized in 2005-2008.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 27**

**Responding Witness: Paul W. Thompson**

Q-27. State why the agreements with OMU and Electric Energy, Inc. were terminated, and whether the companies believe any agreements could be reached with these entities in the future.

A-27. The OMU and EEInc. Contracts were KU-only contracts. The OMU contract was terminated by OMU, not by KU after several years of litigation by KU.

With regard to EEI, in 2005, the EEI Board proposed to modify its contract with KU from cost-based rates to market-based rates, over the objection of KU as a minority shareholder.. Based upon these changes, KU determined that it was no longer a least cost option for KU customers and the then-existing contract expired at the end of 2005.

As for the future, as with any power purchase agreement, EEI and/or OMU would have to be a least cost resource before the Companies would agree to enter into a new contract. In addition, The Companies would want to be certain that any necessary environmental investments have been made for the life of any contract. While EEI submitted a bid in response to the Companies' last RFP for capacity, it was only for a limited amount of capacity from 2013 to 2016. This bid was not determined to be a least cost resource at that time. OMU did not respond to the Companies' most recent RFP.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 28**

**Responding Witness: Paul W. Thompson**

- Q-28. Do the companies believe that in light of expensive-to-comply-with EPA air regulations, the price for off system sales will remain low? If so, provide complete justification and any and all bases for such a belief.
- A-28. As noted in the testimony, the Company believes that the increased domestic production of natural gas, which is driving down both natural gas and wholesale electricity prices, in concert with the Company's structural changes in base load due to the loss of the Electric Energy, Inc. and Owensboro Municipal Utilities contracts, is greatly limiting the ability to sell power off-system at prices consistently above variable cost. The Company constantly evaluates the off-system market and opportunities however, and should gas prices move up and power is available after serving native load, the Company will make such sales if they can be profitable.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 29**

**Responding Witness: Paul W. Thompson**

- Q-29. Reference the Thompson testimony at p. 19, and 20-21 wherein Mr. Thompson references an estimate of \$62 million to complete upgrades to the Companies' transmission facilities in order to comply with new NERC guidelines. If the Companies were a member of an RTO, would any portion of this cost be a subject to partial funding from other RTO members?
- A-29. No. In the Companies assessment of the NERC Alert requirements, the projects identified in the assessment are all local projects and thus would not be allocated any differently whether an RTO member or not.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 30**

**Responding Witness: Paul W. Thompson**

- Q-30. Please provide a breakdown of how costs for EMS and CASCADE have been allocated between KU and LG&E.
- A-30. The capital costs incurred between the two test year periods were allocated 65% to KU and 35% to LG&E for CASCADE, and 68% to KU and 32% to LG&E for EMS.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 31**

**Responding Witness: Paul W. Thompson**

Q-31. Reference the Thompson testimony at p. 20. Please provide a breakdown of how costs for the new employees of Energy Services have been allocated between KU and LG&E.

A-31. The costs by function by Company are as follows:

	<u>LG&amp;E</u>	<u>KU</u>
Generation	\$255,091	\$542,199
Transmission	<u>\$551,103</u>	<u>\$1,023,478</u>
Total Energy Services	\$806,194	\$1,565,677

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 32**

**Responding Witness: Paul W. Thompson**

Q-32. Reference the Thompson testimony at p. 21. Provide the company's funding to the Electric Power Research Institute for the past five years. Describe how much of these sums are paid by the company's ratepayers.

A-32. Funding to EPRI from LG&E between 2007 and 2011 is as follows:

2007	\$606k
2008	\$1,065k
2009	\$1,020k
2010	\$1,312k
2011	\$1,270k

The ratepayers pay 100% of the sums.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 33**

**Responding Witness: Paul W. Thompson**

- Q-33. Reference the Thompson testimony at p. 22. Please state whether the funding to the WKCFS is a reoccurring cost going forward.
- A-33. Though the actual cash funding has been completed, the payments to the Western Kentucky Carbon Storage Foundation were set up as regulatory assets and approved for amortization and rate recovery in LG&E Case Number No. 2009-00549 and KU Case Number No. 2009-00548 under the name Kentucky Consortium for Carbon Storage (KCCS). The amortization of the regulatory asset runs through July, 2014.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 34**

**Responding Witness: Paul W. Thompson**

- Q-34. Reference the Thompson testimony at p. 22 and 23. Please state whether the financial commitments to the DOE as noted on these pages will continue after the termination dates listed therein.
- A-34. The Company continually evaluates R&D projects and makes funding decisions based on the projects that offer the most promise and potential benefits to the Company and its customers. The projects referenced above will be evaluated as part of that overall scope. No commitment beyond what was referenced in Mr. Thompson's testimony has been made on those specific projects.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 35**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-35. Reference the Hermann testimony at page 1. What is the witness' total compensation package?

A-35. See the response to PSC 1-46.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 36**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-36. What portion of that amount is the company requesting the ratepayers to bear in this application?

A-36. See the response to PSC 1-46. This shows there are three components of the witness's compensation: salary, other compensation and broad-based employee benefits. As indicated in PSC 1-46, none of the executive witness's Other Compensation is actually recovered through base rates; rather, only a portion of the witness's salary and broad-based employee benefits is so recovered. That notwithstanding, 24.7% of the witness's total compensation is equivalent to the amount of the witness's salary and broad-based employee benefits that LG&E recovers through base rates.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 37**

**Responding Witness: Paul Gregory "Greg" Thomas**

- Q-37. Reference the Hermann testimony in general. Provide a detailed financial accounting of any additional enhanced ROW or other work performed on LG&E's transmission system for the past five (5) preceding the test year.
- A-37. The hazard tree program is the only initiative that would fall under this category. It is a distribution program only and does not apply to transmission.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 38**

**Responding Witness: Paul Gregory "Greg" Thomas**

Q-38. Provide a detailed financial projection of costs for the five (5) year period following the conclusion of the test year.

A-38. See the response to Question No. 37.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 39**

**Responding Witness: Paul Gregory "Greg" Thomas**

Q-39. Reference the Hermann testimony in general. Provide a detailed financial accounting of any additional enhanced ROW or other work performed on LG&E's distribution system for the past five (5) preceding the test year.

A-39. The Enhanced Hazard Tree removal program began in September 2010. For the past five (5) years preceding the test year, LG&E has spent the following additional dollars to remove hazard trees as part of this program:

2010	\$ 385,000.
------	-------------

2011-Prior to test period	\$ 220,000.
---------------------------	-------------

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 40**

**Responding Witness: Paul Gregory "Greg" Thomas / Counsel**

- Q-40. Provide a detailed financial projection of costs for the five (5) year period following the conclusion of the test year.
- A-40. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, the actual spent from April 1, 2012 through July 1, 2012 was \$484 K.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 41**

**Responding Witness: Chris Hermann**

Q-41. Reference the Hermann testimony at page 11. Provide a detailed listing of the costs stated at page 11 at lines 5-11.

A-41. The August 2011 storm restoration costs referenced in the Hermann testimony on page 11 are as follows:

Capital:

<u>Expense Category</u>	<u>Amount</u>
Labor	\$ 224,543.27
Materials	\$ 234,543.33
Miscellaneous	\$ 3,482.08
Outside Services	\$ 995,254.92
Transportation	<u>\$ 38,003.02</u>
Total	\$1,495,826.62

Operations and Maintenance Expenses:

<u>Expense Category</u>	<u>Amount</u>
Labor	\$1,104,847.51
Materials	\$ 511,559.09
Miscellaneous	\$ 398,151.37
Outside Services	\$6,310,133.61
Transportation	<u>\$ 106,084.07</u>
Total	\$8,430,775.65

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 43**

**Responding Witness: Chris Hermann / Counsel**

- Q-43. Reference the Hermann testimony at page at page 13. Provide a detailed financial accounting of costs for the prior years as well as those expected for the five years following the end of the test period for infrastructure improvement of the gas system by specific project.
- A-43. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, see the response to Question No. 42 for the costs for the prior years.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 47**

**Responding Witness: Chris Hermann**

Q-47. Reference the Hermann testimony at pages 13-14. Provide a detailed financial listing of the costs stated for the leak mitigation programs by each specific project.

A-47. See the response to Question No. 46.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information**

**Dated July 31, 2012**

**Question No. 48**

**Responding Witness: Paul Gregory "Greg" Thomas**

Q-48. Reference the Hermann testimony at page 14. Is the gas service and service line currently owned by individuals a safety issue? If so, why has it taken the company so long to take control over that equipment?

A-48. Gas service lines are not considered a safety issue. However, gas service risers (a transition fitting that protects plastic service pipe as it transitions from below grade to above ground and from plastic to steel just upstream of the customer meter loop) not incorporating an anti-pullout design present a risk of failure that should be addressed. This conclusion is based on LG&E's follow up actions subsequent to receiving the Department of Transportation Pipeline and Hazardous Materials Administration March 2008 advisory bulletin.

- LG&E worked with industry partners, reviewed industry standards, and, in May 2008, revised associated material standards to require customers to use category 1 type service riser compression fittings that incorporate an anti-pull-out design for gas service risers used with polyethylene gas pipe sizes ½" CTS to 2" IPS.
- LG&E continued to confirm routinely that leak survey procedures satisfy Federal regulations, and leak survey technicians meet or exceed Operator Qualification standards.
- LG&E revised its leak reporting standards to require more detailed information on the source and mode of leaks on customer owned facilities to enable identification of failure trends associated with customer owned piping components.
- Between 2009 and 2011 LG&E implemented numerous electronic enhanced record keeping practices associated with customer owned service risers and lines, to enable tracking of installation dates, manufacturer, and installer.
- Starting in February 2009, LG&E started replacing failed customer service risers to facilitate collection of failed components and enable more thorough assessment and trending of the mode, cause, and result of leaks.
- Since 2008, LG&E has replaced all target customer service risers encountered as part of its Large Scale Main Replacement program.

- LG&E continued to work with industry partners on associated industry issues, reviewed associated policies and programs of utilities in the region, and in March 2010 visited Duke Energy to gain detailed information on their gas service riser and line replacement programs.
- During early January 2011, LG&E conducted an incremental sample leak survey of gas service risers. A combustible gas indicator was used to determine if a natural gas leak was present or not. Services were selected from different areas of the gas system to get a representative sample. No leaks were found.
- Between February and April 2011, LG&E conducted a field survey of customer service, reviewed associated records, and identified 213,000 plastic gas services with target risers.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 49**

**Responding Witness: Lonnie E. Bellar**

Q-49. How many LDCs currently own the riser and service lines in a scenario similar to that of LG&E? Stated another way, are the other PSC LDCs undergoing similar projects? If not, why not?

A-49. Please see the Testimony of Lonnie Bellar at pages 17-19. Please note in particular that the Commission has approved similar programs and rate recovery mechanisms for Atmos Energy Corporation, Columbia Gas of Kentucky, Inc., and Delta Natural Gas Company, Inc. Atmos's tariff provides for Atmos's ownership of customers' gas risers and service lines in a manner similar to what LG&E proposes,<sup>1</sup> as does Delta's tariff.<sup>2</sup> Columbia's tariff explicitly provides for its ownership of customers' service lines in a manner similar to what LG&E proposes.<sup>3</sup>

As part of Duke Energy's 2007 rate case, the Public Utility Commission of Ohio approved Duke's program to proactively replace targeted gas service risers by the end of 2012, and report all future gas service riser failures to the Public Utility Commission of Ohio. Duke subsequently implemented the riser replacement program in Kentucky. LG&E is not aware of any other utility that has implemented a proactive program to replace service risers.

---

<sup>1</sup> Atmos Energy Corporation, PSC No. 1, First Revised Sheet Nos. 85 and 88.

<sup>2</sup> Delta Natural Gas Company, Inc., PSC No. 12, Original Sheet Nos. 26-27.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 50**

**Responding Witness: Lonnie E. Bellar**

- Q-50. Will the costs for the replacement of the risers and service lines be reduced once the replacement is recovered by the company? If not, when will that occur? If not. Please, please state whether the costs for the initial replacement of the equipment is greater than the upkeep of same.
- A-50. The proposed Gas Line Tracker follows traditional ratemaking principles. As major investment in the program is completed, and to the extent that O&M expenses included in the tracker remain steady or decrease, customers may see a reduction in the level of costs recovered through the tracker due to declining rate base.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 51**

**Responding Witness: Lonnie E. Bellar**

- Q-51. Why should the replacement of the riders and service lines be treated as a rider when the installation and maintenance of same is part of the company's general operating expenses and built into rate base?
- A-51. The premise of the request is incorrect. Please see Hermann Exhibit 1, Appendix Page 9, to see division of service responsibilities for LG&E and Customers.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 52**

**Responding Witness: Lonnie E. Bellar**

- Q-52. Are the costs for the current maintenance of the company owned risers and service lines part of the company's general rates? If not, please explain in detail.
- A-52. Costs associated with customer service lines and risers replaced as part of the LG&E's main replacement programs are included in the base rates.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 53**

**Responding Witness: Lonnie E. Bellar**

Q-53. Are the costs associated with the company's leak mitigation program for those risers and service lines currently in general rates? If not, please explain in detail.

A-53. See the response to Question No. 52.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 54**

**Responding Witness: Lonnie E. Bellar**

- Q-54. How does the company justify charging those customers who have recently replaced both their service lines and riser, at their own expense? If the company is willing to exempt those customers who have replaced those items (at their own cost) retroactive to a certain date, how far back in time is it willing to go?
- A-54. Under LG&E's proposal, eventually LG&E will install or replace, and therefore will own and maintain, all customers' gas risers and service lines. LG&E is assuming the obligation to perform all future repairs to service lines and risers regardless of when replacement occurred. It would therefore be unreasonable, as well as administratively infeasible, to exempt or reduce certain customers' charges based on when they most recently replaced or repaired their gas risers or service lines.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information**

**Dated July 31, 2012**

**Question No. 55**

**Responding Witness: Cheryl E. Bruner / Counsel**

Q-55. Please reference the Hermann testimony at pp. 19-26 regarding customer service and satisfaction. Please list separately each program's implementation or enhancement date, along with the specific current costs as well as the projected costs on a going forward basis.

A-55. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, the table below outlines each program's implementation/enhancement date and current and projected costs.

Program Implementation	Implementation / Enhancement Date	Current Costs	Projected Going Forward	Comments, If Applicable
Four Business Offices were Renovated; 12 More Business Offices Scheduled to be Renovated	February 2011 - March 2012	\$ 453,000	\$ 1,320,000	N/A
Morganfield Construction Costs	October 2011	\$ 5,390,000	\$0	A
Morganfield Facility Annual Operating Costs	October 2011	\$ 400,000	\$ 400,000	B
Additional Staffing of Customer Service Agents	June 2011 - February 20, 2012	\$ 3,360,000	\$ 3,360,000	C
"My Account" - Web Self-Service	April 2009	\$ 1,068,000	\$ 300,000	D
Low Income Assistance Portal	October 2009	\$ 319,000	\$ 250,000	E
Landlord Portal	October 2009	Part of "My Account"	Part of "My Account"	N/A
New Interactive Voice Response System	November 2010 - August 2012	\$ 1,250,000	\$ 200,000	N/A
10 Member Email Team	December 2010	\$ 497,000	\$ 497,000	N/A
Hiring of 10 Full Time Billing Employees	October 2011 - April 2012	\$ 800,000	\$ 800,000	N/A

**Comments**

- A June 29, 2012 testimony from C. Hermann stated approximately \$5.3 million – incremental increase is from late arriving invoices in the final total
- B June 29, 2012 testimony from C. Hermann stated approximately \$245,000 for Morganfield facility costs; actual operating costs increased to \$400,000 including incremental headcount for telecom and communication costs
- C June 29, 2012 testimony from C. Hermann stated approximately \$3,500,000 which is reduced by hiring part-time customer service representatives in the latter portion of 2012 to better manage peak call volume.
- D Company does not track O&M cost separately for “My Account” versus other SAP applications. 2009 capital spend was part of the overall CCS project. Current costs include capital costs spent between January 2010 through June 2012.
- E Company does not track O&M costs separately for “Low Income Assistance Portal” versus other SAP applications. 2009 capital spend was part of the overall CCS project. Current costs include capital spend between January 2010 and June 2012.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 56**

**Responding Witness: Chris Hermann**

Q-56. Reference the Hermann testimony at pp. 26-27. Are these DSM costs not currently recovered in the company's DSM program? If not, why not?

A-56. Yes, the DSM / EE programs in the Commission approved Case No. 2011-00134 are currently being recovered through DSM Cost Recovery mechanism.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General’s Initial Requests for Information  
Dated July 31, 2012**

**Question No. 57**

**Responding Witness: Chris Hermann**

Q-57. Reference the Hermann testimony at p. 27. Provide the data that demonstrates the company’s projected contention that approximately 1% of the annual and forecasted residential and commercial customer consumption will decrease because of DSM programs.

A-57. The Companies DSM-EE portfolio is projected to reduce incremental annual sales to residential and commercial customers by an average of 1% through 2018. The analysis utilizes the forecast referenced David Sinclair’s testimony as part of Case No. 2011-00375<sup>4</sup> as well as the projected energy efficiency reductions from the Companies DSM-EE portfolio in Case No. 2011-00134<sup>5</sup> shifted one year due to the delayed filing. The 1% projected energy reductions are demonstrated in the table below.

DSM Energy Reductions (GWh)	2012	2013	2014	2015	2016	2017	2018	Total
Residential DSM Energy Reduction	142	138	145	193	139	139	139	1,036
Commercial DSM Energy Reduction	40	59	60	60	58	58	58	394
Total Energy Reduction	182	197	205	253	198	198	198	1,430

Energy Sales Forecast (GWh)	2012	2013	2014	2015	2016	2017	2018	Total
Residential Energy Sales Forecast	11,026	11,079	11,117	11,214	11,327	11,457	11,635	78,856
Commercial Energy Sales Forecast	8,573	8,750	8,902	9,109	9,349	9,520	9,691	63,894
Total Energy Sales Forecast	19,599	19,830	20,019	20,323	20,677	20,977	21,327	142,749

DSM Energy Reductions (%)	2012	2013	2014	2015	2016	2017	2018	Total
Residential Reduction	1.29%	1.24%	1.30%	1.72%	1.23%	1.22%	1.20%	1.31%
Commercial Reduction	0.47%	0.68%	0.68%	0.66%	0.62%	0.61%	0.60%	0.62%
Total Res/Com % Reduction	0.93%	0.99%	1.03%	1.24%	0.96%	0.94%	0.93%	1.00%

---

<sup>4</sup> Joint Application of Louisville Gas and Electric Company and Kentucky Utilities Company for a Certificate of Public Convenience and Necessity and Site Compatibility Certificate for the Construction of a Combined Cycle Combustion Turbine at the Can Run Generating Station and the Purchase of Existing Simple Cycle Combustion Turbine Facilities from Blue Grass Generating Company, LLC in LaGrange, Kentucky. Case No. 2011-00375

<sup>5</sup> Joint Application of Louisville Gas and Electric Company and Kentucky Utilities Company for Review, Modification, and Continuation of Existing, and Addition of New, Demand-Side Management and Energy-Efficiency Programs. Case No. 20011-00314

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 58**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-58. Reference the Blake testimony at page 1. What is the witness' total compensation package?

A-58. See the response to PSC 1-46.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 59**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-59. What portion of that amount is the company requesting the ratepayers to bear in this application?

A-59. See the response to PSC 1-46. This shows there are three components of the witness's compensation: salary, other compensation and broad-based employee benefits. As indicated in PSC 1-46, none of the executive witness's Other Compensation is actually recovered through base rates; rather, only a portion of the witness's salary and broad-based employee benefits is so recovered. That notwithstanding, 22.1% of the witness's total compensation is equivalent to the amount of the witness's salary and broad-based employee benefits that LG&E recovers through base rates.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 60**

**Responding Witness: Daniel K. Arbough**

- Q-60. Reference the Blake testimony, p. 1. Did the witness use a credit rating for debt analysis similar to that which the company used in the last general rate case when LG&E was still owned by E.ON U.S.? If not, why not?
- A-60. LG&E assumes the request for information is directed to Mr. Arbough and not Mr. Blake. Please read the testimony of Mr. Arbough at pages 2–4 for a detailed description of the use of credit ratings in the capital structure analysis. A similar analysis was presented in the testimony of Mr. Arbough in the 2009 rate case.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 61**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-61. Reference the Scott testimony at page 1. What is the witness' total compensation package?

A-61. See the response to PSC 1-46.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 62**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-62. What portion of that amount is the company requesting the ratepayers to bear in this application?

A-62. See the response to PSC 1-46. This shows there are three components of the witness's compensation: salary, other compensation and broad-based employee benefits. As indicated in PSC 1-46, none of the executive witness's Other Compensation is actually recovered through base rates; rather, only a portion of the witness's salary and broad-based employee benefits is so recovered. That notwithstanding, 22.8% of the witness's total compensation is equivalent to the amount of the witness's salary and broad-based employee benefits that LG&E recovers through base rates.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 63**

**Responding Witness: Paula H. Pottinger, Ph.D.**

- Q-63. Reference the Scott testimony, p. 5. Confirm that the company has not increased its contribution of 401(k) payments to the employee plans.
- A-63. The Company has not increased its matching contribution percentage of participants' 401(k) contributions. The dollar amount of matching contributions increased due to the increased labor costs.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 64**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-64. Provide the amounts the company has contributed to the employees' 401(k) plan for the five years preceding the test year by calendar year.

A-64. The amounts the Company has contributed to the employees' savings plan for the five years preceding the test year are noted below. The Company match is based upon employee contributions. The Retirement Income Account is contribution for employees hired on or after 1/1/2006, who do not participate in the Company's defined benefit pension plan.

	2011	2010	2009	2008	2007
Company Match	\$ 2,924,666	\$ 3,041,648	\$ 2,747,371	\$ 2,624,273	\$2,085,559
Retirement Income Account	\$ 447,423	\$ 380,197	\$ 277,807	\$ 184,785	\$ 77,440
Total	\$ 3,372,089	\$ 3,421,845	\$ 3,025,179	\$ 2,809,057	\$2,162,999

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 65**

**Responding Witness: Paula H. Pottinger, Ph.D.**

- Q-65. Reference the Charnas testimony at page 1. What is the witness' total compensation package?
- A-65. The information requested is confidential and private, and is being provided under seal pursuant to a petition for confidential treatment.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 66**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-66. What portion of that amount is the company requesting the ratepayers to bear in this application?

A-66. 43.5% of the total compensation provided in response to Question No. 65 is included in the cost of providing service for the LG&E operations in this case.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 67**

**Responding Witness: Shannon L. Charnas**

Q-67. Reference the Charnas testimony, p. 3. Provide a copy of the Ventyx report.

A-67. See attached. The Ventyx report is subject to a confidentiality agreement with the vendor and is being provided under seal pursuant to a petition for confidential treatment. The Company will supplement this response with a public version of the document once the vendor has redacted its proprietary information and given the Company permission to file the report publicly. The Company expects to do so by Wednesday, August 14, 2012.

The entire attachment is  
Confidential and  
provided separately  
under seal.

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 68**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-68. Reference the Arbough testimony at page 1. What is the witness' total compensation package?

A-68. See the response to PSC 1-46.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 69**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-69. What portion of that amount is the company requesting the ratepayers to bear in this application?

A-69. See the response to PSC 1-46. This shows there are three components of the witness's compensation: salary, other compensation and broad-based employee benefits. As indicated in PSC 1-46, none of the executive witness's Other Compensation is actually recovered through base rates; rather, only a portion of the witness's salary and broad-based employee benefits is so recovered. That notwithstanding, 23.5% of the witness's total compensation is equivalent to the amount of the witness's salary and broad-based employee benefits that LG&E recovers through base rates.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 70**

**Responding Witness: Daniel K. Arbough**

Q-70. Reference the Arbough testimony in general. Is LG&E's credit rating the same as it was prior to its acquisition by PPL? If not, in what way(s) has it changed?

A-70. Prior to the PPL acquisition, LG&E had an Issuer Rating of A2 from Moody's and a Corporate Credit Rating of BBB+ from S&P.

On October 25, 2010, Moody's downgraded the Issuer Rating of LG&E to Baa1 from A2 as a result of the pending acquisition of LG&E by PPL. Separately, Moody's confirmed LG&E's outstanding tax-exempt debt at A2. The rating confirmation considered that the formerly unsecured debt had been secured with first mortgage bonds provided to the trustee. Following the Moody's action the ratings of Moody's and S&P were effectively equivalent.

On October 25, 2010, Fitch assigned an Issuer Default Rating of A- and secured debt rating of A+ for LG&E. Previously, Fitch did not issue ratings for LG&E.

On November 8, 2010, S&P assigned an A Senior Secured Rating to LG&E's first mortgage bond offerings, which is the rating on which the publicly issued bonds are priced.

On November, 9, 2010, Moody's assigned an A2 rating to LG&E's first mortgage bond offerings.

On March 2, 2011, S&P downgraded the Corporate Credit Rating for LG&E to BBB from BBB+ and the Senior Secured Rating to A- from A. The rating actions followed PPL's planned acquisition of E.ON UK's Central Networks West PLC and Central Networks East PLC (two distribution networks in the United Kingdom).

As of June 30, 2012, LG&E had an Issuer Rating of Baa1 from Moody's, a Corporate Credit Rating of BBB by S&P, and an Issuer Default Rating of A- by Fitch. The secured debt rating for Moody's, S&P, and Fitch was A2, A-, and A+, respectively. These are strong investment grade ratings that allow the Company to effectively access capital markets.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 71**

**Responding Witness: Daniel K. Arbough**

Q-71. Reference the Arbough testimony at p. 8. Provide copies of any and all materials pertaining to Mercer's calculations.

A-71. See the response to PSC 1-54(c) for the actuarial report for the 2012 post retirement expense and KIUC 1-1 for the actuarial report for the 2012 pension expense and the 2012 post employment expense.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 72**

**Responding Witness: Daniel K. Arbough**

- Q-72. Reference the Arbough testimony, exhibit 3 (S & P's 2008 Corporate Criteria Report), p. 29. Confirm the following statement set forth therein: "PPAs do benefit utilities by shifting various risks to the suppliers, such as construction risk and most of the operating risk."
- a. Why was a four (4)-year old report submitted as an exhibit? Is there a more current version? If so, please provide an actual copy.
  - b. Reference exhibit 4. Why did the company submit a report which is five (5) years old? Is there a more current version? If so, please provide an actual copy.
- A-72. Page 29 of exhibit 3 does contain the following statement from S & P: "PPAs do benefit utilities by shifting various risks to the suppliers, such as construction risk and most of the operating risk." This is S & P's opinion on this issue.
- a. Page 2 of exhibit 3 contains an Editor's Note that this criteria article has been partially amended by an article published December 28, 2011. The Editor's Note also indicates that the criteria article has been superseded by other articles published subsequent to the April 15, 2008 report. However, none of these subsequent articles provide updates to the information in the April 15, 2008 article regarding adjustments for operating leases, postretirement employee benefits or power purchase agreements, which are the specific type of adjustments S & P makes to LG&E's debt. Therefore the April 15, 2008 article is current for these types of adjustments.
  - b. Page 2 of exhibit 4 contains an Editor's Note which states the article was republished following a periodic review completed by S & P on April 26, 2011. This article is therefore current.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 73**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-73. Reference the Bellar testimony at page 1. What is the witness' total compensation package?

A-73. See the response to PSC 1-46.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 74**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-74. What portion of that amount is the company requesting the ratepayers to bear in this application?

A-74. See the response to PSC 1-46. This shows there are three components of the witness's compensation: salary, other compensation and broad-based employee benefits. As indicated in PSC 1-46, none of the executive witness's Other Compensation is actually recovered through base rates; rather, only a portion of the witness's salary and broad-based employee benefits is so recovered. That notwithstanding, 25.2% of the witness's total compensation is equivalent to the amount of the witness's salary and broad-based employee benefits that LG&E recovers through base rates.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 75**

**Responding Witness: Lonnie E. Bellar**

- Q-75. Reference the Bellar testimony at page 7. Please explain in detail what is meant when the witness refers to "bring economic hardship to some residential customers."
- A-75. The phrase was meant to express a concern that if all class rates of return were brought to the system average return, the residential class would see an increase significantly higher than currently proposed, thus economically impacting customers to a greater extent than the existing proposal.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 76**

**Responding Witness: Lonnie E. Bellar**

Q-76. Were there any studies, analyses or reports reviewed or performed in order to make this determination? If so, please provide copies of same. If not, on what basis was the decision made?

A-76. No.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 77**

**Responding Witness: Lonnie E. Bellar**

- Q-77. Reference the Bellar testimony at pages 9 - 10. Please provide an itemization of the total electric rate case expense of \$890,000 and the total gas rate case expense of \$500,000. Break down the costs for the current case, as they are currently known, as well as any expenses from the prior cases which the company proposes to amortize.
- A-77. The values quoted in the request for information are estimates that are adjusted for actual known and measurable expenses incurred as the cases progress through the monthly update filings. See the response to PSC 1-57(b) for an itemization of the estimated rate case expense. See the monthly updates filed on July 31, 2012 for PSC 1-57(c) for actual rate case expense through June 30, 2012.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 78**

**Responding Witness: Lonnie E. Bellar**

Q-78. Reference the Bellar testimony at page 10. Provide updated numbers for the off-system sales margins to the date of the filing of the response to these data requests.

A-78. See the response to PSC 2-81 and KIUC 1-38(a).

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 79**

**Responding Witness: Lonnie E. Bellar**

- Q-79. Reference the Bellar testimony at pages 11 -13. State what other PSC jurisdictional natural gas companies are undergoing a gas line replacement program.
- A-79. Union Light Heat and Power has recently completed its gas line replacement program. Atmos Energy, Columbia Gas of Kentucky, and Delta Natural Gas all have a gas line replacement program and a related cost recovery mechanism in place.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 80**

**Responding Witness: Chris Hermann / Lonnie E. Bellar**

- Q-80. What does the witness mean when he states that the replacement is for public safety?
- a. If there is a safety issue, what kind is it?
  - b. When was it discovered?
  - c. Will the company need to obtain easements on the property in which the lines are placed?
  - d. If so, how many?
  - e. If so, what are the total estimated costs associated with securing the easements?
- A-80.
- a. See Chris Hermann's Direct Testimony for a discussion of the safety issues involved in the Gas Line Program and the Leak Mitigation Program.
  - b. See the response to part a.
  - c. The Company is replacing already existing plant and equipment; therefore easements are already in place, obtained when the plant was originally installed.
  - d. Not applicable.
  - e. Not applicable.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 81**

**Responding Witness: Lonnie E. Bellar**

Q-81. Reference the Bellar testimony at pages 17 – 18 and the cases referenced therein.

A-81. No response is required.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 82**

**Responding Witness: Lonnie E. Bellar**

- Q-82. By specific company and case number, state what portion of each company's residential class versus the total class was ultimately affected by each company's proposal.
- A-82. LG&E was not a party to any of the listed cases and has not performed the requested analysis.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 83**

**Responding Witness: Lonnie E. Bellar**

- Q-83. By specific company and case number, please list the amount of the surcharge appearing on the average residential customers' bills.
- A-83. LG&E was not a party to any of the listed cases and has not performed the requested analysis.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General’s Initial Requests for Information  
Dated July 31, 2012**

**Question No. 84**

**Responding Witness: Lonnie E. Bellar**

Q-84. Reference the Bellar testimony at page 24. Provide a detailed explanation and calculation for the company’s assertion that the “Companies’ DSM–EE programs produced cumulative energy savings of over 900,000 MWh, gas savings of over 15 Ccf, and a cumulative demand reduction of 226 MW” through the end of the test year. (37)

A-84. The Companies calculations for the DSM–EE programs cumulative energy and demand savings were generated and reported by adding the annual savings from 2001 through March 31, 2012. The table below demonstrates the annual savings for both Louisville Gas and Electric Company and Kentucky Utilities.

Demand Savings in MW				Energy Savings in MWh				Gas Savings in CCF			
Year	LG&E	KU	Total	Year	LG&E	KU	Total	Year	LG&E	KU	Total
2001	3	0	3	2001	7,163	9	7,173	2001	(53,145)	-	(53,145)
2002	12	1	13	2002	9,432	406	9,838	2002	(85,554)	-	(85,554)
2003	24	13	37	2003	12,330	2,447	14,777	2003	121,451	-	121,451
2004	37	24	61	2004	15,087	5,222	20,309	2004	270,511	-	270,511
2005	53	40	92	2005	19,581	7,381	26,962	2005	508,395	-	508,395
2006	64	51	114	2006	23,111	9,908	33,019	2006	730,085	-	730,085
2007	70	56	125	2007	25,609	12,164	37,773	2007	1,471,208	-	1,471,208
2008	74	60	134	2008	29,605	15,475	45,080	2008	2,261,695	-	2,261,695
2009	86	67	153	2009	68,442	19,986	88,428	2009	3,027,128	-	3,027,128
2010	105	76	181	2010	141,642	63,297	204,939	2010	3,312,541	-	3,312,541
2011	132	88	221	2011	234,694	126,148	360,842	2011	3,562,109	-	3,562,109
2012 (thru 3/31)	136	90	226	2012 (thru 3/31)	244,965	130,255	375,219	2012 (thru 3/31)	3,590,701	-	3,590,701
<b>Total</b>	<b>136</b>	<b>90</b>	<b>226</b>	<b>Total</b>	<b>831,660</b>	<b>392,700</b>	<b>1,224,359</b>	<b>Total</b>	<b>18,717,124</b>	<b>-</b>	<b>18,717,124</b>

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 85**

**Responding Witness: Lonnie E. Bellar**

- Q-85. If necessary, reconcile the amounts listed on page 24 to pages 27 and 28; to wit, "through the end of the test year, LG&E's DSM-EE programs achieved a total demand reduction of 136 MW, and in the test year alone produced energy savings of over 200,000 MWh" and "LG&E's overall DSM-EE efforts have produced gas savings of over 3 million Ccf in the test year alone."
- A-85. The demand reduction of 136 MW and energy savings of 200,000 MWh reported reflects the cumulative savings for LG&E's DSM-EE programs from 2001 through March 31, 2012. The table below demonstrates the reported savings.

<b>Demand Savings in MW</b>		<b>Energy Savings in MWh</b>	
<b>Year</b>	<b>LG&amp;E</b>	<b>Year</b>	<b>LG&amp;E</b>
<b>2001</b>	3	<b>2001</b>	7,163
<b>2002</b>	12	<b>2002</b>	9,432
<b>2003</b>	24	<b>2003</b>	12,330
<b>2004</b>	37	<b>2004</b>	15,087
<b>2005</b>	53	<b>2005</b>	19,581
<b>2006</b>	64	<b>2006</b>	23,111
<b>2007</b>	70	<b>2007</b>	25,609

<b>2010</b>	105	<b>2010</b>	141,642
<b>2011</b>	132	<b>2011</b>	234,694
<b>2012 (thru 3/31)</b>	136	<b>2012 (thru 3/31)</b>	244,965
<b>Total</b>	<b>136</b>	<b>Total</b>	<b>831,660</b>

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 86**

**Responding Witness: Lonnie E. Bellar**

Q-86. Reference the Bellar testimony at p. 14. Provide the amount of Green Energy credits stated in energy bought on a kWh basis for each of the past five calendar years.

A-86. The table below provides the amount of Green Energy credits purchased for each of the past five calendar years for Louisville Gas and Electric Company as well as Kentucky Utilities Company. In 2010 the Company made the decision to handle purchase of energy credits internally. This decision has allowed the Company to purchase additional credits increasing the value for customers participating in the program.

**Renewable Energy Credits Purchased in kWh**

	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>Total</u>
<b>LG&amp;E</b>	259,000	4,790,000	8,149,000	18,629,000	40,153,000	71,980,000
<b>KU</b>	105,000	1,859,000	5,943,000	15,550,000	25,369,000	48,826,000
<b>Total</b>	<b>364,000</b>	<b>6,649,000</b>	<b>14,092,000</b>	<b>34,179,000</b>	<b>65,522,000</b>	<b>120,806,000</b>

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 87**

**Responding Witness: Robert M. Conroy**

Q-87. Reference the Bellar testimony at p. 14. Provide the number of customers who participate in the Low- Emission Vehicle rate tariff for each of the past five calendar years. For each year, state the amount of energy purchased.

A-87. The first customer began taking service under Rate LEV in July 2011. See the table below for the requested information by month since that time.

Revenue Period	# Contracts	KWH P1	KWH P2	KWH P3	Total KWH
JUL 2011	1	792	681	2,143	3,616
AUG 2011	1	880	716	2,227	3,823
SEP 2011	1	638	580	1,853	3,071
OCT 2011	1	228	464	906	1,598
NOV 2011	1	189	367	598	1,154
DEC 2011	1	191	377	709	1,277
JAN 2012	2	7,116	809	-5,122	2,803
FEB 2012	3	1,835	945	556	3,336
MAR 2012	3	1,858	899	517	3,274
APR 2012	3	925	394	2,256	3,575
MAY 2012	3	3,116	1,335	-1,318	3,133

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 88**

**Responding Witness: Robert M. Conroy**

Q-88. For a customer who takes service under this tariff, provide the cost which the customer would have to pay for a like amount of energy purchased during times other than during "reduced off-peak" hours.

A-88. See the table below.

	Off Peak	Intermediate Hours	Peak Hours	Total Average Usage
Average Usage by Period	992	385	301	1,677
Average Usage Priced at Proposed Off-Peak Rate	\$51.90	\$20.14	\$15.75	\$87.79
Average Usage Priced at Proposed Intermediate Rate	\$72.76	\$28.24	\$22.08	\$123.08
Average Usage Priced at Proposed Peak Rate	\$ 138.39	\$53.71	\$41.99	\$234.10
Average Usage Priced at Proposed RS Rate	\$ 74.53	\$28.93	\$22.61	\$126.07

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 89**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-89. Reference the Conroy testimony at page 1. What is the witness' total compensation package?

A-89. The information requested is confidential and private, and is being provided under seal pursuant to a petition for confidential treatment.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 90**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-90. What portion of that amount is the company requesting the ratepayers to bear in this application?

A-90. 43.4% of the total compensation provided in response to Question No. 89 is included in the cost of providing service for the LG&E operations in this case.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 91**

**Responding Witness: Robert M. Conroy**

Q-91. Reference the Conroy testimony at pp. 33 -34. Does the witness agree that by moving more of the end-user's total bill from the energy charge to the customer charge, which is a fixed amount, inhibits the end-user from being able to reduce his/her total bill by conserving electricity and thus reducing the total energy charge thus reducing the total bill? If not, explain in detail.

A-91. Yes. But the purpose of cost-of-service rate-making is to send accurate price signals to customers, ensuring that cost-causers pay the costs they cause. Reducing fixed cost recovery through fixed charges and increasing energy costs to attempt to make up the difference sends distorted, inaccurate price signals to customers. It also unjustifiably shifts fixed-cost burdens onto those who cannot or do not reduce their energy consumption to provide a subsidy to those who do reduce their energy consumption. Whatever the virtues of such a subsidy as a matter of public policy, such an approach does not conform to cost-of-service rate-making.

By collecting fixed costs through fixed charges and variable costs through variable charges, the end user can conserve energy and as a result reduce their bill, without reducing the utility's fixed cost recovery. When variable cost drivers and their corresponding variable charges are aligned, every kWh conserved by the customer benefits both the customer and the utility by reducing the costs for both parties. Thus, moving a portion of the fixed costs being recovered through the energy charge to the fixed customer charge will not inhibit the end user from being able to reduce his/her total bill by conserving energy because it properly aligns the cost savings for both the end use customer and the utility.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 92**

**Responding Witness: Robert M. Conroy**

- Q-92. Reference the Conroy testimony at p. 34. Confirm that high energy consumers will pay lower bills under the proposed rate structure.
- A-92. Under the proposed rate structure customers with above average usage will see a smaller percentage increase than customers with below average usage. All customers will receive an increase; the amount of that increase will vary depending upon their usage. No customers are receiving a rate decrease, which is the only rate proposal that would result in lower bills.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 93**

**Responding Witness: Robert M. Conroy**

- Q-93. Reference the Conroy testimony at p. 34. Confirm that the elimination of “spikes” in bills also translates to a levelized bill that varies little based on energy consumed.
- A-93. No. All bills vary based on the energy consumed, but when fixed costs are collected through the energy charge rather than through a fixed charge, the “spikes” in customer bills can be much more volatile. This volatility is exacerbated in months where energy consumption is high such as hot summer months and cold winter months. By recovering more fixed cost through the customer charge, those “spikes” in bills are reduced because there is less fixed costs being recovered through the energy charge thus making the customer bill more consistent even in months with extreme weather.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 94**

**Responding Witness: Robert M. Conroy**

- Q-94. Reference the Conroy testimony at pages 67 -68. Will the increase in the Cable TV Attachment Charge cover the total cost for the service so that the gas and electric ratepayers are not subsidizing the cable service? If not, please explain the amount of subsidization in total dollars and on a per user basis.
- A-94. Yes. The proposed Cable TV Attachment rate represents the total cost of service for pole attachments as calculated in Conroy Exhibit M5.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 95**

**Responding Witness: Robert M. Conroy**

- Q-95. Reference the Conroy testimony in general regarding the Real Time Pricing Program (Rider RTP). Was the intent of the program to motivate end-users to monitor their usage and “move” it to times of the day when energy charge was cheaper?
- a. Because no consumers chose to participate in the Rider RTP, does the company agree that consumers pay attention to when they use electricity?
  - b. Because no consumers chose to participate in the Rider RTP, does the company agree that consumers pay attention to how much electricity they use?
- A-95. Yes, the objective of Rider RTP was to motivate customers to monitor their usage and if possible, shift usage away from times of the day where it is more expensive to generate electricity, also known as “On-Peak” times.
- a. If electric rates have no definitive price difference between on-peak and off-peak times, there is no economic incentive to pay attention to when electricity is consumed. However, the Company believes that with sufficient financial incentives, combined with appropriate education, a portion of the Company’s customers could be motivated to alter their consumption patterns.
  - b. The Company agrees that customers pay attention to how much electricity they use because their usage is directly correlated to their monthly energy bill.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 96**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-96. Reference the Murphy testimony at page 1. What is the witness' total compensation package?

A-96 The information requested is confidential and private, and is being provided under seal pursuant to a petition for confidential treatment.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 97**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-97. What portion of that amount is the company requesting the ratepayers to bear in this application?

A-97. 100.0% of the total compensation provided in response to Question No. 96 is included in the cost of providing service for the LG&E operations in this case.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 98**

**Responding Witness: J. Clay Murphy**

Q-98. Reference the Murphy testimony at page 1. Please state in detail what is meant by other "regulatory and planning activities and initiatives related to LG&E's natural gas business."

A-98. See the testimony of J. Clay Murphy at page 3, lines 3 through 10.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 99**

**Responding Witness: J. Clay Murphy**

Q-99. Reference the Murphy testimony at page 5. What is the interest the company proposes to use as interest on cash refunds in the GSC at line 23?

A-99. In the Order dated October 21, 1981, in Case No. 7799-D, the Commission ordered as follows:

“The Applicant should refund the amounts reported in its application plus interest at a rate equal to the average of the “3-month Commercial Paper Rate” for the immediately preceding 12-month period less ½ of the 1% to cover the costs of refunding. These monthly rates are reported in both the Federal Reserve Bulletin and the Federal Reserve Statistical Release.”

Such has been LG&E's practice since the order was issued. Adding language that describes the interest calculation to the tariff simply memorializes the requirements of the Commission with respect to cash refunds.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 100**

**Responding Witness: J. Clay Murphy**

- Q-100. Reference the Murphy testimony in general regarding the changes to Rider TS. Will the proposed changes effect the rates of the residential and commercial classes more than if the rider was not otherwise proposed?
- A-100. As currently proposed, Rider TS-2 and Rider PS-TS-2 are designed to have minimal or no undue impact on sales customers. Any modifications to the proposed provisions of Rider TS-2 or Rider PS-TS-2 could adversely impact the rates and reliability of sales service provided to customers under other rate schedules. See also the response to PSC 2-26 and PSC 2-27.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 101**

**Responding Witness: J. Clay Murphy**

Q-101. Do any of the proposed changes to the rates or riders effect the sale of gas or costs for gas to the electric operations of the LG&E electric operations? If yes, please explain in detail.

A-101. Yes. Natural gas services provided to LG&E's electric generation facilities are governed by a special contract approved by the Kentucky Public Service Commission. See the response to Question No. 330 and Question No. 331. Rate FT is incorporated by reference into the special contract covering applicable transportation deliveries. The section of Rate FT specifying the "Rate" is specifically superseded by the special contract. Any changes, for example, to those sections of Rate FT dealing with "Utilization Charge for Daily Imbalances," "Character of Service," "Operational Flow Orders," and "Special Terms and Conditions" would be applicable to the special contract.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 102**

**Responding Witness: Valerie L. Scott**

Q-102. Provide a chart depicting the corporate structure of LG&E with its owner(s), corporate subsidiaries and affiliates, regardless of whether they are: (i) directly or indirectly related; and / or (ii) regulated or unregulated.

A-102. See the response to PSC 1-2

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 103**

**Responding Witness: Valerie L. Scott**

Q-103. Reference the Price-Waterhouse-Coopers "Report of Independent Auditor" to Kentucky Utilities, report p. 134, contained in the .pdf file named "KU\_FR\_Tabs\_1-37-06292012 (Adobe pagination p. 902). The report states: "As discussed in Note 2 to the financial statements, on November 1, 2010, PPL Corporation completed its acquisition of LG&E and KU Energy LLC and its subsidiaries. The push-down basis of accounting was used at the acquisition date." Reconcile this statement with that set forth in the Settlement Agreement in Case No. 2010-00204, Article III, commitment 3.2, wherein PPL agreed to not use push down accounting in the transaction. See also Bellar testimony on Settlement, pp. 14, 16.

A-103. The Report of the Independent Auditor referred to above relates to Louisville Gas and Electric Company (LG&E), on page 142 contained in the .pdf file named "LGE\_FR\_Tabs\_38-46\_06292012" (Adobe pagination p. 666). The Report of the Independent Auditor references Note 2, which describes the use of push-down accounting used for LG&E's financial statements prepared in accordance with U.S. Generally Accepted Accounting Principles (U.S. GAAP). The U.S. GAAP financial statements are used for the Company's U.S. Securities Exchange Commission reporting which requires push-down accounting.

In the settlement agreement in Case No. 2010-00204, Article III, Section 3.2, the Company commits "to exclude expenses, such as depreciation or amortization associated with push-down accounting adjustments when determining amounts to be recovered from ratepayers". This section 3.2 is consistent with Bellar testimony on settlement page 15.

In preparing the exhibits for this case included in testimony presented by Kent W. Blake, the Company has excluded the impact of all purchase accounting consistent with the settlement agreement in Case No. 2010-00204.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**Responding Witness: Valerie L. Scott**

Q-106. Please provide the Company's Chart of Accounts down to the sub-account level of detail.

A-106. See Filing Requirement 807 KAR 5:001 Section 10(6)(j) dated June 29, 2012.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 107**

**Responding Witness: Valerie L. Scott**

Q-107. Please provide copies of June year-to-date financial, operating and/or statistical reports for 2009, 2010, 2011 and 2012 (when available).

A-107. See the response to Question No. 113. Year-to-date results are included therein.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 108**

**Responding Witness: Lonnie E. Bellar**

Q-108. Please provide a copy of the Board of Directors minutes for 2009, 2010, 2011 and 2012 to date.

A-108. The Company provided the 2009 minutes in Case No. 2009-00549 in its response to the AG 1-15, dated March 15, 2010, which the Company hereby incorporates by reference. See attached for the minutes for 2010, 2011, and 2012 to date.

The attachment is being  
provided in a separate  
file.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 109**

**Responding Witness: Shannon L. Charnas**

Q-109. Please explain in detail any major changes in accounting treatment for O&M expenses, retirements, replacements and removal costs instituted by the Company since 2009.

A-109. There have been no major changes in the accounting treatment for O&M expenses, retirements, replacements and removal costs instituted by the Company since 2009.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 110**

**Responding Witness: Valerie L. Scott**

- Q-110. Please provide a copy of each out-of-period accounting adjustment (i.e., journal entry) recorded during the historical test period, and past the test period to the present, along with an explanation of each adjustment.
- A-110. See attached. All adjustments identified were included in Blake Exhibit 1, Ref. Sch. 1.18 except for \$68,481, which would have decreased the revenue requirement requested in this case.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 113**

**Responding Witness: Valerie L. Scott**

Q-113. Provide the monthly financial and operating reports for every month from October 2009 to the present.

A-113. See attached.

The attachment is being  
provided in a separate  
file.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 114**

**Responding Witness: Kent W. Blake**

Q-114. Provide the twelve months-ending return on common equity for each month from January 2009 to the present.

A-114. LG&E does not prepare the return on common equity on a monthly basis. Please refer to PSC 1-38 to obtain the return on common equity for year ends previous to 2012.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 115**

**Responding Witness: Paul W. Thompson**

Q-115. Please supply a copy of LG&E's latest Ten Year Demand Forecast.

A-115. See attached.

2012 MTP Non-coincident MW Peaks - Uncurtailed

Year	KU	LGE
2012	4,539	2,770
2013	4,591	2,777
2014	4,599	2,718
2015	4,637	2,727
2016	4,736	2,820
2017	4,790	2,785
2018	4,776	2,862
2019	4,837	2,886
2020	4,880	2,865
2021	5,064	2,951
2022	5,017	2,994

2012 MTP Coincident MW Peaks - Uncurtailed

Year	KU	LGE	CC Peak
2012	4,277	2,770	7,047
2013	4,388	2,700	7,089
2014	4,423	2,704	7,127
2015	4,455	2,710	7,165
2016	4,427	2,820	7,246
2017	4,504	2,785	7,289
2018	4,486	2,862	7,348
2019	4,597	2,801	7,398
2020	4,663	2,835	7,498
2021	4,589	2,951	7,540
2022	4,664	2,994	7,658

Note: All peaks are inclusive of the respective peak DLC. Curtailable amounts are not included. Data matches the most recent Annual Resource Assessment (387) filing.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 116**

**Responding Witness: Valerie L. Scott**

Q-116. Please list all year end closing and adjusting accounting entries, both internal and those made by your external auditors for 2009, 2010, and 2011.

A-116. See attached for all internal year end entries. There were no entries made by the external auditors.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 117**

**Responding Witness: Valerie L. Scott**

Q-117 List each change in accounting principles made by the Company during 2009, 2010, 2011 and 2012 to date.

a. For each such change, state the revenue and/or expense or capital impact in this filing.

A-117. The following changes in accounting principles were made by the Company during 2009, 2010, 2011 and 2012 to date.

On January 1, 2009, LG&E adopted the provisions in Statement of Financial Accounting Standards (SFAS) No. 160<sup>6</sup>, Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51. The objective of SFAS No. 160, issued in December of 2007 and effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008, is to improve the relevance, comparability and transparency of financial information in a reporting entity's consolidated financial statements. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On January 1, 2009, LG&E adopted the provisions in SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133<sup>7</sup>. The objective of SFAS No. 161, issued in March of 2008 and effective for fiscal years, and interim periods within those fiscal years, beginning on or after November 15, 2008, is to enhance the current disclosure framework. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

---

<sup>6</sup> The guidance in SFAS No.160 is now contained in FASB Accounting Standards Codification Topic 810, adopted effective September 30, 2009.

<sup>7</sup> The guidance in SFAS No.161 is now contained in FASB Accounting Standards Codification Topic 815, adopted effective September 30, 2009.

On September 30, 2009, LG&E adopted the provisions in Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2009-01, Topic 105-Generally Accepted Principles, amendments based on SFAS No. 168 – The *FASB Accounting Standards Codification* and the Hierarchy of Generally Accepted Accounting Principles. ASU 2009-01, issued in June of 2009 and effective for interim and annual periods ending after September 15, 2009, introduces guidance which establishes the FASB ASC as the single source of authoritative nongovernmental U.S. generally accepted accounting principles. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On September 30, 2009, LG&E adopted the provisions in FASB ASU 2009-05, Fair Value Measurement and Disclosures (Topic 820) – Measuring Liabilities at Fair Value, an amendment of the FASB Accounting Standards Codification. The ASU 2010-06 amendments, issued in August of 2009 and effective for the first reporting period (including interim periods) beginning after issuance, provides guidance to clarify and reduce ambiguity in valuation techniques, adjustments and measurement criteria for liabilities measured at fair value. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On December 31, 2009, LG&E adopted the provisions in FASB Staff Position (FSP) Financial Accounting Statement (FAS) 132(R)-1, Employers' Disclosures about Pensions and Other Postretirement Benefits, a technical amendment to revised Statement 132 (FSP FAS 132(R))<sup>8</sup>. FAS 132(R)-1, issued in December of 2008 and effective for fiscal years ending after December 15, 2009, requires additional disclosures related to pension and other postretirement benefit plan assets. Additional disclosures include the investment allocation decision-making process, the fair value of each major category of plan assets as well as the inputs and valuation techniques used to measure fair value and significant concentrations of risk within the plan assets. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On June 30, 2009, LG&E adopted the provisions in FASB FSP No. Financial Accounting Statement (FAS) 107-1 and Accounting Principles Board Opinion (APB) 28-1 (FSP FAS107-1/APB28-1), Interim Disclosures about Fair Value of Financial Instruments, an amendment to disclosure requirements of Statement 107 and Opinion 28<sup>9</sup>. FAS 107-1 and APB 28-1, issued in April of 2009 and effective for interim reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009, requires disclosures about fair value of financial instruments. This guidance requires qualitative and quantitative

---

<sup>8</sup> The guidance in FSP FAS132(R)-1 is now contained in FASB Accounting Standards Codification Topic 715, adopted effective September 30, 2009.

<sup>9</sup> The guidance in FSP FAS107-1/APB28-1 is now contained in FASB Accounting Standards Codification Topic 825, adopted effective September 30, 2009.

disclosures about fair value of assets and liabilities on a quarterly basis. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On June 30, 2009, LG&E adopted the provisions in SFAS No. 165, Subsequent Events<sup>10</sup>. SFAS No. 165, issued in May of 2009 and effective for interim and annual periods ending after June 15, 2009, requires disclosure of the date through which subsequent events have been evaluated, as well as whether that date is the date the financial statements were issued or the date they were available to be issued. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On December 31, 2009, LG&E adopted the provisions in FASB ASU 2010-06, Fair Value Measurement and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements, an amendment of the FASB Accounting Standards Codification. The ASU 2010-06 amendments, issued in January of 2010, required separate disclosure of amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements. This guidance was effective for interim and annual reporting periods beginning after December 15, 2009. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On January 1, 2011, LG&E adopted the provisions in Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2010-06, Fair Value Measurement and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements, an amendment of the FASB Accounting Standards Codification. The ASU 2010-06 amendments, issued in January of 2010, required separate information about purchases, sales, issuances and settlements within Level 3 measurements. This guidance was effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On December 31, 2011, LG&E adopted the provisions in FASB ASU 2011-05, Comprehensive Income (Topic 220) - Presentation of Comprehensive Income, an amendment of the FASB Accounting Standards Codification. The ASU 2011-05 amendments, issued in June of 2011 and effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, requires that all non-owner changes in stockholder's equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements where the first statement includes the components of net income and the second statement includes the components of OCI. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

---

<sup>10</sup> The guidance in SFAS No.165 is now contained in FASB Accounting Standards Codification Topic 855, adopted effective September 30, 2009.

On December 31, 2011, LG&E adopted the provisions in FASB ASU 2011-09, Compensation – Retirement Benefits – Multiemployer Plans (Topic 715-80) – Disclosures about an Employer’s Participation in a Multiemployer Plan, an amendment of the FASB Accounting Standards Codification. The ASU 2011-09 amendments, issued in September of 2011 and effective for annual periods for fiscal years ending after December 15, 2011, requires that employers provide additional separate disclosures which include the significant multiemployer plans in which an employer participates, the level of the employer’s participation in these plans, the financial health of these plans and the nature of employer commitments to these plans. For plans for which users are unable to obtain additional publicly available information outside the employer’s financial statements, additional disclosures are required. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On January 1, 2012, LG&E adopted the provisions in Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2011-04, Fair Value Measurement (Topic 820) – Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, an amendment of the FASB Accounting Standards Codification. The ASU 2011-04 amendments, issued in May of 2011 and effective during interim and annual periods beginning after December 15, 2011, requires additional disclosures which include quantitative information about significant unobservable inputs used for Level 3 measurements, qualitative information about the sensitivity of recurring Level 3 measurements, information about any transfers between Level 1 and 2 of the fair value hierarchy, information about when the current use of a non-financial asset is different from the highest and best use, and the hierarchy classification for assets and liabilities whose fair value is disclosed only in the notes to the financial statements. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

On January 1, 2012, LG&E adopted the provisions in FASB ASU 2011-08, Intangibles-Goodwill and Other (Topic 350) – Testing Goodwill for Impairment, an amendment of the FASB Accounting Standards Codification. The ASU 2011-08 amendments, issued in September of 2011 and effective for annual and interim goodwill impairment tests performed for fiscal years beginning after December 15, 2011, allows an entity to elect the option to first make a qualitative evaluation about the likelihood of an impairment of goodwill. If, based on this assessment, the entity determines it is not more likely than not the fair value of a reporting unit is less than the carrying amount, the two-step goodwill impairment test is not necessary. However, the first step of the impairment test is required if an entity concludes it is more likely than not the fair value of a reporting unit is less than the carrying amount based on the qualitative assessment. There was no revenue and/or expense or capital impact in this filing as a result of adopting this guidance.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 118**

**Responding Witness: Valerie L. Scott**

Q-118. Please list all procedures the Company follows to ensure that there was a proper assignment of costs to the test period and that the test period only includes charges incurred during the test period.

A-118. The Company maintains its accounting records consistent with the FERC Uniform System of Accounts. In preparation of Exhibit 1 of the Company's application in this case a thorough review of the financial data for the test period was performed to ensure that the costs included during the test period reflected only those costs applicable to the test period. Costs recorded during the test period that were not applicable to the test period were included in Exhibit 1 as proforma adjustments. A summary of the policies and procedures the Company follows to maintain its accounting records in accordance with the FERC Uniform System of Accounts follows. See also the responses to Question No. 110 and Question No. 226.

**Corporate Accounting Policies**

- Expenditures are properly approved in accordance with the Company's Disbursement Policy and Authority Limit Matrix.
- The Company has a Purchasing Policy which states that the Company shall comply with all applicable federal, state and local laws, statutes, rules and regulations. As discussed previously, the FERC Uniform System of Accounts is followed to help determine the appropriate accounts charged.

**Training and Resources**

- The Controller Department maintains an intranet site with links to the Uniform System of Accounts and other technical accounting guidance.
- In general, employees who code invoices receive guidance from the Accounting department. Accounting guidance regarding coding of

invoices is further provided as necessary through operations personnel, whose responsibility is to further communicate to the appropriate employees in their respective areas.

**Internal Procedures and Controls**

- Journal entry procedures are developed and followed to insure journal entries are prepared in accordance with Company policies and the Uniform System of Accounts.
- Monthly reviews of financial data, including variance analyses, are performed by accounting and operations personnel.
- Accounts Payable may also follow up on invoices that do not appear to be correctly coded and, as applicable, provide guidance to the person who coded the invoice directly and/or the appropriate operations personnel.
- The Company's general ledger system (Oracle) contains many cross validation rules that help prevent certain types of miscodings.
- Non-standard journal entries and any adjustments made during and after the test period are reviewed to determine whether adjustments relate to the test period or other periods. Appropriate adjustments are made to the test period to insure proper assignment of costs to the test period.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 119**

**Responding Witness: Valerie L. Scott**

Q-119. Provide a copy of the Company's two most recent management letters and recommendations received from the Company's independent auditors.

A-119. The Company has not received management letters or letters of recommendation from the Company's independent auditors for at least the last ten years.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 120**

**Responding Witness: Kent W. Blake**

Q-120. List each internal audit completed, scheduled, or in progress at the Company for 2009, 2010, 2011 and 2012 to date. For each, list subject of audit, date of audit, date of report and title of report.

A-120. See attached.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 121**

**Responding Witness: Lonnie E. Bellar**

Q-121. Provide a copy of the Company's most recent management and operations audit.

A-121. On September 14, 2011 the PSC issued the Final Audit Report on the Focused Management and Operations Audit of Louisville Gas and Electric Company's and Kentucky Utilities Company's customer service functions. Below is the link to the final report.

[http://psc.ky.gov/agencies/psc/M\\_Audit/KU%20LGE%20Final%20Report%20with%20Letter.pdf](http://psc.ky.gov/agencies/psc/M_Audit/KU%20LGE%20Final%20Report%20with%20Letter.pdf)

On November 10, 2011 the PSC issued the Management Audit Action Plans regarding the aforementioned management audit. Below is the link to the Action Plans.

[http://psc.ky.gov/agencies/psc/M\\_Audit/LGE\\_KU\\_CS\\_Audit\\_Action\\_Plan\\_Final.pdf](http://psc.ky.gov/agencies/psc/M_Audit/LGE_KU_CS_Audit_Action_Plan_Final.pdf)

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 122**

**Responding Witness: Counsel**

Q-122. List each proposed pro forma entry which was considered in this filing but not made and state the reason(s) why the entry was not made.

A-122. Objection. All decisions regarding which adjustments to include in the application in this proceeding were made in consultation with legal counsel. Any response to this question necessarily requires the Company to reveal the contents of communications with counsel and the mental impressions of counsel, which information is protected from disclosure by the attorney-client privilege and the work product doctrine. The Commission determined in its July 30, 2010 Order in Case No. 2009-00549 that such information is not discoverable. See pages 7-10 and ordering paragraph 5 of the Commission's Final Order in Case No. 2009-00549 dated July 30, 2010.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 123**

**Responding Witness: Valerie L. Scott**

Q-123. Please provide an explanation of all items included in the following accounts (by subaccount if any) and provide the appropriate jurisdictional amounts for the year ended 2009, 2010, and 2011:

- a. Other Accounts Receivable,
- b. Accrued Utility Revenues,
- c. Miscellaneous Deferred Debits,
- d. Miscellaneous current and accrued liabilities, and
- e. Other Deferred Credits.

A-123. a-e. See attached.

**Louisville Gas and Electric Company**  
**Case No. 2012-00222**  
**Explanation of Specified Balance Sheet Accounts**

<u>Account</u>	<u>Description</u>	<u>12/31/2011</u>	<u>12/31/2010</u>	<u>12/31/2009</u>	<u>Explanation of Amounts Included in Accounts</u>

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 124**

**Responding Witness: Counsel / Shannon L. Charnas**

Q-124. Please provide a comparison by month, or if not available, by quarter, of budgeted versus actual retirements for each month of 2009, 2010, 2011 and 2012 to date. Please explain any significant variations.

A-124. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling in its and September 21 and October 19, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, see attached for actual retirements.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 125**

**Responding Witness: Kent W. Blake**

Q-125. Customer Advances.

- a. What is the ratemaking treatment for customer advances proposed by the Company in its filing? Where is such proposal found in the filing?
- b. Provide the monthly level of customer advances for the period December 2009 thru December 2011.
- c. Provide the monthly interest expense paid by the Company on customer advances for the same period.

A-125. a. Consistent with the Commission's Order in Case Nos. 98-474 and 2003-00434 (KU) and Case Nos. 98-426 and 2003-00433 (LG&E) customer advances are treated as a deduction from rate base. See Blake Exhibit 3 in the filing.

- b. See attached.
- c. The Company does not pay interest expense on customer advances.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 127**

**Responding Witness: Sidney L. "Butch" Cockerill**

Q-127. Customer Deposits.

- a. What is the contractual interest rate on customer deposits?
- b. Identify the tariff or statute that establishes the interest rate.
- c. Does the Company accrue interest on inactive customer deposits?
- d. How often is interest on customer deposits paid?
- e. Is interest on customer deposits paid by check, in the form of a bill credit, or credited as an addition to the customer deposit balance?
- f. What is the Company's policy on customer deposits for collection, refund, and use as an offset against an uncollectible balance?
- g. Provide a copy of the Company's policy(s) relating to customer deposits.
- h. Is the amount different than the company has used in prior cases? If so, explain in detail. If yes, please explain how it will affect the impact on the revenue requirement.

A-127. a. Contractual interest rate on customer deposits is .104%.

- b. KRS 278.460 establishes the interest rate to be paid on customer deposits.
- c. No.
- d. Interest is paid to the customer annually, per 807 KAR 5:006, Section 7. Deposits (6).

- e. Interest on customer deposits is paid in the form of a bill credit.
- f. See response in Part “g”.
- g. See attached policy for Service Deposits.
- h. No change is being proposed to the amount of customer deposits.

POLICY FOR SERVICE DEPOSITS

---

X. Policy for Service Deposits

Revised 8-2010

A. Overview

The collection of service deposits from both residential and non-residential customers is an essential part of managing the Company's credit risk and exposure to loss.

B. Definitions

N/A

C. Applicability

See Kentucky Public Service Commission Regulation 807 KAR 5:006. General Rules, Section 7, Subsections (1) – (7).

See Kentucky Utilities Company Rates, Terms & Conditions for Furnishing Electric Service Sheet No. 87 P.S.C No. 13

D. Terms of the Service Deposit Policy

Residential service deposits are required from all new customers, based on the customer's credit score, provided by Experian, as well as existing customers who have been disconnected for nonpayment and are seeking to have service restored. Accounts requiring a security deposit may have the deposit billed in up to four monthly installments.

Residential service deposit amounts can be found in each utility's filed and approved tariffs.

**Residential Deposits:**

LG&E, KU and ODP residential service deposits are held a minimum of 12 months. LG&E and KU deposits earn interest determined by the KPSC annually, while ODP deposits earn interest determined by the Commonwealth of Virginia annually.

LG&E, KU and ODP deposits will be refunded (applied to the customer's account) at the end of the first 12 month period, in which the customer has not:

- Been disconnected for nonpayment, or
- Received a disconnect notice/budget reminder letter, or
- Had a returned check, or
- Had meter theft/tampering or diversion charges, or
- Defaulted on an installment plan

**IMPORTANT:** The maximum security deposit for a residential contract account **cannot** exceed the amount indicated in our approved tariffs.

For residential customers, personal guarantees or letters of credit from other utilities **ARE NOT** acceptable in lieu of a cash deposit.

Security deposits should not be required on non-metered contracts (typically outdoor lights) tied to residential contract accounts.

*The use and usage of non-residential contracts tied to residential contract accounts should be determined and if historic consumption on the non-residential contract(s) warrants a security deposit, then the deposit should be required based on the tariffed method of calculation. (fixed deposit amount for GS rate categories and 2/12's for all other rate categories) (Ex. Assume a residential contract account has an electric contract, a gas contract, and separate garage that constitutes a non-residential contract. In this case CCS will render a deposit quote for all three contracts. The CSR should review the historic usage on the garage and/or inquire as to the intended use of the garage and then make a determination as to whether a deposit should be requested for the garage.)*

**Non-residential Deposits:**

Service deposits should be required from all new non-residential customers, as well as all existing non-residential customers failing to maintain satisfactory credit with the Company defined as no disconnects, no late notices, no defaults on installment plans, no returned payments, and no diversion incidents or customers whose deposit is below the 2/12 minimum. Calculation of the deposit amount is typically 2/12 of the annual billing per meter unless the customer is on a GS rate. (see filed and approved tariffs for current amount).

Non-residential deposits for LG&E and KU will be held until the customer terminates the service. The only exception to this is for LG&E non-residential deposits secured prior to July 1, 2004 which will be refunded under the policies in effect at that time.

Non-residential deposits for ODP will be held a minimum of two years, and will be refunded (applied to the customer's account), provided the customer has maintained satisfactory credit with the Company, as defined above.

A surety bond or bank letter of credit can be provided in lieu of a cash deposit

**Business rules for non-residential deposits**

All new, separate, and distinct non-residential service applicants will be required to provide a security deposit as a condition of service. New, separate and distinct is defined as follows: For incorporated or LLC businesses, this would be indicated by separate tax id numbers. For unincorporated businesses (sole proprietorship), new, separate and distinct would be indicated by a different type of business. For example, a pizza shop and an auto repair business.

This deposit may be paid prior to providing service or may be billed up to four installments beginning on the first regular billing. If the deposit is waived, appropriate contacts should be entered on all accounts indicating the employee responsible for the decision to waive and the reason for the waiver.

All existing non-residential customers will be required to provide a security deposit as a condition of reconnection after service has been disconnected for either non-payment or any other reasons for disconnection per approved tariffs and regulations. If the deposit is waived, appropriate contacts should be entered on all accounts indicating the employee responsible for the decision to waive and the reason for the waiver.

All existing non-residential customers may be assessed a deposit once their payment history becomes unsatisfactory. In addition, if a non-residential customer has a deposit less than 2/12's of the annual usage, and unsatisfactory credit, an increase in the deposit amount should be considered.

Discretion should be used to determine whether security deposits should be required on non-metered contracts (typically outdoor lights) tied to non-residential contract accounts as well as non-metered contracts (typically outdoor lights) on stand-alone contract accounts.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 128**

**Responding Witness: Shannon L. Charnas**

- Q-128. For the test period and the preceding two 12-month periods, has the Company sold any property which had formerly been included in Plant Held for Future Use or devoted to utility service? If so, for each sale, describe the property sold; state whether, when and in what manner it had been included in rate base; show the details of how the gain or loss was calculated; indicate when the sale occurred; explain how and whether the Company is amortizing such gain or loss; and show how such amortization was computed.
- A-128. See attached. All property listed has been included in net original cost rate base from the time of purchase through the time of sale. LG&E is not amortizing any gains or losses associated with these property sales.

†LG&E sold 73 rail cars in December 2009. A gain of \$74,076 was recorded to Plant Account 151-Fuel Stock. The use of Plant Account 151 is required pursuant to the Kentucky Public Service Commission's January 2, 1997 Order in Case No. 92-493, requiring that the gain on the sale of railcars depreciated through the Company's fuel adjustment clause (FAC) be passed to customers through the Company's FAC.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 129**

**Responding Witness: Shannon L. Charnas / Ronald L. Miller**

Q-129. The following questions are related to the Company's policies regarding accounting for CWIP, plant in service and depreciation:

- a. For each item of CWIP which the Company has transferred into utility plant in service for purposes of this filing, has a full 12 months of depreciation expense been included in the cost of service?
- b. For each item of CWIP which the company has transferred into utility plant in service for the purposes of this filing, has an amount representing a full 12 months of depreciation expense been added to the total accumulated depreciation by which rate base is reduced?
- c. Provide the same information as requested in subsection b. above for the deferred taxes related to the depreciation timing differences.

A-129. a. Yes. See Blake Exhibit 1, References Schedule 1.12.

b. Yes. See Blake Exhibit 4, Pro Forma Rate Base, Line 3, Columns 3 and 6.

c. No proforma deferred tax adjustment to the rate base has been included for CWIP depreciation timing differences.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 130**

**Responding Witness: Lonnie E. Bellar**

Q-130. For major plant construction projects representing plant additions costing more than \$5 million added during 2009, 2010, 2011 and 2012 to date please state the following:

- a. Description of project.
- b. Any economic feasibility studies done in a relationship to the project.
- c. Any related cost savings achieved as a result of adding the addition.
- d. Whether the project was for replacement, for new growth, environmental, or other.
- e. Description of why the project was necessary.

A-130. a. – e. See the attached table and supporting documents. Certain information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

The entire attachment is  
Confidential and  
provided separately  
under seal.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 131**

**Responding Witness: Valerie L. Scott**

Q-131. Identify how much of the Company's materials and supplies balance in 2009, 2010, 2011 and 2012 to date is related to construction activities.

A-131. Materials and supplies specifically purchased for a capital project are charged directly to that project. The items in the materials and supplies balance are not related to any specific construction activities.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 132**

**Responding Witness: Ronald L. Miller**

Q-132. Please provide a copy of the corporate federal tax returns and supporting "M" schedules for 2009, 2010 and 2011.

A-132. The 2009 pro forma federal tax return is attached and provided under seal. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

The 2010 pro forma federal return was filed in this case in Response to the Commission's First Data Request Number 26(a)(8). The 2011 federal tax return has not yet been prepared; this return will be filed before September 15, 2012.

The entire attachment is  
Confidential and  
provided separately  
under seal.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 133**

**Responding Witness: Ronald L. Miller / Counsel**

Q-133. Please provide detailed calculations of federal income taxes (budgeted and actual) for the year ended 2009, 2010 and 2011.

A-133. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, the Company provides the following information:

The 2009 and 2010 calculations of federal income taxes for our year-end estimate and actual per the return are provided under seal. The 2011 calculation of federal income taxes for our year-end estimate is also included. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

The 2011 federal tax return has not yet been prepared; this return will be filed before September 15, 2012.

The entire attachment is  
Confidential and  
provided separately  
under seal.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 134**

**Responding Witness: Ronald L. Miller**

Q-134. Please provide workpapers detailing the calculation of each statutory addition and deduction used in arriving at taxable income in the above calculation. Also provide a narrative explanation of the effect of each statutory addition and deduction on tax and/or book income, and the Internal Revenue Code Section or Treasury Regulation calling for the adjustment.

A-134. The 2010 workpapers detailing the calculation to arrive at taxable income are provided under seal. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

The 2011 federal tax return has not yet been prepared; this return will be filed before September 15, 2012.

A comprehensive narrative explanation of the effect of each statutory addition and deduction on tax and/or book income does not exist; however, a summary explanation of our book vs. tax differences is attached. Also, there is no readily available comprehensive listing of each adjustment that references either the applicable Internal Revenue Code Section or Treasury Regulation. The Company does follow the Internal Revenue Code and Treasury Regulations in preparing its federal tax return.

The entire attachment is  
Confidential and  
provided separately  
under seal.

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 135**

**Responding Witness: Ronald L. Miller**

Q-135. For 2009, 2010 and 2011, please provide a copy of the U.S. Corporation Income Tax Return, and the Kentucky Corporate Income Tax Return and all other Kentucky Tax Returns. If separate returns were not prepared, please provide the detailed worksheets that were used to prepare the consolidated return.

A-135. The 2009 pro forma Kentucky tax return is attached and provided under seal. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

See the response to Question No. 132 for the federal income tax returns.

The 2010 pro forma Kentucky income tax return was filed in this case as Response to Commission First Data Request Number 26(a)(8). The 2011 Kentucky income tax return has not yet been prepared; this return will be filed before October 15, 2012. Local income tax returns are not required for public service corporations in Kentucky.

Other routine non-income tax Kentucky returns such as monthly Sales/Use tax returns, quarterly payroll tax returns, and property tax returns can be provided or are available for review, if needed.

The entire attachment is  
Confidential and  
provided separately  
under seal.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 136**

**Responding Witness: Ronald L. Miller**

Q-136. Please provide the following information regarding deferred income taxes included in the test-year tax expense:

- a. Calculation of all timing differences reflected in DFIT; show book amount and tax amount; indicate when amounts were included in book and in tax returns;
- b. Tax rate applied to each timing difference;
- c. Calculation of actual DFIT;
- d. If different, reconcile book amount per cost of service and book amount in DFIT calculation. Identify and quantify all reconciling items.
- e. The gross and net additions to deferred taxes. Please breakdown such additions by sub-account, providing the number and name for each account and sub-account. For each item by year, please reconcile the gross to net additions and explain how that reconciliation was derived.

- A-136. a. The net differences are listed on the attached as separate book and tax amounts are not readily available for the test year.
- b. See response to (a.) above.
  - c. See response to (a.) above.
  - d. The book amounts used for the cost of service study and the book amounts used for deferred tax calculations are the same. The cost of service study does not use the book amounts after net operating income.
  - e. See attached for the listing of sub-account amounts during the test year. The Company does not keep its deferred tax records for gross or net additions, therefore no reconciliation is provided.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 137**

**Responding Witness: Lonnie E. Bellar / Ronald L. Miller**

Q-137. Please list the name and business function of all Company subsidiaries and separately list those which are included in this case for ratemaking purposes.

A-137. LG&E has no wholly owned subsidiary companies. LG&E owns a minority interest of 5.63% in the Ohio Valley Electric Corporation.

There are no subsidiaries included in this case for ratemaking purposes.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 138**

**Responding Witness: Ronald L. Miller**

Q-138. Please provide worksheets which reconcile book and tax income and tax liability on the books and on the tax return for 2009, 2010 and 2011.

A-138. See the response to Question No. 133 for reconciliation of book income and federal taxable income for 2009 and 2010. The 2011 tax return has not yet been prepared; therefore no 2011 reconciliation is included.

Also, a reconciliation of the Company's book tax liability to the corresponding tax return for 2009 and 2010 is provided under seal. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

The entire attachment is  
Confidential and  
provided separately  
under seal.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 139**

**Responding Witness: Ronald L. Miller**

Q-139. Please list and explain in detail the allocation methods used to allocate state and federal tax liability and tax credits between the Company and its subsidiaries. Please provide worksheets which show a detailed derivation of the allocations for 2009, 2010 and 2011. The derivation should include separate listing of contributions, indebtedness cost, NOL (current, carryforwards and carrybacks), each credit by type (such as the investment tax credit, jobs credit), and intercompany transactions.

A-139. There are no allocations between LG&E and its subsidiary, OVEC.

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 140**

**Responding Witness: Ronald L. Miller**

Q-140. Please provide worksheets which derive the gross revenue and pre-tax accounting income and federal taxable income (loss), on a consolidated basis and on a separate return basis for each year for 2009, 2010 and 2011.

A-140. The attachments are provided under seal. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

The 2011 federal tax return has not yet been prepared; this return will be filed before September 15, 2012.

The entire attachment is  
Confidential and  
provided separately  
under seal.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 141**

**Responding Witness: Ronald L. Miller**

Q-141. Please provide worksheets which derive the gross revenue and pre-tax accounting income and state taxable income (loss), on a consolidated basis and on a separate return basis for 2009, 2010 and 2011. Include in the worksheets a detailed reconciliation of book and tax income.

A-141. The attachments are provided under seal. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

The 2011 state tax return has not yet been prepared; this return will be filed before October 15, 2012.

The entire attachment is  
Confidential and  
provided separately  
under seal.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 142**

**Responding Witness: Ronald L. Miller**

- Q-142. Please provide for each year from 2000 through 2008 the gross and net additions to deferred taxes. Please breakdown such additions within each year by sub-account, providing the number and name for each account and sub-account.
- a. For each item by year please reconcile the gross to net additions and explain how that reconciliation was derived.
- A-142. See attached for the ending balances for 2006 through 2011 for Accumulated Deferred Income Taxes. Earlier information is not readily available. Note that certain subaccounts have changed through the years. Also, LG&E's reconciliations of these accounts are maintained based on net amounts, rather than being detailed by gross additions, deductions, etc.

**Question No. 144**

**Responding Witness: Ronald L. Miller**

- Q-144. Please provide the beginning and ending balances for 2009, 2010 and 2011 for Accumulated Deferred Income Taxes and Provisions for Deferred Income Taxes broken down by sub-account with the name and number of each sub-account.
- A-144. See the response to Question No. 142 for balances by accounts for 2009 through 2011. For Provisions for Deferred Income Taxes see response to Question No. 145.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information**

**Dated July 31, 2012**

**Question No. 145**

**Responding Witness: Ronald L. Miller**

Q-145. Please provide the following amounts for 2009, 2010 and 2011:

- a. Income tax expense, current, deferred, deferred-credit, investment tax credit deferred and investment tax credit amortized from prior years. Identify by Uniform System Account number.
- b. Identify the benefit giving rise to each charge, as shown in the example below.
- c. Separate federal and state amounts.
- d. Cite the order or ruling on which the Company bases rate treatment of these benefits (normalized or flow-through). Note the rate treatment (normalized or flow-through).
- e. State the accumulated total for each as it appears on the test period balance sheets. Identify by Uniform System Account Number.
- f. State the rate base treatment of each item (e.g. deducted from rate base, cost-free capital, treated as equity, etc.).
- g. Cite the order or ruling on which the Company bases treatment identified in f.

A-145. a. Income Taxes:

Federal income taxes current –

## Investment Tax Credit Amortized –

	<u>2009</u>	<u>2010</u>	<u>2011</u>
Account 411.4	(\$3,044,107)	(\$2,501,774)	(\$2,805,732)

	<u>2009</u>	<u>2010</u>	<u>2011</u>
Grand Total	\$47,297,031	\$68,673,222	\$70,903,928

- b. There is no “example below” in the question to reference.
- c. See answer to part (a) of this question.
- d. The Company follows the Internal Revenue Code and Commission practices to determine if an item flows through or is normalized. LG&E has no flow through items; all deferred items are normalized.

- e. There is no flow through amount at March 31, 2012. The entire deferred income tax amount is normalized.
- f. The deferred tax balances are deducted from rate base.
- g. The Company's treatment of the deferred taxes is consistent with general rate making practices.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 146**

**Responding Witness: Ronald L. Miller**

Q-146. Please provide a detailed derivation of 2009, 2010 and 2011 research and development credits, including:

- a. a list of all research, development and experimentation expenditures, and for each item provide separately:
  - (i) the amounts payable to inside and outside contractors;
  - (ii) the amount payable in the test period;
  - (iii) the total expenditures to be expensed in determining federal taxable income; and
  - (iv) the total expenditures qualifying for any R & E credit under the Internal Revenue Code.

A-146. See attached.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 147**

**Responding Witness: Ronald L. Miller**

Q-147. Identify all net operating loss carrybacks and carryforwards for LG&E, its parent and each subsidiary for 2008, 2009, 2010 and 2011.

A-147. See attached for net operating losses for LG&E, its parent and subsidiaries for 2008, 2009 and 2010. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

The 2011 federal tax return has not yet been prepared; this return will be filed before September 15, 2012.

The entire attachment is  
Confidential and  
provided separately  
under seal.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 148**

**Responding Witness: Ronald L. Miller**

Q-148. What amount of LG&E interest expense for tax purposes and separately for book purposes was allocated to Kentucky regulated operations on a combined and intrastate basis during the test period? Please explain and provide a reconciliation of the difference.

A-148. LG&E has its own debt and the related interest expense. Therefore, no interest expense is allocated to LG&E's regulated operations from any other company for book or tax purposes.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 149**

**Responding Witness: Ronald L. Miller**

Q-149. Regarding the investment tax credit, please provide the amount of 3%, 4%, 7%, 10%, and 11% credits the company generated, booked for ratemaking purposes, and/or used as a credit against federal tax liability for each year from 2009 through 2011 and the derivation of each of those amounts.

A-149. LG&E had no investment tax credit at the rates mentioned above that were generated or used as a credit against its federal tax liability from 2009 through 2011. LG&E did generate advanced coal investment tax credit equal to 15% of its portion of Trimble County Unit 2 eligible construction expenditures. The estimated advanced coal investment tax credit recorded was \$3,649,346 for 2009, and the actual amount used as a credit against its 2009 tax liability was \$3,934,985. No advanced coal investment tax credit was recorded in 2010 or 2011 as the maximum allowable credit was met in 2009.

LG&E recorded investment tax credit amortization of \$3,044,107, \$2,501,774 and \$2,805,732 for the years 2009 through 2011, respectively.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 150**

**Responding Witness: Ronald L. Miller**

Q-150. For each distinct tax-timing difference for which the Company has provided deferred taxes, please identify the amount of excess deferred income taxes (i.e. deferred taxes accrued by the Company at federal tax rates higher than the current corporate tax rate, the excess is the difference over the current rate) existing on the Company's books at December 31, 2011 which can be flowed back to ratepayers on an accelerated basis (i.e. such amortization is not prohibited by the normalization requirements of the Internal Revenue Code). Show how these amounts are calculated.

A-150. LG&E had no excess deferred income taxes existing on the books at December 31, 2011 which could be flowed back to ratepayers on an accelerated basis. In accordance with Internal Revenue Code Section 203(e) normalization requirements, excess reserves may not be reduced more rapidly than under the average rate assumption method, ARAM. LG&E applies this method which reduces excess deferred income tax reserves over the remaining book lives of the underlying property.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 151**

**Responding Witness: Ronald L. Miller**

Q-151. Will the amount of investment tax credits utilized be increased if the Company is granted its requested rate increase in these proceedings? If not, why not? If so, provide calculations showing the Company's best estimate as to how much ITC will be utilized.

A-151. No, the amount of investment tax credit utilized will not be increased if the Company is granted its requested rate increase in these proceedings. LG&E has utilized all investment tax credits claimed.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 152**

**Responding Witness: Ronald L. Miller**

Q-152. Provide detailed descriptions of any IRS audit, settlements with the Internal Revenue Service, or audit adjustments made during the three years ending December 31, 2011.

A-152. The IRS has completed its audit for the 2009 tax year and the ten month tax period ended October 31, 2010. These return years were completed under the Compliance Assurance Process. The IRS proposed no adjustments for those tax years.

Due to the acquisition by PPL Corporation, LG&E is now included in the consolidated return of PPL beginning November 1, 2010. The two month period ended December 2010 is not currently under examination. The 2011 federal tax return has not yet been prepared; this return will be filed before September 15, 2012.

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 153**

**Responding Witness: Ronald L. Miller**

Q-153. Provide a copy of any and all revenue ruling requests, IRS responses, and correspondence between the Company and the IRS during the ten years ending December 31, 2011.

A-153. LG&E has not made any requests for IRS income tax revenue rulings during the ten years ending December 31, 2011.

The Company does have routine correspondence with the IRS in dealing with payroll matters, employee benefits, income tax audits, tax payments/refunds, and other miscellaneous federal tax matters. Correspondence of this nature is available upon request or for inspection at the Company's offices, if needed.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 154**

**Responding Witness: Ronald L. Miller**

Q-154. List total property taxes and property tax refunds or abatements each year, for the test period and the most recent three years for which actual information is available. Describe and show the accounting treatment accorded to each item, showing journal entries, dates, accounts, amounts and descriptions.

A-154. See attached.

**Louisville Gas & Electric Company**  
**Case No. 2012-00222**  
**Property Taxes**

<u>Account</u>	<u>Description</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>	<u>Test Year</u>
408.1	Property Tax Expense	14,481,268	12,918,480	18,015,490	18,301,450
408.2	Property Tax Expense	2,388	2,541	3,168	3,267
107	Construction Work in Progress	144,769	184,079	-	-

**There were no abatements during the three years ending December 31, 2011 or the test year. See Question No. 156 for property tax refunds.**

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 155**

**Responding Witness: Ronald L. Miller**

Q-155. List all amounts of property taxes under dispute at December 31, 2011, and indicate the tax year and the taxing district to which each relates.

A-155. LG&E filed a formal letter of protest with the Kentucky Division of Protest concerning its 2011 property tax assessment that was received from the Kentucky Department of Revenue. This protest related to the assessed value for state and local Kentucky tax purposes.

In June 2012, LG&E met with the Department of Revenue, including representatives from the Division of Protest Review and the Finance Cabinet's Legal Division to present the Company's position on its 2011 property tax assessment. Following the discussions, LG&E and the State reached agreement on the amount of the assessment, as well as the allocations among the various property classifications. The impact from the 2011 settlement resulted in an approximately \$505,000 additional charge to earnings which was recorded in the second quarter of 2012.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 156**

**Responding Witness: Ronald L. Miller**

Q-156. List all property tax refunds, by geographical area and taxing authority, by year, received in the most recent three years through 2011.

A-156. No property tax refunds were received by LG&E in 2009. In 2010, LG&E received a \$1,848.44 refund from Jefferson County for vehicle property tax. In 2011, refunds of \$85.25 were received from Jefferson County for vehicle property tax and \$6.82 from Muhlenberg County for unmined minerals.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

Dated July 31, 2012**

**Question No. 157**

**Responding Witness: Ronald L. Miller**

Q-157. Please explain and provide all workpapers and source documents supporting the derivation of the taxable bases for Kentucky property taxes for 2009, 2010 and 2011.

A-157. See attached for 2009 and 2010, information for 2011 is not yet available.

The attachment is being  
provided in a separate  
file.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 158**

**Responding Witness: Ronald L. Miller**

Q-158. Provide full supporting documentation, workpapers and correspondence associated with refunds of any and all taxes other than income taxes received in 2009, 2010 and 2011. Indicate which accounts were affected and the associated dollar amounts. Also describe how the Company intends to treat this/these item(s) for rate case purposes.

A-158. LG&E received a \$3,360,522 Kentucky Sales/Use tax refund in February 2009 for the audit period covering October 1997 to December 2001. The entire \$3,360,522 was recorded prior to 2009. Interest income of \$1,931,769 was recorded in the amounts of \$2,169,171 prior to 2009 and (\$237,402) in 2009.

The settlement agreement related to this refund is attached and provided under seal. The information requested is confidential and proprietary, and is being provided under seal pursuant to a petition for confidential treatment.

LG&E received miscellaneous IRS 941 payroll withholding refunds of \$12.30, \$2,481.16 and \$259.54 for 2009, 2010 and 2011, respectively. These refunds were credited to FERC account 408.

See the response to Question No. 156 for property tax refunds. All property tax refunds were credited to FERC account 408.

provided separately  
under seal.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 159**

**Responding Witness: Ronald L. Miller**

Q-159. Please state whether any settlements, penalties or interest resulting from audits by taxing authorities are included in expense per books in 2009, 2010 and 2011. If so, provide full details including the periods and issues resolved, the dollar amounts of settlement by issue, the taxing authority penalty or interest by issue, the taxing authority involved, the date of settlement, the current status of the payment, and the final resolution of the matter or status of the protest if unresolved.

A-159. The Company settled the Kentucky Department of Revenue's audit of Sales/Use tax for the period October 1997 to December 2001 in 2009. (See the response to Question No. 158). The settlement resulted in refunds of tax, including interest.

The Company's Internal Revenue Service settlements in 2009 and 2010 are discussed in the response to Question No. 152. No interest or penalties are included in the expense per books in 2009, 2010, or 2011.

Settlements are reached annually in connection with the filing of the Company's Kentucky property tax returns. Results from the 2009 and 2010 settlements were recorded in each year's property tax expenses. The 2011 Kentucky property assessment was unable to be resolved until mid-2012 and resulted in an additional tax assessment of \$505,000 and an interest assessment of \$12,000, both of which were recorded in June 2012. There were no penalties or interest charges associated with the 2009 or 2010 settlements. Furthermore, there were no audits of the Company's property tax filings outside of these settlements.

LG&E recorded a \$236 penalty in 2011 for a late state payroll tax deposit. There were no other payroll tax penalties for 2009 or 2010.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 160**

**Responding Witness: Counsel**

- Q-160. For the years 2009, 2010, and 2011, please provide a description of all variations between budgeted and actual expense levels which are due to known and certain changes, providing supporting documentation. Indicate all variations from actual levels which result from the application of inflation or escalation factors. In those instances where inflation or escalation factors were utilized, explain the derivation of the factors used in each case. If a single factor was used, a summary description will suffice.
- A-160. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. The budgetary information requested in this data request is not relevant to the analysis of known and measurable pro forma adjustments in this case.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 161**

**Responding Witness: Valerie L. Scott**

Q-161. Please indicate, if known and quantifiable, any anticipated changes in jurisdictional allocation factors and the impacts thereof on the test period in this case.

A-161. The Company does not anticipate any changes in jurisdictional allocation factors. The Company has used a historical test year in this case and therefore does not anticipate any changes to test period results in this case.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 162**

**Responding Witness: Valerie L. Scott**

Q-162. Indicate the number of and expenses related to temporary or seasonal employees included in 2009, 2010 and 2011 jurisdictional expenses.

A-162. The Company does not have any seasonal employees. The chart below reflects Kentucky jurisdictional expenses at LG&E related to labor and labor related burdens for temporary employees for 2009, 2010 and 2011.

<b>Year</b>	<b>Company</b>	<b># of Employees</b>	<b>Expenses</b>
2009	LG&E charging LG&E	18	114,491
	Servco charging LG&E	54*	320,299
2010	LG&E charging LG&E	14	93,611
	Servco charging LG&E	66*	399,746
2011	LG&E charging LG&E	14	95,268
	Servco charging LG&E	68*	499,029

\* Full headcounts are used for Servco temporary employees, however their expenses are allocated to LG&E and KU based on their respective assignments.

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 163**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-163. Please provide a schedule showing the percentage of increase in salaries and wages for both union and non-union employees for the test period and the three preceding 12-month periods. Break out non-union employees between CEO, executives making more than \$150,000 and management making less than \$150,000.

A-163. The schedule below shows the salary increase for the test period and the three preceding 12-month periods as requested above. While executives are employees of the service company, a portion of their salary is charged to rate payers as indicated in the response to PSC 1-46.

	Test Period	2011	2010	2009
Union	2.5%	2.5%	3.0%	3.5%
CEO	0.0%	0.0%	0.0%	3.0%
Executives > \$150,000	3.2%	3.0%	2.8%	3.0%
Management < \$150,000	3.0%	3.2%	2.9%	3.1%
Individual Contributors	2.9%	2.9%	3.2%	3.5%
Non-Exempt	2.6%	2.9%	2.9%	3.4%

**Question No. 164**

**Responding Witness: Valerie L. Scott**

Q-164. Please provide jurisdictional totals and amounts by payee, and an explanation of the services provided, for all amounts charged to outside services during 2009, 2010 and 2011.

A-164. See attached for detail of total company outside services from January 2009 through March 2011. See the response to PSC 1-31 for detail of total company outside services from April 2011 to December 2011. The Company does not maintain its books in the manner necessary to produce jurisdictional totals for outside services.

The attachment is being  
provided in a separate  
file.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 165**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-165. Please provide copies of any studies or analyses prepared by or for the Company regarding the level of the Company's wages compared to the wages paid by other utilities, service companies, or any other entity.

A-165. The Company participates annually in a number of general and utility industry third party compensation surveys to obtain market pricing and salary planning data from which to determine competitive salaries. Attachment #1 summarizes the analysis completed for 2012.

The Company's compensation philosophy is to establish salary ranges based on the 50<sup>th</sup> percentile of each job's market pricing. A job's market price serves as a reference point from which to administer compensation. Compensation compared to the external reference point results in a compa-ratio. The analysis below was completed mid-November 2011 in order to make a recommendation for 2012's salary increase budget.

Sal Plan	Average of 2011 Base Compa-Ratio	Average of 2011 Actual TCC Compa-Ratio	Average of 2011 Target TCC Compa-Ratio	# Employees in Salary Plan
EX	99.75%	102.75%	103.24%	1,061

TIA	5.8%	7.9%	2.1%	5.5%	-2.4%	
Tuition Reimbursement	0.3%	0.3%	0.0%	0.2%	-0.1%	
Unemployment	0.0%	0.0%	0.0%	0.0%	0.0%	
Workers' Compensation	0.7%	-0.4%	-1.1%	1.6%	2.0%	

The decrease in pension expense as a percentage of total labor from 2009 to 2010 was due to the strong investment performance of the pension plan assets during 2009. The 2010 reduction in pension expense as a result of the favorable investment performance was partially offset by a reduction in the expected return on assets for 2010 from 8.25% to 7.75%.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 169**

**Responding Witness: Valerie L. Scott**

Q-169. For the five (5) year period preceding the test year, provide expenses for: (i) labor; (ii) overtime; and premium expenses, and provide a definition for what the company includes as premium expenses.

A-169. The table below represents labor, overtime, and premium pay reported for LG&E for the five years preceding the test year.

<b>Year</b>	<b>Labor</b>	<b>Overtime</b>	<b>Premium Pay</b>	<b>Total</b>
2007	\$ 71,204,168	\$ 8,240,106	\$ 566,791	\$ 80,011,065
2008	71,854,485	10,971,180	656,135	83,481,800
2009	78,907,747	9,714,125	645,085	89,266,957
2010	84,762,317	8,554,811	577,608	93,894,736
2011	86,216,633	9,823,408	663,633	96,703,674

Premium pay expense represents additional pay for work regularly performed outside normal daytime hours.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 170**

**Responding Witness: Valerie L. Scott**

Q-170. State whether the filing includes any provision for corporate performance awards. If so, list the dollar amount for each program. Identify into which accounts and in what amounts it has been accrued.

A-170. The Team Incentive Award (TIA) is the only corporate performance award provided to employees. See attached.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 171**

**Responding Witness: Valerie L. Scott**

Q-171. Does overtime include normal pay plus premium or just premium? Identify the level of premium pay for 2009, 2010 and 2011.

A-171. Overtime includes straight time pay, overtime pay differentials and premium pay. The Company does not record straight time pay and overtime pay differentials separately for employees earning overtime pay rates. Premium pay (e.g. additional pay for work regularly performed outside normal daytime hours) is recorded separately. The table below represents premium pay reported for LG&E in 2009, 2010 and 2011.

<b>Year</b>	<b>Premium Pay</b>
2009	715,324
2010	646,689
2011	758,059

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 172**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-172. Please provide a copy of any Company labor productivity analyses which have been performed during the past three years.

A-172. While there are not any overall Company labor productivity analyses, employee performance is continuously evaluated at all levels of the company.

Salaried managers and employees work together to develop performance objectives, specify achievable measurements and select appropriate competencies in relation to objectives and for developmental purposes.

Managers and employees meet periodically to review performance. They note progress on achievement against objectives, competencies and the goals set forth in Individual Development Plans. They also address areas where the employee needs to improve performance in order to reach objectives or demonstrate appropriate work behaviors.

Non-salaried employees receive feedback on tasks and skills using pre-determined accountabilities.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 173**

**Responding Witness: Daniel K. Arbough**

Q-173. Please provide a copy of the Company's most recent pension plan and post-retirement benefits actuarial studies.

A-173. Refer to PSC 1-54(c) for the most recent post retirement actuarial study and to KIUC 1-1 for the actuarial report for the 2012 pension expense and the 2012 post employment expense.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information**

**Dated July 31, 2012**

**Question No. 174**

**Responding Witness: Daniel K. Arbough**

Q-174. With regard to pension expense:

- a. Please provide the most recent actuarial study.
- b. Please identify the amount of pension expense included in 2009, 2010 and 2011. Also please provide workpapers showing the derivation of these amounts.
- c. Please state whether the pension expense provided in part b, includes interest charges or earnings based on the time of payment. If yes, please identify the amount and provide workpapers or supporting documentation.
- d. Please state the frequency with which pension contributions are made and the relationship of the payment date(s) to the period for which the contribution is being made. If the pension contributions are paid to the parent or service company, please identify both Company payment date(s) and the date(s) on which the contribution is actually made by the affiliate.
- e. Please identify where pension expense has been included in the last working capital study and how the pension contribution date was recognized in determining the lag days for that category.
- f. Please describe and quantify the effects FASB 87, 88 and 158 had on the pension plans for the Company for 2009, 2010 and 2011 if fully reflected.

A-174. a. See attached.

- b. Refer to part a. for the 2011 Mercer year-end disclosure, and see attached for 2009 and 2010 disclosures, that support all assumptions used and the derivation of the calculations detailed below.

	<u>2009</u>	<u>2010</u>	<u>2011</u>
<b>LG&amp;E Charging</b>			
<b>LG&amp;E:</b>			
Mercer net periodic benefit cost	\$ 25,213,118	\$ 20,455,167	\$ 21,012,530
Expense Allocation %	<u>72.75%</u>	<u>72.22%</u>	<u>74.95%</u>
	<u>18,342,923</u>	<u>14,772,539</u>	<u>15,748,689</u>
<b>Servco Charging</b>			
<b>LG&amp;E:</b>			
Mercer net periodic benefit cost	21,586,653	20,850,249	22,626,552
Servco Allocation %	<u>42.78%</u>	<u>44.03%</u>	<u>45.65%</u>
	<u>9,234,860</u>	<u>9,179,831</u>	<u>10,329,358</u>
Expense Allocation %	<u>86.10%</u>	<u>85.25%</u>	<u>85.01%</u>
	<u>7,950,884</u>	<u>7,826,179</u>	<u>8,781,219</u>
<b>Others Charging</b>			
<b>LG&amp;E:</b>			
	<u>123,711</u>	<u>100,494</u>	<u>157,848</u>
Total LG&E Expense:	<u>\$ 26,417,518</u>	<u>\$ 22,699,212</u>	<u>\$ 24,687,756</u>

- c. Mercer takes the expected date of plan contributions by the Company into consideration when calculating net periodic pension cost. However, Mercer does not separately disclose the interest charges or expected earnings resulting from variations in payment dates. Contribution dates have been consistent with the assumptions made by Mercer.
- d. LG&E made discretionary contributions to the pension plan of \$7.9 million in April 2009, \$19.9 million in January 2010, \$64 million in January 2011 and \$21.3 million in January 2012. The amount of future contributions to the pension plan will depend upon the actual return on plan assets and other factors, but the Company's policy is to fund the greater of the amount required by the Pension Protection Act of 2006 (the "PPA") or the FAS 87 pension expense for the year. The Company's policy also calls for contributions to be made to ensure that the plan is funded to at least 80% of the PPA target liability. Contributions are made to the plan by the services company and are reimbursed by LG&E in the following calendar month.

- e. Not applicable. The Company does not perform working capital studies.
- f. FASB 87 was adopted in 1987 and FASB 158 was adopted in 2006. The impact of the implementation of FASB 158 is discussed in PSC 1-53. The amounts provided in b. above include the effects of the adoption of both FASB 87 and 158. Since the Company has not curtailed its plans, FASB 88 does not apply.

Ms. Kelli Higdon  
LG&E and KU Energy LLC  
220 West Main Street  
Louisville, KY 40202

January 13, 2012

Dear Kelli:

Enclosed are the revised year-end disclosure exhibits (for both financial and regulatory accounting purposes) for the Qualified Retirement Plans and SERPs of LG&E and KU Energy LLC for the fiscal year ending December 31, 2011. The disclosure exhibits were revised to reflect year-end discount rates determined by the Towers Watson Bond Model and updated market value of assets as of December 31, 2011.

We used the September 30, 2010 valuation data to compute the liability amounts as of December 31, 2011. This is the same data that was used to determine the net periodic pension cost for the fiscal year beginning January 1, 2011 and ending December 31, 2011 as shown in the valuation report dated November 2011. Liabilities were rolled from January 1, 2011 to December 31, 2011 using actual 2011 benefit payments.

The actuarial assumptions and methods used to determine the liability amounts as of December 31, 2011 are the same as those used in the determination of the net periodic pension cost for the fiscal year beginning January 1, 2011 and ending December 31, 2011 as shown in the valuation report dated November 2011, with the following exceptions:

1. The healthy mortality tables were updated to reflect the tables required under the Pension Protection Act for plan years beginning in 2012.
2. The retirement rate at age 60 was changed from .15 to .10 and the retirement rate at age 62 was changed from .625 to .500.
3. The salary increase assumption was changed from 5.25% to 4.00% per annum, the taxable wage base increase assumption was changed from 4.00% to 3.50% per annum and the COLA increase assumption was changed from 3.00% to 2.50% per annum.
4. The discount rates were updated to reflect those determined by the Towers Watson Bond Model as of December 31, 2011 based on the individual plans' cash flows.

Page 2  
January 13, 2012  
Ms. Kelli Higdon  
LG&E and KU Energy LLC

The plan provisions used in determining the year-end liability amounts are the same as those used in the determination of the net periodic pension cost for the fiscal year beginning January 1, 2011 and ending December 31, 2011 as shown in the valuation report dated November 2011 with the exception that for the LG&E Union Plan, the negotiated increases in the benefit multipliers were incorporated. Specifically, the multipliers increase to \$72/\$85/\$91 on January 1, 2012, \$74/\$87/\$94 on January 1, 2013 and \$76/\$90/\$97 on January 1, 2014.

We relied upon asset information as provided by you in order to complete the disclosures.

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

If you have any questions or need anything else, please give me a call.

Mercer has prepared this report exclusively to assist LG&E and KU Energy LLC and its auditors in preparing financial reports under US accounting standards for defined benefit pension plans relating to the LG&E and KU Energy LLC Retirement Plans for the fiscal year ending December 31, 2011.

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and others are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this

Page 3  
January 13, 2012  
Ms. Kelli Higdon  
LG&E and KU Energy LLC

report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

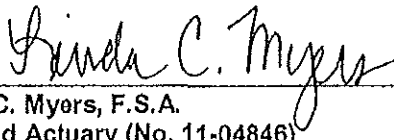

To prepare this report, Mercer has used and relied on financial data submitted by the trustee as well as participant data supplied by the plan sponsor. The data used is referenced above. We have reviewed the financial and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments, supplied by the plan sponsor, as summarized in the Summary of Plan Provisions section of the valuation report containing the net periodic pension cost for the fiscal year end December 31, 2011, dated November 2011. LG&E and KU Energy LLC is solely responsible for the validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

220 West Main Street  
Louisville, KY 40202

**Private & Confidential**

Dear Kelli:

Enclosed are the FAS disclosure exhibits (for both financial and regulatory accounting purposes) for the Qualified Retirement Plans and SERPs of LG&E and KU Energy LLC for the period from January 1, 2010 through October 31, 2010.

We used the September 30, 2009 valuation data to compute the liability amounts as of October 31, 2010. This is the same data that was used to determine the 2010 FAS 87 expense for the period from January 1, 2010 through October 31, 2010 as shown on the enclosed disclosures.

The actuarial assumptions and methods used to determine the liability amounts as of October 31, 2010 are the same as those used in the determination of the 2010 FAS 87 expense with the exception that the discount rates were determined by the Mercer Yield Curve as of October 31, 2010 based on matching projected benefit cash flows by plan. A discount rate of 5.00% (the long-term assumption for lump sums) was used for the WKE Union Plan.

The plan provisions used in determining the year-end liability amounts are the same as those used in the determination of the 2010 FAS 87 expense. We also calculated the FAS 88 settlement charges for the WKE Union Plan for 2010.

We relied upon asset information as provided by you in order to complete the disclosures.

If you have any questions or need anything else, please give me a call.

Mercer has prepared this report exclusively to assist LG&E and KU Energy LLC and its auditors in preparing financial reports under US accounting standards for defined benefit pension plans relating to the LG&E and KU Energy LLC Retirement Plans for the period from January 1, 2010 through October 31, 2010.

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and others are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

To prepare this report, Mercer has used and relied on financial data submitted by the trustee as well as participant data supplied by the plan sponsor. The data used is referenced above. We have reviewed the financial and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments, supplied by the plan sponsor, as summarized in the Summary of Plan Provisions section of the 2009 FAS valuation report. LG&E and KU Energy LLC is solely responsible for the validity,

accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

We are available to answer any questions on the material contained in the report, or to provide explanations or further details as may be appropriate. The undersigned credentialed actuaries meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained in this report. We are not aware of any direct or material indirect financial interest or relationship, including investments or other services that could create a conflict of interest, that would impair the objectivity of our work.

Louisville, KY 40202

**Private & Confidential**

Dear Kelli:

Enclosed are the FAS disclosure exhibits (for both financial and regulatory accounting purposes) for the Qualified Retirement Plans and SERPs of LG&E and KU Energy LLC for the period from November 1, 2010 through December 31, 2010.

We used the September 30, 2009 valuation data to compute the liability amounts as of December 31, 2010. This is the same data that was used to determine the 2010 FAS 87 expense for the period from November 1, 2010 through December 31, 2010 as shown on the enclosed disclosures.

The actuarial assumptions and methods used to determine the liability amounts as of December 31, 2010 are the same as those used in the determination of the November 1, 2010 to December 31, 2010 FAS 87 expense with the exception that the discount rates were determined by the Towers Watson Yield Curve as of December 31, 2010. In addition, the healthy mortality tables were updated to reflect the tables required under the Pension Protection Act for plan years beginning in 2011. Lastly, for the 2011 expected amortization of actuarial losses/(gains), we have incorporated PPL's market-related value of assets methodology prospectively from November 1, 2010.

The plan provisions used in determining the year-end liability amounts are the same as those used in the determination of the 2010 FAS 87 expense.

We relied upon asset information as provided by you in order to complete the disclosures.

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and

# MERCER

Page 2  
January 6, 2011  
Ms. Kelli Higdon  
LG&E and KU Energy LLC

expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

If you have any questions or need anything else, please give me a call.

Mercer has prepared this report exclusively to assist LG&E and KU Energy LLC and its auditors in preparing financial reports under US accounting standards for defined benefit pension plans relating to the LG&E and KU Energy LLC Retirement Plans for the period from November 1, 2010 through December 31, 2010.

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and others are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

# MERCER

Page 3

January 6, 2011

Ms. Kelli Higdon

LG&E and KU Energy LLC

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

To prepare this report, Mercer has used and relied on financial data submitted by the trustee as well as participant data supplied by the plan sponsor. The data used is referenced above. We have reviewed the financial and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments, supplied by the plan sponsor, as summarized in the Summary of Plan Provisions section of the 2009 FAS valuation report. LG&E and KU Energy LLC is solely responsible for the validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

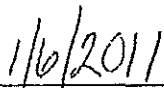

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

**Private & Confidential**

Dear Kelli:

Enclosed are the FAS year-end disclosure exhibits (for both financial and regulatory accounting purposes) for the Qualified Retirement Plans and SERPs of E.ON U.S. LLC for the fiscal year ending December 31, 2009.

We used the September 30, 2008 valuation data to compute the year-end liability amounts. This is the same data that was used to determine the 2009 FAS 87 expense.

The actuarial assumptions and methods used to determine the year-end liability amounts are the same as those used in the determination of the 2009 FAS 87 expense with the exception that the discount rates were determined by the Mercer Yield Curve as of December 28, 2009 based on matching projected benefit cash flows by plan. These discount rates were then lowered by 8 basis points for the average change in the 4 bond indices (that were previously communicated in my January 4, 2010 memo to you regarding Mercer Yield Curve Results) for the period from December 28, 2009 to December 31, 2009. A discount rate of 5.00% (the long-term assumption for lump sums) was used for the WKE Union Plan. In addition, the healthy mortality tables were updated to reflect the tables required under the Pension Protection Act for plan years beginning in 2010.

The plan provisions used in determining the year-end liability amounts are the same as those used in the determination of the 2009 FAS 87 expense. The effects of the WKE transaction with Big Rivers were also reflected.

We relied upon the year-end asset information as provided by you in order to complete the disclosures.

E.ON U.S. LLC

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

If you have any questions or need anything else, please give me a call.

Mercer has prepared this report exclusively to assist E.ON U.S. LLC and its auditors in preparing financial reports under US accounting standards for defined benefit pension plans relating to the E.ON U.S. LLC Retirement Plans for the fiscal year ending December 31, 2009.

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and others are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited

E.ON U.S. LLC

scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

To prepare this report, Mercer has used and relied on financial data submitted by the trustee as well as participant data supplied by the plan sponsor. The data used is referenced above. We have reviewed the financial and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments, supplied by the plan sponsor, as summarized in the Summary of Plan Provisions section of the 2009 FAS and IAS valuation report. E.ON U.S. LLC is solely responsible for the validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 175**

**Responding Witness: Daniel K. Arbough**

Q-175. What rate of interest is the Company currently earning on its pension plan fund balance?

A-175. The LG&E Union plan earned rates of return of 8.4%, 12.3%, and 21.6% on its pension plan fund balance for years 2011, 2010, and 2009, respectively (net of fees). The three-year and five-year returns as of year-end 2011 were 14.0% and 3.6%, respectively.

The LG&E Non-Union plan earned rates of return of 8.5%, 12.0%, 22.7% on its pension plan fund balance for years 2011, 2010, and 2009, respectively (net of fees). The three-year and five-year returns as of year-end 2011 were 14.2% and 3.9%, respectively.

The assumed rate of return used in 2012 expense calculations is 7.25%.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 176**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-176. Has the Company considered reducing the amount of post-retirement health care, dental and life insurance coverage? If yes, provide details of any proposed reductions. If no, provide an explanation of why not.

A-176. The Company regularly reviews our benefit offerings to ensure we are competitive. Noted below are changes to Post Retirement Medical and Post Retirement Life benefits.

**Post Retirement Medical**

The Company reduced the amount of post retirement medical coverage for employees hired or rehired after 1/1/06.

- Future retirees, age 55 with at least 10 years of service, with a hire or rehire date on or after 1/1/06 are eligible for a retiree premium account that is credited with a one-time contribution credit equal to \$2,000 multiplied by the retiree's full years of service after age 45, but not to exceed \$30,000. In addition, for the retiree's dependents, a separate premium account equal to fifty percent of the retiree's premium account is provided. Retirees can use the premium account to pay for the full cost or partial cost for retiree medical coverage, however when the premium account is depleted, the retiree pays the full monthly cost of the retiree medical coverage.

**Post Retirement Life**

The Company reduced the amount of post retirement life insurance for salaried LG&E employees who retired after 1/1/00.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 177**

**Responding Witness: Daniel K. Arbough**

Q-177. Provide a complete copy of any and all actuarial reports prepared by or for the Company during the past three years concerning the cost of post-retirement benefits other than pensions.

A-177. Attachment 001 is the December 31, 2009 actuarial report, attachment 002 is the October 31, 2010 actuarial report, attachment 003 is the December 31, 2010 actuarial report, and attachment 004 is the December 31, 2011 actuarial report. There was a report issued as of October 31, 2010 due to the acquisition of E.ON US LLC by PPL Corporation.

Ms. Kelli Higdon  
LG&E and KU Energy LLC  
220 West Main Street  
Louisville, KY 40232

January 13, 2012

**Subject: Year End Disclosure for Postretirement Benefit Plan Under ASC 715, Revised**

Dear Kelli:

We have enclosed the revised year end disclosure exhibits (for both financial and regulatory accounting purposes) for the Postretirement Benefit Plan of LG&E and KU Energy LLC for the fiscal year ending December 31, 2011. As requested, we have revised the previous disclosure exhibits to reflect the discount rate determined by the Towers Watson Bond Model and updated market value of assets as of December 31, 2011.

We used the September 30, 2010 valuation data to compute the December 31, 2011 liability amounts. This is the same data that was used to determine the 2011 ASC 715 expense.

The actuarial assumptions and methods used to determine the December 31, 2012 liability amounts are the same as those used in the determination of the 2011 expense with the following exceptions:

- The discount rate was updated to 4.78% to reflect the rate determined by the Towers Watson Bond Model as of December 31, 2011 based on the Plan's cash flows.
- The healthy mortality tables were updated to reflect the tables required for defined benefit pension plans under the Pension Protection Act for the plan years beginning in 2012.
- The salary scale was decreased from 5.25% to 4%.
- Retirement rates at age 60 and 62 were updated to 10% and 50% from 15% and 62.5%, respectfully.

The plan provisions used in determining the December 31, 2011 liability amounts changed from those used in the determination of the 2011 expense. Effective January 1, 2012, the monthly retiree credit increased from \$190 per month to \$200. Furthermore, effective for retirees hired before 2006 and retiring on or after January 1, 2012, the monthly retiree credit of \$200 continues until attained age 62, which at such time the credit increased to \$465. The \$465 retiree credit continues until attained age 65, which at such time the retiree credit reverts to \$200.

Page 2  
January 13, 2012  
Ms. Kelli Higdon  
LG&E and KU Energy LLC

The asset values, benefit payments, contributions and plan expense amounts from the non-union and union VEBA's and 401(h) account and death benefit premiums were provided by LG&E and KU Energy LLC. Employer contributions for 2011 and year end accruals were also provided by entity by LG&E and KU Energy LLC. Note that the year end benefit obligation includes the impact of the Medicare Modernization Act of 2003 (MMA) using the same assumptions and methods as those used in the determination of the 2011 expense. We have assumed any impact due to Health Reform legislation is deemed immaterial.

In addition, the disclosure exhibits include a schedule of the estimated future benefit payments and the estimated gross amount of Medicare subsidy receipts. We have also included a special disclosure for the impact of MMA.

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

Mercer has prepared this report exclusively for LG&E and KU Energy LLC, subject to this limitation, LG&E and KU Energy LLC may direct that this report be provided to its auditors in connection with the audit of its financial statements. Mercer is not responsible for use of this report by any other party.

The only purpose of this report is to present Mercer's actuarial estimates of liabilities as of December 31, 2011 for other Postretirement Benefit plans relating to LG&E and KU Energy LLC to incorporate, as LG&E and KU Energy LLC deems appropriate, in its financial statements under US accounting standards.

This report may not be used for any other purpose. Mercer is not responsible for the consequences of any unauthorized use. Its content may not be modified, incorporated into or used in other material, sold or otherwise provided, in whole or in part, to any other person or entity, without Mercer's permission.

All parts of this report, including any documents incorporated by reference, are integral to understanding and explaining its contents, no part may be taken out of context, used or relied upon without reference to the report as a whole.

Ms. Kelli Higdon  
LG&E and KU Energy LLC

This is not an AFTAP certification under IRC Section 436.

Decisions about benefit changes, granting new benefits, investment policy, funding policy, benefit security and/or benefit-related issues should not be made on the basis of this valuation, but only after careful consideration of alternative economic, financial, demographic and societal factors, including financial scenarios that assume future sustained investment losses.

The plan sponsor is ultimately responsible for selecting the plan's accounting policies, methods and assumptions. The policies, methods, and assumptions used in this valuation are described above. The plan sponsor is solely responsible for communicating to Mercer any changes required to those policies, methods and assumptions.

This report was prepared in accordance with generally accepted actuarial principles and procedures. The results reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

This report is based on our understanding of applicable law and regulations as of the valuation date. Mercer is not an accountant or auditor and is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. Mercer is not engaged in the practice of law. This report does not constitute and is not a substitute for legal advice.

LG&E and KU Energy LLC should notify Mercer promptly after receipt of the valuation report if LG&E and KU Energy LLC disagrees with anything contained in the valuation report or is aware of any information that would affect the results of the valuation report that has not been communicated to Mercer or incorporated therein. The valuation report will be deemed final and acceptable to LG&E and KU Energy LLC unless LG&E and KU Energy LLC promptly provides such notice to Mercer.

### Professional qualifications

We are available to answer any questions on the material contained in the report, or to provide explanations or further details as may be appropriate. Collectively, the credentialed actuaries Marcie Gunnell and Linda Myers meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained in this report. We are available to answer any questions on the material contained in the report, or to provide explanations or further details as may be appropriate. We are not aware of any direct or material indirect financial interest or relationship, including investments or other services that could create a conflict of interest that would impair the objectivity of our work.

Please distribute copies of this letter to the appropriate parties. If you have any questions, please call me at 502 561 4622 or Patrick Baker at 502 561 4504.

Sincerely,

A handwritten signature in cursive script that reads 'Marcie S. Gunnell'.

Marcie S. Gunnell, A.S.A., M.A.A.A.  
Principal

Copy: Dan Arbough, Henry Erk, Linda Myers, Marcie Gunnell, Ryan Sloat, Eric Geissler

Enclosure

**The information contained in this document (including any attachments) is not intended by Mercer to be used, and it cannot be used, for the purpose of avoiding penalties under the Internal Revenue Code that may be imposed on the taxpayer.**

Assumed health care cost trend

Assumed health care cost trend rates can have a significant effect on the amounts reported for the health care plan. LG&E and KU Energy LLC's plan design reduces the impact of cost fluctuations by capping a portion of LG&E and KU Energy LLC's obligation. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	One-Percentage-Point Decrease					
Effect on total of service and interest cost components	\$ (117,060)	\$ (81,611)		\$ (228,334)	\$	
Effect on year-end benefit obligation	(1,286,427)	(564,883)		(3,558,440)		
	Point Increase

**Subject:** FAS Year End Disclosure for Postretirement Benefit Plan

Dear Kelli:

We have enclosed the FAS year end disclosure exhibits (for both financial and regulatory accounting purposes) for the Postretirement Benefit Plan of LG&E and KU Energy LLC for the period November 1, 2010 through December 31, 2010.

We used the September 30, 2009 valuation data to compute the December 31, 2010 liability amounts. This is the same data that was used to determine the 2010 FAS 106 expense for the period from November 1, 2010 through December 31, 2010 as shown on the enclosed disclosures.

The actuarial assumptions and methods used to determine the December 31, 2010 liability amounts are the same as those used in the determination of the 2010 FAS 106 expense for the period from November 1, 2010 through December 31, 2010 with the exception that the 5.12% discount rate was determined by the Towers Watson Yield Curve as of December 31, 2010. In addition, the healthy mortality tables were updated to reflect the tables required for defined benefit pension plans under the Pension Protection Act for the plan years beginning in 2011.

The plan provisions used in determining the December 31, 2010 liability amounts are the same as those used in the determination of the 2010 FAS 106 expense.

The asset values, benefit payments, contributions and plan expense amounts from the non-union and union VEBA's and 401(h) account and death benefit premiums were provided by LG&E and KU Energy LLC. Employer contributions for the period from November 1, 2010 through December 31, 2010, and December 31, 2010 accruals were also provided by entity by LG&E and KU Energy LLC. Note that the FAS year end benefit obligation includes the impact of the Medicare Modernization Act of 2003 (MMA) using the same assumptions and methods as those used in the determination of the 2010 FAS 106 expense for the period

# MERCER

January 6, 2011

Ms. Kelli Higdon

LG&E and KU Energy LLC

from November 1, 2010 through December 31, 2010. We have assumed any impact due to Health Reform legislation is deemed immaterial.

In addition, the disclosure exhibits include a schedule of the estimated future benefit payments and the estimated gross amount of Medicare subsidy receipts. We have also included a special disclosure for the impact of MMA for FAS 109 purposes.

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

Mercer has prepared this report exclusively to assist LG&E and KU Energy LLC and its auditors in preparing financial reports under US accounting standards for the Postretirement Benefit Plan of LG&E and KU Energy LLC for the period from November 1, 2010 through December 31, 2010.

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and other variables are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition,

# MERCER

Page 3

January 6, 2011

Ms. Kelli Higdon

LG&E and KU Energy LLC

different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of changes in mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

### ***Data and plan provisions***

To prepare this report, Mercer has used and relied on financial data submitted by LG&E and KU Energy LLC, and claims, premium and participant data supplied by the plan sponsor, third party administrator or insurance carrier. We have reviewed the financial, claims, premium and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments and summary plan descriptions, supplied by the plan sponsor, as described above. LG&E and KU Energy LLC is solely responsible for the validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

### ***Accounting results***

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described above. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

Health care cost trend rate assumed for next year	9.00%	9.00%		9.00%		
Rate to which the cost trend rate is assumed to decline (the ultimate trend rate)	5.50%	5.50%		5.50%		
Year that the rate reaches the ultimate trend rate	2019	2019		2019		

Assumed health care cost trend

Assumed health care cost trend rates can have a significant effect on the amounts reported for the health care plan. LG&E and KU Energy LLC's plan design reduces the impact of cost fluctuations by capping a portion of LG&E and KU Energy LLC's obligation. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	One-Percentage-Point Decrease					
Effect on total of service and interest cost components	\$ (22,086)	\$ (17,007)		\$ (42,753)	\$	\$
Effect on year-end benefit obligation	(1,430,531)	(597,840)		(3,654,586)		
	One-Percentage-Point Increase					
Effect on total of service and interest cost components	\$ 25,127	\$ 19,018		\$ 48,126	\$	\$
Effect on year-end benefit obligation	1,587,918	653,798		4,102,510

Year that the rate reaches the ultimate trend rate	2019	2019		2019		

Assumed health care cost trend

Assumed health care cost trend rates can have a significant effect on the amounts reported for the health care plan. LG&E and KU Energy LLC's plan design reduces the impact of cost fluctuations by capping a portion of LG&E and KU Energy LLC's obligation. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	One-Percentage-Point Decrease					
Effect on total of service and interest cost components	\$ (22,086)	\$ (17,007)		\$ (42,753)	\$	
Effect on year-end benefit obligation	(1,430,531)	(597,840)		(3,654,586)		
	One-Percentage-Point Increase					
Effect on total of service and interest cost components	\$ 25,127	\$ 19,018		\$ 48,126	\$	
Effect on year-end benefit obligation	1,587,918	653,798		4,102,510

**Subject:** FAS October 31, 2010 Disclosure for Postretirement Benefit Plan

Dear Kelli:

We have enclosed the FAS October 31, 2010 disclosure exhibits (for both financial and regulatory accounting purposes) for the Postretirement Benefit Plan of E.ON U.S. LLC for the period January 1, 2010 through October 31, 2010.

We used the September 30, 2009 valuation data to compute the October 31, 2010 liability amounts. This is the same data that was used to determine the 2010 FAS 106 expense.

The actuarial assumptions and methods used to determine the October 31, 2010 liability amounts are the same as those used in the determination of the 2010 FAS 106 expense with the exception that the 4.96% discount rate was determined by the Mercer Yield Curve as of October 31, 2010 based on matching projected benefit cash flows.

The plan provisions used in determining the October 31, 2010 liability amounts are the same as those used in the determination of the 2010 FAS 106 expense.

The asset values, benefit payments, contributions and plan expense amounts from the non-union and union VEBA's and 401(h) account and death benefit premiums were provided by E.ON U.S. LLC. Employer contributions for 2010 and October 31, 2010 accruals were also provided by entity by E.ON U.S. LLC. Note that the FAS year end benefit obligation includes the impact of the Medicare Modernization Act of 2003 (MMA) using the same assumptions and methods as those used in the determination of the 2010 FAS 106 expense.

Mercer has prepared this report exclusively to assist E.ON U.S. LLC and its auditors in preparing financial reports under US accounting standards for the Postretirement Benefit Plan of E.ON U.S. LLC for the period January 1, 2010 through October 31, 2010.

Ms. Kelli Higdon

E.ON U.S. LLC

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and other variables are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, *actuarial assumptions*, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of changes in mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

### ***Data and plan provisions***

To prepare this report, Mercer has used and relied on financial data submitted by E.ON U.S. LLC, and claims, premium and participant data supplied by the plan sponsor, third party administrator or insurance carrier. We have reviewed the financial, claims, premium and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments and summary plan descriptions, supplied by the plan sponsor, as described above. E.ON U.S. LLC is solely responsible for the

# MERCER

E.ON U.S. LLC

validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

### ***Accounting results***

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described in the "actuarial basis" section of this report. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

### ***Professional qualifications***

We are available to answer any questions on this material, or to provide explanations or further details, as may be appropriate. Collectively, the credentialed actuaries Marcie Gunnell and Linda Myers meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained in this letter. We are not aware of any direct or material indirect financial interest or relationship, including investments or other services that could create a conflict of interest, that would impair the objectivity of our work.

**Private & Confidential**

**Subject:** FAS Year-End Disclosure for Postretirement Benefit Plan

Dear Kelli:

We have enclosed the FAS year-end disclosure exhibits (for both financial and regulatory accounting purposes) for the Postretirement Benefit Plan of E.ON U.S. LLC for the fiscal year ending December 31, 2009. As requested, we have updated the exhibits issued January 6, 2010 based on the revised retiree death benefit premium information.

We used the September 30, 2008 valuation data to compute the year end liability amounts. This is the same data that was used to determine the 2009 FAS 106 expense.

The actuarial assumptions and methods used to determine the year end liability amounts are the same as those shown in the 2009 valuation report with the exception that the discount rates were determined by the Mercer Yield Curve as of December 28, 2009 based on matching projected benefit cash flows. These discount rates were then lowered by 8 basis points for the average change in the 4 bond indices (that were previously communicated in Linda Myers' January 4, 2010 memo to you regarding Mercer Yield Curve Results) for the period from December 28, 2009 to December 31, 2009. This results in a discount rate of 5.82%. In addition, the healthy mortality tables were updated to reflect the tables required for defined benefit pension plans under the Pension Protection Act for plan years beginning in 2010 and the healthcare cost trend rates were updated.

The plan provisions used in determining the year end liability amounts are the same as those shown in the 2009 actuarial valuation report, including the effects of the WKE transaction with Big Rivers.

The asset values, benefit payments, contributions and plan expense amounts from the non-union and union VEBA's and 401(h) account and death benefit premiums were provided by

Ms. Kelli Higdon

E.ON U.S. LLC

E.ON U.S. LLC. Employer contributions for 2009 and year end accruals were also provided by entity by E.ON U.S. LLC. Note that the FAS year end benefit obligation includes the impact of the Medicare Modernization Act of 2003 (MMA) using the same assumptions and methods as those used in the determination of the 2009 FAS 106 expense.

In addition, the disclosure exhibits include a schedule of the estimated future benefit payments and the estimated gross amount of Medicare subsidy receipts. We have also included a special disclosure for the impact of MMA for FAS 109 purposes.

Lastly, please remember to include the FASB disclosure requirements regarding asset allocation, a narrative on management's rationale for the expected rate of return, management's description of investment policies and strategies for plan assets and expected contributions for the next fiscal year. Please note that for years ending after December 15, 2009 asset disclosures need to comply with FASB Staff Position (FSP) No. FAS 132(R)-1 with regard to objectives, fair value measurement, risk concentrations and expanded breakdown by category.

Mercer has prepared this report exclusively to assist E.ON U.S. LLC and its auditors in preparing financial reports under US accounting standards for the Postretirement Benefit Plan of E.ON U.S. LLC for the fiscal year ending December 31, 2009.

This valuation report may not be used or relied upon by any other party or for any other purpose. Mercer is not responsible for the consequences of any unauthorized use.

A valuation report is a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict a pension plan's future financial condition or its ability to pay benefits in the future.

Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, plan expenses and the amount earned on any assets invested to pay the benefits. These amounts and other variables are uncertain and unknowable at the valuation date, but are predicted to fall within a reasonable range of possibilities.

To prepare this report, actuarial assumptions, as described above, are used to select a single scenario from the range of possibilities. The results of that single scenario are included in this report. However, the future is uncertain and the plan's actual experience will

# MERCER

MARSH MERCER KROLL  
GUY CARPENTER OLIVER WYMAN

Page 3  
January 7, 2010  
Ms. Kelli Higdon  
E.ON U.S. LLC

differ from those assumptions; these differences may be significant or material. In addition, different assumptions or scenarios may also be within the reasonable range and results based on those assumptions would be different. Actuarial assumptions may also be changed from one valuation to the next because of changes in mandated requirements, plan experience, changes in expectations about the future and other factors. Due to the limited scope of our assignment, we did not perform, and thus do not present, an analysis of the potential range of future possibilities and scenarios.

Because actual plan experience will differ from the assumptions, decisions about benefit changes, investment policy, funding amounts, benefit security and/or benefit related issues should be made only after careful consideration of alternative future financial conditions and scenarios, and not solely on the basis of a valuation report or reports.

## Data and plan provisions

To prepare this report, Mercer has used and relied on financial data submitted by E.ON U.S. LLC, and claims, premium and participant data supplied by the plan sponsor, third party administrator or insurance carrier. We have reviewed the financial, claims, premium and participant data for internal consistency and general reasonableness, but we have not verified or audited any of the data or information provided. We have also used and relied upon the plan documents, including amendments and summary plan descriptions, supplied by the plan sponsor, as described above. E.ON U.S. LLC is solely responsible for the validity, accuracy and comprehensiveness of this information; if the data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report.

## Accounting results

The valuation of the plan was performed in accordance with generally accepted actuarial principles and procedures. The accounting calculations reported herein are based on the assumptions and methods described in the "actuarial basis" section of this report. The actuarial assumptions were selected by the company. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

**Assumed health care cost trend**

Assumed health care cost trend rates can have a significant effect on the amounts reported for the health care plan. E.ON U.S. LLC's plan design reduces the impact of cost fluctuations by capping a portion of E.ON U.S. LLC's obligation. A one-percentage-point change in assumed health care cost trend rates would have the following effects:

	One-Percentage-Point Decrease					
Effect on total of service and interest cost components	\$ (149,333)	\$ (90,315)		\$ (284,414)		
Effect on year-end benefit obligation	(1,535,767)	(585,810)		(3,996,785)

## LOUISVILLE GAS AND ELECTRIC COMPANY

CASE NO. 2012-00222

Response to Attorney General's Initial Requests for Information

Dated July 31, 2012

Question No. 178

Responding Witness: Daniel K. Arbough

Q-178. Post-Retirement benefits other than pensions (OPEB's).

- a. Please provide complete workpapers showing the derivation of OPEB expense for 2009, 2010 and 2011.
- b. Please show all assumptions and the basis of all calculations.

A-178. a. See table below.

	<u>2009</u>	<u>2010</u>	<u>2011</u>
<b>LG&amp;E Charging</b>			
<b>LG&amp;E:</b>			
Mercer net periodic benefit cost	\$ 8,189,473	\$ 7,131,508	\$ 7,178,993
Expense Allocation %	73.92%	72.97%	75.93%
	<u>6,053,452</u>	<u>5,203,615</u>	<u>5,450,944</u>
<b>Servco Charging</b>			
<b>LG&amp;E:</b>			
Mercer net periodic benefit cost	2,188,474	2,141,579	1,906,399
Servco Allocation %	42.73%	44.02%	45.63%
	935,077	942,747	869,867
Expense Allocation %	85.91%	85.51%	85.06%
	<u>803,279</u>	<u>806,145</u>	<u>739,949</u>
<b>Others Charging</b>			
<b>LG&amp;E:</b>	<u>45,785</u>	<u>37,578</u>	<u>43,481</u>
Total LG&E Expense:	<u><u>\$ 6,902,516</u></u>	<u><u>\$ 6,047,338</u></u>	<u><u>\$ 6,234,374</u></u>

- b. Refer to Question No. 177 for Mercer year-end disclosures for 2009, 2010 and 2011 that support all assumptions used and the derivation of the calculations detailed above.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 179**

**Responding Witness: Daniel K. Arbough**

Q-179. List expense amounts for workers compensation insurance and claims for each year 2009, 2010 and 2011. Indicate in which expense accounts these items are recorded.

A-179. See the response to Question No. 219.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 180**

**Responding Witness: Valerie L. Scott**

Q-180. Please state whether any amounts have been booked during the test period by the Company for the liability created pursuant to any employment severance compensation agreements.

A-180. Severance compensation paid by the Company during the test period totaled \$152,623. No liabilities have been created pursuant to any employment severance compensation agreements. Severance compensation is excluded from the revenue requirement via the proforma adjustment at Blake Exhibit 1, Reference Schedule 1.13, including adjustments in response to PSC 2-66 (b).

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information**

**Dated July 31, 2012**

**Question No. 181**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-181. Please list all steps the Company has taken to reduce the cost of medical insurance.

- a. Does the Company's insurance coverage require a coordination of benefits and, if so, how does it function?
- b. Does the Company plan require a co-pay percentage by the employee? If so, what is the percentage and has it increased over the past three years? State the various levels over the past three years.

A-181.

- In 2012, the Company added a \$200/mo. surcharge for working spouses of full-time employees who did not enroll in the spouse's employer's medical plan, if eligible for coverage.
- For 2012, the Company conducted an employed spouse premium verification audit to ensure that the \$200/mo. spouse surcharge rules were followed.
- In 2011, the Company unbundled prescription drug coverage from the medical vendor and joined a pharmacy benefit collective to obtain lower prices with pharmacies due to the collective's aggregate buying clout. Our pharmacy vendor uses clinical tools aimed at reducing inappropriate prescribing by physicians, reducing medication errors, and improving consumer compliance and health outcomes.
- The Company continues to offer health care management programs through our medical options to help employees and dependents maintain their health, control chronic conditions and understand treatment options.
- The Company continues to offer Company sponsored wellness programs to encourage healthy behavior, to promote individual responsibility for wellness, and to reduce health care claims. Programs include annual flu shots, annual

health fairs, fitness center incentive, weight loss program incentive, smoking cessation, annual mammograms, health risk appraisals and attendance at company sponsored health fairs.

- a. Yes. All benefits provided under the medical plan are subject to coordination of benefits, except prescription drug benefits.

When the participant is covered by another group plan in addition to the Company’s medical plan, our medical plan will follow coordination of benefit rules to determine which plan is primary and which is secondary. For dependent children, the Birthday Rule applies.

- b. Under the Standard PPO medical option, employees pay a co-insurance percentage for the following benefit provisions. The co-pay amounts have not changed.

Standard PPO option	2010	2011	2012
Annual Deductible	In-network: \$400 per individual, \$800 per family  Out-of-network: \$800 per individual, \$1,600 per family.	In-network: \$400 per individual, \$800 per family  Out-of-network: \$800 per individual, \$1,600 per family.	In-network: \$400 per individual, \$800 per family  Out-of-network: \$800 per individual, \$1,600 per family.
<ul style="list-style-type: none"> <li>• Hospital Services</li> <li>• Emergency Room</li> <li>• Outpatient Surgery, MRA/MRI, PET Scans and CAT scans</li> <li>• Mental Health and Substance Abuse In-patient</li> <li>• Cardiac Rehabilitation</li> <li>• Occupational, Physical and Speech Therapy</li> </ul>	In-network: Employee pays 20% of the allowable amount after the deductible.  Out-of-network: Employee pays 40% of the allowable amount after the deductible.	In-network: Employee pays 20% of the allowable amount after the deductible. Out-of-network: Employee pays 40% of the allowable amount after the deductible.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 182**

**Responding Witness: Valerie L. Scott**

Q-182. Provide the following information for the total company operations. If any amounts were allocated, show a calculation of the factor used to allocate each amount.

- a. An analysis of Miscellaneous General expenses for the test period. Include a complete breakdown of this account, including industry association dues, stockholder and debt service expenses, institutional advertising, conservation advertising, rate department load studies, director's fees and expenses, dues and subscriptions, and miscellaneous expenses. Provide detailed workpapers supporting this analysis. At a minimum, the workpapers should show the account number, date, vendor, reference (i.e., voucher no., etc.), dollar amount, and brief description of each expenditure of \$500 or more.
- b. An analysis of Other Income Deductions for the test period. Include a complete breakdown of this account including donations, civic activities, political activities and other, and provide detailed workpapers supporting this analysis. At a minimum, the workpapers should show the account number, date, vendor, reference (i.e., voucher no., etc.), dollar amount, and brief description of each expenditure of \$500 or more.

A-182. a. See the response to PSC 1-30(b).

b. See the response to PSC 1-30(c).

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 183**

**Responding Witness: Valerie L. Scott**

Q-183. Provide a detailed analysis of expenses incurred during the test period for professional services, including legal, engineering, accounting and other, and provide all workpapers supporting the analysis. At a minimum, the workpapers should show the payee, dollar amount, reference (i.e., voucher no., etc.), account charged, hourly rates and time charged to the company according to each invoice, and a description of the services provided.

A-183. See the response to PSC 1-31.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 184**

**Responding Witness: Valerie L. Scott**

Q-184. Provide a detailed analysis of contributions for charitable and political purposes (in cash or services), if any, recorded in accounts other than Other Income Deductions. Show the amount of the expenditure, the recipient of the contribution, and the specific account charged. If amounts are allocated, show a calculation of the factor used to allocate each amount. Detailed analysis is not required for amounts less than \$100, provided the items are grouped by classes.

A-184. There were no contributions for charitable or political purposes recorded in accounts other than in Account No. 426. See the response to PSC 1-32.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 185**

**Responding Witness: Valerie L. Scott**

Q-185. Describe LG&E's lobbying activities and provide a schedule showing the name, salary, affiliation, all company-paid or reimbursed expenses or allowances, and the account charged for each individual whose principal function is lobbying on the local, state, or national level. If any amounts are allocated, show a calculation of the factor used to allocate each amount.

A-185. See the response to PSC 1-33.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 186**

**Responding Witness: Valerie L. Scott**

Q-186. List each athletic and employee association to which the Company contributes, the associated amounts for the test period and preceding year and the accounts charged. State how the Company has treated these expenses in the test period.

A-186. See attached. All of these expenses were charged to FERC Account No. 426, below the line. None of the charges were included for rate making purposes.

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 187**

**Responding Witness: Lonnie E. Bellar**

Q-187. List the dollar value of discounts for service and merchandise the Company provides to employees. Provide these amounts for the test period. Show in what accounts and amounts such expense was recorded. What employees are eligible to receive such discounts?

A-187. The Company does not provide discounts for electric service to employees or sell merchandise at a discount to employees.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 188**

**Responding Witness: Chris Hermann / Ronald L. Miller**

Q-188. List all Company owned automobiles, other than service vehicles, and state the Company's policy for charging employees for the personal use of these automobiles and the Company policy of reporting the personal usage of these automobiles for Federal income tax purposes.

A-188. The Company follows the guidelines established in the U.S. Internal Revenue Service's Publication 15-B (2010), Employer's Tax Guide to Fringe Benefits for charging and reporting employees personal use of Company vehicles. Personal usage of automobiles is tracked for each applicable employee and the imputed value is included in W-2 earnings. The value is determined by applying either the IRS "Commuting Rule" or "Lease Value Rule" as deemed appropriate.

See the attachment for a list of all Company vehicles, other than service vehicles.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 189**

**Responding Witness: Valerie L. Scott**

Q-189. For the test period list all payments made for employee gifts, employee awards, employee luncheons and dinners, employee picnics and all other similar type items. For each, list the dollar amount paid, the payee, the account charged and state the purpose. Provide copies of invoices which exceed \$5,000.

A-189. See attached for a list of payments made for employee recognition. In the process of responding to this question the Company identified \$3,783 booked to balance sheet accounts that should have been recorded in account 426.5.

Invoices for related employee recognition which exceed \$5,000 are attached.

The attachment is being  
provided in a separate  
file.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information**

**Dated July 31, 2012**

**Question No. 190**

**Responding Witness: Valerie L. Scott**

Q-190. Identify all expenses incurred during the test period for athletic events, tickets, sky boxes and all sporting activities.

- a. Specifically identify the activity, dollar amount and account charged.
- b. Provide copies of paid vouchers and invoices supporting these expenditures.

A-190. a. LG&E does not maintain a separate account code for specific expenses for athletic events, tickets, sky boxes and all sporting activities. LG&E's expenses for these activities should be charged below-the-line in accordance with its accounting procedures. The Company identified the following charges:

Vendor	Date	Account	Amount
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	\$1.12
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	0.56
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	1.40
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	2.80
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	1.40
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	2.80
Personal mileage - Derby Fest Luncheon (1)	04/23/11	921	7.71
Personal mileage - Derby Fest Luncheon (1)	04/23/11	921	3.86
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	1.68
Parking for Derby Fest Basketball Classic (1)	04/23/11	921	0.84
Personal mileage - Derby Fest Pro-Am Tourn (1)	04/23/11	921	2.39
Personal mileage - Derby Fest Pro-Am Tourn (1)	04/23/11	921	4.79
Churchill Downs	05/12/11	566	174.01
Churchill Downs	05/12/11	566	473.75
Churchill Downs	06/02/11	426	416.26
Louisville Bats	06/16/11	426	440.92
Churchill Downs	06/18/11	426	1,193.77
Churchill Downs	06/18/11	426	92.88
Churchill Downs	06/19/11	921	92.10

Vendor	Date	Account	Amount
Louisville Bats	06/29/11	426	579.59
Louisville Bats	08/09/11	426	970.61
Louisville Bats	09/08/11	921	19.72
Churchill Downs	11/19/11	426	2,790.20
Churchill Downs	11/19/11	580	93.34
University of Louisville	02/03/12	426	35.00
Churchill Downs	02/10/12	921	1,027.78

- (1) No receipts for these charges exist. These expenses were incurred by employees and reimbursed to the employees by the Company. Company policy requires employees to obtain receipts only for expenses greater than \$25.

The charges to accounts 566, 580 and 921, which total \$1,912, should have been charged to accounts below the line and would have decreased the revenue requirement requested in this case. All other amounts were charged below the line.

- b. See attached.

The attachment is being  
provided in a separate  
file.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 191**

**Responding Witness: Paul W. Thompson / Counsel**

- Q-191. With regard to research and development (R&D) expenditures, please provide:
- a. A monthly breakdown of the R&D expenses by project included in 2009, 2010 and 2011.
  - b. A comparison of actual vs. budgeted expenditures for 2009, 2010 and 2011.
  - c. A detailed explanation of the causes of any increase from 2008 levels to 2009 levels and from 2010 to 2011 levels and why such an increase is necessary and reasonable.
  - d. A summary description of each of the R&D projects identified and the benefit to be derived by ratepayers.
  - e. Please provide the costs by project for each year of 2009, 2010 and 2011.
- A-191. a. See attached.
- b. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, see attached historical information.

c. See table below.

Year	Difference	Reason
<b>2008-2009 KU</b>	\$51K (4%)	A 4% increase is within a normal year to year increase through scope changes at EPRI and inflation. There were no significant changes to note between 2008 and 2009.
<b>2010-2011 KU</b>	\$477K (25.4%)	The most significant increases are due to the amortization schedules for the projects under the CMRG funded through the University of Kentucky Research Foundation and the Sequestration project through the Western Kentucky Carbon Storage Foundation.
<b>2008-2009 LGE</b>	No increase	No Increase
<b>2010-2011 LGE</b>	\$146K (10%)	The most significant increases are due to the amortization schedules for the projects under the CMRG funded through the University of Kentucky Research Foundation and the Sequestration project through the Western Kentucky Carbon Storage Foundation.

d. See the response to PSC 1-47.

e. See attached.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information  
Dated July 31, 2012**

**Question No. 192**

**Responding Witness: Paul W. Thompson**

Q-192. With regard to R&D projects, do LG&E's regulated operations realize any royalties, profits from commercialization, or other forms of reimbursement or funding? If yes, please identify the amounts of all such items in 2009, 2010 and 2011.

A-192. There were no royalties, profits, or other forms of reimbursement for the years 2009, 2010, and 2011.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Attorney General's Initial Requests for Information**

**Dated July 31, 2012**

**Question No. 193**

**Responding Witness: Shannon L. Charnas / Counsel**

Q-193. With regard to all capital and expense accounts included in the filing, please provide:

- a. A monthly breakdown of the expense by capital project and/or expense account included in 2009, 2010 and 2011.
- b. A comparison of actual vs. budgeted expenditures for 2009, 2010 and 2011.
- c. A detailed explanation of the causes of any increase from 2008 levels to 2009 levels and from 2010 to 2011 levels and why such an increase is necessary and reasonable.
- d. A summary description of each of the capital projects identified and the benefit to be derived by ratepayers.
- e. Please provide the costs by project for each year of 2008, 2009 and 2010.

A-193. a. See attached.

- b. Consistent with its historical practice, the Company does not disclose information relating to budgets. Such projections are only estimates; there is no guarantee that such projections will be realized; and the estimates are based on a number of assumptions that may change over time. The Company has used an historic test year in this proceeding; not a forecasted test year. The Commission determined in its September 6, 1990 Ruling and in its September 21 and October 18, 1990 Orders in Case No. 90-158 that such information is not discoverable in historical test year rate cases. Without waiver of this objection, see attached historical information.
- c. See attached.

- d. See response to (a) above for the description of each project. These projects were necessary to provide safe, reliable service to customers.
- e. See attached for 2008. See the response to (a) above for 2009 and 2010.
