**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 32**

**Responding Witness: Valerie L. Scott**

- Q-32. Provide a detailed analysis of contributions for charitable and political purposes (in cash or services), if any, recorded in accounts other than Account No. 426. Show the amount of the expenditure, the recipient of the contribution, and the specific account charged. If amounts are allocated, show a calculation of the factor used to allocate each amount. Detailed analysis is not required for amounts of less than \$100, provided the items are grouped by classes.
- A-32. There were no contributions for charitable or political purposes recorded in accounts other than Account No. 426.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information**

**Dated June 15, 2012**

**Question No. 33**

**Responding Witness: Lonnie E. Bellar / Valerie L. Scott**

Q-33. Describe LG&E's lobbying activities and provide a schedule showing the name, salary, affiliation, all company-paid or reimbursed expenses or allowances, and the account charged for each individual whose principal function is lobbying on the local, state, or national level. If any amounts are allocated, show a calculation of the factor used to allocate each amount.

A-33. Louisville Gas & Electric charges expenses for lobbying activities to account 426.4, Expenditures for Certain Civic, Political and Related Activities, a "below-the-line" account not deducted in arriving at net operating income. The expenses recorded in this account, which include all expenses of External Affairs, are not included in rates and are not proposed to be included in rates.

Some expenses are directly charged to 426.4 while others are indirect charges which are allocated. All expenses and charges, whether directly or indirectly assigned, are not included in rates. G.R. Siemens' indirect charges were allocated to Louisville Gas & Electric at 38%, Kentucky Utilities at 42% and LKE Capital Corp. at 20%. D.J. Freibert's indirect charges were allocated to Louisville Gas & Electric at 10% and Kentucky Utilities at 90%. M.S. Beer's indirect charges were allocated to Louisville Gas & Electric at 47% and Kentucky Utilities at 53%.

During the test year, these charges amounted to \$926,049, of this amount \$200,266 represented approximately 33.89% of the salary and associated benefits (e.g., health care and retirement) of G.R. Siemens, D.J. Freibert, and M.S. Beer whose duties include, but are not limited to, representation before governmental agencies and legislative bodies at local, state and federal levels on matters directly related to the Company and the conduct of its business. These employees also provide functional representation of the Company at and participation in civic, charitable and community events, monitor the legislative and regulatory processes, respond to inquiries by federal, state and local governmental agencies and legislative bodies and participate in industry meetings and conferences.

Thus, the \$200,266 does not reflect time associated only with lobbying activities. The remaining \$725,783 charged to this account is associated with salary and

benefits for three other employees who provide analytical or administrative support and business expenses (e.g., travel and office expenses) for G.R. Siemens, D.J. Freibert, and M.S. Beer.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information**

**Dated June 15, 2012**

**Question No. 34**

**Responding Witness: Valerie L. Scott**

- Q-34. Provide a schedule showing for the test year and the year preceding the test year, with each year shown separately, the following information regarding LG&E's investments in subsidiaries and joint ventures:
- a. Name of subsidiary or joint venture.
  - b. Date of initial investment.
  - c. Amount and type of investment made for each of the 2 years included in this response.
  - d. Balance sheet and income statement. Where only internal statements are prepared, furnish copies of these.
  - e. A separate schedule of all dividends or income of any type received by LG&E from its subsidiaries or joint ventures showing how this income is reflected in the reports filed with the Commission and stockholder reports.
  - f. Name of each officer of each of the subsidiaries or joint ventures, each officer's annual compensation, the portion of that compensation that is charged to the subsidiary or joint venture, the position each officer holds with LG&E, and the compensation received from LG&E.
- A-34. a. Ohio Valley Electric Corporation (OVEC)
- b. LG&E's original investment in OVEC was made in 1952.
  - c. No investments were made in OVEC by LG&E during the 2 years included in this response.
  - d. See attached containing financial statements for OVEC including Statements of Income for the twelve months ended March 31, 2012 and 2011 and Balance Sheets as of March 31, 2012 and 2011.

e. LG&E records its dividend income from OVEC on the cost method of accounting. LG&E has recorded \$56,300 and \$95,710 in dividends for the 12-months ended March 31, 2012 and 2011, respectively. These amounts have been reported as "Other Income Less Deductions" in LG&E's reports filed with the Commission and as "Other Income (Expense) – Net" in stockholders reports.

f. Officers:

Nicholas K. Akins	President
Mark A. Peifer	Vice President & Asst. to President
David E. Jones	Vice President - Operations
John D. Brodt	Secretary and Treasurer
Ronald D. Cook	Asst. Secretary and Asst. Treasurer
Charles E. Zebula	Asst. Secretary and Asst. Treasurer

None of the officers of OVEC are officers or employees of LG&E.

None of OVEC's officers receive compensation from LG&E nor is any portion of their salaries charged to LG&E. OVEC's officer salaries are charged internally by OVEC as expenses against OVEC's revenues to arrive at net income. The compensation paid to these officers by OVEC is not available to LG&E.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 39**

**Responding Witness: Paula H. Pottinger, Ph.D.**

Q-39. Provide employee data in Format 39.

A-39. See attached.

Louisville Gas and Electric Company  
Case No. 2012-00222

Electric Operations  
Schedule of Number of Employees, Hours per Employee, and Average Wages per Employee

Calendar Years Prior to Test Year and Test Year (a)	Power Production			Transmission			Distribution			Customer Accounts			Customer Service and Information

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 40**

**Responding Witness: Robert M. Conroy**

Q-40. Provide the studies for the test year, including all applicable workpapers, which are the basis of jurisdictional plant allocations and expense account allocations.

A-40. There was no jurisdictional separation study for LG&E.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 41**

**Responding Witness: Shannon L. Charnas**

- Q-41. Provide a calculation of the rate or rates used to capitalize interest during construction for the test year and the 3 preceding calendar years. Explain each component entering into the calculation of this rate.
- A-41. Louisville Gas and Electric Company does not calculate capitalized interest on assets subject to the jurisdiction of the Kentucky Public Service Commission.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 42**

**Responding Witness: Valerie L. Scott**

Q-42. Provide the following information concerning LG&E and its affiliated service corporation:

- a. A schedule detailing the costs directly charged to and costs allocated by LG&E to the service corporation. Indicate the LG&E accounts where these costs were originally recorded and whether the costs were associated with electric operations only, gas operations only, or both electric and gas operations. For costs that are allocated, include a description of the allocation factors utilized.
- b. A schedule detailing the costs directly charged to and costs allocated by the service corporation to LG&E. Indicate the LG&E accounts where these costs were recorded and whether the costs were associated with electric operations only, gas operations only, or both electric and gas operations. For costs that are allocated, include a description of the allocation factors utilized.

A-42. a. See attached.

b. See attached.

For allocation methodologies, refer to the Cost Allocation Manual filed within the Filing Requirements at tab 39 in the Application.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 43**

**Responding Witness: Kent W. Blake / Lonnie E. Bellar**

Q-43. Provide any information, when known, that would have a material effect on net operating income, rate base, or cost of capital that have occurred after the test year but were not incorporated in the filed testimony and exhibits.

A-43. See attached Revised Blake Exhibit 2 and Analysis of the Embedded Cost of Capital, reflecting changes to embedded cost of capital through May 31, 2012. Certain information is being filed under seal pursuant to a petition for confidential treatment.

See attached Reference Schedule 1.09 reflecting off-system sales margin through May 31, 2012.

The Company will timely supplement this response with updated information.

2 Call premium and debt expense is being amortized over the remaining life of bonds due 6/1/15, 7/1/13 and 8/1/17.

3 Reacquired bonds were reissued 1/13/11.

4 Remarketed bonds, issued at long term fixed rate.

5 Fidelia Notes Payable were paid off on 11/1/2010 with PPL Notes Payable that were paid off with the new FMB issues on 11/16/2010.

6 Included setup fees for the Wachovia Credit Facility in Long-term Debt due to 4 year credit arrangement

7 Credit Facility amended effective October 19, 2011. New term of 5 years at lower interest rate.

a - Insurance premiums annualized - based on actual invoices

b - Remarketing fee = 10 basis points

c - Remarketing fee = 25 basis points

d - Combination of a and c.

## Exhibit 1

## Reference Schedule 1.09

Sponsoring Witness: Bellar

**LOUISVILLE GAS AND ELECTRIC COMPANY****To Adjust Off-System Sales Margins  
For the Twelve Months Ended March 31, 2012****Updated to reflect actual Off-System Sales Margins through May 2012**

	<u>Electric</u>
1. Off-System Sales Margins for 2012 (January - May 2012)	\$ 180,689
2. Annualized Off-System Sales Margins for 2012 (Line 1 x 12/5)	\$ 433,653
3. Off-System Sales Margins in test year	\$ 6,945,461
4. Off-System Sales Margins adjustment (Line 2 - Line 3)	<u>\$ (6,511,808)</u>

NOTE: Off-System sales margins defined as Total OSS revenues less assigned fuel and purchase power expense, transmission costs, environmental costs, and cost of losses.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 44**

**Responding Witness: Valerie L. Scott**

- Q-44. Provide detailed monthly income statements for each month after the test year, including the month in which the hearing ends, as they become available.
- A-44. See attached income statements for April and May 2012. Income statements for subsequent months will be provided as they become available.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 45**

**Responding Witness: Lonnie E. Bellar**

- Q-45. List all present or proposed research efforts dealing with the pricing of electricity and gas and the current status of such efforts.
- A-45. The Company does not ordinarily conduct original research on electricity or gas prices (i.e. retail rates). However, the Company does subscribe to a number of industry publications which report on retail electric and gas prices (primarily in the form of survey data). The Company expects to continue to subscribe to the same or similar publications in the future. The Company makes every effort to control costs and keep rates low.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 46**

**Responding Witness: Paula H. Pottinger, Ph.D.**

- Q-46. Provide a schedule reflecting the salaries and other compensation of each executive officer for the test year and 2 preceding calendar years. Include the percentage annual increase and the effective date of each increase, the job title, duty and responsibility of each officer, the number of employees who report to each executive officer, and to whom each executive officer reports. Also, for employees elected to executive officer status during the test year, provide the salaries, for the test year, for those persons whom they replaced.
- A-46. A schedule of salaries and other compensation for all executive officers as of the end of the test year and the two preceding calendar years is attached. This information is provided in a manner that is consistent with W2s and year to date information in the case of the portion of the test year in 2012. Certain information is being filed under seal pursuant to a petition for confidential treatment.

**Question No. 46  
Information for Test Year (4/1/11 - 3/31/2012)**

Name	Title	Salary (1)	Other Compensation (2)	Broad - Based Employee Benefits (3)
Daniel K. Arbough	Treasurer			
Michael S. Beer	VP Federal Regulation and Policy

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information**

**Dated June 15, 2012**

**Question No. 47**

**Responding Witness: Paul W. Thompson**

Q-47. Provide an analysis of LG&E's expenses for research and development activities for the test year and the 3 preceding calendar years. For the test year include the following:

- a. Basis of fees paid to research organizations and LG&E's portion of the total revenue of each organization. Where the contribution is monthly, provide the current rate and the effective date.
- b. Details of the research activities conducted by each organization.
- c. Details of services and other benefits provided to the company by each organization during the test year and the preceding calendar year.
- d. Total expenditures of each organization including the basic nature of costs incurred by the organization.
- e. Details of the expected benefits to the company.

A-47. Research, Development and Demonstration expenses are primarily with the Electric Power Research Institute (EPRI). The EPRI expenses are for collaborative research studies, technology development and demonstration projects. Other expenses associated with specific projects include the University of Kentucky Center for Applied Energy Research (UK CAER) and two projects at the University of Texas at Austin. One of the projects with the University of Texas at Austin was funded through EPRI. The following LG&E amounts for all R&D projects are provided for 2009, 2010, 2011, and the test year.

Year 2009	\$1,047,051
Year 2010	\$1,451,849
Year 2011	\$1,597,668
Test Year	\$1,601,006

- a. Payments to EPRI vary depending on the project sets in which each company wishes to participate. Other payments for research are specific to the work being conducted. For the calendar year 2011 (the most recent data available from EPRI), LG&E's payments represented 0.31% of EPRI's revenues. For the UK CAER, LG&E's payments represented 0.51% of UK CAER's revenues for the fiscal year ended June 30, 2011. For the University of Texas at Austin, LG&E's payments represented 0.71% of the revenue for the two projects.
- b. Research projects are related to the operational needs of the different lines of business, such as generation, environmental and transmission. The details of each project set are listed on pages 3-30 of this response.
- c. EPRI's portfolio of research and development projects is extensive and covers the complete spectrum of activities of interest to most energy suppliers. The purpose of their research program is to find answers and solutions to short and long term problems or questions. A description of the projects LG&E has elected to fund for the test year are provided on pages 3-30 of this response, both for EPRI and the other organizations.
- d. EPRI's total expenses in calendar year 2011 (the most current information available) were approximately \$358 million for research and development activities. The University of Kentucky, Center for Applied Energy Research total expenses for the fiscal year ended June 30, 2011 were approximately \$16.7 million for research and development activities. The University of Texas at Austin's expenses was effectively the funding from consortium members (\$2M).
- e. The expected benefits are included in the program descriptions on pages 3-30 of this response.

**EPRI Generation Programs**

<b>Program 63 – Boiler Life and Availability Improvement</b>	<b>2012 LG&amp;E and KU Funding:</b> \$ 128,774
	<b>2012 Project Budget:</b> \$ 4,521,388

**Program Description:**

The majority of fossil plants worldwide are more than 30 years old and are experiencing increased demand for operational flexibility while addressing age-related issues for major components. High-energy steam and water piping systems also are among the most important safety issues at fossil plants and must be managed reliably through the aging process. Safety and availability loss due to pressure part failures are two key issues driving R&D on major fossil power plant components, especially in older plants. Boiler tube failures (BTFs) continue to be the leading cause of lost availability (with equipment availability losses due to BTFs averaging approximately 3%) in fossil-fired steam plants worldwide.

The Electric Power Research Institute's (EPRI's) Boiler Life and Availability Improvement Program (Program 63) uses international collaboration to develop technology and guidance on safe management of boiler component life to ensure high reliability and reduce O&M costs. Efforts focus on advanced inspection techniques for early and accurate identification of component damage; analytical tools to predict remaining life and risk of in-service failure; and decision-support tools to help balance risk and benefit under a variety of operating scenarios.

**Research Value:**

Power generators need to balance the risks and costs of the largest, most costly equipment in the power plant, and focus on using proven technologies to create solutions. By using the results of the R&D in this program, plant owners and operators can:

- Reduce the costs of lost availability due to boiler tube failures from greater than \$10,000/MW/yr to less than \$1,000/MW/yr when program results are applied comprehensively;
- Increase the safety of high-energy and high-temperature piping systems; and
- Increase safety through control of flow-accelerated corrosion (FAC) in fossil plants.

<b>Program 64 – Boiler and Turbine Steam and Cycle Chemistry</b>	<b>2012 LG&amp;E and KU Funding:</b> \$ 72,108
	<b>2012 Project Budget:</b> \$ 2,431,924

**Program Description:**

Safety and availability loss due to failures are two key issues driving R&D on major fossil power plant components, especially in older plants. Operators need to minimize major causes of lost availability and associated maintenance costs related to corrosion and inadequate cycle chemistry, and prevent boiler tube and turbine blade/disc failures and flow-accelerated corrosion (FAC).

The Electric Power Research Institute's (EPRI's) Boiler and Turbine Steam and Cycle Chemistry Program (Program 64) offers guidelines, technology, and training materials to help plant operators manage water-steam chemistry, reduce unplanned outages and operations and maintenance (O&M) costs, and improve unit economics.

**Research Value:**

The industry needs to balance the risks and costs of the largest, most costly equipment, and focus on using proven technologies to create solutions. By using the results of the R&D in this program, members can:

- Improve overall unit availability — losses due to improper chemistry have a 1% or more effect on unit availability
- Reduce steam turbine efficiency losses — chemical and metallic oxide deposits reduce turbine efficiencies by up to 2%
- Reduce chemistry-related boiler tube failures
- Reduce incidence of FAC damage and failures — FAC is both a personnel safety and component availability concern
- Reduce chemistry-related O&M costs
- Improve world-class or excellent cycle chemistry

<b>Program 65 – Steam Turbines-Generators &amp; Auxiliary Systems</b>	<b>2012 LG&amp;E and KU Funding:</b>	\$ 103,019
	<b>2012 Project Budget:</b>	\$ 5,103,233

**Program Description:**

Up to 70% of outages planned for steam power plants involve work on the turbines. Power producers continually seek ways to optimize operation and maintenance activities on aging turbine-generator fleets. These activities can reduce maintenance costs, improve component reliability, and increase generator output. However, maintaining a detailed awareness of effective maintenance techniques is challenged by evolving operating experience, advanced materials and upgrade options, reduced staffing levels, and the retirement of experienced personnel.

The Electric Power Research Institute’s (EPRI’s) Steam Turbines-Generators and Auxiliary Systems program (Program 65) develops technologies and guidelines that help fossil and nuclear plant operators optimize steam turbine and generator equipment life cycles to increase availability, shorten scheduled maintenance outages, and improve steam turbine performance. Research and technical support activities enable power plant operators to reduce operation and maintenance costs, maximize plant performance, and more effectively implement plant upgrades and asset management strategies.

**Research Value:**

Using an integrated approach that incorporates work from related EPRI programs, this program focuses on reducing operations and maintenance (O&M) costs, managing risk, maximizing plant performance, providing technical support for plant staff, and producing information to support upgrade studies and asset management strategies. Research results inform decisions regarding run/repair/replace and provide detailed guidance for planning and performing critical overhaul and maintenance activities.

By participating in this program, plant operators can obtain information that they can use to:

- Reduce maintenance costs
- Maintain high availability
- Lower operating and regulatory risks

- Implement cost-effective thermal performance improvements
- Extend component life
- Increase staff technical expertise and awareness of industry issues

Involvement in the program will help:

- Educate participants about worldwide turbine-generator (T-G) issues and solutions
- Provide opportunities to share information with industry experts, engineers, major T-G original equipment manufacturers (OEMs), and vendor/service providers worldwide

<b>Program 66A</b> – Engineering and Economic Evaluations and Market Assessments of Advanced Coal Generation Options	<b>2012 LG&amp;E and KU Funding:</b> \$ 96,017
	<b>2012 Project Budget:</b> \$ 1,250,942

**Program Description:**

Around the world, electricity is produced largely from fossil fuels, and coal often is the predominant fuel choice. In North America, Australia, and parts of Europe, Asia, and Africa, coal-fired power plants supply more than half of the electricity consumed. However, as public concern over the environmental impacts of coal-based generation increases, new technologies and practices to improve plant efficiency and reduce emissions of air pollutants and greenhouse gases are of interest. If cost-effective, reliable, and highly efficient new coal plant designs with near-zero emissions and CO2 capture are available to the industry, coal could be kept in the generation mix to constrain expected increases in electricity and natural gas prices.

The Electric Power Research Institute’s (EPRI’s) CoalFleet for Tomorrow® program (Program 66) targets the technical, economic, and institutional challenges to making highly efficient, near-zero-emission coal plants with CO2 capture a prudent and practical investment option.

This project set helps power generators screen technology options and conduct feasibility studies that assess the economics, operating performance, life-cycle greenhouse gas emissions, and technological risks of both gasification- and combustion-based advanced coal generation technologies, and compares them to natural-gas-fired alternatives. In addition, the project set monitors the status of advanced coal power generation technologies and provides information on numbers and types of commercial-scale coal power plants being built in markets of interest to our members.

**Research Value:**

The program focuses on deploying a portfolio of advanced coal technologies, including integrated gasification combined-cycle (IGCC), ultra-supercritical pulverized coal (USC PC), and oxygen (rather than air) combustion for PC and circulating-fluidized-bed combustion (CFBC) units. The program's R&D:

- Ensures that cost-effective, reliable, and highly efficient new coal plant designs with near-zero emissions and CO2 capture are available to industry
- Provides timely and accurate engineering and economic information about advanced coal technologies to support generators’ decision-making processes
- Serves as a source of accurate, unbiased information on the cost and status of advanced coal power generation technology for policymakers and regulators

- Facilitates implementation of the EPRI-Coal Utilization Research Council (CURC) roadmap for the development of the next generation of coal power, including USC PC that will achieve 47% higher heating value (HHV) thermal efficiency (without CO2 capture), and IGCCs based on H-class combustion turbines and advanced membranes for O2 production and CO2 capture
- Identifies optimal design strategies for integrating CO2 capture and compression systems with coal power plants—either for greenfield projects or retrofits
- Shortens the development time for promising CO2 capture technologies (post-, pre-, and oxy-combustion) through the cosponsoring support of the U.S. Department of Energy (DOE's) National Carbon Capture Center—a "plug-and-play" pilot- and sub-pilot-plant-scale testing facility.

<b>Program 66C</b> – Combustion-Based Power Plant Development and Deployment Support (PC and CFBC)	<b>2012 LG&amp;E and KU Funding:</b> \$ 96,017
	<b>2012 Project Budget:</b> \$ 1,250,942

**Program Description:**

This project set concentrates on a wide range of projects for combustion-based coal power generation, including fundamental work such as qualification of stronger, more corrosion-resistant materials to allow boilers and steam turbines to operate at higher temperatures and raise generating efficiency, innovative technologies for oxy-combustion power plants, and design strategies to facilitate greater load-following and cycling capabilities in new coal power plants. A central element of the project set includes identifying optimal designs for integrating CO2 capture and compression systems with the power plant either for green field or retrofit applications.

**Research Value:**

- Ensures that cost-effective, reliable, and highly efficient new coal plant designs with near-zero emissions and CO2 capture are available to industry
- Provides timely and accurate engineering and economic information about advanced coal technologies to support generators' decision-making processes
- Serves as a source of accurate, unbiased information on the cost and status of advanced coal power generation technology for policymakers and regulators
- Facilitates implementation of the EPRI-Coal Utilization Research Council (CURC) roadmap for the development of the next generation of coal power, including USC PC that will achieve 47% higher heating value (HHV) thermal efficiency (without CO2 capture), and IGCCs based on H-class combustion turbines and advanced membranes for O2 production and CO2 capture
- Identifies optimal design strategies for integrating CO2 capture and compression systems with coal power plants—either for greenfield projects or retrofits
- Shortens the development time for promising CO2 capture technologies (post-, pre-, and oxy-combustion) through the cosponsoring support of the U.S. Department of Energy (DOE's) National Carbon Capture Center—a "plug-and-play" pilot- and sub-pilot-plant-scale testing facility.

Program 71.001 – Combustion and Fuel Impacts on Boiler Tube Longevity	2012 LG&E and KU Funding: \$	76,817
	2012 Project Budget:	\$ 1,235,085

**Program Description:**

Boiler system owners and operators need cost-effective solutions to reduce the number of costly forced outages stemming from fireside corrosion, circumferential cracking, slagging and fouling, and other boiler tube impacts consequential to low-NO<sub>x</sub> operation and fuel quality considerations. Low-NO<sub>x</sub> operation often results in fireside corrosion and waterwall wastage-related boiler tube failures, and although weld overlays may alleviate this situation in many instances, associated problems with circumferential cracking may be exacerbated. Addressing the impacts of low-NO<sub>x</sub> combustion and fuel quality on boiler tube longevity is critical to maintaining and improving unit reliability and performance.

**Research Value:**

EPRI's multifaceted approach to understanding and resolving the costly consequences of accelerated fireside corrosion, circumferential cracking, slagging, fouling, and other impacts of low-NO<sub>x</sub> combustion and fuel quality on boiler tube longevity will include:

- Role of fuel properties such as chlorine, sulfur, ash compounds, and fuel blend ratios
- Effects of boiler design and various modes of low NO<sub>x</sub> operation; and
- Operational- and materials-based solutions and issues

The advanced Corrosion Predictor Model, the Advanced Slagging Predictor, and other state-of-the-art modeling tools will be used to develop guidelines to assess circumferential cracking, waterwall wastage, slagging and fouling, and other operational and reliability issues based on coal quality, furnace design, and operability. Cost-effective solutions will be developed and demonstrated. The issue of circumferential cracking, exacerbated both by low-NO<sub>x</sub> operation and utilization of weld overlays, will be addressed, and alternative material solutions such as thermal spray and ceramic coatings will be assessed.

Program 71.003 – Heat Rate and Cost Optimization	2012 LG&E and KU Funding: \$	78,951
	2012 Project Budget:	\$ 1,269,393

**Program Description:**

Improving heat rate can reduce the cost of operation through fuel savings and increased availability. In addition, improving heat rate is by far the most cost-effective method and the only “ready now” method of reducing CO<sub>2</sub> levels.

**Research Value:**

This project group will develop and demonstrate a variety of deliverables and services that promote optimal heat rate and minimal cost of operations. Specific efforts will include heat rate program guidelines; economic evaluation of fuel quality impacts on heat rate; the effects of increased cycling and load-following operation; best practices for plant performance monitoring and improvement; and technology transfer vehicles such as conferences, workshops, and webcasts. In addition, participation will include membership in the Heat Rate Interest Group, where best practices, information, and prioritizing of available resources are shared. Finally, this project will house the Production Cost Optimization Interest Group, dedicated to seeking significant heat rate improvements for

existing power generating facilities through cost-effective operational modifications, and significantly more improvements through more capital-intensive improvements.

- Reduce fuel costs
- Improve availability and emissions goals with existing hardware
- Realize future benefits, including reduced CO<sub>2</sub> emissions at costs far lower than those of post-combustion options

<b>Program 73</b> – Post-Combustion NO <sub>x</sub> Control	<b>2012 LG&amp;E and KU Funding:</b>	\$ 135,289
	<b>2012 Project Budget:</b>	\$ 2,982,923

**Program Description:**

Selective catalytic reduction (SCR) technology has become the technology of choice for meeting stringent nitrogen oxides (NO<sub>x</sub>) emission limits for coal-fired electricity generating plants. More than 120 gigawatts (GW) of SCR capacity has been installed in the United States alone, and significantly more is planned for compliance with anticipated NO<sub>x</sub> mandates in the coming years, such as the EPA's Clean Air Transport Rule (CATR).

The Electric Power Research Institute's (EPRI's) Post-Combustion NO<sub>x</sub> Control program (Program 73) focuses on minimizing total costs and maximizing reliability and performance of SCR and other post-combustion NO<sub>x</sub> control systems.

**Research Value:**

EPRI's Environmental Controls programs develop technologies that minimize the impacts of environmental controls on power plant operations and performance. EPRI helps members evaluate and implement technology options to achieve their environmental performance goals at least cost. Post-Combustion NO<sub>x</sub> Control R&D provides:

- Development and implementation of best practices and operational improvements for SCR systems
- Lowered O&M expenditures, optimized operation, and reduced downtime for units equipped with SCRs
- Enhancements to existing SCR systems, which will allow members to profit from the NO<sub>x</sub> credit market

<b>Program 75.001</b> – Integrated Environmental Control Evaluations	<b>2012 LG&amp;E and KU Funding:</b>	\$ 31,908
	<b>2012 Project Budget:</b>	\$ 427,432

**Program Description:**

Power generators need information on performance, applicability, and costs of controls for achieving the hazardous air pollutant (HAPS) emission limits in the U.S. Environmental Protection Agency's (EPA) March 16, 2011, proposed Maximum Achievable Control Technology (MACT) rule for Electric Generation Units (EGUs). Reasonable cost solutions remain a challenge in some cases, such as mercury capture in units that burn medium- or high-sulfur coal, as well as acid gases, selenium, and other condensables across a wider choice of fuels. This situation is especially true for power plants that cannot justify investment in selective catalytic reduction (SCR) for NO<sub>x</sub> and flue gas desulfurization (FGD) SO<sub>2</sub> control, or, for those with wet FGDs, to avoid excessive costs and complexity in treating FGD waste water discharges.

In the face of continued pressure on electricity prices, power plants also need lower-cost and better-performing sorbents and technologies than those available today, especially for fuel/air pollution control configurations that otherwise would require the installation of multiple control devices. Other industry multipollutant control needs include systems to provide low- to medium-cost, moderate SO<sub>2</sub> removals for older, smaller, "shoulder" units, with HAPS reductions as a co-benefit. Power plants with wet FGDs have additional needs: materials of construction that resist corrosion, updated guidance on selecting limestone reagents, and options for reducing water consumption. The drive for lower-cost air pollution control solutions through integrated environmental controls (IECs) leads to an industry need for independent, current information on costs and performance of any new IECs.

The Electric Power Research Institute's (EPRI's) Integrated Environmental Controls (IEC) program (Program 75) develops technologies and provides independent engineering evaluations and performance and cost assessments for systems that control HAPS, SO<sub>2</sub>, and other criteria pollutants, working in an integrated fashion with programs that address the impacts of these controls on particulate control, effluent discharge, compliance monitoring, and coal combustion product (such as fly ash and gypsum) use.

**Research Value:**

The R&D focus in 2012 and beyond will develop and demonstrate cost-effective, robust controls for all power plant configurations/fuels that meet the final MACT limits for mercury (Hg), non-Hg trace metals, and acid gases. The specific activities will be dictated by the final rule, to be signed by November 16, 2011. Attention will be paid to minimizing the overall costs, including those for the controls; their impacts on criteria air pollutants, liquid discharges, and coal combustion products; and system reliability. Program members can benefit through:

- Data to support compliance decisions, especially whether to adopt the controls that formed the bases for EPA's proposed regulations; e.g., the ability of dry sorbent injection to reduce acid gas to the levels required by the final rule;
- Test data on the impact of startup/shutdown, cycling, and malfunctions on HAPs control effectiveness, as input into compliance strategy analyses;
- Solutions for pollutants for which controls have not yet been developed, such as selenium and mercury at plants burning medium- or high-sulfur coals;
- Strategies to reduce SO<sub>3</sub> and, potentially, other condensables (e.g., ammonia, selenium) in the event condensable particulate matter limits, as proposed, remain in the final rule (in conjunction with EPRI Programs 71, 73, and 76);
- Lower-cost technology options (e.g., on-site activated carbon production; fixed structure adsorbents to avoid sorbents with their consequent impact on fly ash collection and usability, as well as FGD water discharge and gypsum usability);
- Flue gas desulfurization (FGD) operational practices, additives, or limestone properties that enhance capture of soluble HAPS; and
- Information about emerging IECs, which can save \$10,000 to \$20,000 compared to the cost to acquire the data in-house.

Program 76.003 – Robust, Least-cost Acid Emission Reductions	2012 LG&E and KU Funding: \$	67,463
	2012 Project Budget: \$	658,727

**Program Description:**

Coal- and oil-fired power plants face increasing challenges in meeting emission limits for particulate matter as a result of the March 16, 2011, proposal by the U. S. Environmental Protection Agency (EPA) of Maximum Achievable Control Technology (MACT) standards for hazardous air pollutant (HAPS) emissions from electric generating units (EGUs). These limits, when finalized, will challenge power plants' ability to meet the requirements for both filterable and condensable particulate matter (FPM and CPM); they are proposed to be very stringent, because they are intended to serve as surrogates for nonmercury hazardous trace metals — FPM for the solid species and CPM for any condensable hazardous trace metals, such as selenium. Further, the proposed rules encourage the use of activated carbon injection for mercury and dry alkaline injection (calcium- or sodium-based) for acid gases and SO<sub>3</sub> (to avoid a blue plume or sulfuric acid fallout), increasing loading into the particulate controls. For electrostatic precipitators (ESPs), the added solids loading, coupled with reduced SO<sub>3</sub> concentrations, make it difficult for them to capture particulates; in baghouses, these conditions may lead to corrosion, blinding, and premature bag failures. The increasing drive for fuel flexibility (including increased deployment of higher-sulfur coal following installations of FGD systems) and biomass co-firing further challenge particulate controls, especially for aging or marginal units.

The Electric Power Research Institute's (EPRI's) Particulate and Opacity Control program (Program 76) seeks or develops and evaluates emerging technologies that economically satisfy increasingly stringent particulate emission and opacity limits under a variety of operating conditions, including changes in ash properties and loadings, fuel sulfur content, and SO<sub>3</sub> sorbent use.

**Research Value:**

EPRI searches for, develops, and demonstrates particulate (FPM and CPM) control technologies that can achieve members' performance goals for complying with the final MACT standards. High priority is given to cost considerations; for existing plants with ESPs, to reduce their risks of early retirement; for new or existing plants with baghouses, to minimize operations and maintenance (O&M) costs. Members of this program can use the results of this R&D to achieve:

- Savings of as much as \$50–\$150/kW by avoiding ESP replacement with a baghouse or supplemented by a TOXECON™ or wet ESP retrofit to meet the eventual MACT standards;
- Savings in avoided replacement power costs due to opacity-driven derates;
- Extended bag life and lower pressure drop through better fabrics for baghouses;
- Continued ash sales and reduced reagent costs if operational modifications, together with optimized alkali injection systems, can reduce the quantity of alkali injected for SO<sub>3</sub> control;
- Improved effectiveness of activated carbon mercury control through alternatives to SO<sub>3</sub> flue gas conditioning for high particulate matter (PM) capture in ESPs; and
- Improved baghouse performance through better O&M practices.

Program 77 – Continuous Emissions Monitoring	2012 LG&E and KU Funding: \$	84,875
	2012 Project Budget: \$	1,378,465

**Program Description:**

In the United States, consent decrees, state laws, and the proposed federal Maximum Achievable Control Technologies (MACT) standards for coal-fired power plants drive the need for robust, accurate, and certifiable continuous emissions monitors (CEMs) for mercury, particulate matter (PM), acid gases, and potentially selenium. Experience with continuous mercury monitors (CMMs) remains limited, and their operation and maintenance (O&M) are labor-intensive. PM monitors are not yet used routinely, and their calibration currently is cumbersome, while hydrochloric acid (HCl) is not measured continuously. Under the United Nations' Environmental Program, a growing number of countries or regions such as Europe are considering similar regulations and face similar compliance monitoring needs. Of particular interest to a number of power companies are instruments that continuously measure solid (filterable) and aerosol (condensable) PM, acid gases (e.g., HCl, hydrofluoric acid [HF], and hydrogen cyanide [HCN]), and ammonia in post-flue gas desulfurization (FGD) stack conditions. Enabling technology needs for these species include:

- Operation and maintenance practices for mercury CEMs that enable operators to approach the O&M now achieved with criteria pollutant CEMS through harvesting the lessons learned by early CMMs users;
- Sampling techniques that lend themselves to the very low pollutant concentrations that may be required by MACT limits, especially for mercury;
- Acceptable ways to calibrate PM monitors at plants with wet stacks without having to disrupt the operation of the wet SO<sub>2</sub> control;
- Droplet monitors to measure condensables; and
- Direct measurement of mass emissions to overcome the uncertainty of indirect measurements as PM characteristics change.

Longer term, to remain competitive, the industry needs advanced, microchip- or laser-based CEMs, which hold the promise of 10–25% of the cost of current technology.

The Electric Power Research Institute's (EPRI's) Continuous Emissions Monitoring program (Program 77) develops, enhances, and evaluates CEM systems that measure solids and chemical species of regulatory and operational interest.

**Research Value:**

This R&D helps utilities objectively evaluate and implement monitoring options to achieve their measurement needs using robust, accurate, and easy-to-operate instruments. Benefits include:

- Save months of plant instrument technician and environmental engineer time needed to make newly procured CMMs work;
- Prepare for proposed regulations that, if promulgated as proposed, will require mercury measurements below today's proven quantitation levels, as well as PM measurements (filterable and condensable) as surrogates for nonmercury metal hazardous air pollutants (HAPs);
- Obtain credible, non-ash-property-dependent particulate mass emission measurements made in the stack to benefit from particulate capture by the SO<sub>2</sub> control;

- Ensure that ASME receives the data needed to adopt a digital opacity method for power plant stacks as an objective alternative to human observations;
- Optimize NOx and sulfur trioxide (SO3) control operations, or flue gas conditioning for electrostatic precipitator (ESP) performance, via in situ continuous measurement systems for ammonia (NH3), SO3, and sulfuric acid; and
- Potentially save hundreds of thousands of dollars per stack if advanced “sensors-on-a-chip” are developed and accepted for power plant applications.

Program 78 – Coal Combustion Product Use	2012 LG&E and KU Funding: \$	37,772
	2012 Project Budget: \$	367,141

**Program Description:**

Disposal of coal combustion products (CCPs) is an expense, a potential long-term liability, and, in many locations, difficult due to limited site availability or environmental opposition. Other challenges include increasingly stringent regulations on ash disposal, possible prohibition against the use of CCPs in "unencapsulated" civil engineering applications (e.g., road base); questions about the usability of ash from power plants adding certain gaseous pollutant controls (especially sorbent or chemical injection), cofiring biomass with coal, or deploying integrated gasification combined cycle (IGCC) power systems; and new public concerns over the health and environmental safety of products that contain ash. At the same time, the doubling of installed SO2 scrubber capacity is increasing the production of flue gas desulfurization (FGD) gypsum beyond the needs of the wallboard manufacturers, giving rise to searches for effective and environmentally acceptable new uses. In parallel, the growing installation of spray dryer SO2 controls and fluidized-bed boilers will produce volumes of solid products that will require large-scale, accepted uses.

The Electric Power Research Institute’s (EPRI’s) Coal Combustion Product Use program (Program 78) builds on years of investigation into sustaining the use and value of CCPs, despite property changes due to the application of gaseous air pollutant controls. It also seeks new uses for current CCPs and markets for the new CCPs from biomass cofiring, IGCCs, and plants equipped with spray dryers. In light of regulatory uncertainty and in response to increased scrutiny of CCP management, the focus in 2012 will be on the testing of products made with CCPs to ensure acceptable environmental performance in typical applications; life-cycle assessment to quantify benefits and costs of CCP use; and increased communication of CCP use information to funders, end-users, regulators, and the public. Additional projects may be proposed during the year if regulatory direction becomes clearer.

**Research Value:**

The CCP Use Program demonstrates that these products can be used beneficially and in greater quantities, even in the face of property changes due to upstream air pollution controls or different fuels or generation technologies. The program’s R&D enables members to:

- Avoid disposal costs for CCPs, which range from \$5 to \$60/ton and require extensive staff and management time to find and permit a landfill;
- Retain or earn new revenue by selling products to ready-mix concrete plants, wallboard manufacturers, agricultural soil amendment distributors, roadway builders, and others, typically for \$10–\$20/ton, although prices can be as high as \$60/ton. This includes:

- Products sold today, such as flyash and FGD gypsum
- Products not currently sold in quantity, such as spray dryer or fluidized-bed combustion (FBC) solid products, and ash containing activated carbon, elevated sodium levels, or biomass products of combustion;
- Anticipate and resolve issues that may be barriers to the use of CCPs from biomass cofiring and IGCCs; and
- Communicate the engineering and environmental aspects of CCP uses, both existing and new.

Program 80 – New Combustion Turbine/Combined-Cycle Plant Design and Technology Selection	<b>2012 LG&amp;E and KU Funding:</b>	\$ 148,531
	<b>2012 Project Budget:</b>	\$ 1,096,519

**Program Description:**

Gas turbines and combined-cycle plants increasingly are being selected for new generation additions and replacements for retired plants. Electrical capacity and generation from natural gas fuel are forecasted to increase in the coming years due to favorable gas supply availability. Recently, gas supply reserves have been revised upward, based on significant additions from shale formations and new liquefied natural gas (LNG) sources. Competitive fuel prices have resulted in increased dispatch of combined-cycle plants. Favorable gas pricing also has renewed interest in distributed generation and cogeneration opportunities with gas turbines. Combustion turbine-based plants often are selected due to their lower capital costs compared to coal and nuclear energy, and their capacity typically is used to complement intermittent wind and solar generation. Gas turbine and combined-cycle technologies continue to evolve, providing significant efficiency gains and relative improvements in installed cost. These factors, combined with a general trend towards less-carbon-intensive generation, portend an expanding role for gas turbines and combined-cycle plants in the coming decades.

Informed decisions about gas turbine technologies and plant designs are especially important because design choices can have a profound impact on operability and performance. Technology selection affects efficiency, emissions, availability, maintainability, and durability. Air and water environmental control technologies are needed to meet regulatory requirements. The ability to fire fuels of variable composition while meeting emission constraints is important in locations that may receive natural gas or LNG from multiple sources. Flexible operational capabilities are needed for optimal plant dispatch, and planners need to understand coming trends and potential improvements for future growth. Plant engineering designers are confronted by a growing number of combustion turbine/combined-cycle (CTCC) plant offerings with unique heat recovery steam generator (HRSG) and steam turbine configurations, aimed at particular market missions (peaking, intermediate/cycling, and baseload). Information about and analyses of factors affecting these performance parameters are key to achieving a design optimized on specific generation needs.

The Electric Power Research Institute’s (EPRI’s) New Combustion Turbine/Combined-Cycle (CTCC) Plant Design and Technology Selection program (Program 80) provides the information and analysis needed to select combustion turbine technologies and specify combined-cycle plant designs for today’s new generation requirements while planning for future technological advances.

**Research Value:**

The research in this program helps engineers and project developers select and specify appropriate equipment for new plants that have the flexibility to start quickly, operate efficiently at varying loads, and fire fuels of varying

composition while meeting regulatory emission limits. Improved gas turbine plant operation is achieved through an overall life-cycle approach, which includes a balanced understanding of capital and O&M costs, performance improvements, and technical risks associated with new high-efficiency turbine designs and the market contexts in which they operate. The program focuses on identifying risk issues and addressing the most significant plant design improvements that differ from the previous combined-cycle build-out. Benefits include:

- Optimal plant technology selections for generation market niche: distributed generation, peaking, cycling, intermediate, or baseload;
- Managing technology risk helps control operation and maintenance expenditures; and
- Objective, expert assessment of technology trends and worldwide experience can improve procurement decisions.

<b>Program 84A – Renewable Energy Economics and Technology</b>	<b>2012 LG&amp;E and KU Funding:</b>	\$ 62,248
	<b>2012 Project Budget:</b>	\$ 949,836

**Program Description:**

This project set provides basic information on the cost, performance, and status of all renewable technologies. Electricity sector analyses help better define the role of renewable generation and enable members to better understand policy implications on future generation options. This project set will deliver the Renewable Energy Technology Guide, detailed engineering and economic analyses of selected renewable technologies, perspectives on current topics, industry tours, presentations from industry experts, and forums for participants to exchange information. Periodic newsletters on the status of P84 activities and topical white papers also will be developed.

<b>Program 84B – Biomass</b>	<b>2012 LG&amp;E and KU Funding:</b>	\$ 59,933
	<b>2012 Project Budget:</b>	\$ 914,506

**Program Description:**

The Biomass Project Set conducts research and development in:

- Security of fuel supply and sustainable fuel delivery for electric power stations, including life-cycle analyses of biomass-based power and the carbon life-cycle of biomass
- Technologies for biomass power generation (including research on co-firing systems, direct-firing systems, gasification systems), the potential impact on combustion, emissions and environmental controls, and technologies for upgrading the properties of biomass fuels.

Project Set participants help identify the scope and priorities of collaborative research activities to be conducted. Technology transfer of information between members is an important element of active participation. Through this project set, EPRI provides a forum for information exchange among members on key biomass-related issues. In addition to receiving results of research, participants are kept informed of current regulatory issues surrounding biomass power generation through topical briefs as warranted.

**Research Value:**

Renewable energy resources and their application in generating electricity most often are considered collectively when addressing key drivers in renewable energy deployment, including renewable portfolio standards, energy security, greenhouse gas emission reductions, and other issues. However, wind, solar photovoltaic, solar thermal,

biomass, and geothermal energy options largely are unrelated technologically; each has its own developmental status, readiness timeline, and economic and technology challenges. EPRI's Renewable Generation program conducts targeted research to improve the performance, availability, and cost-effectiveness of existing renewables technologies and to develop new renewable technologies and applications. EPRI's Renewable Generation program also provides objective cost and performance information for renewable technologies, helping participants to:

- Capitalize on market opportunities for renewable compliance and power purchases, resulting in improved decision-making;
- Identify the appropriate role of diverse renewable resources in expanding new and sustainable generation capacity; and
- Apply results from modeling, simulation, and future energy scenario analyses that will help guide investments in renewable energy.

Through collaboration with key industry stakeholders, EPRI members guide development and demonstration of technologies that will optimize operating efficiency, reduce overall costs, and facilitate deployment of large-scale renewable generation.

<b>Program 87.002 – Fossil Repair Applications</b>	<b>2012 LG&amp;E and KU Funding:</b> \$ 64,166
	<b>2012 Project Budget:</b> \$ 1,009,630

**Program Description:**

Today's fossil power plants increasingly are adopting market-driven operating strategies such as cycling, pushing for maximum output during peak price periods, and frequent fuel switching to take advantage of spot market opportunities. These practices can accelerate material damage in major power block components. New materials are being introduced for replacement of components in aging plants and in the building of higher efficiency power plants. Improved knowledge of materials behavior in such environments allows for accurate prediction of remaining life, proper selection of repair strategies, and optimized material selection, fabrication, and repair.

To address these needs, the Electric Power Research Institute's (EPRI's) Fossil Materials and Repair program (Program 87) provides the integrated materials selection guidance, corrosion mitigation methods, and repair and welding technologies needed to improve equipment performance, reliability, and profitability.

**Research Value:**

Safety and availability loss due to failures are two key issues driving R&D on major fossil power plant components, especially in older plants. Improved efficiency and reliability are two reasons for the selection of new materials for retrofit and new-build projects. EPRI's Materials and Chemistry programs provide data on critical material degradation mechanisms, conduct materials and chemistry-related R&D for advanced generation technologies, and quantify the benefits of chemistry improvements. The programs help utilities balance the risks and costs of the largest, most costly equipment, and focus on using new technologies to create solutions. Members of the Fossil Materials and Repair program can use the R&D to:

- Increase availability through better understanding of plant materials;
- Eliminate repeat failures, minimize equipment damage, and reduce outage frequency and duration by using improved knowledge of damage mechanisms and life assessment methods;

- Reduce failures from high- and low-temperature corrosion;
- Obtain in-depth knowledge of advanced ferritic and austenitic alloys and processes used to fabricate and join these alloys;
- Use new and advanced repair technologies; and
- Maximize component life through improved materials selection guidance and procurement specifications.

Program 104 – Generation Maintenance Applications Center (GenMAC)	2012 LG&E and KU Funding: \$	27,843
	2012 Project Budget: \$	1,045,675

**Program Description:**

Power generators globally face chronic equipment problems in the more than 1,500 non-nuclear/non-hydroelectric generating units that are up to 30 years old or older, and new maintenance challenges are created by the addition of equipment to upgrade the performance and improve the emissions of these existing plants. In addition, new generation in the form of combined-cycle combustion turbines, biofuel boilers, and wind farms is adding to the need to develop guidance for new types of balance-of-plant (BOP) components.

Generators need to reduce maintenance-related O&M costs for aging equipment while improving equipment reliability, but are challenged by diminishing collective experience and knowledge and an urgent need to develop new maintenance and engineering staff as the current workforce retires. The training and knowledge that are needed to educate and inform new staff are not always readily available from vendors or equipment suppliers.

The Electric Power Research Institute’s (EPRI’s) Generation Maintenance Applications Center (GenMAC, formally FMAC) program (Program 104) provides practical information for improving plant maintenance-related operations and maintenance (O&M) processes, reliability, and cost through collaboration with participating organizations.

**Research Value:**

EPRI's Generation Operations and Maintenance programs develop advanced processes and related technologies that support improved plant reliability and reduced maintenance costs. The programs address the key tactical challenges facing plant owners relating to predictive maintenance, work management, conduct of operations, instrumentation, workforce, condition monitoring, and risk. These programs are highly collaborative in nature, providing forums for EPRI members to jointly resolve issues, improve processes, and identify research gaps. Members of the GenMAC program can use the R&D to:

- Improve reliability through guidelines that present the most current technology-based preventive and condition-based maintenance solutions
- Find faster solutions to day-to-day maintenance issues, following proven techniques and access to hotline support
- Develop strategies to resolve urgent problems, using guidelines developed according to member priorities
- Improve staff knowledge and competence through training that addresses industry-wide needs
- Develop better maintenance practices and reduce human error through the use of clear, easy-to-read guidelines, complete with precautions and tips for error avoidance
- Make improved maintenance guidance available for the next generation of electrical production equipment, added environmental systems, and balance-of-plant (BOP) components in newly designed power generating units.

Program 165 – CO <sub>2</sub> Capture and Storage	2012 LG&E and KU Funding: \$	151,245
	2012 Project Budget: \$	2,489,593

**Program Description:**

Policy watchers and power system planners continue to expect that post-combustion capture will be needed in the 2020 decade for both existing and new coal-fired plants, and somewhat later for gas-fired systems, in order to meet carbon dioxide (CO<sub>2</sub>) reduction targets being discussed in the United States, by many other governments, and within the United Nations. An associated need for all fossil-fueled electricity generation sources is permanent and environmentally safe storage of the captured CO<sub>2</sub>. For pulverized coal (PC) plants to provide competitively priced electricity while addressing these CO<sub>2</sub> reduction concerns, they need capture processes with much lower parasitic plant loads and costs than systems available today. All power generation sources of CO<sub>2</sub> also will need the ability to store large quantities of CO<sub>2</sub> safely and permanently in underground formations. While establishing the necessary legal and regulatory framework is not within the purview of EPRI, providing sound technical evidence that storage can be done in a safe and permanent fashion can support the development by others of workable regulations and enabling laws.

EPRI's CO<sub>2</sub> Capture and Storage program (Program 165) provides information about the expected cost, availability, performance, and technical challenges of a range of flue gas CO<sub>2</sub> capture processes. The program seeks and encourages the development of breakthrough post-combustion CO<sub>2</sub> capture technologies with substantially lower energy and cost penalties. In addition, the program determines purity requirements for the CO<sub>2</sub> stream discharged by the capture process to ensure compatibility with the compression, transport, and injection processes, and conducts the R&D needed to demonstrate the permanence, safety, and environmental acceptability of long-term CO<sub>2</sub> storage from any power plant source.

**Research Value:**

Substantial barriers must be overcome, and technical and societal uncertainties must be resolved before carbon capture and storage (CCS) can be widely deployed, but time is growing short if a 2020-2025 date for federal CO<sub>2</sub> limits materializes. Proposed PC plants already have been denied permits in the absence of firm plans to capture and store their CO<sub>2</sub> emissions. This program meets the industry's most urgent near-term needs—information for:

- Credible asset planning through early understanding of the options, development timelines, costs, technical uncertainties, and regulatory, environmental, and related issues
- Increased confidence that acceptable capture technologies and storage options will be available when needed
- Use in public dialogue on the practical extent and timing of CO<sub>2</sub> reduction from U.S. power plants, using neutral third-party data and assessments from EPRI.

Longer-term, the technology development aspects of this program will enable the power sector to continue to provide affordable electricity to industry, businesses, and residences using fossil-fuel-fired generating assets in a low-carbon world.

**EPRI Environment Programs**

<b>Program 42 – Air Toxics Health and Risk Assessment</b>	<b>2012 LG&amp;E and KU Funding:</b> \$ 151,388
	<b>2012 Project Budget:</b> \$ 2,717,397

**Program Description:**

The Clean Air Act requires the U.S. Environmental Protection Agency (EPA) to determine whether and to what degree to regulate hazardous air pollutants (HAPs, or air toxics) emitted by power plants. Following numerous studies, regulatory proposals, and court challenges, EPA issued a draft maximum achievable control technology (MACT) standard in early 2011, scheduled for final form by the end of 2011. The ruling by EPA, based solely on achievable control standards, nonetheless sets the stage for future, risk-based regulation of utility HAPs after its MACT standards have been achieved. These “residual risk” requirements are presaged by EPA statements that the MACT rule itself is necessary but not sufficient to reduce HAPs risks to acceptable levels. This evolution of HAPs regulations, along with more-stringent EPA health standards, sets the background for applying emerging research results as well as innovative analysis methods to these issues. The goal is to ensure that the latest and best science is considered in all future decision making, domestically and internationally. The issuance and implementation of a utility MACT rule is the start of a host of new health risk issues. In particular, the concerns over urban air toxics, residual risk, international toxics agreements, and new health research will require scientific diligence to continue.

The Electric Power Research Institute's (EPRI's) Air and Multimedia Toxics Health and Risk Assessment program provides a comprehensive, stakeholder-oriented approach to technical and policy-related issues. The program is regarded by industry and public agencies as a critical and highly regarded source of scientific information on air and multimedia toxics. The research examines all aspects of trace substances, including HAPs, across multiple environmental media (air, land, and water). The program conducts basic health science research to address cutting-edge questions on health effects and public health risk assessment of numerous potentially toxic substances, including mercury, arsenic, lead, acid gases, selenium, nickel, chromium, cadmium, and dioxins and other organics.

**Research Value:**

The program's basic studies of air toxics health effects via all environmental and exposure routes inform other research programs within and beyond EPRI. In addition, the program carries out integrative studies of toxics from all global sources via air and other pathways through environmental cycling to human exposure and human health risk assessment. An important and growing effort is examining the health impacts of complex exposures to ranges of chemical mixtures, such as both mercury and lead, with common health effect endpoints. The program objectives allow it to provide forward-looking insight into developing federal, state, and international regulatory considerations. Such anticipatory wide-ranging exploratory research allows:

- Representation of a broader stakeholder research perspective as issues emerge;
- Independent scientific analyses that inform regulators and the public and broaden the perspective on the technical consequences of future actions, including regulation; and
- Provision of a framework for balanced, informed planning and decision making based on more-complete data and analyses.

Program 49 – Coal Combustion Products – Environmental Issues	2012 LG&E and KU Funding: \$	129,269
	2012 Project Budget: \$	1,902,101

**Program Description:**

Significant uncertainty exists regarding management of coal combustion products (CCPs), due largely to the U.S. Environmental Protection Agency’s (EPA's) newly proposed options governing CCP disposal. The new proposal includes options ranging from hazardous waste designation and complete phaseout of wet management, to nonhazardous waste regulations similar to those for municipal solid waste. The outcome will significantly affect disposal options and costs, as well as CCP use in products and land applications. This regulatory process, and subsequent implementation and compliance activities, will likely be a key driver for CCP research for the next 5 to 10 years. In addition, increased air emissions controls and new fuel blends change CCP characteristics, which can affect both disposal and use, and increase CCP volumes, while environmental standards for trace constituents such as arsenic and chromium continue to trend downward. This changing landscape highlights the need for new and updated information on CCP composition and leaching characteristics, environmentally protective management methods, groundwater protection and remediation requirements, and risk assessment data for CCP storage, disposal, and use. As older power plants reach the end of their useful lives and their sites are considered for repowering or other uses, systematic assessment of their decommissioning will be required.

The CCP Environmental Issues program provides scientific data, engineering knowledge, restoration methods, and other tools for cost-effective soil and groundwater protection associated with fossil fuel-fired power plants and CCP storage, disposal, and use. Research currently focuses on the effects on CCP management options of new control technologies for mercury and other hazardous air pollutants (HAPs), sulfur oxides, and nitrogen oxides; disposal regulations being developed by EPA; ash pond management and closure; new leach test methodologies; groundwater remediation; environmental performance of CCP land applications; and health and ecologic risk assessment.

**Research Value:**

Program research provides fundamental data on environmental management of CCPs. Collaborative efforts with other organizations, including EPA and the U.S. Department of Agriculture (USDA), specifically address pressing needs with respect to CCP disposal and new large-volume uses for increased quantities of flue gas desulfurization (FGD) gypsum. The program provides pivotal studies on leachability, groundwater transport, and mitigation of CCP constituent releases, as well as cost-effective and environmentally protective landfill/pond designs and closures. In addition, the program provides clear communications on the environmental risks associated with CCP management and a strong scientific voice on technical issues. Annual disposal costs for the industry are likely to increase significantly under the new EPA regulations; EPRI research indicates that hazardous waste regulation could increase disposal costs industrywide by \$55 billion to \$77 billion over a 20-year period.

EPRI research was instrumental in EPA's finding of CCPs as nonhazardous in 1993 and again in 2000 under the Resource Conservation and Recovery Act (RCRA). When the Kingston dike failure in 2008 led EPA to reconsider national regulations for CCPs under RCRA, research in this program focused on technical issues and data gaps related to the regulatory drivers. Working closely with utility members, EPRI identified key technical issues with respect to costs, engineering, and environmental risk, and developed an extensive package of reports and

information that was conveyed to EPA during the interagency review of the draft proposal and in comments on the rule proposed in June 2010.

Program 51 – T&D and ROW Environmental Issues	2012 LG&E and KU Funding: \$	79,128
	2012 Project Budget: \$	1,780,644

**Program Description:**

As the nation’s power grid is upgraded and expanded, safe and reliable operation takes on heightened importance. As the electric transmission and distribution (T&D) infrastructure expands and ages and new rights-of-way (ROW) standards are developed, power companies need to manage human health risks and minimize environmental impacts from and species interaction with power delivery systems. System components, such as service centers, substations, and cables, face issues related to spills, runoff, and cleanups, and life-cycle decision making is a critical route to improved environmental performance. Environmentally acceptable options are needed for selecting and managing utility poles and dielectric fluids, designing facilities, and remediating contamination. Efficient, cost-effective ROW vegetation management and transmission line siting are increasingly important as the Federal Energy Regulatory Commission (FERC) and the North American Electric Reliability Corporation (NERC) develop new reliability standards. In addition, power companies need to reduce avian interactions with generation and T&D facilities and protect sensitive species and habitats during ROW construction and maintenance while recognizing opportunities to optimize ecological assets on new and existing ROWs.

The Electric Power Research Institute's (EPRI's) T&D and ROW Environmental Issues program delivers information, tools, and methods for preventing, characterizing, and remediating soil and water contamination at T&D facilities, as well as for designing and retrofitting T&D facilities. Data and products from the program support development of scientifically sound regulations and cleanup standards for chemicals associated with T&D and ROW facilities and operations, as well as providing engineering, science, and business tools to aid in their management. The program also provides balanced, cost-effective solutions for addressing economic and environmental challenges with siting, developing, managing, and upgrading T&D ROWs. Innovative tools, practical guidance, and state-of-the-art information help companies control ROW costs and improve service reliability while protecting natural resources and addressing public, regulatory, and other stakeholder concerns.

**Research Value:**

Program research has documented savings of \$10 million per year industrywide for used oil management, \$1.5 billion per year for management of creosote and pentachlorophenol utility poles as nonhazardous waste, and \$500,000 at a single site by demonstration of the true risk of a mineral oil spill. The program also helped save one company \$1 million in spill prevention, control, and countermeasure (SPCC) regulatory compliance costs. Program research also expedites transmission line siting and ensures system reliability by addressing ecological issues associated with NERC vegetation management standards, reducing ROW maintenance costs, and enhancing ecological value through Integrated Vegetation Management (IVM). The program also improves a utility’s ability to prevent and assess bird strike impacts, enhances ecosystems along T&D ROWs, and provides materials to help companies communicate with regulators and address public concerns. This program provides:

- Scientific information and data to help power companies make optimal decisions on T&D ROW equipment choices and remedial approaches;

- Characterization information on substances related to environmental and human health risk, and strategies to reduce financial risk and operations and management costs;
- Constructive engagement on federal oversight of transmission vegetation management, and information for regulatory development; and
- Opportunities for proactive environmental management to decrease potential for outages and fines, and shorter time frames for siting new transmission lines.

<b>Program 54 – Fish Protection at Steam Electric Power Plants</b>	<b>2012 LG&amp;E and KU Funding:</b>	\$ 93,004
	<b>2012 Project Budget:</b>	\$ 3,829,515

**Program Description:**

A primary challenge for power plant owners is to ensure adequate water supplies for operations while protecting aquatic life living in the lakes, streams, rivers, estuaries, and oceans those operations impact. In the United States, the Clean Water Act §316(b) requires plant owners to install fish protection technologies on cooling water intake structures, while §316(a) requires management of thermal discharges. The information and learnings of this program may have direct benefits to international programs and as such, can be implemented through additional efforts.

The Electric Power Research Institute's (EPRI's) fish protection program assesses the effects of thermal power plant cooling system operation on fish and other aquatic life. Results support the development of effective intake and discharge protection approaches for workable operating permits at individual facilities. By improving the technical basis for regulatory, permitting, and operating decisions, this program serves the public interest in effective resource management while meeting industry-wide imperatives to control costs, ensure or even exceed environmental compliance, and manage business risks.

**Research Value:**

Technical information and research results inform the U.S. Environmental Protection Agency's (EPA's) §316(a) and (b) policy and regulatory analyses and can inform similar regulations in other countries. Program results defray or avoid research costs that could range from hundreds of thousands to millions of dollars if funded independently. Program information may reduce compliance costs, enhance permitting processes, and identify cost-effective management strategies. The program also provides access to new and enhanced fish protection technologies, information on fish protection-related issues, and information on costs, economic, environmental, and electric system impacts of a potential national requirement for a retrofit of closed-cycle cooling systems. The key motivations for this research are:

- Evaluating challenging impingement mortality reduction standards for those plants withdrawing more than 125 million gallons of water per day (MGD) to meet entrainment protection standards developed on a site-specific basis;
- Evaluating the latest information on technologies for reducing impingement and conducting benefit analyses to support development of site-specific entrainment standards;
- Examining closed-cycle cooling retrofit options, which, for once-through-cooled facilities, could cost between \$50 million and \$1 billion, have a suite of their own negative environmental impacts, and have short-term impacts on grid reliability;

- Avoiding duplicative costs of doing multiple pilot demonstrations of technologies; and
- Assessing the economic benefits associated with reducing impingement and entrainment; EPRI research is critical to support this assessment process.

<b>Program 56 – Effluent Guidelines and Water Quality Management</b>	<b>2012 LG&amp;E and KU Funding:</b> \$	87,220
	<b>2012 Project Budget:</b>	\$ 1,772,357

**Program Description:**

The U.S. Environmental Protection Agency (EPA) is currently revising effluent guidelines for the steam electric power generating industry. EPA also issued an Information Collection Request (ICR) to obtain additional data concerning power plant water management as well as general facility information to support its rulemaking. As EPA moves forward with this process, the available data will be used to broadly characterize the applicability and costs for characterization of trace elements in power plant wastewater streams and to evaluate the overall performance and costs for wastewater treatment options for trace metals and nutrients. Science-based analyses and extrapolation of the data will be necessary to help inform the various stakeholders, including EPA, industry and the public. In parallel, some states and regions (such as the Great Lakes) are considering low parts-per-trillion limits for mercury, while some power plants are unable to achieve selenium permit limits based on traditional removal processes.

The Electric Power Research Institute's (EPRI's) Effluent Guidelines and Water Quality Management program delivers credible data to characterize power plant wastewaters and conducts scientifically sound data interpretation to inform potential revisions to the effluent guidelines for the steam electric industry. The program also develops sound guidelines for effective management of low-volume, non-ash wastewater streams as well as ash pond chemistry and discharges, provides cost-effective and reliable options for wastewater treatment to remove chemicals such as trace metals, and develops practical tools for biofouling control using nontoxic alternatives to oxidizing biocides such as chlorine.

**Research Value:**

Program research helps facility owners develop effective effluent guideline compliance strategies. As water discharge permit limits for trace metals and nutrients tighten, power companies require accurate analytical methods, reliable data, and independent, unbiased treatment performance and cost data. In addition, new flue gas desulfurization (FGD) systems may require wastewater treatment for mercury and selenium. Key motivations for this research include the following:

- The best scientific data available are needed for developing effluent guideline standards.
- Inaccurate analytical methods may lead to false permit violations, increased capital and operating/maintenance costs for wastewater treatment, and higher likelihood of permit violations.
- Additional water treatment may be required for plants to achieve ash ponds permit limits.
- Limited options exist for nonoxidizing alternatives to chlorine.

Program 59 – PISCES – Plant Multimedia Toxics Characterization	2012 LG&E and KU Funding: \$	173,578
	2012 Project Budget:	\$ 2,706,992

**Program Description:**

The U.S. Environmental Protection Agency (EPA) is currently revising effluent guidelines for the steam electric power generating industry. EPA also issued an Information Collection Request (ICR) to obtain additional data concerning power plant water management as well as general facility information to support its rulemaking. As EPA moves forward with this process, the available data will be used to broadly characterize the applicability and costs for characterization of trace elements in power plant wastewater streams and to evaluate the overall performance and costs for wastewater treatment options for trace metals and nutrients. Science-based analyses and extrapolation of the data will be necessary to help inform the various stakeholders, including EPA, industry and the public. In parallel, some states and regions (such as the Great Lakes) are considering low parts-per-trillion limits for mercury, while some power plants are unable to achieve selenium permit limits based on traditional removal processes.

The Electric Power Research Institute's (EPRI's) Effluent Guidelines and Water Quality Management program delivers credible data to characterize power plant wastewaters and conducts scientifically sound data interpretation to inform potential revisions to the effluent guidelines for the steam electric industry. The program also develops sound guidelines for effective management of low-volume, non-ash wastewater streams as well as ash pond chemistry and discharges, provides cost-effective and reliable options for wastewater treatment to remove chemicals such as trace metals, and develops practical tools for biofouling control using nontoxic alternatives to oxidizing biocides such as chlorine.

**Research Value:**

Program research helps facility owners develop effective effluent guideline compliance strategies. As water discharge permit limits for trace metals and nutrients tighten, power companies require accurate analytical methods, reliable data, and independent, unbiased treatment performance and cost data. In addition, new flue gas desulfurization (FGD) systems may require wastewater treatment for mercury and selenium. Key motivations for this research include the following:

- The best scientific data available are needed for developing effluent guideline standards.
- Inaccurate analytical methods may lead to false permit violations, increased capital and operating/maintenance costs for wastewater treatment, and higher likelihood of permit violations.
- Additional water treatment may be required for plants to achieve ash ponds permit limits.
- Limited options exist for nonoxidizing alternatives to chlorine.

Program 91 – Air Quality Assessment of Ozone, PM, and Visibility	2012 LG&E and KU Funding: \$	166,635
	2012 Project Budget:	\$ 3,632,394

**Program Description:**

Implementation of regulatory programs under the Clean Air Act requires the development and application of rigorous air quality models, accurate ambient measurements, and the use of assessment tools based on credible science. Improved techniques are needed for estimating emissions from various sources and for determining the impact of interstate pollution. Previously these tools and techniques have been used to enable informed

rulemaking processes for attainment of National Ambient Air Quality Standards (NAAQS), to develop state implementation plans (SIPs), and to make determinations of Prevention of Significant Deterioration during permitting of power plants. However, over the past few years the use of these models has been extended to essentially every part of the air quality regulatory process. In addition to their use in the implementation of standards, air quality models will be applied in the following ways:

- Three-dimensional air quality models, as well as other environmental models, are being used to determine levels of the ambient concentrations of nitrogen oxides (NO<sub>x</sub>) and sulfur oxides (SO<sub>x</sub>) to meet a given aquatic acidification standard as part of the Secondary NAAQS for NO<sub>x</sub> and SO<sub>x</sub>. This application of these air quality models is unprecedented within the NAAQS process, and thus requires a greater degree of scrutiny on the adequacy of the models.
- With the promulgation of the Primary NAAQS for NO<sub>2</sub> and SO<sub>2</sub>, the U.S. Environmental Protection Agency (EPA) has introduced a new “hybrid” methodology for determining attainment designations of these NAAQS. In addition to deploying monitors to assess whether specific areas exceed the level of the standards, EPA is also requiring major point sources to demonstrate attainment via the use of air dispersion models as part of the designation process. These models have been developed for permitting applications, and as such are quite conservative. The use of models to demonstrate future attainment of standards as part of the SIP process is routine. However, the application of models to define current attainment designations is unprecedented.
- Finally, EPA is continuing to use models to determine the levels of significant contributions to interstate transport of air pollution. As primary and secondary standards for ozone and particulate matter (PM) become more stringent and secondary standards for NO<sub>x</sub> and SO<sub>x</sub> are introduced, EPA is expected to continue to develop “Transport Rules” with increasingly smaller thresholds of significance for these pollutants. EPA is likely to continue to use three-dimensional air quality models to establish the upwind/downwind state relations for significant contributions.

Given the already significant use of models and their proposed expansion in the air quality regulatory and management process, it is becoming more important to improve the overall process and thus increase the confidence in their use. This can be accomplished through a three-pronged approach of improving models, emissions inventories, and measurements. It is clear that improving different air quality models (through better representation of chemistry and transport) is essential to informing decisions at different steps of the regulatory process. For the models to provide accurate results, the emissions used as the input to the models should be developed with the best-available science and methods. Finally, only accurate air quality measurements can provide the “ground truthing” to determine if the models are adequate for these proposed uses.

In summary, the electric power industry needs an enhanced understanding of how atmospheric chemical reactions—especially those involving power plant emissions—influence the formation, composition, and health effects of air pollutants. Developing and improving air quality models, improving emissions inventories, and ensuring accurate measurements of air quality, visibility, and deposition are the focus of the Electric Power Research Institute’s (EPRI’s) air quality assessment program.

**Research Value:**

Air quality rulemaking continues to be a key issue for power plant owners and operators. Through this program, EPRI advances the science supporting air quality models used for policy development, regulatory decision making, and implementation planning. Timely communication materials facilitate industry’s ability to respond to questions raised by policymakers, regulators, and other stakeholders. Program research also informs environmental compliance activities, asset management, and long-term strategic planning by power companies. With this research:

- Policymakers, regulators and the public will benefit from EPRI's scientific data, modeling tools, and analytical resources to fully evaluate air quality impacts from all emissions and sources, thereby enabling informed, science-based decision making;
- Analysis of additional regulatory options and evaluations of the effectiveness of proposed policies will be performed;
- Detailed scientific perspectives on environmental policy and regulatory deliberations of power plant emissions will be provided; and
- Collaborations on multimedia environmental issues (such as water quality and ecosystem impacts from atmospheric deposition) and assessment of new technologies (such as electric transportation and distributed energy resources) will increase.

**EPRI Transmission Programs**

<b>Program 36 – Underground Transmission</b>	<b>2012 LG&amp;E and KU Funding:</b> \$ 234,820
	<b>2012 Project Budget:</b> \$ 2,755,321

**Program Description:**

Underground transmission (UT) faces a number of challenges. Utilities need better understanding of the condition of an aging UT infrastructure, which in many cases has exceeded its 40-year life expectancy, to strengthen existing cable systems and help asset managers make difficult upgrade and replacement decisions. Increased system robustness, higher capacity, and longer life will require development and use of newer polymer insulations at extra-high-voltage (EHV) levels with integrated sensors. An ability to exploit the dynamic overload capacity of buried power cables promises better asset utilization at marginal extra cost.

Transmission systems must deliver high power quality for the digital society, ideally immune from weather extremes and in many cases serving urban centers with limited space for infrastructure expansion. To meet these needs, the industry must accommodate increased use of buried power cables with greater power throughput, which places great importance on orderly replacement of mature cables with care that new advanced systems are at least as reliable. Transmission owners need guidance on the safe and more efficient use of new materials, equipment, and construction methods for UT systems to boost economic productivity and prosperity. Also needed are advanced design tools to increase the effectiveness of engineering resources, as well as to aid technology transfer to new knowledge workers. Efficient use of component materials with lower losses, less construction impact, easier replacement, and high recycle value would benefit the environment and increase sustainability for generations.

EPRI’s Underground Transmission program is made up of five research projects: Design, Construction and Operation of UT Systems, Extruded Dielectric Cable Systems, Laminar Dielectric Cable Systems, Cable Dynamic Rating and Increased Power Flow Guidebook and Develop and Deploy Superconducting Technologies. This research leads the industry in exploring and deploying promising new technologies and tools to help UT owners design and operate cost-effective cable systems with increased power capacity and longer lives, diagnose problems before outages occur, and repair them at minimum cost and within acceptable time periods.

**Research Value:**

With the knowledge acquired through this research program, members will have access to information and products that can help them:

- Increase engineering staff efficiency and expertise
- Improve efficiency and quality in UT system design
- Lower installation and operating costs
- Improve transmission system reliability and safety
- Gain more accurate and timely knowledge about asset condition and life expectancy
- Develop tools and methods to design and operate the system with increased power flow
- Acquire strategic intelligence on emerging technologies
- Participate in new technology designs, testing standards, and equipment demonstrations

<b>Program 37.103</b> – Substation Protection and Control	<b>2012 LG&amp;E and KU Funding:</b> \$	21,956
	<b>2012 Project Budget:</b>	\$ 503,591

**Program Description:**

This program helps substation owners enhance safety, reliability, equipment life, and performance, as well as maximize the return on asset investments despite limited resources. It offers a complete portfolio of tools and technologies such as decision support analytics and transformer monitoring. The program also includes resources such as failure databases and aging models to improve transformer and circuit breaker life management and training materials for systems operators. Program results help operations and maintenance (O&M) engineers extend equipment life, optimize maintenance costs, reduce outages, and reduce switching errors.

**Research Value:**

This research and development (R&D) program has been grouped into two broad classes: equipment reliability and industry issues. Collectively, the goal is to develop tools, techniques, and methodologies that help improve the maintenance, specification and procurement practices, inspection, assessment, and risk-based asset management at a utility. The information provided through the collection of projects in this program will provide members with information that can help with the following:

- Extend equipment life with maintenance guidelines
- Reduce maintenance costs via condition-based maintenance
- Reduce losses via improved sulfur hexafluoride (SF6) management

- Increase awareness of high-impact low-frequency (HILF) events and be better prepared for these events
- Implement predictive maintenance practices for reduced outages
- Reduce failures of critical assets
- Reduce switching errors, increase worker safety, and prevent outages

<b>Program 183A</b> – Cyber Security and Privacy Technology Transfer and Industry Collaboration	<b>2012 LG&amp;E and KU Funding:</b>	\$ 21,681
	<b>2012 Project Budget:</b>	\$ 365,632
<b>Program 183B</b> – Cyber Security Technology for T&D Systems	<b>2012 LG&amp;E and KU Funding:</b>	\$ 54,203
	<b>2012 Project Budget:</b>	\$ 914,081

#### Program Description:

Cyber/physical security and data privacy have become critical priorities for electric utilities. The evolving electric sector is increasingly dependent on information technology and telecommunications infrastructures to ensure the reliability and security of the electric grid. Cyber security measures must be designed and implemented to protect the electrical grid from attacks by terrorists and hackers, as well as to strengthen its resilience against natural disasters and inadvertent threats such as equipment failures and user errors.

The Electric Power Research Institute's (EPRI's) Cyber Security and Privacy Program addresses the emerging threats to an interconnected electric system through cross-sector collaborative research on cyber security standards, business processes, and technology to protect the electric grid. The initiative also will undertake collaborative research in the industry to develop technologies, best practices, and controls on data privacy for the electric grid.

#### Research Value:

The Cyber Security and Privacy program intends to provide security tools, requirements, and guidelines to its members. The rapid pace of change in the electric sector creates a challenging environment for members to monitor the activities of industry groups, develop an understanding of the security impact of new technologies, and maintain the right internal resources for assessing technologies.

Participation in EPRI's Cyber Security and Privacy Program could produce the following:

- Better understanding of industry and government collaborative efforts and where members should 'plug in'
- Guidance on developing cyber security strategies and selecting requirements
- Practical approaches to mitigating legacy system risk
- Security tools that members can use to perform security testing
- Early identification of security gaps through lab assessments of security technology

#### EPRI Supplemental Projects (During Test Year)

Date	Title	Sector	Cost
1/31/2012	Ohio River Ecological Research Program (ORERP)	Environment	\$ 36,500
1/1/2012	National Biomass Supply Study	Environment	\$ 10,695
1/1/2012	Non-destructive Methods for Detection of High Temperature Damage in Creep Strength Enhanced Ferritic Steels	Generation	\$ 10,000

1/1/2012	Clean Water Act Section 316(b) Fish Protection Compliance Strategies	Environment	\$ 6,125
12/31/2011	Weld Repair of Grade 91 Piping Components	Generation	\$ 9,000
12/31/2011	University Advanced Coal Generation Research Fund	Generation	\$ 17,500
12/16/2011	Displacement of Coal Generation by Natural Gas: Limits and Implications of Alternative Dispatch of Fossil Units	Environment	\$ 20,000
12/14/2011	Pilot Test of Advanced Amines and Concepts for CO2 Capture	Generation	\$ 39,000
12/12/2011	Life Management of Boiler and Piping Components Fabricated From Grade 92 Steels	Generation	\$ 45,000
12/8/2011	National Biomass Supply Study	Environment	\$ 21,805
12/7/2011	Guidelines for Managing Flexible Operations	Generation	\$ 40,000
11/10/2011	Clean Water Act Section 316(b) Fish Protection Compliance Strategies	Environment	\$ 42,875
11/7/2011	Pond Closure Research	Environment	\$ 50,000
7/28/2011	Test Burn Corrosion Assessment at LG&E and KU's Mill Creek Station	Generation	\$ 72,500
6/10/2011	Weld Repair of Grade 91 Piping Components	Generation	\$ 10,000
6/10/2011	Non-destructive Methods for Detection of High Temperature Damage in Creep Strength Enhanced Ferritic Steels	Generation	\$ 10,000
4/29/2011	Ohio River Ecological Research Program (ORERP)	Environment	\$ 39,000
4/27/2011	Test Burn Assessment at LG&E-KU's EW Brown	Generation	\$ 20,000

### **Other Funded Projects**

<b>Carbon Management Research Group (CMRG)</b>	<b>2012 LG&amp;E and KU Funding:</b>	\$ 200,000
University of Kentucky Center for Applied Energy Research (CAER)	<b>2012 Project Budget:*</b>	\$ 2,500,000

\*Does not include money from Department of Energy

#### **Program Description:**

This multi-year project investigates carbon management through a consortium composed of E.ON U.S., Electric Power Research Institute (EPRI-Palo Alto, CA), East Kentucky Power, Kentucky Power (AEP), Duke Energy, the University of Kentucky and the Kentucky Cabinet for Energy & Environment. This research will investigate post-combustion CO<sub>2</sub> capture process for the existing coal-fired fleet and involves the development and heat optimization of an amine-based CO<sub>2</sub> Scrubber Process, including the evaluation and development of an integrated CO<sub>2</sub> Capture/Fertilizer Byproduct Process. In-situ Oxy-fuel Combustion CO<sub>2</sub> purification process for the future power plant will be investigated using Pressurized Chemical Looping Combustion Combined Cycle (PCLC-CC) approach. The end result of this work will provide Process Simulation and Optimization of CO<sub>2</sub> Capture Technologies for Existing Power Plants.

University of Kentucky's Center for Applied Energy Research was awarded \$14,500,000 from DOE using cost share funding from the companies for a slipstream pilot plant at the E. W. Brown Generating Station. This is about 10 times larger than the "bench-scale" project currently undertaken and moves the process closer to scale-up and proof of concept.

**Project Benefit:**

Insight into the application of CO<sub>2</sub> Capture Process will provide planning and verification of potential technologies to remove carbon from flue gas streams. This information will provide a basis for decision making and economic feasibility evaluations. The energy requirements and affect to plant efficiency are evaluated.

<b>Luminant Carbon Research Group</b>	<b>2012 LG&amp;E and KU Funding:</b> \$ 25,000
University of Texas at Austin	<b>2012 Project Budget:</b> \$ 2,000,000

**Program Description and Benefit:**

CO<sub>2</sub> capture by absorption/stripping with aqueous monoethanolamine (MEA) is the benchmark technology for addressing CO<sub>2</sub> emissions from existing coal-fired power plants. Conventional coal-fired power plants represent a large fraction of the existing capacity and capacity to be built before advanced power systems can be deployed. These conventional plants cannot be abandoned in any comprehensive strategy to reduce CO<sub>2</sub> emissions for global climate change. With the availability of cheap natural gas, new combined cycle, gas-fired power plants will also be an important source of CO<sub>2</sub> emissions that must be addressed. The MEA process is a derivative of extensively used technology for treating natural gas and hydrogen. It is used commercially in combustion plants with gas rates equivalent to 20 MW.

The economics of the first generation MEA technology are not attractive. The energy requirement can reduce the power output of a coal-fired plant by as much as 30%. However, the alternatives for existing coal-fired power plants can be equally unattractive. Like limestone slurry scrubbing for flue gas desulfurization, aqueous absorption/stripping for CO<sub>2</sub> capture is the first technology to receive serious consideration and it will probably survive as the primary technology to be used for this application.

The deployment of this technology will require a demonstration of CO<sub>2</sub> capture and sequestration on an absorber module at a commercial scale (100–300 MW). The purpose of this integrated research effort is to provide the technical basis for such a demonstration on an existing coal-fired power plant and on a new gas-fired combined cycle in Texas.

This program includes 17 Ph.D. students, 2 M.S. student, 4 faculty, and 2 professionals working on CO<sub>2</sub> rate and solubility measurements, amine degradation, systems modeling, pilot plant testing, sequestration modeling, and systems analysis. The effort is currently funded by \$500,000/yr from Luminant, and by more than \$750,000/yr from 33 sponsors in the Luminant Carbon Management Program and other affiliated activities including 10 process suppliers (Alstom Power, Babcock & Wilcox, Doosan-Babcock, GTC Technology, IFP, Shell /Cansolv, Mitsubishi Heavy Industries, URS, Powerspan, HTCPureEnergy), 8 power companies (NRG Energy, Southern Company, SaskPower, RWEnpower, E.ON, EPRI, Arch Coal, LG&E-KU ), 6 oil companies (Aramco, Chevron, Phillips 66, ExxonMobil, Total, Statoil), 8 others (AspenTech, Codexis, GE, Huntsman Chemical, CSIRO, DOE, DNV, TNO) and one equipment donor (Emerson).

<b>Carbon Capture Pilot Plant Project (C2P3)</b>	<b>2012 LG&amp;E and KU Funding:</b> \$ 200,000
University of Texas at Austin	<b>2012 Project Budget:</b> \$ 1,325,000

**Program Description and Benefit:**

The CO<sub>2</sub> Capture Pilot Plant Project (C2P3) is testing at 0.1 to 0.5 MW the innovative solvent and process concepts developed by the Luminant Carbon Management Program at the University of Texas. The existing pilot plant in the Separations Research Program (SRP) at the Pickle Research Campus will demonstrate energy and mass transfer performance with air/CO<sub>2</sub> in campaigns that last for 3 to 6 weeks. Two or more additional pilot plants will be used to provide real coal-fired flue gas at 0.1 and 0.5 MW to test solvent robustness for 3 to 6 months. Australia is funding a 0.1 MW pilot plant at Tarong that will be managed by CSIRO. The U.S. DOE is funding a 0.5 MW pilot plant at the National Carbon Test Center managed by Southern Company at Wilsonville, Alabama. Both of these programs have agreed to consider concentrated piperazine in their testing.

The Luminant Program has established that concentrated piperazine is a superior solvent with twice the capacity and CO<sub>2</sub> absorption rate of 30 wt % monoethanolamine and excellent thermal and oxidative stability. Concentrated (8 m) piperazine with high temperature/pressure regeneration has proven to be an effective alternative in three pilot campaigns at SRP in Fall 2008, Fall 2010, and Fall 2011.

A fourth campaign at SRP in 2012 will address issues with amine aerosol and piperazine oxidation and test additional system modifications to enhance energy performance and operability with the 2-stage heated flash regeneration. Concentrated piperazine is ready for long term testing with real flue gas in a facility such as those at Tarong and Wilsonville. The testing at Tarong started in summer 2011. Initially it has been testing concentrated piperazine with a simple stripper. In 2012 it will use a pressurized simple stripper. The testing at Wilsonville is scheduled for 2013. Solvent reclaiming will be used at Wilsonville but not at Tarong.

The CO<sub>2</sub> Capture Pilot Plant Project (C2P3) project invites participation in a long-term, multiple-participant research program. From each sponsor, we are seeking funding of \$65,000/yr. The participation period is defined as the calendar year, January 1 to December 31. We currently have \$325,000/yr from Southern Co., LG&E-KU, Luminant Energy, Babcock & Wilcox, and Chevron. Sponsors who are members of the Process Science and Technology Center may participate for \$50,000/yr. Several members of EPRI have found it convenient to fund C2P3 as an EPRI-tailored collaboration project.

DOE is providing \$3 million as comprehensive funding for these pilot plant activities. URS is the lead contractor on this DOE effort. Trimeric and the University are subcontractors. This proposal includes 20% cost-sharing from the C2P3. Long term operation at Tarong will be supported by the Australian government and at Wilsonville by DOE.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 48**

**Responding Witness: Valerie L. Scott**

Q-48. Provide the average number of customers for each customer class (ie., residential, commercial, and industrial) for the 3 calendar years preceding the test year, the test year, and for each month of the test year.

A-48. See attached.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 49**

**Responding Witness: Paula H. Pottinger, Ph.D.**

- Q-49. Provide all current labor contracts and the most recent contracts previously in effect.
- A-49. See attached. The current contract between Louisville Gas & Electric Company and IBEW Local 2100 was effective November 11, 2011. It and the previous contract are attached.

# **Current LG&E IBEW Contract**

**ARTICLE 1  
RECOGNITION**

The Company recognizes the Union as the exclusive collective bargaining agent for all employees of the Company engaged in operation, production, construction and maintenance, including meter readers, servicemen, collectors and inspectors, temporary and summer employees, and custodial employee classifications, but excluding all other employees in the Commercial Department, Accounting Department, Market Services Department, right-of-way agents, cadet engineers, co-op students and internships, office clerical employees, and all professional employees, guards and supervisors as defined in the National Labor Relations Act, as amended.

**ARTICLE 2  
MANAGEMENT**

By reason of the nature of the business of the Company it is essential, and is therefore agreed, that the management of the Company and the supervision and control of all operations and the direction of the working forces, including the right to relieve employees from duty because of lack of work, or for just cause, the right to hire, suspend, discharge for cause, promote, demote or transfer employees, and the right to operate the Company should be, and is, vested in, and reserved to, the Company, except as herein limited.

The Company shall have the right to formulate and enforce rules and regulations dealing with employee conduct and work and safety which are not in conflict with this Agreement. The Company will notify the Union office in writing at least fourteen (14) calendar days prior to implementation of any new or revised rules or regulations and shall meet to discuss such changes during the fourteen (14) calendar day period if requested.

**ARTICLE 3  
UNION SECURITY**

SECTION 3.01: The Union is required under the terms of this Agreement to represent all of the bargaining unit employees of the Company fairly and equally without regard as to whether or not such employee is a member or agency fee payer of the Union. Accordingly, it is deemed fair that each such bargaining unit employee pay his own way and assume his fair share of the obligation along with the grant of equal benefits contained in this Agreement. Neither the Company nor the Union shall exert any pressure on, or discriminate against, any such bargaining unit employee as regards such matters.

SECTION 3.02: The Union agrees that it shall from time to time promptly accept for membership in the Union any person, not at such time a member or agency fee payer of the Union, (a) whom the Company desires to employ to perform for the Company work covered by this Agreement and who

signifies his willingness to become a member or agency fee payer of the Union, or (b) who is an employee of the Company performing for it work covered by this Agreement and who signifies his willingness to become a member or agency fee payer of the Union.

SECTION 3.03: The term "willingness to become a member of the Union" as used in this Agreement shall mean and refer to a person who applies to the Union for membership therein, tenders the initiation fees uniformly required by the Union as a condition to membership therein and agrees to pay the periodic dues uniformly required by the Union as a condition to membership therein.

SECTION 3.04: Each regular bargaining unit employee who was employed on or before September 29, 1980, shall, as a condition of continued employment, pay to the Union directly or by way of proper authorization for payroll deduction in the manner provided in Section 3.08 of this article, until the expiration of this Agreement, an amount of money uniformly required from the members or agency fee payer of the Union, which shall be limited to an amount of money equal to the Union's regular and established initiation fee, if applicable, and the Union's regular and established monthly dues or agency fees.

All employees covered by this Agreement who are in the employ of the Company on the effective date of this Agreement and who at that time are members or agency fee payers of the Union or who thereafter become members or agency fee payers of the Union shall, during the remainder of the term of this Agreement, as a condition of continued employment maintain their membership or agency fee payer status in the Union.

All employees covered by this Agreement who have been employed since September 29, 1980, or who are employed during the term of this Agreement, shall become and remain members or agency fee payers of the Union on the effective date of this Agreement, or in the case of newly hired employees, on the thirty-first day of employment.

SECTION 3.05: Any regular bargaining unit employee, who fails to comply with the foregoing provisions, shall, within ten (10) work days after the Company is in receipt of due notice by registered or certified mail from the Union, be notified by the Company in writing that he is being placed upon thirty (30) calendar days notice, and at the end of such period, having failed to comply with this provision, shall be discharged.

SECTION 3.06: The Union shall indemnify and save the Company harmless against any and all claims, demands, suits or other forms of liability that may arise out of or by reason of any action taken or not taken by the Company for purposes of complying with the provisions of this article.

SECTION 3.07: The Company agrees to notify each new bargaining unit employee of the existence of this Agreement. In addition, the Company shall, within a reasonable period of time after the effective date of employment of each new bargaining unit employee, advise the Union in writing as to the name of such new bargaining unit employee, his address, work location and wage rate.

SECTION 3.08: The Company shall make collection of union dues or agency fees of any bargaining unit employee, who is or is not a member or agency fee payer of the Union, through payroll deductions, upon proper authorization in writing signed by such bargaining unit employee and delivered to the Company, within the ten (10) work days after its execution; shall pay monthly to the Financial Secretary of the Local Union the total amount thus deducted from all bargaining unit employees for whom such authorizations are in effect; and shall monthly, promptly after the first payday, furnish such Financial Secretary an itemized list showing, for the period subsequent to the last previous list, the names, addresses, work locations, and wage rates of the bargaining unit employees in respect of whom the payroll deductions were made and the respective amounts of such deductions. Deductions shall be made only from the wages paid to bargaining unit employees on two (2) of the paydays in the month for which the dues are owing.

SECTION 3.09: The Financial Secretary of the Local Union shall certify to the Treasurer (or other properly designated representative) of the Company, in writing and in such form and detail as the Company shall direct, the amount of the regular monthly union dues or agency fees which shall be deducted for such month under the authorizations provided for in Section 3.08 of this article. In each case where there is any change to be made in the amount so certified, the Financial Secretary shall, on or before the twentieth day of the month immediately preceding the month in which such change is to be effective, certify such fact and the changed amount to be deducted.

SECTION 3.10: Cancellation by a bargaining unit employee of his written authorization for payroll deduction shall be in writing signed by the bargaining unit employee and, upon receipt thereof, the Company shall honor any such cancellation. Cancellations shall be forwarded promptly to the Financial Secretary (or other properly designated representative) of the Union. A bargaining unit employee's authorization shall be deemed automatically canceled if such employee leaves the employ of the Company (including bargaining unit employees who are granted leaves of absence) or is transferred or promoted out of the bargaining unit.

SECTION 3.11: No dues or agency fees shall be deducted when sufficient pay is not available after allowing for all other authorized deductions. In such a case, the Union dues or agency fees shall be deducted on a subsequent payday (if any) in the same month if sufficient pay is available.

Any employee who is a member of and adheres to established and traditional tenets or teachings of a bona fide religion, body or sect which has historically held conscientious objections to joining or financially supporting labor organizations shall not be required to join or financially support the Union as a condition of employment hereunder; provided, however, that such employee shall be required to pay, in lieu of periodic dues or agency fees and initiation fees, sums equal to such dues or agency fees and initiation fees to a nonreligious, non-labor organization charitable fund exempt from taxation under Section 501(c)(3) of Title 26 of the Internal Revenue Code, chosen by such employee from the following three funds:

1. Old Kentucky Home Council, Boy Scouts of America
2. Kentuckiana Council, Girl Scouts of America

3. Metro United Way

If such employee who holds conscientious objections pursuant to this provision requests the Union to use the grievance-arbitration procedures on his behalf, the Union has the right, in accordance with Section 19 of the National Labor Relations Act, as amended, to charge the employee for the reasonable cost, which shall be determined by the Union, of using such procedure.

SECTION 3.12: Each new employee during his orientation shall be provided by his Department with the following:

- (a) A copy of this Agreement;
- (b) A copy of the Company's work rules, including Absenteeism and Tardiness rules and regulations;
- (c) A copy of the Safety Manual;
- (d) The telephone number(s) to call to report absence or tardiness;
- (e) The names of employee's immediate supervisor and the supervisor's immediate superior; and,
- (f) A list of Stewards and Chief Stewards furnished the Department by the Union.

The Company will provide the appropriate Chief Steward, or his designated representative, with written notification of any newly-hired employee assigned to the Chief Steward's area within two (2) weeks of such assignment. The Union will be notified in advance of any formal employee orientation meetings.

Nothing in this Section shall enlarge upon the rights of new employees as set forth elsewhere in this Agreement.

**ARTICLE 4  
UNION BUSINESS**

SECTION 4.01: Any regular employee covered by this Agreement who is or may be elected or appointed to an office in the Union requiring his absence from duty with the Company, upon written request by the Union, shall be granted a leave of absence without pay for the duration of his term or terms of office. He shall be reinstated to employment upon completion of his term of office with restoration of full seniority, including the time served in union office, if he applies for reinstatement within thirty (30) calendar days after expiration of his term. Provided he is capable of performing the work and has retained qualifications, he shall be reinstated to his former position or its equivalent on the shift and at the location he was assigned prior to his term

in the Union office, if available. He will be allowed time off from work without pay for any vacation entitlement he may have earned from the Union while on such leave of absence and such time will be treated as though it were vacation for absenteeism purposes. Time off will be granted only to the extent scheduling will permit which does not interfere with the established vacation schedule in accordance with Article 13. The Company shall not be required to grant more than four (4) leaves of absence under this Article at the same time. However, the Company may, upon proper request from the Union, authorize more than four (4) such leaves of absence. Two (2) of the above authorized four (4) leave of absence employees may instead be employees chosen by the Union who will remain active, but will be on full-time special assignments. Such employees will primarily focus on the two functions described below or must actually perform services directly related to the administration and enforcement of the CBA to include, without limitation, acting as the Union's chief representative for the Joint Health and Safety Committee as detailed in Article 34. Compensation shall be limited to loss of straight-time wages at the employee's rate immediately prior to the start of his special assignment, adjusted for regular increases.

- One position to focus on working with contractors and Building & Trade unions to improve the potential for union contractors to be competitive in the bidding process.
- One position to focus on safety training for both employees and contractors.

SECTION 4.02: Any regular employee covered by this Agreement who is elected or appointed to an office in the Union requiring his temporary absence from duties with the Company may, upon proper written request to his supervisor, specifying the dates of, and reasons for such absence, be excused from work without pay, provided that the Company can arrange for a substitute to perform the employee's work, and provided further that any such leave or sum of such leaves shall not exceed thirty (30) working days in a calendar year. However, the Company will give additional consideration in this area on a case-by-case basis.

SECTION 4.03: When an employee needs to attend a Union committee meeting during his regular scheduled workday, he shall be excused from work without pay for that purpose, upon proper written request to his supervisor, provided that the Company can arrange for a substitute to perform the employee's work.

SECTION 4.04: An employee who is elected by the Union to serve as a delegate to Union conventions or other similar Union meetings shall, upon proper written request to his supervisor, be excused from work without pay for sufficient time to attend such conventions or meetings.

SECTION 4.05: The Company shall compensate an employee only for the regular straight-time hours actually lost by such employee because of the employee's documented participation in the contractual grievance procedure, K.O.S.H.A. inspections, and arranged meetings, as outlined below:

- (a) For time spent by Shop Stewards, Chief Stewards and other employees authorized by this Agreement to participate in the processing of a grievance under the terms of the grievance procedure set forth in Article 5.

- (b) For time spent by a Union member who is requested by the Company or K.O.S.H.A. to attend opening or closing conferences or the walkaround of a K.O.S.H.A. inspection of a Company facility.
- (c) For time spent in arranged Company authorized meetings with Company representatives.

SECTION 4.06: Union business except as specifically provided herein, shall not be conducted during employee's working time unless specifically authorized by the Company.

SECTION 4.07: Union members who are excused from work for the conduct of Union business, and who are not eligible for compensation by the Company for time so spent, shall, upon request by the Union, be compensated by the Company for straight-time hours spent. The Union will reimburse the Company for these hours upon proper notice. The Company's obligation under this section shall be suspended if, after thirty (30) calendar days from demand for proper reimbursement, such reimbursement is not received by the Company. Any contested amount of reimbursement is all that may be withheld by the Union to avoid the suspension of such obligation.

SECTION 4.08: An employee who is elected or appointed to a full-time position with the Union shall be permitted to participate only in the following Company fringe benefit plans:

- (a) Group Medical Insurance Program
- (b) Group Dental
- (c) Retirement Income Plan
- (d) The programs described in Section 29.07

Except for the benefits described in subsection (d) above, the total cost of participation in the above-listed fringe benefit plans for an employee elected or appointed to a full-time position with the Union, and who elects to participate in such benefit plans, shall be paid for by the Union. Such cost shall be payable when due, upon proper notification to the Union, for all time the employee holds such elected or appointed position.

SECTION 4.09: For the purpose of Sections 4.02, 4.03 and 4.04 of this article, seven (7) calendar days shall be considered "proper written request" provided the Union is aware of the need for the individual's absence at that time. In any case, the Union will notify the Company as far in advance as possible if the seven (7) calendar day notification cannot be met. In such case, the Company will make every effort to accommodate the Union's request consistent with operational needs. However, the Company shall not be obligated to release any employee if written notice is received less than forty-six (46) hours prior to the beginning of the employee's scheduled work day from which he seeks to be released in whole, or in part. Leaves of absence shall not be unreasonably withheld by the Company.

SECTION 4.10: With the exception of the provisions of Section 4.05 above, there shall be no other compensation for Union business.

SECTION 4.11: Bulletin boards shall be furnished by the Company for the Union's use for the purpose of posting notices to Union members. The Union agrees that it shall confine such posted notices to information concerning Company-Union relations and matters of concern to Union members. The Union further agrees it shall not post any notices that are derogatory or inflammatory in nature. Postings on bulletin boards shall be done by the Chief Union Stewards or their designated representatives.

**ARTICLE 5  
GRIEVANCE PROCEDURE**

SECTION 5.01: A grievance is defined as a dispute an employee or the Union may have with the Company arising from or based on the interpretation, application or violation of the express terms of this Agreement and other related contractual agreements or established precedents.

SECTION 5.02: It is the intention of the parties that all complaints and grievances should be presented promptly and discussed within a reasonable time. It is the further intention of the parties that grievances should be settled, whenever possible, at the departmental levels where the greatest familiarity with the subject matter exists. Therefore, prior to filing a grievance at the First Step of the grievance procedure, an employee who has a complaint or problem which may thereafter be a grievance, may informally discuss such complaint or problem with his immediate supervisor. If the complaint or problem is not resolved at this informal discussion, then it may thereafter be referred to the First Step of the grievance procedure.

It is agreed that all grievances, except those involving discipline or discharge, shall be settled and determined through the following grievance procedure. Discipline and discharge grievances will be processed in accordance with Article 7.

First Step - the Union or any employee who believes that he has a justifiable grievance shall, within fourteen (14) calendar days after the cause of the grievance is known to the employee, or when it could have reasonably been known to the employee, verbally present and discuss the grievance with his immediate supervisor. The Shop Steward shall be present at this meeting and shall identify the verbal presentation as a formal grievance. If the grievance is not resolved at this meeting, the shop steward will specify the issue of the grievance and the date of this meeting on the First Step grievance form provided by the Union. The supervisor will sign acknowledging receipt of the grievance. The supervisor shall, within fourteen (14) calendar days of the initial meeting, notify the employee and the shop steward of the disposition of the matter.

A meeting will be held, within the above fourteen (14) calendar day period, in an attempt to settle the grievance using mutual gains bargaining (MGB) principles. The meeting may be attended by the aggrieved employee, his Shop Steward and Chief Steward or other designated Steward trained in MGB principles. Also in attendance may be the grievant's immediate supervisor and another management representative trained in MGB principals

who shall then attempt to settle the grievance. Any new information the Union may discover after this meeting will be promptly brought to management's attention. The Union will not be unreasonably denied the opportunity to explain the new information, if necessary. Any settlement must be documented on the First step grievance form, signed by both parties and submitted to the Union Office and the Labor Relations Department. Within seven (7) calendar days of such settlement, the Union Office or the Labor Relations Department will have the opportunity to reject the settlement. If neither the Union Office nor the Labor Relations Department rejects the settlement, it may then be implemented. It is understood and agreed that settlements at this level of the grievance procedure shall not constitute a precedent for the interpretation and administration of this Agreement or any other like or similar grievance or grievances.

Second Step - If the grievance is not resolved, and is to be processed further, then within seven (7) calendar days after the supervisor's answer at the First Step of the grievance procedure or in the case of a rejected settlement, within seven (7) calendar days of notice of such rejection, the grievance shall be reduced to writing and submitted, by the President of the Union (or his designated representative) to the person designated by the Company for a Second Step grievance meeting. This meeting will be held within fourteen (14) calendar days of receipt, if practicable.

At the Second Step grievance meeting, a member of the Labor Relations staff (together with such associates as he may wish to assist him in the matter) shall meet with the Union Grievance Committee (which shall be composed of the Union President, the Chief Steward, the Shop Steward, and the grievant or their designated representatives, together with such non-employee associates as they may wish to assist them in the matter) to discuss and attempt to resolve the grievance.

Within fourteen (14) calendar days after the Second Step grievance meeting is conducted, a person designated by the Company shall answer the grievance in writing and give such answer to the Union President. If the grievance is not resolved at the Second Step of the grievance procedure, then, as prescribed in Article 6 of this Agreement, the President of the Union (or his designated representative) may submit a written demand for arbitration to the American Arbitration Association with a copy to the designated Company representative.

At any time after the expiration of ninety (90) calendar days following the date of the Company's Second Step answer for discharge cases or six (6) months following the date of the Company's Second Step answer for all other cases, the Company may inform the Union Office in writing that such grievance must be submitted to Arbitration within fourteen (14) calendar days after the receipt of such letter, or it shall be defaulted in accordance with the terms of Section 5.03.

SECTION 5.03: Any dispute, complaint or grievance arising from an alleged violation of this Agreement by the Company shall be deemed, considered and held to have been waived unless the same is presented for settlement and determination within the time limits as spelled out in the various steps of the grievance procedure. In the event a grievance is not processed within the specified time limits, unless the Company and the Union mutually agree otherwise, the grievance

shall be deemed to have been defaulted and it will thereafter be settled in favor of the non-defaulting party. It is further understood that if a grievance is defaulted or waived it shall not constitute a precedent for the interpretation and administration of this Agreement or any other like or similar grievance or grievances.

SECTION 5.04: It is agreed that the Company will compensate, per Article 4, Section 4.05 of this Agreement, the grievant and the Stewards, who are authorized in this article, for documented time spent in investigating, processing grievances and participating in grievance step meetings with Company representatives. "Substitutes," "assistants," or "replacements" will only be recognized as being entitled to compensation under this Section if, where practicable, written advance notification is received from the Union office naming the changes in designated representatives that the Union desires to make. The Union agrees to keep the Company notified in a timely manner as to who has been designated a Shop Steward or Chief Steward, and which group or groups of employees that each one represents and shall provide the Company with an up-to-date list at the beginning of each calendar month. The Union further agrees to assign each Shop Steward to his current work site or work group.

The First Step of the grievance procedure shall be conducted during the scheduled working hours of the grievant as far as practicable. Second Step grievance meetings shall be conducted as far as practicable between hours of 8 a.m. to 5 p.m. Time of such meetings shall be by mutual agreement of the parties.

SECTION 5.05: In order to investigate grievances arising hereunder and/or to meet with representatives of the Company to attempt to adjust grievances for those employees in his designated work group or work area, the Union representative authorized to participate at the appropriate grievance step and to represent the grievant may be permitted to consult with any other employee within his designated work group or work area during the working time of either of them, provided he first obtains the permission of his own supervisor and then obtains the permission of the immediate supervisor of the employee being consulted and that such consultation shall not disrupt the Company's operations. The permission of the immediate supervisor in either case shall not unreasonably be withheld. Consultations of this nature shall be as brief as practicable with every reasonable effort made to limit their use to the involvement of only those employees as may be needed to establish the facts in each case.

In addition to the above limitations, grievance investigation as described herein shall be authorized only on Company property. However, after a grievance has been answered following the first step hearing, a Chief Steward may, if necessary, be authorized to attend the Union Office for purposes of grievance investigation provided, however, the appropriate labor relations/management representative receives a written request specifying the grievance being investigated, as well as the date, time and approximate duration of the investigation for which permission is requested. Such request must be received reasonably in advance of the date sought by the Chief Steward and shall be signed by the Union President or a Business Representative. Permission to attend the Union Office, provided these conditions are met, shall not be unreasonably withheld.

Additionally, should an employee be suspended pending discharge pursuant to Section 7.04 of this Agreement, the appropriate Chief Steward will, if necessary, be authorized to attend the Union Office, during his working time, prior to the suspension hearing after first obtaining the permission of his immediate supervisor. Permission will not be unreasonably withheld.

SECTION 5.06: Whenever a grievance involves two or more employees, not more than two of the employees affected may be substituted for an employee or grievant wherever the words "employee" or "grievant" are used in the grievance procedure.

SECTION 5.07: Grievances which relate to matters which extend beyond a single section or department may originate in Step Two of this grievance procedure, provided that the initial time limits for filing a grievance in Step One of this grievance procedure are met. The time limits to answer at Step Two will apply.

SECTION 5.08: This grievance procedure may be varied at any time by mutual agreement, in writing, of the parties when such action appears to be necessary or desirable.

## **ARTICLE 6 ARBITRATION**

SECTION 6.01: Any grievance not resolved in the Second Step of the grievance procedure may be submitted to impartial arbitration.

SECTION 6.02: The Union shall notify the Company of its intent to arbitrate a grievance by the procedure established in Article 5, Section 5.02. Such notice shall include the name of the Union's representative.

SECTION 6.03: Within five (5) working days after receiving written notice from the Union that it has requested arbitration of an unresolved grievance, the Company shall notify the Union of its representatives. A meeting will be held between the parties to select one arbitrator from the panel submitted by the American Arbitration Association. This meeting shall be held in a timely manner so as to satisfy the selection requirements of the American Arbitration Association. At such a meeting, the parties shall attempt to resolve the grievance. If the grievance is not resolved at such a meeting, the two parties shall select an impartial arbitrator as hereinafter provided.

SECTION 6.04: Any grievance processed under the terms of this article shall be arbitrated in accordance with the voluntary Labor Arbitration rules of the American Arbitration Association which are then in effect and the Arbitrator for each such case shall be selected in accordance with said rules except that either party may reject one list per case; provided, however, that each list of arbitrators submitted by the American Arbitration Association shall contain the names of at least seven (7) arbitrators who are members of the National Academy of Arbitrators, selected without regard to the geographic location of their residence in relation to Louisville, Kentucky. No more than one grievance shall be simultaneously submitted to any one arbitrator unless the Company and

the Union agree otherwise in writing. The Arbitrator so selected shall have power to receive testimony from parties to the dispute and to hear such witnesses as they may desire to present. The parties may, if they so desire, be represented by counsel in all proceedings had before the Arbitrator. The Company shall bear the cost of preparing and presenting its case to the Arbitrator and the Union shall bear the cost of preparing and presenting its case to the Arbitrator. All other expenses of arbitration, such as but not limited to the Arbitrator's fee, the cost of recording and transcribing testimony if the parties mutually agree to split this cost or if the Arbitrator requests that the hearing be transcribed, and the hiring of a space in which the arbitration proceedings are held, shall be divided equally between the Company and the Union.

SECTION 6.05: The function of the Arbitrator shall be of a judicial rather than a legislative nature. The Arbitrator shall not have the authority to add to, ignore or modify any of the terms or provisions of this Agreement. The Arbitrator shall have power and authority to arbitrate only those matters expressly made subject to arbitration by the terms of this Agreement and shall rule only on the issues submitted to him. The Arbitrator shall have power only to interpret this Agreement and shall not have the power to alter or amend it. The Arbitrator shall not decide issues which are not directly involved in the case submitted to him, and no decision of the Arbitrator shall require the payment of a wage rate or wage basis different from, or the payment of any wages in addition to, those expressly set forth in this Agreement. In any discharge or disciplinary layoff case where the Arbitrator decides that the aggrieved employee should be awarded any back pay, the Company shall be required to make the employee whole to the extent of the Arbitrator's award but shall be entitled to full credit on such award for the employee's gross interim earnings received or receivable by the employee during the period he was not working for the Company. Subject to the foregoing qualifications and limitations, the Arbitrator's award shall be final and binding upon the Company, the Union and the aggrieved employee or employees.

SECTION 6.06: Only the Union shall have the right to process and appeal grievances under this Agreement and only the Union shall have the right to take to arbitration any grievance processed under this Agreement. If the Union fails, refuses or declines to prosecute a grievance on behalf of an employee, or if the Company and the Union settle any grievance on behalf of an employee hereunder, the employee who has filed such grievance or on whose behalf it has been filed shall be conclusively bound thereby and both the Union and the aggrieved employee shall thereafter be estopped to revive or further prosecute said grievance.

SECTION 6.07: Upon mutual agreement of both parties, grievances involving discipline or discharge may be submitted to Expedited Arbitration. Any grievances submitted to Expedited Arbitration under the terms of this article shall be conducted in accordance with the Expedited Labor Arbitration Rules of the American Arbitration Association.

SECTION 6.08: In discharge cases, provided either party desires to file a post-hearing brief, such briefs shall be filed not more than three (3) weeks from the close of the hearing or two (2) weeks from receipt of the transcript of proceedings, whichever occurs first.

**ARTICLE 7**  
**DISCIPLINE AND DISCHARGE**

SECTION 7.01: The Company shall have the right to discharge an employee during his probationary period with or without cause, and without recourse by the Union or by such probationary employee to the grievance procedure of this Agreement.

SECTION 7.02: The maintenance of discipline is the responsibility of the Company and to that end, the Company shall have the right to discipline or discharge employees, who have completed their probationary period, for just cause. The Company will send the Union Office a copy of any written disciplinary action given to employees covered by this Agreement and also shall provide a copy to the Union Steward. Such notice will be given as soon as possible after the action takes place.

SECTION 7.03: Any employee called in for disciplinary action or for an investigation which could result in disciplinary action, for that employee, shall be informed of his right to Union representation and shall be allowed to obtain such representation if he so desires before such action or investigation takes place. A copy of any disciplinary action taken shall be given to the employee. The Union or the employee may, within fourteen (14) calendar days after the administration of disciplinary action, appeal such action directly to the Second Step of the grievance procedure in Article 5.

SECTION 7.04: In cases in which the Company determines that an employee's conduct may justify discharge, such employee shall first be suspended for a period not to exceed the equivalent of forty (40) hours of scheduled work time. During this period of initial suspension, the employee and/or the Union may request a hearing before the appropriate manager or his designated representative. At such hearing, all facts giving rise to the employee's disciplinary action will be presented to the Union and discussed between the parties. The president of the Union (or his designated representative) will be notified and given an opportunity to be present or have his designated representative present. After such hearing, or if no such hearing is requested, the Company shall determine the appropriate penalty, if any, to be given to the employee. Written notice of such determination shall be given to the employee, with a copy to the Union Office and the Union Steward.

SECTION 7.05: In the event the Company's disposition is unsatisfactory to the Union, the Union may, within five (5) working days after such disposition, appeal the final disciplinary action directly to the Second Step of the grievance procedure in Article 5 without prejudice to Section 7.04 of this article or Sections 5.01 and 5.02 of Article 5. However, only one grievance shall be processed.

SECTION 7.06: Unless additional time is necessary to investigate misconduct, and provided the Union approves of such additional time, the Company shall otherwise impose discipline within five (5) of the employee's workdays from the time the Company knows or could have reasonably known of the conduct for which the discipline is imposed.

SECTION 7.07: Employee disciplinary records shall not be utilized in arbitration involving discipline administered to that employee if such records are more than five (5) years old, provided that employee has not received discipline within the five (5) year period.

## **ARTICLE 8 HOURS OF WORK**

SECTION 8.01: The normal workday is eight (8) consecutive hours of work between the hours of 6:00 a.m. and 6:00 p.m., exclusive of time out for lunch. The normal workweek is five (5) such regularly scheduled consecutive days (forty [40] hours), Monday through Friday, except where otherwise provided. In the case of shift workers, the normal workweek is either five (5) consecutive scheduled workdays and two scheduled off days or two (2) consecutive scheduled off days and five (5) workdays.

The payroll week shall consist of seven (7) consecutive days beginning 12:01 a.m. Monday and ending the following Sunday midnight. The Company shall not reduce the hours of work below that which constitutes the normal workweek in lieu of layoff as set forth in Article 10, except upon mutual agreement of the parties.

SECTION 8.02: All employees covered by this Agreement shall be classified as "day workers" or "shift workers."

- (a) Day workers are defined as those employees working the normal workday schedule as described in this article and shall not be entitled to any shift premium as described in Section 8.05.
- (b) Shift workers shall be described as those employees regularly scheduled on other than the normal day workers schedule and shall be entitled to the applicable shift premium attached to the shift so worked as described in Section 8.05. Shift workers working the day schedule shall not be entitled to any shift premium.

SECTION 8.03: The regular starting and quitting time for each employee or group or shift, and the days to be worked in any workweek shall be established from time to time by the Company. The Company will notify an employee of any change in his regular scheduled workweek at least forty-eight (48) hours prior to the change. All schedules shall be posted or given to involved employees, whichever is more appropriate.

SECTION 8.04: Employees who are not given notice as described above shall be entitled to the applicable premium as outlined in Article 9 - Overtime of this Agreement.

SECTION 8.05: For the purposes of identification, work shifts shall be described as the First Shift, Second Shift and Third Shift. For example:

The First Shift will ordinarily begin at 7:00 a.m. and end at 3:00 p.m.;

The Second Shift will ordinarily begin at 3:00 p.m. and end at 11:00 p.m.;

The Third Shift will ordinarily begin at 11:00 p.m. and end at 7:00 a.m.

When the majority of an employee's hours is worked within the above described Second or Third Shift, shift premium for those hours will be paid as follows:

Second Shift	\$ .90
Third Shift	\$1.05

SECTION 8.06: Shift Premium for hours worked:

- (a) Shift Premium for overtime hours worked by shift workers on a scheduled work day:
  - (1) A shift worker scheduled for the second shift who works either call-in or planned overtime before or after his shift, will receive second shift premiums for all hours worked.
  - (2) A shift worker scheduled for the third shift who works either call-in or planned overtime before or after his shift will receive third shift premium for all hours worked.
  - (3) A shift worker scheduled for the first shift who works either call-in or planned overtime before or after his shift, will receive no shift premium for any hours worked.
- (b) Shift Premium for overtime hours worked by shift workers on scheduled offdays:
  - (1) If a shift worker works either planned or call-in overtime on a scheduled off day, the applicable shift premium for the hours worked will be paid in accordance with Section 8.05, above.
  - (2) The procedure set forth in (a) (1) through (3) above will also be applicable to shift workers who work more than eight (8) hours on a scheduled offday.
- (c) Shift Premium for hours worked by day workers on a scheduled work day:

Shift Premium will be paid to day workers when they are rescheduled to work hours, on a scheduled work day, for which shift premium is applicable.
- (d) Shift Premium for overtime hours worked by day workers on a scheduled offday:

- (1) Day workers who work planned overtime on their scheduled offday are entitled to the appropriate shift premium.
- (2) Day workers who work call-in overtime on a scheduled offday are not entitled to shift premium for any hours worked.
- (3) A day worker who is "called in" for work on his first scheduled offday and is subsequently scheduled to return his second scheduled offday, the first offday is considered "call-in" and shift premium is not applicable. The second offday will be considered "planned" if the employee is notified prior to the end of the shift on his first offday and the employee will be paid the appropriate shift premium as set forth in (d)(1) above.

In (c) and (d) above, if the hours worked are divided evenly between the shifts, shift premium will be paid on the basis of the shift on which work was started.

SECTION 8.07: Payment for hours worked which are eligible for daily, weekly or holiday overtime shall be calculated on the basis of the employee's basic wage rate plus the shift and/or Sunday premium applicable to the shift for which he is scheduled for the day.

SECTION 8.08: If the Company elects to permanently add a new shift, permanently eliminate an existing shift, or permanently change the hours of an existing shift it will notify the Union as early as possible of the change, and meet and discuss the changes prior to implementation, if requested. However, the establishment of a workweek which is not normal as defined in Section 8.01 will be by mutual agreement of the parties. Permanent, as used in this section, is defined as a change which, at the time of change, the Company anticipates will exceed one hundred twenty (120) calendar days. At any time during the process described below, either Party may notify the other of their desire to negotiate the change.

Once notified that an existing shift is no longer acceptable to the Company, the Union may request that a joint task force be formed to recommend alternative shifts either prior to, or in lieu of, negotiating the change. Recommendations that are acceptable to both the Union and Company may be submitted to the affected employees for a vote. If more than 50% of the votes cast support an approved alternate shift, that shift will become effective for a minimum of 12 months. If no alternative receives more than 50% support, a run off vote of the two highest alternatives will be held. Following a run off vote, if the majority of the votes do not support an alternate shift, the Parties may negotiate the change in the original shift.

If the employees or Union desire to permanently change an existing shift, the Chief Steward will notify the appropriate Manager and present the issue and suggested solution(s). Upon approval by the Manager, a joint task force may be formed to develop recommendations. Alternatives that are acceptable to both the Union and Company, including the shift in existence at the time, may be submitted to the affected employees for a vote. The shift that receives two-thirds or more support of those votes cast may become effective for a minimum of 12 months. If no choice receives at least

two-thirds support, the existing shift shall remain unchanged for at least 12 months, or until the Company elects to permanently change the shift in accordance with this Section.

The above process may also be utilized for any change to a shift selection process which exists under the terms of Section 10.21. Should either a four (4) day, ten (10) hours per day work schedule or 12 hour shift be established, the terms of Appendix B shall apply.

SECTION 8.09: Except when otherwise provided for in this Agreement, an employee shall be required to work, if physically capable thereof, at any time so requested and necessary in the performance of the Company's reasonable needs or its obligations to its customers as a public service corporation unless specifically excused for reasonable cause.

## **ARTICLE 9 OVERTIME**

SECTION 9.01: Overtime shall be defined as time worked in accordance with the provisions of this article and compensation for overtime hours shall be as follows:

- (a) One and one-half (1-1/2) times the employee's straight-time hourly wage rate shall be paid:
  - 1. For all work performed in excess of eight (8) straight-time hours in any one day or forty (40) straight-time hours in any one workweek;
  - 2. For work on the first scheduled offday of the workweek, provided the employee worked each of his five (5) regularly scheduled work days during the workweek, unless not worked for reasons set forth in Section 16.05. Additionally, for work performed on the second scheduled offday, if the employee has been offered overtime or has been contacted for overtime which he does not work on his first scheduled offday or if the first scheduled offday was not worked at the overtime rate.
  - 3. For the first eight (8) hours worked in any one day for another utility company performing emergency electric service restoration.
  - 4. For any change in an employee's schedule without proper notice as set forth in Section 8.03 of Article 8 and Section 9.03 of Article 9.
  - 5. For the first eight (8) hours of work performed on observed holidays, in addition to the basic holiday pay allowance;
  - 6. For all continuous hours worked by an employee who is called in or who voluntarily reports for an emergency and who is permitted to work more than four (4) hours before his regular starting time. An emergency, as used in this article, is defined as an occurrence or situation which can neither be anticipated, not postponed and

which might or could cause loss of or interruption of service or might or could cause personal injury or property damage.

7. For the first scheduled workday following the first off day of an employee's workweek in which the employee is not allowed either two (2) consecutive off days or five (5) consecutive workdays as described in Article 8, Section 8.01.
- (b) Two (2) times the employee's straight-time hourly wage rate shall be paid:
1. For all hours of work performed in excess of eight (8) hours on an observed holiday;
  2. For all hours worked over eight (8) hours in any one day for another utility company performing emergency electric service restoration, however, if that company's overtime pay practice would provide more wages, then the employee will receive the greater of the two.
  3. For all hours worked in excess of sixteen (16) consecutive hours;
  4. Except as provided in 9.01(a)2, for all work performed on the second scheduled offday of the workweek.

SECTION 9.02: Employees required to work back-to-back shifts, which fall into two regularly scheduled workdays, shall be paid overtime for the hours worked on the second shift, provided the first shift was worked at straight time. However, if an employee voluntarily trades a shift with another employee by mutual agreement and with appropriate approval, he shall not receive overtime for such hours worked, except where he works more than forty (40) hours in any one week. An employee who is required to work a back to back shift may, prior to the start of the second shift, make his desire known to be released after working four (4) hours of the second shift. A reasonable effort to allow the employee to be released will be made, except in emergency situations.

SECTION 9.03: In the event the regular work schedule of an employee is changed without proper notice, as set forth in Article 8, Section 8.03, the overtime obligation as set forth in Section 9.01(a) (4) will apply only for those days for which the schedule has been altered.

An employee may be scheduled or directed to work overtime before and/or after his regularly scheduled workday, and that shall not constitute a change of schedule.

This Section 9.03 shall have no application if an employee, upon his own request, is permitted to change his daily or weekly work schedule, or if an employee's work schedule is changed as the result of his being transferred because of a job bid or to fill a job promotion or vacancy in accordance with this Agreement.

SECTION 9.04: When an employee is called in to work, or voluntarily reports for and is allowed to work an emergency as defined in Section 9.01(a)6., outside of his regularly established work schedule, he shall be paid a minimum of four (4) hours at the applicable rate from the time the

employee reports to work. If an employee is called outside his regularly established work schedule, for information pertaining to Company work which can be handled by phone, the employee will be paid for time actually spent in such conversations at the appropriate overtime rate.

SECTION 9.05: For the purposes of this article, overtime shall be defined as "planned" overtime or "call-in" overtime.

- (a) "Planned" overtime shall be defined as overtime anticipated or scheduled in advance of the overtime and about which the employee was notified, prior to leaving the Company's premises. Additionally, when an employee is directed to report for work outside his regular schedule, directed to continue working at the conclusion of his regular workday (except for emergency work), or is directed to commence work before his starting time after reporting to his work location such overtime will be treated as planned overtime.
- (b) "Call-in" overtime shall be defined as all overtime worked which requires the Company to call in an employee outside his regular schedule after such employee has been released from work or when held over for emergency work. The employee will be considered to have been contacted for call-in overtime if he has a telephone and a reasonable effort is made to reach the employee at his telephone number appearing on the Company's records. It is the obligation of the employee to advise the Company of his current telephone number.

SECTION 9.06: Employees who are called-in to work more than four (4) hours before their regular starting time and who are thereafter excused and released from duty for a period of time not to exceed four (4) hours, shall have all hours actually worked treated as continuous hours for the purpose of overtime (exclusive of all hours the employee is released from work). If such employee remains on the Company premises at the direction of the Company or if such release from duty is within two (2) hours of his normal starting time, such time will be paid at the appropriate overtime rate and treated as continuous. Additionally, employees called back within four (4) hours of being released shall have their additional hours actually worked added to the hours worked before being released, for the purposes of calculating overtime pay and total hours worked.

SECTION 9.07: When, in the opinion of the Company, an employee has worked for such an extended period of time as to impair his effectiveness or present a hazard to the health or safety of his fellow employees, he may be required by the Company to take off up to eight (8) hours for rest. In no event will an employee be required to work more than sixteen (16) consecutive hours without an eight (8) hour rest period. Such rest period shall be taken in its entirety unless he is requested and agrees to return to work before the expiration of such eight (8) hour rest period. If such rest period runs into the employee's regular workday, he shall be compensated at his regular straight-time rate for all such hours to a maximum of eight (8) straight-time hours unless the rest period was initiated by the employee in accordance with this section or the rest period was initiated after an employee has worked more than sixteen (16) consecutive hours on successive days in response to an emergency as defined in Section 9.01 (a) 6. In the event any such eight (8) hour rest period terminates within two (2) hours or less of the end of the employee's regularly scheduled shift, the employee shall have the election of either returning to work at his regular straight-time hourly rate or not returning to work and forfeiting the remaining hours in his shift.

SECTION 9.08: If an employee is released from duty after sixteen (16) consecutive hours of work and is requested to return to work and agrees to return to work during his regular scheduled workday without the eight (8) hour rest period, such time worked in the regular scheduled workday shall be paid at the overtime rate in effect at the time of release from duty.

SECTION 9.09: It is understood and agreed that overtime will not be paid on overtime or otherwise duplicated or pyramided unless specifically provided herein. Additionally, an employee shall not be paid both daily and weekly overtime for the same hours worked.

Section 9.10: The Company agrees to distribute overtime opportunities as equitably as practicable among the employees where overtime is required. Accordingly, the Company will make a reasonable effort to equalize overtime opportunities among employees in each work group who are qualified and available to perform the overtime work. Any irregularities in the distribution of overtime that are brought to the attention of supervision by the affected employees will be reviewed on an annual basis. The Company will meet with the Union to determine an appropriate resolution.

Section 9.11: Individual work groups, to include their management, may determine the appropriate system for distributing overtime opportunities in accordance with the following guiding principles:

- The system must be responsive to customer's needs, be cost effective and provide for safe accomplishment of the overtime work.
- The system must be flexible enough to accomplish the first principle under varying situations (i.e., call-in, planned, emergency)
- The system must be simple to administer and rely only on information systems that exist for other business reasons (i.e., Payroll).

For the purpose of determining individualized systems, work groups may vary depending upon organizational design, but will generally consist of employees who are qualified and available to perform the overtime work at a location.

Each work group will notify the Union office and labor relations when an individualized system is chosen and provide a description of the system it is using. The equalization provisions set forth in section 9.10 above shall be applicable until such time as the work group provides this notice.

All issues and disputes arising under this Method are to be resolved within the affected work group. Should a work group be unable to effectively operate its system, or be unable to resolve disputes, the sole and exclusive remedy will be a return to the provisions set forth in section 9.10 above.

**ARTICLE 10  
SENIORITY**

SECTION 10.01: An employee's seniority shall be computed from the date of his most recent employment by the Company (unless otherwise provided herein) except that a new employee shall be on probation for six full months from the date of his last employment, and during said period may be discharged with or without cause. However, time away from work by a probationary employee will not be credited toward his probationary period. After serving the probationary period, a new employee shall be placed on the seniority list and given seniority as of the first day he was last hired by the Company. There shall be no seniority among probationary employees and there shall be no responsibility for re-employment of probationary employees if they are laid off or discharged during their probationary period. Probationary employees shall be entitled to the benefits and privileges provided for temporary employees, as outlined in Section 11.04 of Article 11.

SECTION 10.02: Seniority, for the purposes of this Agreement, is the length of continuous service dating back to the first day of the last date the employee was hired by the Company. Where used in this Agreement, the term "seniority" will be construed to mean classification seniority; departmental seniority; or Company seniority.

- a. Classification seniority shall mean an employee's length of continuous service in a given job classification to which the employee has been permanently assigned. For purposes of layoff within a line of progression, classification seniority shall accumulate on all lower job classifications in a line of progression in addition to any service in such lower jobs.
- b. Departmental seniority shall mean an employee's length of continuous service in the payroll division to which the employee has been permanently assigned.
- c. Company seniority shall mean an employee's length of continuous service with the Company.

SECTION 10.03: An employee shall lose seniority and his status as an employee shall cease for any of the following reasons:

- a. If an employee retires, quits or is discharged for cause.
- b. If an employee has not actively worked for the Company thirty-six (36) consecutive months, or for a period of time equal to his Company seniority, whichever is the lesser (unless otherwise provided elsewhere in this Agreement).
- c. If an employee, after having been laid off, fails to report for work within seven (7) calendar days when called by the Company by certified mail or telegram, sent to the employee's last address appearing on the Company's records; provided, however, that where an employee has been laid off for three (3) months or more, he will have seven (7) calendar days from the

day called back to work by the Company, as set forth above, to notify the Company of his desire to return to work and he must report for work within five (5) working days thereafter.

SECTION 10.04: Qualifications, experience, physical conditions and ability to perform the available work shall be controlling factors in promotion of employees. Accordingly, in promotions or in selecting a successful job bidder, the Company will promote or select the most senior, qualified employee who possesses these minimum qualifications. In the case of employees being promoted in accordance with the "opportunity to advance" provisions of Appendix A, the effective date of such promotion shall be the beginning of the payroll period nearest the actual date the employee has satisfied the minimum qualifications listed above.

Notwithstanding the preceding paragraph, vacancies in job classifications above journeyman in lines of progression which the Company decides to fill will be filled by employees who, in the Company's judgment, are qualified to perform the duties of the job; however, no employee who might otherwise have been qualified will be denied such promotion if that employee has not had sufficient opportunity to receive training for and exposure to the duties of the job. If two or more employees possess substantially equal qualifications, the most senior employee shall be promoted.

Except in the case of employees being promoted in accordance with the "opportunity to advance" provision of Appendix A, if a junior employee is selected for promotion over a senior employee, a written notice of such action, and the reason therefore, will be given to the senior employee and his Chief Union Steward prior to the effective date of the promotion. The failure to promote the senior employee will not affect his consideration for future promotion. An employee may decline consideration for promotion to classifications above journeyman by submitting a written waiver of consideration to his supervisor, with a copy to the Union. However, the preceding sentence shall not apply to those employees who, as of January 1, 1990, have ten (10) or more years of Company seniority, who may waive promotion to any classification. Such waiver shall remain in effect until the employee submits a written revocation thereof to his supervisor.

An employee promoted into a job classification must satisfactorily progress from possessing the minimum qualifications for that classification to a fully qualified level expected of that classification in a period of time equal to the duration of wage step progressions applicable to the classification. Satisfactory progress shall be defined by application of the Employee Performance Review (EPR) system in effect. At the time of the EPR, an employee shall be counseled with respect to those areas of his evaluation that were deemed to be unsatisfactory. Such employee will be re-evaluated within ninety (90) calendar days. After the ninety (90) calendar day re-evaluation, should such employee's performance still be deemed to be unsatisfactory, that employee may be demoted and will be eligible for promotion only upon showing that the employee possesses the necessary qualifications. A demoted employee may request to be evaluated for the purpose of promotion eligibility after ninety (90) calendar days from the date of his demotion.

SECTION 10.05: Entry level jobs within a line of progression and vacancies in other jobs not in a line of progression, which the Company decides to fill internally, will be posted in accordance with this Section.

Any non-entry level job vacancy within a line of progression, which the Company decides to fill, will be filled by a qualified lower or equal rated employee within such line of progression in accordance with the employee's classification seniority. Where more than one classification of employees in the line of progression are eligible to fill the opening, relative seniority between employees within such classifications will be determined by company seniority. If there are no employees within a line of progression who are qualified for promotion, the Company may, but shall not be required to, post the job vacancy in accordance with this Section.

In selecting a successful job bidder, job bids from within the Payroll Division where the opening occurs will be given first consideration on the basis of Company Seniority. If no qualified bidder is found there, job bids from other Payroll Divisions of the Department where the opening occurs will receive next consideration. If no qualified bidder is found there, job bidders from the remaining Departments will be considered.

In cases where no qualified employee within the bargaining unit has bid upon a job vacancy, such job vacancy may be filled by the Company with persons from any other source, either within the Company or from outside subject to the limitations contained in Section 10.17 of this Article.

The Company will take final action with respect to all job postings within fourteen (14) calendar days after the posting is taken down, unless additional time is needed for testing, scheduling physicals, etc. Until the Company has selected an employee to fill such job vacancy, the vacant job may be filled temporarily in any manner the Company sees fit.

An employee who submits a bid shall not be declared the 'successful job bidder' until he has been interviewed by a departmental representative in the department wherein the posted job exists. During this interview the employee's questions concerning the job will be answered following which the employee may remove his name from further consideration for the job. If the employee does not remove his name from further consideration and he is otherwise qualified for the posted job, he will be the 'successful job bidder' upon successful completion of the physical examination. Should the job require a Commercial Driver's License (C.D.L.), the employee will have thirty (30) calendar days, or as soon as the Department of Transportation (D.O.T.) schedules will allow from the date of this interview in which to obtain the required license before being disqualified.

An employee who removes his name from consideration for a posted job following the interview shall not bid again for six (6) months.

Unless no qualified replacement is available as detailed in Section 10.06, and provided a replacement is required before an otherwise successful job bidder can be released, the Company shall take steps to accommodate such release as soon as is practicable under the circumstances.

Should a successful job bidder be disqualified at any time during or prior to his contractual trial period, the job opening will be offered to the next most senior qualified bidder who has not been awarded a job through a subsequent job bid. Should this occur, the job will then be offered to other qualified bidders on the initial bid list in order of Company seniority until the job is filled or the list of bidders has been depleted. Should such offer be made sixty (60) calendar days or more after the

bidder was notified that the job was awarded to a senior employee then, the employee will have the option of accepting the job bid or removing his name from the list of bidders for that job. The Company may, but shall not be required to repost the same job vacancy. A job bidder who is disqualified shall be permitted to bid again on any future posting.

All notices of job vacancies will be posted Company-wide for ten (10) calendar days. A copy of such notice will be provided to all Chief Stewards at the time it is posted. Original job bids must be submitted to the designated Company representative at the bidder's location prior to the end of the Company representative's normal workday on the day the job posting is removed. A bidder may withdraw his bid no later than two (2) calendar days after the removal of the job posting by submitting a written request to the designated Company representative for his location.

The job bidder is responsible for providing the staffing department with verification of any educational attainments which are a requirement for the posted job. Such verification must be received no later than fourteen (14) calendar days after the removal of the job posting.

The Company may withdraw a notice of job vacancy at any time after being posted, but the Union shall be notified, in writing, of any such withdrawal and given the reason therefore.

The staffing department will provide the Union Office a copy of all job bids and any withdrawal of job bids submitted. They will also notify the Union Office of the successful bidder for all jobs filled under this section.

If an employee is a successful job bidder, as authorized by any provision of this Article during the term of this Agreement, he shall not bid again unless disqualified during or prior to his contractual trial period.

Notwithstanding the provisions of Section 10.05 and 10.06, employees hired after November 10, 2005 shall have no right to bid on available openings forty-eight (48) months from date of hire.

**SECTION 10.06:** Once following May 16, 2001, provided the employee has not already successfully bid as limited by Section 10.05 of this Article, an employee shall be permitted to make a demotional job bid only to an established job in a different line of progression. If an employee makes a demotional job bid from a line of progression, such bid may be to an open job in a different line of progression. A demotional job bid shall be awarded to an employee only if there is a qualified employee available and willing to take his place.

An employee who makes a demotional job bid into another line of progression where there is no incumbent employee qualified for promotion, shall be allowed to fill the highest job classification within that line of progression for which he is qualified and for which there is an opening.

**SECTION 10.07:** Any employee who is an active participant in a designated formal comprehensive training program above and beyond existing "on the job" training practices and procedures shall be precluded from bidding. Upon request, the Company will provide the Union with a list of all employees who are active participants in such training programs. An employee who is promoted

within the training program shall not bid for three (3) years following successful completion of training program.

SECTION 10.08: For purposes of establishing the appropriate rate of pay, the reclassification of an employee for any reason, except as provided in Section 10.24, shall be defined as either Promotional, Lateral or Demotional. Such determination will be based upon the assigned pay grade for the classification the employee occupies relative to the assigned pay grade for the classification to which he is being reclassified. The appropriate rate of pay will be determined as follows:

- a. Promotional: the employee receives a minimum increase of twenty (20) cents per hour, or the entry rate of the new pay grade.
- b. Lateral: the employee retains his rate of pay in effect at the time he is changed to his new classification unless:
  - (1) that rate of pay is less than the beginning rate for his new classification in which case he would receive the beginning rate of his new classification; or
  - (2) that rate of pay is more than the highest rate for his new classification in which case he would receive the highest rate for his new classification.
- c. Demotional: the employee receives the pay rate consistent with the rate of pay provisions in Section 10.24 for redeployed employees.

In all cases, classification seniority is established as of the date the employee was reclassified and any wage step progressions are based upon his classification seniority in his new classification.

SECTION 10.09: The Company may fill up to 50% of the job vacancies that occur within each department in a rolling twelve month period from external sources, without regard to the posting provisions of Section 10.05 or redeployment provisions of Section 10.24. For the purposes of this section, redeployment within a department will not constitute a job vacancy. The Company will provide written notification to the Union for the initial filling of a vacancy, whether internal or external for purpose of administering this section.

SECTION 10.10: An employee who is reclassified shall have an on the job trial period not to exceed thirty (30) calendar days. Such thirty (30) calendar day period may be extended by written notice to the employee, for up to an additional thirty (30) calendar days. Such trial period(s) may also be extended in an amount of time equal to all time the employee is off duty during such period(s). An employee who fails to qualify during his trial period(s) will be returned to his previous job and rate of pay with no loss of seniority, if such job is available. If the job from which the employee was reclassified is not available, the employee may be reclassified to another job for which he is qualified under the terms of Section 10.24.

SECTION 10.11: Seniority, qualifications, physical condition and ability to perform the available work shall be controlling factors in layoff and recall of employees. Accordingly, the Company will

retain the most senior employees who possess these minimum qualifications and lay off employees with less Company seniority. It is agreed, however, that in case of layoff, no employee, regardless of his qualifications, physical condition, ability or seniority, shall have the right to displace an employee unless he is qualified, without further training and instruction, to satisfactorily perform the work of the employee being displaced.

SECTION 10.12: In layoff and in the elimination of or reduction within a job classification within a Department, the Company generally subscribes to the principle of "last in, first out." To that end, layoffs will be handled in accordance with the following procedure:

In the event it becomes necessary to reduce the number of employees within a line of progression, the Company shall notify employees whose jobs are eliminated of such elimination. The least senior employees within the line of progression shall have their jobs eliminated first. (For non-line of progression jobs, the least senior employees within the classification shall be affected first.) An employee whose job is eliminated shall have the right to a job within a line of progression (or non-line of progression job) provided there is a less senior incumbent in the line of progression (or non-line of progression job) whose job the employee is qualified to satisfactorily perform without further training and instruction.

Provided the foregoing conditions are met, the least senior incumbent within the line of progression (or non-line of progression job) shall be displaced and the employee causing the displacement shall be entitled to fill the highest job classification within the line of progression for which he is qualified without regard to the classification held by the displaced employee. Any employee displaced by a more senior qualified employee shall have the same rights under this Section as an employee whose job is eliminated.

Additionally, during the term of the current Collective Bargaining Agreement only, after all displacements are accomplished through the above process, any employee hired prior to November 11, 2008 who does not have a job may displace the most junior employee in the Company provided:

- a) the junior employee was hired after November 10, 2008 and;
- b) the senior employee possesses the minimum qualifications for the entry level classification in the junior employee's line of progression, and
- c) the total number of employees displaced in any line of progression through the combination of normal bumping rights and the additional bumping right of this paragraph will not exceed 10% of the number of employees in the line of progression or 10, whichever is less, by virtue of this additional bumping opportunity.

SECTION 10.13: The Company shall be the judge of qualifications and ability of employees in case of layoffs, recall from layoffs, promotions, and job bids. However, where the strict application of seniority is not applied, such decision may be subject to the grievance and arbitration procedure of this Agreement.

SECTION 10.14: In case of layoff all probationary and temporary employees shall be laid off before any employees who have established seniority are affected, unless there is no employee with seniority who is qualified to do the work.

SECTION 10.15: Employees to be laid off will be given as much notice as is reasonably possible prior to the layoff. However, in no event will any employee be given less than two (2) weeks notice in writing prior to a layoff. A copy of such layoff notice will be given to the Chief Union Steward for the department where the layoff will be effective.

SECTION 10.16: The Company will not hire new employees (which shall include probationary and temporary) in any job classification while it has employees on layoff qualified to do the available work until those employees on layoff have been restored to do the available work or removed from the seniority roster as provided for elsewhere in this article.

SECTION 10.17: If an employee is subject to being laid off he may accept any job for which he is eligible and qualified or he may voluntarily choose to accept layoff.

SECTION 10.18: When it becomes necessary to increase the workforce after a layoff, the Company shall first post the job openings in accordance with Section 10.05 of this Article. If there are no qualified bidders, the Company shall recall laid off employees in accordance with their Company seniority.

SECTION 10.19: When an employee in the bargaining unit covered by this Agreement is promoted or transferred to a job outside the bargaining unit he shall retain his earned Company and classification seniority, but shall not have such seniority accumulate during such period of employment outside of the bargaining unit for purposes of this Agreement except for fringe-benefit purposes. Such employee may be returned to his former job classification within the bargaining unit at the Company's discretion not later than one hundred twenty (120) calendar days following his promotion provided, however, that no other employee will be demoted or moved out of the line of progression to permit his return to said job classification.

SECTION 10.20: An employee who is unable to work because of an occupational or non-occupational injury or illness shall have his medical, dental and life insurance coverage continued in accordance with the terms of this Agreement until the end of the twelfth full calendar month following the date the employee's absence began.

SECTION 10.21: When there is a work assignment opening within a job classification, such work assignment may be chosen by the senior qualified employee within the department, by classification seniority, where the opening occurs. The opening shall be filled in accordance with rules and regulations agreed to by the parties. If no qualified employee selects the open work assignment, the Company may assign the least senior qualified employee to the vacancy.

SECTION 10.22: Not less than fourteen (14) calendar days preceding a layoff, the parties shall meet to discuss any subcontracting practices which the Union considers to be in violation of this Agreement should such subcontracting continue. The Union shall be furnished with a complete list

of all contractors performing services for the Company and the information called for otherwise in Article 24, Section 24.02 of this Agreement.

In the event a dispute arises as a result of the discussion, the parties shall immediately request a panel of not less than fifteen (15) Arbitrators from the American Arbitration Association who are available to hear and decide the case promptly. The parties shall alternately strike names until three remain. The three remaining names shall be submitted to the American Arbitration Association which shall appoint the Arbitrator most readily available to hear and decide the case.

The preparation of a transcript of proceedings and the submission of briefs shall be in accordance with Article 6, Section 6.08 of this Agreement.

SECTION 10.23: When a question of seniority arises where two or more employees have identical seniority dates, the following procedure shall be used to determine seniority:

- a. departmental seniority breaks ties in classification seniority;
- b. Company seniority breaks ties in departmental seniority;
- c. ties in Company seniority are broken by a procedure established between the chief steward(s) and the management representative(s) where the tie exists. The affected employees will be given the opportunity to be present where reasonably practicable.

SECTION 10.24: When it becomes necessary to reduce the number of employees in a line of progression or a non-line of progression job, because of operational need and/or technological advancement, and such reductions may be accomplished through a redeployment process in lieu of the layoff process described in Section 10.11 through 10.18, the following process will be used:

The Company will notify the Union of the designated lines of progression or non-line of progression jobs where the number of incumbents exceed the desired level and will specify the desired level of staffing. All employees in the designated line of progression or non-line of progression job are considered subject to redeployment until the number of incumbents is reduced to the desired level. As long as there are employees subject to redeployment, openings are not subject to the posting requirement of Article 10, Section 10.05.

Specific Redeployment:

The Company will notify the Union of the need to accomplish a specific redeployment of employees, identifying the specific lines of progression or non-line of progression jobs to be reduced and the available openings designated to accomplish the redeployment, and will meet and discuss the situation, if requested. In a specific redeployment situation, openings will be offered first to employees in the specified lines of progression or non-line of progression jobs who have previous experience or similar line of progression experience which qualify them for a classification higher than entry level in the new line of progression. Thereafter, openings will be offered to qualified employees on the basis of classification

seniority. If qualified senior employees do not elect to fill such openings, then the junior qualified employees may be transferred on the basis of classification seniority.

General Redeployment:

Openings which are not designated to accomplish a specific redeployment, in accordance with the preceding paragraph, will be made available through a bidding process to all qualified employees subject to redeployment. In selecting the successful job bidders, the opening will be offered first to employees, on the basis of Company seniority, who have previous experience or similar line of progression experience which qualify them for a classification higher than entry level in the new line of progression. Thereafter, job bids from within the payroll division where the opening occurs will be given first consideration on the basis of company seniority. If insufficient qualified bidders are found there, job bids from other payroll divisions of the department where the opening occurs will receive next consideration. If insufficient qualified bidders are found there, job bidders from the remaining departments will be considered. If insufficient qualified bidders are found there, the junior qualified employees subject to redeployment may be transferred on the basis of Company seniority.

The bidding process provided for in this section shall be separate from that described in Section 10.05 and shall not constitute a job bid as defined in Section 10.05.

Classification and rates of pay of employees who are reclassified pursuant to this section shall be as follows:

Classification:

Employees will be reclassified to the highest classification in the new line of progression for which they are qualified and an opening exists.

Rate of Pay:

The rate of pay for any employee reclassified under this section will be determined based upon the following table. "From" means the classification held by the employee immediately preceding the transfer. "To" means the classification to which the employee is being reclassified.

<b>FROM</b>	<b>TO</b>	<b>RATE OF PAY<sup>2</sup></b>
Journeyman or Above	A Line of Progression Job	The higher of the rate of pay for the intermediate <sup>1</sup> classification in his former line of progression or his new line of progression.
Journeyman or	A Non-Line of	Red Circled at the rate of pay for the intermediate <sup>1</sup> classification in his

Above	Progression Job	former line of progression.
Below Journeyman	Any Job	Red Circled at the "50% rate" as defined in Appendix "A."
<p>NOTE 1: For employees who are journeyman or above in a two classification line of progression (i.e., Customer Service Representative-Meter Reading) the intermediate classification in their old line of progression will be the journeyman classification.</p> <p>NOTE 2: An employee transferred to a line of progression classification will receive the above wage protection for a period of time equal to the duration of the wage step progression applicable to the classification plus six (6) months after which, if not fully qualified, he will be paid at the appropriate rate of pay for his classification and the provisions outlined in Section 10.04 will apply.</p>		

If the application of the above table would result in an increase for any employee, that employee will retain his present rate of pay unless qualified for the higher classification.

Employees who have been redeployed under this section shall have a one-time opportunity to return to their former classification, should openings occur, for a 3-year period.

Employees who are redeployed to a non-line of progression classification shall remain subject to redeployment until they have been offered an opportunity to transfer to a classification in a line of progression.

Notwithstanding the above, consistent with the provisions of the Company/Union partnership statement on Continuous Improvement, any employee who is redeployed as a result of the Continuous Improvement process will have their rate of pay red-circled subject to the provisions of Note 2 above.

**ARTICLE 11  
TEMPORARY EMPLOYEES**

SECTION 11.01: The Company may, at its option, hire temporary employees from time to time throughout the term of this Agreement. Temporary employees are included in the bargaining unit covered by this Agreement, however, they are not entitled to any of the benefits provided for in this Agreement, except as specified herein. The Company shall have the right to discharge temporary employees with or without cause and without recourse by the Union or by such temporary employee to the grievance procedure of this Agreement. There shall be no seniority among temporary employees and there shall be no responsibility for re-employment of temporary employees if they are laid off or discharged during their temporary employment.

SECTION 11.02: Temporary employees may, at the Company's election, be transferred from temporary status to the Company's regular full-time employment. In the event of such a transfer, the period of time worked as a temporary employee from the date of his last employment shall be credited toward his seniority with the Company and shall be credited toward the computation of his probationary period. Additionally, future eligibility for seniority-related benefits for such employee will be calculated from the date of employment as a temporary employee.

SECTION 11.03: A temporary employee is an employee hired for a limited term of employment not to exceed twelve (12) months or for a particular job or project which, the Company anticipates at the time of employment, will not extend beyond twelve (12) months. A temporary employee shall be entitled to the temporary help rate. If the employee is hired for specific technical skills, he shall be entitled to the rate for the specific job which he is performing during the period of his employment as set forth in this Agreement.

SECTION 11.04: Temporary employees are entitled to the following contractual benefits as outlined in this Agreement:

- (a) Overtime pay
- (b) Premium pay

SECTION 11.05: The Company agrees to send to the Union a list of all temporary employees showing their respective job classifications (where applicable for temporary employees) and dates of hire. The Company agrees to update the aforementioned temporary employee list when necessary and will mail a copy of said list to the Union.

## **ARTICLE 12 HOLIDAY PAY**

SECTION 12.01: The following days are recognized as Holidays:

New Year's Day	Thanksgiving Day
Good Friday	Friday after Thanksgiving Day
Memorial Day	Christmas Eve
Independence Day	Christmas Day
Labor Day	2 Floating Holidays

SECTION 12.02: At the time of vacation selection, the preference of the Floating Holiday will be determined by seniority. After vacation selection has been completed, selection of the Floating Holiday shall be made on a first come, first served basis. If operational requirements cause the cancellation of this scheduled Floating Holiday, it may be rescheduled or the employee may be paid as outlined in Article 9.

SECTION 12.03: To be eligible for holiday pay, when referred to herein, an employee shall have completed his probationary period and shall have worked the last scheduled workday before and the first scheduled workday after the day recognized as a holiday. The following shall be considered as excused on the last scheduled workday before and the first scheduled workday after the day recognized as a holiday for the purposes of the administration of this article:

- (a) Permission granted to be absent without pay provided such permission is requested prior to the time employee is to be absent.
- (b) Vacation
- (c) Funeral Leave
- (d) Jury Duty
- (e) Sickness or injury providing the employee works at least one day in the workweek in which the day recognized as a holiday falls, or said holiday immediately precedes, immediately follows or is the first day or last day of such period of disability, and providing, further, the employee reports such cause for absence in a timely manner on the day of the absence or prior thereto, and furnishes a doctor's certificate, if requested by the Company.

SECTION 12.04: An employee who is eligible for holiday pay as set forth above and is not required to work on a day recognized as a holiday, shall be paid for eight (8) hours computed at straight-time hourly rates exclusive of shift premium or any other premium pay. Hours paid for under this provision, up to eight (8) hours, which fall on an employee's regularly scheduled workday shall be included in computing forty (40) hours of work during such week for the purposes of figuring overtime.

SECTION 12.05: Except for shift workers as set forth below, when any of the holidays fall on a Sunday the following Monday shall be observed as the holiday; should any of the holidays fall on a Saturday, the preceding Friday shall be the observed holiday. However, when Christmas Eve Day (December 24) occurs on Friday, it will be observed on the preceding Thursday and Christmas Day will then be observed on Friday. Additionally, when Christmas Eve Day (December 24) occurs on Sunday, it will be observed on the preceding Friday and Christmas Day will then be observed on Monday.

For a shift worker whose work schedule regularly includes work on Saturdays and/or Sundays and who is scheduled to work on a Saturday and/or Sunday which is a holiday, such holiday shall be observed on the legally recognized holiday instead of the Company observed holiday. A shift worker, scheduled to work on a holiday which falls within his normal workweek and works the holiday, may be permitted, with approval from his supervisor, to reschedule the holiday to some later date. Shift workers may exercise this option for up to three (3) holidays per year, excluding those recognized in November and December. Requests to reschedule holidays will be granted only to the extent operational demands and schedules will permit. Furthermore, employees choosing to

exercise this option must declare their intent and reschedule such holiday before the end of the pay period in which the holiday is worked. Employees who reschedule a holiday shall receive the appropriate rate of pay for time worked on such holiday in accordance with Article 9, Section 9.01(a)(5) and 9.01(b)(1), however, the basic holiday allowance as described in Section 12.04 will be postponed until the employees receive time off for the rescheduled holiday or the end of the calendar year, whichever comes first.

The Company will permit at least fifteen per cent (15%) of the employees in its various departments time off on scheduled holidays which are observed Company-wide. Emergencies shall be in addition to the above limitations.

SECTION 12.06: An employee may schedule their Floating Holiday on the day recognized as Martin Luther King's birthday in accordance with Section 12.02. The Company will not unreasonably deny such requests consistent with operational demands. For shift workers, the Company will apply similar staffing levels for company-wide observed holidays, pursuant to Section 12.05.

### **ARTICLE 13 VACATIONS**

SECTION 13.01: The Company will grant full vacation benefits to regular employees who were actively employed in the previous year according to the following schedule provided the employee worked at least 1040 straight-time hours during the previous calendar year. An employee who quits, voluntarily separates, retires, dies or who is discharged for cause on or before December 31, shall not be entitled to vacation in the following year.

- (a) One (1) week of vacation after six (6) months of continuous service.
- (b) Two (2) weeks of vacation after three (3) full years of continuous service.
- (c) Three (3) weeks of vacation after five (5) full years of continuous service.
- (d) Four (4) weeks of vacation after fifteen (15) full years of continuous service.
- (e) Five (5) weeks of vacation after twenty-five (25) full years of continuous service.

SECTION 13.02: Vacation entitlement shall be determined by the anniversary date of an employee's most recent employment by the Company. Any additional vacation for which the employee becomes eligible in any calendar year may not be taken prior to such anniversary date. For anniversary dates occurring on or after December 1<sup>st</sup> in which there is inadequate time to permit scheduling of such vacation, with management approval, that vacation entitlement may be carried over into the following year and must be used within the first quarter.

SECTION 13.03: Employees who fail to satisfy the 1040 straight-time hours worked requirement for full vacation entitlement shall have their vacation entitlement reduced as follows:

At least 880, but less than 1040 straight-time hours worked - loss of one week of vacation entitlement.

At least 720, but less than 880 straight-time hours worked - loss of up to two weeks of vacation entitlement.

At least 560, but less than 720 straight-time hours worked - loss of up to three weeks of vacation entitlement.

Less than 560 straight-time hours worked - loss of all vacation entitlement.

For purposes of determining "straight-time hours worked," as used in this Section, the following shall be included in an employee's total:

- (a) Days actually worked, including partial days where four (4) or more hours are actually worked, shall count as eight (8) straight-time hours.
- (b) Paid holidays falling in a employee's regularly scheduled workweek.
- (c) Vacations, except in lieu of Sick Leave or Workers' Compensation.
- (d) Jury Duty and Funeral Leave.
- (e) Time lost for personal business authorized for the purpose of attending military summer camp (to a maximum of two weeks, per year) and regular monthly drills (to a maximum of two days per month).
- (f) Any active duty military service time.

Nothing herein shall preempt the rights, as provided by Federal law, of an employee timely reinstated in accordance with such law following absence for military service in the armed forces.

SECTION 13.04: An employee who is off-duty because of sickness, injury or disability may take unused vacation entitlement, to which he was entitled at the onset of such absence, in lieu of sick leave or Workers' Compensation providing the employee requests same from his supervisor prior to the period he desires to take such vacation. Vacation in lieu of sick leave or Workers' Compensation shall not, however, reduce, or be in lieu of, any waiting period as applicable under Articles 16 and 18 of this Agreement except as specifically stated in Article 16, Section 16.03(e). Vacation in lieu of sick leave or Workers' Compensation, where requested and granted, shall not be considered either as equivalent to time worked or reinstatement to active employment, as may be applicable, during the period involved for any purpose under this Agreement.

SECTION 13.05: Employees who are injured or become ill during a scheduled vacation period may reschedule the remainder of such vacation subsequent to the onset of such injury or illness with prior approval of their supervisor. Days paid for as vacation during such period of injury, illness or disability shall not reduce the waiting period required under Articles 16 and 18 of this Agreement. The waiting period shall begin effective with the first day that is permitted to be changed from vacation to sick leave and shall be applicable in accordance with the provisions of that article as though the period of injury, illness or disability began on that day.

SECTION 13.06: When a day recognized as a holiday falls on any of the first five (5) days of a workweek during an employee's vacation exclusive of vacation in lieu of sick leave or Workers' Compensation, the employee will be required to schedule the day of vacation upon which the holiday falls, at the time of vacation selection as described in Section 13.10.

SECTION 13.07: In the event an employee is separated for any reason (including extended approved leave of absence, retirement, lay-off, resignation, disability, death or discharge), the Company will pay to the employee, or the employee's estate, an amount equal to any unused vacation benefits to which the employee was otherwise entitled at the time of separation; provided, however, that all such rights shall be forfeited by an employee who is discharged for dishonesty.

Should an employee return to active employment without loss of seniority in the same calendar year as that in which the employee was separated and for which the employee received entitled vacation benefits and/or compensation in lieu of unused vacation benefits, the employee shall not be entitled to further vacation benefits in that year except such additional vacation benefits as may accrue as a result of an anniversary of continuous employment for which further vacation is applicable.

Should the employee be off-duty for any reason at the time of separation, vacation entitlement shall not exceed that for which the employee was eligible on the last day actually worked before such absence. Payment for such unused vacation, as set forth herein, shall not be considered an extension of employment and the employee shall not be eligible for any benefits of employment after the date of separation solely as a result of such payment in lieu of unused vacation.

SECTION 13.08: The wages which the Company shall pay during vacation period shall be computed on the basis of an eight (8) hour day and forty (40) hour week and shall be at the employee's normal rate of wages applicable during the period, exclusive of shift premium or any other premium pay. Time paid for as vacation pay shall be included as time worked for the purpose of computing forty (40) hours of work during such week for the purposes of figuring overtime.

SECTION 13.09: The Company will, as far as practicable consistent with work requirements, permit vacations to be taken at the time desired by employees, but determinations as to the total number of employees or any employees, the number of employees of a particular classification or at a particular location, the number and classification of employees of a particular working group, to be allowed on vacation at any time; the time within which vacations may be taken; and the make-up of working groups for vacation purposes, are reserved solely to the Company in order to insure the orderly operation of the Company. When these determinations have been made by the Company

and there is an opportunity of choice between two or more employees, the employee with the highest seniority roster position shall have first choice of vacation time made available.

SECTION 13.10: For the purposes of vacation preferences under this article, employees shall be permitted to use their Company seniority to schedule vacation periods in two-week increments or less. The Company reserves the right to schedule an employee's fourth and fifth week of vacation separately from the first three (3) weeks of vacation and separately from each other.

It is agreed that vacations shall normally be scheduled to be taken in periods of one full week or more. Shorter periods of vacation may be allowed, however, in the discretion of supervision, for special circumstances when approved in advance for which vacation allowance is requested provided the employee, if requested, verifies the special circumstances for which the shorter period of vacation is requested.

Vacations must be taken within the calendar year in which they are applicable. Employees who do not take the vacation to which they are entitled in any calendar year, except when the employees are caused by the Company to forego all or part of their vacation due to an emergency, shall not be entitled to pay in lieu thereof or to carry over their unused vacation benefits to the next subsequent calendar year. Where the employees are caused by the Company to forego vacation due to an emergency, the Company shall either pay compensation in lieu of vacation or designate alternate vacation dates in the following year at the employee's option. Initial vacation schedules, once completed, shall be posted.

SECTION 13.11: Subject to operational requirements, a regular full-time employee whose spouse is expected to give birth to a child will be entitled to reschedule up to one (1) week's vacation, to begin at any time between the date of the onset of labor and the release from the hospital following delivery, provided the employee notifies his supervisor at least two (2) weeks in advance of the anticipated delivery date, and further notifies his supervisor before starting time on the first day he will miss work due to the birth of the child.

A regular full-time employee who does not reschedule vacation as described above, may be released from duty for not more than four (4) hours, with pay, to accompany his child home from the hospital should the release from the hospital occur on a scheduled workday for the employee. An employee may elect to take the remainder of his scheduled work day as an excused, unpaid absence. The employee must not be off duty for any other reason to be eligible for the four (4) hours pay described herein and must notify his supervisor of his absence for this purpose not later than the day preceding the day his child is released from the hospital.

**ARTICLE 14  
PHYSICAL EXAMINATION**

SECTION 14.01: In addition to the physical examination which is given to all new employees before they are accepted for employment, the Company may require additional physical examinations (including periodic examinations for certain types of work, and examinations upon transfer of employees from one job to another) and it is understood and agreed that continuous employment is dependent at all times upon the employee's satisfactorily passing such physical examinations as the Company may, from time to time, require such employees to take. Physical examinations will normally be scheduled as early in an employee's regularly scheduled work day as operational needs will permit.

SECTION 14.02: The Company agrees that upon an employee's return to work after an illness or disability, consideration will be given to the employee's physical condition and, if possible, a less strenuous type of work will be granted.

SECTION 14.03: All medical expense made necessary by this article shall be paid for by the Company. Except for an employee's examination in connection with acceptance for employment or as otherwise set forth herein, employees shall receive pay for time spent, not to exceed eight (8) hours including time worked on that day, having such physical examinations. Following a period of sickness or non-work related injury, when an employee is released by his doctor to return to work he shall notify the Company of such release immediately. If the supervisor deems it necessary that the employee be examined by the Company's doctor to verify the employee's capability to perform his normal duties, the employee is expected to report to the Company doctor prior to the date of his release to return to work, if possible, and such time will be considered as part of his illness. An employee who is unable to visit the Company doctor before the date upon which his private physician has released him to return to work, shall be paid as follows:

- (a) An employee eligible for sick pay shall be entitled to utilize up to one additional day of his sick leave entitlement subject to being required to report back for duty as set forth below.
- (b) An employee not eligible for sick pay shall receive (as time worked) his straight-time hourly rate for all time spent, not to exceed eight (8) hours, in connection with such physical examination.

NOTE: An employee who returns to work from a period of sickness or non-work related injury without a release from his private physician shall be paid in accordance with (a) or (b) immediately above if directed to visit the Company doctor.

An employee shall not be required to visit the Company's doctor if released by his private physician after 12:00, noon, that day. The employee shall, however, report his release to the Company as set forth above.

An employee is required to report back for duty at the completion of his physical examination unless excused by his supervisor. An employee required to go to the Company doctor for physical examination on a regular off-day is entitled to overtime at his appropriate rate for a minimum of two

(2) hours or time actually spent in the doctor's office (not to exceed eight [8] hours), whichever is greater. For the purposes of this section only, "regular off-day" shall mean the off-day of the schedule the employee would have been on had he been at work.

If an employee is required to see the Company doctor during a period of absence under this Article or, if his supervisor deems it necessary, after the employee is released by his personal physician to return to work, such employee shall be allowed to visit the Company doctor closest to his residence.

SECTION 14.04: Examinations by the Company's doctor which may be required during the course of an illness shall be considered a part of the employee's absence due to sickness and the employee shall be entitled to pay as sick leave for time spent having such examinations as provided for in Article 16. Examinations or treatment for compensable injuries are subject to the laws and regulations pertaining to Workers' Compensation and to another applicable article of this Agreement and are not subject to the provisions of this Article.

SECTION 14.05: Notwithstanding the previous paragraph, whenever an employee who is at work is required by the Company to leave his assigned place of work for the purpose of receiving a physical examination, the Company may provide transportation to the employee or a mileage allowance in lieu thereof. It is the employee's responsibility to keep his appointment for the physical examination and the election described herein is the Company's and not the employee's. Should the Company elect to pay mileage, it shall be to reimburse the employee for use of his personal vehicle and shall be determined by multiplying the Company's regular mileage rate for occasional use of personal vehicles by the one-way distance from the point of departure to the point of destination. In the event the employee is required to report back to work following a physical examination, mileage, if payable, shall be paid for the return trip.

## **ARTICLE 15**

### **NO STRIKE AND NO-LOCKOUT CLAUSE**

SECTION 15.01: The Union agrees that during the entire term of this Agreement the Union, its officers, representatives, members and the employees covered by this Agreement shall not take part in any strike, slow down or stoppage of work, boycott, sympathy strike, picketing or any other interruption of or interference with the work and business of the Company. The participation by an employee in any conduct prohibited by this article or the failure or refusal on the part of any employee to comply with any provision of this article shall be cause for disciplinary action, including suspension or discharge.

SECTION 15.02: In consideration of this no-strike covenant and pledge by the Union and employees, the Company agrees that it shall not lockout employees during the period of this Agreement. The term "lockout" is hereby defined so as not to include the discharge, suspension, termination, layoff, failure to recall or failure to return to work of employees by the Company or the curtailment or discontinuance of operations by the Company in the exercise of its rights as set forth in any provision of this Agreement.

SECTION 15.03: Whenever the work of the Company requires that employees covered by this Agreement cross a legal picket line established by any other labor organization, the Union Office shall be notified of the need for such crossing as soon as is reasonably practicable under all of the circumstances. The notice called for by this Section shall in no way delay or excuse an employee from the performance of his duties.

**ARTICLE 16**  
**SICKNESS LEAVE OF ABSENCE**

SECTION 16.01: The Company grants, for the term of this Agreement, to all regular employees covered by this Agreement, payment for time lost because of:

- (a) Any accident occurring while the employee is not working for wage or profit, or
- (b) Any sickness for which the employee is not entitled to benefits under any Workers' Compensation or Occupational Disease Laws or Acts.

SECTION 16.02: Payment will be made for regularly scheduled workdays on the basis of not to exceed eight (8) hours for any scheduled workday and not to exceed forty (40) hours in any workweek, computed at straight-time exclusive of shift premium or any other premium pay. Regularly scheduled workday shall mean one of the first five (5) regularly scheduled workdays which constitute the basic forty (40) hours per week. This shall not include scheduled overtime days.

SECTION 16.03: Payments will be made for time so lost beginning with the fourth (4th) scheduled workday of any one continuous absence except:

- (a) If two (2) consecutive scheduled off-days fall within such three (3) day waiting period, they shall be counted as one (1) day of the waiting period. If four (4) consecutive scheduled off-days fall within such three (3) day waiting period, they shall be counted as two (2) days of the waiting period.
- (b) If an employee is forced by illness to leave the employee's working place before the employee's regular quitting time on the last scheduled workday before scheduled off-days, any two (2) such off-days, if consecutive, shall be counted as one (1) day of the waiting period.
- (c) An employee who reports for work on a regularly scheduled workday but is forced by illness to leave work before working more than four (4) hours shall have that day counted as one (1) day of the required waiting period. An employee who is forced by illness to leave work after working more than four (4) hours but less than eight (8) hours may be paid on the third (3rd) day of the waiting period an equivalent number of hours as those lost because of sickness on the last day worked if the third (3rd) day of the waiting period is a scheduled

workday. Such partial day payment shall not be counted against an employee's total day entitlement.

- (d) Payment will also be made for any regularly scheduled workday of the waiting period: (1) Upon admission to a hospital requiring overnight stay (does not include emergency room, x-rays, diagnostic testing, cosmetic or dental procedures) or, (2) upon admission to an outpatient care facility for procedures or treatment requiring general anesthesia (does not include emergency room, x-rays, diagnostic testing, cosmetic or dental procedures). Notwithstanding the general exclusions for dental procedures, payment will also be made for any regularly schedule workday of the waiting period upon admission to an outpatient care facility for procedures performed by an oral and maxillofacial surgeon which requires general anesthesia.
- (e) An employee who becomes eligible for paid sick leave under this Article may substitute earned Vacation benefits for any time lost during the waiting period as described in this Section, provided he requests such by the close of the normal business day which follows the day he first becomes eligible.

SECTION 16.04: Payment will be made for time lost as outlined below:

- (a) First year of regular employment - no sick leave.
- (b) After one (1) full year of continuous service as a regular employee, and on July 1st of each succeeding year thereafter, a regular employee will earn twenty (20) days of paid sick leave if he has less than twenty (20) years of company seniority, or twenty-five (25) days of paid sick leave if he has twenty (20) years or more company seniority. Unused sick leave may be carried over from one year to the next, not to exceed one hundred (100) days. Paid sick leave earned as described herein will be credited to regular employees on July 1st unless the employee is not at work for any reason other than those set forth in Section 16.05. If not at work on July 1st, for reasons other than set forth in Section 16.05, the days of paid sick leave will be credited to the employee following his return to work for two (2) full weeks (eighty (80) hours) of regular duty.

SECTION 16.05: For the purposes of Section 16.04(b), the following will count as time worked:

- (a) Days actually worked, including partial days where four (4) or more hours are actually worked.
- (b) Paid holidays falling in an employee's regularly scheduled workweek.
- (c) Vacations, except in lieu of Sick Leave or Workers' Compensation.
- (d) Jury duty and funeral leave.

- (e) Time lost for personal business authorized for the purpose of attending military summer camp (to a maximum of two weeks per year) and regular monthly drills (to a maximum of two days per month).
- (f) Any active duty military service time.

SECTION 16.06: As a further condition of making payments for illness, the employee, or someone on the employee's behalf, must report absence because of illness on the first day of absence and thereafter as directed. The employee may be required to furnish a doctor's certificate after three (3) days and periodically during the employee's period of illness and/or upon release to return to duty, if requested by the Company. The Company may require an employee to report to the Company doctor if, in its opinion, sufficient cause exists for such action.

As a further condition of making payments under this Article an employee shall not engage in any physical activity for personal gain or profit unless such activity is authorized by the employee's physician, subject to review by the Company doctor. An employee who engages in physical activity for personal gain or profit without such authorization while accepting benefits under this Article shall be subject to discharge or other disciplinary action including forfeiture of any sick leave benefits otherwise payable for the period of absence disqualified.

SECTION 16.07: The employee is obligated to return to work at the earliest day recovery from an illness will permit, including making himself available for limited service in accordance with Article 19. Failure to return to duty when able, or falsifying the necessity for sick leave, shall be cause for discharge or other disciplinary action, including forfeiture of sick pay for the period of absence disqualified.

SECTION 16.08: A period of sickness, including waiting days, must be continuous, except:

- (a) A return to work for not in excess of two (2) days, or a paid holiday, shall not interrupt or cancel a waiting period, beginning of sick pay or continuation of sick pay.
- (b) A return to work for not in excess of five (5) days, or a paid holiday, shall not interrupt or cancel a waiting period, beginning of sick pay or continuation of sick pay provided the employee meets the criteria as defined in Section 16.03 (d).
- (c) In the case of an employee who is able to return to work in some capacity after suffering from a catastrophic illness or injury and who thereafter must receive long term occasional medical treatment or rehabilitation which is not reasonably available outside the employee's regular working hours. An illness or injury shall be considered catastrophic if the employee suffered major head trauma, spinal cord injury, amputation, severe burn, severe stroke, amyotrophic lateral sclerosis, cancer requiring radiation or chemotherapy treatments, acquired immune deficiency syndrome (AIDS), severe cardiac disease, severe hepatitis, anorexia nervosa, bulimia, or severe congenital anomalies.

SECTION 16.09: Effective January 1, 2012, an employee will receive an earned holiday to be taken during the calendar year when the following requirements are met:

- (a) the employee has been employed for a minimum of 12 consecutive months,
- (b) the employee has worked a minimum of 1040 straight-time hours or more,
- (c) and the employee has not taken more than a single occurrence of unpaid time off work, regardless of the reason, during the preceding calendar year. For purposes of this Section, if an employee's single occurrence of unpaid time off work exceeds two hours, the employee shall not be eligible for the earned holiday.

The scheduling of this day is subject to the following conditions:

At the time of vacation selection, the preference of the Earned Holiday will be determined by seniority. After vacation selection has been completed, selection of the Earned Holiday shall be made on a first come, first served basis. Earned Holidays may be coupled with a Company-wide Holiday, or added to vacation periods. If operational requirements cause the cancellation of this scheduled day, it may be rescheduled or the employee may be paid as outlined in Article 9.

## **ARTICLE 17 SUCCESSORSHIP**

The Company agrees that the Collective Bargaining Agreement between the parties will remain in full force and effect for the specified duration regardless of any change in the ownership of the Company. The Company will include a provision, in any sales or merger agreement, with any successor or assign, that will affirm and make the continuation of the Collective Bargaining Agreement a condition of the sale or merger of the Company.

## **ARTICLE 18 SUPPLEMENT TO WORKERS' COMPENSATION**

SECTION 18.01: When an employee is injured while working for the Company and is entitled (or would by passage of time become entitled) to benefits under Workers' Compensation or Occupational Disease Laws or Acts, the Company agrees to supplement such benefits, as earned by the employee under Section 18.05, by paying such employee the difference between such benefits (irrespective of the employee's receipt of the benefits) and one hundred percent (100%) of the employee's net wages received on the basis of a forty (40) hour workweek, computed at straight-time exclusive of shift premium, or any other premium pay, beginning with the fourth (4th) scheduled workday of such absence except:

- (a) If two (2) consecutive scheduled off-days fall within such three (3) day waiting period, they shall be counted as one (1) day of the waiting period. If four (4) consecutive scheduled off-days fall within such three (3) day waiting period, they shall be counted as two (2) days of the waiting period.
- (b) If an employee is forced by injury to leave the employee's working place before regular quitting time on the last scheduled workday before scheduled off-days, any two (2) such off-days, if consecutive, shall be counted as one (1) day of the waiting period.
- (c) If an employee is injured after reporting for work or is required to go to the Company's doctor for treatment on a scheduled workday, the employee shall be paid at the employee's regular straight-time rate for the remaining hours in the employee's regularly scheduled workday, not to exceed eight (8) hours in total for such day, except that no such payment shall be made for time required to visit the doctor on any day the employee is off duty for any reason while the employee is still receiving benefits under this article.
- (d) Payment will also be made for any regularly scheduled workday of the waiting period: (1) during which the employee is a bed patient in a hospital and for which a room charge is levied; (2) which follows a period of such internment, even if internment is on an off-day; or (3) for time spent not to exceed eight (8) straight-time hours, visiting the Company doctor on waiting period days when the employee does not subsequently become eligible for Workers' Compensation benefit for such days.

SECTION 18.02: The employee is obligated to return to work at the earliest date recovery from an injury will permit, including making himself available for limited service in accordance with Article 19. Failure to return to duty when able, or falsifying the necessity for compensable leave, shall be cause for discharge or other disciplinary action, including forfeiture of the Supplement for period of absence disqualified.

As a condition precedent to receipt of benefits under this Article, an employee shall not engage in any physical activity for personal gain or profit during the twenty-two week period of his supplemental benefits for occupational injury or illness unless such activity is authorized by the employee's physician, subject to review by the Company doctor. An employee who engages in physical activity for personal gain or profit without such authorization while accepting supplemental benefits under this Article shall be subject to discharge or other disciplinary action including forfeiture of the Supplement.

SECTION 18.03: The pay of employees working on overtime hours who are injured and required to go to the Company doctor will cease when they leave their work site. If it is necessary for the employees to return to their work site for their own convenience after their regularly scheduled workday is completed, whether transported by Company vehicle or not, they will not be paid for such time.

SECTION 18.04: Determination of first day considered as "lost time" is as follows:

- (a) Workers' Compensation - Next calendar day after day of injury.
- (b) For Supplement - Next regularly scheduled workday on which the employee is absent due to the injury subject to provisions of (a), (b), (c), and (d) above.

SECTION 18.05: Supplemental payment will be made for time lost as outlined below:

- (a) First year of regular employment - no supplement.
- (b) After one (1) full year of continuous service as a regular employee, and on July 1st of each succeeding year thereafter, a regular employee will earn twenty-five (25) days of supplemental pay. The supplement may be carried over from one year to the next, not to exceed one hundred (100) days. Supplemental pay earned as described herein will be credited to regular employees on July 1st unless the employee is not at work for any reason other than those set forth in Section 16.05. If not at work on July 1st, for reasons other than set forth in Section 16.05, the twenty-five (25) days of supplemental pay will be credited to the employee following his return to work for two (2) full weeks (eighty (80) hours) of regular duty.

## **ARTICLE 19 LIMITED SERVICE**

SECTION 19.01: An employee who sustains a temporary or permanent partial disability from an illness or injury shall be permitted to return to work in whatever capacity his disability will permit, where work is available.

The duration of a limited service assignment, the affected employee's classification, and his rate of pay will be as follows:

- A. For partial disabilities which are not compensable under Kentucky or other applicable Workers' Compensation statutes -
  - 1. Classification and Rate of Pay: Will be subject to the employee's length of continuous service on the onset of his disability, in accordance with the following:
    - (a) If the employee has 25 years or more of Company seniority, his classification and rate of pay in effect on the onset of his disability will be continued for forty (40) work days, following which the employee will be reclassified to Limited Service Helper. His rate of pay will be the "50% rate" as defined in Appendix "A" or his current rate of pay, whichever is less, for the duration of his limited service assignment.

- (b) If the employee has 15 or more years, but less than 25 years of Company seniority, his classification and rate of pay in effect on the onset of the disability will continue for thirty (30) work days, following which the employee will be reclassified to Limited Service Helper and be paid the rate for Limited Service Helper or his current rate of pay, whichever is less, for the duration of his limited service assignment.
    - (c) If the employee has less than 15 years of Company seniority, his classification and rate of pay in effect on the onset of the disability will continue for twenty (20) work days, following which the employee will be reclassified to Limited Service Helper and be paid the rate for Limited Service Helper or his current rate of pay, whichever is less, for the duration of his limited service assignment.
  - 2. Duration: The duration of any limited service assignment under this section for any employee shall not exceed one hundred (100) work days in a calendar year.
- B. Except for those injuries described in Section (c), below, for partial disabilities which are compensable under Kentucky or other Workers' Compensation statutes:
  - 1. Classification and Rate of Pay: Will remain the same as that in effect on the onset of his disability for the duration of his limited service assignment.
  - 2. Duration: The duration of any limited service assignment under this section for any employee shall not exceed one hundred (100) work days in a calendar year.
- C. For employees who may suffer partial disabilities arising from; spinal cord injuries, severe head trauma, severe burns, amputations or loss of sight, which are compensable under Kentucky or other Workers' Compensation statutes:
  - 1. Classification: Will remain the same as that held by the employee prior to the onset of his disability for not more than two hundred (200) work days at which time the employee will be reclassified to Limited Service Helper.
  - 2. Rate of Pay: The wage rate in effect for the employee prior to the onset of his disability will be continued for one hundred (100) work days, following which the employee's rate will be reduced by ten percent (10%), and the reduced rate will be paid for the next one hundred (100) days. Thereafter, when the employee has been reclassified to Limited Service Helper, he shall be red-circled at the reduced rate which shall remain in effect until such time as the rate for the top of the paygrade nearest the "50% rate" as defined in Appendix "A" equals or exceeds the employee's red-circled rate.
  - 3. Duration: There is no limitation upon the duration of a limited service assignment for disabilities described by this Section (c).

SECTION 19.02: An employee on limited service who is able to return to his prior job classification, will not have the time spent on limited service credited toward minimum time-in-grade requirements or wage step progression increases within the prior classification. General wage increases shall, however, apply to limited service employees except as otherwise provided. A general wage increase occurring at a time when a limited service employee is being paid at ninety percent (90%) of his prior rate shall be applicable only to the extent of ninety percent (90%) of the increase otherwise applicable to the employee's prior rate.

Should an employee suffer successive partial disabilities within a calendar year, the eligibility for limited service as a consequence of the most recent disability will be reduced by the limited service entitlement utilized by the employee with respect to the prior disability or disabilities.

SECTION 19.03: In order to be eligible for limited service as described in this Article, the employee must have worked a minimum of eighty (80) straight-time hours of regular duty within the calendar year. An employee on limited service as of December 31 of any calendar year may utilize the remainder of his limited service eligibility for that year, in the following year, provided the period of limited service is continuous. However, an employee on limited service on December 31 must work at least eighty (80) straight-time hours of regular duty in the following year to again be eligible for the full period of limited service.

If an employee is unable to return to regular duty at the end of his period of limited service eligibility, he will be placed off work until he can return to regular duty unless reclassified as described in Section 19.04.

SECTION 19.04: Regardless of the duration of an employee's limited service assignment and rate of pay applicable thereto, an employee on limited service who is certified by a medical doctor of the Company's choosing to be permanently restricted may be reclassified to any vacant job in a classification the duties of which the employee is qualified and physically able to perform. The rate of pay for employees reclassified under this section shall be as follows:

Workers' Compensation Injuries

Employees with 25 or more years of service will have their rate of pay reduced by ten percent (10%) upon being reclassified and the reduced rate will be paid for the next one hundred (100) days. Thereafter, he shall be red-circled at the reduced rate which shall remain in effect until such time as the rate for the top of the paygrade nearest the "50% rate" as defined in Appendix "A" equals or exceeds the employee's red-circled rate.

Employees with less than 25 years of service will receive the rate for the top of the paygrade nearest the "50% rate" as defined in Appendix "A" upon reclassification.

Non-Workers' Compensation Injuries

Employees with 25 or more years of Company seniority will receive the rate for the top of the paygrade nearest the "50% rate" as defined in Appendix "A" upon reclassification.

Employees with less than 25 years of Company seniority will be paid at the rate for his new classification. Employees subject to reclassification as described herein, will have their cases discussed with the Union and their seniority status decided by mutual agreement.

SECTION 19.05: Where practicable and if appropriate, limited service employees described in Section 19.01 (b) and (c) will be reclassified to regular job classifications before exhaustion of their limited service eligibility provided work is available.

Employees who, prior to November 13, 1989, have been reclassified to regular job classifications from limited service and whose wages have been protected will be red-circled at their existing rates until such time as the rate for the classification exceeds the red-circled rate, or until an employee changes job classifications under Article 10.

SECTION 19.06: An employee's ability to return to his former job, or to be placed in a job of a higher classification, shall be subject to review at any time the employee's physical condition improves. If the employee is capable of performing the duties of his former job, he shall be returned to his former job provided an opening exists, and his seniority status shall be determined by mutual agreement. An employee may be placed in a job in a higher classification which was not his former job upon mutual agreement of the parties.

SECTION 19.07: Subject to the foregoing, an employee who is released to return to work in a limited service capacity shall promptly notify his department limited service representative who shall assign the disabled employee first to whatever work the employee's disability will permit in that department or payroll division. If no suitable work is available, the employee's department limited service representative shall then notify the designated Company representative responsible for the assignment of limited service employees. The disabled employee shall then be assigned to whatever suitable work that is available anywhere in the Company. Such assignments may be made on a daily basis, if necessary, and no assignment shall be held to constitute a change of schedule nor shall such assignments be made on the basis of an employee's seniority. Limited service assignments shall be considered as temporary assignments.

SECTION 19.08: Nothing in this Article shall be construed to abrogate or diminish any rights an employee would otherwise have under this Agreement, the Americans with Disabilities Act, the Workers' Compensation laws of Kentucky or other applicable laws.

SECTION 19.09: Notwithstanding Sections 16.09 and 18.01 of this Agreement, an employee who is on limited service due to an injury or illness and who has once satisfied the waiting period described in those sections shall not be required to satisfy an additional waiting period should the Company remove him from limited service duty due to a lack of suitable work.

**ARTICLE 20**  
**PERSONAL LEAVES OF ABSENCE**

SECTION 20.01: When, in the opinion of the Company, the requirements of the business will permit, an employee may, upon written request to the Company stating the reason why such leave of absence is desired, be granted a leave of absence for legitimate personal reasons without pay for a period not to exceed one hundred eighty (180) calendar days. Seniority will accumulate only during the first one hundred eighty (180) calendar days of any leave of absence granted under this Agreement for personal reasons. The Company may, but shall not be required to extend any leave of absence granted under this Agreement.

SECTION 20.02: It shall be cause for discharge if any employee misrepresents or falsely states to the Company in any application for a leave of absence (under this or any other article relating to a leave of absence), or any extension thereof, the reason for requesting such leave of absence. It shall also be cause for discharge if an employee, during a leave of absence under this Agreement, accepts gainful employment or becomes gainfully employed in any capacity by any other person, firm or corporation, or engages in any business for gain or profit on his own account, without first having obtained approval in writing for such other employment or business from the Chief Administrative Officer, or his designated representative. An employee who fails to return to work at the expiration of a leave of absence shall be conclusively presumed to have quit his employment with the Company.

SECTION 20.03: The Union recognizes that when employees are granted leaves of absence, it may be necessary for the Company to make arrangements to fill such employee's job during the entire period of such leave of absence. The Union therefore agrees that no employee may return to work without the Company's consent and approval prior to the date on which his leave of absence expires.

SECTION 20.04: Employees granted leaves of absence under this article shall have the coverage of the following benefit plans continued to the end of the month in which the leave commences:

Group Life Insurance Program

Group Medical Insurance Program

Group Dental Insurance Program

If the employee desires to obtain continued coverage under these programs after the period specified above, such employees shall pay the full monthly cost of the benefit plan premiums or contributions up to and including the month in which the employee returns to work from his leave of absence. Full monthly cost shall include both employee and employer premiums or contributions. Such payments shall commence and be submitted to the Benefits Department by the first day of any succeeding months of the leave of absence. Failure to make timely payments as prescribed shall cause the immediate cancellation of the program coverage.

SECTION 20.05: An employee who is permitted to return from a personal leave of absence, prior to the approved return date, will be reinstated at his former rate of pay and will retain his position on the seniority roster, subject to the provisions of Section 20.01 of this Article.

SECTION 20.06: Any regular full-time employee covered by this Agreement who is elected to a public office requiring their absence from duty with the Company, may request a leave of absence without pay for the duration of their term or terms. Such request shall not unreasonably be denied.

Employees granted a personal leave of absence under this section may have such leave for the duration of their term of office without regard to the one hundred eighty (180) calendar day limitation on Section 20.01, and without loss of seniority. However, the seniority limitation of Article 10, Section 10.03(b) will apply.

Upon completion of their term they shall be reinstated to their former position, if it is available. If it is unavailable, they may be redeployed to another available position under the terms of Article 10, Section 10.24. Employees subject to reclassification under the terms of this section will have their cases discussed with the Union.

SECTION 20.07: Employees shall report to the Company and submit to such physical examinations as the Company may require prior to returning to work from leave of absence granted hereunder.

## **ARTICLE 21 FUNERAL LEAVE**

SECTION 21.01: The Company will grant to all regular employees covered by this Agreement payment, exclusive of shift premium, or any other premium pay, for time lost on their regularly scheduled workdays, up to a maximum of five (5) days, in connection with the death of the employee's spouse, employee's children and employee's parents, and step-children of the employee who are children of the employee's present spouse who have lived in the employee's home. For purposes of this section, "employee's parents" shall include the spouse of either of the employee's natural parents and legal parents. All leave granted under this section shall be taken between the date of death and two days following the date of the funeral or service, inclusive.

SECTION 21.02: The Company will grant to all regular employees covered by this Agreement payment, exclusive of shift premium, or any other premium pay, for time lost on their regularly scheduled workdays, up to a maximum of three (3) days because of death of any other member of an employee's immediate family. Under this provision, other members of an employee's immediate family are recognized as being grandparents, grandchildren, sons-in-law, daughters-in-law, brothers, and sisters of the employee, spouses of employee's brothers and sisters, employee's spouse's brothers, sisters and parents, employee's spouse's grandparents or other close relative living in the home of the employee. All leave granted under this section shall be taken between the date of death and the date of the funeral or service, inclusive.

SECTION 21.03: The employee must report absence because of death in family to the proper supervisor on the first day of such absence and shall indicate the date of the funeral or service, if known, or as soon thereafter as the date becomes known. In the case of vacation interruption, because of death in family, the employee must notify the proper supervisor within two (2) work days of the date of death and shall similarly indicate the date of the funeral or service.

SECTION 21.04: The provisions of this Article will apply within the time limits of an employee's scheduled vacation, but will not apply when an employee is off-duty due to illness or injury or for any other reason. Note: This means that subject to the conditions of this section which determines an employee's eligibility for up to either three (3) or five (5) days off for death in family, and subject to the operating requirements of his department, an employee who suffers a "death in family" during the time he is on vacation may reschedule as vacation the number of vacation days interrupted by death in family, for which the employee is eligible.

SECTION 21.05: Employees who are requested to serve as pallbearers (honorary pallbearers not included) at the funeral of an employee or retired employee should be released from duty, where operational requirements permit, for the amount of time necessary to attend the funeral. An employee who serves in this capacity shall not lose straight-time pay (exclusive of shift premium) on that account. Where practicable and appropriate, the employee is expected to work before and/or after attending the funeral. The Company may require verification of the employee's service in this capacity.

## **ARTICLE 22 JURY DUTY**

Employees serving on Jury Duty shall not lose straight-time pay (exclusive of shift premium) on that account and will be paid the difference between money received for such Jury Duty, exclusive of expense allowance, and their normal straight-time earnings exclusive of shift premium.

Employees scheduled to work the day shift, who are required to report for Jury Duty before noon, shall, upon request and notification to their Department Superintendent, be excused from reporting for work prior to reporting for Jury Duty and shall be required to return to work only if released from Jury Duty at, or prior to, the expiration of four (4) hours from his scheduled starting time. Where practicable, and upon request to the employee's supervisor, an employee scheduled for shift work will be rescheduled to day work (Monday through Friday) for the entire period he is scheduled for Jury Duty.

An employee subpoenaed to testify and who testifies in a civil or criminal judicial proceeding not involving the employee, his family, or any interest of the employee, will suffer no reduction in straight-time pay, for time lost in testifying, and will be paid the difference between money received for honoring the subpoena and normal straight-time earnings, exclusive of shift premium, provided the employee provides prompt notice of his receipt of a subpoena.

The Company may require for each day, in such form as it deems necessary to the conduct and administration of this provision, evidence of the employee's requirement to report for Jury Duty, or

to honor a subpoena, proof of attendance, time of reporting, time of release and amounts received as compensation.

### **ARTICLE 23 MILITARY SERVICE**

Except as otherwise provided by law, if it should become necessary for an employee to leave the service of the Company to serve in the Armed Forces of the United States, or should an employee volunteer for service in any of the Armed Forces of the United States, then any such employee shall retain and accrue his seniority during such service, provided he returns to the employ of the Company within ninety (90) calendar days after his demobilization or release from the service, and provided further that he is fit and competent and has received a release or discharge under honorable conditions. A reservist who is called to active duty as a result of mobilization shall receive a supplement, for ninety (90) days from being called, of the difference between military pay and the employee's base pay in effect prior to taking leave under this article. If the employee's family elects to continue dental coverage under the provisions of COBRA, the Company will waive the premium for such coverage to up to twelve (12) months. Additionally, an employee who participates in military summer camp or short-term duty up to three (3) weeks will receive a supplement of the difference between military pay and the employee's base pay. Except as otherwise provided by law, this Article shall not apply to any employee who re-enlists or otherwise extends his period of full-time military service beyond the period of time of his military obligation to the United States.

The employment status of an employee shall not be affected by his enlistment or participation in the civilian components of military services, regardless of whether such enlistment or participation is voluntary or mandatory.

### **ARTICLE 24 SUBCONTRACTING**

SECTION 24.01: The Company currently and historically utilizes outside contractors and subcontractors to supplement its own work force. These outside contractors and subcontractors are utilized primarily for the following reasons: to meet emergency situations; to obtain specialized services not readily available within the Company's work force; for purposes of business expediency (time); and to enable the Company to render service to its customers in the most efficient and economical manner practicable. While the Company expects that a continuation of such outside contracting policies will be necessary to prudent and efficient business operations during the life of this Agreement, the Company agrees that it will not subcontract work normally and usually performed by employees presently covered by this Agreement or utilize the terms set forth in Article 10, Section 10.24 in this Agreement for the purpose of eroding the bargaining unit.

Additionally, the Company agrees that except in an emergency it will not subcontract the work involved in the generation, transmission and distribution of either gas or electricity of a type normally and usually performed by employees in journeyman classifications or above when such

subcontracting would cause the layoff of such employees or affect their recall. It shall not be a violation of this Agreement for the Company to continue subcontracting in areas where there has been no reduction in force notwithstanding the fact that a reduction in force in a different area has caused the displacement of incumbent employees by more senior employees pursuant to Article 10. However, should a journeyman be removed from his line of progression due to a reduction in force, and as a result displace a less senior employee in a below journeyman classification in a different line of progression, he shall be considered a journeyman under this Section in the event of a subsequent reduction in force in his new line of progression for not more than the period of time equal to the minimum time in grade requirement for promotion to journeyman, plus six (6) months.

SECTION 24.02: If it becomes necessary for the Company to contract out work of the type regularly and customarily performed by employees covered hereby, it shall notify the Union of such subcontracting and identify the type of contractual agreement, probable duration of the contract and the approximate number of employees involved in the performance of the contract. However, nothing in this article shall require the Company to assume unreasonable or excessive costs in its operations.

SECTION 24.03: It is agreed that outside contractors working on a cost/plus annually renewable contract will not perform work, normally performed by employees covered by this Agreement, on the sixth or seventh workdays of a week except in the following circumstances and situations: where the employees in the work area affected have been offered the work; if an emergency exists and employees in the work area affected by the emergency have been fully utilized; or if it is necessary to have an equipment outage on the sixth or seventh day for the contractor to complete the work he is performing. However, contractors working on unit cost contracts, fixed bid contracts, or cost/plus emergency contracts will not be affected by this section. It is not a violation of this Section for a contractor to continue or complete work on the 6<sup>th</sup> & 7<sup>th</sup> workday, provided the contractor is responsible for that work during the week.

Section 24.04: The Company agrees that, other factors being substantially equal (i.e. price, availability, qualifications etc.), contractors who employ union members will be given preferred consideration. It is understood that this provision in no way creates third party beneficiary status for any individual or contractor.

## **ARTICLE 25**

### **WAGES - JOB CLASSIFICATIONS - PAY PROGRESSIONS**

SECTION 25.01: The wage rates for job classifications covered by this Agreement are described in Appendix "A," which is attached hereto and made a part hereof. Nothing in this Agreement shall prohibit the Company and the Union from mutually agreeing to modify the rate of pay for any job classification set forth in Appendix "A" at any time during the term of this Agreement.

SECTION 25.02: The Company will furnish the Union a copy of an accurate, up-to-date job description for all job classifications listed in Appendix "A."

It is understood that the purpose of the job descriptions referred to herein is to classify the work properly, to give guidance in making assignments and to determine the proper rate of pay therefore. It is agreed that the job descriptions referred to herein describe, in general, responsibilities and duties normally performed, but do not limit the work of an employee to the particular duties listed and the duties incidental thereto. It is agreed that job descriptions list typical duties of a classification and that numerous related tasks incidental to the typical duties listed which reasonably cannot be enumerated in the job description are included in the work of the classification.

SECTION 25.03: It is agreed that in the interest of obtaining improved service, better operations or lower costs, the Company has the right to make changes in equipment, operations, and the organization of work, including the determination of job content, minimum requirements and qualifications; and combine jobs, eliminate jobs, and create new jobs, and it is understood that this is a proper function of management.

SECTION 25.04: The rates of pay for any newly created job classifications, or for any existing job classifications which have been changed by the addition of new or different tasks which require significantly greater skills or responsibilities or by the removal of any tasks which result in requiring significantly lesser skills or responsibilities, and the seniority placement of any employees who may be affected by such changes will be negotiated with the Union by the Company. The Company will prepare proposed job descriptions in such cases and deliver a copy to the Union with notification as to the rate of pay at least fourteen (14) calendar days prior to putting the new or changed job classifications in effect, and will discuss them with the Union if so requested. However, the performance of work as assigned by the Company shall not be delayed either by discussion between the parties regarding new or changed jobs or by any arbitration regarding newly created or modified jobs as provided in Section 25.05. In either instance, wage rates for new or modified jobs as finally determined will be retroactive to the date the new or changed duties were first performed.

SECTION 25.05: If the parties are unable to agree on the proposed establishment of new jobs or modifications and revisions to existing jobs, such issue may be submitted to arbitration at the request of the Union as provided for in Article 6 of this Agreement. In resolving such dispute, the Arbitrator shall only have the authority to establish an appropriate wage rate in proper relation to other existing job classifications for any new or revised job and may not create, revise or abolish job descriptions or specifications.

SECTION 25.06: If the Union believes that the job description for any existing job does not accurately describe the duties or responsibilities of the job due to creeping job changes or changes about which the Union was not formally notified, the Union shall notify the labor relations department of its desire to discuss such issue, and a meeting shall be scheduled within fourteen (14) calendar days. Such meeting shall be conducted by a Representative of the labor relations department, and attended by representatives of the Company and Union who are knowledgeable of the matters to be discussed. If negotiations between the parties do not result in an agreement as to the accuracy of any such job description, the Union may appeal the matter directly to arbitration under Article 6. Such appeal to arbitration shall be not earlier than thirty (30) calendar days following the parties' first meeting. The Arbitrator shall have authority to determine only the

appropriate wage rate for the duties performed by the employee(s) in the affected classification and may not create, revise or abolish job descriptions.

SECTION 25.07: An employee who is temporarily assigned to a higher job classification for more than four (4) hours, shall receive the rate of pay for the classification for the entire day of the assignment. An employee assigned to fill a temporary job vacancy in a lower job classification shall suffer no reduction in pay. This section shall not be construed to modify or restrict any other provision of this Agreement.

SECTION 25.08: When an employee is temporarily assigned to a supervisory position outside the bargaining unit, he shall be paid seventy-five cents (75¢) per hour above his regular hourly rate of pay and shall not perform bargaining unit work except as provided in Article 29, Section 29.02. It is understood that any such assignment or assignments for any individual employee will not exceed eighty (80) work days in any calendar year provided, however, the Company may, upon notice to the Union, extend an individual's assignment beyond the eighty (80) day limit if the employee is substituting for the extended absence of a Supervisor whose return to work is anticipated, but not subject to accurate prediction.

## **ARTICLE 26 MEDICAL AND DENTAL INSURANCE**

SECTION 26.01: An employee is eligible to participate in the Medical and Dental Plan upon his or her date of hire.

Employees covered by this Agreement will participate in medical plans on the same basis as all other regular full-time employees of the Company. The details of such medical benefits shall be as specifically provided in the master plan documents covering the terms of such plans. The Company will assume an increase of 4% in each year of the contract in medical and hospitalization expense per employee. To the extent this expense increases over 4%, the employees will absorb increases up to the next 4%. Should the total increase exceed 8%, the Company and the employees will equally share in the balance of that expense.

To the extent that individual plan premiums exceed the Company's contribution, the employees will contribute the additional cost of premiums according to the plan they select. Contributions will be made monthly on a pre-tax basis.

A joint Health Care Task Force will continue to meet biannually to review trends in health care, review current Company Medical benefit plans, and make cost containment recommendations. In the second and third year of the contract, the joint Health Care Task Force will be charged with the responsibility of recommending changes, including plan design changes and increases in co-pays on doctor visits and prescriptions. The task force will establish their priority as avoiding future increases in employee contributions to the extent practicable while maintaining the current quality of coverage. However, the

Company retains the right in its sole discretion to modify the terms, conditions and level of benefits under these medical plans so long as benefits for employees covered by this Agreement are similar and comparable to the benefits applicable to all other regular full-time employees of the Company.

Effective January 1, 2009, the Company shall make a contribution to a health spending, health reimbursement or health savings account, as determined by the Company and established under a Company plan or applicable law, for the benefit of eligible Employees. Such contribution, which will be in the form of cash or credit, shall be made on an annual basis to the account of regular full-time Employees on the Company's payroll as of December 31<sup>st</sup> of the year prior to the year of contribution. The employee's use of the contribution shall be governed by the provisions of the applicable health spending, health reimbursement or health savings account plan or law.

#### SECTION 26.02: Retiree Medical Insurance

A. Employees employed by the Company as of December 31, 2005, will be eligible for retiree medical benefits, the details of such benefits will be as specifically provided in the master plan documents or insurance contracts covering the terms of such plans. The Company will credit monthly the following amounts toward the premiums for any medical plan sponsored by the Company, for those living retirees subscribing to such insurance through the Company.

For employees retiring January 1, 2012 or after, up to \$200.00 toward the cost of insurance premium for employee who retired at age of 55 or over, with at least 10 years of continuous service with the Company. Such \$200.00 credit shall continue until attainment of age 62, which at such time the credit shall increase to \$465.00. The \$465.00 credit shall continue until age attainment of age 65, which at such time the credit shall revert to \$200.00. Additionally, the employee's spouse or other dependant will be eligible for an additional \$100.00 credit toward the cost of his/her insurance premium. The maximum total monthly credit shall be either \$300.00 or \$565.00.00 depending upon the age of the former employee.

B. Employees hired by the Company on or after January 1, 2006, will be eligible for the same retiree medical benefits however, the Company premium contribution will be a lump sum account that will spring into existence on the eligible retiree's date of retirement. This Retiree Medical Account must be used for the sole purpose of paying for retiree medical coverage through the Company.

The initial lump sum amount will be determined based on the following formula:

1. For the retiree, \$2,000, per year of service after age 45, with a maximum initial

account balance of \$30,000.

2. For the dependents, a total initial account balance equal to 50 percent of the initial account balance for the retiree.

On the date the eligible employee retires, the Company will fund this Retiree Medical Account. Once funded, the account balance will be credited with interest based on the 10-year Treasury rate subject to a four (4) percent minimum and a seven (7) percent maximum.

The retiree may elect to pay the age-related monthly premiums from the Retiree Medical Account in full or in part until the account balance reaches zero. Once the Retiree Medical Account is fully depleted, the retiree may continue medical coverage through the Company by paying 100 percent of the age-related monthly premiums.

The details covering the provisions of the Retiree Medical Account will be as specifically provided in the master plan document covering the terms of the plan.

SECTION 26.03: For the purpose of Section 26.02 of this Article, subscription to such insurance through the Company by retirees and any contribution by the Company toward the payment of premiums shall be contingent on the insured persons' being covered by the Company's medical plans at the time of the employee's retirement and the maintenance of continuous coverage and timely payment of all premiums.

SECTION 26.04: Payments made in accordance with Section 26.02 A. of this Article will exclude premiums for new spouses or dependents acquired through marriage after retirement. Such payments to retiree's spouse or other dependent will cease at the earliest of:

- (a) the end of the 60<sup>th</sup> calendar month after the date of death of the retiree,
- (b) the end of the calendar month the dependent no longer is eligible under the terms of the Retiree Medical Continuation Plan,
- (c) the date the survivor dies, or
- (d) the beginning of the calendar month the survivor does not pay the required premium contribution under the terms of the Retiree Medical Continuation Plan.

Even if such payments cease under item (a) above, the survivor may continue to participate under the terms of the Retiree Medical Continuation Plan by paying the full premium.

SECTION 26.05: Employees may elect to participate in either the Delta Dental High Option or Delta Dental Basic Option provided by the Company. If the employee elects the Delta Dental Basic Option, no employee premium contribution is required. If the employee elects the Delta Dental High Option, the employee will contribute \$7 per month for single, \$17 per month for single plus one or children, or \$27 per month for family coverage. The contract between Delta Dental and the Company will govern in all matters related to the plan.

SECTION 26.06: If, pursuant to any Federal or State Law which may become effective during the term of this Agreement, the Company is required to make contributions or pay taxes for providing benefits which are already provided for under Company plans, then to the extent such benefits under any such Federal or State program would duplicate the benefits under the Company's plans, the Company shall be relieved of the obligation to provide such benefits under the Company's benefit plans.

**ARTICLE 27**

**LIFE AND ACCIDENTAL DEATH AND DISMEMBERMENT INSURANCE**

SECTION 27.01: Effective 12/1/2008 the Company shall maintain the basic life insurance and accidental death and dismemberment plan on the basis of 2 times base rate of pay, maximum benefit of \$150,000. It will be provided on the same basis as it has in the past for those employees who are eligible and enroll in this plan.

Employees who retire on or after January 1, 2004 will be provided retiree life insurance based on the following schedule:

Age	Amount of Retiree Life Insurance
Age 55 but less than age 65	1 times base rate of pay as of the date of retirement
Age 65 but less than age 70	.5 times base rate of pay as of the date of retirement
Age 70 or older	\$10,000

SECTION 27.02: The Company will pay one hundred per cent (100%) of the total premium for the basic life insurance and accidental death and dismemberment plan for eligible employees who enroll in the plan.

SECTION 27.03: Employees may elect to participate in the optional life insurance plan at the rate of one (1), two (2), or three (3) times base salary. The employee will authorize payment of the applicable premium through payroll deduction.

SECTION 27.04: Employees may elect to participate in the dependent life insurance plan for a spouse and dependent child(ren) of either:

- 1) \$5,000 for a spouse and \$2,500 on each child, or
- 2) \$10,000 for a spouse and \$5,000 on each child, or
- 3) \$25,000 for a spouse and \$10,000 on each child, or
- 4) \$50,000 for a spouse and \$20,000 on each child. \*

\* Enrollment in this fourth option will be subject to medical evidence of insurability and regulations imposed by the Kentucky Department of Insurance.

The employee will authorize payment of the applicable premium through payroll deduction.

SECTION 27.05: Effective 1/1/09, an employee is eligible to participate in the basic life insurance, accidental death and dismemberment insurance, optional life insurance and dependent life insurance upon his/her date of hire. The details of the foregoing Plans shall be as specifically provided in the master plan documents covering the terms of such Plans.

## ARTICLE 28 RETIREMENT INCOME PLAN AND DISABILITY BENEFITS

SECTION 28.01: For employees employed by the Company on December 31, 2005, the Company will maintain in effect and pay the full cost for retirement income under the terms of the Louisville Gas & Electric Company Bargaining Employees' Retirement Plan.

Effective January 1, 2012, the basic pension formula was amended as follows:

Effective 1/1/2012

Pay grades 1-5:	\$72 per month per year of service (maximum of thirty (30) years)
Pay grades 6-9:	\$85 per month per year of service (maximum of thirty (30) years)
Pay grades 10-14:	\$91 per month per year of service (maximum of thirty (30) years)

Effective 1/1/2013

Pay grades 1-5:	\$74 per month per year of service (maximum of thirty (30) years)
Pay grades 6-9:	\$87 per month per year of service (maximum of thirty (30) years)
Pay grades 10-14:	\$94 per month per year of service (maximum of thirty (30) years)

	of thirty (30) years)
--	-----------------------

Effective 1/1/2014

Pay grades 1-5:	\$76 per month per year of service (maximum of thirty (30) years)
Pay grades 6-9:	\$90 per month per year of service (maximum of thirty (30) years)
Pay grades 10-14:	\$97 per month per year of service (maximum of thirty (30) years)

Employees hired by the Company on or after January 1, 2006 are not eligible to participate in the Louisville Gas and Electric Company Bargaining Employees' Retirement Plan. Instead they are eligible to participate in the Retirement Income Account (see Section 28.08) under the terms of the Louisville Gas and Electric Company Bargaining Employees' Savings Plan.

SECTION 28.02: There will be no interruption in the accumulation of retirement benefits under the Louisville Gas and Electric Company Bargaining Employees' Retirement Plan unless an employee's pay ceases. If the employee becomes entitled to additional "sick pay" after interruption of the employee's "sick pay" there will be no accumulation of retirement benefits for the period covered by the additional "sick pay." Accumulation of retirement benefits will be resumed after the employee returns to work.

If the employee's initial date of disability is after January 1, 2004 and the employee is receiving benefits under the Long-Term Disability Plan, the employee will continue to accrue Service and Credited Service under the Louisville Gas and Electric Company Bargaining Employees' Retirement Plan.

SECTION 28.03: A retired employee shall be entitled only to those benefits provided by the Louisville Gas and Electric Company Bargaining Employees' Retirement Plan which are in effect at the time of the employee's retirement. Any changes in the employee's Social Security benefits which become effective after the employee retires shall not reduce the benefits which the employee draws under the Plan.

SECTION 28.04: The Company may set reasonable requirements for advance notice to the Company by an employee who elects to retire before age 65 but may, at its discretion, waive such requirements on an individual basis, for good cause, without any obligation similarly to waive such requirements in any other case.

SECTION 28.05: If the employee's initial date of disability is after January 1, 2004, the Company will provide the following Long-Term Disability benefits:

- (a) Employees who become totally and permanently disabled will be eligible for disability income under the Long Term Disability Plan if they have completed five (5) years of service at the time of disability.
- (b) The amount of monthly disability income payable to a disabled employee is determined as follows:

Sixty percent (60%) of the employee's basic monthly earnings computed at his straight-time hourly rate immediately prior to the time of disability, to a maximum benefit of \$15,000, reduced by;

1. One hundred percent (100%) of any Social Security Benefit, and
2. One hundred per cent (100%) of any benefits payable under Kentucky Workers' Compensation laws or the Workers' Compensation laws of any other State or benefits payable under any Federal government benefit plans.

SECTION 28.06: The Company shall amend the Plan to reflect the amendments to same as set forth in this Article 28. The Company reserves the right to make such Amendments to the Plan as are necessary to comply with the Employee Retirement Income Security Act of 1974, any amendments thereof or regulations pertaining thereto, and all other Federal or State laws or regulations.

SECTION 28.07: Louisville Gas and Electric Company Bargaining Employees' Savings Plan: An employee is eligible to participate on the first day of the month on or after the three (3) month anniversary of his/her date of hire. Effective November 12, 2007, the Company matching contribution is 70 percent on employee contributions up to six (6) percent of covered compensation. Effective January 1, 2006, employees may contribute up to an additional 69 percent of covered compensation on a pre-tax, but unmatched basis, for a maximum of 75 percent. Effective January 1, 2006, employees age 50 or older may make "catch-up" contributions. Effective January 1, 2006, covered compensation shall include overtime and premium pay. Upon adoption by the E.ON U.S. LLC Board of Directors, the Louisville Gas and Electric Company Bargaining Employees' Savings Plan will be amended effective January 1, 2008, to allow employee contributions to be made as Traditional 401(k), Roth 401(k), or a combination of both.

SECTION 28.08: Louisville Gas and Electric Company Bargaining Employees' Savings Plan: Employees hired by the Company on or after January 1, 2006, will be eligible for the Retirement Income Account under the terms of the Louisville Gas and Electric Company Bargaining Employees' Savings Plan. The Company will make an annual lump sum contribution based on the following schedule to the employee's Retirement Income Account.

Years of Service as of January 1	Percent of Covered Compensation
Less than 6	3 percent
6 but less than 11	4 percent
11 but less than 16	5 percent
16 but less than 21	6 percent
21 or more	7 percent

The annual lump sum contribution will be made by April 1 of the applicable year and the employee will be immediately 100 percent vested. Such bargaining unit employees on the active payroll as of December 31 of the preceding year, regardless of whether the employee has satisfied the three month eligibility requirement, will receive this annual lump sum contribution. The details covering the provision of the Retirement Income Account will be as specifically provided in the master plan document covering the terms of the plan.

## **ARTICLE 29 GENERAL PROVISIONS**

**SECTION 29.01: Severe Weather** - The Company agrees that it will not require employees to work in exposed and unprotected areas during severe weather conditions except in the event of an emergency or where such work is necessary to protect life, limb, property or maintain continuity of service or operations. Where such severe weather conditions exists, which prevent an employee from performing his normal work, the employee may be assigned by his supervisor to other available work.

**SECTION 29.02: Supervisors Working** - The Company's intention is to not perform bargaining unit work with supervisors except in emergencies or training situations (including maintaining and updating the supervisor's own job knowledge and proficiency). The union agrees that it is not a violation of this section if a supervisor performs bargaining unit work due to an unscheduled absence of an employee during the first two (2) or last two (2) hours of a shift.

**SECTION 29.03: Meals**

- (a) Neither a meal nor a meal allowance will be provided to an employee for the first ten (10) hours of work on any day when the employee receives at least two (2) hours notice of the overtime prior to the time the employee reports for work, or is directed to commence work before his starting time after reporting to his work location.
- (b) In the absence of two (2) hours notice, a meal or an allowance of \$6.00 in lieu thereof will be provided under the following conditions:

- (1) For an employee who is called-in for overtime work in accordance with Section 9.06 and who works more than three (3) hours.
- (2) To an employee who works two (2) hours or more of unscheduled daily overtime.
- (c) An additional meal or allowance will be provided every five (5) hours after the first meal or allowance is provided until the employee is released from work.
- (d) When employees working overtime, under the provisions of this Section, are required by supervision to remain on duty but are permitted time in which to consume a meal, such time will not be deducted from the employee's overtime pay.
- (e) Meal allowances may be paid as a function of the regular payroll.
- (f) Eligibility for a meal or an allowance, or for additional meals or allowances as contained in this Section will be determined by utilizing the procedure of rounding to the nearest fifteen (15) minutes as is now used in the payroll system.

SECTION 29.04: Commercial Drivers License (CDL)

The Company will reimburse an employee required to have a CDL in the performance of his duties an amount equal to the difference between the cost of the CDL and a standard drivers license.

SECTION 29.05: Should an employee suffer an occupational injury to his person, and as a direct result of such injury, suffer damage to his eyeglasses, hearing aid or dentures, the Company shall, upon presentation of the damaged item and verification of the injury to the employee, reimburse the employee for the expense incurred in the repair or, if necessary, replacement of the item. Any items replaced under this Section shall be of the equivalent quality and price as the item damaged or destroyed as a direct result of the occupational injury.

SECTION 29.06: All bargaining unit employees who wish to exercise their right to vote on Election Day will be expected to do so either before or after their regularly scheduled workday. Time off with pay, up to a maximum of two hours, may be allowed an individual to vote if all of the following conditions are met:

- (a) Arrangements are made prior to the end of the employee's shift on the day preceding the election;
- (b) When the employee does not have sufficient time, either before or after his shift to vote; and,
- (c) Any time off with pay for this purpose will be at the beginning of the employee's shift.

Employees who are excused from work to work at the polls will not be entitled to any compensation.

SECTION 29.07: Educational Assistance - The Company sponsors both a Tuition Refund Plan and a Basic Education and Vocational Training Support Program in which bargaining unit employees are eligible to participate. These educational programs are described in documents available in the Human Resources Department. These programs are subject to expansion, modification or termination by the Company.

SECTION 29.08: Dependent Care - The Company and the Union agree to continue, pursuant to Section 129 of the Internal Revenue Code, a payroll deduction plan for dependent care services. This program will be continued unless, by later action, the Internal Revenue Service or other governmental entity repeals or otherwise eliminates the advantage, to employees, of participating in such a program.

Section 29.09: Work Practices – The Union agrees to meet with local management during the term of this agreement to discuss changes in work practices that may be unique to the area and/or site.

### **ARTICLE 30 SPECIAL PREMIUMS**

SECTION 30.01: Hot Stick Premium - When employees assigned to the Electric Service Delivery Department are required to do hot stick work on 33KV and above, a premium of fifty cents (\$.50) per hour will be paid for the entire day on which such work is performed. When such employees perform the duties of transmission patrol, a premium of twenty-five cents (\$.25) per hour will be paid for the entire day on which such work is performed.

SECTION 30.02: Sunday Premium - A premium of one dollar and twenty-five cents (\$1.25) per hour will be paid for all hours (including overtime hours) worked on a Sunday by an employee for whom Sunday is one of his five (5) regularly scheduled workdays for that week. Additionally, Sunday premium will be paid for all planned overtime hours worked on Sunday.

The premium will not be paid for call-in overtime hours worked on Sunday; however, in the case of an employee initially scheduled for planned overtime on Sunday, and who, because of an emergency arising during the course of the planned overtime assignment has the overtime converted to call-in, the premium will remain in effect for the duration of the original planned overtime assignment.

SECTION 30.03: Adverse Work Premium – An adverse work premium of one-half (1/2) times the employee's regular straight-time hourly rate shall be paid for hours spent performing adverse work. The adverse work premium will not be paid when an employee is being paid at his overtime rate and the adverse work premium will not be compounded with other premium payments.

Adverse work shall mean emergency duties of an unusual nature involving significant risks, which are not commonly incurred in the performance of his normal duties, or the performance of duties under conditions of weather, environment, or other situations which materially increase the hazards involved in the performance of those duties which shall include but not be limited to the electric line repair work in connection with storm damage.

This premium will not be paid for permanent repairs required at locations temporary repairs were made to restore service at the time of the initial weather related customer service interruption.

**ARTICLE 31  
MILEAGE ALLOWANCE**

**SECTION 31.01:**

**Personal Vehicle Usage:**

If an employee is instructed to report to work at another location, he will be reimbursed for personal vehicle usage while on Company business at the approved reimbursement rate. The employee will be reimbursed for mileage in excess of their normal round trip mileage. Normal round trip is defined as travel from home to the normal Company work location and back home. This rule includes reporting to either another Company location or off-site for training or other business purposes.

This mileage allowance does not apply to those employees whose regular job requires them to report at various locations, nor to employees who are transferred from one work location to a new work location on a permanent assignment.

SECTION 31.02: Employees permanently assigned to payroll division 53 who are required to use their personal vehicles in the performance of Company duties (except travel to work from home and back) shall be paid mileage at the Company's regular mileage rate for occasional use of personal cars in accordance with Section 31.01 above. For purposes of administration, each book will have a defined mileage assigned that is reflective of the mileage required to read the book.

**ARTICLE 32  
SERVICE WATCH AND STANDBY**

The Company routinely assigns employees to weekly service watches to answer calls and make service runs outside their normal scheduled workday. These assignments are made at the beginning of the employee's regular workweek and continue for seven (7) consecutive days. Each employee who is assigned to a weekly service watch will be paid eighty-five dollars (\$85.00) per week. If an employee works on service calls outside his normal scheduled workday during his watch week, he will be paid for such time worked in accordance with Article 9 - Overtime. However, time spent during such service watches will not be counted as overtime hours for equalization purposes under Article 9.

If an employee is assigned a service watch or required to "standby" for service calls for less than one (1) week, he will be paid one (1) hour's pay at his appropriate overtime rate in addition to time spent on any service calls for each day he is assigned to a service watch or required to "standby" for service calls. Only actual hours worked will be counted for overtime equalization purposes under Article 9.

**ARTICLE 33**  
**PERSONAL TOOLS AND SAFETY EQUIPMENT**

SECTION 33.01: If an employee is required by the Company to use his personal tools in connection with his work, the Company will replace such tools if they are stolen or destroyed while in the custody and control of the Company.

SECTION 33.02: The Company will continue to furnish employees with tools and equipment which it usually and customarily furnishes employees. Additionally, the Company will furnish employees all safety equipment and protective devices, including leather work gloves, required by the Company or by law to maintain recognized standards of safety. An employee shall wear or utilize all safety equipment and protective devices issued to him. The employee will be subject to appropriate disciplinary action if such tools and/or equipment is intentionally damaged or destroyed by the employee.

SECTION 33.03: The Company will provide an annual tool and equipment allowance in the amount of \$100.00, to be paid on the employee's anniversary date of employment, for employees permanently assigned to the below-listed job classifications:

Substation Control Technician A, B & Specialist  
Substation Equipment Technician A, B & Lead

SECTION 33.04: At the request of the Union, the Company agrees to review any present or future job classification to determine which tool allowance rate, if any, is appropriate for that particular job classification.

**ARTICLE 34**  
**HEALTH AND SAFETY**

SECTION 34.01: The Company and the Union recognize the need for a strong Health and Safety Program for the benefit of all employees and the Company. The Union will cooperate in assisting and maintaining the Company's rules regarding health and safety. The Company recognizes the interest of the Union in the health and safety of its members, and will give careful consideration to any recommendations made by it.

SECTION 34.02: Working conditions which adversely and unreasonably impair the health and safety of employees shall be brought to the attention of supervision for immediate correction, if necessary. The Company agrees to investigate conditions which have a legitimate impact on the health and safety of employees. Accordingly, upon reasonable advance notice, the Company will

meet with the appropriate Union Safety Committee member to discuss the nature of the complained of condition and to determine what, if any, remedial measures shall be taken. The Union shall keep the Manager, Health and Safety, fully advised of the members of its Safety Committee which shall be made up of not more than one individual per department and per shift, if appropriate, at each location.

SECTION 34.03: The Company and the Union agree to continue the Joint Health and Safety Advisory Committee for the purpose of reviewing, discussing and recommending new or revised safety and health rules and procedures. The Committee shall be chaired by the Manager, Health and Safety, and shall meet at least monthly. This Committee shall consist of not more than three (3) members of the Company and three (3) members of the Union. The Union representatives who shall attend a particular meeting shall be made known to the Manager, Health and Safety not less two (2) weeks prior to the date established for the meeting. At the same time, the Union shall notify the Company of the subjects it desires to address at the meeting. The Manager, Health and Safety, shall appoint two (2) associates to attend the meeting whose names shall be made known to the Union not later than one (1) week prior to the meeting.

SECTION 34.04: It is agreed that the establishment and enforcement of safety rules and regulations is a proper function of management and to that end the final determination as to adoption and implementation of any proposed changes in safety rules and regulations shall be the sole responsibility of the Company.

SECTION 34.05: It is understood that any dispute arising out of the interpretation, application or implementation of written health and safety rules shall be proper subjects for Articles 5 and 6 of this Agreement.

SECTION 34.06: Meetings as described in Section 34.03 shall be conducted between the hours of 8:00 a.m. and 5:00 p.m. on a week day. Union representatives authorized to attend such meetings shall be compensated by the Company not to exceed eight (8) straight-time hours on the day of the meeting. The Union Safety Director will be released from regularly assigned duties on the workday which coincides with a scheduled meeting of the Joint Health and Safety Advisory Committee and up to two (2) additional days, if needed, for purposes of preparing for and participating in the meeting. The Union Safety Director shall suffer no reduction in straight-time earnings.

## **ARTICLE 35 NON-DISCRIMINATION**

SECTION 35.01: There shall be no discrimination by the Company or the Union in the application of the terms of this Agreement because of race, color, religion, national origin, age, sex, handicap, or status as a disabled veteran or veteran of the Vietnam Era.

SECTION 35.02: The use of the masculine or feminine gender in this Agreement shall be construed as including both genders and not a sex limitation unless the Agreement clearly requires a different construction.

**ARTICLE 36  
SAVING CLAUSE**

It is understood and agreed that the provisions of this Agreement are in all respects subject to all applicable laws and governmental regulations now or hereafter in effect and to the lawful rulings and orders of all regulatory commissions now or hereafter having jurisdiction. Should any provision of this Agreement be found to be in conflict with any lawful ruling or regulation, the parties will meet for the purpose of discussing and/or modifying that portion of the Agreement only.

**ARTICLE 37  
ENTIRE AGREEMENT**

This Agreement sets out the entire understanding between the Company and the Union. Neither party intends to be bound or obligated except to the extent that it has expressly so agreed herein, and this Agreement shall be strictly construed, provided, however, that the execution of this Agreement shall not invalidate any written agreement between the parties which is not in conflict with the terms of this Agreement, though such written agreement may have been reached prior to the date of this Agreement. Nothing herein shall be construed, however, to prevent the parties from reaching agreements after the effective date of this Agreement which are in conflict with the terms of this Agreement. (Such conflicting agreements must be approved by the Union President or a Business Representative and a representative of the Company's labor relations staff.) Such written agreement shall be incorporated in this Agreement and shall be valid for the life of this Agreement and any extension thereof, unless rescinded by the parties hereto.

**ARTICLE 38  
DURATION OF AGREEMENT**

The effective date of this Agreement is November 11, 2011. This Agreement shall be in full force and effect for the entire period from November 11, 2011, through midnight of November 10, 2014, and from year to year thereafter, unless either party hereto shall, at least sixty (60) days prior to November 10, 2014, or the tenth day of November, in any year thereafter, notifies the other party in writing of its intention and desire to terminate this Agreement.

This Agreement may be extended by the mutual agreement of the parties. Such extension must be in writing and the extension may thereafter be terminated at any time by either party by giving forty-eight (48) hours written notice to the other party of the desire to terminate such extension.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representative:

## APPENDIX A

### Wages

- a) Effective November 14, 2011, there shall be a two and one-half percent (2.5%) general wage increase applied to the wage rates in effect, rounded to the nearest one (1) cent.
- b) Effective November 12, 2012, there shall be a two and one-half percent (2.5%) general wage increase applied to the wage rates in effect, rounded to the nearest one (1) cent.
- c) Effective November 11, 2013, there shall be a two and one-half percent (2.5%) general wage increase applied to the wage rates in effect, rounded to the nearest one (1) cent.

Effective January 1, 2003, employees covered by this collective bargaining agreement will be eligible to participate in the Team Incentive Award Program (TIA), subject to the terms of such TIA program as determined and modified by the Company from time to time. The first payout will be due in March, 2004 and will be targeted (100% rate) at 6% of the employee's annual earnings including overtime and premium pay.

Lines of progression and assigned paygrades are contained in a separate document.

Employees presently in classifications which have received an upgrade by virtue of a new assigned paygrade will receive the appropriate upgrade.

Employees who have received a downgrade by virtue of a new assigned paygrade; or who are presently in classifications which have had the rate for the paygrade reduced, will be "red-circled" at their rate of pay until such time as the rate for the employee's assigned paygrade equals and exceeds the employee's rate of pay or until the employee changes job classification under Article 10.

The preceding two (2) paragraphs are general rules which shall apply to all employees described therein unless expressly agreed otherwise by separate Memorandum of Agreement, or by Article 19 of this Agreement.

The "50% rate" as used in this Agreement shall be defined as the rate of pay which results from reducing an employee's former rate of pay by fifty percent (50%) of the difference between his former rate of pay and the rate of pay for his new classification.

NOTE: Lines of progression are utilized for the purpose of establishing classifications with assigned paygrades, minimum times in grade to attain the necessary experience for promotional consideration, and journeymen levels in the lines of progression. An asterisk (\*) indicates those lines of progression wherein employees, hired prior to January 1, 2000, will be afforded opportunity to advance to the journeyman job classification without regard to whether or not a vacancy exists in

that classification. An employee in such a line of progression must, however, meet the minimum qualifications for advancement into the next higher classification. The asterisk in the lines of progression denotes the journeyman job classification to which the employee may advance under this paragraph. Advancement of qualified employees pursuant to this paragraph shall be effective at the beginning of the payroll period nearest an employee's having satisfied the minimum time in grade requirement for his classification.

Employees hired after January 1, 2000, will be afforded the opportunity to advance to the classification below journeyman without regard to whether or not a vacancy exists in that classification. An employee in such a line of progression must, however, meet the minimum qualifications for advancement into the higher classification. Advancement of qualified employees pursuant to this paragraph shall be effective at the beginning of the payroll period nearest an employee's having satisfied the minimum time in grade requirement for his classification.

Employees hired after November 13, 1989, who for any reason, fail to satisfactorily progress to and retain a journeyman classification, or a lower classification deemed necessary by the Company as described with this Note, may be separated without regard to other provisions of Article 10.

Employees reclassified to a lower rated job in a similar line of progression as the result of a layoff or a reduction in their line of progression (where no layoff occurs due to openings elsewhere), may have the minimum time in grade requirements for promotion to the next higher rated job reduced to the following:

- (a) Six (6) months for employees reclassified to entry level classifications; or
- (b) One (1) year for employees reclassified to higher than entry level classification.

Nothing herein shall be construed, however, to require the Company to promote an employee who, despite serving the minimum time(s) set forth above, is not qualified as set forth in Article 10 of this Agreement.

**APPENDIX B**

Contractual benefits will be modified for employees who are working abnormal shifts as follows:

I. For employees working four (4) days, ten (10) hours per workday schedule ("four/tens" hereafter).

A. Overtime

- (1) Employees working a "four/tens" schedule shall be afforded overtime for hours worked beyond ten (10) in one day, or forty (40) in one week notwithstanding the provisions of Article 9, Section 9.01(a)(1).
- (2) For work on the first and second scheduled offday of the workweek, the employee will receive compensation as provided for in Article 9, Section 9.01(a)(2).
- (3) For work on the third scheduled offday of the workweek, the employee will receive compensation as provided for in Article 9, Section 9.01(a)(2) and Article 9, Section 9.02(b)(4).

B. Vacations

- (1) Vacation entitlement as described in Article 13, Section 13.01 shall be converted to straight-time hours for employees working a "four/tens" schedule. Thus, employees on such a schedule taking one (1) week's vacation shall receive payment for four (4) days, ten (10) hours per day.
- (2) Vacations shall normally be scheduled in periods of one (1) full week or more. Shorter periods of vacation will be allowed in accordance with the provisions of Article 13, Sections 13.09 and 13.10. Additionally, the wages the Company shall pay during a period of vacation of less than one full week shall be computed on the basis of a ten (10) hour workday. Thus, employees on a "four/tens" work schedule taking periods of vacation of less than one full week shall receive ten hours of pay provided they have at least ten (10) hours of vacation entitlement remaining.
- (3) For the purposes of determining "straight-time hours worked" as used in Article 13, Section 13.03 for those employees working a "four/tens" schedule, days actually worked including partial days where five (5) or more hours are actually worked, shall count as ten (10) straight-time hours. Additionally, such employees taking a period of vacation of less than one full week as described in items B.(1) and (2) above shall have such days count as ten (10) straight-time hours provided they have at least five (5) hours of compensation for vacation on such day.

- (4) For the purposes of determining "straight-time hours worked" as used in Article 13, Section 13.03 for those employees working a four (4) day, ten (10) hour per day work schedule utilizing Jury Duty benefits as described in Article 22 of the Contract and item H. below, such days shall count as ten (10) straight-time hours provided they receive at least five (5) hours of jury duty pay.

C. Holidays

- (1) For all weeks on which a Company-wide holiday falls, an employee's work schedule will revert back to a five (5) day, eight (8) hour per day work schedule.
- (2) An employee utilizing a floating holiday as provided for in Article 12, or an earned holiday as provided for in Article 16, shall receive eight (8) hours of straight-time holiday pay at the applicable wage rate. Additionally, the employee may elect to utilize two (2) hours of vacation entitlement.

D. Physical Exams

Pursuant to Article 14, Section 14.03, all medical expense made necessary by the Article shall be paid for by the Company. Except for an employee's examination in connection with acceptance for employment or as otherwise set forth in Article 14, employees working a "four/tens" schedule shall receive pay for time spent, not to exceed ten (10) hours including time worked that day, having such physical examination.

E. Sickness Leave of Absence

- (1) For the purposes of Article 16, Section 16.02 as applied to employees working a "four/tens" schedule, payment will be made for regularly scheduled workdays on the basis of not to exceed ten (10) hours for any scheduled workday and not to exceed forty (40) hours in any workweek, computed at straight-time exclusive of shift premium or any other premium pay. Regularly scheduled workday shall mean one of the first four (4) regularly scheduled workdays which constitute the basic forty (40) hours per week.
- (2) For the purposes of Article 16, Section 16.03 as applied to employees working a "four/tens" schedule, payment will be made for time so lost beginning with the expiration of the twenty-four (24) scheduled work hours of any one continuous absence except:

- a. If one (1) scheduled offday falls within such three (3) day waiting period, it shall not count as one (1) day of the waiting period. If two (2) consecutive scheduled offdays fall within such three (3) day waiting period, they shall be counted as ten (10) hours of the waiting period. If three (3) consecutive scheduled offdays fall within such three (3) day waiting period, they shall be counted as ten (10) hours of the waiting period. If four (4) consecutive scheduled offdays fall within such three (3) day waiting period, they shall be counted as twenty (20) hours of the waiting period.
  - b. If an employee is forced by illness to leave the employee's workplace before the employee's regular quitting time on the last scheduled workday before scheduled offdays, any two (2) such offdays, if consecutive, shall be counted as ten (10) hours of the waiting period.
  - c. An employee who reports for work on a regularly scheduled workday, but is forced by illness to leave work before working more than five (5) hours shall have that day count as ten (10) hours of the required waiting period. An employee who is forced by illness to leave work after working more than five (5) hours, but less than ten (10) hours may be paid on the third (3rd) day of the waiting period an equivalent number of hours as those lost because of the sickness on the last day worked if the third (3rd) day of the waiting period is a scheduled workday. Such partial of payment shall not be counted against an employee's total day entitlement.
- (3) For purposes of Article 16, Section 16.04(b) and Article 16, Section 16.09 as applied to employees working a "four/tens" schedule, days actually worked including partial days where five (5) or more hours are actually worked will count as time worked.

F. Supplement to Workers' Compensation

- (1) For the purposes of Article 18, Section 18.01 as applied to employees working a "four/tens" schedule, payment will begin at the expiration of twenty-four (24) work hours of such absence as described in Article 18, Section 18.01 except:
  - a. If one (1) scheduled offday falls within such three (3) day waiting period, it shall not count as one (1) day of the waiting period. If two (2) consecutive scheduled offdays fall within such three (3) day waiting period, they shall be counted as ten (10) hours of the waiting period. If three (3) consecutive scheduled offdays fall within such three (3) day waiting period, they shall be counted as ten (10) hours of the waiting period. If four (4) consecutive scheduled offdays fall

within such three (3) day waiting period, they shall be counted as twenty (20) hours of the waiting period.

- b. If an employee is forced by injury to leave the employee's workplace before the employee's regular quitting time on the last scheduled workday before scheduled offdays, any two (2) such offdays, if consecutive, shall be counted as ten (10) hours of the waiting period.
- c. If an employee is injured after reporting to work or is required to go to the Company's doctor for treatment on a scheduled workday, the employee shall be paid at the employee's regular straight-time rate for the remaining hours of the employee's regularly scheduled workday, not to exceed ten (10) hours in total for such day, except that no payment shall be made for time required to visit the doctor on any day the employee is off duty for any reason while the employee is still receiving benefits under Article 18.

G. Funeral Leave

Employees on a "four/tens" schedule will be entitled to ten (10) hours of straight-time pay for each day of Funeral Leave entitlement.

H. Jury Duty

Employees on a "four/tens" schedule will be entitled to ten (10) hours of straight-time pay for each day of Jury Duty entitlement subject to the provisions of Article 22.

I. Meal Allowances

During such time that an employee is working a "four/tens" schedule, neither a meal nor a meal allowance will be provided to an employee for the first twelve (12) hours of work on any day when the employee receives at least two (2) hours notice of the overtime prior to the time the employee reports to work, or is directed to commence work before his starting time after reporting to his work location.

II. For employees working a 12-hour shift per workday schedule:

A. Shift Premiums

Employees who work the day shift of a 12-hour schedule are not entitled to shift premium. Employees who work the night shift of a 12-hour schedule are eligible for the third shift premium described in Article 8, Section 8.05.

B. Overtime

- (1) Employees working a 12-hour shift schedule shall be afforded overtime for hours worked beyond twelve (12) in one day, or forty (40) in one week notwithstanding the provisions of Article 9, Section 9.01(a)(1).
- (2) For work on the last scheduled off-day of the workweek, the employee will receive two (2) times the employees straight-time hourly wage rate assuming the following conditions have been met:
  - a) Employee has worked each of his regular scheduled work days, unless not worked for reasons set forth in Section 16.05.
  - b) The employee has worked at least one scheduled off day and that day was paid at the overtime rate or the employee was not offered overtime on previous scheduled off days.
- (3) For all other scheduled off days of the workweek, the employee will receive one and one half (1½) times the employee's straight-time hourly wage rate assuming the following condition has been met.
  - a) Employee has worked each of his regular scheduled work days, unless not worked for reasons set forth in Section 16.05.

C. Vacations

- (1) Vacation entitlement as described in Article 13, Section 13.01 shall be converted to straight-time hours for employees working a 12-hour shift schedule. Employees on such a schedule taking one (1) week's vacation shall receive straight-time payment for regular scheduled hours in that workweek, provided they have vacation entitlement remaining.
- (2) Vacations shall normally be scheduled in periods of one (1) full week or more. Shorter periods of vacation will be allowed in accordance with the provisions of Article 13, Sections 13.09 and 13.10. Additionally, the wages the Company shall pay during a period of vacation of less than one full week shall be computed on the basis of a twelve (12) hour workday. Thus, employees on a 12-hour shift schedule taking periods of vacation of less than one full week shall receive twelve (12) hours of pay provided they have at least twelve (12) hours of vacation entitlement remaining.
- (3) Days actually worked or partial days where six (6) or more hours are actually worked, shall count as twelve (12) straight-time hours for the purposes of determining "straight-time hours worked" as used in Article 13, Section 13.03 for those employees working a 12-hour shift schedule.

Additionally, such employees taking a period of vacation of less than one full week as described in items C.(1) and (2) above shall have such days count as twelve (12) straight-time hours provided they have at least six (6) hours of compensation for vacation on such day.

- (4) For the purposes of determining "straight-time hours worked" as used in Article 13, Section 13.03 for those employees working a 12-hour shift schedule utilizing Jury Duty benefits as described in Article 22 of the Contract and item I. below, such days shall count as twelve (12) straight-time hours provided they receive at least six (6) hours of jury duty pay for such day they receive jury duty pay.

D. Holidays

- (1) For all weeks on which a Company-wide holiday falls, an employee who is scheduled to work the holiday, but does not actually work such holiday will receive eight (8) hours of straight-time holiday pay at the applicable wage rate. Additionally, the employee may elect to utilize four (4) hours of vacation entitlement.
- (2) An employee utilizing a floating holiday as provided for in Article 12, or an earned holiday as provided for in Article 16, shall receive eight (8) hours of straight-time holiday pay at the applicable wage rate. Additionally, the employee may elect to utilize four (4) hours of vacation entitlement.

E. Physical Exams

Pursuant to Article 14, Section 14.03, all medical expense made necessary by the Article shall be paid for by the Company. Except for an employee's examination in connection with acceptance for employment or as otherwise set forth in Article 14, employees working a 12-hour shift schedule shall receive pay for time spent, not to exceed twelve (12) hours including time worked that day, having such physical examination.

F. Sickness Leave of Absence

- (1) Sick leave entitlement as described in Article 16, Section 16.02, shall be converted to straight-time hours for employees working a 12-hour shift schedule. Payment will be made for regularly scheduled workdays not to exceed twelve (12) hours for any scheduled workday, computed at straight-time exclusive of shift premium or any other premium pay.
- (2) For the purposes of Article 16, Section 16.03 as applied to employees working a 12-hour shift schedule, payment will be made for time so lost

beginning with the expiration of the twenty-four (24) scheduled work hours of any one continuous absence except:

- a. If one (1) scheduled offday falls within such 24-hour waiting period, it shall not count toward the waiting period. If two (2) consecutive scheduled offdays fall within such 24-hour waiting period, they shall be counted as twelve (12) hours of the waiting period. If three (3) consecutive scheduled offdays fall within such 24-hour waiting period, they shall be counted as twelve (12) hours of the waiting period. If four (4) consecutive scheduled offdays fall within such 24-hour waiting period, they shall be counted as twenty-four (24) hours of the waiting period.
  - b. If an employee is forced by illness to leave the employee's workplace before the employee's regular quitting time on the last scheduled workday before scheduled offdays, any two (2) such offdays, if consecutive, shall be counted as twelve (12) hours of the waiting period.
  - c. An employee who reports for work on a regularly scheduled workday, but is forced by illness to leave work before working more than six (6) hours shall have that day count as twelve (12) hours of the required waiting period. An employee who is forced by illness to leave work after working more than six (6) hours, but less than twelve (12) hours may be paid on a day of the waiting period an equivalent number of hours as those lost because of the sickness on the last day worked if the day of the waiting period is a scheduled workday. Such partial of payment shall not be counted against an employee's total day entitlement.
- (3) For purposes of Article 16, Section 16.04(b) and Article 16, Section 16.09 as applied to employees working a 12-hour shift schedule, days actually worked including partial days where six (6) or more hours are actually worked will count as time worked.

G. Supplement to Workers' Compensation

- (1) Supplement to Workers' Compensation entitlement as described in Article 18, Section 18.01, shall be converted to straight-time hours for employees working a 12-hour shift schedule. Payment will begin at the expiration of twenty-four (24) work hours of such absence as described in Article 18, Section 18.01 except:
  - a. If one (1) scheduled offday falls within such 24-hour waiting period, it shall not count toward the waiting period. If two (2) consecutive

scheduled offdays fall within such 24-hour waiting period, they shall be counted as twelve (12) hours of the waiting period. If three (3) consecutive scheduled offdays fall within such 24-hour waiting period, they shall be counted as twelve (12) hours of the waiting period. If four (4) consecutive scheduled offdays fall within such 24-hour waiting period, they shall be counted as twenty-four (24) hours of the waiting period.

- b. If an employee is forced by injury to leave the employee's workplace before the employee's regular quitting time on the last scheduled workday before scheduled offdays, any two (2) such offdays, if consecutive, shall be counted as twelve (12) hours of the waiting period.
- c. If an employee is injured after reporting to work or is required to go to the Company's doctor for treatment on a scheduled workday, the employee shall be paid at the employee's regular straight-time rate for the remaining hours of the employee's regularly scheduled workday, not to exceed twelve (12) hours in total for such day, except that no payment shall be made for time required to visit the doctor on any day the employee is off duty for any reason while the employee is still receiving benefits under Article 18.

H. Funeral Leave

Employees on a 12-hour shift schedule will be entitled to twelve (12) hours of straight-time pay for each day of Funeral Leave entitlement.

I. Jury Duty

Employees on a 12-hour shift schedule will be entitled to twelve (12) hours of straight-time pay for each day of Jury Duty entitlement subject to the provisions of Article 22.

J. Meal Allowances

During such time that an employee is working a 12-hour shift schedule, neither a meal nor a meal allowance will be provided to an employee for the first fourteen (14) hours of work on any day when the employee receives at least two (2) hours notice of the overtime prior to the time the employee reports to work, or is directed to commence work before his starting time after reporting to his work location.

- III. For employees working on abnormal shifts other than "four/tens" or 12-hour shift schedules the application of contractual benefits will be negotiated upon implementation of that schedule.

November 11, 2011

Mr. Curtis Stratton, President  
International Brotherhood  
of Electrical Workers  
Local 2100  
10400 Dixie Highway  
Louisville, KY 40272

Re: Trimble County Assignments

Dear Mr. Stratton:

This will confirm the continuation of the agreement negotiated in 2001 reached between Louisville Gas and Electric Company and Local 2100, International Brotherhood of Electrical Workers, regarding travel allowance and moving expense payable to employees who are assigned to the Company's Trimble County Plant.

For all purposes below "inside Trimble County" shall mean any point within a 15-mile radius of the Trimble County Courthouse in Bedford, Kentucky and "outside Trimble County" shall mean any point outside of that same radius.

A. Permanent Assignments:

Except for employees hired after January 15, 1980, specifically for the Trimble County Plant site, employees who are permanently assigned to the Trimble County Power Plant will be eligible for reimbursement of moving expenses as described in "C." below and will be eligible for a travel allowance of \$8.00 per day for each day the employee is scheduled to report for work and reports for work at the Trimble County Plant site. The travel allowance described in this paragraph will be paid the latest of: (1) an eligible employee's relocation from outside Trimble County for which moving expense is payable; or (2) six (6) months from the date the employee first reports to the Trimble County Plant site after being permanently assigned to that location.

B. Temporary Assignments:

(1) Assignments to Trimble County Plant Site

Employees temporarily assigned to the Trimble County Plant site who do not live inside Trimble County will be eligible for the Travel Allowance described herein.

(2) Assignments from Trimble County Plant Site

Employees permanently assigned to the Trimble County Plant site who live inside Trimble County will be eligible for the Travel Allowance described herein if they are temporarily assigned to another work site outside Trimble County.

- C. Moving expenses as described herein shall not exceed \$1,500.00 per eligible employee, and shall be available only to employees who are permanently assigned to the Trimble County Plant site and who remain employees of the Company for one year after the moving allowance is paid. The moving expense is payable only to those employees who relocate from a point outside the 15-mile radius of the Trimble County Courthouse in Bedford, Kentucky, to a point inside such 15-mile radius, unless otherwise provided. To be reimbursed for moving expenses, an eligible employee must notify the Company in advance, in writing, of his intent to move his household goods, the approximate date of the move, the location moved from, the location moved to, and the identity of the mover being used. Once the move has been made, the employee must, within thirty (30) days, present to the Company an itemized bill furnished by the mover.
- D. Employees who voluntarily bid under the terms of Article 10, Section 10.05 are ineligible for moving expenses and travel allowance.
- E. This policy applies only to the Trimble County Plant site and shall govern the payment of travel allowance and moving expenses for employees assigned to or from said site on a permanent or temporary basis.

Sincerely,  
Angie Gosman  
Manager, Labor Relations

## LETTER OF UNDERSTANDING

Regarding Power Generation  
(excluding Maintenance Lines of Progression)

This will confirm the understanding reached during the 1983 negotiations, and amended in the 1989, and the 1995 negotiations between Local 2100, IBEW and Louisville Gas and Electric Company concerning the above-referenced departments.

When, in the Company's opinion, it becomes necessary to transfer employees from one payroll division to another because of the retirement of a generating plant or part thereof, or the startup of a new generating plant or part thereof, the following procedure shall be followed:

1. Any employee transferred shall have his classification seniority dovetailed with that of the employees in the classification at the location to which the employee is transferred. However, where minimum time in classification requirements exists as a qualification for promotion, the following time must be served within the line of progression to which the employee is transferred:
  - a. Three (3) months for employees in entry level classifications.
  - b. Six (6) months for employees in higher than entry level classifications.
2. If some, but not all, of the employees at a location within a payroll division are to be transferred to a new payroll division at a different location, the employees subject to transfer shall be allowed to exercise their Company seniority to fill available job openings within their classification in the payroll division to which the Company decides to transfer the employees. Should an insufficient number of employees be willing to choose transfer to the available openings in a different payroll division, the Company shall assign the employees to the available openings in inverse order of their Company seniority.
3. In the case of the initial staffing of a new plant or part thereof, the Company shall list the number of job openings in each classification above entry level to be filled. The employees in the other payroll divisions within the department shall be allowed to state their preference for the available job openings in each classification. With consideration being given to the list of employee preference, the Company shall assign, at its discretion, employees to fifty percent (50%) of the openings within each classification. The remaining openings within each classification shall be filled on a senior may, junior must basis.
4. For the purposes of Paragraph 3, above, the Company shall determine the total number of employees, by classification, at each location from which the employees will be transferred to the new plant. The Company shall then prepare a list of employees, by name, in an equal number as are sought for reassignment. The Union shall then prepare a

list of employees, by name, who desire to be transferred to the new plant not limited as to the number of available openings. Any employee whose name appears on both lists shall be reassigned. All employees so reassigned shall reduce the fifty percent (50%) of available openings which the Company may fill by assignment. If an insufficient number of employees desire by preference to be reassigned to initially staff a new generating station or part thereof, then the Company shall assign the least senior employee from its (the Company's) list sufficient to meet the fifty percent (50%) of available openings which the Company may fill by assignment.

5. The Company shall determine initial staffing requirements and the selection/assignment procedure shall be completed at one time. However, the Company shall determine which employee or groups of employees shall be transferred at any particular time thereafter.

## LETTER OF UNDERSTANDING

### Regarding Power Generation Maintenance Lines of Progression

This will confirm the understanding reached during the 1983, and amended in the 1995 negotiations between Local 2100, IBEW and Louisville Gas and Electric Company concerning the above-referenced department.

When, in the Company's opinion, it becomes necessary to transfer employees from one location to another because of the retirement of a generating plant or part thereof, or the startup of a new generating plant or part thereof, the following procedure shall be followed:

1. If some, but not all, of the employees at a location with a payroll division are to be transferred to a different location, the employees subject to transfer shall be allowed to exercise their Company seniority to fill available job openings within their classification. Should an insufficient number of employees be willing to choose transfer to the available openings at a different location, the Company shall assign the employees to the available openings in inverse order of their Company seniority.
2. In the case of the initial staffing of a new plant or part thereof, the Company shall list the number of job openings in each classification above entry level to be filled. The employees at other locations within the department shall be allowed to state their preference for the available job openings in each classification. The remaining openings within each classification shall be filled on a senior may, junior must basis.
3. For the purposes of Paragraph 2, above, the Company shall determine the total number of employees, by classification, at each location from which the employees will be transferred to the new plant. The Company shall then prepare a list of employees, by name, who desire to be transferred to the new plant not limited as to the number of available openings. Any employee whose name appears on both lists shall be reassigned. All employees so reassigned shall reduce the fifty percent (50%) of available openings which the Company may fill by assignment. If an insufficient number of employees desire by preference to be reassigned to initially staff a new generating station or part thereof, then the Company shall assign the least senior employees from its (the Company's) list sufficient to meet the fifty percent (50%) of available openings which the Company may fill by assignment.
4. The Company shall determine initial staffing requirements and the selection/assignment procedure shall be completed at one time. However, the Company shall determine which employee or groups of employees shall be transferred at any particular time thereafter.

The Company (Louisville Gas & Electric) and the Union (Local 2100 International Brotherhood of Electrical Workers) agree as follows:

To clarify “Payroll Division” and “Department” in Section 10.05 of the current Collective Bargaining Agreement, “Payroll Division” and “Department” will be defined as:

“Department” is Energy Delivery, Energy Services and Telecommunications.

“Payroll Divisions” for Energy Delivery:

- (10) Meter/Meter Assets
- (21) Substation Construction & Maintenance
- (30) Electric
- (40) Gas
- (50) Facility Maintenance

“Payroll Division” for Energy Services:

- Trimble County
- Mill Creek
- Cane Run
- Generation Engineering

## LETTER OF UNDERSTANDING

For the purposes of Article 10, Section 10.21, the following shall be considered as an "open work assignment" in the payroll divisions as indicated:

### **POWER GENERATION**

Employees in the Laboratory line of progression shall be allowed to bid for openings on a shift or a reporting location different from their own based on skill requirements.

Employees in the Records Coordinator lines of progression shall be allowed to bid for openings at a reporting location different from their own.

Employees in the Maintenance lines of progression shall be allowed to bid for openings at a reporting location different from their own based on skill requirements.

### **ENERGY DELIVERY**

Employees in the Line Technician classification shall be allowed to bid for openings on a shift, reporting location or schedule different from their own.

Employees in the Construction & Maintenance Cable Splicing line of progression shall be allowed to bid for a reporting location different from their own.

Employees in the Gas Construction and Maintenance line of progression shall be allowed to bid for a reporting location different from their own.

Employees in the Trouble Technician - Gas classification shall be allowed to bid for openings on a shift different from their own.

Employees in the Distribution Operations Records Coordinator line of progression assigned to a Service Center shall be allowed to bid for a reporting location different from their own.

Employees in the Facility Attendant classification shall be allowed to bid for a reporting location different from their own.

Employees in the Facility Maintenance line of progression shall be allowed to bid for a reporting location different from their own based on skill requirements.

Employees in the Customer Service Representatives - Field Services line of progression shall be allowed to bid an open work assignment in the established work districts.

Employees in the Customer Service Representatives - Meter Reader line of progression shall be allowed to continue the present practice of "book" selection.

Employees in the Transportation Department - Garage line of progression shall be allowed to bid for openings on a shift or reporting location different from their own based on skill requirements.

Employees in the Transportation Office line of progression shall be allowed to bid for a reporting location different from their own.

Employees in the Warehouse line of progression shall be allowed to bid for openings on a shift or reporting location different from their own.

Open work assignments shall be limited to journeyman job classifications and above (or non-line of progression jobs) and further the concept of pre-bidding a preferred location or shift shall be utilized unless otherwise mutually agreed.

An open work assignment is when it can reasonably be anticipated at the time of the assignment that the duration of the assignment will be at least one-hundred twenty (120) days.

Any open work assignment which is not filled as described above may be filled by the least senior qualified employee in the classification.

This constitutes, unless hereafter otherwise agreed, the entire understanding between the parties as to the meaning of "open work assignment" as that term is used in Article 10, Section 10.21 of the Collective Bargaining Agreement.

November 11, 2011

Mr. Curtis Stratton, President  
International Brotherhood of  
Electrical Workers  
Local 2100  
10400 Dixie Highway  
Louisville, KY 40272

Re: Severance Benefits

Dear Mr. Stratton:

This confirms the continuation of the agreement negotiated in 2001 for a successor to the 1998-2001 collective bargaining agreement (“CBA”) regarding severance benefits. During the term of the 2001 CBA, employees who receive notice of a General Redeployment pursuant to Article 10, section 10.24, shall have the right to elect severance benefits throughout the period they remain subject to redeployment. Eligible employees shall be entitled to a severance benefit equal to one week’s pay for each full year of service, with a maximum benefit of twenty-six weeks.

Additionally, the Company will pay the employees’ group medical and dental premiums at the rate in effect at the time of their termination, for up to three (3) months of the period covered by the Consolidated Omnibus Budget Reconciliation Act (“COBRA”). Receipt of these benefits is conditioned upon the individual employee signing and not revoking a full waiver and release of any actual or potential employment related claims against the Company, including waiver of contractual recall rights. While the terms of this release will be left to the sole discretion of the Company, the terms will be substantially similar to those contained in the attached exhibit.

Sincerely,  
Angie Gosman  
Manager, Labor Relations

**LETTER OF UNDERSTANDING**

Regarding Cane Run Station

This will confirm the understanding reached during the 2011 negotiations between Local 2100, IBEW and Louisville Gas and Electric Company concerning the Cane Run Station.

If, in the Company's opinion, it becomes necessary to reduce the workforce at the Cane Run Station because of the retirement of the Cane Run Station's coal fired units or part thereof, or the startup of a new generating plant or part thereof at the Cane Run generating station, the following procedure shall be followed:

1. The Company shall not lay off any Cane Run employees as a direct result of the retirement of the Cane Run generating station's coal fired units.
2. In the case of the initial staffing of a new plant or part thereof at the Cane Run Station, the Company shall assign, at its discretion, employees to fill all openings within each classification at the new plant. The Company shall fill all initial openings for a new plant or part thereof at the Cane Run Station with current Cane Run employees.
3. The Company shall provide a list of open positions to be filled at Mill Creek, Trimble County, and/or Ohio Falls to any employee at the Cane Run Station coal fired units not assigned to a new position at the new plant or part thereof at the Cane Run Station. The employees provided with this list shall be allowed to state their preference for the available openings at Mill Creek, Trimble County, and Ohio Falls. With consideration being given to the list of employee preference, the available openings shall be filled on a senior may, junior must basis utilizing Company seniority. An employee placed into a comparable classification pursuant to this paragraph shall have his classification seniority dovetailed with that of the employees in the classification at the location to which the employee is placed. For example, if a Cane Run operator was placed in an operator position at Mill Creek, his classification seniority shall be dovetailed. An employee placed into a different classification (i.e., a Cane Run operator is placed in a material handling position at Mill Creek) shall receive a new classification seniority date and their pay shall be red-circled and the pension multiplier will not be reduced as provided in the pension plan.
4. Employees at the Cane Run coal fired generating station who are permanently assigned to a position at Trimble County pursuant to paragraph 3 of this Letter of Understanding shall receive a one-time lump sum payment in the amount of \$3,400.00, subject to applicable withholdings, per eligible employee, provided the employee relocates from a point outside the 15-mile radius of the Trimble County Courthouse in Bedford, Kentucky, to a point inside such 15-mile radius and remains an employee of the Company for one year after the lump sum payment is made. Employees receiving the lump sum payment described in this paragraph shall not be eligible for any of the benefits set forth in the letter agreement regarding Trimble County Assignments, including, but not limited to the travel allowance and the reimbursement of moving expenses.

5. Within 36 months from the date of transfer, employees must pass the Minimum Qualifications for entry into their assigned classification. If the employee does not pass the minimum qualifications for entry, they will be subject to demotion within the established line of progression until such time they pass in accordance with the Employee Performance Review System for Bargaining Unit Employees.
6. All filling of vacancies for positions at the new Cane Run plant, Mill Creek, Trimble County, or Ohio Falls facilities pursuant to paragraphs 2 or 3 of this Letter of Understanding shall count as an internal posting for purposes of Section 10.09 of the Agreement.
7. All vacancies for positions at the Cane Run coal-fired generating units which occur prior to the retirement of these units and which the Company, at its discretion, decides to fill shall be first posted internally. The Company, at its discretion, shall determine the classification at the appropriate pay grade and qualifications required for each position posted pursuant to this paragraph. The Company shall be the sole judge of an employee's qualifications for such positions.
8. An employee of the Cane Run coal fired generating station shall have the right to elect severance benefits provided he remains employed at Cane Run until the Company releases him following the retirement of the coal fired generating units and completion of all related work. Employees assigned to fill openings at the new plant at the Cane Run Station or placed in positions at Mill Creek, Trimble County or Ohio Falls pursuant to paragraph 3 above, will have the option of either electing severance benefits or accepting assignment to a new position. Cane Run's coal fired generating station employees shall be entitled to a severance benefit equal to two week's pay for each full year of service, with a maximum benefit of fifty-two weeks. Additionally, the Company will pay the employees' group medical and dental premiums for up to three months of the period covered by COBRA. Receipt of these benefits is conditioned upon the individual employee signing and not revoking a full waiver and release of any actual or potential employment related claims against the Company, including waiver of contractual recall rights.
9. It is understood that this agreement will not be construed as the Company's position of either previous or equivalent experience for any of the classifications or lines of progression involved in the transfers of the Cane Run coal fired generation employees. Furthermore, the individual qualifications of such employees shall not serve as a precedent for any future applications of their classification.
10. With respect to coal fired generation Cane Run employees, the provisions in this Letter of Understanding shall supersede the provisions set forth in Article 10 of the Agreement, the Letter of Understanding Regarding Power Generation (excluding Maintenance Lines of Progression), and the Letter of Understanding Regarding Power Generation Maintenance Lines of Progression.

- 11.** The Company shall determine staffing requirements and in the timing and the procedure for completing the selection and/or assignment subject to the provisions set forth herein.

## **ARTICLE 1 RECOGNITION**

The Company recognizes the Union as the exclusive collective bargaining agent for all employees of the Company engaged in operation, production, construction and maintenance, including meter readers, servicemen, collectors and inspectors, temporary and summer employees, and custodial employee classifications, but excluding all other employees in the Commercial Department, Accounting Department, Market Services Department, right-of-way agents, cadet engineers, co-op students and internships, office clerical employees, and all professional employees, guards and supervisors as defined in the National Labor Relations Act, as amended.

## **ARTICLE 2 MANAGEMENT**

By reason of the nature of the business of the Company it is essential, and is therefore agreed, that the management of the Company and the supervision and control of all operations and the direction of the working forces, including the right to relieve employees from duty because of lack of work, or for just cause, the right to hire, suspend, discharge for cause, promote, demote or transfer employees, and the right to operate the Company should be, and is, vested in, and reserved to, the Company, except as herein limited.

The Company shall have the right to formulate and enforce rules and regulations dealing with employee conduct and work and safety which are not in conflict with this Agreement. The Company will notify the Union office in writing at least fourteen (14) calendar days prior to implementation of any new or revised rules or regulations and shall meet to discuss such changes during the fourteen (14) calendar day period if requested.

## **ARTICLE 3 UNION SECURITY**

SECTION 3.01: The Union is required under the terms of this Agreement to represent all of the bargaining unit employees of the Company fairly and equally without regard as to whether or not such employee is a member or agency fee payer of the Union. Accordingly, it is deemed fair that each such bargaining unit employee pay his own way and assume his fair share of the obligation along with the grant of equal benefits contained in this Agreement. Neither the Company nor the Union shall exert any pressure on, or discriminate against, any such bargaining unit employee as regards such matters.

SECTION 3.02: The Union agrees that it shall from time to time promptly accept for membership in the Union any person, not at such time a member or agency fee payer of the Union, (a) whom the

Company desires to employ to perform for the Company work covered by this Agreement and who signifies his willingness to become a member or agency fee payer of the Union, or (b) who is an employee of the Company performing for it work covered by this Agreement and who signifies his willingness to become a member or agency fee payer of the Union.

SECTION 3.03: The term "willingness to become a member of the Union" as used in this Agreement shall mean and refer to a person who applies to the Union for membership therein, tenders the initiation fees uniformly required by the Union as a condition to membership therein and agrees to pay the periodic dues uniformly required by the Union as a condition to membership therein.

SECTION 3.04: Each regular bargaining unit employee who was employed on or before September 29, 1980, shall, as a condition of continued employment, pay to the Union directly or by way of proper authorization for payroll deduction in the manner provided in Section 3.08 of this article, until the expiration of this Agreement, an amount of money uniformly required from the members or agency fee payer of the Union, which shall be limited to an amount of money equal to the Union's regular and established initiation fee, if applicable, and the Union's regular and established monthly dues or agency fees.

All employees covered by this Agreement who are in the employ of the Company on the effective date of this Agreement and who at that time are members or agency fee payers of the Union or who thereafter become members or agency fee payers of the Union shall, during the remainder of the term of this Agreement, as a condition of continued employment maintain their membership or agency fee payer status in the Union.

All employees covered by this Agreement who have been employed since September 29, 1980, or who are employed during the term of this Agreement, shall become and remain members or agency fee payers of the Union on the effective date of this Agreement, or in the case of newly hired employees, on the thirty-first day of employment.

SECTION 3.05: Any regular bargaining unit employee, who fails to comply with the foregoing provisions, shall, within ten (10) work days after the Company is in receipt of due notice by registered or certified mail from the Union, be notified by the Company in writing that he is being placed upon thirty (30) calendar days notice, and at the end of such period, having failed to comply with this provision, shall be discharged.

SECTION 3.06: The Union shall indemnify and save the Company harmless against any and all claims, demands, suits or other forms of liability that may arise out of or by reason of any action taken or not taken by the Company for purposes of complying with the provisions of this article.

SECTION 3.07: The Company agrees to notify each new bargaining unit employee of the existence of this Agreement. In addition, the Company shall, within a reasonable period of time after the effective date of employment of each new bargaining unit employee, advise the Union in writing as to the name of such new bargaining unit employee, his address, work location and wage rate.

SECTION 3.08: The Company shall make collection of union dues or agency fees of any bargaining unit employee, who is or is not a member or agency fee payer of the Union, through payroll deductions, upon proper authorization in writing signed by such bargaining unit employee and delivered to the Company, within the ten (10) work days after its execution; shall pay monthly to the Financial Secretary of the Local Union the total amount thus deducted from all bargaining unit employees for whom such authorizations are in effect; and shall monthly, promptly after the first payday, furnish such Financial Secretary an itemized list showing, for the period subsequent to the last previous list, the names, addresses, work locations, and wage rates of the bargaining unit employees in respect of whom the payroll deductions were made and the respective amounts of such deductions. Deductions shall be made only from the wages paid to bargaining unit employees on two (2) of the paydays in the month for which the dues are owing.

SECTION 3.09: The Financial Secretary of the Local Union shall certify to the Treasurer (or other properly designated representative) of the Company, in writing and in such form and detail as the Company shall direct, the amount of the regular monthly union dues or agency fees which shall be deducted for such month under the authorizations provided for in Section 3.08 of this article. In each case where there is any change to be made in the amount so certified, the Financial Secretary shall, on or before the twentieth day of the month immediately preceding the month in which such change is to be effective, certify such fact and the changed amount to be deducted.

SECTION 3.10: Cancellation by a bargaining unit employee of his written authorization for payroll deduction shall be in writing signed by the bargaining unit employee and, upon receipt thereof, the Company shall honor any such cancellation. Cancellations shall be forwarded promptly to the Financial Secretary (or other properly designated representative) of the Union. A bargaining unit employee's authorization shall be deemed automatically canceled if such employee leaves the employ of the Company (including bargaining unit employees who are granted leaves of absence) or is transferred or promoted out of the bargaining unit.

SECTION 3.11: No dues or agency fees shall be deducted when sufficient pay is not available after allowing for all other authorized deductions. In such a case, the Union dues or agency fees shall be deducted on a subsequent payday (if any) in the same month if sufficient pay is available.

Any employee who is a member of and adheres to established and traditional tenets or teachings of a bona fide religion, body or sect which has historically held conscientious objections to joining or financially supporting labor organizations shall not be required to join or financially support the Union as a condition of employment hereunder; provided, however, that such employee shall be required to pay, in lieu of periodic dues or agency fees and initiation fees, sums equal to such dues or agency fees and initiation fees to a nonreligious, non-labor organization charitable fund exempt from taxation under Section 501(c)(3) of Title 26 of the Internal Revenue Code, chosen by such employee from the following three funds:

1. Old Kentucky Home Council, Boy Scouts of America

2. Kentuckiana Council, Girl Scouts of America
3. Metro United Way

If such employee who holds conscientious objections pursuant to this provision requests the Union to use the grievance-arbitration procedures on his behalf, the Union has the right, in accordance with Section 19 of the National Labor Relations Act, as amended, to charge the employee for the reasonable cost, which shall be determined by the Union, of using such procedure.

SECTION 3.12: Each new employee during his orientation shall be provided by his Department with the following:

- (a) A copy of this Agreement;
- (b) A copy of the Company's work rules, including Absenteeism and Tardiness rules and regulations;
- (c) A copy of the Safety Manual;
- (d) The telephone number(s) to call to report absence or tardiness;
- (e) The names of employee's immediate supervisor and the supervisor's immediate superior; and,
- (f) A list of Stewards and Chief Stewards furnished the Department by the Union.

The Company will provide the appropriate Chief Steward, or his designated representative, with written notification of any newly-hired employee assigned to the Chief Steward's area within two (2) weeks of such assignment. The Union will be notified in advance of any formal employee orientation meetings.

Nothing in this Section shall enlarge upon the rights of new employees as set forth elsewhere in this Agreement.

#### **ARTICLE 4 UNION BUSINESS**

1. SECTION 4.01: Any regular employee covered by this Agreement who is or may be elected or appointed to an office in the Union requiring his absence from duty with the Company, upon written request by the Union, shall be granted a leave of absence without pay for the duration of his term or terms of office. He shall be reinstated to employment upon completion of his term of

office with restoration of full seniority, including the time served in union office, if he applies for reinstatement within thirty (30) calendar days after expiration of his term. Provided he is capable of performing the work and has retained qualifications, he shall be reinstated to his former position or its equivalent on the shift and at the location he was assigned prior to his term in the Union office, if available. He will be allowed time off from work without pay for any vacation entitlement he may have earned from the Union while on such leave of absence and such time will be treated as though it were vacation for absenteeism purposes. Time off will be granted only to the extent scheduling will permit which does not interfere with the established vacation schedule in accordance with Article 13. The Company shall not be required to grant more than four (4) leaves of absence under this Article at the same time. However, the Company may, upon proper request from the Union, authorize more than four (4) such leaves of absence. Two (2) of the above authorized four (4) leave of absence employees may instead be employees chosen by the Union who will remain active, but will be on full-time special assignments. Such employees will primarily focus on the two functions described below or must actually perform services directly related to the administration and enforcement of the CBA to include, without limitation, acting as the Union's chief representative for the Joint Health and Safety Committee as detailed in Article 34. Compensation shall be limited to loss of straight-time wages at the employee's rate immediately prior to the start of his special assignment, adjusted for regular increases.

- One position to focus on working with contractors and Building & Trade unions to improve the potential for union contractors to be competitive in the bidding process.
- One position to focus on safety training for both employees and contractors.

SECTION 4.02: Any regular employee covered by this Agreement who is elected or appointed to an office in the Union requiring his temporary absence from duties with the Company may, upon proper written request to his supervisor, specifying the dates of, and reasons for such absence, be excused from work without pay, provided that the Company can arrange for a substitute to perform the employee's work, and provided further that any such leave or sum of such leaves shall not exceed thirty (30) working days in a calendar year. However, the Company will give additional consideration in this area on a case-by-case basis.

SECTION 4.03: When an employee needs to attend a Union committee meeting during his regular scheduled workday, he shall be excused from work without pay for that purpose, upon proper written request to his supervisor, provided that the Company can arrange for a substitute to perform the employee's work.

SECTION 4.04: An employee who is elected by the Union to serve as a delegate to Union conventions or other similar Union meetings shall, upon proper written request to his supervisor, be excused from work without pay for sufficient time to attend such conventions or meetings.

SECTION 4.05: The Company shall compensate an employee only for the regular straight-time hours actually lost by such employee because of the employee's documented participation in the contractual grievance procedure, K.O.S.H.A. inspections, and arranged meetings, as outlined below:

- (a) For time spent by Shop Stewards, Chief Stewards and other employees authorized by this Agreement to participate in the processing of a grievance under the terms of the grievance procedure set forth in Article 5.
- (b) For time spent by a Union member who is requested by the Company or K.O.S.H.A. to attend opening or closing conferences or the walkaround of a K.O.S.H.A. inspection of a Company facility.
- (c) For time spent in arranged Company authorized meetings with Company representatives.

SECTION 4.06: Union business except as specifically provided herein, shall not be conducted during employee's working time unless specifically authorized by the Company.

SECTION 4.07: Union members who are excused from work for the conduct of Union business, and who are not eligible for compensation by the Company for time so spent, shall, upon request by the Union, be compensated by the Company for straight-time hours spent. The Union will reimburse the Company for these hours upon proper notice. The Company's obligation under this section shall be suspended if, after thirty (30) calendar days from demand for proper reimbursement, such reimbursement is not received by the Company. Any contested amount of reimbursement is all that may be withheld by the Union to avoid the suspension of such obligation.

SECTION 4.08: An employee who is elected or appointed to a full-time position with the Union shall be permitted to participate only in the following Company fringe benefit plans:

- (a) Group Medical Insurance Program
- (b) Group Dental
- (c) Retirement Income Plan
- (d) The programs described in Section 29.09

Except for the benefits described in subsection (d) above, the total cost of participation in the above-listed fringe benefit plans for an employee elected or appointed to a full-time position with the Union, and who elects to participate in such benefit plans, shall be paid for by the Union. Such cost shall be payable when due, upon proper notification to the Union, for all time the employee holds such elected or appointed position.

SECTION 4.09: For the purpose of Sections 4.02, 4.03 and 4.04 of this article, seven (7) calendar days shall be considered "proper written request" provided the Union is aware of the need for the individual's absence at that time. In any case, the Union will notify the Company as far in advance as possible if the seven (7) calendar day notification cannot be met. In such case, the Company will make every effort to accommodate the Union's request consistent with operational needs. However,

the Company shall not be obligated to release any employee if written notice is received less than forty-six (46) hours prior to the beginning of the employee's scheduled work day from which he seeks to be released in whole, or in part. Leaves of absence shall not be unreasonably withheld by the Company.

SECTION 4.10: With the exception of the provisions of Section 4.05 above, there shall be no other compensation for Union business.

SECTION 4.11: Bulletin boards shall be furnished by the Company for the Union's use for the purpose of posting notices to Union members. The Union agrees that it shall confine such posted notices to information concerning Company-Union relations and matters of concern to Union members. The Union further agrees it shall not post any notices that are derogatory or inflammatory in nature. Postings on bulletin boards shall be done by the Chief Union Stewards or their designated representatives.

## **ARTICLE 5 GRIEVANCE PROCEDURE**

SECTION 5.01: A grievance is defined as a dispute an employee or the Union may have with the Company arising from or based on the interpretation, application or violation of the express terms of this Agreement and other related contractual agreements or established precedents.

SECTION 5.02: It is the intention of the parties that all complaints and grievances should be presented promptly and discussed within a reasonable time. It is the further intention of the parties that grievances should be settled, whenever possible, at the departmental levels where the greatest familiarity with the subject matter exists. Therefore, prior to filing a grievance at the First Step of the grievance procedure, an employee who has a complaint or problem which may thereafter be a grievance, may informally discuss such complaint or problem with his immediate supervisor. If the complaint or problem is not resolved at this informal discussion, then it may thereafter be referred to the First Step of the grievance procedure.

It is agreed that all grievances, except those involving discipline or discharge, shall be settled and determined through the following grievance procedure. Discipline and discharge grievances will be processed in accordance with Article 7.

First Step - the Union or any employee who believes that he has a justifiable grievance shall, within fourteen (14) calendar days after the cause of the grievance is known to the employee, or when it could have reasonably been known to the employee, verbally present and discuss the grievance with his immediate supervisor. The Shop Steward shall be present at this meeting and shall identify the verbal presentation as a formal grievance. If the grievance is not resolved at this meeting, the shop steward will specify the issue of the grievance and the date of this meeting on the First Step grievance form provided by the Union. The supervisor

will sign acknowledging receipt of the grievance. The supervisor shall, within fourteen (14) calendar days of the initial meeting, notify the employee and the shop steward of the disposition of the matter.

A meeting will be held, within the above fourteen (14) calendar day period, in an attempt to settle the grievance using mutual gains bargaining (MGB) principles. The meeting may be attended by the aggrieved employee, his Shop Steward and Chief Steward or other designated Steward trained in MGB principles. Also in attendance may be the grievant's immediate supervisor and another management representative trained in MGB principals who shall then attempt to settle the grievance. Any new information the Union may discover after this meeting will be promptly brought to management's attention. The Union will not be unreasonably denied the opportunity to explain the new information, if necessary. Any settlement must be documented on the First step grievance form, signed by both parties and submitted to the Union Office and the Labor Relations Department. Within seven (7) calendar days of such settlement, the Union Office or the Labor Relations Department will have the opportunity to reject the settlement. If neither the Union Office nor the Labor Relations Department rejects the settlement, it may then be implemented. It is understood and agreed that settlements at this level of the grievance procedure shall not constitute a precedent for the interpretation and administration of this Agreement or any other like or similar grievance or grievances.

Second Step - If the grievance is not resolved, and is to be processed further, then within seven (7) calendar days after the supervisor's answer at the First Step of the grievance procedure or in the case of a rejected settlement, within seven (7) calendar days of notice of such rejection, the grievance shall be reduced to writing and submitted, by the President of the Union (or his designated representative) to the person designated by the Company for a Second Step grievance meeting. This meeting will be held within fourteen (14) calendar days of receipt, if practicable.

At the Second Step grievance meeting, a member of the Labor Relations staff (together with such associates as he may wish to assist him in the matter) shall meet with the Union Grievance Committee (which shall be composed of the Union President, the Chief Steward, the Shop Steward, and the grievant or their designated representatives, together with such non-employee associates as they may wish to assist them in the matter) to discuss and attempt to resolve the grievance.

Within fourteen (14) calendar days after the Second Step grievance meeting is conducted, a person designated by the Company shall answer the grievance in writing and give such answer to the Union President. If the grievance is not resolved at the Second Step of the grievance procedure, then, as prescribed in Article 6 of this Agreement, the President of the Union (or his designated representative) may submit a written demand for arbitration to the American Arbitration Association with a copy to the designated Company representative.

At any time after the expiration of ninety (90) calendar days following the date of the Company's Second Step answer for discharge cases or six (6) months following the date of the Company's Second Step answer for all other cases, the Company may inform the Union Office in writing that such grievance must be submitted to Arbitration within fourteen (14) calendar days after the receipt of such letter, or it shall be defaulted in accordance with the terms of Section 5.03.

SECTION 5.03: Any dispute, complaint or grievance arising from an alleged violation of this Agreement by the Company shall be deemed, considered and held to have been waived unless the same is presented for settlement and determination within the time limits as spelled out in the various steps of the grievance procedure. In the event a grievance is not processed within the specified time limits, unless the Company and the Union mutually agree otherwise, the grievance shall be deemed to have been defaulted and it will thereafter be settled in favor of the non-defaulting party. It is further understood that if a grievance is defaulted or waived it shall not constitute a precedent for the interpretation and administration of this Agreement or any other like or similar grievance or grievances.

SECTION 5.04: It is agreed that the Company will compensate, per Article 4, Section 4.05 of this Agreement, the grievant and the Stewards, who are authorized in this article, for documented time spent in investigating, processing grievances and participating in grievance step meetings with Company representatives. "Substitutes," "assistants," or "replacements" will only be recognized as being entitled to compensation under this Section if, where practicable, written advance notification is received from the Union office naming the changes in designated representatives that the Union desires to make. The Union agrees to keep the Company notified in a timely manner as to who has been designated a Shop Steward or Chief Steward, and which group or groups of employees that each one represents and shall provide the Company with an up-to-date list at the beginning of each calendar month. The Union further agrees to assign each Shop Steward to his current work site or work group.

The First Step of the grievance procedure shall be conducted during the scheduled working hours of the grievant as far as practicable. Second Step grievance meetings shall be conducted as far as practicable between hours of 8 a.m. to 5 p.m. Time of such meetings shall be by mutual agreement of the parties.

SECTION 5.05: In order to investigate grievances arising hereunder and/or to meet with representatives of the Company to attempt to adjust grievances for those employees in his designated work group or work area, the Union representative authorized to participate at the appropriate grievance step and to represent the grievant may be permitted to consult with any other employee within his designated work group or work area during the working time of either of them, provided he first obtains the permission of his own supervisor and then obtains the permission of the immediate supervisor of the employee being consulted and that such consultation shall not disrupt the Company's operations. The permission of the immediate supervisor in either case shall not unreasonably be withheld. Consultations of this nature shall be as brief as practicable with every reasonable effort made to limit their use to the involvement of only those employees as may be needed to establish the facts in each case.

In addition to the above limitations, grievance investigation as described herein shall be authorized only on Company property. However, after a grievance has been answered following the first step hearing, a Chief Steward may, if necessary, be authorized to attend the Union Office for purposes of grievance investigation provided, however, the appropriate labor relations/management representative receives a written request specifying the grievance being investigated, as well as the date, time and approximate duration of the investigation for which permission is requested. Such request must be received reasonably in advance of the date sought by the Chief Steward and shall be signed by the Union President or a Business Representative. Permission to attend the Union Office, provided these conditions are met, shall not be unreasonably withheld.

Additionally, should an employee be suspended pending discharge pursuant to Section 7.04 of this Agreement, the appropriate Chief Steward will, if necessary, be authorized to attend the Union Office, during his working time, prior to the suspension hearing after first obtaining the permission of his immediate supervisor. Permission will not be unreasonably withheld.

SECTION 5.06: Whenever a grievance involves two or more employees, not more than two of the employees affected may be substituted for an employee or grievant wherever the words "employee" or "grievant" are used in the grievance procedure.

SECTION 5.07: Grievances which relate to matters which extend beyond a single section or department may originate in Step Two of this grievance procedure, provided that the initial time limits for filing a grievance in Step One of this grievance procedure are met. The time limits to answer at Step Two will apply.

SECTION 5.08: This grievance procedure may be varied at any time by mutual agreement, in writing, of the parties when such action appears to be necessary or desirable.

## **ARTICLE 6 ARBITRATION**

SECTION 6.01: Any grievance not resolved in the Second Step of the grievance procedure may be submitted to impartial arbitration.

SECTION 6.02: The Union shall notify the Company of its intent to arbitrate a grievance by the procedure established in Article 5, Section 5.02. Such notice shall include the name of the Union's representative.

SECTION 6.03: Within five (5) working days after receiving written notice from the Union that it has requested arbitration of an unresolved grievance, the Company shall notify the Union of its representatives. A meeting will be held between the parties to select one arbitrator from the panel submitted by the American Arbitration Association. This meeting shall be held in a timely manner so as to satisfy the selection requirements of the American Arbitration Association. At such a

meeting, the parties shall attempt to resolve the grievance. If the grievance is not resolved at such a meeting, the two parties shall select an impartial arbitrator as hereinafter provided.

SECTION 6.04: Any grievance processed under the terms of this article shall be arbitrated in accordance with the voluntary Labor Arbitration rules of the American Arbitration Association which are then in effect and the Arbitrator for each such case shall be selected in accordance with said rules except that either party may reject one list per case; provided, however, that each list of arbitrators submitted by the American Arbitration Association shall contain the names of at least seven (7) arbitrators who are members of the National Academy of Arbitrators, selected without regard to the geographic location of their residence in relation to Louisville, Kentucky. No more than one grievance shall be simultaneously submitted to any one arbitrator unless the Company and the Union agree otherwise in writing. The Arbitrator so selected shall have power to receive testimony from parties to the dispute and to hear such witnesses as they may desire to present. The parties may, if they so desire, be represented by counsel in all proceedings had before the Arbitrator. The Company shall bear the cost of preparing and presenting its case to the Arbitrator and the Union shall bear the cost of preparing and presenting its case to the Arbitrator. All other expenses of arbitration, such as but not limited to the Arbitrator's fee, the cost of recording and transcribing testimony if the parties mutually agree to split this cost or if the Arbitrator requests that the hearing be transcribed, and the hiring of a space in which the arbitration proceedings are held, shall be divided equally between the Company and the Union.

SECTION 6.05: The function of the Arbitrator shall be of a judicial rather than a legislative nature. The Arbitrator shall not have the authority to add to, ignore or modify any of the terms or provisions of this Agreement. The Arbitrator shall have power and authority to arbitrate only those matters expressly made subject to arbitration by the terms of this Agreement and shall rule only on the issues submitted to him. The Arbitrator shall have power only to interpret this Agreement and shall not have the power to alter or amend it. The Arbitrator shall not decide issues which are not directly involved in the case submitted to him, and no decision of the Arbitrator shall require the payment of a wage rate or wage basis different from, or the payment of any wages in addition to, those expressly set forth in this Agreement. In any discharge or disciplinary layoff case where the Arbitrator decides that the aggrieved employee should be awarded any back pay, the Company shall be required to make the employee whole to the extent of the Arbitrator's award but shall be entitled to full credit on such award for the employee's gross interim earnings received or receivable by the employee during the period he was not working for the Company. Subject to the foregoing qualifications and limitations, the Arbitrator's award shall be final and binding upon the Company, the Union and the aggrieved employee or employees.

SECTION 6.06: Only the Union shall have the right to process and appeal grievances under this Agreement and only the Union shall have the right to take to arbitration any grievance processed under this Agreement. If the Union fails, refuses or declines to prosecute a grievance on behalf of an employee, or if the Company and the Union settle any grievance on behalf of an employee hereunder, the employee who has filed such grievance or on whose behalf it has been filed shall be conclusively bound thereby and both the Union and the aggrieved employee shall thereafter be estopped to revive or further prosecute said grievance.

SECTION 6.07: Upon mutual agreement of both parties, grievances involving discipline or discharge may be submitted to Expedited Arbitration. Any grievances submitted to Expedited Arbitration under the terms of this article shall be conducted in accordance with the Expedited Labor Arbitration Rules of the American Arbitration Association.

SECTION 6.08: In discharge cases, provided either party desires to file a post-hearing brief, such briefs shall be filed not more than three (3) weeks from the close of the hearing or two (2) weeks from receipt of the transcript of proceedings, whichever occurs first.

## **ARTICLE 7 DISCIPLINE AND DISCHARGE**

SECTION 7.01: The Company shall have the right to discharge an employee during his probationary period with or without cause, and without recourse by the Union or by such probationary employee to the grievance procedure of this Agreement.

SECTION 7.02: The maintenance of discipline is the responsibility of the Company and to that end, the Company shall have the right to discipline or discharge employees, who have completed their probationary period, for just cause. The Company will send the Union Office a copy of any written disciplinary action given to employees covered by this Agreement and also shall provide a copy to the Union Steward. Such notice will be given as soon as possible after the action takes place.

SECTION 7.03: Any employee called in for disciplinary action or for an investigation which could result in disciplinary action, for that employee, shall be informed of his right to Union representation and shall be allowed to obtain such representation if he so desires before such action or investigation takes place. A copy of any disciplinary action taken shall be given to the employee. The Union or the employee may, within fourteen (14) calendar days after the administration of disciplinary action, appeal such action directly to the Second Step of the grievance procedure in Article 5.

SECTION 7.04: In cases in which the Company determines that an employee's conduct may justify discharge, such employee shall first be suspended for a period not to exceed the equivalent of forty (40) hours of scheduled work time. During this period of initial suspension, the employee and/or the Union may request a hearing before the appropriate manager or his designated representative. At such hearing, all facts giving rise to the employee's disciplinary action will be presented to the Union and discussed between the parties. The president of the Union (or his designated representative) will be notified and given an opportunity to be present or have his designated representative present. After such hearing, or if no such hearing is requested, the Company shall determine the appropriate penalty, if any, to be given to the employee. Written notice of such determination shall be given to the employee, with a copy to the Union Office and the Union Steward.

SECTION 7.05: In the event the Company's disposition is unsatisfactory to the Union, the Union may, within five (5) working days after such disposition, appeal the final disciplinary action directly to the Second Step of the grievance procedure in Article 5 without prejudice to Section 7.04 of this article or Sections 5.01 and 5.02 of Article 5. However, only one grievance shall be processed.

SECTION 7.06: Unless additional time is necessary to investigate misconduct, and provided the Union approves of such additional time, the Company shall otherwise impose discipline within five (5) of the employee's workdays from the time the Company knows or could have reasonably known of the conduct for which the discipline is imposed.

SECTION 7.07: Employee disciplinary records shall not be utilized in arbitration involving discipline administered to that employee if such records are more than five (5) years old, provided that employee has not received discipline within the five (5) year period.

## **ARTICLE 8 HOURS OF WORK**

SECTION 8.01: The normal workday is eight (8) consecutive hours of work between the hours of 6:00 a.m. and 6:00 p.m., exclusive of time out for lunch. The normal workweek is five (5) such regularly scheduled consecutive days (forty [40] hours), Monday through Friday, except where otherwise provided. In the case of shift workers, the normal workweek is either five (5) consecutive scheduled workdays and two scheduled off days or two (2) consecutive scheduled off days and five (5) workdays.

The payroll week shall consist of seven (7) consecutive days beginning 12:01 a.m. Monday and ending the following Sunday midnight. The Company shall not reduce the hours of work below that which constitutes the normal workweek in lieu of layoff as set forth in Article 10, except upon mutual agreement of the parties.

SECTION 8.02: All employees covered by this Agreement shall be classified as "day workers" or "shift workers."

- (a) Day workers are defined as those employees working the normal workday schedule as described in this article and shall not be entitled to any shift premium as described in Section 8.05.
- (b) Shift workers shall be described as those employees regularly scheduled on other than the normal day workers schedule and shall be entitled to the applicable shift premium attached to the shift so worked as described in Section 8.05. Shift workers working the day schedule shall not be entitled to any shift premium.

SECTION 8.03: The regular starting and quitting time for each employee, or group or shift, and the days to be worked in any workweek shall be established from time to time by the Company. The Company will notify an employee of any change in his regular scheduled workweek at least forty-eight (48) hours prior to the change. All schedules shall be posted or given to involved employees, whichever is more appropriate.

SECTION 8.04: Employees who are not given notice as described above shall be entitled to the applicable premium as outlined in Article 9 - Overtime of this Agreement.

SECTION 8.05: For the purposes of identification, work shifts shall be described as the First Shift, Second Shift and Third Shift. For example:

The First Shift will ordinarily begin at 7:00 a.m. and end at 3:00 p.m.;

The Second Shift will ordinarily begin at 3:00 p.m. and end at 11:00 p.m.;

The Third Shift will ordinarily begin at 11:00 p.m. and end at 7:00 a.m.

When the majority of an employee's hours is worked within the above described Second or Third Shift, shift premium for those hours will be paid as follows:

Second Shift	\$ .90
Third Shift	\$1.05

SECTION 8.06: Shift Premium for hours worked:

- (a) Shift Premium for overtime hours worked by shift workers on a scheduled work day:
  - (1) A shift worker scheduled for the second shift who works either call-in or planned overtime before or after his shift, will receive second shift premiums for all hours worked.
  - (2) A shift worker scheduled for the third shift who works either call-in or planned overtime before or after his shift will receive third shift premium for all hours worked.
  - (3) A shift worker scheduled for the first shift who works either call-in or planned overtime before or after his shift, will receive no shift premium for any hours worked.
- (b) Shift Premium for overtime hours worked by shift workers on scheduled offdays:

- (1) If a shift worker works either planned or call-in overtime on a scheduled off day, the applicable shift premium for the hours worked will be paid in accordance with Section 8.05, above.
  - (2) The procedure set forth in (a) (1) through (3) above will also be applicable to shift workers who work more than eight (8) hours on a scheduled offday.
- (c) Shift Premium for hours worked by day workers on a scheduled work day:
- Shift Premium will be paid to day workers when they are rescheduled to work hours, on a scheduled work day, for which shift premium is applicable.
- (d) Shift Premium for overtime hours worked by day workers on a scheduled offday:
- (1) Day workers who work planned overtime on their scheduled offday are entitled to the appropriate shift premium.
  - (2) Day workers who work call-in overtime on a scheduled offday are not entitled to shift premium for any hours worked.
  - (3) A day worker who is "called in" for work on his first scheduled offday and is subsequently scheduled to return his second scheduled offday, the first offday is considered "call-in" and shift premium is not applicable. The second offday will be considered "planned" if the employee is notified prior to the end of the shift on his first offday and the employee will be paid the appropriate shift premium as set forth in (d)(1) above.

In (c) and (d) above, if the hours worked are divided evenly between the shifts, shift premium will be paid on the basis of the shift on which work was started.

SECTION 8.07: Payment for hours worked which are eligible for daily, weekly or holiday overtime shall be calculated on the basis of the employee's basic wage rate plus the shift and/or Sunday premium applicable to the shift for which he is scheduled for the day.

SECTION 8.08: If the Company elects to permanently add a new shift, permanently eliminate an existing shift, or permanently change the hours of an existing shift it will notify the Union as early as possible of the change, and meet and discuss the changes prior to implementation, if requested. However, the establishment of a workweek which is not normal as defined in Section 8.01 will be by mutual agreement of the parties. Permanent, as used in this section, is defined as a change which, at the time of change, the Company anticipates will exceed one hundred twenty (120) calendar days. At any time during the process described below, either Party may notify the other of their desire to negotiate the change.

Once notified that an existing shift is no longer acceptable to the Company, the Union may request that a joint task force be formed to recommend alternative shifts either prior to, or in lieu of, negotiating the change. Recommendations that are acceptable to both the Union and Company may be submitted to the affected employees for a vote. If more than 50% of the votes cast support an approved alternate shift, that shift will become effective for a minimum of 12 months. If no alternative receives more than 50% support, a run off vote of the two highest alternatives will be held. Following a run off vote, if the majority of the votes do not support an alternate shift, the Parties may negotiate the change in the original shift.

If the employees or Union desire to permanently change an existing shift, the Chief Steward will notify the appropriate Manager and present the issue and suggested solution(s). Upon approval by the Manager, a joint task force may be formed to develop recommendations. Alternatives that are acceptable to both the Union and Company, including the shift in existence at the time, may be submitted to the affected employees for a vote. The shift that receives two-thirds or more support of those votes cast may become effective for a minimum of 12 months. If no choice receives at least two-thirds support, the existing shift shall remain unchanged for at least 12 months, or until the Company elects to permanently change the shift in accordance with this Section.

The above process may also be utilized for any change to a shift selection process which exists under the terms of Section 10.21. Should either a four (4) day, ten (10) hours per day work schedule or 12 hour shift be established, the terms of Appendix B shall apply.

SECTION 8.09: Except when otherwise provided for in this Agreement, an employee shall be required to work, if physically capable thereof, at any time so requested and necessary in the performance of the Company's reasonable needs or its obligations to its customers as a public service corporation unless specifically excused for reasonable cause.

## **ARTICLE 9 OVERTIME**

SECTION 9.01: Overtime shall be defined as time worked in accordance with the provisions of this article and compensation for overtime hours shall be as follows:

- (a) One and one-half (1-1/2) times the employee's straight-time hourly wage rate shall be paid:
  - 1. For all work performed in excess of eight (8) straight-time hours in any one day or forty (40) straight-time hours in any one workweek;
  - 2. For work on the first scheduled offday of the workweek, provided the employee worked each of his five (5) regularly scheduled work days during the workweek, unless not worked for reasons set forth in Section 16.05. Additionally, for work performed on the second scheduled offday, if the employee has been offered

overtime or has been contacted for overtime which he does not work on his first scheduled offday or if the first scheduled offday was not worked at the overtime rate.

3. For the first eight (8) hours worked in any one day for another utility company performing emergency electric service restoration.
  4. For any change in an employee's schedule without proper notice as set forth in Section 8.03 of Article 8 and Section 9.03 of Article 9.
  5. For the first eight (8) hours of work performed on observed holidays, in addition to the basic holiday pay allowance;
  6. For all continuous hours worked by an employee who is called in or who voluntarily reports for an emergency and who is permitted to work more than four (4) hours before his regular starting time. An emergency, as used in this article, is defined as an occurrence or situation which can neither be anticipated, not postponed and which might or could cause loss of or interruption of service or might or could cause personal injury or property damage.
  7. For the first scheduled workday following the first off day of an employee's workweek in which the employee is not allowed either two (2) consecutive off days or five (5) consecutive workdays as described in Article 8, Section 8.01.
- (b) Two (2) times the employee's straight-time hourly wage rate shall be paid:
1. For all hours of work performed in excess of eight (8) hours on an observed holiday;
  2. For all hours worked over eight (8) hours in any one day for another utility company performing emergency electric service restoration, however, if that company's overtime pay practice would provide more wages, then the employee will receive the greater of the two.
  3. For all hours worked in excess of sixteen (16) consecutive hours;
  4. Except as provided in 9.01(a)2, for all work performed on the second scheduled offday of the workweek.

SECTION 9.02: Employees required to work back-to-back shifts, which fall into two regularly scheduled workdays, shall be paid overtime for the hours worked on the second shift, provided the first shift was worked at straight time. However, if an employee voluntarily trades a shift with another employee by mutual agreement and with appropriate approval, he shall not receive overtime for such hours worked, except where he works more than forty (40) hours in any one week. An employee who is required to work a back to back shift may, prior to the start of the second shift,

make his desire known to be released after working four (4) hours of the second shift. A reasonable effort to allow the employee to be released will be made, except in emergency situations.

SECTION 9.03: In the event the regular work schedule of an employee is changed without proper notice, as set forth in Article 8, Section 8.03, the overtime obligation as set forth in Section 9.01(a) (4) will apply only for those days for which the schedule has been altered.

An employee may be scheduled or directed to work overtime before and/or after his regularly scheduled workday, and that shall not constitute a change of schedule.

This Section 9.03 shall have no application if an employee, upon his own request, is permitted to change his daily or weekly work schedule, or if an employee's work schedule is changed as the result of his being transferred because of a job bid or to fill a job promotion or vacancy in accordance with this Agreement.

SECTION 9.04: When an employee is called in to work, or voluntarily reports for and is allowed to work an emergency as defined in Section 9.01(a)6., outside of his regularly established work schedule, he shall be paid a minimum of four (4) hours at the applicable rate from the time the employee reports to work. If an employee is called outside his regularly established work schedule, for information pertaining to Company work which can be handled by phone, the employee will be paid for time actually spent in such conversations at the appropriate overtime rate.

SECTION 9.05: For the purposes of this article, overtime shall be defined as "planned" overtime or "call-in" overtime.

- (a) "Planned" overtime shall be defined as overtime anticipated or scheduled in advance of the overtime and about which the employee was notified, prior to leaving the Company's premises. Additionally, when an employee is directed to report for work outside his regular schedule, directed to continue working at the conclusion of his regular workday (except for emergency work), or is directed to commence work before his starting time after reporting to his work location such overtime will be treated as planned overtime.
- (b) "Call-in" overtime shall be defined as all overtime worked which requires the Company to call in an employee outside his regular schedule after such employee has been released from work or when held over for emergency work. The employee will be considered to have been contacted for call-in overtime if he has a telephone and a reasonable effort is made to reach the employee at his telephone number appearing on the Company's records. It is the obligation of the employee to advise the Company of his current telephone number.

SECTION 9.06: Employees who are called-in to work more than four (4) hours before their regular starting time and who are thereafter excused and released from duty for a period of time not to exceed four (4) hours, shall have all hours actually worked treated as continuous hours for the purpose of overtime (exclusive of all hours the employee is released from work). If such employee remains on the Company premises at the direction of the Company or if such release from duty is

within two (2) hours of his normal starting time, such time will be paid at the appropriate overtime rate and treated as continuous. Additionally, employees called back within four (4) hours of being released shall have their additional hours actually worked added to the hours worked before being released, for the purposes of calculating overtime pay and total hours worked.

SECTION 9.07: When, in the opinion of the Company, an employee has worked for such an extended period of time as to impair his effectiveness or present a hazard to the health or safety of his fellow employees, he may be required by the Company to take off up to eight (8) hours for rest. In no event will an employee be required to work more than sixteen (16) consecutive hours without an eight (8) hour rest period. Such rest period shall be taken in its entirety unless he is requested and agrees to return to work before the expiration of such eight (8) hour rest period. If such rest period runs into the employee's regular workday, he shall be compensated at his regular straight-time rate for all such hours to a maximum of eight (8) straight-time hours unless the rest period was initiated by the employee in accordance with this section or the rest period was initiated after an employee has worked more than sixteen (16) consecutive hours on successive days in response to an emergency as defined in Section 9.01 (a) 6. In the event any such eight (8) hour rest period terminates within two (2) hours or less of the end of the employee's regularly scheduled shift, the employee shall have the election of either returning to work at his regular straight-time hourly rate or not returning to work and forfeiting the remaining hours in his shift.

SECTION 9.08: If an employee is released from duty after sixteen (16) consecutive hours of work and is requested to return to work and agrees to return to work during his regular scheduled workday without the eight (8) hour rest period, such time worked in the regular scheduled workday shall be paid at the overtime rate in effect at the time of release from duty.

SECTION 9.09: It is understood and agreed that overtime will not be paid on overtime or otherwise duplicated or pyramided unless specifically provided herein. Additionally, an employee shall not be paid both daily and weekly overtime for the same hours worked.

Section 9.10: The Company agrees to distribute overtime opportunities as equitably as practicable among the employees where overtime is required. Accordingly, the Company will make a reasonable effort to equalize overtime opportunities among employees in each work group who are qualified and available to perform the overtime work. Any irregularities in the distribution of overtime that are brought to the attention of supervision by the affected employees will be reviewed on an annual basis. The Company will meet with the Union to determine an appropriate resolution.

Section 9.11: Individual work groups, to include their management, may determine the appropriate system for distributing overtime opportunities in accordance with the following guiding principles:

- The system must be responsive to customer's needs, be cost effective and provide for safe accomplishment of the overtime work.

- The system must be flexible enough to accomplish the first principle under varying situations (i.e., call-in, planned, emergency)
- The system must be simple to administer and rely only on information systems that exist for other business reasons (i.e., Payroll).

For the purpose of determining individualized systems, work groups may vary depending upon organizational design, but will generally consist of employees who are qualified and available to perform the overtime work at a location .

Each work group will notify the Union office and labor relations when an individualized system is chosen and provide a description of the system it is using. The equalization provisions set forth in section 9.10 above shall be applicable until such time as the work group provides this notice.

All issues and disputes arising under this Method are to be resolved within the affected work group. Should a work group be unable to effectively operate its system, or be unable to resolve disputes, the sole and exclusive remedy will be a return to the provisions set forth in section 9.10 above.

## **ARTICLE 10 SENIORITY**

SECTION 10.01: An employee's seniority shall be computed from the date of his most recent employment by the Company (unless otherwise provided herein) except that a new employee shall be on probation for six full months from the date of his last employment, and during said period may be discharged with or without cause. However, time away from work by a probationary employee will not be credited toward his probationary period. After serving the probationary period, a new employee shall be placed on the seniority list and given seniority as of the first day he was last hired by the Company. There shall be no seniority among probationary employees and there shall be no responsibility for re-employment of probationary employees if they are laid off or discharged during their probationary period. Probationary employees shall be entitled to the benefits and privileges provided for temporary employees, as outlined in Section 11.04 of Article 11.

SECTION 10.02: Seniority, for the purposes of this Agreement, is the length of continuous service dating back to the first day of the last date the employee was hired by the Company. Where used in this Agreement, the term "seniority" will be construed to mean classification seniority; departmental seniority; or Company seniority.

- a. Classification seniority shall mean an employee's length of continuous service in a given job classification to which the employee has been permanently assigned. For purposes of layoff within a line of progression, classification seniority shall accumulate on all lower job classifications in a line of progression in addition to any service in such lower jobs.

- b. Departmental seniority shall mean an employee's length of continuous service in the payroll division to which the employee has been permanently assigned.
- c. Company seniority shall mean an employee's length of continuous service with the Company.

SECTION 10.03: An employee shall lose seniority and his status as an employee shall cease for any of the following reasons:

- a. If an employee retires, quits or is discharged for cause.
- b. If an employee has not actively worked for the Company thirty-six (36) consecutive months, or for a period of time equal to his Company seniority, whichever is the lesser (unless otherwise provided elsewhere in this Agreement).
- c. If an employee, after having been laid off, fails to report for work within seven (7) calendar days when called by the Company by certified mail or telegram, sent to the employee's last address appearing on the Company's records; provided, however, that where an employee has been laid off for three (3) months or more, he will have seven (7) calendar days from the day called back to work by the Company, as set forth above, to notify the Company of his desire to return to work and he must report for work within five (5) working days thereafter.

SECTION 10.04: Qualifications, experience, physical conditions and ability to perform the available work shall be controlling factors in promotion of employees. Accordingly, in promotions or in selecting a successful job bidder, the Company will promote or select the most senior, qualified employee who possesses these minimum qualifications. In the case of employees being promoted in accordance with the "opportunity to advance" provisions of Appendix A, the effective date of such promotion shall be the beginning of the payroll period nearest the actual date the employee has satisfied the minimum qualifications listed above.

Notwithstanding the preceding paragraph, vacancies in job classifications above journeyman in lines of progression which the Company decides to fill will be filled by employees who, in the Company's judgment, are qualified to perform the duties of the job; however, no employee who might otherwise have been qualified will be denied such promotion if that employee has not had sufficient opportunity to receive training for and exposure to the duties of the job. If two or more employees possess substantially equal qualifications, the most senior employee shall be promoted.

Except in the case of employees being promoted in accordance with the "opportunity to advance" provision of Appendix A, if a junior employee is selected for promotion over a senior employee, a written notice of such action, and the reason therefore, will be given to the senior employee and his Chief Union Steward prior to the effective date of the promotion. The failure to promote the senior employee will not affect his consideration for future promotion. An employee may decline consideration for promotion to classifications above journeyman by submitting a written waiver of

consideration to his supervisor , with a copy to the Union. However, the preceding sentence shall not apply to those employees who, as of January 1, 1990, have ten (10) or more years of Company seniority, who may waive promotion to any classification. Such waiver shall remain in effect until the employee submits a written revocation thereof to his supervisor .

An employee promoted into a job classification must satisfactorily progress from possessing the minimum qualifications for that classification to a fully qualified level expected of that classification in a period of time equal to the duration of wage step progressions applicable to the classification. Satisfactory progress shall be defined by application of the Employee Performance Review (EPR) system in effect. At the time of the EPR, an employee shall be counseled with respect to those areas of his evaluation that were deemed to be unsatisfactory. Such employee will be re-evaluated within ninety (90) calendar days. After the ninety (90) calendar day re-evaluation, should such employee's performance still be deemed to be unsatisfactory, that employee may be demoted and will be eligible for promotion only upon showing that the employee possesses the necessary qualifications . A demoted employee may request to be evaluated for the purpose of promotion eligibility after ninety (90) calendar days from the date of his demotion..

SECTION 10.05: Entry level jobs within a line of progression and vacancies in other jobs not in a line of progression, which the Company decides to fill internally, will be posted in accordance with this Section.

Any non-entry level job vacancy within a line of progression, which the Company decides to fill, will be filled by a qualified lower or equal rated employee within such line of progression in accordance with the employee's classification seniority. Where more than one classification of employees in the line of progression are eligible to fill the opening, relative seniority between employees within such classifications will be determined by company seniority. If there are no employees within a line of progression who are qualified for promotion, the Company may, but shall not be required to, post the job vacancy in accordance with this Section.

In selecting a successful job bidder, job bids from within the Payroll Division where the opening occurs will be given first consideration on the basis of Company Seniority. If no qualified bidder is found there, job bids from other Payroll Divisions of the Department where the opening occurs will receive next consideration. If no qualified bidder is found there, job bidders from the remaining Departments will be considered.

In cases where no qualified employee within the bargaining unit has bid upon a job vacancy, such job vacancy may be filled by the Company with persons from any other source, either within the Company or from outside subject to the limitations contained in Section 10.17 of this Article.

The Company will take final action with respect to all job postings within fourteen (14) calendar days after the posting is taken down, unless additional time is needed for testing, scheduling physicals, etc. Until the Company has selected an employee to fill such job vacancy, the vacant job may be filled temporarily in any manner the Company sees fit.

An employee who submits a bid shall not be declared the 'successful job bidder' until he has been interviewed by a departmental representative in the department wherein the posted job exists. During this interview the employee's questions concerning the job will be answered following which the employee may remove his name from further consideration for the job. If the employee does not remove his name from further consideration and he is otherwise qualified for the posted job, he will be the 'successful job bidder' upon successful completion of the physical examination. Should the job require a Commercial Driver's License (C.D.L.), the employee will have thirty (30) calendar days, or as soon as the Department of Transportation (D.O.T.) schedules will allow from the date of this interview in which to obtain the required license before being disqualified.

An employee who removes his name from consideration for a posted job following the interview shall not bid again for six (6) months.

Unless no qualified replacement is available as detailed in Section 10.06, and provided a replacement is required before an otherwise successful job bidder can be released, the Company shall take steps to accommodate such release as soon as is practicable under the circumstances.

Should a successful job bidder be disqualified at any time during or prior to his contractual trial period, the job opening will be offered to the next most senior qualified bidder who has not been awarded a job through a subsequent job bid. Should this occur, the job will then be offered to other qualified bidders on the initial bid list in order of Company seniority until the job is filled or the list of bidders has been depleted. Should such offer be made sixty (60) calendar days or more after the bidder was notified that the job was awarded to a senior employee then, the employee will have the option of accepting the job bid or removing his name from the list of bidders for that job. The Company may, but shall not be required to repost the same job vacancy. A job bidder who is disqualified shall be permitted to bid again on any future posting.

All notices of job vacancies will be posted Company-wide for ten (10) calendar days. A copy of such notice will be provided to all Chief Stewards at the time it is posted. Original job bids must be submitted to the designated Company representative at the bidder's location prior to the end of the Company representative's normal workday on the day the job posting is removed. A bidder may withdraw his bid no later than two (2) calendar days after the removal of the job posting by submitting a written request to the designated Company representative for his location.

The job bidder is responsible for providing the staffing department with verification of any educational attainments which are a requirement for the posted job. Such verification must be received no later than fourteen (14) calendar days after the removal of the job posting.

The Company may withdraw a notice of job vacancy at any time after being posted, but the Union shall be notified, in writing, of any such withdrawal and given the reason therefore.

The staffing department will provide the Union Office a copy of all job bids and any withdrawal of job bids submitted. They will also notify the Union Office of the successful bidder for all jobs filled under this section.

If an employee is a successful job bidder, as authorized by any provision of this Article during the term of this Agreement, he shall not bid again unless disqualified during or prior to his contractual trial period.

Notwithstanding the provisions of Section 10.05 and 10.06, employees hired after November 10, 2005 shall have no right to bid on available openings forty-eight (48) months from date of hire.

SECTION 10.06: Once following May 16, 2001, provided the employee has not already successfully bid as limited by Section 10.05 of this Article, an employee shall be permitted to make a demotional job bid only to an established job in a different line of progression. If an employee makes a demotional job bid from a line of progression, such bid may be to an open job in a different line of progression. A demotional job bid shall be awarded to an employee only if there is a qualified employee available and willing to take his place.

An employee who makes a demotional job bid into another line of progression where there is no incumbent employee qualified for promotion, shall be allowed to fill the highest job classification within that line of progression for which he is qualified and for which there is an opening.

SECTION 10.07: Any employee who is an active participant in a designated formal comprehensive training program above and beyond existing "on the job" training practices and procedures shall be precluded from bidding. Upon request, the Company will provide the Union with a list of all employees who are active participants in such training programs. An employee who is promoted within the training program shall not bid for three (3) years following successful completion of training program.

SECTION 10.08: For purposes of establishing the appropriate rate of pay, the reclassification of an employee for any reason, except as provided in Section 10.24, shall be defined as either Promotional, Lateral or Demotional. Such determination will be based upon the assigned pay grade for the classification the employee occupies relative to the assigned pay grade for the classification to which he is being reclassified. The appropriate rate of pay will be determined as follows:

- a. Promotional: the employee receives a minimum increase of twenty (20) cents per hour, or the entry rate of the new pay grade.
- b. Lateral: the employee retains his rate of pay in effect at the time he is changed to his new classification unless:
  - (1) that rate of pay is less than the beginning rate for his new classification in which case he would receive the beginning rate of his new classification; or
  - (2) that rate of pay is more than the highest rate for his new classification in which case he would receive the highest rate for his new classification.

- c. Demotional: the employee receives the pay rate consistent with the rate of pay provisions in Section 10.24 for redeployed employees.

In all cases, classification seniority is established as of the date the employee was reclassified and any wage step progressions are based upon his classification seniority in his new classification.

SECTION 10.09: The Company may fill up to 50% of the job vacancies that occur within each department in a rolling twelve month period from external sources, without regard to the posting provisions of Section 10.05 or redeployment provisions of Section 10.24. For the purposes of this section, redeployment within a department will not constitute a job vacancy. The Company will provide written notification to the Union for the initial filling of a vacancy, whether internal or external for purpose of administering this section.

SECTION 10.10: An employee who is reclassified shall have an on the job trial period not to exceed thirty (30) calendar days. Such thirty (30) calendar day period may be extended by written notice to the employee, for up to an additional thirty (30) calendar days. Such trial period(s) may also be extended in an amount of time equal to all time the employee is off duty during such period(s). An employee who fails to qualify during his trial period(s) will be returned to his previous job and rate of pay with no loss of seniority, if such job is available. If the job from which the employee was reclassified is not available, the employee may be reclassified to another job for which he is qualified under the terms of Section 10.24.

SECTION 10.11: Seniority, qualifications, physical condition and ability to perform the available work shall be controlling factors in layoff and recall of employees. Accordingly, the Company will retain the most senior employees who possess these minimum qualifications and lay off employees with less Company seniority. It is agreed, however, that in case of layoff, no employee, regardless of his qualifications, physical condition, ability or seniority, shall have the right to displace an employee unless he is qualified, without further training and instruction, to satisfactorily perform the work of the employee being displaced.

SECTION 10.12: In layoff and in the elimination of or reduction within a job classification within a Department, the Company generally subscribes to the principle of "last in, first out." To that end, layoffs will be handled in accordance with the following procedure:

In the event it becomes necessary to reduce the number of employees within a line of progression, the Company shall notify employees whose jobs are eliminated of such elimination. The least senior employees within the line of progression shall have their jobs eliminated first. (For non-line of progression jobs, the least senior employees within the classification shall be affected first.) An employee whose job is eliminated shall have the right to a job within a line of progression (or non-line of progression job) provided there is a less senior incumbent in the line of progression (or non-line of progression job) whose job the employee is qualified to satisfactorily perform without further training and instruction.

Provided the foregoing conditions are met, the least senior incumbent within the line of progression (or non-line of progression job) shall be displaced and the employee causing the displacement shall be entitled to fill the highest job classification within the line of progression for which he is qualified without regard to the classification held by the displaced employee. Any employee displaced by a more senior qualified employee shall have the same rights under this Section as an employee whose job is eliminated.

Additionally, during the term of the current Collective Bargaining Agreement only, after all displacements are accomplished through the above process, any employee hired prior to November 11, 2008 who does not have a job may displace the most junior employee in the Company provided:

- a) the junior employee was hired after November 10, 2008 and;
- b) the senior employee possesses the minimum qualifications for the entry level classification in the junior employee's line of progression, and
- c) the total number of employees displaced in any line of progression through the combination of normal bumping rights and the additional bumping right of this paragraph will not exceed 10% of the number of employees in the line of progression or 10, whichever is less, by virtue of this additional bumping opportunity.

SECTION 10.13: The Company shall be the judge of qualifications and ability of employees in case of layoffs, recall from layoffs, promotions, and job bids. However, where the strict application of seniority is not applied, such decision may be subject to the grievance and arbitration procedure of this Agreement.

SECTION 10.14: In case of layoff all probationary and temporary employees shall be laid off before any employees who have established seniority are affected, unless there is no employee with seniority who is qualified to do the work.

SECTION 10.15: Employees to be laid off will be given as much notice as is reasonably possible prior to the layoff. However, in no event will any employee be given less than two (2) weeks notice in writing prior to a layoff. A copy of such layoff notice will be given to the Chief Union Steward for the department where the layoff will be effective.

SECTION 10.16: The Company will not hire new employees (which shall include probationary and temporary) in any job classification while it has employees on layoff qualified to do the available work until those employees on layoff have been restored to do the available work or removed from the seniority roster as provided for elsewhere in this article.

SECTION 10.17: If an employee is subject to being laid off he may accept any job for which he is eligible and qualified or he may voluntarily choose to accept layoff.

SECTION 10.18: When it becomes necessary to increase the workforce after a layoff, the Company shall first post the job openings in accordance with Section 10.05 of this Article. If there are no qualified bidders, the Company shall recall laid off employees in accordance with their Company seniority.

SECTION 10.19: When an employee in the bargaining unit covered by this Agreement is promoted or transferred to a job outside the bargaining unit he shall retain his earned Company and classification seniority, but shall not have such seniority accumulate during such period of employment outside of the bargaining unit for purposes of this Agreement except for fringe-benefit purposes. Such employee may be returned to his former job classification within the bargaining unit at the Company's discretion not later than one hundred twenty (120) calendar days following his promotion provided, however, that no other employee will be demoted or moved out of the line of progression to permit his return to said job classification.

SECTION 10.20: An employee who is unable to work because of an occupational or non-occupational injury or illness shall have his medical, dental and life insurance coverage continued in accordance with the terms of this Agreement until the end of the twelfth full calendar month following the date the employee's absence began.

SECTION 10.21: When there is a work assignment opening within a job classification, such work assignment may be chosen by the senior qualified employee within the department, by classification seniority, where the opening occurs. The opening shall be filled in accordance with rules and regulations agreed to by the parties. If no qualified employee selects the open work assignment, the Company may assign the least senior qualified employee to the vacancy.

SECTION 10.22: Not less than fourteen (14) calendar days preceding a layoff, the parties shall meet to discuss any subcontracting practices which the Union considers to be in violation of this Agreement should such subcontracting continue. The Union shall be furnished with a complete list of all contractors performing services for the Company and the information called for otherwise in Article 24, Section 24.02 of this Agreement.

In the event a dispute arises as a result of the discussion, the parties shall immediately request a panel of not less than fifteen (15) Arbitrators from the American Arbitration Association who are available to hear and decide the case promptly. The parties shall alternately strike names until three remain. The three remaining names shall be submitted to the American Arbitration Association which shall appoint the Arbitrator most readily available to hear and decide the case.

The preparation of a transcript of proceedings and the submission of briefs shall be in accordance with Article 6, Section 6.08 of this Agreement.

SECTION 10.23: When a question of seniority arises where two or more employees have identical seniority dates, the following procedure shall be used to determine seniority:

- a. departmental seniority breaks ties in classification seniority;

- b. Company seniority breaks ties in departmental seniority;
- c. ties in Company seniority are broken by a procedure established between the chief steward(s) and the management representative(s) where the tie exists.. The affected employees will be given the opportunity to be present where reasonably practicable.

SECTION 10.24: When it becomes necessary to reduce the number of employees in a line of progression or a non-line of progression job, because of operational need and/or technological advancement, and such reductions may be accomplished through a redeployment process in lieu of the layoff process described in Section 10.11 through 10.18, the following process will be used:

The Company will notify the Union of the designated lines of progression or non-line of progression jobs where the number of incumbents exceed the desired level and will specify the desired level of staffing. All employees in the designated line of progression or non-line of progression job are considered subject to redeployment until the number of incumbents is reduced to the desired level. As long as there are employees subject to redeployment, openings are not subject to the posting requirement of Article 10, Section 10.05.

Specific Redeployment:

The Company will notify the Union of the need to accomplish a specific redeployment of employees, identifying the specific lines of progression or non-line of progression jobs to be reduced and the available openings designated to accomplish the redeployment, and will meet and discuss the situation, if requested. In a specific redeployment situation, openings will be offered first to employees in the specified lines of progression or non-line of progression jobs who have previous experience or similar line of progression experience which qualify them for a classification higher than entry level in the new line of progression. Thereafter, openings will be offered to qualified employees on the basis of classification seniority. If qualified senior employees do not elect to fill such openings, then the junior qualified employees may be transferred on the basis of classification seniority.

General Redeployment:

Openings which are not designated to accomplish a specific redeployment, in accordance with the preceding paragraph, will be made available through a bidding process to all qualified employees subject to redeployment. In selecting the successful job bidders, the opening will be offered first to employees, on the basis of Company seniority, who have previous experience or similar line of progression experience which qualify them for a classification higher than entry level in the new line of progression. Thereafter, job bids from within the payroll division where the opening occurs will be given first consideration on the basis of company seniority. If insufficient qualified bidders are found there, job bids from other payroll divisions of the department where the opening occurs will receive next consideration. If insufficient qualified bidders are found there, job bidders from the remaining departments will be considered. If insufficient qualified bidders are found there,

the junior qualified employees subject to redeployment may be transferred on the basis of Company seniority.

The bidding process provided for in this section shall be separate from that described in Section 10.05 and shall not constitute a job bid as defined in Section 10.05.

Classification and rates of pay of employees who are reclassified pursuant to this section shall be as follows:

Classification:

Employees will be reclassified to the highest classification in the new line of progression for which they are qualified and an opening exists.

Rate of Pay:

The rate of pay for any employee reclassified under this section will be determined based upon the following table. "From" means the classification held by the employee immediately preceding the transfer. "To" means the classification to which the employee is being reclassified.

<b>FROM</b>	<b>TO</b>	<b>RATE OF PAY<sup>2</sup></b>
Journeyman or Above	A Line of Progression Job	The higher of the rate of pay for the intermediate <sup>1</sup> classification in his former line of progression or his new line of progression.
Journeyman or Above	A Non-Line of Progression Job	Red Circled at the rate of pay for the intermediate <sup>1</sup> classification in his former line of progression.
Below Journeyman	Any Job	Red Circled at the "50% rate" as defined in Appendix "A."
<p>NOTE 1: For employees who are journeyman or above in a two classification line of progression (i.e., Customer Service Representative-Meter Reading) the intermediate classification in their old line of progression will be the journeyman classification.</p> <p>NOTE 2: An employee transferred to a line of progression classification will receive the above wage protection for a period of time equal to the duration of the wage step progression applicable to the classification plus six (6) months after which, if not fully qualified, he will be paid at the appropriate rate of pay for his classification and the provisions</p>		

outlined in Section 10.04 will apply.

If the application of the above table would result in an increase for any employee, that employee will retain his present rate of pay unless qualified for the higher classification.

Employees who have been redeployed under this section shall have a one-time opportunity to return to their former classification, should openings occur, for a 3-year period.

Employees who are redeployed to a non-line of progression classification shall remain subject to redeployment until they have been offered an opportunity to transfer to a classification in a line of progression.

Notwithstanding the above, consistent with the provisions of the Company/Union partnership statement on Continuous Improvement, any employee who is redeployed as a result of the Continuous Improvement process will have their rate of pay red-circled subject to the provisions of Note 2 above.

## **ARTICLE 11 TEMPORARY EMPLOYEES**

SECTION 11.01: The Company may, at its option, hire temporary employees from time to time throughout the term of this Agreement. Temporary employees are included in the bargaining unit covered by this Agreement, however, they are not entitled to any of the benefits provided for in this Agreement, except as specified herein. The Company shall have the right to discharge temporary employees with or without cause and without recourse by the Union or by such temporary employee to the grievance procedure of this Agreement. There shall be no seniority among temporary employees and there shall be no responsibility for re-employment of temporary employees if they are laid off or discharged during their temporary employment.

SECTION 11.02: Temporary employees may, at the Company's election, be transferred from temporary status to the Company's regular full-time employment. In the event of such a transfer, the period of time worked as a temporary employee from the date of his last employment shall be credited toward his seniority with the Company and shall be credited toward the computation of his probationary period. Additionally, future eligibility for seniority-related benefits for such employee will be calculated from the date of employment as a temporary employee.

SECTION 11.03: A temporary employee is an employee hired for a limited term of employment not to exceed twelve (12) months or for a particular job or project which, the Company anticipates at the time of employment, will not extend beyond twelve (12) months. A temporary employee shall be entitled to the temporary help rate. If the employee is hired for specific technical skills, he shall be

entitled to the rate for the specific job which he is performing during the period of his employment as set forth in this Agreement.

SECTION 11.04: Temporary employees are entitled to the following contractual benefits as outlined in this Agreement:

- (a) Overtime pay
- (b) Premium pay

SECTION 11.05: The Company agrees to send to the Union a list of all temporary employees showing their respective job classifications (where applicable for temporary employees) and dates of hire. The Company agrees to update the aforementioned temporary employee list when necessary and will mail a copy of said list to the Union.

## **ARTICLE 12 HOLIDAY PAY**

SECTION 12.01: The following days are recognized as Holidays:

New Year's Day	Thanksgiving Day
Good Friday	Friday after Thanksgiving Day
Memorial Day	Christmas Eve
Independence Day	Christmas Day
Labor Day	2 Floating Holidays

SECTION 12.02: At the time of vacation selection, the preference of the Floating Holiday will be determined by seniority. After vacation selection has been completed, selection of the Floating Holiday shall be made on a first come, first served basis. If operational requirements cause the cancellation of this scheduled Floating Holiday, it may be rescheduled or the employee may be paid as outlined in Article 9.

SECTION 12.03: To be eligible for holiday pay, when referred to herein, an employee shall have completed his probationary period and shall have worked the last scheduled workday before and the first scheduled workday after the day recognized as a holiday. The following shall be considered as excused on the last scheduled workday before and the first scheduled workday after the day recognized as a holiday for the purposes of the administration of this article:

- (a) Permission granted to be absent without pay provided such permission is requested prior to the time employee is to be absent.

- (b) Vacation
- (c) Funeral Leave
- (d) Jury Duty
- (e) Sickness or injury providing the employee works at least one day in the workweek in which the day recognized as a holiday falls, or said holiday immediately precedes, immediately follows or is the first day or last day of such period of disability, and providing, further, the employee reports such cause for absence in a timely manner on the day of the absence or prior thereto, and furnishes a doctor's certificate, if requested by the Company.

SECTION 12.04: An employee who is eligible for holiday pay as set forth above and is not required to work on a day recognized as a holiday, shall be paid for eight (8) hours computed at straight-time hourly rates exclusive of shift premium or any other premium pay. Hours paid for under this provision, up to eight (8) hours, which fall on an employee's regularly scheduled workday shall be included in computing forty (40) hours of work during such week for the purposes of figuring overtime.

SECTION 12.05: Except for shift workers as set forth below, when any of the holidays fall on a Sunday the following Monday shall be observed as the holiday; should any of the holidays fall on a Saturday, the preceding Friday shall be the observed holiday. However, when Christmas Eve Day (December 24) occurs on Friday, it will be observed on the preceding Thursday and Christmas Day will then be observed on Friday. Additionally, when Christmas Eve Day (December 24) occurs on Sunday, it will be observed on the preceding Friday and Christmas Day will then be observed on Monday.

For a shift worker whose work schedule regularly includes work on Saturdays and/or Sundays and who is scheduled to work on a Saturday and/or Sunday which is a holiday, such holiday shall be observed on the legally recognized holiday instead of the Company observed holiday. A shift worker, scheduled to work on a holiday which falls within his normal workweek and works the holiday, may be permitted, with approval from his supervisor, to reschedule the holiday to some later date. Shift workers may exercise this option for up to three (3) holidays per year, excluding those recognized in November and December. Requests to reschedule holidays will be granted only to the extent operational demands and schedules will permit. Furthermore, employees choosing to exercise this option must declare their intent and reschedule such holiday before the end of the pay period in which the holiday is worked. Employees who reschedule a holiday shall receive the appropriate rate of pay for time worked on such holiday in accordance with Article 9, Section 9.01(a)(5) and 9.01(b)(1), however, the basic holiday allowance as described in Section 12.04 will be postponed until the employees receive time off for the rescheduled holiday or the end of the calendar year, whichever comes first.

The Company will permit at least fifteen per cent (15%) of the employees in its various departments time off on scheduled holidays which are observed Company-wide. Emergencies shall be in addition to the above limitations.

SECTION 12.06: An employee may schedule their Floating Holiday on the day recognized as Martin Luther King's birthday in accordance with Section 12.02. The Company will not unreasonably deny such requests consistent with operational demands. For shift workers, the Company will apply similar staffing levels for company-wide observed holidays, pursuant to Section 12.05.

### **ARTICLE 13 VACATIONS**

SECTION 13.01: The Company will grant full vacation benefits to regular employees who were actively employed in the previous year according to the following schedule provided the employee worked at least 1040 straight-time hours during the previous calendar year. An employee who quits, voluntarily separates, retires, dies or who is discharged for cause on or before December 31, shall not be entitled to vacation in the following year.

- (a) One (1) week of vacation after six (6) months of continuous service.
- (b) Two (2) weeks of vacation after three (3) full years of continuous service.
- (c) Three (3) weeks of vacation after five (5) full years of continuous service.
- (d) Four (4) weeks of vacation after fifteen (15) full years of continuous service.
- (e) Five (5) weeks of vacation after twenty-five (25) full years of continuous service.

SECTION 13.02: Vacation entitlement shall be determined by the anniversary date of an employee's most recent employment by the Company. Any additional vacation for which the employee becomes eligible in any calendar year may not be taken prior to such anniversary date. For anniversary dates occurring on or after December 1<sup>st</sup> in which there is inadequate time to permit scheduling of such vacation, with management approval, that vacation entitlement may be carried over into the following year and must be used within the first quarter.

SECTION 13.03: Employees who fail to satisfy the 1040 straight-time hours worked requirement for full vacation entitlement shall have their vacation entitlement reduced as follows:

At least 880, but less than 1040 straight-time hours worked - loss of one week of vacation entitlement.

At least 720, but less than 880 straight-time hours worked - loss of up to two weeks of vacation entitlement.

At least 560, but less than 720 straight-time hours worked - loss of up to three weeks of vacation entitlement.

Less than 560 straight-time hours worked - loss of all vacation entitlement.

For purposes of determining "straight-time hours worked," as used in this Section, the following shall be included in an employee's total:

- (a) Days actually worked, including partial days where four (4) or more hours are actually worked, shall count as eight (8) straight-time hours.
- (b) Paid holidays falling in a employee's regularly scheduled workweek.
- (c) Vacations, except in lieu of Sick Leave or Workers' Compensation.
- (d) Jury Duty and Funeral Leave.
- (e) Time lost for personal business authorized for the purpose of attending military summer camp (to a maximum of two weeks, per year) and regular monthly drills (to a maximum of two days per month).

Nothing herein shall preempt the rights, as provided by Federal law, of an employee timely reinstated in accordance with such law following absence for military service in the armed forces.

SECTION 13.04: An employee who is off-duty because of sickness, injury or disability may take unused vacation entitlement, to which he was entitled at the onset of such absence, in lieu of sick leave or Workers' Compensation providing the employee requests same from his supervisor prior to the period he desires to take such vacation. Vacation in lieu of sick leave or Workers' Compensation shall not, however, reduce, or be in lieu of, any waiting period as applicable under Articles 16 and 18 of this Agreement except as specifically stated in Article 16, Section 16.03(e). Vacation in lieu of sick leave or Workers' Compensation, where requested and granted, shall not be considered either as equivalent to time worked or reinstatement to active employment, as may be applicable, during the period involved for any purpose under this Agreement.

SECTION 13.05: Employees who are injured or become ill during a scheduled vacation period may reschedule the remainder of such vacation subsequent to the onset of such injury or illness with prior approval of their supervisor . Days paid for as vacation during such period of injury, illness or disability shall not reduce the waiting period required under Articles 16 and 18 of this Agreement. The waiting period shall begin effective with the first day that is permitted to be changed from vacation to sick leave and shall be applicable in accordance with the provisions of that article as though the period of injury, illness or disability began on that day.

SECTION 13.06: When a day recognized as a holiday falls on any of the first five (5) days of a workweek during an employee's vacation exclusive of vacation in lieu of sick leave or Workers' Compensation, the employee will be required to schedule the day of vacation upon which the holiday falls, at the time of vacation selection as described in Section 13.10.

SECTION 13.07: In the event an employee is separated for any reason (including extended approved leave of absence, retirement, lay-off, resignation, disability, death or discharge), the Company will pay to the employee, or the employee's estate, an amount equal to any unused vacation benefits to which the employee was otherwise entitled at the time of separation; provided, however, that all such rights shall be forfeited by an employee who is discharged for dishonesty.

Should an employee return to active employment without loss of seniority in the same calendar year as that in which the employee was separated and for which the employee received entitled vacation benefits and/or compensation in lieu of unused vacation benefits, the employee shall not be entitled to further vacation benefits in that year except such additional vacation benefits as may accrue as a result of an anniversary of continuous employment for which further vacation is applicable.

Should the employee be off-duty for any reason at the time of separation, vacation entitlement shall not exceed that for which the employee was eligible on the last day actually worked before such absence. Payment for such unused vacation, as set forth herein, shall not be considered an extension of employment and the employee shall not be eligible for any benefits of employment after the date of separation solely as a result of such payment in lieu of unused vacation.

SECTION 13.08: The wages which the Company shall pay during vacation period shall be computed on the basis of an eight (8) hour day and forty (40) hour week and shall be at the employee's normal rate of wages applicable during the period, exclusive of shift premium or any other premium pay. Time paid for as vacation pay shall be included as time worked for the purpose of computing forty (40) hours of work during such week for the purposes of figuring overtime.

SECTION 13.09: The Company will, as far as practicable consistent with work requirements, permit vacations to be taken at the time desired by employees, but determinations as to the total number of employees or any employees, the number of employees of a particular classification or at a particular location, the number and classification of employees of a particular working group, to be allowed on vacation at any time; the time within which vacations may be taken; and the make-up of working groups for vacation purposes, are reserved solely to the Company in order to insure the orderly operation of the Company. When these determinations have been made by the Company and there is an opportunity of choice between two or more employees, the employee with the highest seniority roster position shall have first choice of vacation time made available.

SECTION 13.10: For the purposes of vacation preferences under this article, employees shall be permitted to use their Company seniority to schedule vacation periods in two-week increments or less. The Company reserves the right to schedule an employee's fourth and fifth week of vacation separately from the first three (3) weeks of vacation and separately from each other.

It is agreed that vacations shall normally be scheduled to be taken in periods of one full week or more. Shorter periods of vacation may be allowed, however, in the discretion of supervision, for special circumstances when approved in advance for which vacation allowance is requested provided the employee, if requested, verifies the special circumstances for which the shorter period of vacation is requested.

Vacations must be taken within the calendar year in which they are applicable. Employees who do not take the vacation to which they are entitled in any calendar year, except when the employees are caused by the Company to forego all or part of their vacation due to an emergency, shall not be entitled to pay in lieu thereof or to carry over their unused vacation benefits to the next subsequent calendar year. Where the employees are caused by the Company to forego vacation due to an emergency, the Company shall either pay compensation in lieu of vacation or designate alternate vacation dates in the following year at the employee's option. Initial vacation schedules, once completed, shall be posted.

SECTION 13.11: Subject to operational requirements, a regular full-time employee whose spouse is expected to give birth to a child will be entitled to reschedule up to one (1) week's vacation, to begin at any time between the date of the onset of labor and the release from the hospital following delivery, provided the employee notifies his supervisor at least two (2) weeks in advance of the anticipated delivery date, and further notifies his supervisor before starting time on the first day he will miss work due to the birth of the child.

A regular full-time employee who does not reschedule vacation as described above, may be released from duty for not more than four (4) hours, with pay, to accompany his child home from the hospital should the release from the hospital occur on a scheduled workday for the employee. An employee may elect to take the remainder of his scheduled work day as an excused, unpaid absence. The employee must not be off duty for any other reason to be eligible for the four (4) hours pay described herein and must notify his supervisor of his absence for this purpose not later than the day preceding the day his child is released from the hospital.

## **ARTICLE 14 PHYSICAL EXAMINATION**

SECTION 14.01: In addition to the physical examination which is given to all new employees before they are accepted for employment, the Company may require additional physical examinations (including periodic examinations for certain types of work, and examinations upon transfer of employees from one job to another) and it is understood and agreed that continuous employment is dependent at all times upon the employee's satisfactorily passing such physical examinations as the Company may, from time to time, require such employees to take. Physical examinations will normally be scheduled as early in an employee's regularly scheduled work day as operational needs will permit.

SECTION 14.02: The Company agrees that upon an employee's return to work after an illness or disability, consideration will be given to the employee's physical condition and, if possible, a less strenuous type of work will be granted.

SECTION 14.03: All medical expense made necessary by this article shall be paid for by the Company. Except for an employee's examination in connection with acceptance for employment or as otherwise set forth herein, employees shall receive pay for time spent, not to exceed eight (8) hours including time worked on that day, having such physical examinations. Following a period of sickness or non-work related injury, when an employee is released by his doctor to return to work he shall notify the Company of such release immediately. If the supervisor deems it necessary that the employee be examined by the Company's doctor to verify the employee's capability to perform his normal duties, the employee is expected to report to the Company doctor prior to the date of his release to return to work, if possible, and such time will be considered as part of his illness. An employee who is unable to visit the Company doctor before the date upon which his private physician has released him to return to work, shall be paid as follows:

- (a) An employee eligible for sick pay shall be entitled to utilize up to one additional day of his sick leave entitlement subject to being required to report back for duty as set forth below.
- (b) An employee not eligible for sick pay shall receive (as time worked) his straight-time hourly rate for all time spent, not to exceed eight (8) hours, in connection with such physical examination.

NOTE: An employee who returns to work from a period of sickness or non-work related injury without a release from his private physician shall be paid in accordance with (a) or (b) immediately above if directed to visit the Company doctor.

An employee shall not be required to visit the Company's doctor if released by his private physician after 12:00, noon, that day. The employee shall, however, report his release to the Company as set forth above.

An employee is required to report back for duty at the completion of his physical examination unless excused by his supervisor. An employee required to go to the Company doctor for physical examination on a regular off-day is entitled to overtime at his appropriate rate for a minimum of two (2) hours or time actually spent in the doctor's office (not to exceed eight [8] hours), whichever is greater. For the purposes of this section only, "regular off-day" shall mean the off-day of the schedule the employee would have been on had he been at work.

If an employee is required to see the Company doctor during a period of absence under this Article or, if his supervisor deems it necessary, after the employee is released by his personal physician to return to work, such employee shall be allowed to visit the Company doctor closest to his residence.

SECTION 14.04: Examinations by the Company's doctor which may be required during the course of an illness shall be considered a part of the employee's absence due to sickness and the employee shall be entitled to pay as sick leave for time spent having such examinations as provided for in Article 16. Examinations or treatment for compensable injuries are subject to the laws and regulations pertaining to Workers' Compensation and to another applicable article of this Agreement and are not subject to the provisions of this Article.

SECTION 14.05: Notwithstanding the previous paragraph, whenever an employee who is at work is required by the Company to leave his assigned place of work for the purpose of receiving a physical examination, the Company may provide transportation to the employee or a mileage allowance in lieu thereof. It is the employee's responsibility to keep his appointment for the physical examination and the election described herein is the Company's and not the employee's. Should the Company elect to pay mileage, it shall be to reimburse the employee for use of his personal vehicle and shall be determined by multiplying the Company's regular mileage rate for occasional use of personal vehicles by the one-way distance from the point of departure to the point of destination. In the event the employee is required to report back to work following a physical examination, mileage, if payable, shall be paid for the return trip.

## **ARTICLE 15**

### **NO STRIKE AND NO-LOCKOUT CLAUSE**

SECTION 15.01: The Union agrees that during the entire term of this Agreement the Union, its officers, representatives, members and the employees covered by this Agreement shall not take part in any strike, slow down or stoppage of work, boycott, sympathy strike, picketing or any other interruption of or interference with the work and business of the Company. The participation by an employee in any conduct prohibited by this article or the failure or refusal on the part of any employee to comply with any provision of this article shall be cause for disciplinary action, including suspension or discharge.

SECTION 15.02: In consideration of this no-strike covenant and pledge by the Union and employees, the Company agrees that it shall not lockout employees during the period of this Agreement. The term "lockout" is hereby defined so as not to include the discharge, suspension, termination, layoff, failure to recall or failure to return to work of employees by the Company or the curtailment or discontinuance of operations by the Company in the exercise of its rights as set forth in any provision of this Agreement.

SECTION 15.03: Whenever the work of the Company requires that employees covered by this Agreement cross a legal picket line established by any other labor organization, the Union Office shall be notified of the need for such crossing as soon as is reasonably practicable under all of the circumstances. The notice called for by this Section shall in no way delay or excuse an employee from the performance of his duties.

**ARTICLE 16**  
**SICKNESS LEAVE OF ABSENCE**

SECTION 16.01: The Company grants, for the term of this Agreement, to all regular employees covered by this Agreement, payment for time lost because of:

- (a) Any accident occurring while the employee is not working for wage or profit, or
- (b) Any sickness for which the employee is not entitled to benefits under any Workers' Compensation or Occupational Disease Laws or Acts.

SECTION 16.02: Payment will be made for regularly scheduled workdays on the basis of not to exceed eight (8) hours for any scheduled workday and not to exceed forty (40) hours in any workweek, computed at straight-time exclusive of shift premium or any other premium pay. Regularly scheduled workday shall mean one of the first five (5) regularly scheduled workdays which constitute the basic forty (40) hours per week. This shall not include scheduled overtime days.

SECTION 16.03: Payments will be made for time so lost beginning with the fourth (4th) scheduled workday of any one continuous absence except:

- (a) If two (2) consecutive scheduled off-days fall within such three (3) day waiting period, they shall be counted as one (1) day of the waiting period. If four (4) consecutive scheduled off-days fall within such three (3) day waiting period, they shall be counted as two (2) days of the waiting period.
- (b) If an employee is forced by illness to leave the employee's working place before the employee's regular quitting time on the last scheduled workday before scheduled off-days, any two (2) such off-days, if consecutive, shall be counted as one (1) day of the waiting period.
- (c) An employee who reports for work on a regularly scheduled workday but is forced by illness to leave work before working more than four (4) hours shall have that day counted as one (1) day of the required waiting period. An employee who is forced by illness to leave work after working more than four (4) hours but less than eight (8) hours may be paid on the third (3rd) day of the waiting period an equivalent number of hours as those lost because of sickness on the last day worked if the third (3rd) day of the waiting period is a scheduled workday. Such partial day payment shall not be counted against an employee's total day entitlement.
- (d) Payment will also be made for any regularly scheduled workday of the waiting period: (1) Upon admission to a hospital requiring overnight stay (does not include emergency room, x-rays, diagnostic testing, cosmetic or dental procedures) or, (2) upon admission to an outpatient care facility for procedures or treatment requiring general anesthesia (does not include emergency room, x-rays, diagnostic testing, cosmetic or dental procedures).

- (e) An employee who becomes eligible for paid sick leave under this Article may substitute earned Vacation benefits for any time lost during the waiting period as described in this Section, provided he requests such by the close of the normal business day which follows the day he first becomes eligible.

SECTION 16.04: Payment will be made for time lost as outlined below:

- (a) First year of regular employment - no sick leave.
- (b) After one (1) full year of continuous service as a regular employee, and on July 1st of each succeeding year thereafter, a regular employee will earn twenty (20) days of paid sick leave if he has less than twenty (20) years of company seniority, or twenty-five (25) days of paid sick leave if he has twenty (20) years or more company seniority. Unused sick leave may be carried over from one year to the next, not to exceed one hundred (100) days. Paid sick leave earned as described herein will be credited to regular employees on July 1st unless the employee is not at work for any reason other than those set forth in Section 16.05. If not at work on July 1st, for reasons other than set forth in Section 16.05, the days of paid sick leave will be credited to the employee following his return to work for two (2) full weeks (eighty (80) hours) of regular duty.

SECTION 16.05: For the purposes of Sections 16.04(b) and 16.09, the following will count as time worked:

- (a) Days actually worked, including partial days where four (4) or more hours are actually worked.
- (b) Paid holidays falling in an employee's regularly scheduled workweek.
- (c) Vacations, except in lieu of Sick Leave or Workers' Compensation.
- (d) Jury duty and funeral leave.
- (e) Time lost for personal business authorized for the purpose of attending military summer camp (to a maximum of two weeks per year) and regular monthly drills (to a maximum of two days per month).

SECTION 16.06: As a further condition of making payments for illness, the employee, or someone on the employee's behalf, must report absence because of illness on the first day of absence and thereafter as directed. The employee may be required to furnish a doctor's certificate after three (3) days and periodically during the employee's period of illness and/or upon release to return to duty, if requested by the Company. The Company may require an employee to report to the Company doctor if, in its opinion, sufficient cause exists for such action.

As a further condition of making payments under this Article an employee shall not engage in any physical activity for personal gain or profit unless such activity is authorized by the employee's physician, subject to review by the Company doctor. An employee who engages in physical activity for personal gain or profit without such authorization while accepting benefits under this Article shall be subject to discharge or other disciplinary action including forfeiture of any sick leave benefits otherwise payable for the period of absence disqualified.

SECTION 16.07: The employee is obligated to return to work at the earliest day recovery from an illness will permit, including making himself available for limited service in accordance with Article 19. Failure to return to duty when able, or falsifying the necessity for sick leave, shall be cause for discharge or other disciplinary action, including forfeiture of sick pay for the period of absence disqualified.

SECTION 16.08: A period of sickness, including waiting days, must be continuous, except:

- (a) A return to work for not in excess of two (2) days, or a paid holiday, shall not interrupt or cancel a waiting period, beginning of sick pay or continuation of sick pay.
- (b) A return to work for not in excess of five (5) days, or a paid holiday, shall not interrupt or cancel a waiting period, beginning of sick pay or continuation of sick pay provided the employee meets the criteria as defined in Section 16.03 (d).
- (c) In the case of an employee who is able to return to work in some capacity after suffering from a catastrophic illness or injury and who thereafter must receive long term occasional medical treatment or rehabilitation which is not reasonably available outside the employee's regular working hours. An illness or injury shall be considered catastrophic if the employee suffered major head trauma, spinal cord injury, amputation, severe burn, severe stroke, amyotrophic lateral sclerosis, metastasis cancer, acquired immune deficiency syndrome (AIDS), severe cardiac disease, severe hepatitis, anorexia nervosa, bulimia, or severe congenital anomalies.

SECTION 16.09: Effective January 1, 2010, an employee will receive an earned holiday to be taken during the calendar year when the following requirements are met:

- (a) the employee has been employed for a minimum of 12 consecutive months,
- (b) the employee has worked a minimum of 1040 straight-time hours or more,
- (c) and the employee has not taken any paid or no more than one (1) unpaid sick day during the preceding calendar year.

The scheduling of this day is subject to the following conditions:

At the time of vacation selection, the preference of the Earned Holiday will be determined by seniority. After vacation selection has been completed, selection of the Earned Holiday shall

be made on a first come, first served basis. Earned Holidays may be coupled with a Company-wide Holiday, or added to vacation periods. If operational requirements cause the cancellation of this scheduled day, it may be rescheduled or the employee may be paid as outlined in Article 9.

## **ARTICLE 17 SUCCESSORSHIP**

The Company agrees that the Collective Bargaining Agreement between the parties will remain in full force and effect for the specified duration regardless of any change in the ownership of the Company. The Company will include a provision, in any sales or merger agreement, with any successor or assign, that will affirm and make the continuation of the Collective Bargaining Agreement a condition of the sale or merger of the Company.

## **ARTICLE 18 SUPPLEMENT TO WORKERS' COMPENSATION**

SECTION 18.01: When an employee is injured while working for the Company and is entitled (or would by passage of time become entitled) to benefits under Workers' Compensation or Occupational Disease Laws or Acts, the Company agrees to supplement such benefits, as earned by the employee under Section 18.05, by paying such employee the difference between such benefits (irrespective of the employee's receipt of the benefits) and one hundred percent (100%) of the employee's net wages received on the basis of a forty (40) hour workweek, computed at straight-time exclusive of shift premium, or any other premium pay, beginning with the fourth (4th) scheduled workday of such absence except:

- (a) If two (2) consecutive scheduled off-days fall within such three (3) day waiting period, they shall be counted as one (1) day of the waiting period. If four (4) consecutive scheduled off-days fall within such three (3) day waiting period, they shall be counted as two (2) days of the waiting period.
- (b) If an employee is forced by injury to leave the employee's working place before regular quitting time on the last scheduled workday before scheduled off-days, any two (2) such off-days, if consecutive, shall be counted as one (1) day of the waiting period.
- (c) If an employee is injured after reporting for work or is required to go to the Company's doctor for treatment on a scheduled workday, the employee shall be paid at the employee's regular straight-time rate for the remaining hours in the employee's regularly scheduled workday, not to exceed eight (8) hours in total for such day, except that no such payment shall be made for time required to visit the doctor on any day the employee is off duty for any reason while the employee is still receiving benefits under this article.

- (d) Payment will also be made for any regularly scheduled workday of the waiting period: (1) during which the employee is a bed patient in a hospital and for which a room charge is levied; (2) which follows a period of such internment, even if internment is on an off-day; or (3) for time spent not to exceed eight (8) straight-time hours, visiting the Company doctor on waiting period days when the employee does not subsequently become eligible for Workers' Compensation benefit for such days.

SECTION 18.02: The employee is obligated to return to work at the earliest date recovery from an injury will permit, including making himself available for limited service in accordance with Article 19. Failure to return to duty when able, or falsifying the necessity for compensable leave, shall be cause for discharge or other disciplinary action, including forfeiture of the Supplement for period of absence disqualified.

As a condition precedent to receipt of benefits under this Article, an employee shall not engage in any physical activity for personal gain or profit during the twenty-two week period of his supplemental benefits for occupational injury or illness unless such activity is authorized by the employee's physician, subject to review by the Company doctor. An employee who engages in physical activity for personal gain or profit without such authorization while accepting supplemental benefits under this Article shall be subject to discharge or other disciplinary action including forfeiture of the Supplement.

SECTION 18.03: The pay of employees working on overtime hours who are injured and required to go to the Company doctor will cease when they leave their work site. If it is necessary for the employees to return to their work site for their own convenience after their regularly scheduled workday is completed, whether transported by Company vehicle or not, they will not be paid for such time.

SECTION 18.04: Determination of first day considered as "lost time" is as follows:

- (a) Workers' Compensation - Next calendar day after day of injury.
- (b) For Supplement - Next regularly scheduled workday on which the employee is absent due to the injury subject to provisions of (a), (b), (c), and (d) above.

SECTION 18.05: Supplemental payment will be made for time lost as outlined below:

- (a) First year of regular employment - no supplement.
- (b) After one (1) full year of continuous service as a regular employee, and on July 1st of each succeeding year thereafter, a regular employee will earn twenty-five (25) days of supplemental pay. The supplement may be carried over from one year to the next, not to exceed one hundred (100) days. Supplemental pay earned as described herein will be credited to regular employees on July 1st unless the employee is not at work for any reason other than those set forth in Section 16.05. If not at work on July 1st, for reasons other than

set forth in Section 16.05, the twenty-five (25) days of supplemental pay will be credited to the employee following his return to work for two (2) full weeks (eighty (80) hours) of regular duty.

**ARTICLE 19  
LIMITED SERVICE**

SECTION 19.01: An employee who sustains a temporary or permanent partial disability from an illness or injury shall be permitted to return to work in whatever capacity his disability will permit, where work is available.

The duration of a limited service assignment, the affected employee's classification, and his rate of pay will be as follows:

A. For partial disabilities which are not compensable under Kentucky or other applicable Workers' Compensation statutes -

1. Classification and Rate of Pay: Will be subject to the employee's length of continuous service on the onset of his disability, in accordance with the following:

(a) If the employee has 25 years or more of Company seniority, his classification and rate of pay in effect on the onset of his disability will be continued for forty (40) work days, following which the employee will be reclassified to Limited Service Helper. His rate of pay will be the "50% rate" as defined in Appendix "A" or his current rate of pay, whichever is less, for the duration of his limited service assignment.

(b) If the employee has 15 or more years, but less than 25 years of Company seniority, his classification and rate of pay in effect on the onset of the disability will continue for thirty (30) work days, following which the employee will be reclassified to Limited Service Helper and be paid the rate for Limited Service Helper or his current rate of pay, whichever is less, for the duration of his limited service assignment.

(c) If the employee has less than 15 years of Company seniority, his classification and rate of pay in effect on the onset of the disability will continue for twenty (20) work days, following which the employee will be reclassified to Limited Service Helper and be paid the rate for Limited Service Helper or his current rate of pay, whichever is less, for the duration of his limited service assignment.

2. Duration: The duration of any limited service assignment under this section for any employee shall not exceed one hundred (100) work days in a calendar year.

- B. Except for those injuries described in Section (c), below, for partial disabilities which are compensable under Kentucky or other Workers' Compensation statutes:
1. Classification and Rate of Pay: Will remain the same as that in effect on the onset of his disability for the duration of his limited service assignment.
  2. Duration: The duration of any limited service assignment under this section for any employee shall not exceed one hundred (100) work days in a calendar year.
- C. For employees who may suffer partial disabilities arising from; spinal cord injuries, severe head trauma, severe burns, amputations or loss of sight, which are compensable under Kentucky or other Workers' Compensation statutes:
1. Classification: Will remain the same as that held by the employee prior to the onset of his disability for not more than two hundred (200) work days at which time the employee will be reclassified to Limited Service Helper.
  2. Rate of Pay: The wage rate in effect for the employee prior to the onset of his disability will be continued for one hundred (100) work days, following which the employee's rate will be reduced by ten percent (10%), and the reduced rate will be paid for the next one hundred (100) days. Thereafter, when the employee has been reclassified to Limited Service Helper, he shall be red-circled at the reduced rate which shall remain in effect until such time as the rate for the top of the paygrade nearest the "50% rate" as defined in Appendix "A" equals or exceeds the employee's red-circled rate.
  3. Duration: There is no limitation upon the duration of a limited service assignment for disabilities described by this Section (c).

SECTION 19.02: An employee on limited service who is able to return to his prior job classification, will not have the time spent on limited service credited toward minimum time-in-grade requirements or wage step progression increases within the prior classification. General wage increases shall, however, apply to limited service employees except as otherwise provided. A general wage increase occurring at a time when a limited service employee is being paid at ninety percent (90%) of his prior rate shall be applicable only to the extent of ninety percent (90%) of the increase otherwise applicable to the employee's prior rate.

Should an employee suffer successive partial disabilities within a calendar year, the eligibility for limited service as a consequence of the most recent disability will be reduced by the limited service entitlement utilized by the employee with respect to the prior disability or disabilities.

SECTION 19.03: In order to be eligible for limited service as described in this Article, the employee must have worked a minimum of eighty (80) straight-time hours of regular duty within the calendar year. An employee on limited service as of December 31 of any calendar year may utilize

the remainder of his limited service eligibility for that year, in the following year, provided the period of limited service is continuous. However, an employee on limited service on December 31 must work at least eighty (80) straight-time hours of regular duty in the following year to again be eligible for the full period of limited service.

If an employee is unable to return to regular duty at the end of his period of limited service eligibility, he will be placed off work until he can return to regular duty unless reclassified as described in Section 19.04.

SECTION 19.04: Regardless of the duration of an employee's limited service assignment and rate of pay applicable thereto, an employee on limited service who is certified by a medical doctor of the Company's choosing to be permanently restricted may be reclassified to any vacant job in a classification the duties of which the employee is qualified and physically able to perform. The rate of pay for employees reclassified under this section shall be as follows:

Workers' Compensation Injuries

Employees with 25 or more years of service will have their rate of pay reduced by ten percent (10%) upon being reclassified and the reduced rate will be paid for the next one hundred (100) days. Thereafter, he shall be red-circled at the reduced rate which shall remain in effect until such time as the rate for the top of the paygrade nearest the "50% rate" as defined in Appendix "A" equals or exceeds the employee's red-circled rate.

Employees with less than 25 years of service will receive the rate for the top of the paygrade nearest the "50% rate" as defined in Appendix "A" upon reclassification.

Non-Workers' Compensation Injuries

Employees with 25 or more years of Company seniority will receive the rate for the top of the paygrade nearest the "50% rate" as defined in Appendix "A" upon reclassification.

Employees with less than 25 years of Company seniority will be paid at the rate for his new classification. Employees subject to reclassification as described herein, will have their cases discussed with the Union and their seniority status decided by mutual agreement.

SECTION 19.05: Where practicable and if appropriate, limited service employees described in Section 19.01 (b) and (c) will be reclassified to regular job classifications before exhaustion of their limited service eligibility provided work is available.

Employees who, prior to November 13, 1989, have been reclassified to regular job classifications from limited service and whose wages have been protected will be red-circled at their existing rates until such time as the rate for the classification exceeds the red-circled rate, or until an employee changes job classifications under Article 10.

SECTION 19.06: An employee's ability to return to his former job, or to be placed in a job of a higher classification, shall be subject to review at any time the employee's physical condition improves. If the employee is capable of performing the duties of his former job, he shall be returned to his former job provided an opening exists, and his seniority status shall be determined by mutual agreement. An employee may be placed in a job in a higher classification which was not his former job upon mutual agreement of the parties.

SECTION 19.07: Subject to the foregoing, an employee who is released to return to work in a limited service capacity shall promptly notify his department limited service representative who shall assign the disabled employee first to whatever work the employee's disability will permit in that department or payroll division. If no suitable work is available, the employee's department limited service representative shall then notify the designated Company representative responsible for the assignment of limited service employees. The disabled employee shall then be assigned to whatever suitable work that is available anywhere in the Company. Such assignments may be made on a daily basis, if necessary, and no assignment shall be held to constitute a change of schedule nor shall such assignments be made on the basis of an employee's seniority. Limited service assignments shall be considered as temporary assignments.

SECTION 19.08: Nothing in this Article shall be construed to abrogate or diminish any rights an employee would otherwise have under this Agreement, the Americans with Disabilities Act, the Workers' Compensation laws of Kentucky or other applicable laws.

SECTION 19.09: Notwithstanding Sections 16.09 and 18.01 of this Agreement, an employee who is on limited service due to an injury or illness and who has once satisfied the waiting period described in those sections shall not be required to satisfy an additional waiting period should the Company remove him from limited service duty due to a lack of suitable work.

## **ARTICLE 20 PERSONAL LEAVES OF ABSENCE**

SECTION 20.01: When, in the opinion of the Company, the requirements of the business will permit, an employee may, upon written request to the Company stating the reason why such leave of absence is desired, be granted a leave of absence for legitimate personal reasons without pay for a period not to exceed one hundred eighty (180) calendar days. Seniority will accumulate only during the first one hundred eighty (180) calendar days of any leave of absence granted under this Agreement for personal reasons. The Company may, but shall not be required to extend any leave of absence granted under this Agreement.

SECTION 20.02: It shall be cause for discharge if any employee misrepresents or falsely states to the Company in any application for a leave of absence (under this or any other article relating to a leave of absence), or any extension thereof, the reason for requesting such leave of absence. It shall also be cause for discharge if an employee, during a leave of absence under this Agreement, accepts gainful employment or becomes gainfully employed in any capacity by any other person, firm or corporation, or engages in any business for gain or profit on his own account, without first having

obtained approval in writing for such other employment or business from the Chief Administrative Officer, or his designated representative . An employee who fails to return to work at the expiration of a leave of absence shall be conclusively presumed to have quit his employment with the Company.

SECTION 20.03: The Union recognizes that when employees are granted leaves of absence, it may be necessary for the Company to make arrangements to fill such employee's job during the entire period of such leave of absence. The Union therefore agrees that no employee may return to work without the Company's consent and approval prior to the date on which his leave of absence expires.

SECTION 20.04: Employees granted leaves of absence under this article shall have the coverage of the following benefit plans continued to the end of the month in which the leave commences:

- Group Life Insurance Program
- Group Medical Insurance Program
- Group Dental Insurance Program

If the employee desires to obtain continued coverage under these programs after the period specified above, such employees shall pay the full monthly cost of the benefit plan premiums or contributions up to and including the month in which the employee returns to work from his leave of absence. Full monthly cost shall include both employee and employer premiums or contributions. Such payments shall commence and be submitted to the Benefits Department by the first day of any succeeding months of the leave of absence. Failure to make timely payments as prescribed shall cause the immediate cancellation of the program coverage.

SECTION 20.05: An employee who is permitted to return from a personal leave of absence, prior to the approved return date, will be reinstated at his former rate of pay and will retain his position on the seniority roster, subject to the provisions of Section 20.01 of this Article.

SECTION 20.06: Any regular full-time employee covered by this Agreement who is elected to a public office requiring their absence from duty with the Company, may request a leave of absence without pay for the duration of their term or terms. Such request shall not unreasonably be denied.

Employees granted a personal leave of absence under this section may have such leave for the duration of their term of office without regard to the one hundred eighty (180) calendar day limitation on Section 20.01, and without loss of seniority. However, the seniority limitation of Article 10, Section 10.03(b) will apply.

Upon completion of their term they shall be reinstated to their former position, if it is available. If it is unavailable, they may be redeployed to another available position under the terms of Article 10, Section 10.24. Employees subject to reclassification under the terms of this section will have their cases discussed with the Union.

SECTION 20.07: Employees shall report to the Company and submit to such physical examinations as the Company may require prior to returning to work from leave of absence granted hereunder.

**ARTICLE 21  
FUNERAL LEAVE**

SECTION 21.01: The Company will grant to all regular employees covered by this Agreement payment, exclusive of shift premium, or any other premium pay, for time lost on their regularly scheduled workdays, up to a maximum of five (5) days, in connection with the death of the employee's spouse, employee's children and employee's parents, and step-children of the employee who are children of the employee's present spouse who have lived in the employee's home. For purposes of this section, "employee's parents" shall include the spouse of either of the employee's natural parents and legal parents. All leave granted under this section shall be taken between the date of death and two days following the date of the funeral or service, inclusive.

SECTION 21.02: The Company will grant to all regular employees covered by this Agreement payment, exclusive of shift premium, or any other premium pay, for time lost on their regularly scheduled workdays, up to a maximum of three (3) days because of death of any other member of an employee's immediate family. Under this provision, other members of an employee's immediate family are recognized as being grandparents, grandchildren, sons-in-law, daughters-in-law, brothers, and sisters of the employee, spouses of employee's brothers and sisters, employee's spouse's brothers, sisters and parents, employee's spouse's grandparents or other close relative living in the home of the employee. All leave granted under this section shall be taken between the date of death and the date of the funeral or service, inclusive.

SECTION 21.03: The employee must report absence because of death in family to the proper supervisor on the first day of such absence and shall indicate the date of the funeral or service, if known, or as soon thereafter as the date becomes known. In the case of vacation interruption, because of death in family, the employee must notify the proper supervisor within two (2) work days of the date of death and shall similarly indicate the date of the funeral or service.

SECTION 21.04: The provisions of this Article will apply within the time limits of an employee's scheduled vacation, but will not apply when an employee is off-duty due to illness or injury or for any other reason. Note: This means that subject to the conditions of this section which determines an employee's eligibility for up to either three (3) or five (5) days off for death in family, and subject to the operating requirements of his department, an employee who suffers a "death in family" during the time he is on vacation may reschedule as vacation the number of vacation days interrupted by death in family, for which the employee is eligible.

SECTION 21.05: Employees who are requested to serve as pallbearers (honorary pallbearers not included) at the funeral of an employee or retired employee should be released from duty, where operational requirements permit, for the amount of time necessary to attend the funeral. An employee who serves in this capacity shall not lose straight-time pay (exclusive of shift premium) on that account. Where practicable and appropriate, the employee is expected to work before and/or

after attending the funeral. The Company may require verification of the employee's service in this capacity.

**ARTICLE 22  
JURY DUTY**

Employees serving on Jury Duty shall not lose straight-time pay (exclusive of shift premium) on that account and will be paid the difference between money received for such Jury Duty, exclusive of expense allowance, and their normal straight-time earnings exclusive of shift premium.

Employees scheduled to work the day shift, who are required to report for Jury Duty before noon, shall, upon request and notification to their Department Superintendent, be excused from reporting for work prior to reporting for Jury Duty and shall be required to return to work only if released from Jury Duty at, or prior to, the expiration of four (4) hours from his scheduled starting time. Where practicable, and upon request to the employee's supervisor, an employee scheduled for shift work will be rescheduled to day work (Monday through Friday) for the entire period he is scheduled for Jury Duty.

An employee subpoenaed to testify and who testifies in a civil or criminal judicial proceeding not involving the employee, his family, or any interest of the employee, will suffer no reduction in straight-time pay, for time lost in testifying, and will be paid the difference between money received for honoring the subpoena and normal straight-time earnings, exclusive of shift premium, provided the employee provides prompt notice of his receipt of a subpoena.

The Company may require for each day, in such form as it deems necessary to the conduct and administration of this provision, evidence of the employee's requirement to report for Jury Duty, or to honor a subpoena, proof of attendance, time of reporting, time of release and amounts received as compensation.

**ARTICLE 23  
MILITARY SERVICE**

Except as otherwise provided by law, if it should become necessary for an employee to leave the service of the Company to serve in the Armed Forces of the United States, or should an employee volunteer for service in any of the Armed Forces of the United States, then any such employee shall retain and accrue his seniority during such service, provided he returns to the employ of the Company within ninety (90) calendar days after his demobilization or release from the service, and provided further that he is fit and competent and has received a release or discharge under honorable conditions. A reservist who is called to active duty as a result of mobilization shall receive a supplement, for ninety (90) days from being called, of the difference between military pay and the employee's base pay in effect prior to taking leave under this article. If the employee's family elects to continue dental coverage under the provisions of COBRA, the Company will waive the premium

for such coverage to up to twelve (12) months. Additionally, an employee who participates in military summer camp or short-term duty up to three (3) weeks will receive a supplement of the difference between military pay and the employee's base pay. Except as otherwise provided by law, this Article shall not apply to any employee who re-enlists or otherwise extends his period of full-time military service beyond the period of time of his military obligation to the United States.

The employment status of an employee shall not be affected by his enlistment or participation in the civilian components of military services, regardless of whether such enlistment or participation is voluntary or mandatory.

## **ARTICLE 24 SUBCONTRACTING**

SECTION 24.01: The Company currently and historically utilizes outside contractors and subcontractors to supplement its own work force. These outside contractors and subcontractors are utilized primarily for the following reasons: to meet emergency situations; to obtain specialized services not readily available within the Company's work force; for purposes of business expediency (time); and to enable the Company to render service to its customers in the most efficient and economical manner practicable. While the Company expects that a continuation of such outside contracting policies will be necessary to prudent and efficient business operations during the life of this Agreement, the Company agrees that it will not subcontract work normally and usually performed by employees presently covered by this Agreement or utilize the terms set forth in Article 10, Section 10.24 in this Agreement for the purpose of eroding the bargaining unit.

Additionally, the Company agrees that except in an emergency it will not subcontract the work involved in the generation, transmission and distribution of either gas or electricity of a type normally and usually performed by employees in journeyman classifications or above when such subcontracting would cause the layoff of such employees or affect their recall. It shall not be a violation of this Agreement for the Company to continue subcontracting in areas where there has been no reduction in force notwithstanding the fact that a reduction in force in a different area has caused the displacement of incumbent employees by more senior employees pursuant to Article 10. However, should a journeyman be removed from his line of progression due to a reduction in force, and as a result displace a less senior employee in a below journeyman classification in a different line of progression, he shall be considered a journeyman under this Section in the event of a subsequent reduction in force in his new line of progression for not more than the period of time equal to the minimum time in grade requirement for promotion to journeyman, plus six (6) months.

SECTION 24.02: If it becomes necessary for the Company to contract out work of the type regularly and customarily performed by employees covered hereby, it shall notify the Union of such subcontracting and identify the type of contractual agreement, probable duration of the contract and the approximate number of employees involved in the performance of the contract. However,

nothing in this article shall require the Company to assume unreasonable or excessive costs in its operations.

SECTION 24.03: It is agreed that outside contractors working on a cost/plus annually renewable contract will not perform work, normally performed by employees covered by this Agreement, on the sixth or seventh workdays of a week except in the following circumstances and situations: where the employees in the work area affected have been offered the work; if an emergency exists and employees in the work area affected by the emergency have been fully utilized; or if it is necessary to have an equipment outage on the sixth or seventh day for the contractor to complete the work he is performing. However, contractors working on unit cost contracts, fixed bid contracts, or cost/plus emergency contracts will not be affected by this section. It is not a violation of this Section for a contractor to continue or complete work on the 6<sup>th</sup> & 7<sup>th</sup> workday, provided the contractor is responsible for that work during the week.

Section 24.04: The Company agrees that, other factors being substantially equal (i.e. price, availability, qualifications etc.), contractors who employ union members will be given preferred consideration. It is understood that this provision in no way creates third party beneficiary status for any individual or contractor.

## **ARTICLE 25**

### **WAGES - JOB CLASSIFICATIONS - PAY PROGRESSIONS**

SECTION 25.01: The wage rates for job classifications covered by this Agreement are described in Appendix "A," which is attached hereto and made a part hereof. Nothing in this Agreement shall prohibit the Company and the Union from mutually agreeing to modify the rate of pay for any job classification set forth in Appendix "A" at any time during the term of this Agreement.

SECTION 25.02: The Company will furnish the Union a copy of an accurate, up-to-date job description for all job classifications listed in Appendix "A."

It is understood that the purpose of the job descriptions referred to herein is to classify the work properly, to give guidance in making assignments and to determine the proper rate of pay therefore. It is agreed that the job descriptions referred to herein describe, in general, responsibilities and duties normally performed, but do not limit the work of an employee to the particular duties listed and the duties incidental thereto. It is agreed that job descriptions list typical duties of a classification and that numerous related tasks incidental to the typical duties listed which reasonably cannot be enumerated in the job description are included in the work of the classification.

SECTION 25.03: It is agreed that in the interest of obtaining improved service, better operations or lower costs, the Company has the right to make changes in equipment, operations, and the organization of work, including the determination of job content, minimum requirements and qualifications; and combine jobs, eliminate jobs, and create new jobs, and it is understood that this is a proper function of management.

SECTION 25.04: The rates of pay for any newly created job classifications, or for any existing job classifications which have been changed by the addition of new or different tasks which require significantly greater skills or responsibilities or by the removal of any tasks which result in requiring significantly lesser skills or responsibilities, and the seniority placement of any employees who may be affected by such changes will be negotiated with the Union by the Company. The Company will prepare proposed job descriptions in such cases and deliver a copy to the Union with notification as to the rate of pay at least fourteen (14) calendar days prior to putting the new or changed job classifications in effect, and will discuss them with the Union if so requested. However, the performance of work as assigned by the Company shall not be delayed either by discussion between the parties regarding new or changed jobs or by any arbitration regarding newly created or modified jobs as provided in Section 25.05. In either instance, wage rates for new or modified jobs as finally determined will be retroactive to the date the new or changed duties were first performed.

SECTION 25.05: If the parties are unable to agree on the proposed establishment of new jobs or modifications and revisions to existing jobs, such issue may be submitted to arbitration at the request of the Union as provided for in Article 6 of this Agreement. In resolving such dispute, the Arbitrator shall only have the authority to establish an appropriate wage rate in proper relation to other existing job classifications for any new or revised job and may not create, revise or abolish job descriptions or specifications.

SECTION 25.06: If the Union believes that the job description for any existing job does not accurately describe the duties or responsibilities of the job due to creeping job changes or changes about which the Union was not formally notified, the Union shall notify the labor relations department of its desire to discuss such issue, and a meeting shall be scheduled within fourteen (14) calendar days. Such meeting shall be conducted by a Representative of the labor relations department, and attended by representatives of the Company and Union who are knowledgeable of the matters to be discussed. If negotiations between the parties do not result in an agreement as to the accuracy of any such job description, the Union may appeal the matter directly to arbitration under Article 6. Such appeal to arbitration shall be not earlier than thirty (30) calendar days following the parties' first meeting. The Arbitrator shall have authority to determine only the appropriate wage rate for the duties performed by the employee(s) in the affected classification and may not create, revise or abolish job descriptions.

SECTION 25.07: An employee who is temporarily assigned to a higher job classification for more than four (4) hours, shall receive the rate of pay for the classification for the entire day of the assignment. An employee assigned to fill a temporary job vacancy in a lower job classification shall suffer no reduction in pay. This section shall not be construed to modify or restrict any other provision of this Agreement.

SECTION 25.08: When an employee is temporarily assigned to a supervisory position outside the bargaining unit, he shall be paid seventy-five cents (75¢) per hour above his regular hourly rate of pay and shall not perform bargaining unit work except as provided in Article 29, Section 29.02. It is understood that any such assignment or assignments for any individual employee will not exceed eighty (80) work days in any calendar year provided, however, the Company may, upon notice to the

Union, extend an individual's assignment beyond the eighty (80) day limit if the employee is substituting for the extended absence of a Supervisor whose return to work is anticipated, but not subject to accurate prediction.

**ARTICLE 26**  
**MEDICAL AND DENTAL INSURANCE**

SECTION 26.01: An employee is eligible to participate in the Medical and Dental Plan upon his or her date of hire.

Employees covered by this Agreement will participate in medical plans on the same basis as all other regular full-time employees of the Company. The details of such medical benefits shall be as specifically provided in the master plan documents covering the terms of such plans. The Company will assume an increase of 4% in each year of the contract in medical and hospitalization expense per employee. To the extent this expense increases over 4%, the employees will absorb increases up to the next 4%. Should the total increase exceed 8%, the Company and the employees will equally share in the balance of that expense.

To the extent that individual plan premiums exceed the Company's contribution, the employees will contribute the additional cost of premiums according to the plan they select. Contributions will be made monthly on a pre-tax basis.

A joint Health Care Task Force will continue to meet biannually to review trends in health care, review current Company Medical benefit plans, and make cost containment recommendations. In the second and third year of the contract, the joint Health Care Task Force will be charged with the responsibility of recommending changes, including plan design changes and increases in co-pays on doctor visits and prescriptions. The task force will establish their priority as avoiding future increases in employee contributions to the extent practicable while maintaining the current quality of coverage. However, the Company retains the right in its sole discretion to modify the terms, conditions and level of benefits under these medical plans so long as benefits for employees covered by this Agreement are similar and comparable to the benefits applicable to all other regular full-time employees of the Company.

Effective January 1, 2009, the Company shall make a contribution to a health spending, health reimbursement or health savings account, as determined by the Company and established under a Company plan or applicable law, for the benefit of eligible Employees. Such contribution, which will be in the form of cash or credit, shall be made on an annual basis to the account of regular full-time Employees on the Company's payroll as of December 31<sup>st</sup> of the year prior to the year of contribution. The employee's use of the

contribution shall be governed by the provisions of the applicable health spending, health reimbursement or health savings account plan or law.

SECTION 26.02: Retiree Medical Insurance

A. Employees employed by the Company as of December 31, 2005, will be eligible for retiree medical benefits, the details of such benefits will be as specifically provided in the master plan documents or insurance contracts covering the terms of such plans. The Company will contribute monthly the following amounts toward the premiums for any medical plan sponsored by the Company, for those living retirees subscribing to such insurance through the Company.

Effective January 1, 2008, up to \$180.00 toward the cost of insurance premium for employee who retired at age of 55 or over, with at least 10 years of continuous service. Additionally, the employee's spouse or other dependant will be eligible for an additional \$100.00 toward the cost of his/her insurance premium, to a maximum total monthly contribution of \$280.00.

Effective January 1, 2010, the up to \$180.00 amount will be increased to \$190 toward the cost of insurance premium for employee who retired at age of 55 or over, with at least 10 years of continuous service. Additionally, the employee's spouse or other dependant will be eligible for an additional \$100.00 toward the cost of his/her insurance premium, to a maximum total monthly contribution of \$290.00.

B. Employees hired by the Company on or after January 1, 2006, will be eligible for the same retiree medical benefits however, the Company premium contribution will be a lump sum account that will spring into existence on the eligible retiree's date of retirement. This Retiree Medical Account must be used for the sole purpose of paying for retiree medical coverage through the Company.

The initial lump sum amount will be determined based on the following formula:

1. For the retiree, \$2,000, per year of service after age 45, with a maximum initial account balance of \$30,000.
2. For the dependents, a total initial account balance equal to 50 percent of the initial account balance for the retiree.

On the date the eligible employee retires, the Company will fund this Retiree Medical Account. Once funded, the account balance will be credited with interest based on the 10-

year Treasury rate subject to a four (4) percent minimum and a seven (7) percent maximum.

The retiree may elect to pay the age-related monthly premiums from the Retiree Medical Account in full or in part until the account balance reaches zero. Once the Retiree Medical Account is fully depleted, the retiree may continue medical coverage through the Company by paying 100 percent of the age-related monthly premiums.

The details covering the provisions of the Retiree Medical Account will be as specifically provided in the master plan document covering the terms of the plan.

SECTION 26.03: For the purpose of Section 26.02 of this Article, subscription to such insurance through the Company by retirees and any contribution by the Company toward the payment of premiums shall be contingent on the insured persons' being covered by the Company's medical plans at the time of the employee's retirement and the maintenance of continuous coverage and timely payment of all premiums.

SECTION 26.04: Payments made in accordance with Section 26.02 A. of this Article will exclude premiums for new spouses or dependents acquired through marriage after retirement. Such payments to retiree's spouse or other dependent will cease at the earliest of

- (a) the end of the 60<sup>th</sup> calendar month after the date of death of the retiree,
- (b) the end of the calendar month the dependent no longer is eligible under the terms of the Retiree Medical Continuation Plan,
- (c) the date the survivor dies, or
- (d) the beginning of the calendar month the survivor does not pay the required premium contribution under the terms of the Retiree Medical Continuation Plan.

Even if such payments cease under item (a) above, the survivor may continue to participate under the terms of the Retiree Medical Continuation Plan by paying the full premium.

SECTION 26.05: Employees may elect to participate in either the Delta Dental High Option or Delta Dental Basic Option provided by the Company. If the employee elects the Delta Dental Basic Option, no employee premium contribution is required. If the employee elects the Delta Dental High Option, the employee will contribute \$7 per month for single, \$17 per month for single plus one or children, or \$27 per month for family coverage. The contract between Delta Dental and the Company will govern in all matters related to the plan.

SECTION 26.06: If, pursuant to any Federal or State Law which may become effective during the term of this Agreement, the Company is required to make contributions or pay taxes for providing benefits which are already provided for under Company plans, then to the extent such benefits under any such Federal or State program would duplicate the benefits under the Company's plans, the Company shall be relieved of the obligation to provide such benefits under the Company's benefit plans.

**ARTICLE 27**  
**LIFE AND ACCIDENTAL DEATH AND DISMEMBERMENT INSURANCE**

SECTION 27.01: Effective 12/1/2008 the Company shall maintain the basic life insurance and accidental death and dismemberment plan on the basis of 2 times base rate of pay, maximum benefit of \$150,000. It will be provided on the same basis as it has in the past for those employees who are eligible and enroll in this plan.

Employees who retire on or after January 1, 2004 will be provided retiree life insurance based on the following schedule:

Age	Amount of Retiree Life Insurance
Age 55 but less than age 65	1 times base rate of pay as of the date of retirement
Age 65 but less than age 70	.5 times base rate of pay as of the date of retirement
Age 70 or older	\$10,000

SECTION 27.02: The Company will pay one hundred per cent (100%) of the total premium for the basic life insurance and accidental death and dismemberment plan for eligible employees who enroll in the plan.

SECTION 27.03: Employees may elect to participate in the optional life insurance plan at the rate of one (1), two (2), or three (3) times base salary. The employee will authorize payment of the applicable premium through payroll deduction.

SECTION 27.04: Employees may elect to participate in the dependent life insurance plan for a spouse and dependent child(ren) of either:

- 1) \$5,000 for a spouse and \$2,500 on each child, or
- 2) \$10,000 for a spouse and \$5,000 on each child, or
- 3) \$25,000 for a spouse and \$10,000 on each child, or
- 4) \$50,000 for a spouse and \$20,000 on each child. \*

*\* Enrollment in this fourth option will be subject to medical evidence of insurability and regulations imposed by the Kentucky Department of Insurance.*

The employee will authorize payment of the applicable premium through payroll deduction.

SECTION 27.05: Effective 1/1/09, an employee is eligible to participate in the basic life insurance, accidental death and dismemberment insurance, optional life insurance and dependent life insurance upon his/her date of hire. The details of the foregoing Plans shall be as specifically provided in the master plan documents covering the terms of such Plans.

## **ARTICLE 28 RETIREMENT INCOME PLAN AND DISABILITY BENEFITS**

SECTION 28.01: For employees employed by the Company on December 31, 2005, the Company will maintain in effect and pay the full cost for retirement income under the terms of the Louisville Gas & Electric Company Bargaining Employees' Retirement Plan.

Effective January 1, 2008, the basic pension formula was amended as follows:

Effective 1/1/2008

Pay grades 1-5:	\$63 per month per year of service (maximum of thirty (30) years)
Pay grades 6-9:	\$74 per month per year of service (maximum of thirty (30) years)
Pay grades 10-14:	\$80 per month per year of service (maximum of thirty (30) years)

Effective 1/1/2009

Pay grades 1-5:	\$65 per month per year of service (maximum of thirty (30) years)
Pay grades 6-9:	\$76 per month per year of service (maximum of thirty (30) years)
Pay grades 10-14:	\$83 per month per year of service (maximum of thirty (30) years)

Effective 1/1/2010

Pay grades 1-5:	\$67 per month per year of service (maximum of thirty (30) years)
Pay grades 6-9:	\$79 per month per year of service (maximum of thirty (30) years)
Pay grades 10-14:	\$86 per month per year of service (maximum of thirty (30) years)

Effective 1/1/2011

Pay grades 1-5:	\$70 per month per year of service (maximum of thirty (30) years)
Pay grades 6-9:	\$82 per month per year of service (maximum of thirty (30) years)
Pay grades 10-14:	\$89 per month per year of service (maximum of thirty (30) years)

Employees hired by the Company on or after January 1, 2006 are not eligible to participate in the Louisville Gas and Electric Company Bargaining Employees' Retirement Plan. Instead they are eligible to participate in the Retirement Income Account (see Section 28.08) under the terms of the Louisville Gas and Electric Company Bargaining Employees' Savings Plan.

SECTION 28.02: There will be no interruption in the accumulation of retirement benefits under the Louisville Gas and Electric Company Bargaining Employees' Retirement Plan unless an employee's pay ceases. If the employee becomes entitled to additional "sick pay" after interruption of the employee's "sick pay" there will be no accumulation of retirement benefits for the period covered by the additional "sick pay." Accumulation of retirement benefits will be resumed after the employee returns to work.

If the employee's initial date of disability is after January 1, 2004 and the employee is receiving benefits under the Long-Term Disability Plan, the employee will continue to accrue Service and Credited Service under the Louisville Gas and Electric Company Bargaining Employees' Retirement Plan.

SECTION 28.03: A retired employee shall be entitled only to those benefits provided by the Louisville Gas and Electric Company Bargaining Employees' Retirement Plan which are in effect at the time of the employee's retirement. Any changes in the employee's Social Security benefits which become effective after the employee retires shall not reduce the benefits which the employee draws under the Plan.

SECTION 28.04: The Company may set reasonable requirements for advance notice to the Company by an employee who elects to retire before age 65 but may, at its discretion, waive such requirements on an individual basis, for good cause, without any obligation similarly to waive such requirements in any other case.

SECTION 28.05: If the employee's initial date of disability is after January 1, 2004, the Company will provide the following Long-Term Disability benefits:

- (a) Employees who become totally and permanently disabled will be eligible for disability income under the Long Term Disability Plan if they have completed five (5) years of service at the time of disability.
- (b) The amount of monthly disability income payable to a disabled employee is determined as follows:

Sixty percent (60%) of the employee's basic monthly earnings computed at his straight-time hourly rate immediately prior to the time of disability, to a maximum benefit of \$15,000, reduced by;

1. One hundred percent (100%) of any Social Security Benefit, and
2. One hundred per cent (100%) of any benefits payable under Kentucky Workers' Compensation laws or the Workers' Compensation laws of any other State or benefits payable under any Federal government benefit plans.

SECTION 28.06: The Company shall amend the Plan to reflect the amendments to same as set forth in this Article 28. The Company reserves the right to make such Amendments to the Plan as are necessary to comply with the Employee Retirement Income Security Act of 1974, any amendments thereof or regulations pertaining thereto, and all other Federal or State laws or regulations.

SECTION 28.07: Louisville Gas and Electric Company Bargaining Employees' Savings Plan: An employee is eligible to participate on the first day of the month on or after the three (3) month anniversary of his/her date of hire. Effective November 12, 2007, the Company matching contribution is 70 percent on employee contributions up to six (6) percent of covered compensation. Effective January 1, 2006, employees may contribute up to an additional 69 percent of covered compensation on a pre-tax, but unmatched basis, for a maximum of 75 percent. Effective January 1, 2006, employees age 50 or older may make "catch-up" contributions. Effective January 1, 2006, covered compensation shall include overtime and premium pay. Upon adoption by the E.ON U.S. LLC Board of Directors, the Louisville Gas and Electric Company Bargaining Employees' Savings Plan will be amended effective January 1, 2008, to allow employee contributions to be made as Traditional 401(k), Roth 401(k), or a combination of both.

SECTION 28.08: Louisville Gas and Electric Company Bargaining Employees' Savings Plan: Employees hired by the Company on or after January 1, 2006, will be eligible for the Retirement Income Account under the terms of the Louisville Gas and Electric Company Bargaining Employees' Savings Plan. The Company will make an annual lump sum contribution based on the following schedule to the employee's Retirement Income Account.

Years of Service as of January 1	Percent of Covered Compensation
Less than 6	3 percent

6 but less than 11	4 percent
11 but less than 16	5 percent
16 but less than 21	6 percent
21 or more	7 percent

The annual lump sum contribution will be made by April 1 of the applicable year and the employee will be immediately 100 percent vested. Such bargaining unit employees on the active payroll as of December 31 of the preceding year, regardless of whether the employee has satisfied the three month eligibility requirement, will receive this annual lump sum contribution. The details covering the provision of the Retirement Income Account will be as specifically provided in the master plan document covering the terms of the plan.

**ARTICLE 29**  
**GENERAL PROVISIONS**

SECTION 29.01: Severe Weather - The Company agrees that it will not require employees to work in exposed and unprotected areas during severe weather conditions except in the event of an emergency or where such work is necessary to protect life, limb, property or maintain continuity of service or operations. Where such severe weather conditions exists, which prevent an employee from performing his normal work, the employee may be assigned by his supervisor to other available work.

SECTION 29.02: Supervisors Working - The Company's intention is to not perform bargaining unit work with supervisors except in emergencies or training situations (including maintaining and updating the supervisor's own job knowledge and proficiency). The union agrees that it is not a violation of this section if a supervisor performs bargaining unit work due to an unscheduled absence of an employee during the first two (2) or last two (2) hours of a shift.

SECTION 29.03: Footwear Payroll Deductions - The Company will authorize payroll deductions for employee purchases of up to two (2) pair of shoes each year from the following stores:

Red Wing Shoe Stores:

4008 Dixie Highway  
7208 Preston Highway

12424 Shelbyville Road  
1408 Eastern Blvd., Clarksville, Ind.

Shaheen's:

2604 Portland Avenue

Lehigh Safety Shoes:

3103 Fern Valley Road

The Company may schedule a Shoemobile for employees purchases, either prior to or after normal working hours.

The Company reserves the right to delete any of the above stores from this list for failure to comply with the provisions of this Section.

SECTION 29.04: Workwear Cleaning Payroll Deductions - The Company will authorize payroll deduction for providing and cleaning of approved workwear by a reputable supplier of these services. The initial selection and/or subsequent substitution of the supplier by the Union shall be subject to approval by the Company which has the right to establish rules and regulations dealing with the activities of the supplier on Company property. The Company is not a guarantor or indemnitor of either employees or the supplier with respect to payment for services and shall be held harmless for damages to the supplier's equipment or property and this shall be made an express condition of any contract entered into with the supplier.

SECTION 29.05: Meals

- (a) Neither a meal nor a meal allowance will be provided to an employee for the first ten (10) hours of work on any day when the employee receives at least two (2) hours notice of the overtime prior to the time the employee reports for work, or is directed to commence work before his starting time after reporting to his work location.
- (b) In the absence of two (2) hours notice, a meal or an allowance of \$6.00 in lieu thereof will be provided under the following conditions:
  - (1) For an employee who is called-in for overtime work in accordance with Section 9.06 and who works more than three (3) hours.
  - (2) To an employee who works two (2) hours or more of unscheduled daily overtime.
- (c) An additional meal or allowance will be provided every five (5) hours after the first meal or allowance is provided until the employee is released from work.
- (d) When employees working overtime, under the provisions of this Section, are required by supervision to remain on duty but are permitted time in which to consume a meal, such time will not be deducted from the employee's overtime pay.
- (e) Meal allowances may be paid as a function of the regular payroll.
- (f) Eligibility for a meal or an allowance, or for additional meals or allowances as contained in this Section will be determined by utilizing the procedure of rounding to the nearest fifteen (15) minutes as is now used in the payroll system.

**SECTION 29.06: Commercial Drivers License (CDL)**

The Company will reimburse an employee required to have a CDL in the performance of his duties an amount equal to the difference between the cost of the CDL and a standard drivers license.

**SECTION 29.07:** Should an employee suffer an occupational injury to his person, and as a direct result of such injury, suffer damage to his eyeglasses, hearing aid or dentures, the Company shall, upon presentation of the damaged item and verification of the injury to the employee, reimburse the employee for the expense incurred in the repair or, if necessary, replacement of the item. Any items replaced under this Section shall be of the equivalent quality and price as the item damaged or destroyed as a direct result of the occupational injury.

**SECTION 29.08:** All bargaining unit employees who wish to exercise their right to vote on Election Day will be expected to do so either before or after their regularly scheduled workday. Time off with pay, up to a maximum of two hours, may be allowed an individual to vote if all of the following conditions are met:

- (a) Arrangements are made prior to the end of the employee's shift on the day preceding the election;
- (b) When the employee does not have sufficient time, either before or after his shift to vote; and,
- (c) Any time off with pay for this purpose will be at the beginning of the employee's shift.

Employees who are excused from work to work at the polls will not be entitled to any compensation.

**SECTION 29.09: Educational Assistance -** The Company sponsors both a Tuition Refund Plan and a Basic Education and Vocational Training Support Program in which bargaining unit employees are eligible to participate. These educational programs are described in documents available in the Human Resources Department. These programs are subject to expansion, modification or termination by the Company.

**SECTION 29.10: Dependent Care -** The Company and the Union agree to continue, pursuant to Section 129 of the Internal Revenue Code, a payroll deduction plan for dependent care services. This program will be continued unless, by later action, the Internal Revenue Service or other governmental entity repeals or otherwise eliminates the advantage, to employees, of participating in such a program.

**Section 29.11: Work Practices –** The Union agrees to meet with local management during the term of this agreement to discuss changes in work practices that may be unique to the area and/or site.

**ARTICLE 30**  
**SPECIAL PREMIUMS**

SECTION 30.01: Hot Stick Premium - When employees assigned to the Electric Service Delivery Department are required to do hot stick work on 33KV and above, a premium of fifty cents (\$.50) per hour will be paid for the entire day on which such work is performed. When such employees perform the duties of transmission patrol, a premium of twenty-five cents (\$.25) per hour will be paid for the entire day on which such work is performed.

SECTION 30.02: Sunday Premium - A premium of one dollar and twenty-five cents (\$1.25) per hour will be paid for all hours (including overtime hours) worked on a Sunday by an employee for whom Sunday is one of his five (5) regularly scheduled workdays for that week. Additionally, Sunday premium will be paid for all planned overtime hours worked on Sunday.

The premium will not be paid for call-in overtime hours worked on Sunday; however, in the case of an employee initially scheduled for planned overtime on Sunday, and who, because of an emergency arising during the course of the planned overtime assignment has the overtime converted to call-in, the premium will remain in effect for the duration of the original planned overtime assignment.

SECTION 30.03: Hazardous Work Premium - A hazardous duty premium of one-half (1/2) times the employee's regular straight-time hourly rate shall be paid for hours spent performing hazardous duty work. The hazardous duty premium will not be paid when an employee is being paid at his overtime rate and the hazardous duty premium will not be compounded with other premium payments.

Hazardous duty work shall mean emergency duties of an unusual nature involving significant risks, which are not commonly incurred in the performance of his normal duties, or the performance of duties under conditions of weather, environment, or other situations which materially increase the hazards involved in the performance of those duties which shall include but not be limited to the electric line repair work in connection with storm damage.

This premium will not be paid for permanent repairs required at locations temporary repairs were made to restore service at the time of the initial weather related customer service interruption.

**ARTICLE 31  
MILEAGE ALLOWANCE**

SECTION 31.01:

Personal Vehicle Usage:

If an employee is instructed to report to work at another location, he will be reimbursed for personal vehicle usage while on Company business at the approved reimbursement rate. The employee will be reimbursed for mileage in excess of their normal round trip mileage. Normal round trip is defined as travel from home to the normal Company work location and back home. This rule includes reporting to either another Company location or off-site for training or other business purposes.

This mileage allowance does not apply to those employees whose regular job requires them to report at various locations, nor to employees who are transferred from one work location to a new work location on a permanent assignment.

SECTION 31.02: Employees permanently assigned to payroll division 53 who are required to use their personal vehicles in the performance of Company duties (except travel to work from home and back) shall be paid mileage at the Company's regular mileage rate for occasional use of personal cars in accordance with Section 31.01 above. For purposes of administration, each book will have a defined mileage assigned that is reflective of the mileage required to read the book.

**ARTICLE 32  
SERVICE WATCH AND STANDBY**

The Company routinely assigns employees to weekly service watches to answer calls and make service runs outside their normal scheduled workday. These assignments are made at the beginning of the employee's regular workweek and continue for seven (7) consecutive days. Each employee who is assigned to a weekly service watch will be paid eighty-five dollars (\$85.00) per week. If an employee works on service calls outside his normal scheduled workday during his watch week, he will be paid for such time worked in accordance with Article 9 - Overtime. However, time spent during such service watches will not be counted as overtime hours for equalization purposes under Article 9.

If an employee is assigned a service watch or required to "standby" for service calls for less than one (1) week, he will be paid one (1) hour's pay at his appropriate overtime rate in addition to time spent on any service calls for each day he is assigned to a service watch or required to "standby" for service calls. Only actual hours worked will be counted for overtime equalization purposes under Article 9.

**ARTICLE 33**

## **PERSONAL TOOLS AND SAFETY EQUIPMENT**

SECTION 33.01: If an employee is required by the Company to use his personal tools in connection with his work, the Company will replace such tools if they are stolen or destroyed while in the custody and control of the Company.

SECTION 33.02: The Company will continue to furnish employees with tools and equipment which it usually and customarily furnishes employees. Additionally, the Company will furnish employees all safety equipment and protective devices, including leather work gloves, required by the Company or by law to maintain recognized standards of safety. An employee shall wear or utilize all safety equipment and protective devices issued to him. The employee will be subject to appropriate disciplinary action if such tools and/or equipment is intentionally damaged or destroyed by the employee.

SECTION 33.03: The Company will provide an annual tool and equipment allowance in the amount of \$100.00, to be paid on the employee's anniversary date of employment, for employees permanently assigned to the below-listed job classifications:

Substation Control Technician A, B & Specialist  
Substation Equipment Technician A, B & Lead

SECTION 33.04: At the request of the Union, the Company agrees to review any present or future job classification to determine which tool allowance rate, if any, is appropriate for that particular job classification.

**ARTICLE 34**  
**HEALTH AND SAFETY**

SECTION 34.01: The Company and the Union recognize the need for a strong Health and Safety Program for the benefit of all employees and the Company. The Union will cooperate in assisting and maintaining the Company's rules regarding health and safety. The Company recognizes the interest of the Union in the health and safety of its members, and will give careful consideration to any recommendations made by it.

SECTION 34.02: Working conditions which adversely and unreasonably impair the health and safety of employees shall be brought to the attention of supervision for immediate correction, if necessary. The Company agrees to investigate conditions which have a legitimate impact on the health and safety of employees. Accordingly, upon reasonable advance notice, the Company will meet with the appropriate Union Safety Committee member to discuss the nature of the complained of condition and to determine what, if any, remedial measures shall be taken. The Union shall keep the Manager, Health and Safety, fully advised of the members of its Safety Committee which shall be made up of not more than one individual per department and per shift, if appropriate, at each location.

SECTION 34.03: The Company and the Union agree to continue the Joint Health and Safety Advisory Committee for the purpose of reviewing, discussing and recommending new or revised safety and health rules and procedures. The Committee shall be chaired by the Manager, Health and Safety, and shall meet at least monthly. This Committee shall consist of not more than three (3) members of the Company and three (3) members of the Union. The Union representatives who shall attend a particular meeting shall be made known to the Manager, Health and Safety not less two (2) weeks prior to the date established for the meeting. At the same time, the Union shall notify the Company of the subjects it desires to address at the meeting. The Manager, Health and Safety, shall appoint two (2) associates to attend the meeting whose names shall be made known to the Union not later than one (1) week prior to the meeting.

SECTION 34.04: It is agreed that the establishment and enforcement of safety rules and regulations is a proper function of management and to that end the final determination as to adoption and implementation of any proposed changes in safety rules and regulations shall be the sole responsibility of the Company.

SECTION 34.05: It is understood that any dispute arising out of the interpretation, application or implementation of written health and safety rules shall be proper subjects for Articles 5 and 6 of this Agreement.

SECTION 34.06: Meetings as described in Section 34.03 shall be conducted between the hours of 8:00 a.m. and 5:00 p.m. on a week day. Union representatives authorized to attend such meetings shall be compensated by the Company not to exceed eight (8) straight-time hours on the day of the meeting. The Union Safety Director will be released from regularly assigned duties on the workday

which coincides with a scheduled meeting of the Joint Health and Safety Advisory Committee and up to two (2) additional days, if needed, for purposes of preparing for and participating in the meeting. The Union Safety Director shall suffer no reduction in straight-time earnings.

**ARTICLE 35  
NON-DISCRIMINATION**

SECTION 35.01: There shall be no discrimination by the Company or the Union in the application of the terms of this Agreement because of race, color, religion, national origin, age, sex, handicap, or status as a disabled veteran or veteran of the Vietnam Era.

SECTION 35.02: The use of the masculine or feminine gender in this Agreement shall be construed as including both genders and not a sex limitation unless the Agreement clearly requires a different construction.

**ARTICLE 36  
SAVING CLAUSE**

It is understood and agreed that the provisions of this Agreement are in all respects subject to all applicable laws and governmental regulations now or hereafter in effect and to the lawful rulings and orders of all regulatory commissions now or hereafter having jurisdiction. Should any provision of this Agreement be found to be in conflict with any lawful ruling or regulation, the parties will meet for the purpose of discussing and/or modifying that portion of the Agreement only.

**ARTICLE 37  
ENTIRE AGREEMENT**

This Agreement sets out the entire understanding between the Company and the Union. Neither party intends to be bound or obligated except to the extent that it has expressly so agreed herein, and this Agreement shall be strictly construed, provided, however, that the execution of this Agreement shall not invalidate any written agreement between the parties which is not in conflict with the terms of this Agreement, though such written agreement may have been reached prior to the date of this Agreement. Nothing herein shall be construed, however, to prevent the parties from reaching agreements after the effective date of this Agreement which are in conflict with the terms of this Agreement. (Such conflicting agreements must be approved by the Union President or a Business Representative and a representative of the Company's labor relations staff.) Such written agreement shall be incorporated in this Agreement and shall be valid for the life of this Agreement and any extension thereof, unless rescinded by the parties hereto.

**ARTICLE 38**  
**DURATION OF AGREEMENT**

The effective date of this Agreement is November 11, 2008. Subject to the terms of the benefits reopening provision detailed below, this Agreement shall be in full force and effect for the entire period from November 11, 2008, through midnight of November 10, 2011, and from year to year thereafter, unless either party hereto shall, at least sixty (60) days prior to November 10, 2011, or the tenth day of November, in any year thereafter, notifies the other party in writing of its intention and desire to terminate this Agreement.

This Agreement may be extended by the mutual agreement of the parties. Such extension must be in writing and the extension may thereafter be terminated at any time by either party by giving forty-eight (48) hours written notice to the other party of the desire to terminate such extension.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representative:

## APPENDIX A

### Wages

- a) Effective November 17, 2008, there shall be a three and one-half percent (3.5%) general wage increase applied to the wage rates in effect, rounded to the nearest one (1) cent.
- b) Effective November 16, 2009, there shall be a three and one-half percent (3.5%) general wage increase applied to the wage rates in effect, rounded to the nearest one (1) cent.
- c) Effective November 15, 2010, there shall be a three and one-half percent (3.5%) general wage increase applied to the wage rates in effect, rounded to the nearest one (1) cent.

Effective January 1, 2003, employees covered by this collective bargaining agreement will be eligible to participate in the Team Incentive Award Program (TIA), subject to the terms of such TIA program as determined and modified by the Company from time to time. The first payout will be due in March, 2004 and will be targeted (100% rate) at 6% of the employee's annual earnings including overtime and premium pay.

Lines of progression and assigned paygrades are contained in a separate document.

Employees presently in classifications which have received an upgrade by virtue of a new assigned paygrade will receive the appropriate upgrade.

Employees who have received a downgrade by virtue of a new assigned paygrade; or who are presently in classifications which have had the rate for the paygrade reduced, will be "red-circled" at their rate of pay until such time as the rate for the employee's assigned paygrade equals and exceeds the employee's rate of pay or until the employee changes job classification under Article 10.

The preceding two (2) paragraphs are general rules which shall apply to all employees described therein unless expressly agreed otherwise by separate Memorandum of Agreement, or by Article 19 of this Agreement.

The "50% rate" as used in this Agreement shall be defined as the rate of pay which results from reducing an employee's former rate of pay by fifty percent (50%) of the difference between his former rate of pay and the rate of pay for his new classification.

NOTE: Lines of progression are utilized for the purpose of establishing classifications with assigned paygrades, minimum times in grade to attain the necessary experience for promotional

consideration, and journeymen levels in the lines of progression. An asterisk (\*) indicates those lines of progression wherein employees, hired prior to January 1, 2000, will be afforded opportunity to advance to the journeyman job classification without regard to whether or not a vacancy exists in that classification. An employee in such a line of progression must, however, meet the minimum qualifications for advancement into the next higher classification. The asterisk in the lines of progression denotes the journeyman job classification to which the employee may advance under this paragraph. Advancement of qualified employees pursuant to this paragraph shall be effective at the beginning of the payroll period nearest an employee's having satisfied the minimum time in grade requirement for his classification.

Employees hired after January 1, 2000, will be afforded the opportunity to advance to the classification below journeyman without regard to whether or not a vacancy exists in that classification. An employee in such a line of progression must, however, meet the minimum qualifications for advancement into the higher classification. Advancement of qualified employees pursuant to this paragraph shall be effective at the beginning of the payroll period nearest an employee's having satisfied the minimum time in grade requirement for his classification.

Employees hired after November 13, 1989, who for any reason, fail to satisfactorily progress to and retain a journeyman classification, or a lower classification deemed necessary by the Company as described with this Note, may be separated without regard to other provisions of Article 10.

Employees reclassified to a lower rated job in a similar line of progression as the result of a layoff or a reduction in their line of progression (where no layoff occurs due to openings elsewhere), may have the minimum time in grade requirements for promotion to the next higher rated job reduced to the following:

- (a) Six (6) months for employees reclassified to entry level classifications; or
- (b) One (1) year for employees reclassified to higher than entry level classification.

Nothing herein shall be construed, however, to require the Company to promote an employee who, despite serving the minimum time(s) set forth above, is not qualified as set forth in Article 10 of this Agreement.

## APPENDIX B

Contractual benefits will be modified for employees who are working abnormal shifts as follows:

- I. For employees working four (4) days, ten (10) hours per workday schedule ("four/tens" hereafter).
  - A. Overtime
    - (1) Employees working a "four/tens" schedule shall be afforded overtime for hours worked beyond ten (10) in one day, or forty (40) in one week notwithstanding the provisions of Article 9, Section 9.01(a)(1).
    - (2) For work on the first and second scheduled offday of the workweek, the employee will receive compensation as provided for in Article 9, Section 9.01(a)(2).
    - (3) For work on the third scheduled offday of the workweek, the employee will receive compensation as provided for in Article 9, Section 9.01(a)(2) and Article 9, Section 9.02(b)(4).
  - B. Vacations
    - (1) Vacation entitlement as described in Article 13, Section 13.01 shall be converted to straight-time hours for employees working a "four/tens" schedule. Thus, employees on such a schedule taking one (1) week's vacation shall receive payment for four (4) days, ten (10) hours per day.
    - (2) Vacations shall normally be scheduled in periods of one (1) full week or more. Shorter periods of vacation will be allowed in accordance with the provisions of Article 13, Sections 13.09 and 13.10. Additionally, the wages the Company shall pay during a period of vacation of less than one full week shall be computed on the basis of a ten (10) hour workday. Thus, employees on a "four/tens" work schedule taking periods of vacation of less than one full week shall receive ten hours of pay provided they have at least ten (10) hours of vacation entitlement remaining.
    - (3) For the purposes of determining "straight-time hours worked" as used in Article 13, Section 13.03 for those employees working a "four/tens" schedule, days actually worked including partial days where five (5) or more hours are actually worked, shall count as ten (10) straight-time hours. Additionally, such employees taking a period of vacation of less than one full week as described in items B.(1) and (2) above shall have such days count as

ten (10) straight-time hours provided they have at least five (5) hours of compensation for vacation on such day.

- (4) For the purposes of determining "straight-time hours worked" as used in Article 13, Section 13.03 for those employees working a four (4) day, ten (10) hour per day work schedule utilizing Jury Duty benefits as described in Article 22 of the Contract and item H. below, such days shall count as ten (10) straight-time hours provided they receive at least five (5) hours of jury duty pay.

C. Holidays

- (1) For all weeks on which a Company-wide holiday falls, an employee's work schedule will revert back to a five (5) day, eight (8) hour per day work schedule.
- (2) An employee utilizing a floating holiday as provided for in Article 12, or an earned holiday as provided for in Article 16, shall receive eight (8) hours of straight-time holiday pay at the applicable wage rate. Additionally, the employee may elect to utilize two (2) hours of vacation entitlement.

D. Physical Exams

Pursuant to Article 14, Section 14.03, all medical expense made necessary by the Article shall be paid for by the Company. Except for an employee's examination in connection with acceptance for employment or as otherwise set forth in Article 14, employees working a "four/tens" schedule shall receive pay for time spent, not to exceed ten (10) hours including time worked that day, having such physical examination.

E. Sickness Leave of Absence

- (1) For the purposes of Article 16, Section 16.02 as applied to employees working a "four/tens" schedule, payment will be made for regularly scheduled workdays on the basis of not to exceed ten (10) hours for any scheduled workday and not to exceed forty (40) hours in any workweek, computed at straight-time exclusive of shift premium or any other premium pay. Regularly scheduled workday shall mean one of the first four (4) regularly scheduled workdays which constitute the basic forty (40) hours per week.
- (2) For the purposes of Article 16, Section 16.03 as applied to employees working a "four/tens" schedule, payment will be made for time so lost

beginning with the expiration of the twenty-four (24) scheduled work hours of any one continuous absence except:

- a. If one (1) scheduled offday falls within such three (3) day waiting period, it shall not count as one (1) day of the waiting period. If two (2) consecutive scheduled offdays fall within such three (3) day waiting period, they shall be counted as ten (10) hours of the waiting period. If three (3) consecutive scheduled offdays fall within such three (3) day waiting period, they shall be counted as ten (10) hours of the waiting period. If four (4) consecutive scheduled offdays fall within such three (3) day waiting period, they shall be counted as twenty (20) hours of the waiting period.
  - b. If an employee is forced by illness to leave the employee's workplace before the employee's regular quitting time on the last scheduled workday before scheduled offdays, any two (2) such offdays, if consecutive, shall be counted as ten (10) hours of the waiting period.
  - c. An employee who reports for work on a regularly scheduled workday, but is forced by illness to leave work before working more than five (5) hours shall have that day count as ten (10) hours of the required waiting period. An employee who is forced by illness to leave work after working more than five (5) hours, but less than ten (10) hours may be paid on the third (3rd) day of the waiting period an equivalent number of hours as those lost because of the sickness on the last day worked if the third (3rd) day of the waiting period is a scheduled workday. Such partial of payment shall not be counted against an employee's total day entitlement.
- (3) For purposes of Article 16, Section 16.04(b) and Article 16, Section 16.09 as applied to employees working a "four/tens" schedule, days actually worked including partial days where five (5) or more hours are actually worked will count as time worked.

F. Supplement to Workers' Compensation

- (1) For the purposes of Article 18, Section 18.01 as applied to employees working a "four/tens" schedule, payment will begin at the expiration of twenty-four (24) work hours of such absence as described in Article 18, Section 18.01 except:
  - a. If one (1) scheduled offday falls within such three (3) day waiting period, it shall not count as one (1) day of the waiting period. If two (2) consecutive scheduled offdays fall within such three (3) day

waiting period, they shall be counted as ten (10) hours of the waiting period. If three (3) consecutive scheduled offdays fall within such three (3) day waiting period, they shall be counted as ten (10) hours of the waiting period. If four (4) consecutive scheduled offdays fall within such three (3) day waiting period, they shall be counted as twenty (20) hours of the waiting period.

- b. If an employee is forced by injury to leave the employee's workplace before the employee's regular quitting time on the last scheduled workday before scheduled offdays, any two (2) such offdays, if consecutive, shall be counted as ten (10) hours of the waiting period.
- c. If an employee is injured after reporting to work or is required to go to the Company's doctor for treatment on a scheduled workday, the employee shall be paid at the employee's regular straight-time rate for the remaining hours of the employee's regularly scheduled workday, not to exceed ten (10) hours in total for such day, except that no payment shall be made for time required to visit the doctor on any day the employee is off duty for any reason while the employee is still receiving benefits under Article 18.

G. Funeral Leave

Employees on a "four/tens" schedule will be entitled to ten (10) hours of straight-time pay for each day of Funeral Leave entitlement.

H. Jury Duty

Employees on a "four/tens" schedule will be entitled to ten (10) hours of straight-time pay for each day of Jury Duty entitlement subject to the provisions of Article 22.

I. Meal Allowances

During such time that an employee is working a "four/tens" schedule, neither a meal nor a meal allowance will be provided to an employee for the first twelve (12) hours of work on any day when the employee receives at least two (2) hours notice of the overtime prior to the time the employee reports to work, or is directed to commence work before his starting time after reporting to his work location.

II. For employees working a 12-hour shift per workday schedule:

A. Shift Premiums

Employees who work the day shift of a 12-hour schedule are not entitled to shift premium. Employees who work the night shift of a 12-hour schedule are eligible for the third shift premium described in Article 8, Section 8.05.

B. Overtime

- (1) Employees working a 12-hour shift schedule shall be afforded overtime for hours worked beyond twelve (12) in one day, or forty (40) in one week notwithstanding the provisions of Article 9, Section 9.01(a)(1).
- (2) For work on the last scheduled off-day of the workweek, the employee will receive two (2) times the employees straight-time hourly wage rate assuming the following conditions have been met:
  - a) Employee has worked each of his regular scheduled work days, unless not worked for reasons set forth in Section 16.05.
  - b) The employee has worked at least one scheduled off day and that day was paid at the overtime rate or the employee was not offered overtime on previous scheduled off days.
- (3) For all other scheduled off days of the workweek, the employee will receive one and one half (1 ½ ) times the employee's straight-time hourly wage rate assuming the following condition has been met.
  - a) Employee has worked each of his regular scheduled work days, unless not worked for reasons set forth in Section 16.05.

C. Vacations

- (1) Vacation entitlement as described in Article 13, Section 13.01 shall be converted to straight-time hours for employees working a 12-hour shift schedule. Employees on such a schedule taking one (1) week's vacation shall receive straight-time payment for regular scheduled hours in that workweek, provided they have vacation entitlement remaining.
- (2) Vacations shall normally be scheduled in periods of one (1) full week or more. Shorter periods of vacation will be allowed in accordance with the provisions of Article 13, Sections 13.09 and 13.10. Additionally, the wages the Company shall pay during a period of vacation of less than one full week shall be computed on the basis of a twelve (12) hour workday. Thus, employees on a 12-hour shift schedule taking periods of vacation of less than one full week shall receive twelve (12) hours of pay provided they have at least twelve (12) hours of vacation entitlement remaining.

- (3) Days actually worked or partial days where six (6) or more hours are actually worked, shall count as twelve (12) straight-time hours for the purposes of determining "straight-time hours worked" as used in Article 13, Section 13.03 for those employees working a 12-hour shift schedule. Additionally, such employees taking a period of vacation of less than one full week as described in items C.(1) and (2) above shall have such days count as twelve (12) straight-time hours provided they have at least six (6) hours of compensation for vacation on such day.
- (4) For the purposes of determining "straight-time hours worked" as used in Article 13, Section 13.03 for those employees working a 12-hour shift schedule utilizing Jury Duty benefits as described in Article 22 of the Contract and item I. below, such days shall count as twelve (12) straight-time hours provided they receive a least six (6) hours of jury duty pay for such day they receive jury duty pay.

D. Holidays

- (1) For all weeks on which a Company-wide holiday falls, an employee who is scheduled to work the holiday, but does not actually work such holiday will receive eight (8) hours of straight-time holiday pay at the applicable wage rate. Additionally, the employee may elect to utilize four (4) hours of vacation entitlement.
- (2) An employee utilizing a floating holiday as provided for in Article 12, or an earned holiday as provided for in Article 16, shall receive eight (8) hours of straight-time holiday pay at the applicable wage rate. Additionally, the employee may elect to utilize four (4) hours of vacation entitlement.

E. Physical Exams

Pursuant to Article 14, Section 14.03, all medical expense made necessary by the Article shall be paid for by the Company. Except for an employee's examination in connection with acceptance for employment or as otherwise set forth in Article 14, employees working a 12-hour shift schedule shall receive pay for time spent, not to exceed twelve (12) hours including time worked that day, having such physical examination.

F. Sickness Leave of Absence

- (1) Sick leave entitlement as described in Article 16, Section 16.02, shall be converted to straight-time hours for employees working a 12-hour shift schedule. Payment will be made for regularly scheduled workdays not to

exceed twelve (12) hours for any scheduled workday, computed at straight-time exclusive of shift premium or any other premium pay.

- (2) For the purposes of Article 16, Section 16.03 as applied to employees working a 12-hour shift schedule, payment will be made for time so lost beginning with the expiration of the twenty-four (24) scheduled work hours of any one continuous absence except:
  - a. If one (1) scheduled offday falls within such 24-hour waiting period, it shall not count toward the waiting period. If two (2) consecutive scheduled offdays fall within such 24-hour waiting period, they shall be counted as twelve (12) hours of the waiting period. If three (3) consecutive scheduled offdays fall within such 24-hour waiting period, they shall be counted as twelve (12) hours of the waiting period. If four (4) consecutive scheduled offdays fall within such 24-hour waiting period, they shall be counted as twenty-four (24) hours of the waiting period.
  - b. If an employee is forced by illness to leave the employee's workplace before the employee's regular quitting time on the last scheduled workday before scheduled offdays, any two (2) such offdays, if consecutive, shall be counted as twelve (12) hours of the waiting period.
  - c. An employee who reports for work on a regularly scheduled workday, but is forced by illness to leave work before working more than six (6) hours shall have that day count as twelve (12) hours of the required waiting period. An employee who is forced by illness to leave work after working more than six (6) hours, but less than twelve (12) hours may be paid on a day of the waiting period an equivalent number of hours as those lost because of the sickness on the last day worked if the day of the waiting period is a scheduled workday. Such partial of payment shall not be counted against an employee's total day entitlement.
- (3) For purposes of Article 16, Section 16.04(b) and Article 16, Section 16.09 as applied to employees working a 12-hour shift schedule, days actually worked including partial days where six (6) or more hours are actually worked will count as time worked.

G. Supplement to Workers' Compensation

- (1) Supplement to Workers' Compensation entitlement as described in Article 18, Section 18.01, shall be converted to straight-time hours for employees

working a 12-hour shift schedule. Payment will begin at the expiration of twenty-four (24) work hours of such absence as described in Article 18, Section 18.01 except:

- a. If one (1) scheduled offday falls within such 24-hour waiting period, it shall not count toward the waiting period. If two (2) consecutive scheduled offdays fall within such 24-hour waiting period, they shall be counted as twelve (12) hours of the waiting period. If three (3) consecutive scheduled offdays fall within such 24-hour waiting period, they shall be counted as twelve (12) hours of the waiting period. If four (4) consecutive scheduled offdays fall within such 24-hour waiting period, they shall be counted as twenty-four (24) hours of the waiting period.
- b. If an employee is forced by injury to leave the employee's workplace before the employee's regular quitting time on the last scheduled workday before scheduled offdays, any two (2) such offdays, if consecutive, shall be counted as twelve (12) hours of the waiting period.
- c. If an employee is injured after reporting to work or is required to go to the Company's doctor for treatment on a scheduled workday, the employee shall be paid at the employee's regular straight-time rate for the remaining hours of the employee's regularly scheduled workday, not to exceed twelve (12) hours in total for such day, except that no payment shall be made for time required to visit the doctor on any day the employee is off duty for any reason while the employee is still receiving benefits under Article 18.

H. Funeral Leave

Employees on a 12-hour shift schedule will be entitled to twelve (12) hours of straight-time pay for each day of Funeral Leave entitlement.

I. Jury Duty

Employees on a 12-hour shift schedule will be entitled to twelve (12) hours of straight-time pay for each day of Jury Duty entitlement subject to the provisions of Article 22.

J. Meal Allowances

During such time that an employee is working a 12-hour shift schedule, neither a meal nor a meal allowance will be provided to an employee for the first fourteen (14)

hours of work on any day when the employee receives at least two (2) hours notice of the overtime prior to the time the employee reports to work, or is directed to commence work before his starting time after reporting to his work location.

- III. For employees working on abnormal shifts other than "four/tens" or 12-hour shift schedules the application of contractual benefits will be negotiated upon implementation of that schedule.

November 10, 2008

Mr. Curtis Stratton, President  
International Brotherhood  
of Electrical Workers  
Local 2100  
10400 Dixie Highway  
Louisville, KY 40272

Re: Trimble County Assignments

Dear Mr. Stratton:

This will confirm the continuation of the agreement negotiated in 2001 reached between Louisville Gas and Electric Company and Local 2100, International Brotherhood of Electrical Workers, regarding travel allowance and moving expense payable to employees who are assigned to the Company's Trimble County Plant.

For all purposes below "inside Trimble County" shall mean any point within a 15-mile radius of the Trimble County Courthouse in Bedford, Kentucky and "outside Trimble County" shall mean any point outside of that same radius.

A. Permanent Assignments:

Except for employees hired after January 15, 1980, specifically for the Trimble County Plant site, employees who are permanently assigned to the Trimble County Power Plant will be eligible for reimbursement of moving expenses as described in "C." below and will be eligible for a travel allowance of \$8.00 per day for each day the employee is scheduled to report for work and reports for work at the Trimble County Plant site. The travel allowance described in this paragraph will be paid the latest of: (1) an eligible employee's relocation from outside Trimble county for which moving expense is payable; or (2) six (6) months from the date the employee first reports to the Trimble County Plant site after being permanently assigned to that location.

B. Temporary Assignments:

(1) Assignments to Trimble County Plant Site

Employees temporarily assigned to the Trimble County Plant site who do not live inside Trimble County will be eligible for the Travel Allowance described herein.

(2) Assignments from Trimble County Plant Site

Employees permanently assigned to the Trimble County Plant site who live inside Trimble County will be eligible for the Travel Allowance described herein if they are temporarily assigned to another work site outside Trimble County.

- C. Moving expenses as described herein shall not exceed \$1,500.00 per eligible employee, and shall be available only to employees who are permanently assigned to the Trimble County Plant site and who remain employees of the Company for one year after the moving allowance is paid. The moving expense is payable only to those employees who relocate from a point outside the 15-mile radius of the Trimble County Courthouse in Bedford, Kentucky, to a point inside such 15-mile radius, unless otherwise provided. To be reimbursed for moving expenses, an eligible employee must notify the Company in advance, in writing, of his intent to move his household goods, the approximate date of the move, the location moved from, the location moved to, and the identity of the mover being used. Once the move has been made, the employee must, within thirty (30) days, present to the Company an itemized bill furnished by the mover.
- D. Employees who voluntarily bid under the terms of Article 10, Section 10.05 are ineligible for moving expenses and travel allowance.
- E. This policy applies only to the Trimble County Plant site and shall govern the payment of travel allowance and moving expenses for employees assigned to or from said site on a permanent or temporary basis.

Sincerely,

Joe Moyers  
Manager, Labor Relations

## LETTER OF UNDERSTANDING

Regarding Power Generation  
(excluding Maintenance Lines of Progression)

This will confirm the understanding reached during the 1983 negotiations, and amended in the 1989, and the 1995 negotiations between Local 2100, IBEW and Louisville Gas and Electric Company concerning the above-referenced departments.

When, in the Company's opinion, it becomes necessary to transfer employees from one payroll division to another because of the retirement of a generating plant or part thereof, or the startup of a new generating plant or part thereof, the following procedure shall be followed:

1. Any employee transferred shall have his classification seniority dovetailed with that of the employees in the classification at the location to which the employee is transferred. However, where minimum time in classification requirements exists as a qualification for promotion, the following time must be served within the line of progression to which the employee is transferred:
  - a. Three (3) months for employees in entry level classifications.
  - b. Six (6) months for employees in higher than entry level classifications.
2. If some, but not all, of the employees at a location within a payroll division are to be transferred to a new payroll division at a different location, the employees subject to transfer shall be allowed to exercise their Company seniority to fill available job openings within their classification in the payroll division to which the Company decides to transfer the employees. Should an insufficient number of employees be willing to choose transfer to the available openings in a different payroll division, the Company shall assign the employees to the available openings in inverse order of their Company seniority.
3. In the case of the initial staffing of a new plant or part thereof, the Company shall list the number of job openings in each classification above entry level to be filled. The employees in the other payroll divisions within the department shall be allowed to state their preference for the available job openings in each classification. With consideration being given to the list of employee preference, the Company shall assign, at its discretion, employees to fifty percent (50%) of the openings within each classification. The remaining openings within each classification shall be filled on a senior may, junior must basis.

4. For the purposes of Paragraph 3, above, the Company shall determine the total number of employees, by classification, at each location from which the employees will be transferred to the new plant. The Company shall then prepare a list of employees, by name, in an equal number as are sought for reassignment. The Union shall then prepare a list of employees, by name, who desire to be transferred to the new plant not limited as to the number of available openings. Any employee whose name appears on both lists shall be reassigned. All employees so reassigned shall reduce the fifty percent (50%) of available openings which the Company may fill by assignment. If an insufficient number of employees desire by preference to be reassigned to initially staff a new generating station or part thereof, then the Company shall assign the least senior employee from its (the Company's) list sufficient to meet the fifty percent (50%) of available openings which the Company may fill by assignment.
  
5. The Company shall determine initial staffing requirements and the selection/assignment procedure shall be completed at one time. However, the Company shall determine which employee or groups of employees shall be transferred at any particular time thereafter.

## LETTER OF UNDERSTANDING

### Regarding Power Generation Maintenance Lines of Progression

This will confirm the understanding reached during the 1983, and amended in the 1995 negotiations between Local 2100, IBEW and Louisville Gas and Electric Company concerning the above-referenced department.

When, in the Company's opinion, it becomes necessary to transfer employees from one location to another because of the retirement of a generating plant or part thereof, or the startup of a new generating plant or part thereof, the following procedure shall be followed:

1. If some, but not all, of the employees at a location with a payroll division are to be transferred to a different location, the employees subject to transfer shall be allowed to exercise their Company seniority to fill available job openings within their classification. Should an insufficient number of employees be willing to choose transfer to the available openings at a different location, the Company shall assign the employees to the available openings in inverse order of their Company seniority.
2. In the case of the initial staffing of a new plant or part thereof, the Company shall list the number of job openings in each classification above entry level to be filled. The employees at other locations within the department shall be allowed to state their preference for the available job openings in each classification. The remaining openings within each classification shall be filled on a senior may, junior must basis.
3. For the purposes of Paragraph 2, above, the Company shall determine the total number of employees, by classification, at each location from which the employees will be transferred to the new plant. The Company shall then prepare a list of employees, by name, who desire to be transferred to the new plant not limited as to the number of available openings. Any employee whose name appears on both lists shall be reassigned. All employees so reassigned shall reduce the fifty percent (50%) of available openings which the Company may fill by assignment. If an insufficient number of employees desire by preference to be reassigned to initially staff a new generating station or part thereof, then the Company shall assign the least senior employees from its (the Company's) list sufficient to meet the fifty percent (50%) of available openings which the Company may fill by assignment.
4. The Company shall determine initial staffing requirements and the selection/assignment procedure shall be completed at one time. However, the Company shall determine which employee or groups of employees shall be transferred at any particular time thereafter.

The Company (Louisville Gas & Electric) and the Union (Local 2100 International Brotherhood of Electrical Workers) agree as follows.

To clarify “Payroll Division” and “Department” in Section 10.05 of the current Collective Bargaining Agreement, “Payroll Division” and “Department” will be defined as:

“Department” is Energy Delivery, Energy Services and Telecommunications.

“Payroll Divisions” for Energy Delivery:

- (10) Meter/Meter Assets
- (21) Substation Construction & Maintenance
- (30) Electric
- (40) Gas
- (50) Facility Maintenance

“Payroll Division” for Energy Services:

- Trimble County
- Mill Creek
- Cane Run
- Generation Engineering

## LETTER OF UNDERSTANDING

For the purposes of Article 10, Section 10.21, the following shall be considered as an "open work assignment" in the payroll divisions as indicated:

### **POWER GENERATION**

Employees in the Laboratory line of progression shall be allowed to bid for openings on a shift or a reporting location different from their own based on skill requirements.

Employees in the Records Coordinator lines of progression shall be allowed to bid for openings at a reporting location different from their own.

Employees in the Maintenance lines of progression shall be allowed to bid for openings at a reporting location different from their own based on skill requirements.

### **ENERGY DELIVERY**

Employees in the Line Technician classification shall be allowed to bid for openings on a shift, reporting location or schedule different from their own.

Employees in the Construction & Maintenance Cable Splicing line of progression shall be allowed to bid for a reporting location different from their own.

Employees in the Gas Construction and Maintenance line of progression shall be allowed to bid for a reporting location different from their own.

Employees in the Trouble Technician - Gas classification shall be allowed to bid for openings on a shift different from their own.

Employees in the Distribution Operations Records Coordinator line of progression assigned to a Service Center shall be allowed to bid for a reporting location different from their own.

Employees in the Facility Attendant classification shall be allowed to bid for a reporting location different from their own.

Employees in the Facility Maintenance line of progression shall be allowed to bid for a reporting location different from their own based on skill requirements.

Employees in the Customer Service Representatives - Field Services line of progression shall be allowed to bid an open work assignment in the established work districts.

Employees in the Customer Service Representatives - Meter Reader line of progression shall be allowed to continue the present practice of "book" selection.

Employees in the Transportation Department - Garage line of progression shall be allowed to bid for openings on a shift or reporting location different from their own based on skill requirements.

Employees in the Transportation Office line of progression shall be allowed to bid for a reporting location different from their own.

Employees in the Warehouse line of progression shall be allowed to bid for openings on a shift or reporting location different from their own.

Open work assignments shall be limited to journeyman job classifications and above (or non-line of progression jobs) and further the concept of pre-bidding a preferred location or shift shall be utilized unless otherwise mutually agreed.

An open work assignment is when it can reasonably be anticipated at the time of the assignment that the duration of the assignment will be at least one-hundred twenty (120) days.

Any open work assignment which is not filled as described above may be filled by the least senior qualified employee in the classification.

This constitutes, unless hereafter otherwise agreed, the entire understanding between the parties as to the meaning of "open work assignment" as that term is used in Article 10, Section 10.21 of the Collective Bargaining Agreement.

November 10, 2008

Mr. Curtis Stratton, President  
International Brotherhood of  
Electrical Workers  
Local 2100  
10400 Dixie Highway  
Louisville, KY 40272

Re: Severance Benefits

Dear Mr. Stratton:

This confirms the continuation of the agreement negotiated in 2001 for a successor to the 1998-2001 collective bargaining agreement (“CBA”) regarding severance benefits. During the term of the 2001 CBA, employees who receive notice of a General Redeployment pursuant to Article 10, section 10.24, shall have the right to elect severance benefits throughout the period they remain subject to redeployment. Eligible employees shall be entitled to a severance benefit equal to one week’s pay for each full year of service, with a maximum benefit of twenty-six weeks. Additionally, the Company will pay the employees’ group medical and dental premiums at the rate in effect at the time of their termination, for up to three (3) months of the period covered by the Consolidated Omnibus Budget Reconciliation Act (“COBRA”). Receipt of these benefits is conditioned upon the individual employee signing and not revoking a full waiver and release of any actual or potential employment related claims against the Company, including waiver of contractual recall rights. While the terms of this release will be left to the sole discretion of the Company, the terms will be substantially similar to those contained in the attached exhibit.

Sincerely,

Joe Moyers  
Manager, Labor Relations

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 50**

**Responding Witness: Valerie L. Scott**

Q-50. Provide a detailed analysis of all benefits provided to the employees of LG&E.  
For each benefit include:

- a. The number of employees covered at test-year end.
- b. The test-year actual cost.
- c. The amount of test-year actual costs capitalized and expensed.
- d. The average annual cost per employee.

- A-50. a. See attached.
- b. See attached.
  - c. See attached.
  - d. See attached.

Louisville Gas and Electric Company

Q 50 - a. The number of employees at test-year end was 983 (1)

Q 50 - b. c. d.

	<u>Capitalized (2)</u>	<u>Expensed (2)</u>	<u>Total Cost (2)</u>	<u>Cost Per Employee (2)</u>	<u># of Employees (1)</u>
Pension	\$ 4,789,624	\$ 14,902,018	\$ 19,691,642	\$ 20,032	983
Post Retirement Benefits - FAS 106	1,554,364	5,224,838	6,779,202	6,896	983
Post Employment - FAS 112	10,384	7,050	17,434	18	983
Medical	2,124,765	6,506,640	8,631,405	8,781	983
Life and AD&D Insurance	81,561	252,431	333,992	340	983
Long-term Disability	51,628	153,193	204,821	208	983
Dental	117,483	361,100	478,583	487	983
401(k)	677,849	2,105,836	2,783,685	2,832	983
Retirement Income Plan	110,038	338,566	448,604	456	983
Tuition Reimbursement	3,243	124,134	127,377	130	983
Other Miscellaneous Benefits (3)	90,482	337,243	427,725	435	983
	<u>\$ 9,611,421</u>	<u>\$ 30,313,049</u>	<u>\$ 39,924,470</u>	<u>\$ 40,615</u>	

(1) This is the number of full-time employees at test-year end. The costs are created by the participants in each plan. Participant count may vary from employee count. For example, not all employees have elected to participate in the Medical Plan because it requires an employee premium contribution, whereas all employees participate in Life Insurance because it is automatically provided to all employees with the full premium paid by the Company.

(2) This cost is for LG&E employee participants only. Servco allocated labor is not included because a Servco number of employees cannot be determined, due to the allocations. These benefits exclude off-duty time (i.e. vacation, holiday, sick, military leave, jury duty), which are included in labor.

(3) These benefits include the Family Assistance Program, the WellFit Program, Mercer fees and Pension Benefit Guaranty Corporation premiums on the pension plan.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 51**

**Responding Witness: Paul W. Thompson**

- Q-51. Provide a list of generation units completed or under construction during the test year. This list should include the capacity, actual cost at test-year end and/or estimated total cost, type of fuel to be utilized, and the in-service or estimated completion date for each unit.
- A-51. There were no generating units completed or under construction during the test year.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 52**

**Responding Witness: Paul W. Thompson**

Q-52. Provide an annualization of the operation of any generating units declared commercial during the test year using LG&E's estimate of the annual cost of operation of these units.

A-52. There were no generating units declared commercial during the test year.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information**

**Dated June 15, 2012**

**Question No. 53**

**Responding Witness: Daniel K. Arbough**

Q-53. Provide complete details of the financial reporting and rate-making treatment of LG&E's pension costs.

A-53. The financial accounting and reporting of pension costs for LG&E are as follows: LG&E's pension costs for the year are determined by an actuarial firm (Mercer) and follow the requirements of Statement of Financial Accounting Standards ("SFAS") No. 87, "Employers' Accounting for Pensions", which is now "Accounting Standards Codification ("ASC") 715-30", as amended by SFAS No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans – An Amendment of FASB Statements No. 87, 88, 106 and 132(R)", which is now "ASC 715-20". These costs are applied to all labor charged during the year to distribute the costs between capital and operating expenses.

For rate-making, a pro forma adjustment is made to the net periodic pension expense recorded in the test year. The adjustment is the difference in the net periodic pension cost calculated by Mercer for 2012 and the amount included in the test period.

In applying the provisions of ASC 715-20, effective December 31, 2006, LG&E recorded a regulatory asset, under the provisions of SFAS No. 71, "Accounting for the Effects of Certain Types of Regulation", which is now "ASC 980-10", representing the adjustments to the pension asset and liability in recognizing their funded status otherwise includible in other comprehensive income. The regulatory asset represents the expected recovery of the portion of the change in funded status of the pension plans, and it will be adjusted annually as prior service cost and actuarial gains and losses are recognized in net periodic benefit cost. The funded status of a benefit plan is measured as the difference between the fair value of plan assets and the benefit obligation. For pension plans, the benefit obligation is measured as the projected benefit obligation, and for other postretirement benefit plans, the benefit obligation is the accumulated postretirement benefit obligation.

In its Order in Case No. 2003-00433, the Commission granted the Company's request to record the minimum pension liability calculated under ASC 715-30 as a regulatory asset instead of an adjustment to equity in other comprehensive income. The minimum pension liability reflected an amount equivalent to the unfunded accumulated benefit obligation. Since the unfunded obligation was subject to market price fluctuations in the value of plan assets, the minimum pension liability could result in a reduction in equity for a loss, or an increase in equity for a gain, that may never be incurred. Under ASC 715-30 those gains and losses would be expensed in future periods and subject to inclusion in future base rates, accordingly it was appropriate to record a regulatory asset related to that future recovery, rather than impact current rates through the reduction in capital. Under ASC 715-20, no minimum pension liability is recorded, rather the funded status of the pension plans using the projected benefit obligation is now recorded as the pension liability on the balance sheet. The Company continues to record a regulatory asset for the portion of the obligation that will be expensed in future periods and subject to inclusion in future base rates.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 54**

**Responding Witness: Daniel K. Arbough**

Q-54. Provide complete details of LG&E's financial reporting and rate-making treatment of Statement of Financial Accounting Standard ("SFAS") No. 106, including:

- a. The date that LG&E adopted SFAS No. 106.
- b. All accounting entries made at the date of adoption.
- c. All actuarial studies and other documents used to determine the level of SFAS No. 106 cost recorded by LG&E.

A-54. The financial accounting and reporting of post retirement benefits for LG&E are as follows: LG&E's post retirement benefits for the year are determined by an actuarial firm (Mercer). These costs are applied to all labor charged during the year to distribute the costs between capital and operating expenses.

For rate-making a pro forma adjustment is made to the post retirement benefits expenses for the test period. The adjustment is the difference in the net periodic benefit cost calculated by Mercer for 2012 and the amount included in the test period.

- a. LG&E adopted SFAS No. 106, now referred to as Accounting Standards Codification ("ASC") 715-10, effective January 1, 1993.
- b. At the date of adoption of SFAS No. 106, LG&E debited Regulatory Assets for \$700,000 and credited Accumulated Provision for Pensions/Benefits for \$700,000.
- c. See attached for actuarial data used to calculate levels of ASC 715-10 (SFAS No. 106) costs for this case. Proprietary information not responsive to the question has been redacted.

Ms. Kelli Higdon  
LG&E and KU Energy LLC  
220 West Main Street  
Louisville, KY 40202

March 2, 2012

**Subject:** 2012 Net Periodic Benefit Cost for Postretirement Benefit Plan

Dear Kelli:

Enclosed are exhibits illustrating the 2012 net periodic benefit cost for financial and regulatory accounting purposes for the Postretirement Benefit Plans of LG&E and KU Energy LLC. The figures in the exhibits may be revised if assets and/or liabilities are remeasured during the year due to a plan amendment, curtailment, settlement or other significant event.

A measurement date of December 31, 2011 was used in these calculations. Plan liabilities were based on census data collected as of September 30, 2011 and claims costs and spouse participation assumptions were updated. The market values of assets as of December 31, 2011 were provided by LG&E and KU Energy LLC. All other methods, assumptions and plan provisions used in calculating the 2012 net periodic benefit costs were the same as those used in the December 31, 2011 disclosures, including a 4.78% discount rate.

We have assumed that LG&E and KU Energy LLC will make an additional prefunding contribution for the 401(h) account at the end of the year equal to the maximum tax-deductible contribution for the 2012 calendar year. Since the contribution is assumed to be at the end of the year, it does not impact the expense calculations this year. If the contribution is made earlier, the expense will be slightly reduced. Please note that we are assuming no additional prefunding for the Nonunion and Union VEBAs. We have also assumed that no benefit payments are paid out of the 401(h) account in 2012.

Compared to the 2012 net periodic benefit cost projections provided on April 28, 2011, the net periodic benefit cost changed slightly. The financial accounting expense decreased from \$10.8 million to \$9.2 million, the regulatory accounting expense decreased from \$14.2 million to \$12.9 million and the consolidated financial statement accounting expense decreased from \$14.0 million to \$12.6 million. Consolidated financial statement accounting includes the expense amounts under regulatory accounting for KU and LG&E (Union and Non-union) and expense amounts under financial accounting for ServCo, WKE (Union and Non-union) and International. The reduction was primarily due to gains generated by updated per capita claims costs and spouse participation

Page 2  
March 2, 2012  
Ms. Kelli Higdon  
LG&E and KU Energy LLC

assumptions and participant data, partially offset by the decrease in the discount rate and additional plan changes not anticipated in the projections.

Based on our discussions, we have assumed that LG&E and KU Energy LLC will apply for and receive the subsidy available under Medicare in 2012 for the grandfathered pre-2000 Kentucky Utilities retirees that have post-65 drug coverage. The full amount of the reduction in expense has been applied to Kentucky Utilities. The following assumptions were used with the MMA calculations:

- LG&E and KU Energy LLC will determine actuarial equivalence by benefit option. Testing by benefit option, the grandfathered pre-2000 Kentucky Utilities post-65 retiree medical drug plan is projected to meet the definition of actuarial equivalence indefinitely.
- LG&E and KU Energy LLC will apply for and receive the subsidy available under Medicare indefinitely for all pre-2000 Kentucky Utilities retirees that have post-65 drug coverage.
- Retirees do not elect the Medicare Part D benefit.

The estimated subsidy was based on Mercer's understanding of the Medicare Reform legislation based on the final Center for Medicare Services (CMS) regulations issued in January 2005 and on the provided claims information from the medical plan administrator.

Mercer has prepared this report exclusively for LG&E and KU Energy LLC; subject to this limitation, LG&E and KU Energy LLC may direct that this report be provided to its auditors in connection with the audit of its financial statements. Mercer is not responsible for use of this report by any other party.

The only purpose of this report is to present Mercer's actuarial estimates of liabilities for the fiscal year ending December 31, 2012 for other postretirement benefit plans relating to LG&E and KU Energy LLC, for LG&E and KU Energy LLC to incorporate, as LG&E and KU Energy LLC deems appropriate, in its financial statements under US accounting standards.

This report may not be used for any other purpose. Mercer is not responsible for the consequences of any unauthorized use. Its content may not be modified, incorporated into or used in other material, sold or otherwise provided, in whole or in part, to any other person or entity, without Mercer's permission.

Page 3  
March 2, 2012  
Ms. Kelli Higdon  
LG&E and KU Energy LLC

All parts of this report, including any documents incorporated by reference, are integral to understanding and explaining its contents, no part may be taken out of context, used or relied upon without reference to the report as a whole.

Decisions about benefit changes, granting new benefits, investment policy, funding policy, benefit security and/or benefit-related issues should not be made on the basis of this valuation, but only after careful consideration of alternative economic, financial, demographic and societal factors, including financial scenarios that assume future sustained investment losses.

To prepare this report Mercer has used and relied on participant data as provided by LG&E and KU Energy LLC to Mercer Outsourcing as summarized on the attached exhibits. LG&E and KU Energy LLC is responsible for ensuring that such participant data provides an accurate description of all persons who are participants under the terms of the plan or otherwise entitled to benefits that is sufficiently comprehensive and accurate for the purposes of this report. If the data supplied are not sufficiently comprehensive and accurate for the purposes of this report, the valuation results may differ significantly from the results that would be obtained with such data; this may require a later revision of this report. Although Mercer has reviewed the data in accordance with Actuarial Standards of Practice No. 23, Mercer has not verified or audited any of the data or information provided.

Mercer has used and relied on the plan documents, including amendments, and interpretations of plan provisions provided by LG&E and KU Energy LLC. The plan provisions used in this valuation are described in the December 31, 2011 year end disclosure report, dated January 13, 2012. LG&E and KU Energy LLC is solely responsible for the validity, accuracy and comprehensiveness of this information. If any data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report. Moreover, plan documents may be susceptible to different interpretations, each of which could be reasonable, and that the different interpretations could lead to different valuation results.

This report is based on our understanding of applicable law and regulations as of the valuation date. Mercer is not an accountant or auditor and is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. Mercer is not engaged in the practice of law. This report does not constitute and is not a substitute for legal advice.

Page 4  
March 2, 2012  
Ms. Kelli Higdon  
LG&E and KU Energy LLC

The plan sponsor is ultimately responsible for selecting the plan's accounting policies, methods and assumptions. The policies, methods, and assumptions used in this valuation are described in herein. The plan sponsor is solely responsible for communicating to Mercer any changes required to those policies, methods and assumptions.

A valuation report is only a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict the plan's future financial condition or its ability to pay benefits in the future and does not provide any guarantee of future financial soundness of the plan. Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, the period of time over which benefits are paid, plan expenses and the amount earned on any assets invested to pay benefits. These amounts and other variables are uncertain and unknowable at the valuation date.

Because modeling all aspects of a situation is not possible or practical, we may use summary information, estimates, or simplifications of calculations to facilitate the modeling of future events in an efficient and cost-effective manner. We may also exclude factors or data that, if used, in our judgment, would not have significantly affected our results. Use of such simplifying techniques does not, in our judgment, affect the reasonableness of valuation results for the plan.

Valuations do not affect the ultimate cost of the plan, only the timing of when benefit costs are recognized. Cost recognition occurs over time. If the costs recognized over a period of years are lower or higher than necessary, for whatever reason, normal and expected practice is to adjust future expense levels with a view to recognizing the entire cost of the plan over time.

To prepare the valuation report, assumptions are used in a forward looking financial and demographic model to present a single scenario from a wide range of possibilities; the results based on that single scenario are included in the valuation. The future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or material because these results are very sensitive to the assumptions made and, in some cases, to the interaction between the assumptions.

Different assumptions or scenarios within the range of possibilities may also be reasonable and results based on those assumptions would be different. As a result of the uncertainty inherent in a forward looking projection over a very long period of time, no one projection is uniquely "correct" and many alternative projections of the future could also be regarded as reasonable. Two different actuaries could, quite reasonably, arrive at different results based on the same data and different views of the future. A "sensitivity analysis" shows the degree to which results would be different if

Page 5  
March 2, 2012  
Ms. Kelli Higdon  
LG&E and KU Energy LLC

you substitute alternative assumptions within the range of possibilities for those utilized in this report. We have not been engaged to perform such a sensitivity analysis and thus the results of such an analysis are not included in this report. At LG&E and KU Energy LLC's request, Mercer is available to perform such a sensitivity analysis.

Assumptions may also be changed from one valuation to the next because of changes in mandated requirements, plan experience, changes in expectations about the future and other factors. A change in assumptions is not an indication that prior assumptions were unreasonable when made.

This report was prepared in accordance with generally accepted actuarial principles and procedures. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

LG&E and KU Energy LLC should notify Mercer promptly after receipt of the valuation report if LG&E and KU Energy LLC disagrees with anything contained in the valuation report or is aware of any information that would affect the results of the valuation report that has not been communicated to Mercer or incorporated therein. The valuation report will be deemed final and acceptable to LG&E and KU Energy LLC unless LG&E and KU Energy LLC promptly provides such notice to Mercer.

### **Professional qualifications**

We are available to answer any questions on the material contained in the report, or to provide explanations or further details as may be appropriate. Collectively, the credentialed actuaries Marcie Gunnell and Linda Myers meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained in this report. We are not aware of any direct or material indirect financial interest or relationship, including investments or other services that could create a conflict of interest, that would impair the objectivity of our work.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 55**

**Responding Witness: Daniel K. Arbough**

Q-55. Provide complete details of LG&E's financial reporting and rate-making treatment of SFAS No. 112, including:

- a. The date that LG&E adopted SFAS No. 112.
- b. All accounting entries made at the date of adoption.
- c. All actuarial studies and other documents used to determine the level of SFAS No. 112 cost recorded by LG&E.

A-55. The financial accounting and reporting of post employment benefits for LG&E are as follows: LG&E's post employment benefits for the year are determined by an actuarial firm (Mercer) and follow the requirements of SFAS No. 112, "Employers' Accounting for Postemployment Benefits". These costs are applied to all labor charged during the year to distribute the costs between capital and operating expense.

- a. LG&E adopted SFAS No. 112, now referred to as Accounting Standards Codification ("ASC") 712-10, effective January 1, 1994.
- b. At the date of adoption, LG&E debited Employee Pension and Benefit expense for \$5,649,285 and credited a liability for Post Employment Benefits for the same amount.
- c. See attached for actuarial data used to calculate levels of ASC 712-10 (SFAS No. 112) costs for this case. Proprietary information not responsive to the question has been redacted.

Ms. Kelli Higdon  
LG&E and KU Energy LLC  
220 West Main Street  
Louisville, KY 40202

May 18, 2012

**Subject:** Postemployment Benefits Projections for 2012 – 2016

Dear Kelli:

Enclosed are exhibits illustrating the estimated liabilities and projected cash flows under the Financial Accounting Standards Board Accounting Standards Codification (ASC) Topic 712 (formerly FAS 112) for the postemployment benefits for disabled employees of LG&E and KU Energy LLC for the 2012 – 2016 fiscal years. The ASC 712 liability estimates reflect a 3.60% discount rate.

The ASC 712 liability includes the actuarial present value of continued medical benefits and life insurance for each disabled employee and their dependents, including future surviving spouses, until the disabled's age 65, when the ASC 712 benefit terminates (benefits beyond age 65 are accounted for under ASC 715 (formerly FAS 106)).

The projected liabilities and cash flows for current disabled employees are based on the same data, assumptions, plan provisions and methods assumptions used in the determination of the December 31, 2011 ASC 712 liability, including a reduction in liability for Medicare-eligible disableds associated with the Medicare Modernization Act of 2003.

In addition, for each fiscal year, future employees were projected to become disabled based on the valuation data and disabled incidence assumptions used in the determination of the 2012 ASC 715 expense, assuming a stable employee population for each future fiscal year. All other assumptions, plan provisions and methods for the future disabled employees are the same as those used in the determination of the December 31, 2011 ASC 712 liability.

**Important Notices**

Mercer has prepared this report exclusively for LG&E and KU Energy LLC; subject to this limitation, LG&E and KU Energy LLC may direct that this report be provided to its auditors in connection with the audit of its financial statements. Mercer is not responsible for use of this report by any other party.

Page 2  
May 18, 2012  
Ms. Kelli Higdon  
LG&E and KU Energy LLC

The only purpose of this report is to provide projected actuarial liabilities and cash flows under ASC 712 for the fiscal years ending 2012 – 2015 for the postemployment benefits for disabled employees of LG&E and KU Energy LLC under ASC 712. We make no representations regarding either the amount or existence of other liabilities that might be reportable.

This report may not be used for any other purpose. Mercer is not responsible for the consequences of any unauthorized use. Its content may not be modified, incorporated into or used in other material, sold or otherwise provided, in whole or in part, to any other person or entity, without Mercer's permission.

All parts of this report, including any documents incorporated by reference, are integral to understanding and explaining its contents, no part may be taken out of context, used or relied upon without reference to the report as a whole.

Decisions about benefit changes, granting new benefits, investment policy, funding policy, benefit security and/or benefit-related issues should not be made on the basis of this valuation, but only after careful consideration of alternative economic, financial, demographic and societal factors, including financial scenarios that assume future sustained investment losses.

To prepare this report Mercer has used and relied on participant data as provided by LG&E and KU Energy LLC as summarized on the attached exhibits. LG&E and KU Energy LLC is responsible for ensuring that such participant data provides an accurate description of all persons who are participants under the terms of the plan or otherwise entitled to benefits that is sufficiently comprehensive and accurate for the purposes of this report. If the data supplied are not sufficiently comprehensive and accurate for the purposes of this report, the valuation results may differ significantly from the results that would be obtained with such data; this may require a later revision of this report. Although Mercer has reviewed the data in accordance with Actuarial Standards of Practice No. 23, Mercer has not verified or audited any of the data or information provided.

Mercer has used and relied on the plan documents, including amendments, and interpretations of plan provisions provided by LG&E and KU Energy LLC. The plan provisions used in this valuation are described in the December 31, 2011 year end disclosure report, dated January 3, 2012. LG&E and KU Energy LLC is solely responsible for the validity, accuracy and comprehensiveness of this information. If any data or plan provisions supplied are not accurate and complete, the valuation results may differ significantly from the results that would be obtained with accurate and complete information; this may require a later revision of this report. Moreover, plan documents may be

Page 3  
May 18, 2012  
Ms. Kelli Higdon  
LG&E and KU Energy LLC

susceptible to different interpretations, each of which could be reasonable, and that the different interpretations could lead to different valuation results.

This report is based on our understanding of applicable law and regulations as of the valuation date. Mercer is not an accountant or auditor and is not responsible for the interpretation of, or compliance with, accounting standards; citations to, and descriptions of accounting standards provided in this report are for reference purposes only. Mercer is not engaged in the practice of law. This report does not constitute and is not a substitute for legal advice.

The plan sponsor is ultimately responsible for selecting the plan's accounting policies, methods and assumptions. The policies, methods, and assumptions used in this valuation are described in herein. The plan sponsor is solely responsible for communicating to Mercer any changes required to those policies, methods and assumptions.

A valuation report is only a snapshot of a plan's estimated financial condition at a particular point in time; it does not predict the plan's future financial condition or its ability to pay benefits in the future and does not provide any guarantee of future financial soundness of the plan. Over time, a plan's total cost will depend on a number of factors, including the amount of benefits the plan pays, the number of people paid benefits, the period of time over which benefits are paid, plan expenses and the amount earned on any assets invested to pay benefits. These amounts and other variables are uncertain and unknowable at the valuation date.

Because modeling all aspects of a situation is not possible or practical, we may use summary information, estimates, or simplifications of calculations to facilitate the modeling of future events in an efficient and cost-effective manner. We may also exclude factors or data that, if used, in our judgment, would not have significantly affected our results. Use of such simplifying techniques does not, in our judgment, affect the reasonableness of valuation results for the plan.

Valuations do not affect the ultimate cost of the plan, only the timing of when benefit costs are recognized. Cost recognition occurs over time. If the costs recognized over a period of years are lower or higher than necessary, for whatever reason, normal and expected practice is to adjust future expense levels with a view to recognizing the entire cost of the plan over time.

To prepare the valuation report, assumptions are used in a forward looking financial and demographic model to present a single scenario from a wide range of possibilities; the results based on that single scenario are included in the valuation. The future is uncertain and the plan's actual experience will differ from those assumptions; these differences may be significant or

Page 4  
May 18, 2012  
Ms. Kelli Higdon  
LG&E and KU Energy LLC

material because these results are very sensitive to the assumptions made and, in some cases, to the interaction between the assumptions.

Different assumptions or scenarios within the range of possibilities may also be reasonable and results based on those assumptions would be different. As a result of the uncertainty inherent in a forward looking projection over a very long period of time, no one projection is uniquely "correct" and many alternative projections of the future could also be regarded as reasonable. Two different actuaries could, quite reasonably, arrive at different results based on the same data and different views of the future. A "sensitivity analysis" shows the degree to which results would be different if you substitute alternative assumptions within the range of possibilities for those utilized in this report. We have not been engaged to perform such a sensitivity analysis and thus the results of such an analysis are not included in this report. At LG&E and KU Energy LLC's request, Mercer is available to perform such a sensitivity analysis.

Assumptions may also be changed from one valuation to the next because of changes in mandated requirements, plan experience, changes in expectations about the future and other factors. A change in assumptions is not an indication that prior assumptions were unreasonable when made.

This report was prepared in accordance with generally accepted actuarial principles and procedures. Based on the information provided to us, we believe that the actuarial assumptions are reasonable for the purposes described in this report.

LG&E and KU Energy LLC should notify Mercer promptly after receipt of the valuation report if LG&E and KU Energy LLC disagrees with anything contained in the valuation report or is aware of any information that would affect the results of the valuation report that has not been communicated to Mercer or incorporated therein. The valuation report will be deemed final and acceptable to LG&E and KU Energy LLC unless LG&E and KU Energy LLC promptly provides such notice to Mercer.

### ***Professional qualifications***

I am available to answer any questions on this material contained in the report, or to provide explanations or further details as may be appropriate. I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained in this report. I am not aware of any relationship, including investments or other services that could create a conflict of interest that would impair our objectivity.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 56**

**Responding Witness: Shannon L. Charnas**

Q-56. Provide complete details of LG&E's financial reporting and rate-making treatment of SFAS No. 143, including:

- a. The date that LG&E adopted SFAS No. 143.
- b. All accounting entries made at the date of adoption.
- c. All studies and other documents used to determine the level of SFAS No. 143 cost recorded by LG&E.
- d. A schedule comparing the depreciation rates utilized by LG&E prior to and after the adoption of SFAS No. 143. The schedule should identify the assets corresponding to the affected depreciation rates.

A-56. a. LG&E adopted SFAS No. 143<sup>1</sup>, as of January 1, 2003.

- b. See attached.
- c. See Case No. 2007-00564; Response to the Attorney General's Initial Requests for Information dated 2/4/08, Questions No. 93 and 99 for documents used to determine the level of SFAS No. 143<sup>1</sup> cost recorded by LG&E. Also, see attached.
- d. See attached.

<sup>1</sup> The guidance in SFAS No. 143 is now contained in FASB Accounting Standards Codification Topic 410, adopted effective September 30, 2009.

# Canal Asbestos

**Crescente, Angela**

---

**From:** Legler, Steve  
**Sent:** Wednesday, January 04, 2012 2:37 PM  
**To:** Crescente, Angela  
**Subject:** RE: Canal and Paddy's

Angela,

Based on our conversation, here is an estimate of asbestos removal costs based on current budget assumptions in the MTP/LTP. Please review and we can discuss.

Steve

	Demolition Asbestos Removal (\$M)					Total
	2015	2016	2017	2018	2019	
Canal			0.945	0.315	0.315	1.575
Paddy's Run	0.15	1.00	1.6	0.93	0.925	4.60
Total:	0.15	1	2.545	1.24	1.24	6.175
MTP/LTP Total Demolition Costs in MTP (2015-2019)	0.30	1.30	7.50	10.00	7.00	26.10

---

**From:** Crescente, Angela  
**Sent:** Wednesday, January 04, 2012 1:37 PM  
**To:** Legler, Steve  
**Cc:** Wiseman, Sara; Hudson, Rusty  
**Subject:** RE: Canal and Paddy's

Steve,

Per our conversation, you are still in agreement with the estimates provided last year. The activities budgeted in 2012 would not be expected to have any asbestos removal dollars in them since it is engineering and stack removal. Based on the information we currently have available, it would be best to use 60% of the expected asbestos removal dollars for Canal in 2017 and approximately 20% in 2018 and 2019 since the contractors have explained that they intend to remove most of the asbestos upfront. For Paddy's, it would be best to use 60% in 2015 and 10% in 2016, 2017, 2018, 2019. Please confirm or feel free to correct any misunderstandings I have.

Thanks,  
Angela

**Sent:** Wednesday, January 04, 2012 9:06 AM  
**To:** Legler, Steve

**Cc:** Wiseman, Sara; Hudson, Rusty

**Subject:** Canal and Paddy's

Steve,

Do you still agree with the expected ARO removal dollar estimate for both Canal and Paddy's that we got from you last year? We have Canal listed at about \$1,575,000 in total for asbestos removal and Paddy's is listed in total at about \$4,600,000 for asbestos removal. I understand we are expecting some demolition charges in 2012, which would mean I will need to set up some expected retirement activity in the ARO estimates. In order to book this estimate for December, I need to know as soon as possible.

Thanks for your help,  
Angela

Angela,

I agree. The Cane Run plant is currently scheduled to shut-down no later than December 31, 2015. Floodwall penetration closure would begin at the earliest in 2016.

Steve

**Cc:** Crescente, Angela  
**Subject:** FW: Revised Cane Run Floodwall Penetration Cost Estimate - ARO

Hi Steve:

Just to be clear:

You have revised the estimate from \$2,000,000 to approximately \$1,006,410, right? Yes, please use \$1,006,410

Also, I believe we agreed at the Maintenance Managers meeting at Brown that Cane Run was the only plant that we need to set up a liability for, is that correct? CR is the only plant that has this liability.

You mentioned 2016 as a possible retirement date. Should we use that date or another one or is there someone else we should ask? I will need to find out where we have any money budgeted for plant closure. 2016 would be the earliest date for this work. I would think it will be later based on how much push we get from MSD/ Corp of Engineers. I can ask Tim Harder what year we may have any money budgeted for plant closure. Tim will be back in the office Monday.

Thanks for your help,

Sara and Angela

**To:** Wiseman, Sara  
**Cc:** Crescente, Angela  
**Subject:** Revised Cane Run Floodwall Penetration Cost Estimate - ARO

Sara,

Here is additional detail and revised costs of floodwall penetration closure at the Cane Run Plant.

Based on the following information from Project Engineering (PE) and my estimates, here is a cost breakdown for the work:

Circulating water pipes- \$164,410 Concrete material costs – sealing at plant penetrations  
Return Tunnel: \$210,000 Concrete material costs – seal at plant discharge weir only. PE calculated cost includes plugging the entire tunnel from the plant to the river. My estimate includes the first 40' of each of three weirs to common return tunnel, not the entire tunnel.  
Service Water Pipes: \$2,000 concrete material costs

\$300/ cubic yard concrete costs assumed.

Labor costs to complete above scope: 30% of the provided costs estimate from Hall Contracting: \$630,000

Total Obligation: \$1,006,410

Please let me know if you have questions.

Steve

**To:** Cosby, David; Wilkerson, Jason; Winkler, Michael; Rose, Bruce; Charnas, Shannon; Ehrler, Bob; Fendig, John; Wiseman, Sara; Faulkner, Danny; Didelot, Joe; Smith, Timothy; Fraley, Jeffrey; Drake, Michael; Sumner, Brian; Legler, Steve; Henry, Jim  
**Cc:** Millay, David; Puckett, Paul  
**Subject:** Deep Wells/Monitoring Wells/Testing Wells

All:

I just want to make sure I understand the different types of wells we have at our generating facilities and what each one of them are used for since they qualify as AROs due to the legal obligation to plug them upon retirement. Please feel free to correct me if I wind up misstating something.

*Monitoring wells* - Used to test the ground water to ensure that there are no environmental concerns in regards to landfills and/or ash ponds material entering the ground water.

*Deep wells (aka production wells)* - Used to pump water out of the ground to use in the boiler, etc.

*Test wells (using piezometers)* - Used to analyze the slope stability to ensure there are no leaks due to breaches in our landfills and/or ash ponds.

I have currently heard from Mill Creek, Cane Run, Ghent and Brown about how many monitoring wells and production wells they have at those plants. The estimated cost I have received for the closure/plugging of one of these wells is approximately \$7,000 each based on recent charges. I will need to know how many of these exist at the other plants and if the \$7,000 per well estimate seems reasonable for them as well. Please advise on whether or not monitoring wells and production wells would cost approximately the same per well.

It also appears I will need estimates for the test wells (using piezometers) in regards to how many we have per plant and how much it would cost to plug one of these type wells. I also understand that some of these wells may also exist at Dix Dam and Ohio Falls.

I copied David and Paul on this email as well because I heard that they may be able to help with these estimates.

I apologize for the quick turnaround as I know everyone is busy, but it would be greatly appreciated if you could send me this information by **Monday, December 3<sup>rd</sup>**. If these wells are deemed material enough to need AROs set up for them, this needs to be accomplished as soon as possible to ensure our financials are accurate.

 Please feel free to contact me if you have any questions.

Thanks so much for your help,  
Angela

# **Cane Run Landfill**

**Crescente, Angela**

---

**From:** Shaughnessy, Kevin  
**Sent:** Thursday, September 15, 2011 10:08 AM  
**To:** Crescente, Angela; Harder, Tim; Hensley, Mike  
**Cc:** Wiseman, Sara; Puckett, Paul  
**Subject:** RE: Landfill cost revaluation

Currently the Cane Run cost to cap and close out a one acre section is \$19,360. That is comprised of \$4.69 per cubic yard for loading, hauling and grading of cover soils to proper elevation and \$0.71 per cubic yard for seeding and mulch.

Next year, and the following years, the total cost for capping and closing an acre could rise to \$27,860 if we are going to have to purchase top soil for the top 1' of cover. We have nearly depleted our own stockpile of usable top soil.

There are approximately 60 acres of open landfill space currently. We are going to be closing 11 acres by the end of this year, which leaves 49 acres remaining to close over the next 4 years.

Remaining capital expenses for this year are estimated at \$546,710 for drainage features (North Drainage Structure, road relocation and drainage pipes for drainage network) and @\$100,000 for utility relocations needed through the North Drainage Structure area.

Please let me know if additional information is required.

**From:** Buckner, Mike  
**Sent:** Tuesday, September 06, 2011 11:57 AM  
**To:** Crescente, Angela  
**Cc:** Van Winkle, Don; Puckett, Paul; Love, K J  
**Subject:** RE: Landfill cost revaluation

Angela,

Hope you had a nice vacation last week.

Here's the updated information we discussed concerning the Mill Creek Landfill cost revaluation.

Now that we have to be more selective in our cover soils for the landfill, our current "cost of soil" has increased to approximately \$17K per acre. Add to that Charah's placement and seeding cost per acre and that brings the projected closure cost to \$36.5 per acre. I think that this will be a good number to use for at least the next few years. If we find that the soils we need for cover become more expensive in the future, we will need to make another adjustment to this figure.

This cost per acre does not include monies spent to construct closure drainage structures such as ditches and flumes. Beings we're close to the top of the vertical landfill, we have had to construct 4 ditches and 6 flumes this year at an approximate cost of \$257K. This was an unusual amount of ditch work this year but because of the logistics of the pile, it had to be done to keep moving forward. In the future years, I only expect to be constructing 1 ditch and flume per year at a cost of approximately \$42K per set.

At the beginning of 2011, we had 36 "active" landfill acres. By the end of this year we will have closed out or retired 6 of those acres which will leave us with 30 "active" acres. For the Long-Term Plan, I think that we can project the following number of acres to be retired each year;

2012 – 2 acres	2017 – 1 acre
2013 – 2 acres	2018 – 1 acre
2014 – 1 acre	2019 – 2 acres
2015 – 1 acre	2010 – 2 acres
2016 – 1 acre	2021 – 2 acres

As far as new acres being constructed in the landfill, we can project the following numbers;

2012 – 0 acres  
2013 – 0 acres  
2014 – Construct 15 additional acres in the horizontal landfill at a cost of \$1.4M  
2015 – 0 acres  
2016 – 0 acres  
2017 – 0 acres  
2018 – 0 acres  
2019 – 0 acres  
2020 – 0 acres  
2021 – 0 acres

Hopefully, this information helps you out. If there is anything else that you need from me, please let me know.

**From:** Crescente, Angela  
**Sent:** Wednesday, August 17, 2011 1:56 PM  
**To:** Puckett, Paul; Buckner, Mike; Harder, Tim; Pence, Mark; Love, K J; Van Winkle, Don  
**Cc:** Cosby, David; Wiseman, Sara; Rose, Bruce  
**Subject:** Landfill cost revaluation

All:

In light of the recent Mill Creek Landfill settlement, it has been discussed that our current estimate of \$13,000 per acre may not be an estimate that we can use going forward. In an effort to properly account for the liability to fulfill our future closure requirements on the current Mill Creek and Cane Run Landfills (and the other landfills possibly forthcoming), we will need to revalue our closure estimates.

It is my understanding that there are several reasons why our estimates have changed recently. One reason is that we were using our own soil to close portions of our landfill and we no longer have that option since most of that resource has been depleted. Another reason is that some acres in the past have not required as many drainage investments (ditches and flumes) since the land was already finished to grade. Now that these issues have come up, our estimate may no longer be reasonable. My hope is that since we have been working on closing portions of Mill Creek Landfill this year, we would have a recent contract from Charah that could give us a good estimate to go on for the future.

Please provide a new estimate for the closure costs including approximately how many "active" acres are currently being used at each Mill Creek and Cane Run. We can then come up with the per acre estimate based on total closure cost for each landfill divided by active acres. Or, you can provide us with an approximate per acre cost and we can then multiply that by the number of active acres for each landfill. Either way is fine with us. We would also need to know how many acres you plan to retire and construct each year throughout the Long-Term plan in order to set up a timeframe for these additions and retirements.

It would be greatly appreciated if you could provide this information no later than **COB, September 2nd** in order for us to book this within the third quarter.

Thanks so much for your help. Please feel free to contact me with any questions.

Thanks,  
Angela

# **Doe Run Asbestos**

ASBESTOS REMOVAL ESTIMATES  
FACILITY SERVICES

Asset Description	Location	GRAND TOTAL (\$000's)	Estimated Retirement Date	Comments
IM&E OFFICE: It is assumed that this building contains ACM floor tiles which are currently covered by non-ACM tiles. The wall and ceiling insulation is presumed to be ACM. Remediated in 2009.	Muldrough Station	\$35	235120	Cost under Pipe Insulation are actually costs to remove window caulking. Remediated in 2009.
KEWANEE BOILER ROOM: ACM boiler piping insulation still exists from the boiler to where it enters the Compressor Building. The boiler insulation is Presumed ACM. Remediated in 2009.	Muldrough Station	\$13	225120	Scaffolding required for some of the pipe ACM abatement. Cost to remove boiler insulation estimated. Remediated in 2009.
PURIFIER 1: All piping and pressure vessel ACM was replaced in 2001. Transite panels still serve as a wind break. PACM in old control box. PACM on Reboiler and Heat Exchanger gaskets.	Muldrough Station	\$30	TBD	
COMPRESSOR BUILDING: This building was presumed to have originally been constructed in the late 1930's with modifications and additions in the 1950's, 1960's, and 1970's. ACM flange gaskets, valve packing, and various compressor gaskets have been identified and some of it has been abated. ACM caulking has been discovered on the windows.	Muldrough Station	\$19	235120	Cost under Pipe Insulation are actually costs to remove window caulking. Costs were estimated and inflated to account for the need for scaffold and ladder work.
PURIFIER 2: The regenerator contains ACM vessel insulation although minimal sections have been abated. The boiler insulation is Presumed ACM.	Muldrough Station	\$28	235120	Boiler - 398 Sf; Regenerator - 502 sf. Enclosure fabrication cost increased to account for scaffolding rental and erection.
PURIFIER 3: The boiler insulation is Presumed ACM.	Muldrough Station	\$56	235600	
ABANDONED H2S INCINERATOR: This facility contains a transite wind break, ACM valve packing and ACM flange gaskets.	Muldrough Station	\$21	235600	
LOCKER ROOM: The facility contains ACM asphalt roofing. It is unknown if any other ACM exists so it was assumed that the insulation and dry wall are PACM. Remediated in 2009.	Muldrough Station	\$8	235600	Remediated in 2009.
STATION VALVES: Miscellaneous valves packing and flange gaskets.	Muldrough Station	\$4	235300	Assumes the following valve quantities: 4" or less: 108; 6"-10": 140; 12-20": 83
STATION PIPING: Miscellaneous disposal of coal tar pipe during pipeline removals. Excludes in site retirement. Includes the removal of ACM from Turbine Separators.	Muldrough Station	\$76	235360	General assumptions; additional details required.
MULDRAUGH FIELD VALVES: Miscellaneous valves packing and flange gaskets.	Muldrough Storage Field	\$7	235100	General assumptions; additional details required.
MULDRAUGH FIELD PIPING: Miscellaneous disposal of coal tar pipe during pipeline removals. Excludes in site retirement.	Muldrough Storage Field	\$65	235300	General assumptions; additional details required.
DOE RUN FIELD VALVES: Miscellaneous valves packing and flange gaskets.	Doerun Field	\$6	235300	General assumptions; additional details required.
DOE RUN FIELD PIPING: Miscellaneous disposal of coal tar pipe during pipeline removals. Excludes in site retirement.	Doerun Field	\$131	↓	General assumptions; additional details required.
DOE RUN DEEP FIELD VALVES: Miscellaneous valves packing and flange gaskets.	Doerun Deep Field	\$2	↓	General assumptions; additional details required.
DOE RUN DEEP FIELD PIPING: Miscellaneous disposal of coal tar pipe during pipeline removals. Excludes in site retirement.	Doerun Deep Field	\$54	↓	General assumptions; additional details required.

**FACILITY ASSUMPTIONS - Have not been updated from 2005 study.**  
 Any Facility constructed before 1985 will have asbestos, unless abatement has been completed

STOREROOMS - L. F. is calculated based on 3% of total sq. ft. for pipe and ductwork insulation @ \$65/LN.FT. or SQ. FT. (Includes removal and air monitoring costs). Cost per Ln. Ft. is based on recent invoicing for work performed by NEC.

Cost to remove VCT is based on actual invoicing from NEC for work performed at South Service Center in 1994. The same costs were applied to removal of ceiling tiles.

Costs to remove roofing materials is based on actual sq. ft. costs for the removal of Bldg 1 & Bldg 2 Roof at the Aubumdale facility (to be completed in 3 phases between 2003 and 2006)

Costs to remove asbestos insulated wiring are strictly an estimate. Several stations could possibly contain asbestos wiring. There is no data to indicate which stations actually have asbestos. Several are listed as possibly containing asbestos based on age of the station.

KU has 70 transmission substations. There is no data to indicate how many of them have asbestos wiring. It is being assumed that approximately 70%, or 49 stations might have asbestos wiring.

I'm not sure if we are needing to send this to Sara or yourself, but below is an estimated cost for remediating asbestos in our vaults. Please let me know if I need to do anything else with this information.

Thanks,

Steve

# Mill Creek Generation Wells

**Crescente, Angela**

---

**From:** Didelot, Joe  
**Sent:** Friday, December 02, 2011 3:59 PM  
**To:** Crescente, Angela  
**Subject:** RE: Deep Wells/Monitoring Wells/Testing Wells

Angela,

We have 13 piezometers at MC ranging in depth from 50 to 80 feet. They would probably be slightly lower in cost to mitigate that the monitoring or production wells, say \$5000 each.

Joe Didelot

$$\begin{array}{r} 13 \times \$7,000 = \$91,000 \\ + 84,000 \\ \hline \$175,000 \end{array}$$

All:

I just want to make sure I understand the different types of wells we have at our generating facilities and what each one of them are used for since they qualify as AROs due to the legal obligation to plug them upon retirement. Please feel free to correct me if I wind up misstating something.

*Monitoring wells* - Used to test the ground water to ensure that there are no environmental concerns in regards to landfills and/or ash ponds material entering the ground water.

*Deep wells (aka production wells)* - Used to pump water out of the ground to use in the boiler, etc.

*Test wells (using piezometers)* - Used to analyze the slope stability to ensure there are no leaks due to breaches in our landfills and/or ash ponds.

I have currently heard from Mill Creek, Cane Run, Ghent and Brown about how many monitoring wells and production wells they have at those plants. The estimated cost I have received for the closure/plugging of one of these wells is approximately \$7,000 each based on recent charges. I will need to know how many of these exist at the other plants and if the \$7,000 per well estimate seems reasonable for them as well. Please advise on whether or not monitoring wells and production wells would cost approximately the same per well.

It also appears I will need estimates for the test wells (using piezometers) in regards to how many we have per plant and how much it would cost to plug one of these type wells. I also understand that some of these wells may also exist at Dix Dam and Ohio Falls.

I copied David and Paul on this email as well because I heard that they may be able to help with these estimates.

I apologize for the quick turnaround as I know everyone is busy, but it would be greatly appreciated if you could send me this information by **Monday, December 3<sup>rd</sup>**. If these wells are deemed material enough to need AROs set up for them, this needs to be accomplished as soon as possible to ensure our financials are accurate.

Please feel free to contact me if you have any questions.

Thanks so much for your help,  
Angela

Sara,

We have about 19 monitoring and production wells at Mill Creek. We just closed one out for around \$7000. We plan on closing out several others this year that are no longer in use. They have been written as ARO against the landfill project to date.

After this year, we will have around 12 wells remaining. (12 x 7k = \$84k).

Let me know if you need anything else.

Mill Creek

Angela,

We have closed out seven monitoring wells late this year. Other monitor wells will stay in place while the plant and landfill remain. We are planning on retiring or closing three of our production wells in 2012. The other production wells will remain in service while the plant is in operation.

$3 \times 7,000 = \$21,000$

Hope this helps.

Joe

# Mill Creek Landfill

**Crescente, Angela**

---

**From:** Buckner, Mike  
**Sent:** Tuesday, September 06, 2011 11:57 AM  
**To:** Crescente, Angela  
**Cc:** Van Winkle, Don; Puckett, Paul; Love, K J  
**Subject:** RE: Landfill cost revaluation

Angela,

Hope you had a nice vacation last week.

Here's the updated information we discussed concerning the Mill Creek Landfill cost revaluation.

Now that we have to be more selective in our cover soils for the landfill, our current "cost of soil" has increased to approximately \$17K per acre. Add to that Charah's placement and seeding cost per acre and that brings the projected closure cost to \$36.5 per acre. I think that this will be a good number to use for at least the next few years. If we find that the soils we need for cover become more expensive in the future, we will need to make another adjustment to this figure.

This cost per acre does not include monies spent to construct closure drainage structures such as ditches and flumes. Because we're close to the top of the vertical landfill, we have had to construct 4 ditches and 6 flumes this year at an approximate cost of \$257K. This was an unusual amount of ditch work this year but because of the logistics of the pile, it had to be done to keep moving forward. In the future years, I only expect to be constructing 1 ditch and flume per year at a cost of approximately \$42K per set.

At the beginning of 2011, we had 36 "active" landfill acres. By the end of this year we will have closed out or retired 6 of those acres which will leave us with 30 "active" acres. For the Long-Term Plan, I think that we can project the following number of acres to be retired each year;

2012 - 2 acres	2017 - 1 acre
2013 - 2 acres	2018 - 1 acre
2014 - 1 acre	2019 - 2 acres
2015 - 1 acre	2020 - 2 acres
2016 - 1 acre	2021 - 2 acres

As far as new acres being constructed in the landfill, we can project the following numbers;

2012 - 0 acres  
2013 - 0 acres  
2014 - Construct 15 additional acres in the horizontal landfill at a cost of \$1.4M  
2015 - 0 acres  
2016 - 0 acres  
2017 - 0 acres  
2018 - 0 acres  
2019 - 0 acres  
2020 - 0 acres  
2021 - 0 acres

Hopefully, this information helps you out. If there is anything else that you need from me, please let me know.

**Cc:** Cosby, David; Wiseman, Sara; Rose, Bruce  
**Subject:** Landfill cost revaluation

All:

In light of the recent Mill Creek Landfill settlement, it has been discussed that our current estimate of \$13,000 per acre may not be an estimate that we can use going forward. In an effort to properly account for the liability to fulfill our future closure requirements on the current Mill Creek and Cane Run Landfills (and the other landfills possibly forthcoming), we will need to revalue our closure estimates.

It is my understanding that there are several reasons why our estimates have changed recently. One reason is that we were using our own soil to close portions of our landfill and we no longer have that option since most of that resource has been depleted. Another reason is that some acres in the past have not required as many drainage investments (ditches and flumes) since the land was already finished to grade. Now that these issues have come up, our estimate may no longer be reasonable. My hope is that since we have been working on closing portions of Mill Creek Landfill this year, we would have a recent contract from Charah that could give us a good estimate to go on for the future.

Please provide a new estimate for the closure costs including approximately how many "active" acres are currently being used at each Mill Creek and Cane Run. We can then come up with the per acre estimate based on total closure cost for each landfill divided by active acres. Or, you can provide us with an approximate per acre cost and we can then multiply that by the number of active acres for each landfill. Either way is fine with us. We would also need to know how many acres you plan to retire and construct each year throughout the Long-Term plan in order to set up a timeframe for these additions and retirements.

It would be greatly appreciated if you could provide this information no later than **COB, September 2nd** in order for us to book this within the third quarter.

Thanks so much for your help. Please feel free to contact me with any questions.

Thanks,  
Angela

# Muldraugh Asbestos

ASBESTOS REMOVAL ESTIMATES  
FACILITY SERVICES Charnas

Asset Description	Location	GRAND TOTAL (\$000's)	Estimated Retirement Date	Comments
IM&E OFFICE: It is assumed that this building contains ACM floor tiles which are currently covered by non-ACM tiles. The wall and ceiling insulation is presumed to be ACM. Remediated in 2009.	Muldraugh Station	\$35	235120	Cost under Pipe Insulation are actually costs to remove window caulking. Remediated in 2009.
KEWANEE BOILER ROOM: ACM boiler piping insulation still exists from the boiler to where it enters the Compressor Building. The boiler insulation is Presumed ACM. Remediated in 2009.	Muldraugh Station	\$13	235120	Scaffolding required for some of the pipe ACM abatement. Cost to remove boiler insulation estimated. Remediated in 2009.
PURIFIER 1: All piping and pressure vessel ACM was replaced in 2001. Transite panels still serve as a wind break. PACM in old control box. PACM on Reboiler and Heat Exchanger gaskets.	Muldraugh Station	\$30	TBD	
COMPRESSOR BUILDING: This building was presumed to have originally been constructed in the late 1930's with modifications and additions in the 1950's, 1960's, and 1970's. ACM flange gaskets, valve packing, and various compressor gaskets have been identified and some of it has been abated. ACM caulking has been discovered on the windows.	Muldraugh Station	\$19	235120	Cost under Pipe Insulation are actually costs to remove window caulking. Costs were estimated and inflated to account for the need for scaffold and ladder work.
PURIFIER 2: The regenerator contains ACM vessel insulation although minimal sections have been abated. The boiler insulation is Presumed ACM.	Muldraugh Station	\$28	235120	Boiler - 396 Sf; Regenerator - 502 sf. Enclosure fabrication cost increased to account for scaffolding rental and erection.
PURIFIER 3: The boiler insulation is Presumed ACM.	Muldraugh Station	\$56	235600	
ABANDONED H2S INCINERATOR: This facility contains a transite wind break, ACM valve packing and ACM flange gaskets.	Muldraugh Station	\$21	235600	
LOCKER ROOM: The facility contains ACM asphalt roofing. It is unknown if any other ACM exists so it was assumed that the insulation and dry wall are PACM. Remediated in 2009.	Muldraugh Station	\$8	235600	Remediated in 2009.
STATION VALVES: Miscellaneous valves packing and flange gaskets.	Muldraugh Station	\$4	235300	Assumes the following valve quantities: 4" or less: 108; 6"-10": 140, 12-20": 83
STATION PIPING: Miscellaneous disposal of coal tar pipe during pipeline removals. Excludes in site retirement. Includes the removal of ACM from Turbine Separators.	Muldraugh Station	\$75	235300	General assumptions; additional details required.
MULDRAUGH FIELD VALVES: Miscellaneous valves packing and flange gaskets.	Muldraugh Storage Field	\$7	235300	General assumptions; additional details required.
MULDRAUGH FIELD PIPING: Miscellaneous disposal of coal tar pipe during pipeline removals. Excludes in site retirement.	Muldraugh Storage Field	\$65	235300	General assumptions; additional details required.
DOE RUN FIELD VALVES: Miscellaneous valves packing and flange gaskets.	Doerun Field	\$5	235300	General assumptions; additional details required.
DOE RUN FIELD PIPING: Miscellaneous disposal of coal tar pipe during pipeline removals. Excludes in site retirement.	Doerun Field	\$131		General assumptions; additional details required.
DOE RUN DEEP FIELD VALVES: Miscellaneous valves packing and flange gaskets.	Doerun Deep Field	\$2		General assumptions; additional details required.
DOE RUN DEEP FIELD PIPING: Miscellaneous disposal of coal tar pipe during pipeline removals. Excludes in site retirement.	Doerun Deep Field	\$54		General assumptions; additional details required.

**Subject:** RE: Canal and Paddy's

Angela,

Based on our conversation, here is an estimate of asbestos removal costs based on current budget assumptions in the MTP/LTP. Please review and we can discuss.

Steve

	Demolition Asbestos Removal (\$M)					
	2015	2016	2017	2018	2019	Total
Canal			0.945	0.315	0.315	1.575
Paddy's Run	0.15	1.00	1.6	0.93	0.925	4.60
Total:	0.15	1	2.545	1.24	1.24	6.175
MTP/LTP Total Demolition Costs in MTP (2015-2019)	0.30	1.30	7.50	10.00	7.00	26.10

**Subject:** RE: Canal and Paddy's

Steve,

Per our conversation, you are still in agreement with the estimates provided last year. The activities budgeted in 2012 would not be expected to have any asbestos removal dollars in them since it is engineering and stack removal. Based on the information we currently have available, it would be best to use 60% of the expected asbestos removal dollars for Canal in 2017 and approximately 20% in 2018 and 2019 since the contractors have explained that they intend to remove most of the asbestos upfront. For Paddy's, it would be best to use 60% in 2015 and 10% in 2016, 2017, 2018, 2019. Please confirm or feel free to correct any misunderstandings I have.

Thanks,  
Angela

**Subject:** Canal and Paddy's

Steve,

Do you still agree with the expected ARO removal dollar estimate for both Canal and Paddy's that we got from you last year? We have Canal listed at about \$1,575,000 in total for asbestos removal and Paddy's is listed in total at about \$4,600,000 for asbestos removal. I understand we are expecting some demolition charges in 2012, which would mean I will need to set up some expected retirement activity in the ARO estimates. In order to book this estimate for December, I need to know as soon as possible.

Thanks for your help,  
Angela

# **Riggs Junction Asbestos**

## RETIREMENT AND ABANDONMENT ESTIMATE RIGGS JUNCTION GAS TRANSMISSION FACILITY

**Description:**

This estimate is being developed at the request of Property Accounting in compliance with new FERC rules that require the expenses to restore sites after facilities are abandoned be accounted. The lease for the facilities at Riggs Junction requires that LG&E restore the facility to greenspace if the area is ever abandoned.

The Riggs Junction facility contains a valve nest that interconnects two gas transmission pipelines to three Doe Run Upper Storage Field gathering mains and one high-pressure gas distribution main that feeds the City of Brandenburg. The facility also contains two pressure regulating stations; Brandenburg High Pressure Station and Riggs Junction Regulator Assembly. In 1998, a shale recovery compressor, named the Riggs Junction Compressor, was relocated from the site to a new shale recovery site in Laconia, IN. The existing building was demolished, but the building foundation remains. The foundation has not been demolished as it could possibly be used as a foundation for pig traps for the two transmission pipelines.

This estimate is developed solely for the purpose of meeting the new FERC rules. There are no plans to abandon this site to date.

**Scope:**

1. ~~Demolish existing concrete foundation from Riggs Junction Shale Compressor.~~ removed since 2005
2. Remove existing Brandenburg HP Regulator Station.
3. Remove all of the aboveground piping of the existing valve nest at Riggs Junction. Cap all pipe below grade. The 12" and/or 16" Doe Run Lines, the 3 - 12" Storage Field Gathering Mains, and the 12" Distribution Main will be abandoned in place.
4. The Riggs Junction Regulator Assembly will be removed. The 2" Thin-Mill Steel inlet piping and the 4" PE outlet piping will be capped and abandoned in place.

10% CONTINGENCY = \$ 5,161.25

TOTAL PROJECT COSTS = \$ 60,902.81

2010 Revised Estimate = \$ 70,603.05

Assumptions:

1. T&E charges are based upon 20% of Company Labor Charges.
2. Local Engineering will cover LG&E supervision labor and is based upon 8% of the total project subtotal.
3. BU Capital overheads are assumed to be 96.405% of base labor.
4. Assume that disposal is required for asbestos pipe coating.
5. Assume that there are no disposal costs for PCB contamination or any other hazardous materials.
6. The 12" and 16" Doe Run Lines, the 3 - 12" Storage Field Gathering Mains, and the 12" Distribution Main will be abandoned in place. Ignore all customer service requirement issues. Assume service will be provided via another means.
7. Assume there will be no scrap value from the recovered pipe, valves and fittings.

# **Seventh and Ormsby Asbestos**

**2010 SUMMARY OF ASBESTOS REMOVAL ESTIMATES  
FACILITY SERVICES DEPT**

Asset Description	Location	(\$000's)			Estimated Retirement Date
		Removal Cost per Asset (\$000's)	Total Incremental Cost of Disposal (\$000's)	GRAND TOTAL (\$000's)	
This is a 3,400 sq. ft. concrete masonry block facility with concrete floors, ceilings of plywood, walls that are drywall or paneling. Possible asbestos in roof.	Mt. Sterling Storeroom	\$10	\$5	\$15	
	Norton	\$0	\$0	\$0	
	Norton Storeroom	\$0	\$0	\$0	
Asbestos not suspected	One Quality General Office				
This is a brick masonry one-story building, constructed around 1980 with 3,795 sq. ft. Suspect asbestos present in roof.	Paris	\$11	\$5	\$16	
This is a 2,783 sq. ft. concrete block facility garage / storeroom with a 10' x 12' office area. It was constructed around 1970. Possible asbestos in roof.	Paris Storeroom	\$8	\$5	\$13	
	Pennington Gap	\$0	\$0	\$0	
Leased Facility	Pennington Gap Storeroom	\$0	\$0	\$0	
There are several bldgs at this facility - Communications bldg 1,800 sq ft and Trans Dept 2,520 sq. ft. building in 2000-2001; Main Bldg const in 1982 with 32,800 sq. ft. (all of which are metal veneer. Asbestos does not appear to be an issue.	Pineville Stores/Complex; Meter Lab & Substation	\$0	\$0	\$0	
The original building was constructed in 1970 but an addition was added in early 1980's. It is a one story brick with 5,350 sq. ft. Asbestos VCT / mastic have been removed.	Richmond	\$0	\$0	\$0	
This facility was constructed in 1985, is a 2,800 sq. ft. metal structure with metal roof. Asbestos is not suspected.	Richmond Storeroom	\$0	\$0	\$0	
This facility is a 3 story building with a total of 109,386 sq. ft. and was formerly used as an operation center with warehouse and offices. Age of this facility suggests asbestos throughout.	Seventh & Ormsby	\$372	\$77	\$449	
This is a one story brick bldg with 4,500 sq. ft. built in 1955 which has been renovated and asbestos does not appear to be an issue.	Shelbyville	\$0	\$0	\$0	
There are 2 buildings at this site. One is an older bldg actually dismantled and moved from another site to this location and was constructed in 1972. The other is a pre-engineered metal bldg, constructed in approx 1993. Both bldgs combined have 8,120 sq. ft. (a very small office area). Asbestos possible in roof.	Shelbyville Storeroom	\$24	\$19	\$44	
This office was constructed in 1971 with 3,500 sq. ft. It is wood frame with brick veneer. Age of this facility would indicate the potential for asbestos although some renovations have occurred.	Somerset	\$42	\$5	\$46

\$182,000

We have 19 monitoring wells (1-19) that will remain open and tested. There are 3 production wells (A, B, and C) A will remain open for future use at water treatment, B has not been used but is tested bi-yearly, and C is going into production for the Unit 2 Scrubber. Test wells 1, 2a, 2b, and 3 are for the new ash landfill and will remain open.

Hope this helps.

Tim and Jeff,

I don't believe I have received any responses to the number of wells at Tyrone and Trimble. If I have missed the responses, I apologize and please resend them to me. I understand there are three different types of wells (basically) with similar costs, so if I could receive the number of each type of well currently at the two plants, I can come up with an estimate. Please let me know if I should be contacting someone else for this information. It would be greatly appreciated if I could receive this information by Friday, December 16<sup>th</sup>.

Thanks so much,  
Angela

**Subject:** Deep Wells/Monitoring Wells/Testing Wells

All:

I just want to make sure I understand the different types of wells we have at our generating facilities and what each one of them are used for since they qualify as AROs due to the legal obligation to plug them upon retirement. Please feel free to correct me if I wind up misstating something.

*Monitoring wells* - Used to test the ground water to ensure that there are no environmental concerns in regards to landfills and/or ash ponds material entering the ground water.

*Deep wells (aka production wells)* - Used to pump water out of the ground to use in the boiler, etc.

*Test wells (using piezometers)* - Used to analyze the slope stability to ensure there are no leaks due to breaches in our landfills and/or ash ponds.

I have currently heard from Mill Creek, Cane Run, Ghent and Brown about how many monitoring wells and production wells they have at those plants. The estimated cost I have received for the closure/plugging of one of these wells is approximately \$7,000 each based on recent charges. I will need to know how many of these exist at the other plants and if the \$7,000 per well estimate seems reasonable for them as well. Please advise on whether or not monitoring wells and production wells would cost approximately the same per well.

It also appears I will need estimates for the test wells (using piezometers) in regards to how many we have per plant and how much it would cost to plug one of these type wells. I also understand that some of these wells may also exist at Dix Dam and Ohio Falls.

I copied David and Paul on this email as well because I heard that they may be able to help with these estimates.

I apologize for the quick turnaround as I know everyone is busy, but it would be greatly appreciated if you could send me this information by **Monday, December 3<sup>rd</sup>**. If these wells are deemed material enough to need AROs set up for them, this needs to be accomplished as soon as possible to ensure our financials are accurate.

Please feel free to contact me if you have any questions.

Thanks so much for your help,  
Angela

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 57**

**Responding Witness: Lonnie E. Bellar**

Q-57. Provide the following information concerning the costs for the preparation of this case:

a. A detailed schedule of expenses incurred to date for the following categories:

- (1) Accounting;
- (2) Engineering;
- (3) Legal;
- (4) Consultants; and
- (5) Other Expenses (Identify separately).

For each category, the schedule should include the date of each transaction, check number or other document reference, the vendor, the hours worked, the rates per hour, amount, a description of the services performed, and the account number in which the expenditure was recorded. Provide copies of any invoices, contracts, or other documentation that support charges incurred in the preparation of this rate case. Indicate any costs incurred for this case that occurred during the test year.

b. An itemized estimate of the total cost to be incurred for this case. Expenses should be broken down into the same categories as identified in (a) above, with an estimate of the hours to be worked and the rates per hour. Include a detailed explanation of how the estimate was determined, along with all supporting workpapers and calculations.

c. During the course of this proceeding, provide monthly updates of the actual costs incurred, in the manner requested in (a) above. Updates will be due the last business day of each month, through the month of the public hearing.

A-57. a. See attached. The Company has transitioned to all-electronic billing through Serengeti for outside legal services and no longer receives paper invoices. Therefore, supporting documentation from Serengeti is provided in the attachment that includes the above requested information for legal services.

b. See attached.

c. The Company will provide monthly updates as requested.

LG&E AND KU SERVICES COMPANY and its "AFFILIATES" (as defined below)  
PURCHASE ORDER STANDARD TERMS AND CONDITIONS

If Seller and Company are parties to a General Services Agreement ("GSA") or Administrative Services Agreement ("ASA") applicable to the subject matter of this order, that GSA or ASA is incorporated by reference in this order as if fully set forth herein. In the event of a conflict between the terms and conditions set forth in that GSA or ASA and this order, the terms and conditions set forth in the GSA or ASA shall prevail and control.

1. Affiliate: "Affiliate" shall mean any entity which, from time to time, in whole or in part, and directly or indirectly, controls, is controlled by, or under common control with LG&E and KU Services Company, a Kentucky corporation, and shall include, without limitation, Louisville Gas and Electric Company and Kentucky Utilities Company, both Kentucky corporations.
  2. Company: "Company" shall mean LG&E and KU Services Company and/or any of its Affiliates as appropriate based on which entity is the party to the applicable purchase order or other binding document. The rights and obligations of LG&E and KU Services Company and each of its Affiliates hereunder shall be limited to the extent of such party's proportionate utilization of Contractor's services hereunder.
  3. Delivery and Acceptance: Time is of the essence. If any goods are not delivered or services performed within the specified times, or within a reasonable time if no time is specified, then Company may terminate this order by notice to Seller in addition to exercising all other rights and remedies available to Company under applicable law. All materials and work are subject to Company's acceptance. Payment shall not constitute acceptance.
  4. Warranties: Seller expressly warrants that the goods and/or services shall:
    - (a) Comply strictly with the provisions of the order and all specifications, drawings, and exhibits referred to in the order or thereafter furnished by Company; (b) Be new, merchantable, and of the most suitable grade in accordance with the highest industry standards and specifications; (c) Be fit for Company's intended purposes; (d) Be in full compliance with all applicable laws, ordinances, regulations, codes, and facility rules, including those relating to safety; and (e) Be free from any patent, copyright, or trademark claims, infringements or rights of others. All such warranties shall extend for a reasonable time, but in no case less than eighteen (18) months after delivery or twelve (12) months after the start of regular use by Company, whichever occurs first.
  5. Changes: Company reserves the right at any time to change the specifications, quantity ordered, and/or delivery date. Such changes may result in adjustments in the price or delivery schedule in accordance with the pricing and delivery structure of the order. However, in the case of a change in specifications, any claim for adjustment of price or delivery schedule by the Seller shall be waived unless such claims are asserted in writing within five (5) working days after receipt of Company notice of change. Seller shall continue performance pursuant to the order during the time any claim hereunder is pending.
  6. Termination: Company shall have the right at any time with or without cause to terminate the order by written, telegraphic, or electronic notice to Seller. In case of Seller's default, Company shall have all rights and remedies available under applicable law. In no case shall Company be liable for special, incidental or consequential damages. Company shall not have any liability for such termination except as follows:
    - (a) In case of termination of an order for goods specially manufactured for Company, if Seller is not in default, then Company shall be liable for actual costs incurred by the Seller prior to the notice of termination pursuant to the order up to the price of the goods.
    - (b) In case of termination of an order for services, if Seller is not in default, Company shall be liable for payment for services performed prior to the notice of termination.
    - (c) In case of termination of an order for goods not specially manufactured for Company, if Seller is not in default, Company shall not have any liability for termination of the order. Company shall have the right to return any goods purchased from Seller as long as such goods have not been specially manufactured for Company and are being stocked by Seller at the time Company returns the goods.
  7. Equal Employment Opportunity: To the extent applicable, Seller shall comply with all of the following provisions, which are incorporated herein by reference:
    - (a) Equal Opportunity regulations set forth in 41 CFR 60-1.4(a) and (c) prohibiting discrimination against any employee or applicant for employment because of race, color, religion, sex, or national origin;
    - (b) Vietnam Era Veterans Readjustment Assistance Act regulations set forth in 41 CFR 60-250.4 relating to the employment and advancement of disabled veterans and veterans of the Vietnam era;
    - (c) Rehabilitation Act regulations set forth in 41 CFR 60-741.4 relating to the employment and advancement of qualified disabled employees and applicants for employment;
    - (d) Clause known as "Utilization of Small Business Concerns and Small Business Concerns Owned and Controlled by Socially and Economically Disadvantaged Individuals" set forth in 15 USC 637(d)(3); and
    - (e) The subcontracting plan requirements of 15 USC 637(d).
  8. Indemnification: Seller agrees to release, indemnify, hold harmless and defend Company, affiliated companies, and all of their directors, officers, employees, agents, and representatives from and against any claim, liability, loss, and expense (including but not limited to attorney's fees) arising directly or indirectly out of or in connection with goods or services supplied under the order, including but not limited to those arising directly or indirectly out of or in connection with:
    - (a) Injury to or death of persons (including but not limited to the employees of Company) or damage to or loss of property (including but not limited to the property of Company); and
    - (b) Seller's failure to comply with or breach of any warranty or other obligation in this order. Seller's indemnification obligations shall apply, regardless of whether the party to be indemnified was concurrently at fault; but shall not apply if the party to be indemnified was solely at fault.
  9. Independent Contractor: Nothing herein shall be deemed to constitute Seller, or any of Seller's employees or agents, to be the agent, representative or employee of Company. Seller shall be an independent contractor and shall have sole responsibility for and control over the details and means of performance.
  10. Insurance: Before any parts of the services are performed or the goods are delivered, Seller shall, at Seller's sole cost, cause to be issued and maintained not less than the insurance coverage set forth below.
 

Type of Insurance	Limits (in \$ millions)	
Commercial General Liability (Including Contractual Liability) written on an occurrence basis	General Aggregate	2
	Prod./Comp. Op. Agg	1
	Personal & Adv. Injury	1
Automobile Liability, including any auto, hired autos and non-owned autos Excess Liability, Umbrella Form	Each Occurrence	1
	Each Occurrence	2
Worker's Compensation and Employer's Liability	Aggregate	2
	Each Accident	.5
	Disease - Policy Limit	.5
	Disease - Each Employee	.5
- Certificates of insurance satisfactory in form to Company and signed by the Seller's insurer shall be supplied by Seller to Company, evidencing that the above insurance is in force and that not less than thirty (30) calendar days' written notice will be given to Company prior to any cancellation or restrictive modification of the policies. The Seller shall cause its insurer to waive all subrogation rights against Company, except with regard to Worker's Compensation, and evidence thereof satisfactory in form and substance to Company shall be exhibited in the Certificate of Insurance. Seller's liability shall not be limited to its insurance coverages. Company shall be added as an Additional Insured under the Seller's Commercial General Liability, Auto Liability and Excess Liability policies.
11. Assignments: Seller shall not assign its rights or obligations hereunder wholly or in part, voluntarily, by operation of law, or otherwise without first obtaining the written consent of Company. Subject to the foregoing, the provisions hereof shall be binding upon the successors and assigns of the parties hereto.
  12. Governing Law: The transactions and agreements between the Seller and Company shall be governed by the subject to the law and jurisdiction of the Commonwealth of Kentucky (or the State of Virginia, if performance will occur at a Virginia site).
  13. Hazardous Materials: For hazardous materials as defined by 29CFR1910.1200, a Material Safety Data Sheet (MSDS) is required prior to delivery. Please mail to Company, Industrial Hygienist, at Company's address. NO ASBESTOS OR LEAD CONTAINING MATERIALS ALLOWED.
  14. Sales Tax: Do not bill Kentucky Sales Tax; Blanket Direct Pay Authorization maintained under 103 KAR 31.030. Louisville Gas and Electric Company Permit # 037710 and Kentucky Utilities Company Permit # 045084, and LG&E and KU Services Company will provide Resale Certificate for tangible personal property purchased for resale to affiliate subsidiaries as required under PUHCA.
  15. Invoicing Instructions: Show Order No., Line No. and Company Item Identification No. on invoice and all papers and packages relating to this order. Mail invoice to the "Bill To" address shown on the face of this Purchase Order for each lot of material shipped or delivered. Do not deliver invoices with goods. Freight must be transported as listed on the front of the Purchase Order. Freight that is prepaid and noted on the invoice must be substantiated by attaching to the invoice original transportation bills received to the carrier.
  16. Payment Terms: Unless otherwise agreed, payment terms are net 30 days on receipt of properly submitted invoice. Unless otherwise herein agreed, no COD orders will be accepted.
  17. Modification: This purchase order, together with any written instructions issued hereunder and any attachments hereto, contains the complete and final agreement between Company and Seller and any agreement that purports to modify the terms and conditions hereof shall not be binding upon Company unless made in writing and signed by Company's authorized representative.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information  
Dated June 15, 2012**

**Question No. 58**

**Responding Witness: Shannon L. Charnas**

- Q-58. Provide a copy of LG&E's most recent depreciation study. If no such study exists, provide a copy of LG&E's most recent depreciation schedule. The schedule should include a list of all pipeline and related facilities by account number, service life and accrual rate for each, the methodology that supports the schedule, and the date the schedule was last updated.
- A-58. See the information provided, as required by Commission regulation 807 KAR 5:001, Section 10(6)(n), located at Tab 33 of the Filing Requirements.

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information**

**Dated June 15, 2012**

**Question No. 59**

**Responding Witness: Lonnie E. Bellar**

- Q-59. Describe the status of any outstanding recommendations relating to electric and/or gas operations contained in LG&E's management audits. Identify any savings or costs related to management audit recommendations, the impact of which is not already reflected in the test year of this case.
- A-59. On March 14, 2012, LG&E and KU submitted the first Management Audit Action Plan Progress Reports regarding the Comprehensive Management and Operations Audit of the Customer Service functions to the Commission.

LG&E and KU accepted all recommendations and requested that ten recommendations (II-R1, II-R6, II-R9, IV-R1, IV-R2, IV-R4, IV-R5, IV-R7, IV-R8, and IV-R9) be considered complete. The remaining ten recommendations were considered ongoing by LG&E and KU and will be completed according to the implementation plan of each recommendation.

The original progress cost estimates were not split between LG&E and KU or within or outside the test period. LG&E and KU adjusted the original progress report to reflect actuals or more refined cost and benefit estimates. From a total perspective, the changes were not material. There are some amounts outside the test period that have yet to be spent and could change as a result.

The total LG&E and KU one-time costs were up by \$129,000 above the March 14 progress report reflecting a few late arriving invoices relating to the Morganfield Call Center construction and contingencies around the CTI/screen pop project. The total LG&E and KU annual recurring costs were down by (\$226,000) reflecting a decision to hire some of the call center representatives on a part-time basis and a lower than expected cost on the Field Services transactional study. LG&E and KU quantified the annual recurring benefit to be \$235,000 coming from decreased long distance charges and lower costs associated with reduced calls rolled over to a third-party provider, Twenty-First Communication.

<b>LG&amp;E</b>				
	Costs		Benefits	
	One-Time	Annual Recurring	One-Time	Annual Recurring
In Test Year	\$ 1,132,500	\$ 1,757,000	\$ -	\$ 113,000

**LOUISVILLE GAS AND ELECTRIC COMPANY**

**CASE NO. 2012-00222**

**Response to Commission Staff's First Request for Information**

**Dated June 15, 2012**

**Question No. 60**

**Responding Witness: Lonnie E. Bellar / Valerie L. Scott**

Q-60. Concerning LG&E's demand side management, conservation and energy efficiency programs, provide the following:

- a. A list of all programs currently offered by LG&E.
- b. The total cost of the programs LG&E offered during the test year and the costs incurred during each of the three most recent calendar years.
- c. Total demand and energy reductions realized under the programs LG&E offered during the test year and in each of the three most recent calendar years.

A-60. a. The current demand side management, conservation and energy efficiency programs offered at LG&E as approved by the Commission's November 9, 2011 Order in Case No. 2011-00134, are: Residential and Commercial Load Management; Commercial Conservation; Residential Conservation; Residential Low Income Weatherization; Smart Energy Profile; Residential Incentives; Residential Refrigerator Removal; Residential High Efficiency Lighting; Residential New Construction; Residential and Commercial AC Diagnostic and Tune-Up; Customer Education and Public Information; and the Dealer Referral Network.

b. LG&E demand side management cost of programs offered during the 12 months ending March 31, 2012 and the three most recent calendar years:

12 Months Ending March 2012	\$13,302,307.76
2011	\$12,302,314.52
2010	\$12,794,797.39
2009	\$10,978,811.54

c. The total incremental and cumulative demand and energy reductions realized under the programs LG&E offered during the test year and in each of the three

recent calendar years are reflected in the chart below. The cumulative demand and energy reductions reflect Portfolio to Date totals.

	<b>Demand Reductions (MW)</b>	<b>Energy Savings (MWh)</b>
<b>2009</b>	12.0	38,838
<b>2010</b>	14.2	60,200
<b>2011</b>	20.5	76,097
<b>Test Yr. Ending Mar. 31, 2012</b>	18.7	75,331

<b><u>Demand Reductions (MW)</u></b>	<b><u>2009</u></b>	<b><u>2010</u></b>	<b><u>2011</u></b>	<b><u>Test Yr.</u></b>
<b>Incremental</b>	12	14	20	19
<b>Cumulative</b>	86	100	121	123

<b><u>Energy Savings (MWh)</u></b>	<b><u>2009</u></b>	<b><u>2010</u></b>	<b><u>2011</u></b>	<b><u>Test Yr.</u></b>
<b>Incremental</b>	38,838	60,200	76,097	75,331
<b>Cumulative</b>	68,442	128,643	204,740	211,365
