**Account Description:**

This account represents expenditures deferred to be included in rate cases for future revenues and are included as regulatory assets. The Public Utilities Commission reviews the reasonableness of the costs and makes a decision on the recoverability of these costs. Upon approval by the PUC of these costs, the Company amortizes the approved costs over the life of the applicable rate order. Any costs deemed "unrecoverable" will be written off in the current period.

\*Rate Case Expenses for 2012 being deferred, will not amortize until new rate case approved. We have received a Reg Asset Form from Sheila Miller, please see attached.

- A** Our actuals this year are a bit high as a result of accelerating some projects to 2011 and or 2012 so it is expected that we may be a bit lower in our forecast year.
- B** We are expecting some efficiencies as a result of capital investments.

**Kentucky-American Water Company Capital Structure Workpaper**

All lines on the 'Cap Struct WPs' tab were updated with historical data - May 2011-Sept 2012

The first four tabs were not changed

The Non Leading Ledger was used for SAP reports for Aug and Sept

The interest account 810100 on the GL includes a (\$10,875.79) credit each month to 'Amortize Gain on Loan Payoff' that reduces the interest exp  
This adj is included in the file as the annualized (\$130,769), or (\$10,875.79) x's 12 and can be found in JDE under JR 1000 in account 120105.810100  
For Sept 2012, the (\$10,875.79) entry was recorded as a positive amount in error - this will be corrected in Oct - See cell F395 on 'SAP IS TrBal' tab  
The 'Cap Struct WPs' tab for Sept shows the correct calculated amount in Cell T169

The Prf Stk dividend accrual on the 8.47% \$4.5M balance is \$31,762.50 per month but had one day less of accrual in Aug 2012 and one day more in Sept 2012.  
So, the total is correct, but is shown as \$31,762.50 on the 'Cap Struct WPs' both months - see the 'PfStk 8.47%' tab for details

Series 6.593% Bond for \$47M was changed from 6.58% on the prior case's file based on the Global Rec

Note that the following Notes Payable Series are tax exempt per Corp Treasury 6.25%, 5.625%, 5.375%

The Series 5.05% Bond's interest was adjusted by \$673k in Nov 2011, the 1st month of interest accrual, in order to match the GL amount on an annualized basis  
The GL interest accrual for Nov 2011 was \$28,055.56 (annualized is \$336,666.72)

Note that there is an ongoing amortization of the Unamortized Debt for the 6.96% Series (BD120023)

Note that JDE account 215410 Pref Stck Outside was redeemed in July 2012. This results in zero dividends in JDE acct 860100 after July 2012.  
However, a portion, \$1,078.14 remained in July 2012 and was recorded in cell R354, not allocated by subledger

Note that account 231200.AW46 in JDE became 23120000 for historical data (through July 2012) in SAP for the Promissory Note  
A different account, SAP 23121000, now houses the loan balance for August and following.  
See the 'Note Pay' tab for JDE detail

The line 'ADD: ESPP & LTIP ACCRUAL' was added to the Common Equity section to account for the changes to the Misc PIC Account JDE 205440 (20520000 SAP)  
The transactions for Misc PIC is on the '205440 Detail' tab
