**RE: *Joint Application of Louisville Gas and Electric Company and Kentucky Utilities Company Demand-Side Management for the Review and Approval of a Two-Year Demand Side Program Related to School Energy Management and Associated Cost Recovery***  
**Case No. 2013-00067**

Dear Dr. Mathews:

Enclosed please find and accept for filing in electronic medium a copy of the Kentucky School Boards Association (“KSBA”) reports submitted to Louisville Gas and Electric Company and Kentucky Utilities Company (collectively “the Companies”) pursuant to Paragraph No. 2 of the Order dated April 30, 2013 in the above referenced matter.

These reports are being filed electronically pursuant to 807 KAR 5:001, Section 8. I certify that the electronically filed documents are a true representation of the original paper documents being hand delivered to the Commission on this date, and that all materials in the paper documents are included in the electronic filing.

The Energy Management Program for Schools stated primary goal is to support school districts in utilizing energy more wisely. The overall objective of Energy Management Program for Schools is for each school district to reduce consumption over time by an annual rate of 2.5 percent and achieve energy utilization indices (“EUI”) of fifty or lower. On August 15, 2016 the KSBA provided the Companies with its July 1, 2015 – June 30, 2016 annual report. Based on the reports provided, the overview below provides program performance as it relates to the interim results consistency with the program goals and objectives for the funded 2015-2016 school year.

LG&E:

Four LG&E school districts participate in the Energy Management Program for Schools with 50 percent of the participants having achieved a EUI of 50 or below. Based upon the normalized combined summer and winter electric consumption presented on page 13 of the report, these four school districts reduced their aggregate consumption from the 2014-2015 school year by 1.04 percent for the 2015-2016 school year, below the program goal.

KU:

There are 54 of the 78 KU school districts participating in the Energy Management Program for Schools with 28 percent of the participants having achieved a EUI of 50 or below. Based upon the normalized combined summer and winter electric consumption presented on page 17 of the report (without Fayette County Schools), the 54 school districts reduced their aggregate consumption from the 2014-2015 school year by 3.82 percent for the 2015-2016 school year , exceeding their goal.

Should you have any questions regarding the enclosed, please do not hesitate to contact me.

Sincerely,

Rick E. Lovekamp
