Xinlai –

As part of our Kentucky rate case requirement, we need to post a link to the Kentucky Public Service Commission's website on our website where we list the files that you have uploaded. Can we do that? Here is the link that I would like to post:

http://psc.ky.gov/efs/EFS_Search.aspx

If we cannot post the link to an external website, can we upload one additional attachment that would direct them to the Commission's website? See the attached.

I just received the e-mail below from Rates that they did not include one additional file that Kentucky requires to be on the tariffs web page. I placed the file in the Monthly Updates folder and named it like the previously loaded files except for the last node.

Would you please execute the load program again to place this additional file on the site?

Thanks, John

John –

I took one more look at the filing requirements for Kentucky and they also require that we post a copy of the customer notice and link to the Commission's website. Can we add that to where we have the nine volumes listed? I have attached the notice and below is the link that will take us as close to the case as I can get on the Commission's website.

Eric,

Please see email below and let John know if this looks ok.

Thanks

The 9 volumes of the Kentucky case are on the Atmos Energy web site
<http://www.atmosenergy.com/about/tariffs.html?st=KY#tariffs>

Please take a look (or have someone else look) and let me know if they are what you are expecting to see.

John

No, the current application does not handle this. I have to change the program for your request.
It is live now. Please verify and let me know.

Thanks
Xinlai

Earlier I received files from Rates a case is being filed today in Kentucky which must be posted to the Atmos Energy web site <http://www.atmosenergy.com/about/tariffs.html?st=KY#tariffs>

The filing consists of 9 volumes. The files are stored in the Monthly Updates folder under W: Rate Administration ([W:\Rate Administration\Website Updates\Monthly Tariff Updates](#)).

I doubt the existing upload program will handle this exact naming convention because we never set a convention of "pet" for Petition for Adjustment of Rates. However, the other components of the file name should load. Here is the naming I used and what the entry on the web page should appear as:

File Name ky_pet_20130513_Case 2013-00148_Vol 1
Web Entry Case 2013-00148, Petition for Adjustment of Rates – May 13, 2013, Vol 1

Let me know if I can be of assistance.
John
