

EXHIBIT P

PERMITS

Contractor shall assist Owner in obtaining and maintaining the necessary permits required in the name of Owner and shall obtain and maintain all other permits and licenses as applicable. Critical permits required for the development, design, engineering, financing, procurement, construction and operation of the Project, include but are not limited to those detailed below.

Owner's Responsibility:

- Prevention of Significant Deterioration (PSD) permit
- Construction Permit
- Title V Operating Permit
- Acid Rain Permit
- Kentucky Pollutant Discharge Elimination System (KPDES) Operating Permit
- Site Compatibility Certificate

Contractor' Responsibility:

Any other statutory or non-statutory clearance/permits including but not limited to:

- Compliance as required with federal, state or local requirements in as far as these are applicable to the design, manufacture, supply and erection of the equipment and the work required for erection and commissioning on Site.
- Also any documentation associated with these permits and approvals, as may be required for the ongoing operation of the plant, shall be made available to Owner prior to Substantial Completion.
- Kentucky Pollutant Discharge Elimination System (KPDES) Storm Water Discharges During Construction Permit.

Contractor shall submit a list of all permits Contractor will obtain for Owner review.
