

# EXHIBIT C

## FEE STRUCTURE & PROGRESS PAYMENT CASH FLOW SCHEDULE

The table is a cash flow schedule with multiple columns and rows. A horizontal line is drawn across the middle of the table. Above the line, there are several rows of data, with some cells containing black redaction boxes. Below the line, there are more rows of data, also with some redaction boxes. The table is organized into several vertical columns, likely representing different time periods or categories. The overall structure is that of a detailed financial schedule, but the specific values and labels are obscured by redaction.
