RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and repair efforts have been on going throughout the month as weather has permitted. May has seen an decrease in repairs and a decrease in water loss.

Shopes Creek Line Replacement Project is continuing to progress. Currently the project is about 65% complete. Progress payments have been started to be paid from surcharge funds, those items will be reflected in next month's surcharge report.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

Jacob Travis
District Manager
