RE: Case No. 2014-00267 – Surcharge Activity Report

Mr. McNeil,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and repair efforts have been on-going throughout the month as weather has permitted. September has seen an increase in repairs and a increase in water loss.

Shopes Creek Line Replacement Project is continuing to progress. During August's progress meeting, the project was considered 75.7% taking stored materials into account. Progress payment has been made to the contractors in the amount of $ 127,320.99.

If at any time you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

Jacob Travis
District Manager

Jacob Travis
