RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and repair efforts have been on going throughout the month with the number of leaks increasing from previous months, two of which were substantial in size.

Shopes Creek Line Replacement Project is continuing to progress. Currently the project is about 40% complete. One of the two Cleaner Water Grants has been exhausted; the second grant will has a small balance left and will be used upon next pay request. At that time, CWD will be using the funds from the Surcharge Fund account for future pay request until those funds are used in full.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Webb", is placed below the word "Sincerely,".

Tim Webb
District Manager
