RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and repair efforts have been on going throughout the month. January has seen a significant increase in loss due to extremely cold, freezing conditions and warm thawing periods. In general, this is to be expected in most systems this time of year.

Shopes Creek main replace project has now been bid. Cannonsburg Water has accepted the lowest bid from the contractor and has begun the process with the PSC for the CPN for Construction and Financing.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Webb", is placed below the word "Sincerely,".

Tim Webb  
District Manager
