RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and leak repair efforts have continued through out the month aside from some down time to complete our spring flushing cycle.

The Shopes Creek Phase II Water Loss Project is in the permitting process with the Kentucky Division of Water. However, due to increase in material and construction costs from the original Opinion of Probable Cost of \$1.2 million to \$2.6 million, Cannonsburg Water District will be looking at various options of financing this project.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Webb", is placed above the printed name and title.

Tim Webb
District Manager
