RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and repair efforts have been on going throughout the month as weather has permitted. April has seen an increase in repairs and a decrease in water loss due to winter weather conditions subsiding.

Shopes Creek Line Replacement Project is continuing to progress. Currently the project is about 55% complete. Work activity has begun to increase due to better weather conditions. Both Cleaner Water Grants have now been exhausted. At that time, CWD will be using the funds from the Surcharge Fund account for future pay request until those funds are used in full.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Webb", is placed below the word "Sincerely,".

Tim Webb
District Manager
