RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and repair efforts have been on going throughout the month. June and July have seen an increase in repairs due to the extreme hot and dry conditions however, crews have been able to keep up with detection and repairs.

Shopes Creek Line Replacement Project will soon be under way. Contractor was issued a Notice to Proceed, Contract Documents have been signed and, material submittals have been reviewed and approved. CWD will notify the PSC prior to actual start of construction. Once construction is underway, Cannonsburg Water District will first, use two grants for payments then use remaining Surcharge Funds to pay for the project. This project will exhaust all remaining Surcharge Funds.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Webb", is placed above the printed name.

Tim Webb  
District Manager
