RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and repair efforts have been on going throughout the month. Water Loss has increased this month due to 2 large line breaks. Both on main transmission lines.

Shopes Creek main replace project is nearing the bidding phase of the project. Along with this project, Cannonsburg Water has two other water loss projects that have made it through the project ranking and approval process with the FIVCO Add District. We look forward to updating soon on the complete scope of these two new projects with the PSC.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Webb", is placed above the printed name and title.

Tim Webb  
District Manager
