RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and repair efforts have been on going throughout the month. September, as with previous months, has seen an increase in repairs due to the extreme hot and dry conditions. However, crews have been able to keep up with detection and repairs. For the month of September CWD has made 34 water line repairs.

Shopes Creek Line Replacement Project is now in full swing. Construction crews have started the process of new line directional bores and new line open cut installs.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Webb", is written over a light blue horizontal line.

Tim Webb
District Manager
