RE: Case No. 2014-00267 – Surcharge Activity Report

Mr. Chandler,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Phase I Zone Metering Project update. All meters have been installed by the contractor and all radios and communication software has been installed. Meter flow information is now being received for all meters.

With the installation and readings of the programmed meters, CWD will now start the process of comparing that data with the customer usage data in each area. Once a baseline has been established, leak location efforts will be focused to those areas.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Webb", is written over the typed name.

Tim Webb
