RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Pinson,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to further gain control of its water loss.

Phase I Zone Metering Project design and specifications are complete. Currently CWD is awaiting confirmation that this project will be on the January KIA Board Meeting for approval. Once approved CPN will be immediately filed for review by the PSC.

Leak repairs are ongoing however, the month of December has been an exceptionally wet month with several days of high rain accumulations and flooding making leak detection near to impossible at times.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Webb". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Tim Webb
General Manager
