RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and leak repair efforts have increased now that we are back to fully staffed from COVID protocols. Two areas of loss were repaired resulting in a 550,000 gallon per month reduction from two leak repairs.

The Shopes Creek Phase II Water Loss Project is in the permitting process with the Kentucky Division of Water with an estimated February bid date. This project will replace approximately a combined 16,000 feet of 12", 8", 6" and 3" main and 150 +/- service lines.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Webb", is written over the typed name.

Tim Webb
District Manager
