RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Pinson,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to further gain control of its water loss.

Cannonsburg Water District has continued its leak detection efforts throughout the month. Along with leak discovery repairs completed, CWD had great deal of loss due to a contractor rupturing a 12" PVC line that was marked within the zone of influence the contractor was in. Repairs were quickly made by CWD staff. Estimated water loss for this excavation break is estimated at 380,000 gallons.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Webb", is written over a light blue horizontal line.

Tim Webb
