RE: Case No. 2014-00267 – Surcharge Activity Report

Mr. Chandler,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Phase I Zone Metering Project was advertised for bids and bid opening was on March 24th. Apparent low bidder was Triple B Construction. Contractor has been notified of intent to award pending typical due processes.

Water loss has risen impart due to no working monitor meters. Crews have now been assigned to visually checking areas as time and weather allows. Several smaller leaks have been located and repaired but no leaks of substantial size have been located as of yet. Once Zone Meter Contract is started, focus on known trouble areas will be first priority.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Webb", is written over the typed name.
