RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

The Shopes Creek Phase II Water Loss Project is in the permitting process with the Kentucky Division of Water. However, due to increase in material and construction costs from the original Opinion of Probable Cost of \$1.2 million to \$2.6 million, Cannonsburg Water District will be looking at various options of financing this project. CWD will also look at any and all cost savings options with the engineer.

Overall leak detection and repair efforts are going well however, due to availability of repair parts, repairs are becoming difficult at times. Brass parts and PVC pipe are the two most difficult items to get at this time.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Webb", is placed below the word "Sincerely,".

Tim Webb
District Manager
