RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and repair efforts have been on-going and have resulted in numerous smaller service line leak repairs and a small number of main repairs. Change in seasons and ground temperatures have dramatically increased leaks for October and November. For the month of October 30 leaks have been repaired. November is on pace to have just as many. Typical leak discovery and repairs for a month are 10-15.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Webb". The signature is stylized and fluid.

Tim Webb
District Manager
