RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Pinson,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to further gain control of its water loss.

Phase I Zone Metering Project is currently still under design. The plans and specifications are currently 85% complete. Loan application with KIA has been submitted but did not make the agenda for the December board meeting. Next scheduled KIA board meeting is in January 2020.

Leak repairs are ongoing. Currently CWD is averaging two repairs per day and continues to investigate areas on a daily basis for leaks.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in black ink, appearing to read "Tim Webb".

Tim Webb
General Manager
