RE: Case No. 2014-00267 – Surcharge Activity Report

Ms. Bridwell,

Please take a moment to review the status and actions Cannonsburg Water District has taken this month to gain control of its water loss.

Leak detection and repair efforts have been on-going and have resulted in numerous smaller service line leak repairs and a small number of main repairs. Change in seasons and ground temperatures have dramatically increased leaks for October and November. For the month of November 22 leaks have been repaired. December has also seen an above normal increase in leak repairs made along with an extremely large break on a 12" water line.

If at any time, you have any questions or concerns regarding this report please, do not hesitate to contact me for further information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Webb".

Tim Webb
District Manager
