Tim Webb, General Manager  
Cannonsburg Water District

**CANNONSBURG WATER DISTRICT**

**CASE NO. 2014-00267**

**Response to Commission Staff's Fifth Request for Information**

**Question No. 1**

**Responding Witness: Tim Webb**

**Q-1. Confirm that Cannonsburg District has ceased collection of the water loss surcharge. If not confirmed, explain why not.**

A-1. Cannonsburg District has ceased all billing for the water loss surcharge.

**CANNONSBURG WATER DISTRICT**

**CASE NO. 2014-00267**

**Response to Commission Staff's Fifth Request for Information**

**Question No. 2**

**Responding Witness: Tim Webb**

**Q-2. Explain how Cannonsburg District, if approved by the Commission, plans to spend its remaining water loss surcharge funds. Include in the explanation a timeline, specific cost estimates, approximate impact to the reduction in water loss percentage, and a correlated list of the planned projects.**

A-2. Cannonsburg District intends to seek Commission approval to use surcharge proceeds in the Shopes Creek Water Line Replacement Project. The Project is estimated to cost approximately \$3 million with funding coming from two grants, a KIA loan and the use of the remaining surcharge funds. The long-term water loss reduction for the project looks to be about 1-2% since this is a high leak area for water mains and service lines and one of the oldest lines within the system.

KIA Loan F22-030	\$1,685,083
Cleaner Water Grants	\$1,197,116
Total:	\$2,882,199

The Shopes Creek Project should be ready to advertise for construction bids within the next two (2) months. The final plans and specifications have been completed. The Division of Water has issued its approval letter and has certified to KIA that the Project can now be advertised for construction bids. All permits and easements have been obtained, except for two (2) private easements. These are expected to be signed within the next two (2) to three (3) weeks.

Another project that Cannonsburg District has planned is a four (4) phase project of replacing the 12-inch water main that feeds approximately 90 percent of Cannonsburg District's system. This is the oldest line in the system with many connections being over 40 years old. At this time, each phase is broken into a \$1.5-2.5 million project.

**CANNONSBURG WATER DISTRICT**

**CASE NO. 2014-00267**

**Response to Commission Staff's Fifth Request for Information**

**Question No. 3**

**Responding Witness: Tim Webb**

**Q-3. Explain if the remaining projects listed in the Qualified Infrastructure Improvement Plan will be completed. If not, explain why not, including a list of any projects that the district intends to complete.**

A-3. All projects listed at this time are intended to be completed, pending funding.
